P R E F A C E

Welcome to the sixth annual Fact Book of the University of Tennessee, Knoxville. This edition features a slightly expanded student enrollments section.

As with all the previous issues, the staff of the Office of Institutional Research is grateful for the assistance we receive from our colleagues who collect and maintain the various university data bases. The amount of effort required to manage the information of the university is not always fully appreciated. Most of the tables and graphs herein identify the source from whom more detailed information may be obtained.

It is our goal with each new edition of the Fact Book to amend its contents so that the information can be more useful to you, the reader. Toward that end, we appreciate and welcome your comments and advice on how this document may be improved to better serve your needs.

Recent Accomplishments at UTK . . .

UTK was cited by **U.S. News & World Report** as the seventh best educational buy among U.S. universities.

Three UTK master's programs ranked in the **U.S. News & World Report** Top 50: business administration, education and law.

Dr. Gerald Mahan was elected to the National Academy of Sciences, the first UTK faculty member ever to earn that honor. Mahan is a UT-Oak Ridge National Laboratory Distinguished Scientist. He holds a joint appointment in the UTK physics department and the ORNL Solid State Division. Mahan was the first UT/ORNL Distinguished Scientist, joining UTK's Science Alliance in 1984.

The Engineering Manpower Commission ranked UTK among the nation's top institutions producing black engineering graduates.

The National Endowment for the Humanities awarded UTK libraries \$250,000 to locate, catalogue and preserve on microfilm all Tennessee newspapers, including those dating to the 18th century. It is anticipated that it will take the Tennessee Newspaper Project seven to eight years to complete the task.

UTK is attracting Tennessee's best and brightest students, with 30 McWhorter Scholars, 25 Tennessee Scholars, 10 Whittle Scholars, 145 Bicentennial Scholars, and 20 African-American Achiever Scholars enrolled for Fall Semester, 1995. The University Honors Program had 140 students enrolled for Fall Semester, almost triple the size of the previous year's class.

A growing number of National Merit Scholars select UTK as their first-choice institution. Thirty-eight enrolled in 1994-95 and 43 chose UTK for the 1995-96 academic year.

Kristey Reimann, a McClanahan Scholar in the UTK College of

Agricultural Sciences and Natural Resources was one of four U.S. students chosen by the American Soybean Association to intern in Moscow.

Enrollment in the College of Agricultural Sciences and Natural Resources increased for the sixth consecutive year and stands at 1,278.

In the fall of 1995, UT reached 80 percent of its \$250 million 21st Century Campaign goal, twelve months after it was announced.

UT endowments have grown from \$50 million to \$350 million since 1982, a 600 percent increase.

A team of UTK undergraduate nuclear engineering students won first place in a national student design contest sponsored by the American Nuclear Society.

The five agencies of UTK's Institute for Public Service responded to more than 41,000 requests for information or assistance from government and business.

EdNet is extending UT courses and other training by providing two-way TV and two-way audio. Campus continuing education divisions electronically extend degree programs, credit courses, and non-credit professional development programs to adult students in Tennessee. Statewide, UT has twelve classrooms, three conference rooms, one auditorium, and two multipurpose facilities connected via telephone lines and multipoint switches. This technology allows UTK to extend its social work degree program to Nashville and Memphis; the graduate program in library and information science to Memphis; the M.S. degree in communications to Chattanooga; and the graduate program in audiology and speech pathology to teachers in Knoxville, Oak Ridge, Chattanooga and Tullahoma.

The \$28 million, 119,000 square foot Science-Engineering Building has a commanding position on "The Hill." Slated for opening in early 1996, the building will contain a time capsule featuring student life in the 1990s which will be opened on UT's 250th anniversary in the year 2044.

FACILITIES

Building projects under way . . .

Right: An additional 10,000 seats will be added to Neyland Stadium's north end by Fall 1996, bringing the stadium's seating capacity to 102,000. Neyland Stadium is the second largest college football stadium in the nation. Only the University of Michigan stadium seats more fans.

Below: The new International House, a gathering place for all UT students, nears completion. The grand opening for the new 10,000-square-foot facility is scheduled for February, 1996. The International House is located on the north side of Hess Hall.

OUTCOMES

Commencement: An ending and a beginning . . .

Students get their final send-off address at commencement. They will join the ranks of many successful UT graduates. The University has produced one Nobel laureate, six Rhodes Scholars, five Pulitzer Prize winners, two National Book Award winners, one associate justice of the U.S. Supreme Court and one chief of staff to the President of the United States. UT awarded its 50,000th graduate degree in 1994. Approximately 25 percent of UT graduates return to graduate school within three years of receiving their bachelor's degree.

Graduation is an achievement for both parent and child. A father and son celebrate with a "high five" following graduation ceremonies.

RESEARCH

A tradition of outstanding researchers . . .

