uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale* Updating to match updated cirriculum and updated total concentration hours.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted ○ Yes ◉ No

by this change?*

Time-Based Arts (200-level) **3** *Credit Hours*

Two-Dimensional Arts (200-level studio in concentration) **3** *Credit Hours*

Credit Hours 16

Term 4 Milestone Notes

Complete an additional 200-level course from remaining areas (Two-Dimensional Arts, Three-Dimensional Arts, Time-Based Arts) with a grade of C or better.

[Before]Complete with a grade of C or better:
ARTA 211 Drawing I
[Right] *

Term 5

Applied Oral Communication Elective 3 *Credit Hours* *

Natural Sciences Elective 3 *Credit Hours* *

[1] Studio Elective (200-, 300-, or 400-level studio) 3 *Credit Hours*

Studio Electives (300- or 400-level studio) 3 *Credit Hours*

Two-Dimensional Arts (300- or 400-level studio) 4 *Credit Hours*

Credit Hours 16

Term 5 Milestone Notes

300- or 400-level course from ARTA with a grade of C or better

Complete an additional 200-level course from remaining areas (Two-Dimensional Arts, Three-Dimensional Arts, Time-Based Arts) with a grade of C or better.

[Before]Complete remaining course with a grade of C or better from:
ARTH 152 Survey of Islamic Art
[Right] *
ARTH 172 Western Art: Ancient through Medieval
[Right] *
ARTH 173 Western Art: Renaissance to Contemporary
[Right] *
ARTH 183 Asian Art
[Right] *
ARTH 187 Honors: Asian Art

Term 6

Global Citizenship - US Elective 3 *Credit Hours* *

[1] Studio Elective (300-, or 400-level studio) 3 *Credit Hours*

Two-Dimensional Arts (300- or 400-level studio) 5 *Credit Hours*

[1] Written Communications Elective 3 *Credit Hours* *

Credit Hours 14

Term 6 Milestone Notes

Completion of at least 9 upper-division (300-400 level) hours

Term 7

Non-Art Elective 3 *Credit Hours*

[1] Studio Electives (300-, or 400-level studio) 6 *Credit Hours*

Two-Dimensional Arts (300- or 400-level studio) 6 *Credit Hours*

Credit Hours 15

Term 7 Milestone Notes

Completion of at least 20 total upper-division (300-400 level) hours

Term 8

Art History (300-400 level) 3 *Credit Hours*

Capstone 3 *Credit Hours*

Engaged Inquiries Elective 6 *Credit Hours* *

[1] Studio Elective (300-, or 400-level studio) 3 *Credit Hours*

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 124

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

The courses indicated meet both a Volunteer Core Requirements* as well as a requirement in the major. Students can choose to complete the Volunteer Core Requirements* using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements.**

Requirements*

Campus

Knoxville

Prerequisites: Select one course (grade of C or better):

SOCI 110 Social Problems and Social Justice
[Right] *
SOCI 120 Introduction to Sociology
[Right] *

SOCI 127 Honors: Introduction to Sociology
[Right] *

SOCI 260 Introduction to the Study of Environmental Issues
[Right] *

Requirements: Select five courses:

SOCI 360 Environment and Resources
[Right] *
SOCI 361 Environmental Justice
[Right] *
SOCI 362 Population
SOCI 363 Food, Agriculture, and Society
[Right] *
SOCI 400 Special Topics
SOCI 463 Community, Sustainability and Justice
SOCI 464 Political Economy of Natural Resources and the Environment
SOCI 465 Social Values and the Environment
[After]
[After] * Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* The college advised us (see below note) that we were not allowed to require 100-level courses for minors therefore we are making the requested language changes.

"SOCI 110 and SOCI 120 were changed from pre-reqs to required and counting toward the minor when the minor switched to Environmental Sociology in 2022-2023 catalog and it wasn't caught until now because it wasn't showing on a students DARS as counting. A&S requires that all major and minor courses be at the 200 level or above, so allowing SOCI 110 and 120 to count towards the minor goes against A&S policy."

Financial Impact* n/a

Impact on Other Units* n/a

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

College of Arts and Sciences - Sociology - Sociology Major, BA

2025-2026 UG Revise Program

General Catalog Information

College* College of Arts and Sciences

Department* Sociology

Program Name* Sociology Major, BA

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Sociology major consists of **31 hours**. Ideally, students will take SOCI 321 and SOCI 331* no later than their junior year. SOCI 480 will be taken in the senior year. Students may declare a concentration in either criminology and criminal justice, environmental issues, or critical race and ethnic studies, and in honors.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus

Knoxville

Distance Education**

**Honors Concentration not available for Distance Education

Distance Education

For specific Admissions Requirements for Distance Learning students, visit https://volsonline.utk.edu/programs-degrees/bachelor-programs/

College Requirements

Arts and Sciences

Sociology – Prerequisites (6 hours)

Select one course (grade of C or better):

SOCI 110 Social Problems and Social Justice
[Right] *
SOCI 120 Introduction to Sociology
[Right] *
SOCI 127 Honors: Introduction to Sociology
[Right] *

Select one course:

MATH 115 Statistical Reasoning
[Right] *
STAT 201 Introduction to Statistics
[Right] *
STAT 207 Honors: Introduction to Statistics
[Right] *

Sociology – Major (31 hours)

The major consists of **31 upper-division credit hours** in Sociology.

Complete:

SOCI 321 Sociological Theory
SOCI 331 Sociological Research
[Right] *
SOCI 480 Capstone in Sociology

Select six courses:

300-400 level Sociology courses

Select two courses:

400-level Sociology courses

* Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

No changes to courses in the program. With the new Distance Education version of this Concentration, it is needed to add the newly created DE shared core to clarify that DE is available for non-honors version only.

Also added statement to indicate that Distance Ed version of Sociology Major is currently only available to students with 45 credit hours.

Financial Impact*

The addition of the "Distance Ed" campus code to the Sociology Major, BA, will have no financial impact on units within the College of Arts & Sciences or those in other colleges. The Department of Sociology has proactively worked with the college to secure a Non-Tenure Track Faculty (NTTF) line dedicated to sustaining the distance learning offerings. This position will support both the teaching needs of the online courses and assist with the management of the online program, ensuring the department can maintain high-quality instruction without additional financial burden on other units.

Impact on Other Units*

The addition of the "Distance Ed" campus code to the Sociology Major, BA, will not impact teaching loads or assignments in other units within the College of Arts & Sciences or in other colleges. The Department of Sociology has sufficient resources to manage the teaching of all required courses within the major, ensuring that this new option will be fully supported by the department's existing faculty and the recently secured Non-Tenure Track Faculty line dedicated to the online program.

Have you consulted with all programs/departments that will be impacted by this change?*
- (•) Yes
- ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

*** Meets Volunteer Core Requirements.**

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

The Department of Sociology has developed a robust suite of asynchronous online courses, enabling students to complete all major requirements for the Sociology BA entirely through distance learning. This flexibility is essential for accommodating non-traditional students, including working professionals, caregivers, and those with geographical or mobility constraints. By adding the "Distance Ed" campus code, the department will formally recognize this pathway, making it more visible and accessible to prospective students. This change aligns with the university's commitment to expanding educational access and meeting the evolving needs of our student population.

New shared core in this program clarifies DE is available for non-honors version only.

Financial Impact*

The addition of the "Distance Ed" campus code to the Sociology Major, BA, will have no financial impact on units within the College of Arts & Sciences or those in other colleges. The Department of Sociology has proactively worked with the college to secure a Non-Tenure Track Faculty (NTTF) line dedicated to sustaining the distance learning offerings. This position will support both the teaching needs of the online courses and assist with the management of the online program, ensuring the department can maintain high-quality instruction without additional financial burden on other units.

Impact on Other Units*

The addition of the "Distance Ed" campus code to the Sociology Major, BA, will not impact teaching loads or assignments in other units within the College of Arts & Sciences or in other colleges. The Department of Sociology has sufficient resources to manage the teaching of all required courses within the major, ensuring that this new option will be fully supported by the department's existing faculty and the recently secured Non-Tenure Track Faculty line dedicated to the online program.

Have you consulted with all programs/departments that will be impacted by this change?*

Description

The Sociology major consists of **31 hours**. Ideally, students will take SOCI 321 and SOCI 331* no later than their junior year. SOCI 480 will be taken in the senior year. An honors concentration is available.

The Critical Race and Ethnic Studies concentration is grounded in a theoretical tradition focused on a critical perspective to understanding race and ethnicity. Through a critical and historical lens, courses in the area interrogate how racial and ethnic categories coalesce around structural inequalities and across multiple geographies.

Requirements are SOCI 225* or SOCI 343* and two additional courses of either SOCI 452, SOCI 460, SOCI 466, or SOCI 472.

Credit Hours 16

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

*** Meets Volunteer Core Requirements.**

2025-2026 UG Revise Program

General Catalog Information

College* College of Arts and Sciences

Department* Sociology

Program Name* Sociology Major, BA - Honors Criminology and Criminal Justice Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students may pursue a concentration in Sociology with Honors, a concentration in criminology and criminal justice with honors, a concentration in environmental issues with honors, or a concentration in critical race and ethnic studies with honors. The honors concentration requires a 3.3 overall GPA, a 3.5 GPA in sociology coursework, with no grade of less than B+ in any sociology course, and at least 12 hours of honors courses. Honors courses must include SOCI 127* (or another honors course approved by the Director of Undergraduate Studies); SOCI 457 - Honors Thesis in Sociology and 6 additional hours of honors sociology coursework chosen in consultation with an advisor. The 6 additional hours may include SOCI 497 or honors by contract courses in sociology. In addition, students are required to complete an advanced sociological research methods course in the department (SOCI 431R, SOCI 433R, or other courses approved by the department). All prerequisites and requirements of the general sociology major or area of concentration are also required. The honors thesis may be original research or an in-depth theoretical exploration of an area within sociology, to be decided with the faculty member who agrees to direct the thesis.

Formal application must be made to the Director of Undergraduate Studies for admission to an Honors concentration. Please send a letter of application, detailing your interest in the honors major and your academic performance.

* Meets Volunteer Core Requirements.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* We do not offer SOCI 431R enough to make it the sole requirement for an advanced methods course in the honors concentration. We have been offering SOCI 433R more frequently.

Financial Impact* None.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Rationale* This course will also draw in new students to the department, and expand our contribution to Vol Core. Like THEA 205, this class has the potential to exponentially increase our student contact hours, which we need. It will also be a required course in the proposed Musical Theatre minor. This course will be submitted for Vol Core Requirement: GCUS (Global Citizenship-US)

Connections Package: Our World: Contemporary Arts and Culture

Broadway is and has been the cultural hub of American theatre for over a century. It is also the primary incubator for musical theatre, a quintessentially American art form that has influenced (and been influenced by) theatrical genres across the globe. Through studying the history of musical theatre on Broadway, students will learn about how Americans have chosen to portray most of our major cultural challenges and triumphs throughout modern history up to today.

Rationale* From AFST's proposal for the course: "Popular culture is a key area of identity creation, consumption, and stereotyping. Having a course that teaches students to critically analyze media and images is crucial for our students' development in our major. We are also creating this class to be asynchronous from the outset so that students will have a course with the initial pedagogy developed for an async online format."

WGS has asked to cross-list this course so that our students can learn from classes that critically engage with structures of power. AFST faculty agreed to this; proof of correspondence between WGS and AFST is attached to this proposal.

AFST will provide the materials required for the Connections package consideration.

Subject/Prefix (choose from list)* WGS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 419

Course Title (max 100 characters)* Gender and Sexuality in Ancient Western Philosophy

For N/R/S base courses, should this course be: ○ Active ○ Archived ○ N/A

Variable Title? ○ Yes ◉ No

Credit Hours* 3

Course Description This class examines how ideas of gender and sexuality influence various aspects of ancient Western philosophy, including metaphysics, ethics, psychology, political philosophy, and theology. By closely reading influential texts, this course will investigate how aspects ancient Western philosophy that may initially seem removed from concerns about gender and sexuality are in fact influenced by them and how these views influenced the philosophies of later intellectual traditions.

[Right] *
[After]
[After] * Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

- This proposal changes the name of category from the Professional Emphasis **B. International Retail Merchandising** to **B. International Retail and Hospitality Management**
- Split Category B into two sub-categories for students to choose one category: **B1. International Retail Merchandising (24 hours) and B2. International Hospitality and Tourism Management (24 hours)**
    - Both sub-categories include areas of interest to Language World Business students applying the language in the Retail, Hospitality and Tourism fields where language and business are a natural fit.
- Update available RMM courses and add HTM courses. – The new courses in B1 need to be listed out individually, as well listing the split to choose one from: after RMM 421 and before RMM 200 and RMM 210. I would also highly suggest adding a space between those categories because it's VERY crowded and would be easy to get confused. All Courses in B2 need to be listed out since it's a new section.
- Increase multidisciplinary partnership with other departments.
- Provide pre-requisites for the new 5-YR BA/MA LWB French and 5-YR BA/MA LWB Hispanic Studies (RHTM Master's in 2025-2026 GR catalog).
- This change should include **all nine language** concentrations under the WLC- LWB Program. Shared Core Usage- The shared core III. Professional Emphasis (select one) is currently being used in the following **8 WLC LWB programs**:
    - World Languages and Cultures Major, BA - Language and World Business/Chinese Concentration
    - World Languages and Cultures Major, BA - Language and World Business/French and Francophone Studies Concentration
    - World Languages and Cultures Major, BA - Language and World Business/German Concentration
    - World Languages and Cultures Major, BA - Language and World Business/Hispanic Studies Concentration
    - World Languages and Cultures Major, BA - Language and World Business/Italian Concentration
    - World Language and Cultures Major, BA - Language and World Business/Japanese Concentration
    - World Languages and Cultures Major, BA - Language and World Business/Portuguese Concentration
    - World Languages and Cultures Major, BA - Language and World Business/Russian Studies Concentration
- **The World Languages and Cultures Major, BA - Language and World Business/Arabic Concentration** has a proposal in submission to add this shared core, as it was not included with the other 8 last year when the program changed from MFLL to WLC.

Financial Impact*

[After] * Satisfies Volunteer Core Requirements

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

The current Asian Studies major curriculum offers students the choice between four different regional tracks, which results in a very lengthy and confusing Catalog entry. The Asian Studies program is creating four separate major concentrations for each of these regional tracks and revising the existing major create a general option within which students are free to take any combination of courses about Asia.

In all of our major concentrations, including the general Asian Studies concentration, we will no longer require intermediate proficiency in a specific Asian language, but we will allow students to count up to 8 credit hours of relevant courses at the 200 level, including intermediate Asian language courses.

As an interdisciplinary program, we cannot control when specific courses are offered, so we are also expanding the course offerings that students can take to complete the Asian Studies major. We hope that this will make it easier for students with an interest in Asia to find and complete the major, whether as a primary or secondary major.

Finally, we are adding a 1-credit capstone course (ASST 499), which will offer a way for Asian Studies majors to reflect on their learning in Asian Studies.

Financial Impact*

As a small program with approximately 20 majors and minors, we do not expect the addition of dozens of courses across several different departments to significantly affect enrollment in those courses. Having more options means that Asian Studies majors and minors will be more spread out across the Asian Studies curriculum. Therefore, we do not anticipate any financial impact on other units.

Impact on Other Units*

I have reached out to all departments whose courses will be added to this major concentration (vs. courses that are already part of the Asian Studies curriculum), and their approval can be found in the attached documentation. These departments include:

- Anthropology
- School of Art (Art History)
- Geography
- History
- Political Science
- Religious Studies
- World Languages and Cultures (Arabic, Chinese, Japanese, and Korean)

Have you consulted with all programs/departments that will be impacted by this change?*
- (•) Yes
- ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

ASST 499 Capstone in Asian Studies

Credit Hours 16

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

* Meets Volunteer Core Requirement.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ○ Yes
- ◉ No

Rationale*

The Asian Studies program is revising its major curriculum to add a 1-credit capstone course (ASST 499), so we are revising our uTrack program to include this course by the end of Term 8.

Correcting Term 3 Milestones to "Complete at least 36 hours by the end of the term" which previously stated "Complete 12 credit hours"

Financial Impact*

none

Impact on Other Units*

none

Have you consulted with all programs/departments that will be impacted by this change?*

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description It is strongly recommended that majors take SPAN 312* or SPAN 309* at the University of Tennessee prior to studying abroad. A maximum of 15 credit hours taken abroad may be counted towards the major. These requirements do not apply to UT faculty-led summer programs. Students whose level of proficiency in Spanish is superior as defined by the ACTFL Proficiency Guidelines may substitute a 400-level course for SPAN 312* with consent of the department. SPAN 311* and SPAN 312* are not available to native Spanish speakers or Spanish/English bilinguals, who should instead take SPAN 309* and an additional 300/400-level course with consent of the department. SPAN 311* may not be taken after completion of SPAN 312*.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students pursuing a major in World Languages and Cultures who wish to prepare for careers in international business may complete a special concentration in Arabic, Chinese, French and Francophone Studies, German, Hispanic Studies, Italian, Japanese, Portuguese or Russian Studies. The concentration offers a professional emphasis in international business, international retail merchandising, or international agricultural economics, and some form of practical experience related to the concentration.

Students interested in the language and world business program should contact the department of World Languages and Cultures as early as possible in their college careers.

Continuing, returning, and transfer students must meet progression requirements before declaring a concentration in language and world business.

Minimum requirements for entrance and progression to the major are a 2.7 cumulative average in all courses and a 3.0 average in language courses. Students must meet these requirements for progression prior to the completion of 75 hours. WLC 199 is a requirement for the program. Program standards are adjusted periodically, and current requirements are available from the Director of the Language and World Business Program. For further information, inquire at 701 McClung Tower.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

For qualified students, the Department of World Languages & Cultures offers a five-year BA/MA program with a BA major in Language & World Business/ French and Francophone Studies Concentration and an MA major in French. Qualified students take 6-9 credit hours of approved graduate courses for their senior undergraduate electives which count toward both the BA and the MA degrees. This 5-Year BA/MA is a coursework only option without comprehensive exam. Qualifications for admission to the program are:

The student must have an overall cumulative GPA of 3.00 and a cumulative GPA of 3.50 in undergraduate French and business courses.
Conditional and full admission must be approved by the Department of World Languages & Cultures and by the Graduate School.
Conditional admission may be granted after completion of 64 credit hours of the requirements for the BA in Language & World Business/ French and Francophone Studies Concentration.
Conditional admission must be obtained before taking a graduate course that is to be used to satisfy the requirements of both the BA degree and the MA degree.
Full admission may be granted after completion of 96 credit hours of the requirements for the BA in Language & World Business/ French and Francophone Studies Concentration.
Any course taken for graduate credit, prior to satisfying all requirements for the BA degree, must be approved by the department head (or designee) and by the Graduate School.
A student will not be eligible for a graduate assistantship until the student has satisfied all of the requirements for the BA degree.

Credit Hours Required

Minimum of 30 graduate credit hours

I. Language Requirement

21 credit hours of approved graduate courses in French, including 6-9 that count toward both the BA degree and the MA degree. A maximum of 3 credit hours taken at the 400-level may be applied (only those 400-level courses that appear in the Graduate Catalog qualify as graduate hours).

II. Business Requirement

9 graduate hours from the following list. A maximum of 6 credit hours taken at the 400-level may be applied (only those 400-level courses that appear in the Graduate Catalog qualify as graduate hours).

