Activity-based/Credit-based Funding Analysis

The proposal and award funding reports presented here are arranged by activity-based and credit-based sorting of proposal and award data. The purpose of this method of reporting is to identify how research funds are shared between units as an indicator of interdisciplinary research partnerships. The reports are arranged by college and then by department/administrative unit in each college as well as the campus-level center/institutes. There are four dollar amounts measured on each chart. The meaning of each bar is as follows:

- Blue – the amount based on the unit being the submitting unit of the proposal
- Red – the amount of the money shown in blue that was credited to faculty in other units
- Green – the amount credited to faculty of the unit no matter what unit was the submitting unit
- Purple – the amount in the green bar that came from other units

---