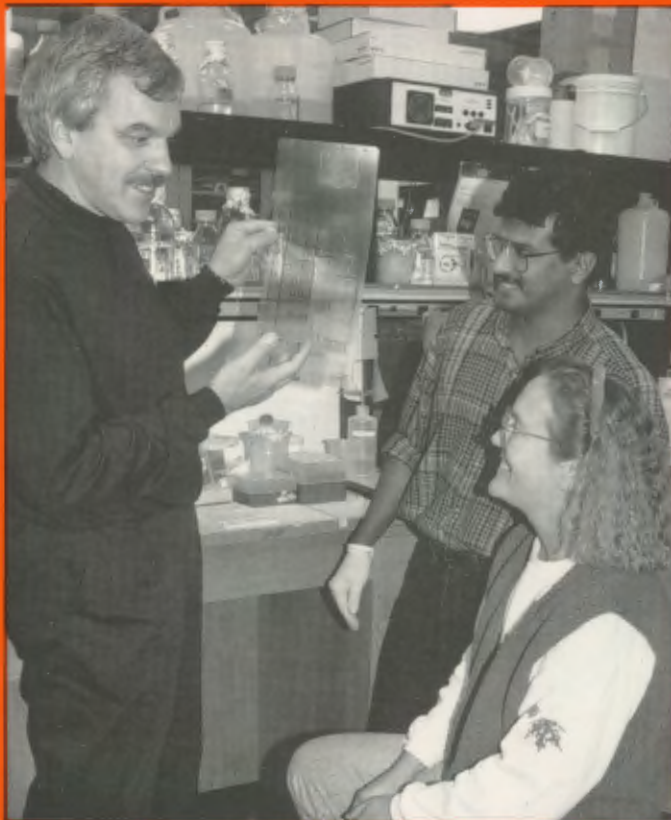

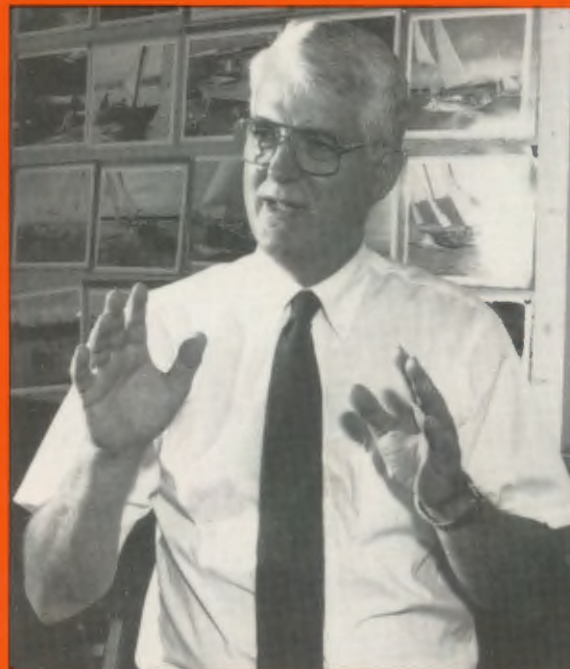

Photo by Sharon Littlepage

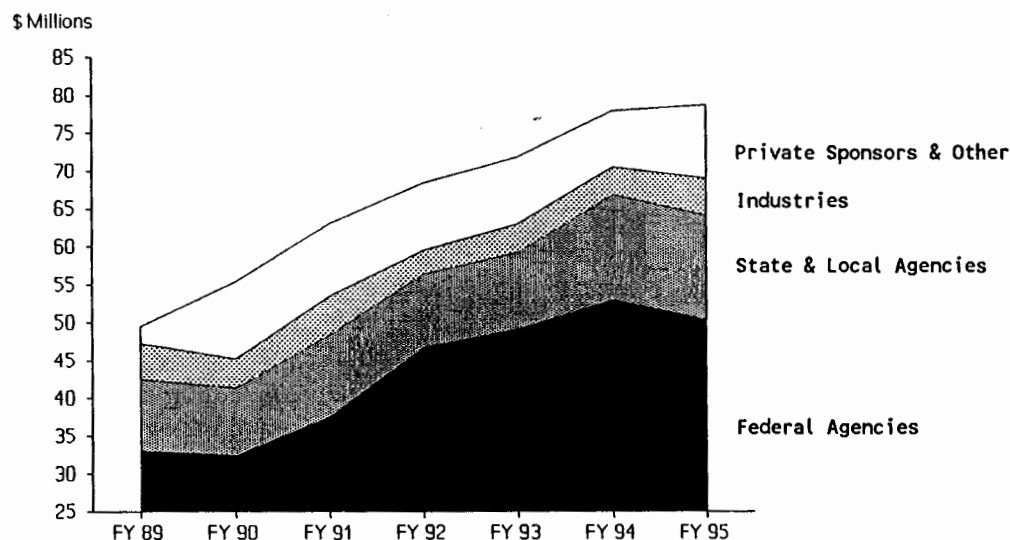

Right: Dr. Gerald Mahan was the first UTK faculty member to be elected to the National Academy of Sciences. Mahan holds a joint appointment in the UTK Physics Department and the ORNL Solid State Division. Mahan's accomplishments include the development of theories to explain the optical and electrical behavior of semiconductors.

Left: Professor Peter Gresshoff discusses a gel containing DNA separated from soybean with Research Associate Debbie Landau-Ellis and master's student Sanjeev Pillai. Dr. Gresshoff holds the Racheff Chair focusing on developmental genetics and DNA profiling. He is the first UTK faculty to be elected to the Russian Academy of Agricultural Sciences. There are 14 other Chairs of Excellence at UTK.