AREC 412 Agricultural Finance and Risk Management
AREC 420 International Agricultural Trade and Marketing
AREC 442 Advanced Agribusiness Management
AREC 470 Policy Analysis for Environmental and Natural Resource Management
ECON 421 International Economics
ECON 436 Economics of Health and Health Care
ECON 463 Environmental Economics
ENT 510 Leadership in Nonprofits and Social Entrepreneurship

RHTM 591 Industry Experience in Retail, Hospitality, and Tourism
RHTM 592 Industry Research Project in Retail, Hospitality, and Tourism
[After] * Satisfies Volunteer Core Requirement

Rationale*

1. Five-Year BA/MA Program - French Major, MA / World Languages and Cultures Major, BA-Language and World Business/French and Francophone Studies Concentration was approved in the 2024-2025 graduate catalog. This proposal requests that this Five- Year BA/MA Program be added to the undergraduate catalog under the **"Accelerated Combined Bachelor's/Master's Program."**
2. In addition, a hyperlink for the **Five-Year BA/MA Program - French Major, MA / World Languages and Cultures Major, BA-Language and World Business/French & Francophone Studies Concentration** should be added in the UG catalog as another option under the **Program Requirements** for the World Languages and Cultures Major, BA - Language and World Business/French and Francophone Studies Concentration
3. Twelve (12) new graduate courses from the Department of Retail, Hospitality, and Tourism Management (College of Education, Health, and Human Sciences), have been added to the **Business Requirement Section II** for a wider range of course options for students, and an increase multidisciplinary partnership with other colleges.
4. Need to revise **both** Five-Year BA/MA Programs titles to be consistent between the graduate and the undergraduate catalogs as follows:

- UG Catalog: Five-Year BA/MA Program- French Major, MA / World Languages and Cultures Major, BA- French and Francophone Studies Concentration
- GR Catalog: Five-Year BA/MA Program- French Major, MA / World Languages and Cultures Major, BA- Language and World Business/French and Francophone Studies Concentration

We have carefully reviewed this program name with the Graduate School office. In the undergraduate catalog, this program name will be "World Languages and Cultures Major, BA - Language and World Business/French and Francaphone Studies Five-Year BA/MA Program". This is the standard format for the undergraduate catalog.

Financial Impact*

None

Impact on Other Units*

Business courses are offered by the Haslam College of Business, the Department of Retail,Hospitality, and Tourism Management (College of Education, Health, and Human Sciences), and the Agriculture Institute. Approval emails from these colleges have been attached for review.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes
( ) No

CIP Code (if available)

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

For qualified students, the Department of World Languages and Cultures offers a five-year BA/MA program with a BA major in World Languages and Cultures- Language and World Business/ German Concentration and an MA major in German. Qualified students take 6-9 credit hours of approved graduate courses for their senior undergraduate electives which count toward both the BA and the MA degrees. This 5-Year BA/MA is a coursework only option without comprehensive exam. Qualifications for admission to the program are:

The student must have an overall cumulative GPA of 3.00 and a cumulative GPA of 3.50 in undergraduate German and business courses.
Conditional and full admission must be approved by the Department of World Languages & Cultures and by the Graduate School.
Conditional admission may be granted after completion of 64 credit hours of the requirements for the BA in Language & World Business/ German Concentration.
Conditional admission must be obtained before taking a graduate course that is to be used to satisfy the requirements of both the BA degree and the MA degree.
Full admission may be granted after completion of 96 credit hours of the requirements for the BA in Language & World Business/ German Concentration.
Any course taken for graduate credit, prior to satisfying all requirements for the BA degree, must be approved by the department head (or designee) and by the Graduate School.
A student will not be eligible for a graduate assistantship until the student has satisfied all the requirements for the BA degree.

Credit Hours Required

Minimum of 30 graduate credit hours

I. Language Requirement

21 credit hours of approved graduate courses in German, including 6-9 that count toward both the BA degree and the MA degree. A maximum of 3 credit hours taken at the 400-level may be applied (only those 400-level courses that appear in the Graduate Catalog qualify as graduate hours).

II. Business Requirement

9 graduate hours from the following list. A maximum of 6 credit hours taken at the 400-level may be applied (only those 400-level courses that appear in the Graduate Catalog qualify as graduate hours).

AREC 412 Agricultural Finance and Risk Management
AREC 420 International Agricultural Trade and Marketing
AREC 442 Advanced Agribusiness Management
AREC 470 Policy Analysis for Environmental and Natural Resource Management
ECON 421 International Economics
ECON 436 Economics of Health and Health Care
ECON 463 Environmental Economics
ENT 510 Leadership in Nonprofits and Social Entrepreneurship
HTM 560 Advanced Hospitality Analytics
HTM 584 Critical Sustainable Tourism
MARK 542 Marketing Innovations
MARK 544 Insights-Driven Innovation
RHTM 504 Qualitative Market Research
RHTM 510 Strategic Planning in Retail, Hospitality, and Tourism Management
RHTM 511 Entrepreneurship & Small Business Management in Retail, Hospitality, and Tourism
RHTM 515 The Changing Landscape in Retail, Hospitality, and Tourism
RHTM 516 Quantitative Market Research
RHTM 525 Customer Experience Management
RHTM 570 Executive Leadership in Retail, Hospitality, and Tourism
RHTM 584 International Study Tour in Retail, Hospitality, and Tourism Management
RHTM 591 Industry Experience in Retail, Hospitality, and Tourism
RHTM 592 Industry Research Project in Retail, Hospitality, and Tourism

Rationale*

1. The addition in the UG catalog of this World Languages and Cultures Major, BA- Language and World Business/German Concentration Five-Year BA/MA Program will complement and be paralleled to the already approved World Languages and Cultures Major, BA- Language and World Business/Hispanic Studies Concentration Five-Year BA/MA Program *and* the World Languages and Cultures Major, BA- Language and World Business/French and Francophone Studies Concentration Five-Year BA/MA Program.
2. Request to add the World Languages and Cultures Major, BA- Language and World Business/German Concentration Five-Year BA/MA Program to the undergraduate catalog under the **"Accelerated Combined Bachelor's/Master's Program."**
3. Request to add a hyperlink for the World Languages and Cultures Major, BA- Language and World Business/German Concentration Five-Year BA/MA Program be added in the UG catalog as another option under the **Program Requirements** for the **World Languages and Cultures Major, BA - Language and World Business/German Concentration** *and* the **World Languages and Cultures Major, BA- German Concentration**.
4. Business courses are offered by the Haslam College of Business, the Department of Retail, Hospitality, and Tourism Management (College of Education, Health, and Human Sciences), and the Agriculture Institute. See approval emails from these colleges in the attached proposal.
5. It gives students the opportunity to achieve higher value-added educational outcomes, employment, and career opportunities
6. Students may benefit from the updated eligibility of the HOPE Scholarship to include graduate work (additional 5th year).

Financial Impact*

None

Impact on Other Units*

Business courses are offered by the Haslam College of Business, the Department of Retail,Hospitality, and Tourism Management (College of Education, Health, and Human Sciences), and the Agriculture Institute. Approval emails from these colleges have been attached for review.

[After] * Satisfies Volunteer Core Requirement

Rationale*

1. Five-Year BA/MA Program - Spanish Major, MA / World Languages and Cultures Major, BA-Language and World Business/Hispanic Studies Concentration was approved in the 2024-2025 graduate catalog. This proposal requests to be added to the undergraduate catalog under the **"Accelerated Combined Bachelor's/Master's Program."**

2. In addition, a hyperlink for the **Five-Year BA/MA Program - Spanish Major, MA / World Languages and Cultures Major, BA-Language and World Business/Hispanic Studies Concentration** should be added in the UG catalog as another option under the **Program Requirements** for the World Languages and Cultures Major, BA - Language and World Business/Hispanic Studies Concentration

3. Twelve (12) new graduate courses from the Department of Retail, Hospitality, and Tourism Management (College of Education, Health, and Human Sciences), have been added to the **Business Requirement Section II** for a wider range of course options for students.

We have carefully reviewed this program name with the Graduate School office. In the undergraduate catalog, this program name will be "World Languages and Cultures Major, BA - Language and World Business/Hispanic Studies Five-Year BA/MA Program". This is the standard format for the undergraduate catalog.

Financial Impact*

none

Impact on Other Units*

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Total Credit Hours 120-126

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core Requirement* as well as a requirement in the major. Students can choose to complete the Volunteer Core Requirement* using alternative courses.

Hours differ depending upon the Professional Emphasis the student is completing.

* Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students pursuing a major in World Languages and Cultures who wish to prepare for careers in international business may complete a special concentration in Arabic, Chinese, French and Francophone Studies, German, Hispanic Studies, Italian, Japanese, Portuguese or Russian Studies. The concentration offers a professional emphasis in international business, international retail merchandising, or international agricultural economics, and some form of practical experience related to the concentration.

Students interested in the language and world business program should contact the department of World Languages and Cultures as early as possible in their college careers.

Continuing, returning, and transfer students must meet progression requirements before declaring a concentration in language and world business.

Minimum requirements for entrance and progression to the major are a 2.7 cumulative average in all courses and a 3.0 average in language courses. Students must meet these requirements for progression prior to the completion of 75 hours. WLC 199 is a requirement for the program. Program standards are adjusted periodically, and current requirements are available from the Director of the Language and World Business Program. For further information, inquire at 701 McClung Tower.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

2025-2026 UG Revise Program

General Catalog Information

College* College of Communication and Information

Department* Interdepartmental

Program Name* Communication and Information Major, BS in Communication and Information

Degree Type* Bachelor of Science in Communication and Information

Program Type* Undergrad (Major)

Campus code*
- [ ] Knoxville Campus
- [x] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This online-only degree program is designed for students interested in developing or enhancing skills for communication careers. Students will gain knowledge and skills in advertising, public relations, organizational communication, journalism and media and information sciences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Campus

Distance Education

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

[1] Any courses not already required for the major.

* Meets Volunteer Core Requirement.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale* Expand curriculum to include Volunteer Core requirements which will open the curriculum to all digital learning students.

Financial Impact* Limited - students will be taking additional KPV sections of courses to meet Volunteer Core requirements. This should be an overall positive financial impact.

Impact on Other Units* Limited - students will be dispersed throughout the KPV section offerings and with ASU partnership all Volunteer Core categories have multiple options.

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Rationale* Visuals, ranging from graphics, photos, videos, animations to data visualizations, are widely used to communicate scientific concepts and information. This proposed course will introduce the theoretical, practical and ethical principles of visual communication pertaining to science, environment, agriculture and health. This proposed course will prepare students to effectively and ethically communicate science information using visuals. This proposed course will hone students' skills at assessing and explaining the effects of science visualizations on attitude, emotion, and behavior, recommending visual strategies for communicating scientific and sustainability issues, and applying the learned strategies and theories to visual design.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The School of Communication Studies offers an honors program that provides a rewarding educational experience for exceptional students. All students must complete CMST 201* or CMST 207*; CMST 210* or CMST 217*, CMST 240* or CMST 247*; and/or CMST 250. After completing these required courses with a cumulative GPA of 3.5, students are eligible to apply for admission to the communication studies honors program. To graduate with honors, students must maintain a 3.5 cumulative GPA in all courses in the major and a 3.25 cumulative GPA in all university courses.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Select two science courses (7 hours) from the Natural Sciences (NS) Volunteer Core list. At least one of the courses must have a laboratory.

Chosen from the Quantitative Reasoning (QR) Volunteer Core list.

Choose from any courses not already required for the major.

Choose from the Arts and Humanities (AH), Applied Arts and Humanities (AAH), Social Sciences (SS), Global Citizenship - United States (GCUS), and Global Citizenship - International (GCI) Volunteer Core lists.

Choose from the Arts and Humanities (AH) Volunteer Core list.

Six hours of the same intermediate foreign language.

Choose from Written Communication (WC) Volunteer Core list. Sample options include ENGL 255* ,ENGL 257*, ENGL 295*, ENGL 355*, ENGL 357*, ENGL 360*, ENGL 455*; JMED 200*, among others.

Choose one course from the following: Global Citizenship - United States (GCUS) and Global Citizenship - International (GCI) Volunteer Core lists.

Two courses (6 hours) chosen from advertising, advertising and public relations, communication and information, communication studies, information sciences, journalism and electronic media, and/or public relations. CMST 392 may be counted toward this requirement.

Two courses (6 hours taken at the 300-400 level). These courses may be used to complete a minor or may be a combination of classes from all departments except Advertising, Advertising and Public Relations, Communication and Information, Communication Studies, Counselor Education, First Year Studies, Information Sciences, Journalism and Electronic Media, Physical Education, and Public Relations.

Choose from the Engaged Inquiries (EI) Volunteer Core list.

*** Meets Volunteer Core Requirements.**

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ○ Yes
- ◉ No

Rationale*

Communication Studies majors previously had to demonstrate competence through the intermediate sequence of a foreign language. This proposal is to expand the options for students, such that students will now "demonstrate competence through (a) the intermediate sequence of a foreign language or (b) two additional global citizenship classes beyond the two they take for VolCore, allowing students to choose between GCI and GCUS for each of them." The Communication Studies faculty voted to expand their curricular requirements to allow a wider range of options to develop intercultural understanding and skills.

CCI decided to add a three-hour professional development series incorporating coursework.

Financial Impact*

Tuition dollars from students taking these courses will now be spread across any unit that offers an intermediate sequence of a foreign language, a GCI course, or a GCUS course, depending on which specific courses students choose to enroll in.

CCI will incur the financial impact to adding the professional development series.

Impact on Other Units*

The Department of World Languages and Cultures may see fewer Communication Studies students in their classes (and as a result fewer tuition dollars) as some students choose option (b) listed above and take two additional GCI or GCUS courses in other departments. Dr. Julie Longmire informed Dr. Luis Cano (Head of the Department of World Languages and Cultures) and Dr. Liem Tran (College of Arts and Sciences Associate Dean) of this change via email. The email correspondence is included as an attachment to this proposal.

Have you consulted with all programs/departments that will be impacted by this change?*
- ◉ Yes
- ○ No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank. No

Footnotes

Select courses from the Volunteer Core list.

Select two courses from the Volunteer Core list. At least one of the courses must have a laboratory.

Select three courses from the Volunteer Core list from at least two subject areas.

Any courses not already required for the major.

Two courses chosen from advertising, advertising and public relations, communication and information, communication studies, journalism and electronic media, and/or public relations.

INSC courses not already required for the major. Students may elect to take DATA 102 as an INSC elective. Students must complete at least three INSC 400-level courses (nine credit hours) to earn the major in information sciences.

* Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale* The College has adopted three one-credit courses for a professional development series. Dropped CCI 150 and added the 3 one hour courses.

To align SIS with all the other Schools in the college in requiring a discipline-specific professional development course. The skills and knowledge students gain in INSC 496 will help increase their career readiness and positive outcomes.

Adding INSC 495 back into capstone option. This course was inadverntently dropped in a previous proposal.

Deleting Applied Oral Communication Elective because INSC 380 is a required course that is also an AOC

Financial Impact* Limited to CCI

Impact on Other Units* None

Footnotes

INSC courses not already required for the major. Students may elect to take DATA 301 as an INSC elective.

Any courses not already required for the major.

*** Meets Volunteer Core Requirement.**

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*
The School of Information Sciences would like to expand pathways for students in distance education. Dropping the requirement of the TN community college AS, AA, AST or AFA will allow more students to enter the major. The University now offers courses in all areas of Volunteer Core as distance education courses, so we feel confident that students can complete the major online, asynchronously.

Financial Impact*
Minimal - courses that were input are Volunteer Core categories or requirements of all students.

Impact on Other Units*
ENGL 101 and ENGL 102 are being offered asynchoronously online, so little impact now.

Have you consulted with all programs/departments that will be impacted by this change?*
- (•) Yes
- ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Information Security and Cybersecurity concentration is designed for students interested in careers in cybersecurity with an emphasis on information and data integrity and security. This concentration provides students with the knowledge and skills necessary to understand cybersecurity's conceptual, practical, theoretical, and policy underpinnings in the context of information and data life cycles. The program will prepare students to apply their knowledge and skills to assess and recognize evolving security vulnerabilities, threats, attacks, and risks to information and data; implement effective policies and governance frameworks; and manage their implementations to mitigate the threats to ensure information and data integrity.

The program and courses in the curriculum will cover topics including information and data security applications, ethics, privacy, accountability, bias, copyright and intellectual property, defamation, confidential information, electronic communication, compliance, audit, legal issues related to privacy and security, and advanced topics such as cybersecurity tools and controls (administrative, physical, and technical), unauthorized access, encryption/decryption, authentication, anonymity, ethical hacking, and security and risk analysis.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Chosen from any upper-division political science course.

If JMED 489 cannot be taken, choose from JMED 400 level course not already required.

*** Meets Volunteer Core Requirements.**

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

We are cleaning up JREM references from last curricular cycle to JMED and/or Journalism and Media.

The College of Communication and Information voted to incorporate a 3hr professional development series, so we are adding those classes.

The faculty also voted to add JMED 465 as concentration elective.

JMED 175 is an engaged inquiries elective now, so the JEM faculty voted to remove the EI elective requirement and use JMED 175 to fulfill those 3hrs of EI electives.

Since JMED 175 is an Engaged Inquiry Vol Core course, we are allowing students to use that as one of their required EI courses. As a result, this now allows them more flexibility by requiring them to take a general elective instead of another EI course. Additionally, adding JMED 465 as a Journalism and Media elective allows students in the concentration to take the Advanced Podcasting class and have it count toward their plan of study.

Financial Impact*

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Chosen from any upper-division political science course.

* Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

We are cleaning up JREM references from last curricular cycle to JMED and/or Journalism and Media. The College of Communication and Information voted to incorporate a 3hr professional development series and we are adding those classes.

In addition, since JMED 175 is an Engaged Inquiry Vol Core course, we are allowing students to use that as one of their required EI courses. As a result, this now allows them more flexibility by requiring them to take a general elective instead of another EI course. Additionally, adding JMED 465 as an Journalism and Media elective allows students in the concentration to take the Advanced Podcasting class and have it count toward their plan of study.

Financial Impact*

Minimal impact.

Impact on Other Units*

N/A

Have you consulted with all programs/departments that will be impacted by this change?*
- (•) Yes
- ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

College of Communication and Information - Tombras School of Advertising and Public Relations - Advertising Major, BS in Communication - Five-Year BS/MS Program

2025-2026 UG End Program

General Catalog Information

College* College of Communication and Information

Department* Tombras School of Advertising and Public Relations

Program Name* Advertising Major, BS in Communication - Five-Year BS/MS Program

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Bachelor of Science in Communication

Program Type* Concentration

Description

The department offers especially qualified students a Five-Year BS/MS program with a BS major in Advertising and an MS major in Communication and Information. The primary component of the program is that a qualified student may take up to 9 credit hours of approved graduate courses for their senior undergraduate electives and have them count toward both the BS degree and the MS degree. This program is designed for students pursuing their MS degree at UTK. Other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the BS degree. Qualifications for admission to the program are:

- Students must have an overall GPA of at least 3.4 to be admitted to the program.
- Conditional admission may be granted after completing 64 hours of required coursework while full admission is granted after completing 96 hours of required coursework with a minimum overall GPA of 3.4 in required coursework.
- Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees.
- All courses taken for graduate credit must be approved by the departmental chair of the program. Students admitted to the dual program must submit the Senior Requesting Graduate Credit Form to the Graduate School to receive graduate credit. Students admitted to the dual program must also follow the normal procedure for admission to Graduate School for the MS degree.
- Admission of students into this program must be approved by the department and the Graduate School.

* Meets Volunteer Core Requirement.

Requirements*

Rationale* we need to remove these from both grad and undergrad catalogs:

Advertising Major, BS in Communication - Five-Year BS/MS Program

Public Relations Major, BS in Communication - Five-Year BS/MS

Impact on Other Units* none, there are no students registered

Financial Impact* none, there are no students registered. I think it was an error, or just an old program?

