The Department of Art at the University of Tennessee is proud to present this year's series of M.F.A. Thesis Exhibits. The M.F.A. program, initiated in 1964, is dedicated to all the disciplines, promoting personal aesthetic exploration while also focusing on individual style. The exhibits, presented primarily in our Ewing Gallery of Art and Architecture, are the culmination of the three years of intensive study at the institution.

This catalog was developed by the graduate students and serves as a final documentation of their significant achievements. On behalf of the faculty, I would like to congratulate these students for their hardwork, growth, and for the diversity and quality of their accomplishments. We believe they will continue to be productive, successful artists with promising careers ahead.
