NLC PROGRAM TO HELP CITIES WITH AIRPORT NOISE PROBLEMS

By Wm. Gary Head, Municipal Consultant

Does your city have airport noise problems? If so, help is on its way. The National League of Cities is expanding its Urban Noise Project to provide technical assistance to communities which have problems with airport noise.

Through the program, Each Community Helps Others (ECHO), a network of knowledgeable local aviation officials has been established to provide a wide array of technical assistance. The technical assistance person for Tennessee is:

Bill Hickman
City Hall
Kingsport, TN 37664
(615) 245-0847
(615) 245-4790

If your city has an airport noise problem or if development is encroaching on your airport in a detrimental manner, NLC is seeking applications for assistance. Thom McCloud, phone (202) 626-3260, is in charge of the project and would like to hear from you.