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

College of Communication and Information has adopted a 3-hour professional development series. Dropped CCI 150 and included CCI 101, 201, and 401.

Course subject code changed for PBRL 340R and PBRL 310.

All electives were opened up to be college or general to make more pathways for students. Discipline specific accreditation body no longer requires 72 hours outside of major.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?
- [ ] Arts and Humanities
- [ ] Natural Sciences
- [ ] Social Sciences

College of Communication and Information - Tombras School of Advertising and Public Relations - Public Relations Major, BS in Communication - Five-Year BS/MS

2025-2026 UG End Program

General Catalog Information

College* College of Communication and Information

Department* Tombras School of Advertising and Public Relations

Program Name* Public Relations Major, BS in Communication - Five-Year BS/MS

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Bachelor of Science in Communication

Program Type* Concentration

Description The department offers especially qualified students a Five-Year BS/MS program with a BS major in Public Relations and an MS major in Communication and Information. The primary component of the program is that a qualified student may take up to 9 credit hours of approved graduate courses for their senior undergraduate electives and have them count toward both the BS degree and the MS degree. This program is designed for students pursuing their MS degree at UTK. Other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the BS degree. Qualifications for admission to the program are:

- Students must have an overall GPA of at least 3.4 to be admitted to the program.
- Conditional admission may be granted after completing 64 hours of required coursework while full admission is granted after completing 96 hours of required coursework with a minimum overall GPA of 3.4 in required coursework.
- Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees.
- All courses taken for graduate credit must be approved by the departmental chair of the program. Students admitted to the dual program must submit the Senior Requesting Graduate Credit Form to the Graduate School to receive graduate credit. Students admitted to the dual program must also follow the normal procedure for admission to Graduate School for the MS degree.
- Admission of students into this program must be approved by the department and the Graduate School.

Requirements*

Rationale* no students enrolled, need to end

Impact on Other Units* none

Financial Impact* none

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No

College of Education, Health, and Human Sciences - ASL - 200

2025-2026 UG Add Course

General Catalog Information

College* College of Education, Health, and Human Sciences

Department (Acalog Hierarchy)* Theory and Practice in Teacher Education

Subject/Prefix (choose from list)* ASL

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 200

Course Title (max 100 characters)* Visual Gestural Communication

Experience Learning Designation
- ( ) N (Internship)
- ( ) R (Research)
- ( ) S (Service Learning)

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Designed for students to explore a way of communicating that uses gestures, facial expressions, classifiers, and body language to convey information.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s): ASL 112 with a grade of C or better

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s):

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Observations made by our Deaf Studies faculty have led to identifying where our majors need additional targeted instruction in the development of ASL skills for working with deaf people in education, interpreting, or other settings. This course focuses on an important element of grammar that includes visual intonation and prosody that impact semantic meaning

Impact on Other Units* None

Financial Impact* Minimal initialy. There will be a slow rollout of the new courses to give adequate time to grow student enrollment and ensure the ASL program builds instructional capacity for the offerings. One of the courses will first be offered in Fall of 2026, and the other in Fall of 2027. They will continue to be offered every other year--one in odd years and one in even years--until there is a need and capacity to offer them yearly.

Equivalency

Rationale* This engaged course focused on careers in Counseling and Human Development and Family Studies (HDFS) provides a structured environment where students can explore different career paths, understand the skills and education required, and learn about emerging trends in counseling and human services. This is particularly relevant as there is not a currently undergraduate cousnseling major, leaving students uncertain of career options in this discipline even as demand for graduate-level counselors is expected to rise 22% in the next decade. The course is designed to bridge the gap between academic learning and real-world application. This helps students make informed career decisions, enhances their professional readiness, and aligns their educational experiences with market demands.

Impact on Other Units* N/A

Financial Impact* We anticipate demand for this course will well-exceed instructional cost for offering, thus creating funding opportunities for graduate assistantships.

College of Education, Health, and Human Sciences - Counseling, Human Development, and Family Science - Counseling and Human Services Minor

2025-2026 UG Add Program

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Counseling, Human Development, and Family Science

Program Name* Counseling and Human Services Minor

Learning Outcomes

1. identify various professional roles within counseling and human services, including the qualifications, responsibilities, and ethical considerations associated with these careers
2. apply scientific understanding of human development, mental health literacy, and wellness to current issues facing individuals, families, and communities
3. demonstrate essential counseling skills such as active listening, empathy, and effective communication within interpersonal and service learning engagements

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The minor in Counseling and Human Services provides students with foundational understanding of key concepts in the field, preparing them for a range of bachelor's-level or graduate-level careers. The minor emphasizes human development, mental health literacy, wellness, and facilitative skills, which are essential for individuals pursuing careers that support individuals, families, and communities. Students gain a comprehensive overview of the field, equipping them to understand and address human behavior, emotional well-being, and the psychosocial factors that influence overall health. The minor culminates in a capstone learning experience where students apply the theories and skills they have developed in real-world settings, enhancing practical understanding of the discipline. The minor is particularly beneficial for students pursuing careers in mental health, social services, education, and other helping professions, as it provides a strong academic and experiential base for future work or advanced study.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Rationale* The demand for graduate-level professional counselors is expected to increase by 22% in the next decade. A number of individuals interested in graduate counseling careers are also interested in bachelor's-level human service careers. This minor is designed to provide students interesting in these careers with foundation understanding of disciplinary foundations in professional counseling: human development, mental health, wellness, and relationship. In addition, students develop a foundational skillset and apply knowledge and understanding to a capstone experience that will position them for success in bachelor's-level human services careers and/or graduate study in counseling and related mental health professions.

Financial Impact* We do not anticipate a significant financial impact from offering this minor.

Of note, COUN 324 and PSYC 324 are new, cross-listed courses approved in an earlier CRC cycle. Likewise, COUN 325 and PSYC 325 are new, cross-listed courses approved in an earlier CRC cycle. We do not anticipate financial impact for PSYC given the nature of our cross-listed collaboration.

Impact on Other Units* Cross-listed versions of PSYC 324 and 325 are included in this proposal. We anticipate minimal impact given the nature of our cross-listed collaboration and the availability of multiple pathways to complete the capstone experience.

Have you consulted with all programs/departments that will be impacted by this change?*
- (•) Yes

- [x] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Program Policies and Progression Requirements

The Human Development and Family Science (HDFS) major is designed for students whose educational and career goals are focused on studying and working with children and families within community services and other professional settings. The major is designed to accommodate the special interests or strengths of students to allow for flexibility and individualization. Students design a program of study in consultation with their advisor that includes a set of required courses, a complement of courses across the social sciences that support individual interests, and a 6-hour internship that will complete their program of study. All students graduating with a major in HDFS will have in-depth knowledge about individuals and families, a broad integrative perspective, and means for application. Students must complete a total of 15 credits of Advanced Social Science coursework. Advanced Social Science courses may not be used to fulfill any other elective requirement. This required program of coursework culminating in internship meets the current eligibility requirements for certification as a "Certified Family Life Educator" (CFLE) through the National Council on Family Relations' approved program mechanism. Students interested in applying for provisional certification as a Family Life Educator are encouraged to pursue the steps indicated at ncfr.org.

Progression Requirements

Students are expected to know the criteria they must meet in order to progress into internship (HDFS 480N, or HDFS 490) and to regularly monitor their progress in meeting these criteria. Students will not be allowed to progress into internship until these criteria are met. If students do not appear able to meet these criteria, they are encouraged to work closely with their advisor to plan an alternative educational program. Specific information on how to apply for the internship is available from the student's advisor. Students must work closely with their advisor to ensure that they understand the requirements for progression and that they strictly follow the application process for the internship experience of their choice.

College of Education, Health and Human Sciences Honors Program

HDFS majors have the opportunity to participate in the college's honors program. For eligibility and requirements, see College of Education, Health and Human Sciences Honors Program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

- We added a distance education campus for this course
- After studying peer and aspirational institutions, we realized requiring 12 hours of practicum/internship (HDFS 480N or HDFS 490) was well in excess of others' practices. We reduced this requirment to 6 hours in order to enhance access to the major and align with best practice in the discipline.
- We added COUN 480 Skills for Counseling as a requirement for all students. This course will ensure students develop strong interpersonal communication skills for use in helping contexts with individuals and famiilies.
- We added HDFS 485 as an advanced current issues course that will allow the faculty to address a range of emerging trends and conversations in the discipline.
- We received an N-designation for HDFS 480. This proposal replaces HDFS 480 with HDFS 480N
- We renamed HDFS 480N and HDFS 490 from practicum to internship to modernize language. The proposal includes updated language throughout.
- We added requirement of C or better in all required HDFS and COUN coursework to ensure integrity of degree while opening up more flexible pathways to HDFS 480N internship.

Financial Impact* We anticipate opening a DE option of our major will have a positive financial impact on our department. We already offer many courses in an online format, so instructional cost will be minimal until enrollment grows to support additional sections.

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

College of Education, Health, and Human Sciences - Counseling, Human Development, and Family Science - Human Development and Family Science Minor

2025-2026 UG Revise Program

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Counseling, Human Development, and Family Science

Program Name* Human Development and Family Science Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The minor in Human Development and Family Science (HDFS) is focused on understanding human development and family systems in context and enhancing the health and wellbeing of individuals, families, and their communities. HDFS is designed to be interdisciplinary in nature in order to accommodate the special interests and strengths of students, while also allowing for flexibility and individualization.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* We added missing introductory text.

We will be offering a rotating current topics course, HDFS 485. The revision will allow for this course to count toward the minor.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

College of Education, Health, and Human Sciences - Counseling, Human Development, and Family Science - Interpersonal Skills Minor

2025-2026 UG Change Program Name / Department

General Catalog Information

Important Note:

This Change Program Name / Department form is to be used for changing the name of a program (major, concentration, minor, or certificate) and/or changing the department where the program is offered. Other regular revisions to program requirements can be included in this form.

College* College of Education, Health, and Human Sciences

Department* Counseling, Human Development, and Family Science

Program Name* Interpersonal Skills Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

Description Successful relationships are key in today's evolving workplace, but they don't always come about naturally. In this minor, students cultivate relational and communication skills, as well as critical thinking and practical experience, which form a professional foundation that will serve them as they are promoted to leadership roles throughout their careers. The minor pairs well with science, technology, engineering, and math (STEM) and other majors that train students for careers in fields of great technical expertise, as it provides the complementary leadership and workplace relationship skills. Students gain the interpersonal and collaborative prowess necessary to successfully thrive through the complexities of the modern workplace.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

For new majors: indicate the type of change
- ( ) New major name and new CIP code (requires THEC approval)
- ( ) New major name and keeping the same CIP code

For new majors: have you or will you be submitting THEC paperwork?
- ( ) Yes
- ( ) No

CIP Code (if available)

Rationale*
- Title updated to more clearly reflect the focus on skills rather than development
- Minor wording changes for clarity
- Drop EDPY 210 / add COUN 310 as required - EDPY 210 is tied to teacher licensure and preparation. While it provides an overview of human development related to educational settings, we believe COUN 310 better captures a range of developmental and relational processes.
- Choice of COUN 480 or HDFS 220 - Both courses include attention to human relational processes and skills for navigating in relational context. This change offers flexibility for students while staying consistent with purpose of the minor.
- Add service-learning options - we are in the process of phasing out COUN 460S. At the same time, we are adding cross-listed courses COUN/PSYC 324 and 325 as engaged learning. We added these options to allow flexibility while still requiring the service learning component to have person-to-person contact.

Financial Impact*
- We do not anticipate any substantial financial impact from these changes

Impact on Other Units*
- This removes a required course (i.e., EDPY 210) from the minor. We consulted with the home department, and they did not have concerns regarding financial impact of this shift. EDPY 210 has ample enrollment from teacher education majors.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

College of Education, Health, and Human Sciences - EDDE - 310

2025-2026 UG Drop/Archive Course

General Catalog Information

College* College of Education, Health, and Human Sciences

Department (Acalog Hierarchy)* Theory and Practice in Teacher Education

Subject/Prefix (choose from list)* EDDE

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 310

Course Title (max 100 characters)* Practicum

Credit Hours* 3

Change course status from active to:* (•) Dropped (Inactive-Hidden) ( ) Archived

Course Description Supervised practicum. Bilingual teaching, and social justice theory and practice. Lesson planning.

Satisfies Volunteer Core Requirement:

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale* This course is cross listed with ASL 310 which will remain and the focus of the practicum will broaden to using ASL with deaf populations across settings. Thus, the prefix ASL is more appropriate than EDDE (Deaf Education) which is being dropped here.

Dropping crosslisting with ASL 310

Impact on Other Units* None. Internal to Deaf Studies majors only

Financial Impact* None

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Program Description:

The Department of Educational Leadership and Policy Studies, through its Leadership Studies minor, offers a 12-credit hour curriculum of applied leadership learning and development within the collegiate setting to prepare students to be career ready and civic-minded graduates. This minor is open to students of every major and designed to enhance the undergraduate educational experience. The curriculum has an experiential approach to leadership learning and development. Students will have structured opportunities to combine contemporary leadership studies theory with coached leadership experiences. Leadership learning and development will accumulate throughout the completion of the minor and demonstrate the necessary leadership identity, efficacy, and capacity to exercise leadership in collegiate, civic, and career contexts.

Admission

Students can declare the Leadership Studies minor at any time by completing the College of Education, Health, and Human Sciences (CEHHS) Minor Add/Drop form. The CEHHS Minor Add/Drop Form can be found here: https://cehhsadvising.utk.edu/advising-resourcesforms/

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* We are responding to feedback from students and advisors. The revisions associated with this proposal should make a more clear pathway to complete the LSM.

Financial Impact* NA

Impact on Other Units* NA; we are adding some new electives. Units associated with new courses on the elective list have been notified. The rest of the electives remain unchanged.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Program Description:

The Department of Educational Leadership and Policy Studies, through its Leadership Studies Minor - Honors, offers a 12-credit hour curriculum of applied leadership learning and development within the collegiate setting to prepare students to be career ready and civic-minded graduates. This minor is open to Honors students of every major and designed to enhance the undergraduate educational and honors experience. The curriculum has an experiential approach to leadership learning and development. Honors students will have structured opportunities to combine contemporary leadership studies theory with coached leadership experiences. Leadership learning and development will accumulate throughout the completion of the minor and demonstrate the necessary leadership identity, efficacy, and capacity to exercise leadership in collegiate, civic, and career contexts.

Admission

Honors students can declare the Leadership Studies Minor - Honors at any time by completing the College of Education, Health, and Human Sciences (CEHHS) Minor Add/Drop form. The CEHHS Minor Add/Drop Form can be found here: https://cehhsadvising.utk.edu/advising-resourcesforms/

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- (•) Yes
- ( ) No

Rationale* These changes should better serve honors students interested in the Leadership Studies Minor. These changes align with the CEHHS honors program.

Financial Impact* There will be a slight financial impact. The LSM - H is moving to 12- credit hours, compared to the original 13-hours. However, we feel this change will create more opportunities for Honors students in engage with the LSM - H. No courses are being used outside of the Leaderhip Studies Minor.

Impact on Other Units* NA - The previous version of LSM - H did not have an elective option.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?
- [ ] Arts and Humanities
- [ ] Natural Sciences
- [ ] Social Sciences

ADMINISTRATIVE USE ONLY

Impact Level
- [ ] Low
- [x] Mid
- [ ] High

Notes

College of Education, Health, and Human Sciences - HDFS - 480N

2025-2026 UG Revise Course

General Catalog Information

College* College of Education, Health, and Human Sciences

Department (Acalog Hierarchy)* Counseling, Human Development, and Family Science

Subject/Prefix (choose from list)* HDFS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 480N

Course Title (max 100 characters)* Internship in Human Development and Family Science

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?
- ○ Yes
- ◉ No

Credit Hours* 3-12

Course Description Supervised experiences in human development and family science with an area agency serving the needs of individuals and families. Requires 120 hours of field placement for every 3 credit hours of enrollment.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

Satisfies Volunteer Core Requirement:

Instructional Method* Practicum

Contact Hour Distribution (if more than one instructional method)

Grading Restriction Satisfactory/No credit

Repeatability May be repeated. Maximum 12 hours.

Credit Restriction

Registration Enforced (RE) Prerequisite(s) HDFS 405, HDFS 440

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments Requires completion of at least 30 HDFS credits; minimum grade of C in all completed CFS/HDFS and COUN courses required for degree; and approved application. At time of enrollment in HDFS 480N, students should have no more than 15 credits remaining for degree completion.

Registration Restriction(s) Minimum student level - senior, cumulative GPA of 2.5

Registration Permission

Equivalency

Rationale* We renamed the course from practicum to internship to reflect trends in the discipline.

We have been requiring 12 credit hours of HDFS 480N for a total of 460 hours of field placement. Examination of requirements in peer and aspirational programs indicate that we require well in excess of the typical 100-300 hours of internship for those programs. We believe this presents an untenable opportunity cost and access issue for many undergraduates who cannot work full-time for one semester without any other coursework.

The faculty voted unanimously to reduce the number of credit hours of HDFS 480N required for the major from 12 to 6, thus moving internship to 240 hours effective AY25-26. Likewise, we revised attributes to allow all 240 hours to be completed in one semester (6 credits) or two semesters (3 credits each). We retained up to 12 hours to allow those who began in previous catalog years to complete the programs under which they began.

We revised prerequisites to ensure foundations for success in internship while also allowing more flexibility for concurrent enrollment in senior coursework.

Impact on Other Units* We do not anticipate changes to any other units.

Financial Impact* This will result in lower credit hour generation for our unit; however, students will complete other coursework instead. We anticipate negligible financial impact.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ Minor changes only/Not Applicable

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s):

Recommended Background

Comments

Registration Restriction(s) Kinesiology Major

Registration Permission

Equivalency

Rationale* KRSS is revising the curriculum for the undergraduate Kinesiology major to better reflect all subdisciplines within the core courses and meet the needs of a large enrollment. KNS 372 is a revision of KNS 422 (Biomechanics of Human Movement). The new course number reflects earlier sequencing and revisions to the course content that will focus more on fundamental principles of biomechanics and their application to human movement, and less on higher level math and physics application. The contact hour distribution will be updated to reflect 3-cr of lecture only (dropping the laboratory component). PHYS 221 will no longer be a required pre-requisite. The C or better requirement will be dropped from the MATH 125 or MATH 141 and KNS 332 pre-requisites. Lastly, the VolCore EI designation will be removed.

College of Education, Health, and Human Sciences - Kinesiology, Recreation, and Sport Studies - Kinesiology Major, BS in Kinesiology

2025-2026 UG Revise Program

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Kinesiology, Recreation, and Sport Studies

Program Name* Kinesiology Major, BS in Kinesiology

Degree Type* Bachelor of Science in Kinesiology

Program Type* Undergrad (Major)

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Kinesiology major prepares students for a variety of careers in health-related fitness and for graduate or professional study in various fields within kinesiology (exercise physiology, biomechanics, sport psychology, motor behavior, physical activity epidemiology, etc.), allied health professions (physical therapy, occupational therapy, physician assistant, chiropractic, athletic training, etc.) and medicine. Incoming freshmen ("first year students") can enter the Kinesiology major when they start at UT, or during their first two years. Transfer students can enter the Kinesiology major when they start at UT. If a chosen career path will require graduate school, a student should know that planning for that starts now. Educational preparation as an undergraduate is an essential part of success later on. Many students arrive at the university with the goal to become a physician, physical therapist, or other health professional, but they have little knowledge of what the profession is really like or of its demands. Because competition is so intense in medicine and other health professions, students should become as familiar as possible with the career they are pursuing, including the additional education requirements and the minimum GPA and grades in specific courses to be competitive for admission to graduate study.

