RE: Continuation of Long-Term Disability Insurance

The Commission for Women supports the recommendations made by the Employee Relations Committee to initiate insurance payments for staff personnel that would cover the period from the time the employee's annual leave and sick leave pay expires to the time long-term disability insurance from other sources can take over.

Most long-term disability insurance payments begin 90 days after an accident or onset of a serious illness.

It is our understanding the Employee Relations Council will review the proposal at the November meeting.