Major Requirements and Rules

Advising Transition

Academic advising for freshmen, sophomores, and new transfer students in the Kinesiology major occurs in the College of Education, Health, and Human Sciences Office of Advising & Student Services (BEC 332). A student will transition to KRSS Department advising after he/she completes the following U-track milestones:

- Maintains a minimum cumulative UT GPA of 2.8.

At the end of each semester, staff of the CEHHS Office of Advising and Student Services will compile a list of students ready to change to departmental advising. Students will be emailed a letter with the name and contact information of their new department advisor. Students will then be responsible for scheduling a meeting with their new advisor to complete this transition.

College of Education, Health and Human Sciences Honors Program

Kinesiology majors have the opportunity to participate in the college's honors program. For eligibility and requirements, see College of Education, Health and Human Sciences Honors Program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

The field of kinesiology has evolved substantially over the last 10 to 20 years. Most undergraduate majors historically trained to enter the workforce as physical education teachers and fitness professionals. Now the vast majority of undergraduate majors in Kinesiology at UTK and across the United States are preparing to pursue graduate education in medical disciplines such as physical therapy, occupational therapy, medical school, and physician assistant programs. With this shift in mind, we have designed a curriculum that provides a balanced viewpoint of the scientific study of human movement and behavior. The courses included will provide a strong foundation for graduate study and the curriculum has been carefully designed to allow ample room for program electives that may be required by various graduate programs.

The changes also demonstrates a cohort model and reflects the interrelatedness of concepts (foundational to advanced) across coursework. We hope for an Increased liklihood of students networking and relating to their peers. Increased accessibility and understanding to empower students during enrollment periods (especially needed when CEHHS advising is overburdened). The changes also gatekeep the KNS courses (KNS 200) required in Year 1 which will identify at-risk students early for remediation plans / advising into another major. This results in a reduced time lapse between relevant high school coursework (math; anatomy) and related university-level coursework. Set performance-, behavioral-, and professional-related expectations to succeed in the KNS major. In addition, the changes adjust the required KNS coursework sequenced to occur in the first three years. This allows optimal planning to set the timetable and secure instructors in 3 or 5-year intervals. Prevent clustering of upper-level KNS during the fourth year.

Program electives can integrate content with the expectation that students are upper-level with the required base knowledge for introducing more advanced/nuanced concepts. Leaves substantial flexibility for program electives and unrestricted electives. With all these changes we have worked to also integrate Volunteer Core courses throughout the program of study.

Specific Changes include:

- Removing the "C or better" language in many places. Instead inserting a milestone GPA requirement of 2.8. The faculty felt this adjustment continues to hold students accountable, but gives flexibility when a C grade is not achieved in a single course.
- Creating program electives to combine department electives, kinesiology electives, and professional electives into one group.
- Adding in an increase of unrestricted electives to allow more curriculum flexibility.
- Moving the KNS 200 and NUTR 100 requirement up into either terms 1 or 2 as a part of the cohort model.
- Removing the requirement of MATH 115, STAT 201/STAT 207, or PHYS 221. Instead, replacing this with a Quantitative Reasoning elective in term four.
- Removing the requirement for CHEM 132, and replacing it with an unrestricted elective in term 3.
- Moving KNS 350 from a required course to a program elective as well as adding in KNS 410 and KNS 460 as additional program electives.
- Designating Volunteer Core courses as electives in many places instead of requiring specific courses.
- The creation of "sample sequences" aimed at helping students with various career goals to take the coursework needed to progress in their desired field of study.
- Cleaning up the footnotes to reflect current course offerings and options.

Financial Impact*

There is no anticipated financial impact with this curricular change. We have not changed the overall hours required for the degree and will be able to accommodate changes in courses by redistributing the teaching load of current instructors.

Impact on Other Units*

We have notified departments in which students are no longer required to take their courses, including Math, Physics, Chemestry, and Statistics. Many of our students will still take these courses, but becuase they are no longer prescribed in the term model, these departments may be impacted.

Have you consulted with all programs/departments that will be impacted by this change?*

College of Education, Health, and Human Sciences - Kinesiology, Recreation, and Sport Studies - Recreational Therapy Major, BS in Recreation and Sport Management

2025-2026 UG Change Program Name / Department

General Catalog Information

Important Note:

This Change Program Name / Department form is to be used for changing the name of a program (major, concentration, minor, or certificate) and/or changing the department where the program is offered. Other regular revisions to program requirements can be included in this form.

College* College of Education, Health, and Human Sciences

Department* Kinesiology, Recreation, and Sport Studies

Program Name* Recreational Therapy Major, BS in Recreation and Sport Management

Degree Type* Bachelor of Science in Recreation and Sport Management

Program Type* Undergrad (Major)

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

Description

The Recreational Therapy major prepares students to work in a range of healthcare and community-based settings such as mental and behavioral health, rehabilitation centers, drug and alcohol treatment facilities, long-term care facilities, parks and recreation, schools, and the camp environment. The experienced faculty will prepare students with specialized knowledge and skills to design, implement, and evaluate programs and services for individuals with disabilities. The program requires several out-of-class commitments, including overnight and weekend day commitments, and students should be prepared to complete background checks, drug screens, and other organizational requirements. Additionally, this program requires three field experiences that must be taken in sequence. The first two are part-time practicum experiences and the program concludes with a semester-long internship experience. Graduates fulfill the eligibility requirements for the National Council for Therapeutic Recreation Certification examination.

Major Requirements and Rules

Advising Transition

Academic advising for freshmen, sophomores, and transfer students in the Therapeutic Recreation major occurs in the College of Education, Health, and Human Sciences (CEHHS) Office of Advising and Student Services (BEC 332). If you have not been advised by anyone in CEHHS Advising before, please visit their website for more information about scheduling an appointment with their office. The KRSS Advising Staff is not able to review a student's academic history if they are not currently a Therapeutic Recreation major.

A student will transition from CEHHS Advising to KRSS Department Advising after he/she completes the following:

- Maintains a minimum UT GPA of 2.5 after a minimum of 30 hours of coursework
- Completion of RSM 201 with a grade of C or better
- Completion of ENGL 101* and ENGL 102*, and one Quantitative Reasoning course

At the end of each semester, staff of the CEHHS Office of Advising and Student Services will compile a list of students ready to change to departmental advising. Students will be emailed an advising transition letter with the name and contact information of their new department advisor. Students will then be responsible for scheduling a meeting with their new advisor to complete this transition. Scheduling with KRSS Advisors should be done via email by contacting your new advisor directly.

Minimum Grades and Required GPA for Continuation in the Major

Any Recreation and Sport Management course taken must be passed with a minimum grade of C. A 2.5 GPA is required to register for RSM 294N*, RSM 394N*, and RSM 494N and to graduate.

College of Education, Health and Human Sciences Honors Program

Sport Management majors have the opportunity to participate in the college's honors program. For eligibility and requirements, see College of Education, Health and Human Sciences Honors Program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

For new majors: indicate the type of change
- ( ) New major name and new CIP code (requires THEC approval)
- (•) New major name and keeping the same CIP code

For new majors: have you or will you be submitting THEC paperwork?
- ( ) Yes
- (•) No

CIP Code (if available) 31.0504

Rationale*

The change that we are proposing is to update the title of the major to fit industry changes. The faculty met and discussed the need to make this revision, and all agreed on this change. Please see our professional organization's webpage description of our profession at https://www.atra-online.com/about-rt and the credentialling body within our organization at https://www.nctrc.org/about-nctrc/ for illustrations of language changes that have occurred in the industry.

Financial Impact* This change will not have any financial impact or faculty resource impacts.

Impact on Other Units* n/a

College of Education, Health, and Human Sciences - LEAD - 207

2025-2026 UG Change Course Number / Subject / Department

General Catalog Information

Important Note:

This Change Course Number / Subject / Department form is to be used for changing the course number, subject code, and/or the department where the course is offered. Other regular revisions to course requirements can be included in this form.

College* College of Education, Health, and Human Sciences

Department (Acalog Hierarchy)* Educational Leadership and Policy Studies

Subject/Prefix (choose from list)* LEAD

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 207

Course Title (max 100 characters)* Introduction to Leadership Studies (H)

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This course is a broad survey of contemporary approaches to studying, learning, and practicing leadership. Honors students will receive foundational knowledge associated with leadership theory and practice across personal/individual, relational, and processual ontologies of leadership. Students will use new knowledge of theoretical frameworks to envision personal and collegiate leadership learning experiences that will prepare them to exercise leadership in civic and career contexts.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?
- ( ) Yes
- (•) No

Credit Hours* 1

Course Description This is a coached leadership practicum course. Students will participate in a supervised leadership process/experience that includes intentional individual and group leadership coaching. Individual and group coaching sessions will equip students with understanding of self/leadership identity, interpersonal/group dynamics associated with leadership, and strategies to diagnosis and make progress on real-world leadership challenges in collegiate, civic, and/or career preparation contexts.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Repeatability May be repeated. Maximum 4 credit hours.

Credit Restriction

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s) LEAD 350 is 1-credit and a co-requisite with LEAD 349 2-credits. Once a student has completed the initial sequence of 2-credits of LEAD 349 and 1-credit of 350, LEAD 350 can be repeated an additional 3 times, 4 times total. 1-credit per semester is recommended.

Recommended Background

Comments

Registration Restriction(s)

Registration Permission Consent of instructor.

Equivalency* This course was previously offered as ELPS 350.

Rationale* This improves coached leadership practicums for students. Co-req ensures students get necessary content and can still participate in coached practicums without repeating curriculum associated with LEAD 349.

Impact on Other Units* NA

Financial Impact* Instead of being able to take 6 hours of coached leadership practicum, students will now only be able to take 4 hours. Units/partners that host coached leadership practicums are aware of this change.

Course Description This course is designed to interrogate contemporary issues in the various sub-fields of leadership studies – leadership practice, leadership learning & development, and research on leadership and leadership learning in collegiate, civic, and organizational contexts. A core commitment of the course will be to expose honors students to the interdisciplinary edges of the associated sub-fields of leadership studies.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

Instructional Method* Seminar

Rationale* The undergraduate community nutrition concentration has built in contact hours with faculty in the last two years of the program. This contact time allows students to receive individualized instruction and supervision related to implementing and evaluating community nutrition education programming. To make this experience uninterrupted in the final three semesters of the program, we are requesting that an increase in the maximum hours of NUTR 493 to be 9 credit hours.

Impact on Other Units* No impact.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Nutrition major is designed for students interested in basic, applied, and community nutrition sciences, and students are able to pursue one of three concentrations: The Biomedical Nutrition Science Concentration, the Community Nutrition Concentration, and the Dietetics Concentration. Each concentration includes a foundation in the basic sciences and introductory nutrition coursework which is built upon through advanced concentration-specific coursework, including nutrient metabolism, nutrition in disease prevention and treatment, elements of community nutrition, and interpretation of nutrition research literature. Students pursuing the Community Nutrition Concentration are trained in competencies needed to become a Certified Health Education Specialist (CHES) and to work in the community in a variety of roles, such as nutrition educators, WIC nutritionists, health and wellness coaches, and worksite wellness program coordinators, and in a variety of settings, such as public health departments, community agencies, and Extension programs. Individuals with CHES certifications are commonly employed in healthcare, government, university, business, community/non-profit, and K-12 education settings. For qualified students, the Department of Nutrition offers a 5-year BS/MS accelerated degree program with a major in Nutrition and a concentration in Community Nutrition. Interested students should see the section of the catalog specific to this program or see the Nutrition program information in the Graduate Catalog. This can lead to the Public Health Minor, but the student must declare it.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

For qualified students, the Department of Nutrition offers a 5-year BS/MS accelerated degree program with a major in Nutrition and a concentration in Community Nutrition. Central to this program is that a qualified student may take up to 9 credit hours of approved graduate courses for their senior undergraduate electives and have them count toward both the BS degree and the MS degree. Students will be considered for conditional admission to the program by the end of their junior year of undergraduate study at UT. Students can choose from a project option or a course-only, no comprehensive exam option. Those who choose the project option will begin working on their project not later than Term 6 of undergraduate studies by enrolling in NUTR 493 with Public Health Nutrition faculty. For each student in the program, a graduate advisory committee composed of a minimum of three faculty members must be established before completion of Term 7. To be considered for conditional admission to the program. This can lead to the Public Health Minor, but the student must declare it.

- A student must be a declared Nutrition major, Community Nutrition Concentration, with a minimum GPA of 3.30, must have completed at least 15 credit hours of Nutrition courses, and must have completed at least 90 credit hours of the 120 credit hours of coursework required for the BS degree with a major in Nutrition.
- A student must provide three letters of support from three Community Nutrition faculty members.
- A student must obtain a commitment from a Nutrition graduate research faculty member to serve as their graduate mentor-advisor (i.e., major professor) and as the chair of their graduate advisory committee.
- The Department may consider other relevant factors such as an applicant's work experience before conditionally admitting a student to the BS/MS accelerated degree program. Conditional admission of a student into the 5-year BS/MS accelerated degree program must be approved by both the Department of Nutrition and the Graduate School. Students will be typically informed of the outcome of their application before they start their senior year of undergraduate study.

Any graduate course taken before satisfying all requirements for the BS degree must be approved by the student's graduate advisory committee, the Director of the Program in Public Health Nutrition, the Department Director of Graduate Studies, and the Graduate School. These graduate courses must be identified in advance in consultation with the undergraduate advisor and the graduate advisory committee.

A student that is conditionally admitted to the BS-MS accelerated degree program may complete up to 9 credit hours of graduate level coursework during the student's undergraduate study and apply those 9 credit hours to satisfy both the BS degree requirements and also the MS degree requirements, provided that these graduate credit hours were approved by both the Department and by the Graduate School.

The form "Nutrition Conditional Admission 5 Year BS-MS" is available from the Director of Graduate Studies and must be completed and signed by the undergraduate advisor, undergraduate coordinator, and graduate advisory committee by May 1st of their junior year. After review by the Department, the form will be signed by the Director of Graduate Studies and submitted to the Graduate School for approval and processing.

To receive graduate credit for the 9 credit hours listed on the Nutrition Conditional Admission Form and approved by their graduate advisory committee, and others granting approval by signing that form, the student must complete and submit the Senior Requesting Graduate Credit Form to the Graduate School. If the graduate courses are to be taken during different semesters, the student will need to submit this form per each relevant semester.

Conditional admission into the BS/MS accelerated degree program does not guarantee acceptance into either the Graduate School or the MS program. Students in the BS/MS accelerated degree program must submit an application for admission to the Office of Graduate Admissions and to the MS program during their senior year of undergraduate study for the fall term immediately following the completion of their undergraduate study, following the same procedures of all other student applicants. Students will be fully admitted to the MS program after they have been accepted both by the Graduate School and by the Nutrition Department. Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. - [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Nutrition major is designed for students interested in basic and applied sciences, and students are able to pursue one of three concentrations: the Biomedical Nutrition Science Concentration, the Community Nutrition Concentration, or the Dietetics Concentration. The Dietetics Concentration of the Nutrition Major is accredited as a Didactic Program in Dietetics (DPD) by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 S. Riverside Plaza, Suite 2190, Chicago, Illinois 60606-6995, (312) 899-0040 ext. 5400, url https://www.eatrightpro.org/acend. As such, graduates are eligible to apply for ACEND-accredited supervised practice programs and, following successful completion are eligible to take the Registration Examination for Dietitians to become Registered Dietitian Nutritionists (RDNs) and active members of the Academy of Nutrition and Dietetics. RDNs are food and nutrition professionals who unite the science of nutrition with the application of nutrition principles to improve health through interventions, including education and counseling, at the community and individual levels or by addressing nutritional aspects of medical problems in clinical practice. Many work in acute care hospitals, long-term care, and medical offices as members of the health care team or in community-based settings. Other areas of practice include corporate wellness, journalism, sports nutrition, the food and nutrition industry, and others.

The accelerated combined bachelor's/master's program leading to a B.S. in Health and Human Sciences – Nutrition major, Dietetics concentration/M.S. in Nutrition, concentration in Clinical Nutrition and Dietetics

Students enrolled in the Bachelor of Science program with a Nutrition-Dietetics major or who are completing all coursework consistent with requirements of the Nutrition-Dietetics major who are interested in clinical nutrition practice as a RDN are eligible to apply.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

For qualified students, the Department of Nutrition offers an accelerated combined bachelor's/master's program leading to a Bachelor of Science degree with a major in Nutrition, concentration in Dietetics, and Master of Science degree with a major in Nutrition, concentration in Clinical Nutrition and Dietetics. These two degree programs combined comprise prerequisites for and completion of the ACEND-accredited Graduate Program in Nutrition and Dietetics (GP). This program is accredited for a maximum of 20 students per cohort. Admission is competitive and enrollment depends upon availability of placements. Completion of this combined program leads to eligibility to take the national registration exam to become credentialed as a registered dietitian nutritionist (RDN). Central to this program is that a qualified student may take up to 9 credit hours of approved 400- or 500-level courses for graduate credit during their senior year and have them count toward both the BS degree and the MS degree. Students must apply for admission to the master's program by the end of their junior year of undergraduate study at UT. The entry term, if accepted, will be the summer following completion of the bachelor's degree. The two degrees can be completed within five years. Adding additional majors, minors, or concentrations or missing sequential coursework may extend length of the degree programs. To be considered for admission to the program:

- A student must be a declared Nutrition major, Dietetics concentration, or must be completing all coursework required within the Dietetics concentration, with a minimum GPA of 3.30, must have completed at least 15 credit hours of Nutrition courses, and must have completed at least 90 credit hours of the 120 credit hours of coursework required for the BS degree with a major in Nutrition and concentration in Dietetics. Required Nutrition coursework must have been completed with a grade of "C" or better. Applicants must have completed or be currently enrolled in organic chemistry, food science/culinary arts, and microbiology at the time of application for full consideration.

  The form "Department of Nutrition Accelerated Combined Bachelor's/Master's Program Application" must be submitted to the Program Director by April 1 of the junior year. After review by the department is complete, students who meet the minimum admission requirements will be invited to submit an application to the Office of Graduate Admissions for the MS program with an entry term of the summer following completion of the bachelor's degree.

  - Graduate program application submission requirements include:
    - Completed UT Graduate School application
    - Resume
    - Current academic history
    - Personal statement that addresses the prompt within the application
    - Professional recommendations
  - Additional steps:
    - Students being considered for selection must participate in an interview process, typically taking place in May shortly following the application deadline.
    - Community partners involved in supervising experiential learning of graduate students may participate in student selection if that is a defined role in their respective affiliation agreements.
- Any graduate course taken before satisfying all requirements for the BS degree must be approved by the Graduate Concentration Coordinator for Clinical Nutrition and Dietetics, the course instructor, and the Graduate School by the start of each semester in which graduate courses are taken by completing the university's "Senior Requesting Graduate Credit" form.
- Admission to the accelerated combined bachelor's/master's degree program with a major in Nutrition, concentration in Clinical Nutrition and Dietetics, does not guarantee acceptance into either the Graduate School or the MS program. Students will be fully admitted to the MS program after they have been accepted by both the Graduate School and by the Nutrition Department. Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

College of Education, Health, and Human Sciences - Public Health - Public Health Major, BS in Public Health - Five-Year BSPH/MPH Program

2025-2026 UG Revise Program

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Public Health

Program Name* Public Health Major, BS in Public Health - Five-Year BSPH/MPH Program

Degree Type* Bachelor of Science in Public Health

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Overview

Students pursuing the Public Health Major who plan to apply to UTK's Master of Public Health Program (MPH), may apply to the Accelerated program for advanced placement in the Master of Public Health (MPH) degree program. The Accelerated program saves students money by allowing seniors to complete approved graduate public health courses while paying undergraduate tuition.

Key component

Qualified undergraduate students can take up to 9 hours of approved graduate courses during their senior year. These courses count toward both their undergraduate and MPH degrees.

Eligible Students

- **Bachelor's Degree**: Any student pursuing a Bachelor of Science in Public Health (BSPH).
- **Additional Requirements**: Must meet certain eligibility criteria described below.

Application Timing

Students can begin the MPH program in the summer after their senior year. More information about MPH program concentrations is available in the Graduate Catalog.

Graduate Courses

Approved Courses for Seniors:

1. **Term 7**:
   - PUBH 530 - Biostatistics (3 Credit Hours)
2. **Term 8**:
   - PUBH 510 - Environmental Health (3 Credit Hours)
   - PUBH 520 - Health Systems, Policy, and Leadership (3 Credit Hours)

Note: Only on-campus sections are available to seniors; Distance Ed sections are not an option.

Admission Process

Students will apply to two different programs: 1) Accelerated Program and 2) MPH Program

When to Apply

Apply to the Accelerated Program during spring of junior year. Apply to the MPH program during spring of senior year for a summer (recommended) or fall admission.

How to Apply

Accelerated Program

Students submit an electronic application form via the Public Health website by March 1st of their junior year. Students will be notified of acceptance by April 1st.

MPH Program

During senior year, Accelerated students will apply to the MPH program through the Graduate School using the standard application procedures. Acceptance into the Accelerated program does not guarantee acceptance into Graduate School or MPH program itself. Minimum GPA for graduate admissions is 3.0. Accelerated students won't be eligible to apply for a graduate assistantship until bachelor's degree is completed. Accelerated students may apply for summer admission (recommended) or fall admission. Before selecting summer or fall admission, students should review course offerings schedules on the public health website for their desired program (campus or DE) and MPH concentration to verify a curricular pathway fits the desired timeline and is financially feasible. Refer to OneStop for Graduate Tuition and Fee schedule.

More information about MPH program concentrations is available in the Graduate Catalog.

Eligibility Requirements

To be considered for this program, students must:

1. Have a minimum overall UT GPA of 3.3.
2. Be declared as a Public Health Major.
3. Complete PUBH 201*, PUBH 202, and PUBH 320* with at least a B grade.
4. By fall of senior year, complete at least 90 out of required total credit hours for Bachelor's degree.
5. Conditional admission is possible if listed courses are still being completed successfully.

* Meets Volunteer Core Requirement.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*
We removed the non-public health pre-requisite courses as they have proven to be unnecessary since juniors will have already completed these courses. We reformatted and revised wording to make salient information more readable and understandable.

Financial Impact*
None. The required courses are existing PUBH courses.

Impact on Other Units*
No courses outside of PUBH are included.

Have you consulted with all programs/departments that will be impacted by this change?*
(•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

College of Education, Health, and Human Sciences - Theory and Practice in Teacher Education - Deaf Studies Major, BS in Education - ASL Education Concentration (5-Year Graduate Internship Program)

2025-2026 UG Change Program Name / Department

General Catalog Information

Important Note:

This Change Program Name / Department form is to be used for changing the name of a program (major, concentration, minor, or certificate) and/or changing the department where the program is offered. Other regular revisions to program requirements can be included in this form.

College* College of Education, Health, and Human Sciences

Department* Theory and Practice in Teacher Education

Program Name* Deaf Studies Major, BS in Education - ASL Education Concentration (5-Year Graduate Internship Program)

Degree Type* Bachelor of Science in Education

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

Description

Progression Requirements

This program is for individuals desiring to teach American Sign Language (ASL). Progression to the 5-Year ASL Education concentration requires a 2.75 cumulative GPA after a minimum of 12 semester credits and completion of

ASL 111*. Once individuals formally progress to the concentration, they must maintain a cumulative GPA of 2.75 while in the program. Students must earn a grade of B or better in ASL 111, ASL 112, ASL 211*, ASL 212*, ASL 310, and ASL 311*, and a C or better in all teacher education and major courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their program and fieldwork will not be retained in the major.

Program coursework will allow students to obtain an ASL Education license (Pre K-12) at the conclusion of the post-baccalaureate professional year. An additional license in Art Education (K-12) or a secondary education content area (6-12) is possible through the selection of Professional Electives coursework.

Students must also obtain an advanced level or above on the Sign Language Proficiency Interview (SLPI) in order to advance to the post-baccalaureate professional year and internship.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

For new majors: indicate the type of change
- ( ) New major name and new CIP code (requires THEC approval)
- ( ) New major name and keeping the same CIP code

For new majors: have you or will you be submitting THEC paperwork?
- ( ) Yes
- ( ) No

CIP Code (if available) 05.0211

Rationale* Revisions are made to: (1) compile secondary and art ed licensure options into one showcase, (2) integrate the option of a newly proposed ASL class (ASL 200 or 202) into the program, and (3) organize courses into the semester they are offered and in the order they should be taken.

Financial Impact* None

Impact on Other Units* See attachment

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Program Type* Concentration

Description

Progression Requirements

Progression to the ASL Education concentration with specialization in art education requires a 2.75 cumulative GPA after a minimum of 12 semester hours of coursework and completion of ASL 211*. Once candidates formally progress to the specialization, they must maintain a cumulative GPA of 2.75 while in the program. Students must earn a grade of B or better in ASL 211*, ASL 212*, ASL 311*, and EDDE 310, and a C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their fieldwork will not be retained in the major.

Coursework will allow students to obtain an ASL education license (Pre K-12) and an art license (K-12) at the conclusion of the program.

Requirements*

Rationale* Dropping this specialization from catalog and revising/renaming Deaf Ed Concentration-Elementary Education Specialization to compile all specialization/licensure areas into one program catalog entry. This is being done at the request of the CEHHS Advising Office to simplify the advising process.

REVISE: "ASL Education Concentration - Undergraduate Internship Program" - BS degree with teacher licensure. Consolidate the two concentrations below into this one existing concentration.

- END: ASL Education Concentration (Art Education Undergraduate Internship Specialization) - Deaf Studies Major, BS in Education
- END: ASL Education Concentration (Deaf Education Specialization) - Undergraduate Internship Program - Deaf Studies Major, BS in Education

Impact on Other Units* None

Financial Impact* None

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Number of students in program* 20

Teach out plan None needed. All students will be taking the same Deaf Education UG concentration rather than a Deaf Education with specialization

---

Courses remain active for students to complete the program, if desired; although some may choose to change to a similar but newer program in response to market demand. If any courses are dropped, the department will make appropriate substitutions to allow the student to complete the program within the 6-year teach-out.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Progression Requirements

This program is for individuals desiring to teach American Sign Language (ASL). Those electing the ASL Education Undergraduate Internship Program must demonstrate proficiency in ASL to enroll in ASL 211 in their first semester. Individuals who need to take ASL 111 and 112 should follow the graduate internship program. Progression to the ASL Education concentration (Undergraduate Internship Program) requires a 2.75 cumulative GPA after a minimum of 12 semester hours of coursework and completion of ASL 211*. Once individuals formally progress to the concentration, they must maintain a cumulative GPA of 2.75 while in the program. Students must earn a grade of B or better in ASL 211*, ASL 212*, ASL 311*, and ASL 310, and a C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their program and fieldwork will not be retained in the major.

Coursework will allow students to obtain an ASL education license (Pre K-12) at the conclusion of the program. With the selection of the Art Education area as Professional Electives, students will obtain additional teacher licensure in Art Education (K-12). With the selection of a secondary content area as Professional Electives, students begin preparation in a secondary licensure area (6-12), which may be added through additional praxis exams and/or enrollment in a subsequent graduate certificate program.

Students must obtain an advanced level or above on the Sign Language Proficiency Interview to advance to the internship and to take TPTE 475.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

Merging three ASL Education Undergraduate Internship Concentrations into this one.

Additionally, we have added the option of a newly proposed ASL class (ASL 200 or 202) to the program in place of an elective course.

REVISE: "ASL Education Concentration - Undergraduate Internship Program" - BS degree with teacher licensure. Consolidate the two concentrations below into this one existing concentration.

- END: ASL Education Concentration (Art Education Undergraduate Internship Specialization) - Deaf Studies Major, BS in Education
- END: ASL Education Concentration (Deaf Education Specialization) - Undergraduate Internship Program - Deaf Studies Major, BS in Education

Financial Impact* None

Impact on Other Units* None

2025-2026 UG Change Program Name / Department

General Catalog Information

Important Note:

This Change Program Name / Department form is to be used for changing the name of a program (major, concentration, minor, or certificate) and/or changing the department where the program is offered. Other regular revisions to program requirements can be included in this form.

College* College of Education, Health, and Human Sciences

Department* Theory and Practice in Teacher Education

Program Name* Deaf Studies Major, BS in Education - American Sign Language Translation and Interpreting Concentration

Degree Type* Bachelor of Science in Education

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

Description

Progression Requirements

Progression to the ASL Translation and Interpreting Concentration concentration requires a 2.75 cumulative GPA after a minimum of 30 semester hours of coursework and completion of ASL 111 and ASL 112 with a grade of B or better in both courses. Students in the program must maintain a minimum cumulative GPA of 2.75 while in the program. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students must earn a grade of B or better in ASL 111, ASL 112, ASL 211*, ASL 212*, and ASL 311*, and a C or better in all major courses. Students who fail to meet the standards for professional conduct during the course of their fieldwork will not be retained in the major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

For new majors: indicate the type of change
- ( ) New major name and new CIP code (requires THEC approval)
- (•) New major name and keeping the same CIP code

For new majors: have you or will you be submitting THEC paperwork?
- ( ) Yes
- ( ) No

CIP Code (if available) 05.0211

Rationale* Change of program name from Educational Interpreting to ASL Translation and Interpreting is requested because graduates of this concentration are primarily educated in the discipline of translation and interpreting, but this is not accurately reflected in the current concentration title. The current title significantly limits the focus of academic instruction and field experience opportunities for those enrolled in the program. It also has created barriers when it was listed as their degree name when applying for employment in other sectors of the profession outside of educational institutions (e.g. legal, health, and business)

Financial Impact* None. Name change only

Impact on Other Units* None. Name change only

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank. American Sign Language Interpreting Certification and/or Licensure

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Students should interview after the completion of 12 hours and completion of ASL 211*.

Students should take at least 12 credits of studio art at the 200-level or above. Students must take ARTN 211 (non-major intro to drawing) and ARTN 213 (non-major intro to painting). Students must choose either ARTN 222 (non-major intro to pottery) or ARTN 221 (non-major intro to ceramic sculpture). We recommend students sign up for one of the following as their remaining course: ARTN 241 (non-major intro to sculpture), ARTN 221 (non-major intro to ceramic sculpture), ARTN 291 (non-major intro to book arts & papermaking), ARTN 265 (non-major intro to relief), ARTN 266 (non-major intro to monotype), or ARTN 231 (non-major intro to photography).

Students must co-enroll in REED 430 and an elementary practicum provided through EDDE 310 or ELED 351S.

Select any course not already required for the major. See advisor for recommended electives.

Students must obtain an intermediate-plus level or above on the Sign Language Proficiency Interview to advance to the internship and to take TPTE 475.

*** Meets Volunteer Core Requirement.**

Rationale*

We are adding one single Deaf Education Undergraduate Internship Concentration in order to compile all of the currently listed specialization/licensure areas into one program catalog entry and dropping all specializations including this one

Deaf Education has several dual licensure pathways with ELED, Secondary, SPED-comprehensive, IEC B-K, ASL, and Art Education. In discussion with Laura Brown in Advising, it is believed that compiling the different licensure pathways onto one Deaf Education Concentration would be helpful to advisors and students.

We sought input from a DARS expert in the Registrar's office on this process. After a student selects their professional elective area (dual pathway licensure), then the DARS coordinator can add in that specialty area coursework (via DARS exception) so that students only see coursework for the pathway selected, similar to how a minor is selected and appears below the major requirements.

Additionally, we have added the option of newly proposed ASL classes (ASL 200 or 202) to the program in place of an elective course.

---

1) ADD: "Deaf Education Concentration - Undergraduate Internship Program" - BS degree with teacher licensure. Consolidate all 5 of the below into one concentration by adding the new concentration.

- END: Deaf Education Concentration (Art Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Early Childhood Education Specialization) Undergraduate Internship
- END: Deaf Education Concentration (Elementary Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Secondary Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Special Education Comprehensive Specialization) - Undergraduate Internship Program

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Theory and Practice in Teacher Education

Program Name* Deaf Studies Major, BS in Education - Deaf Education Concentration (Elementary Education Specialization) - Undergraduate Internship Program

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Bachelor of Science in Education

Program Type* Concentration

Description

Progression Requirements

Progression to the EDDE concentration with specialization in elementary education requires a 2.75 cumulative GPA after a minimum of 12 semester hours of coursework and completion of ASL 211*. Once candidates formally progress to the specialization, they must maintain a cumulative GPA of 2.75 while in the program. Students must earn a grade of B or better in ASL 211*, ASL 212*, ASL 311*, and EDDE 310, and a C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their fieldwork will not be retained in the major.

Coursework will allow students to obtain a deaf education license (Pre K-12) and an elementary education license (K-5) at the conclusion of the program.

Footnotes

Students should interview after the completion of 12 hours and completion of ASL 211*.

Students must obtain an intermediate-plus level or above on the Sign Language Proficiency Interview to advance to the internship and to take TPTE 475.

* Meets Volunteer Core Requirement.

Rationale* We are adding one single Deaf Education Undergraduate Internship Concentration in order to compile all of the currently listed specialization/licensure areas into one program catalog entry and dropping all specializations including this one

Deaf Education has several dual licensure pathways with ELED, Secondary, SPED-comprehensive, IEC B-K, ASL, and Art Education. In discussion with Laura Brown in Advising, it is believed that compiling the different licensure pathways onto one Deaf Education Concentration would be helpful to advisors and students.

We sought input from a DARS expert in the Registrar's office on this process. After a student selects their professional elective area (dual pathway licensure), then the DARS coordinator can add in that specialty area coursework (via DARS exception) so that students only see coursework for the pathway selected, similar to how a minor is selected and appears below the major requirements.

---

1) ADD: "Deaf Education Concentration - Undergraduate Internship Program" - BS degree with teacher licensure. Consolidate all 5 of the below into one concentration by adding the new concentration.

- END: Deaf Education Concentration (Art Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Early Childhood Education Specialization) Undergraduate Internship
- END: Deaf Education Concentration (Elementary Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Secondary Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Special Education Comprehensive Specialization) - Undergraduate Internship Program

Impact on Other Units* None

Financial Impact* None

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Number of students in program* 20

Teach out plan Courses remain active for students to complete the program, if desired; although some may choose to change to a similar but newer program in response to market demand. If any courses are dropped, the department will make appropriate substitutions to allow the student to complete the program within the 6-year teach-out.

[After]
[Before]Complete all:
SOCI 321 Sociological Theory
SOCI 331 Sociological Research
[After] 9 credits from the sociology department at the 300+ level

Rationale*

This Deaf Education 5-Year Concentration with Secondary Education Specialization is being combined with the revison of the existing 5-Year Elementary Education Specialization into one program to simplify student advising.

ADD: Deaf Education Concentration - 5-Year Graduate Internship Program - BS degree and MS degree with teacher licensure in 5 years. Consolidate the two concentrations below into this one new concentration.

END: Deaf Education Concentration (Elementary Education Specialization) Graduate Internship Program
END: Deaf Education Concentration (Secondary Education Specialization)

Impact on Other Units*

None. No change in course requirements.

Financial Impact*

None.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No

Number of students in program*

20

Teach out plan

None needed. This specialization is being combined with another one and students will still be able to complete their requirements

---

Courses remain active for students to complete the program, if desired; although some may choose to change to a similar but newer program in response to market demand. If any courses are dropped, the department will make appropriate substitutions to allow the student to complete the program within the 6-year teach-out.

Degree Type* Bachelor of Science in Education

Program Type* Concentration

Description

Progression Requirements

Progression to the EDDE concentration with specialization in secondary education requires a 2.75 cumulative GPA after a minimum of 12 semester hours of coursework and completion of ASL 211*. Once candidates formally progress to the specialization, they must maintain a cumulative GPA of 2.75 while in the program. Students must earn a grade of B or better in ASL 211*, ASL 212*, ASL 311*, and EDDE 310, and a C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their fieldwork will not be retained in the major.

Coursework will allow students to obtain a deaf education license (Pre K-12) at the conclusion of the program. Additionally, students take 19 credits of secondary education content and methods, which prepares them to enter a graduate certificate program subsequent to this program to obtain secondary education licensure (7-12).

Requirements*

Campus

Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Learning Outcomes

1. Proposes appropriate curricular objectives based on State and/or Common Core Standards.
2. Develops instructional activities that take into account students' strengths, interests, and needs to enable each student to advance and accelerate his/her learning.
3. Combines formative and summative assessment as appropriate to support, verify, and document learning.
4. Uses current technologies to maximize content learning in varied contexts.
5. Designs a safe, positive learning climate of openness, mutual respect, support, and inquiry.
6. Uses understanding of individual differences and diverse cultures and communities to promote inclusive learning and/or social environments that enable all individuals to meet high standards.

Description

Progression Requirements

This program is for individuals desiring to teach deaf students. Those electing the Deaf Education Undergraduate Internship Program must demonstrate proficiency in ASL to enroll in ASL 211 in their first semester. Individuals who need to take ASL 111 and 112 during their first year should follow the graduate internship program.

Progression to the EDDE concentration requires a 2.75 cumulative GPA after a minimum of 12 semester hours of coursework and completion of ASL 211*. Once individuals formally progress to the concentration, they must maintain a cumulative GPA of 2.75 while in the program. Students must earn a grade of B or better in ASL 211*, ASL 212*, ASL 311*, and EDDE 310, and a C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their program and fieldwork will not be retained in the major.

This program is designed to be dual licensure. Upon successful completion of the program coursework, students will obtain teacher licensure in deaf education (P-12) and one additional area through the selection of Professional Elective courses: Art Education (K-12), ASL Education (P-12), Early Childhood Education (Birth-K), Elementary (K-5), or Special Education Comprehensive (K-12). Completion of the Secondary Education (6-12) licensure requirements may require additional credits.

Students must obtain an intermediate-plus level or above on the Sign Language Proficiency Interview to advance to the internship and to take TPTE 475. Those pursuing licensure in ASL Education in addition to Deaf Education must obtain an advanced level or above on the Sign Language Proficiency Interview.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

SPED 459 Physical and Health Impairments: Educational Implications
SPED 490 Applications of Assistive Technology
ELED 322 Elementary Teaching Methods I
[Right] *
ELED 351S Laboratory and Field Studies in Elementary Education

Rationale*

Adding stand alone Deaf Education UG Concentration to compile all of the currently listed specialization/licensure areas into one program catalog entry and dropping all current specializations from catalog.

Deaf Education has several dual licensure pathways with ELED, Secondary, SPED-comprehensive, IEC B-K, ASL, and Art Education. In discussion with Laura Brown in Advising, it is believed that compiling the different licensure pathways onto one Deaf Education Concentration would be helpful to advisors and students.

We sought input from a DARS expert in the Registrar's office on this process. After a student selects their professional elective area (dual pathway licensure), then the DARS coordinator can add in that specialty area coursework (via DARS exception) so that students only see coursework for the pathway selected, similar to how a minor is selected and appears below the major requirements.

Additionally, we have added the option of newly proposed ASL classes (ASL 200 or 202) to the program in place of an elective course.

---

1) ADD: "Deaf Education Concentration - Undergraduate Internship Program" - BS degree with teacher licensure. Consolidate all 5 of the below into one concentration by adding the new concentration.

- END: Deaf Education Concentration (Art Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Early Childhood Education Specialization) Undergraduate Internship
- END: Deaf Education Concentration (Elementary Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Secondary Education Specialization) - Undergraduate Internship Program
- END: Deaf Education Concentration (Special Education Comprehensive Specialization) - Undergraduate Internship Program

Financial Impact*

None anticipated. Consolidation of programs/specializations into one catalog entry

Impact on Other Units*

None. This does not change previously established course requirements from the specializations.

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No

ELED 351S Laboratory and Field Studies in Elementary Education

Rationale* This is a compilation of the Deaf Education Elementary and Secondary 5-Year Graduate specializations listed below into a single concentration. This is being done at the request of the CEHHS advising office.

- Deaf Education Concentration (Elementary Education Specialization) Graduate Internship Program - Deaf Studies Major, BS in Education
- Deaf Education Concentration (Secondary Education Specialization) - Deaf Studies Major, BS in Education

We sought input from a DARS expert in the Registrar's office on this process. After a student selects their professional elective area (dual pathway licensure), then the DARS coordinator can add in that specialty area coursework (via DARS exception) so that students only see coursework for the pathway selected, similar to how a minor is selected and appears below the major requirements.

Additionally, we have added the option of a newly proposed ASL class (ASL 200 or 202) to the program in place of an elective course to provide further opportunitues for majors to improve their skills. This is based on the analysis and discussion of the Deaf Studies faculty regarding what Deaf Studies majors need to become proficient in ASL.

ADD: Deaf Education Concentration - 5-Year Graduate Internship Program - BS degree and MS degree with teacher licensure in 5 years. Consolidate the two concentrations below into this one new concentration.

END: Deaf Education Concentration (Elementary Education Specialization) Graduate Internship Program
END: Deaf Education Concentration (Secondary Education Specialization)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Educational Studies Concentration under the Education major prepares students to work within the field of education in areas not requiring a teaching license. Students complete courses in theory and methods of teaching along with professional electives of their choosing. While not required, a minor can also easily be incorporated into this major. The Educational Studies Concentration requires a 2.5 cumulative GPA. To remain in good standing in the program, students must maintain a minimum cumulative GPA of 2.5. Students must earn a grade of C or better in all core education courses. Students with less than a 2.5 GPA for two consecutive semesters will be dropped from the program.

Progression Requirements

Students interested in this degree should work closely with their advisors to ensure that they understand program requirements and how to leverage coursework toward future career aspirations. Core Courses and Educational Studies Specialization courses must be completed with a grade of C or higher. Students must complete the program with a minimum 2.5 GPA.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

1. Three courses from the Written Communication* (WC), First-year composition sequence (2 courses, 3 credit hours each) and one additional Written Communication* course
2. One course from approved Arts and Humanities* (AH) courses.
3. Two 3-hour courses from approved Quantitative Reasoning* (QR) courses.
4. Two courses from approved Natural Sciences* (NS) courses, one must have a laboratory (4 hours).
5. One course (minimum 1 hour) from approved Oral Communication* (OC) courses.
6. One course (minimum 3 hours) from approved Social Sciences* (SS) courses.
7. One course (minimum 3 hours) from approved Global Citizenship – International* (GCI) courses
8. One course (minimum 3 hours) from approved Global Citizenship – US* (GCUS) courses.
9. Two courses (at least 6 credit hours) from Expanded Perspectives* Electives (select from Arts and Humanities*, Social Sciences*, Global Citizenship – International*, Global Citizenship – US*, or Applied Arts and Humanities Courses*).
10. At least 9 credit hours (minimum 2 courses; at least two different subject areas) from Engaged Inquiries* (EI) courses.
11. One course from approved Applied Oral Communication* (AOC) courses.
12. Two courses chosen from Methods and Strategies Core Electives REED 230, REED 461, MEDU 430, SCED 430, SSCE 421, EDDE 429, SPED 442, WLEL 489, SSCE 443, SCED 434, MEDU 434, SPED 335, SPED 413, SPED 415.
13. Twelve (12) Educational Studies Specialization courses (36 hours) from the following options: Any approved education course from ASL, CSE, EDDE, ELED, IEC, MEDU, SPED, SSCE, REED, SCED, ELPS, TPTE, WLEL; Any approved content course from MATH, ASTR, BIOL, CHEM, EEPS, GEOL, PHYS, HIST, ECON, GEOG, POLS, GERM, FREN, SPAN, CLAS, COUN, HDFS, PUBH.

* Meets Volunteer Core Requirement.

Rationale* Primary intent of this concentration is to provide an off ramp for the student who is counseled out during their final year and informed that they cannot be a licensed teacher for various reasons. Difficult to find another major during their final year with very few, if any, courses that may apply to another major causing a delay in graduation. This will allow them to graduate in a timely manner with a degree.

This also addresses a need for a 1) program for those who may not be interested in teacher licensure but want to work in education settings e.g. non-profit organizations for adults 2) an on-ramp, especially for transfer students, given some programs are reluctant to admit a student to the 5th year internship program directly from community college. This provides students a way to stay on track until official admissions to teacher licensure concentrations.

Financial Impact* None expected since no new courses and relies on current offerings

Impact on Other Units* Minimal impact since we do not expect a significant number of students in this concentration.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

CIP Code (if available) 13.0101

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Progression Requirements

Progression to Concentration in Elementary Education - Specialization in English As A Second Language Education requires a 2.75 cumulative GPA after a minimum of 24 semester hours of coursework. Once candidates formally progress to the specialization, they must maintain a minimum cumulative GPA of 2.75 while in the program. Students must earn a grade of C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their fieldwork will not be retained in the major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Nine credit hours from at least two different subjects from approved Engaged Inquiries (EI) courses.

* Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year

Is this proposal Adding or Removing a 3+1 and/or Honors version of this program?*	○ Yes ◉ No
Rationale*	Minor changes to the showcases to reflect changes in TDOE (Tennessee Department of Education) licensure requirements. Teacher candidates no longer need to take an economics course and the licensure exams (Praxis 5001) social studies section does not include questions related to economics so we believe it is best to replace ECON with an unrestricted elective (Term 3). Other changes replace specific natural science courses with general Natural Science w/lab (Term 1) or without lab (Term 2)
Financial Impact*	None
Impact on Other Units*	Low impact expected for Arts & Sciences, Natural Sciences
Have you consulted with all programs/departments that will be impacted by this change?*	○ Yes ◉ No
Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Footnotes

Three courses from the Written Communication (WC), First-year composition sequence, 2 courses, 3 credit hours each. Additional approved Written Communication (WC) course.

One course from approved Arts and Humanities (AH) courses.

Two courses from approved Natural Sciences (NS) courses, one must have a laboratory.

Two courses from approved Quantitative Reasoning (QR) courses. Please note that students must select a math and/or statistics course.

One course from approved Oral Communication (OC) courses.

One course from approved Social Sciences (SS) courses.

Two courses from approved Global Citizenship courses: Global Citizenship - International (GCI) CSE 200*; Global Citizenship - United States (GCUS) CSE 300*.

One course from approved Applied Oral Communication (AOC) courses.

Nine credit hours from at least two different subjects from approved Engaged Inquiries (EI) courses.

* Meets Volunteer Core Requirement.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale* Minor changes to the showcases to reflect changes in TDOE (Tennessee Department of Education) licensure requirements. Teacher candidates no longer need to take an economics course and the licensure exams (Praxis 5001) social studies section does not include questions related to economics so we believe it is best to replace ECON with an unrestricted elective (Term 3). Other changes replace specific natural science courses with general Natural Science w/lab (Term 1) or without lab (Term 2)

Financial Impact* None for unit

Impact on Other Units* Possible impact for students who take unrestricted electives instead of ECON. Less than 10 students in this concentration per year.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ◉ No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank. Teacher Licensure

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Progression Requirements

Progression to Middle Grades Math specialization requires a 2.75 cumulative GPA after a minimum of 24 semester hours of coursework. Once candidates formally progress to the specialization, they must maintain a minimum cumulative GPA of 2.75 while in the program. Students must earn a grade of C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their fieldwork will not be retained in the major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Progression Requirements

Progression to Elementary Education concentration requires a 2.75 cumulative GPA after a minimum of 24 semester hours of coursework. A Board of Admissions will meet once each fall and spring to review applications and conduct interviews with each applicant. Students admitted to the program must maintain a minimum cumulative GPA of 2.75 while in the program. Students must earn a grade of C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their fieldwork will not be retained in the major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Footnotes

Three courses from the Written Communication (WC), First-year composition sequence, 2 courses, 3 credit hours each. Additional approved Written Communication (WC) course.
One course from approved Arts and Humanities (AH) courses.
Two courses from approved Natural Sciences (NS) courses, one must have a laboratory.
Two courses from approved Quantitative Reasoning (QR) courses. Please note that students must select a math and/or statistics course.
One course from approved Oral Communication (OC) courses.
One course from approved Social Sciences (SS) courses.
Two courses from approved Global Citizenship courses: Global Citizenship - International (GCI) CSE 200*; Global Citizenship - United States (GCUS) CSE 300*.
One course from approved Applied Oral Communication (AOC) courses.
Nine credit hours from at least two different subjects from approved Engaged Inquiries (EI) courses.

* Meets Volunteer Core Requirement.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale* Minor changes to the showcases to reflect changes in TDOE (Tennessee Department of Education) licensure requirements. Teacher candidates no longer need to take an economics course and the licensure exams (Praxis 5001) social studies section does not include questions related to economics so we believe it is best to replace ECON with an unrestricted elective (Term 3). Other changes replace specific natural science courses with general Natural Science w/lab (Term 1) or without lab (Term 2)

Financial Impact* None expected

Impact on Other Units* Low level impact

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Theory and Practice in Teacher Education

Program Name* Education Major, BS in Education - Interdisciplinary Early Childhood, Early Care and Education Concentration (Non-Licensure)

Learning Outcomes

1. Demonstrate expertise in Integrated Early Childhood Education birth to kindergarten content and child-centered pedagogy.
2. Provide research-based instruction and leadership in recognition and support of accountability measures facing today's educators.
3. Engage as active members of learning communities through a commitment to ongoing professional development and collaboration.
4. Actively pursue evidenced-based initiatives in educational settings to promote continuous improvement to instruction that facilitates learning for all stakeholders.
5. Model the professional dispositions that are characteristic of successful educators.
6. Value diversity among students, colleagues, community members, and others by promoting diversity as a means for strengthening the educational experiences of all students.
7. Demonstrate those skills necessary to promote continuous improvements to curriculum, instruction, use of high quality instructional materials, and the use of technology and assessment.

Degree Type* Bachelor of Science in Education

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

This program is designed for students who do not want to obtain teacher licensure, but want to work in early childhood education and care settings (e.g., federally-funded Early Head Start or Head Start centers, early intervention, family service providers, non-profit agencies, private schools, international teaching, and Child Care Resource and Referral). Completion of this program results in a Bachelor of Science degree without teacher licensure. Students who want to become licensed teachers should apply to one of the Teacher Education concentrations under the Interdisciplinary Early Childhood major. Because this program involves participation in service learning and/or field experiences with children, a background check is required prior to enrollment in field experience or service-learning courses. Professional liability insurance also is required for all field experience / service-learning courses. Students must enroll in IEC courses for a minimum of 15 credit hours.

Progression Requirements

Students interested in this licensure should work closely with their advisor to ensure that they understand and meet program requirements.

A student desiring to pursue the Early Care and Education Non-Licensure program must meet the following admission requirements including, but not limited to the following:

- Academic achievement - minimum 2.75 cumulative GPA.
- 12 credit hours completed
- Tennessee state law (TCA 49-5-5610) requires that students wishing to enter an approved higher education educator preparation program must submit to a criminal history background check. Admission to the program is dependent on clearance of any conviction(s) as referenced to a list of crimes that would prohibit a person from being licensed in Tennessee.

Prior to the Practicum

1. Upon successful completion of coursework, document readiness for the practicum by completing the application one semester prior to the intended practicum semester.
2. Complete the self-disclosure forms allowing university personnel to obtain student conduct and criminal background information one year prior to the intended practicum semester. The department's undergraduate committee will evaluate any negative background check.

Prerequisites for the Practicum

1. A cumulative GPA of at least 2.5..
2. A minimum grade of C in all IEC courses.

Students are expected to know the criteria they must meet in order to progress into a practicum (IEC 471) and to regularly monitor their progress in meeting these criteria. Students will not be allowed to progress into the practicum until these criteria are met. If students do not appear able to meet these criteria, they are encouraged to work closely with their advisor to plan an alternative educational program. Specific information on how to apply for the practicum is available from the IEC program coordinator.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Footnotes

Chosen from Volunteer Core list.
IEC Courses: 106, 205, 335, 350, 353, 430, 435, 455.
Meets Communicating through speech Oral Communication (OC) requirements.
Meets Written Communication (WC) and Applied Oral Communication (AOC) requirements.
IEC 471 requires a cumulative GPA of 2.5; completion of all prerequisites enforced by the registration system; a minimum grade of C in all Interdisciplinary Early Childhood courses; completed application; student conduct and criminal background clearance. IEC 471 must be completed in one semester.
Meets Global Citizenship - International (GCI) requirement.
Meets Engaged Inquiries (EI) requirement.

8. Family / Community Engagement electives chosen from ALEC 421, COUN 212, COUN 220, COUN 310, COUN 480, HDFS 210*, HDFS 211, HDFS 213, HDFS 220*, HDFS 320*, HDFS 345, HDFS 360, HDFS 385, IEC 430, LING 200, LING 372, PSYC 235/CMST 235, PSYC 335, PSYC 461, PSYC 472, PSYC 475; PUBH 201*, PUBH 315, PUBH 401, or PUBH 430; SOCI 311, SOCI 342 SOCI 360*, SOCI 363*, or any other course approved by program faculty. NOTE: many upper-level courses often have a prerequisite.
9. Professional Support Electives chosen from AUSP 320, ASL 111, ASL 112, ASL 211, ASL 212, ASL 421,COUN 480, EDDE 415, EDDE 416, EDDE 419, EDDE 425, EDDE 426, EDDE429, HDFS 385, IEC 205, IEC 353, IEC 445, MEDU 430, MEDU 434, PHIL 383, PSYCH 432, PYED 270, PYED 271, REED 230, REED 428, REED 430, REED 434, REED 461, SCED 430, SSCE 421, SSCE 443, SPED 300N, SPED 335, SPED 321N, SPED 413, SPED 415, SPED 422, WLEL 489 or courses listed under Family / Community, or any other course approved by program faculty.

Students transferring from UTHSC programs also may choose from CHEM 102*, CHEM 103*, CHEM 112*, CHEM 113*, CHEM 122*, CHEM 123*, CHEM 128*, CHEM 132*, CHEM 133*, CHEM 138*, LING 372, LING 431, LING 471, LING 472, LING 474, LING 477, PHIL 345*; PHYS 101*, PHYS 102*, PHYS 135*, PHYS 136*, PHYS 137*, PHYS 138*, PHYS 161*, PHYS 221*, PHYS 222*, PHYS 231*, PHYS 232*, PSYC 211, PSYC 294, PSYC 295, PSYC 300, PSYC 301, PSYC 310, PSYC 314, PSYC 330, PSYC 360, PSYC 370, PSYC 400*, PSYC 410, PSYC 430, PSYC 432, PSYC 445, PSYC 474, PUBH 220, PUBH 350, SOCI 120, and up to two intermediate foreign language courses. NOTE: upper-level PSYC courses often have a prerequisite of PSYC 110.

* Meets Volunteer Core Requirement.

Rationale* Addresses a need for a 1) pathway for those who are not interested in teacher licensure, but want to work in early childhood education and care settings (e.g., federally-funded Early Head Start or Head Start centers, non-profit childcare centers, private schools, family service providers), and 2) an off-ramp for students who are counseled out and informed that they cannot be a teacher for various reasons, such as not being able to complete licensure requirements, minimum GPA requirements, or minimum grades in licensure courses. This will allow them to graduate in a timely manner with a degree.

Financial Impact* Uses existing courses and resources. Minimal impact

Impact on Other Units* Not expected to have a large number of enrollees. Most prefer licensure over non-licensure. Some possible impact on Arts & Sciences, Communications. Notes attached from impacted units

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

CIP Code (if available)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

This program is designed for students who are interested in working in disability-related fields other than teaching. Completion of this program results in a Bachelor of Science degree without teacher licensure. Students who want to become teachers should apply to one of the Teacher Education concentrations under the Special Education major. Because this program involves participation in service learning and/or field experiences with children / adults who have disabilities, a background check is required prior to enrollment in field experience or service-learning courses. Professional liability insurance also is required for all field experience / service-learning courses. Students must enroll in SPED courses for a minimum of 15 credit hours.

Progression Requirements

Students interested in this degree should work closely with their advisors to ensure that they understand program requirements and how to leverage coursework toward future career aspirations. Students interested in working for non-profit organizations are highly encouraged to seek a minor in Social Entrepreneurship, Leadership Studies, or Social Justice. Students must complete the program with a minimum 2.5 GPA.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

NOTE: upper-level PSYC courses often have a prerequisite of PSYC 110.
16. Professional Support Electives chosen from COUN 480, IEC 205, IEC 353, MEDU 430, REED 230, REED 428, REED 430, REED 434, REED 461, SCED 430, SSCE 421, or courses listed under Service-Learning electives, Family / Community Engagement electives, Disability-Related electives, Social Justice electives, or courses toward a minor in Social Entrepreneurship, Social Justice, Leadership Studies, American Sign Language, or other minor as approved by faculty.

* Meets Volunteer Core Requirements.

Rationale* rimary intent of this concentration is to provide an off ramp for the student who is counseled out during their final year and informed that they cannot be a licensed teacher for various reasons. Difficult to find another major during their final year with very few, if any, courses that may apply to another major causing a delay in graduation. This will allow them to graduate in a timely manner with a degree.

This also addresses a need for a 1) program for those who may not be interested in teacher licensure but want to work in education settings e.g. non-profit organizations for adults 2) an on-ramp, especially for transfer students, given some programs are reluctant to admit a student to the 5th year internship program directly from community college. This provides students a way to stay on track until official admissions to teacher licensure concentrations.

Financial Impact* None expected since no new courses and relies on current offerings

Impact on Other Units* Minimal impact since we do not expect a significant number of students in this concentration.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

CIP Code (if available) 13.1001

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Course Description This course introduces students to the foundational concepts of applied computing, with a focus on programming, problem-solving, and computational thinking. Students will learn the basics of programming, including variables, loops, and conditionals, while developing an understanding of how to approach problems using computational methods. Key topics include introductory algorithms and data structures (such as arrays and lists), as well as the role of software in fields like artificial intelligence and data science. Ethical considerations, such as data privacy and cybersecurity, are also explored. Students will gain hands-on experience through projects that apply basic programming tools to real-world problems, providing a practical introduction to the power of computing in diverse domains.

Course Description Building on the concepts learned in the first semester, this course dives deeper into advanced programming and computational techniques. Students will explore object-oriented programming, databases, and data management, gaining skills in structuring software for real-world applications. Advanced algorithms and data structures are introduced to further develop problem-solving abilities. The course also covers cloud computing, distributed systems, and the fundamentals of machine learning and AI tools. Practical applications are emphasized, with a focus on areas such as data science, cybersecurity, and automation. Students will work on a group-based semester project, applying the knowledge gained throughout the course to solve a real-world problem using computing solutions.

Course Description This course provides students with a solid foundation in cloud computing and database management. Students will explore the key concepts of cloud computing, including Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS), and gain hands-on experience with cloud deployment using platforms like AWS, Google Cloud, or Azure. The course also covers relational databases (SQL) and NoSQL (MongoDB), focusing on their integration in cloud environments. Students will participate in labs to set up cloud instances and integrate cloud-hosted databases and services. The course highlights the relevance of programming languages such as Python, JavaScript, R, and SQL in cloud computing and database management, providing a broad understanding of how these technologies are applied in real-world industries like healthcare, finance, and more.

Course Description Building on the skills learned in AC 202, this course explores more advanced concepts in web development. Students will learn to work with modern client-side frameworks like React.js and dive into back-end technologies using Node.js and Express.js to create dynamic, data-driven web applications. The course covers database integration, RESTful APIs, user authentication, and web security best practices. Students will also gain experience with deployment tools and DevOps practices, preparing them to deploy and maintain various applications. The semester culminates in a collaborative project where students will apply their skills to build and deploy a complete web application.

Credit Hours* 3

Course Description Students will embark on a comprehensive exploration of the transformative potential of artificial intelligence and data science in the medical and healthcare sectors. The course delves into the practical application of AI algorithms and data science tools for diagnosing diseases, predicting patient outcomes, optimizing treatment plans, and enhancing patient care. Students will be introduced to real-world clinical problems and collectively explore potential AI and data-driven solutions for those problems. This collaborative approach ensures that all students gain exposure to various clinical scenarios. It also lays the groundwork for individual project work, which becomes the focal point in subsequent advanced courses like AI 451.

Credit Hours* 3

Change course status from active to:* (•) Dropped (Inactive-Hidden) ( ) Archived

Course Description This foundational internship course presents students with a singular chance to dive deep into real-world AI applications in a professional environment. Guided by seasoned industry professionals, students will participate in AI tasks and projects that align with the needs of their host organization. In tandem with these tasks, they will hone professional skills, encompassing teamwork, effective communication, and adept problem-solving. A significant aspect of their journey will involve introspection, where students will connect the dots between their academic pursuits and their hands-on experiences. As the internship concludes, students will emerge with a refined perspective on the professional applications of AI and a wealth of invaluable industry experience under their belt.

Course Description Detailed study of concepts, techniques, and applications of Artificial Intelligence (AI) relevant for all disciplines – especially across non-computer science fields. Explores the history and current scope of AI, data sources and procedures for attaining and working with data, and fundamental components of AI solutions. Special attention will be placed on the strengths and weaknesses of the methods as well as on identifying bias, social impacts, and other ethical considerations of AI. Introduces students to AI-relevant programming through hands-on coding projects. This is an undergraduate and graduate course (AI 501) taught concurrently, where graduate students will have additional requirements and assignments.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

Credit Hours* 3

Course Description Building upon foundational knowledge, this advanced course offers a deep dive into the multifaceted role of artificial intelligence and data science across various medical disciplines. Rather than adhering to a traditional structure, students will immerse themselves in collaborative research projects, gaining hands-on experience in real-world healthcare settings. This course aims to refine students' skills and understanding, preparing them for leadership roles in AI and data-driven medical innovations. Through hands-on projects and real-world case studies, students will develop AI and data-driven solutions to address pressing clinical challenges. Collaborative group projects will provide opportunities for students to design, implement, and evaluate AI models and data science tools tailored for specific clinical scenarios. In addition to technical skills, emphasis will be placed on the ethical considerations, data privacy issues, and the patient-centric approach required when integrating AI and data science into clinical settings. By the end of the course, students will be equipped with the skills and knowledge to innovate and contribute meaningfully to the rapidly evolving landscape of AI and data science in medicine.

Subject/Prefix (choose from list)* AI

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 475

Course Title (max 100 characters)* Internship with AI

Credit Hours* 3

Change course status from active to:* (•) Dropped (Inactive-Hidden) ( ) Archived

Course Description This foundational internship course presents students with a singular chance to dive deep into real-world AI applications in a professional environment. Guided by seasoned industry professionals, students will participate in AI tasks and projects that align with the needs of their host organization. In tandem with these tasks, they will hone professional skills, encompassing teamwork, effective communication, and adept problem-solving. A significant aspect of their journey will involve introspection, where students will connect the dots between their academic pursuits and their hands-on experiences. As the internship concludes, students will emerge with a refined perspective on the professional applications of AI and a wealth of invaluable industry experience under their belt.

Satisfies Volunteer Core Requirement:

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency CECS 475

Rationale* We are replacing this course with CECS 475 which will serve as an internship course for all CECS programs.

Impact on Other Units* None

Financial Impact* There will be no financial impact as this course will be replaced by CECS 475

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description Students in the Applied Artificial Intelligence B.S. program learn core AI principles, algorithms, and models to prepare for diverse career path in AI. Students learn how to apply AI techniques to real-world problems while considering AI's ethical, social, and legal impacts. Students will collaborate across disciplines, integrating AI insights and solving complex challenges using creative AI solutions while attaining job readiness through for-credit internships and project-based learning. The AAI program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale* We are revising this program to add more transdisciplinary options for students and streamline the program curriculum. We are also adding the Distance Education modality to this program.

Financial Impact* None.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Applied Computing Concentration Requirements

The Applied Computing Concentration consists of 12 credit hours of required coursework. To satisfy the Applied Computing Concentration requirements, students must complete the following courses:

Required Courses (6 credit hours)

AC 101 Introduction to Applied Computing I
AC 102 Introduction to Applied Computing II

Concentration Track - Select one (6 credit hours)

Select one of the following tracks and complete both courses:

Web Development

AC 202 Introduction to Web Development
AC 302 Advanced Web Development

Cloud Computing

AC 211 Introduction to Cloud Computing and Databases
AC 311 Cloud Computing Applications

Rationale* The College of Emerging and Collaborative Studies is adding an Applied Computing concentration to the existing BS in Applied Artificial Intelligence degree program.

Leadership Studies Concentration Requirements

The Leadership Studies Concentration consists of 12 credit hours of required coursework. To satisfy the Leadership Studies Concentration requirements, students must complete the following courses:

Required Courses (9 credit hours)

LEAD 201 Introduction to Leadership Studies
[Right] *

LEAD 349 Leadership Learning Through Practice
LEAD 350 Coached Leadership Practicum
[Right] *

LEAD 352 Leadership and Change Processes

Select one course (3 credit hours)

LEAD 210 Ethics in Leadership
LEAD 490 Contemporary Issues in Leadership Studies

Rationale* The College of Emerging and Collaborative Studies is adding a concentration in Leadership Studies to the BS in Applied Artificial Intelligence. This concentration was developed in collaboration with the Leadership Studies faculty in the Department of Educational Leadership and Policy Studies.

Financial Impact* None.

Impact on Other Units* This concentration was developed in collaboration with the Department of Educational Leadership and Policy Studies and has been approved by the Leadership Studies faculty and the ELPS Leadership team.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

CIP Code (if available)

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students in the Applied Artificial Intelligence B.S. program learn core AI principles, algorithms, and models to prepare for diverse career path in AI. Students learn how to apply AI techniques to real-world problems while considering AI's ethical, social, and legal impacts. Students will collaborate across disciplines, integrating AI insights and solving complex challenges using creative AI solutions while attaining job readiness through for-credit internships and project-based learning. The AAI program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

The Technical Communication concentration is designed to prepare students to effectively convey complex technical information to diverse audiences using industry-standard tools and best practices.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

2. Engaged Inquiries electives must total 6 credit hours from two or more subjects.
3. See Transdisciplinary Options (TOPS) Electives Requirements below for additional information.
4. Concentration requirement. See Technical Communication Concentration Requirements below for additional information.

* Meets Volunteer Core Requirement.

Transdisciplinary Options (TOPS) Elective Requirements

Students must complete 15 hours of Transdisciplinary Options (TOPS) elective credit by completing any combination of CECS minor(s), CECS certificate(s), and/or program electives as listed below.

CECS Minors

The CECS Minors listed below are eligible for TOPS elective credit:

- Applied Computing
- Applied Cybersecurity
- Bioinformatics
- Data Science
- Human Interaction and Intelligent Systems
- Nuclear Deterrence

CECS Certificates

The CECS Certificates listed below are eligible for TOPS elective credit:

- Applied Computing
- Applied Cybersecurity
- Artificial Intelligence and Medicine
- Artificial Intelligence Integration in Music
- Bioinformatics
- Data Science
- Data Science and Medicine
- Game Craft
- Human Interaction and Intelligent Systems
- Literacy on Emerging Topics
- Modern Sustainable Casting, Forging, and Metalworking
- Nuclear Deterrence
- Professional Advancement Through Hands-On Learning (PATH)
- Sport Analytics
- Sustainable Development

Applied AI Program Electives

The program elective courses listed below are eligble for TOPS credit. Please consult course catalog for specific course prerequisite requirements.

Mathematical and Statistical Foundations

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Applied Computing Certificate

2025-2026 UG Add Program

General Catalog Information

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Computing Certificate

Learning Outcomes

The Applied Computing Certificate program will equip students with the following skills.

1. Develop fundamental programming skills, apply computational thinking to problem-solving, and create basic algorithms and data structures.
2. Understand the role of software in fields like AI, data science, and cybersecurity, while addressing ethical considerations.
3. Apply object-oriented concepts, industry-standard practices, and database management techniques.
4. Cloud Computing Track: Set up and deploy cloud services, integrate databases, and apply cloud tools to real-world applications.
5. Web Development Track: Build web applications with modern frameworks, databases, and cloud deployment.
6. Collaborate on group projects to develop and deliver computing solutions for real-world problems.

These objectives ensure students are prepared for careers in web development, or cloud computing, and other applied computing fields.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Applied Computing Certificate is designed to provide students with a strong foundation in key computing concepts, preparing them for careers in a variety of industries. The certificate program consists of four courses, combining introductory coursework with specialized sequences in web development or cloud computing and databases.

The 2-semester introductory course sequence introduces students to the basics of programming, computational thinking, and problem-solving approaches. Students will learn core programming concepts such as variables, loops, conditionals, and algorithms. The course also explores the role of software in various domains, including AI and data science, while emphasizing ethics in computing, such as data privacy and cybersecurity. Hands-on projects using basic programming tools will help students apply the concepts they learn to real-world problems. Students will be exposed to object-oriented programming, databases, and advanced algorithms and data structures and explore cloud computing, distributed systems, and the basics of machine learning and AI tools. Practical applications in data science, cybersecurity, and automation will be covered, culminating in a group-based semester project that applies computing solutions to real-world problems.

Then students can choose between two specialized tracks:

- Web Development Track: This two-semester sequence covers both front-end and back-end web development. Students will gain experience in technologies such as HTML, CSS, JavaScript, React.js, Node.js, and databases. They will also explore key topics like responsive design, version control, API integration, user authentication, and deployment using platforms like AWS and Heroku. The course culminates in a capstone project where students will build and deploy a web application.
- Cloud Computing and Databases Track: This sequence explores cloud computing fundamentals (IaaS, PaaS, SaaS) and cloud platforms such as AWS, Google Cloud, and Azure. Students will learn to work with relational (SQL) and NoSQL (MongoDB) databases in cloud environments, as well as the integration of cloud-hosted services. The course also covers AI applications in industries such as healthcare and finance, with practical labs focused on cloud deployment, debugging, and writing test cases. The semester concludes with a project that applies cloud computing and database management skills to real-world scenarios.

Upon completion of the certificate, students will be equipped to pursue careers in web development, cloud computing, or other applied computing fields, with a foundation in programming, algorithms, and software development best practices.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Applied Computing Minor is designed to provide students with a robust foundation in computing concepts and hands-on skills, preparing them for a variety of careers in the growing field of technology. This minor consists of six courses, combining foundational knowledge with specialized sequences in web development or cloud computing and databases, or other electives, along with a capstone course to apply skills to real-world problems.

The 2-semester introductory course introduces students to the basics of programming, computational thinking, and problem-solving approaches. Students will learn core programming concepts such as variables, loops, conditionals, and algorithms. The course also explores the role of software in various domains, including AI and data science, while emphasizing ethics in computing, such as data privacy and cybersecurity. Hands-on projects using basic programming tools will help students apply the concepts they learn to real-world problems. Students will be exposed to object-oriented programming, databases, and advanced algorithms and data structures, and explore cloud computing, distributed systems, and the basics of machine learning and AI tools. Practical applications in fields like data science, cybersecurity, and automation will be covered, culminating in a group-based semester project that applies computing solutions to real-world problems.

In the capstone course, students will apply the concepts and skills learned throughout the minor to a real-world problem. Working in teams, students will undertake a capstone project that requires designing, developing, and deploying a comprehensive computing solution. The project will integrate knowledge from various domains, such as programming, cloud computing, web development, databases, and AI, and students will present their findings and outcomes to faculty and industry professionals.

Additionally, students will choose three courses between electives. Potential courses may include topics in web development, cloud computing, AI, machine learning, data science, cybersecurity, or software engineering. Electives will allow students to tailor their minor to their interests and career goals. Two specialized tracks will be offered:

- Web Development Track: This two-semester sequence covers both front-end and back-end web development. Students will gain experience in technologies such as HTML, CSS, JavaScript, React.js, Node.js, and databases. They will also explore key topics like responsive design, version control, API integration, user authentication, and deployment using platforms like AWS and Heroku. The course culminates in a capstone project where students will build and deploy a web application.
- Cloud Computing and Databases Track: This sequence explores cloud computing fundamentals (IaaS, PaaS, SaaS) and cloud platforms such as AWS, Google Cloud, and Azure. Students will learn to work with relational (SQL) and NoSQL (MongoDB) databases in cloud environments, as well as the integration of cloud-hosted services. The course also covers AI applications in industries such as healthcare and finance, with practical labs focused on cloud deployment, debugging, and writing test cases. The semester concludes with a project that applies cloud computing and database management skills to real-world scenarios.

By completing the Applied Computing Minor, students will be equipped to design, develop, and deploy software solutions, with expertise in web development, cloud computing, and databases. The minor fosters critical problem-solving skills, hands-on experience with modern computing tools, and the ability to tackle complex real-world challenges in diverse industries.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Bioinformatics Certificate

Learning Outcomes A student completing a certificate in Bioinformatics will:

- Develop computational skills relevant to solving problems in bioinformatics.
- Develop additional skills in math, statistics and/or biology that enable success in the field of bioinformatics by taking specific upper-level electives in these domains.
- Develop analytical skills that will allow identification of important problems in bioinformatics and to identify solutions.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This program is intended to equip students with bioinformatics knowledge and skills necessary in a range of settings, including post-graduate studies and work in industry, research institutions, and some government agencies. The program is designed to accommodate and support students with diverse backgrounds, including those with limited initial programming experience. By completing the two core bioinformatics courses, students will develop foundational computational skills. Subsequent upper-level electives will develop additional relevant skills in math, computing, statistics and/or biology that will help enable success post-graduation. For students who already have a strong background in one disciplinary area and wish to continue to prioritize, greater computational skills will allow pursuit of more advanced coursework in that desired area. By graduation all bioinformatics students will be able to identify important problems in bioinformatics and to develop relevant solutions.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

[Left] 1, 2

MICR 479 Advanced Techniques in Nucleic Acid Sequencing
[Left] 1

MICR 480 Genomics and Bioinformatics

Footnotes

* Course satisfies Volunteer Core requirement.

[1] Course has its own sequence of prerequisites. Please consult the catalog for additional information.

[2] Course has registration restrictions. Please consult the catalog for additional information.

Rationale* This is a new certificate being developed by the College of Emerging and Collaborative Studies.

Financial Impact* CECS faculty will teach the BINF courses.

Impact on Other Units*

The following units have courses listed as electives in the Bioinformatics certificate

- Biochemistry, Cellular, & Molecular Biology (BCMB)
- Biosystems Engineering (BSE)
- Ecology & Evolutionary Biology (EEB)
- Microbiology (MICR)
- Computer Science (COSC)

Have you consulted with all programs/departments that will be impacted by this change?*

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description Students in the Data Science B.S. program learn to transform raw data into meaningful information using data-oriented programming languages through core data mining, statistics and data modeling skills. Students learn to extract, prepare, and visualize data, which they then model and analyze. Students learn to apply these skills with sector-specific knowledge in the capstone course, where they develop workforce-ready skills on real-world projects. The BSDS degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

AC 311 Cloud Computing Applications

Credit Hours 15

Term 8 Milestone Notes

Cumulative GPA of 2.0 or above

Total Credit Hours 120

Footnotes

1. Expanded Perspectives Electives must total 6 credit hours from any courses on the approved AH, SS, GCI, or GCUS or AAH lists

2. Engaged Inquiries electives must total 6 credit hours from two or more subjects.

3.See Transdisciplinary Options (TOPS) Electives Requirements below for additional information.

4. Concentration requirement. See Applied Computing Concentration Requirements below for additional information.

5. Students who complete AC 202 in Term 7 must complete AC 302 in Term 8.

6. Students who complete AC 211 in Term 7 must complete AC 311 in Term 8.

* Meets Volunteer Core Requirements.

Transdisciplinary Options (TOPS) Elective Requirements

Students must complete 15 hours of Transdisciplinary Options (TOPS) elective credit by completing any combination of CECS minor(s), CECS certificate(s), and/or program electives as listed below.

CECS Minors

The CECS Minors listed below are eligible for TOPS elective credit for this program:

Applied Artificial Intelligence

Applied Cybersecurity

Bioinformatics

Human Interaction and Intelligent Systems

Nuclear Deterrence

CECS Certificates

The CECS Certificates listed below are eligble for TOPS elective credit for this program:

Applied Artificial Intelligence

Applied Cybersecurity

Artificial Intelligence and Medicine

Artificial Intelligence Integration in Music

Bioinformatics

Data Science and Medicine

Game Craft

Human Interaction and Intelligent Systems

Literacy on Emerging Topics

Modern Sustainable Casting, Forging, and Metalworking

Nuclear Deterrence

Professional Advancement Through Hands-On Learning (PATH)

Sport Analytics

Sustainable Development

Data Science Program Electives

The program elective courses listed below are eligble for TOPS credit. Please consult course catalog for specific course prerequisite requirements.

Mathematical and Statistical Foundations of Data Science

BAS 320 Regression Modeling
BAS 471 Statistical Methods
BAS 474 Data Mining and Business Analytics
ESM 250 Applied Statistical Concepts for Decision Makers

Applied Computing Concentration Requirements

The Applied Computing Concentration consists of 12 credit hours of required coursework. To satisfy the Applied Computing Concentration requirements, students must complete the following courses:

Required Courses (6 credit hours)

AC 101 Introduction to Applied Computing I
AC 102 Introduction to Applied Computing II

Concentration Track - Select one (6 credit hours)

Select one of the following tracks and complete both courses:

Web Development

AC 202 Introduction to Web Development
AC 302 Advanced Web Development

Cloud Computing

AC 211 Introduction to Cloud Computing and Databases
AC 311 Cloud Computing Applications

Rationale* We are adding an Applied Computing concentration to the existing BS in Data Science degree program.

Financial Impact* None.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

CIP Code (if available)

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The BSDS degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors. The Bioinformatics concentration is intended to equip students with bioinformatics knowledge and skills necessary in a range of settings, including post-graduate studies and work in industry, research institutions, and some government agencies.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students in the Data Science B.S. program learn to transform raw data into meaningful information using data-oriented programming languages through core data mining, statistics and data modeling skills. Students learn to extract, prepare, and visualize data, which they then model and analyze. Students learn to apply these skills with sector-specific knowledge in the capstone course, where they develop workforce-ready skills on real-world projects. The BSDS degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

The Leadership Studies concentration is designed to provide students with the opportunity to build foundational knowledge in leadership theory, strengthen leadership skills, and develop leadership capacity through experiential and applied learning opportunities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Sport Analytics Concentration Requirements

The Sport Analytics Concentration consists of 12 credit hours of required coursework. To satisfy the Sport Analytics Concentration requirements, students must complete the following courses:

Required Course (3 credit hours)

Select one course:

KNS 355 Analytical Methods in Sport
RSM 355 Analytical Methods in Sport

Required Course (3 credit hours)

Select one course:

KNS 200 Introduction to Kinesiology
RSM 250 Foundations of Sport Management

Elective Courses (6 credit hours)

Select two courses from the list below:

ADPR 365 Social Media Strategy
ADPR 415 Social Media Analytics
BAS 310 Analytic Models for Decision Optimization
BAS 320 Regression Modeling
BAS 340 Experimental Methods and Process Improvement
BAS 454 Data Visualization for Business Analysts
JMED 416 Audience Analytics
JMED 419 Communicating with Data
RMM 376 Customer Experience Analytics
RMM 425 Retail Category Management

Rationale* The College of Emerging and Collaborative Studies is adding a Sport Analytics concentration option to the BS in Data Science program.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

CIP Code (if available)

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description Students in the Data Science B.S. program learn to transform raw data into meaningful information using data-oriented programming languages through core data mining, statistics and data modeling skills. Students learn to extract, prepare, and visualize data, which they then model and analyze. Students learn to apply these skills with sector-specific knowledge in the capstone course, where they develop workforce-ready skills on real-world projects. The BSDS degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors. The Technical Communication concentration is designed to prepare students to effectively convey complex technical information to diverse audiences using industry-standard tools and best practices.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Technical Communication Concentration Requirements

The Technical Communication Concentration consists of 12 credit hours of required coursework. To satisfy the Technical Communication Concentration requirements, students must complete the following courses:

Required Courses (9 credit hours)

[Before]Complete:

ENGL 360 Technical and Professional Writing
[Right] *

[Before]Select two courses:

ENGL 460 Technical Editing
ENGL 461 Global Communication for Science and Technology
[Right] *

ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents

Concentration Elective (3 credit hours)

Select one additional course in rhetoric or writing:

ENGL 355 Rhetoric and Writing
[Right] *

ENGL 357 Honors: Rhetoric and Writing
[Right] *

ENGL 455 Persuasive Writing
[Right] *

ENGL 460 Technical Editing
ENGL 461 Global Communication for Science and Technology
[Right] *

ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents
ENGL 470 Special Topics in Rhetoric
ENGL 494 Cultural Rhetorics
[Right] *

Rationale* CECS is adding a concentration in Technical Communication to the BS in Data Science degree program. This concentration was developed in collaboration with the English department.

Financial Impact* None.

Impact on Other Units* This concentration was developed in collaboration with the English department.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The intercollegiate Data Science minor consists of six courses and 18 hours. Two core courses give students a broad background in the foundations of Data Science. Three elective courses allow students to apply Data Science techniques to a specific field, to deepen their understanding of Data Science methodologies, or to gain further background in the ethical and policy considerations of Data Science. In the sixth course, students pursue an interdisciplinary, team-based capstone experience.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Footnotes

[1] Course has its own set of prerequisites. Please consult the catalog for more information.

*** Satisfies Volunteer Core requirement.**

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ○ Yes
- ◉ No

Rationale*

We are revising the minor to more closely align with the structure of other CECS minors. These revisions include:

- reducing the number of required core courses from four to two
- increasing the number of elective courses required from one to three
- updating the total required credit hours to 18 (standard for CECS minors)

We have also revised the elective categories to align with the Data Science major, added additional DATA courses to the elective list and added footnotes to indicate elective courses that have prerequisites outside of the core minor curriculum. Finally, we have also added the Distance Education modality to this program.

Financial Impact*

None.

Impact on Other Units*

None.

Have you consulted with all programs/departments that will be impacted by this change?*

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Human Interaction and Intelligent Systems Certificate

2025-2026 UG Add Program

General Catalog Information

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Human Interaction and Intelligent Systems Certificate

Learning Outcomes Upon successful completion of this certificate program, students will be able to:

1. Apply Principles of Human-Centered Design to create intelligent systems and interfaces that prioritize usability, accessibility, and user satisfaction across diverse populations.
2. Evaluate how humans interact with intelligent systems, incorporating cognitive, social, and cultural factors into design and development processes.
3. Create and prototype systems that leverage AI and machine learning to adapt dynamically to user behaviors and needs.
4. Demonstrate proficiency in tools, platforms, and programming languages used in intelligent systems and HCI development.
5. Effectively articulate the goals, methodologies, and outcomes of intelligent system projects to diverse stakeholders through written, verbal, and visual presentations.
6. Work collaboratively with individuals from technical, creative, and business backgrounds to develop innovative intelligent systems.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This certificate program provides students with foundational knowledge and skills at the intersection of human-computer interaction (HCI) and intelligent systems. Learners will explore how humans interact with AI-driven technologies, focusing on user-centered design, adaptive systems, and ethical considerations. Through hands-on projects and interdisciplinary learning, students will develop the ability to design, prototype, and evaluate intelligent systems that enhance user experience and address real-world challenges.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The minor in Human Interaction and Intelligent Systems equips students with interdisciplinary knowledge at the intersection of human-computer interaction (HCI) and intelligent technologies. This program emphasizes user-centered design, adaptive system development, and the ethical integration of AI and machine learning into everyday applications. Students will gain skills in designing accessible and engaging interfaces, analyzing user behavior, and addressing societal challenges associated with intelligent systems. The program culminates in a hands-on capstone project, where students collaborate on real-world challenges to design, prototype, and test intelligent systems that address user needs in fields such as healthcare, education, entertainment, or public services.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus

Knoxville

Distance Education

Credit Hours Required:

The Human Interaction and Intelligent Systems minor consists of 18 credit hours of coursework.

Required Courses (6 credit hours)

Complete both courses:

HCI 201 Foundations of Intelligent Systems and Human Interaction
[Left] 1

AI 202 Human-AI Interaction and Experience Design

Elective Courses (9 credit hours)

Complete three courses from one category below:

AI and User Experience

AI 101 Introduction to the World of AI
AI 102 Natural Language-based Programming Techniques
INSC 311 User-Centered Design
[Left] 1

INSC 430 Foundations of User Experience
[Left] 1

INSC 435 Usability Testing and Methods
[Left] 1

INSC 439 Interfaces and Interaction Design
PSYC 110 General Psychology
[Right] *

User Experience Design

DH 200 Introduction to Digital Humanities
DSGN 130 Basic Design Thinking and Innovation
[Right] *

DSGN 150 The Idea of Design
[Right] *

DSGN 430 Design Thinking and Innovation
[Right] *

GAME 201 Introduction to Game Craft
GAME 329 Interactive and Immersive Game Experience Design
INSC 311 User-Centered Design
PSYC 110 General Psychology

Required Capstone Course (3 credit hours)

Complete one course:

CECS 399 CECS Transdisciplinary Capstone
CECS 499 CECS Senior Transdisciplinary Capstone

Footnotes

[1] Course has its own set of prerequisites. Please consult the catalog for more information.

* Satisfies Vol Core Requirement.

Rationale* This is a new minor developed by the College of Emerging and Collaborative Studies.

Financial Impact* CECS faculty will teach HCI, AI, GAME, and CECS Capstone courses.

Impact on Other Units*

The following unites have courses listed as electives in the Human Interaction and Intelligent Systems minor:

- Art/Graphic Design (ARTD)
- Digital Humanities (DH)
- Design (DSGN)
- Information Sciences (INSC)
- Psychology (PSYC)

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No

CIP Code (if available)

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The BS in Innovative Transdisciplinary Studies degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors. The core courses in this program orient students with concepts of transdisciplinary studies, including synthesizing relevant content from across disciplines, research methods, and problem-solving for transdisciplinary projects. The Applied Computing concentration is designed to provide students with a strong foundation in key computing concepts, preparing them for careers in a variety of industries.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

The core courses in this program orient students with concepts of transdisciplinary studies, including synthesizing relevant content from across disciplines, research methods, and problem-solving for transdisciplinary projects. The Technical Communication concentration is designed to provide students with the skills needed to convey complex technical information in accessible formats for diverse audiences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Cumulative GPA of 2.0,
Completed one Research/Internship/Service course

Total Credit Hours 120

Footnotes:

All students must complete the following ITS core courses: ITS 101, ITS 102, ITS 201, ITS 202, ITS 301, ITS 302, ITS 399, ITS 401, and ITS 499

All students must also complete 6 hours of courses in the R/N/S category.

Students will select certificates from the list of approved CECS certificates (link to be added)

Concentration requirement. See Technical Communication Concentration Requirements below for additional information.

* Meets Volunteer Core Requirements.

CECS Certificates

Applied Artificial Intelligence Certificate

Applied Cybersecurity Certificate

Artificial Intelligence Integration in Music Certificate

Artificial Intelligence and Medicine Certificate

Data Science Certificate

Game Craft Certificate

Literacy on Emerging Topics Certificate

Sustainable Development Certificate

Technical Communication Concentration Requirements

The Technical Communication Concentration consists of 12 credit hours of required coursework. To satisfy the Technical Communication Concentration requirements, students must complete the following courses:

Complete:

ENGL 360 Technical and Professional Writing
[Right] *

Select two courses:

ENGL 460 Technical Editing
ENGL 461 Global Communication for Science and Technology
[Right] *

ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents

Select one additional course in rhetoric or writing:

ENGL 355 Rhetoric and Writing
[Right] *

ENGL 357 Honors: Rhetoric and Writing
[Right] *

ENGL 455 Persuasive Writing
[Right] *

ENGL 460 Technical Editing
ENGL 461 Global Communication for Science and Technology
[Right] *

ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents
ENGL 470 Special Topics in Rhetoric
ENGL 494 Cultural Rhetorics
[Right] *

Rationale*	CECS is adding a concentration in Technical Communication to the BS in Innovative Transdicsciplinary Studies. This concentration was developed in collaboration with the English department.
Financial Impact*	None
Impact on Other Units*	This concentration was developed in collaboration with the Engish department.
Have you consulted with all programs/departments that will be impacted by this change?*	(•) Yes ( ) No

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Nuclear Deterrence Certificate

2025-2026 UG Add Program

General Catalog Information

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Nuclear Deterrence Certificate

Learning Outcomes

- Understand the historical and theoretical foundations underlying nuclear deterrence.
- Evaluate strategic deterrence concepts and mechanisms.
- Analyze how emerging technologies are reshaping the landscape of nuclear deterrence.
- Explore contemporary challenges to nuclear deterrence in a changing geopolitical landscape.
- Assess the causes and consequences of violent political conflict.
- Examine the ethical considerations and risks associated with nuclear weapons.
- Identify and apply leadership and communication frameworks to crisis scenarios.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [x] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

As long as there are states that seek to or have nuclear weapons, especially in the current era of global geopolitical instability it's vital that the United States has a talent pipeline of nuclear experts to avoid nuclear crisis. The waning interest in the study of nuclear deterrence in the aftermath of the Cold War, coupled with the increasing retirement of nuclear experts, is leading to a large gap between the need for nuclear expertise and the number of students trained to deal with nuclear threats.

The interdisciplinary Nuclear Deterrence Certificate program for undergraduate students is the first step in educating the next generation of U.S. leaders in nuclear deterrence. The program offers a rigorous curriculum from numerous colleges across UTK providing students with a solid understanding of technology, social sciences, and leadership as they relate to nuclear deterrence.

Undergraduate students in the Nuclear Deterrence certificate program will gain a deep understanding of deterrence concepts and theory, strategy and doctrine, technologies, insights into international relations and conflict frameworks, and leadership development.

Upon completion of this certificate, students are qualified for junior positions in the federal government and military, national laboratories, think tanks, and international institutions specializing in defense and security.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Sport Analytics Certificate

2025-2026 UG Add Program

General Catalog Information

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Sport Analytics Certificate

Learning Outcomes After successfully completing the Sport Analytics Certificate, students and learners will have familiarity and be prepared to:

- Collect and manage relevant data in sport relating to (a) health and wellness, (b) player performance, (c) team performance, (d) sport business, (e) injury rehabilitation, (f) sport consumer and audience behavior, (g) social impact / community engagement.
- Employ relevant analytical techniques with sport data, including data management, and reporting, statistical analysis, predictive modeling, performance optimization, and data visualization.
- Develop and hone computer-coding skills in industry-relevant software and tools to collect, analyze, and interpret data in sport settings.
- Demonstrate applied analytics literacy to offer data-informed recommendations for interdisciplinary professionals to formulate strategic decisions in sport.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [x] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Sport Analytics Certificate program provides students and learners with foundational skills and best practices for applied sport data analytics.

Foundational topics will include (a) player and team performance, (b) health and wellness, (c) injury rehabilitation, (d) talent identification and evaluation, (e) coaching strategy, (f) game management, (g) sport business econometrics, (h) sport consumer and audience behavior, and (i) community engagement. The curriculum is designed to align with the current demands and trends in the sport analytics industry. Upon completion, students and learners will gain a foundational understanding of sport analytical concepts and practical skills. Students and learners may continue their education in sport analytics at a higher level if desired.

Students and learners who complete the Sport Analytics Certificate program are prepared to partner with various transdisciplinary personnel to bridge data management, computer science, statistical analysis, emerging technology, and sport acumen to make data-driven strategic decisions.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Sustainable Development Certificate

2025-2026 UG Revise Program

General Catalog Information

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Sustainable Development Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [x] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Sustainable Development Certificate is intended for working professionals, graduate, and undergraduate students interested in incorporating the United Nations Sustainable Development Goals (UN SDGs) into their current practice and skills. This certificate is intended to increase sustainable development competency both internationally and domestically, and to prepare students for a career in private industry, the government, or a non-governmental organization. This certificate is intended to be an accelerated program and students can complete the certificate within an academic year. The certificate is available to individuals who are 1) pursuing any academic programs at the University of Tennessee or 2) a current student at an outside accredited 4-year post-secondary institution or 3) post-baccalaureate and enrolled solely in the certificate program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

2025-2026 UG Drop/Archive Course

General Catalog Information

College* College of Emerging and Collaborative Studies

Department (Acalog Hierarchy)* College of Emerging and Collaborative Studies

Subject/Prefix (choose from list)* DATA

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 375

Course Title (max 100 characters)* Internship

Credit Hours* 3

Change course status from active to:* (•) Dropped (Inactive-Hidden) ( ) Archived

Course Description Designed to offer students practical work experience related to Data Science in a professional setting. This course facilitates applying classroom learning to real-world situations, fostering personal and professional growth. Students will work closely with industry professionals, apply their knowledge and skills, and reflect on their experiences to enhance their readiness for future career opportunities. Prerequisite: completion of required and pertinent advanced courses relevant to student's internship. Written permission of advisor and approval of internship coordinator. May be repeated with written permission.

Satisfies Volunteer Core Requirement:

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency CECS 375

Rationale* We are replacing this course with CECS 375 which will serve as an internship course for all CECS programs.

Impact on Other Units* No impact on other units.

Financial Impact* There is no financial impact as this course will be replaced with CECS 375.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Course Description This introductory course provides an overview of intelligent systems and their role in shaping human-computer interactions. Students will explore the basic principles of artificial intelligence, machine learning, and human-centered design, learning how these technologies influence user experience and decision-making in everyday digital applications. Topics include foundational AI concepts, user interface design, and methods for creating intuitive, accessible, and ethical intelligent systems. Through a combination of lectures, hands-on activities, and collaborative projects, students will develop a foundational understanding of how to design and evaluate technology that aligns with human needs and behaviors. This course is ideal for students interested in the social and technical aspects of intelligent systems.

College of Nursing - College of Nursing - Nursing Major, BS in Nursing

2025-2026 UG Revise Program

General Catalog Information

College* College of Nursing

Department* College of Nursing

Program Name* Nursing Major, BS in Nursing

Degree Type* Bachelor of Science in Nursing

Program Type* Undergrad (Major)

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students enrolled in the Traditional Bachelor of Science in Nursing (TBSN) program are required to successfully complete eight semesters of full-time study or the equivalent in part-time study, of prescribed coursework, for a total of 120 semester hours.

Freshman Admission

Selection is highly competitive and based primarily on academic achievement at the high school level and scores on the ACT and/or SAT, as well as interest in and commitment to nursing.

Change of Major or Transfer Students

Students currently enrolled at the University of Tennessee in another college/major may apply for an open position in the nursing program.

Nursing Substitutions

HDFS 210* or PSYC 300; MICR 210* or BIOL 220 with BIOL 229 lab.

Progression Policies and Procedures

Students admitted into the College of Nursing are eligible to continue into upper- division nursing courses if they meet the following criteria:

- complete all required courses in the freshman and sophomore curriculum by the end of the spring semester, prior to fall of junior year.
- earn a minimum of 3.20 cumulative grade point average at the conclusion of all required lower-division coursework, including NURS 201 and NURS 319. (Excess elective credit will not be counted toward this GPA requirement.)
- earn a minimum grade of "C" or better in all courses.
- Submit an Intent to Progress form by the noted deadline in sophomore year.

Failure to fulfill these requirements and deadlines will make a student ineligible to progress to upper-division course work, and the student will be released from the College of Nursing.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

- ◉ Archived
- ○ N/A

Variable Title?
- ○ Yes
- ◉ No

Credit Hours* 4

Course Description In this capstone clinical immersion course, students transition into the role of a professional nurse through an intensive preceptorship experience. Building on previous clinical immersion courses, students apply advanced theoretical and evidence-based knowledge to deliver safe, high-quality, person-centered care across diverse patient populations. This course emphasizes independent decision-making, interprofessional collaboration, and effective communication skills essential for complex patient care. Through hands-on practice and reflective techniques, students deepen their clinical competencies, foster professional growth, and prepare for the responsibilities and challenges of autonomous nursing practice.

Statement about Crosslistings:

Rationale*

The Undergraduate Curriculum Committee has revised the course descriptions to align with the 2021 AACN Essentials, ensuring our courses meet the latest standards in nursing education. This update strengthens our commitment to preparing students with the essential knowledge and competencies required for contemporary nursing practice. By refining course descriptions, we support clear, cohesive learning pathways that reinforce core concepts and professional values across the undergraduate nursing program.

College of Nursing - NURS - 354

2025-2026 UG Revise Course

General Catalog Information

College* College of Nursing

Department (Acalog Hierarchy)* College of Nursing

Subject/Prefix (choose from list)* NURS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 354

Course Title (max 100 characters)* Leadership I for the Accelerated Student

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ◉ N/A

Variable Title?
- ○ Yes
- ◉ No

Credit Hours* 1

Course Description This course prepares students to transition into the role of a professional nurse by identifying the knowledge and skills essential for effective leadership. Emphasizing evidence-based practice, effective communication, and collaboration within interprofessional teams, students will explore the historical foundations of nursing, develop strategies for conflict resolution, and gain a deeper understanding of the delegation process. Through a focus on ethical principles, students will also develop a personal nursing philosophy that supports compassionate, person-centered care across diverse healthcare settings.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

For N/R/S base courses, should this course be:
- ○ Active
- ◉ Archived
- ○ N/A

Variable Title?
- ○ Yes
- ◉ No

Credit Hours* 4

Course Description This course builds on foundational skills from Clinical Immersion I, further developing students' abilities to deliver evidence-based and person-centered care to adults. Students engage with diverse populations to address health promotion, acute and chronic conditions, restorative care, and supportive care needs. Through community-based academic service learning, students engage meaningfully with communities and practice reflective techniques that reinforce personal growth and professional development. Clinical experiences, enriched by simulation and skills lab, support students in applying theoretical knowledge, mastering nursing skills, communicating effectively, and preparing for interprofessional collaboration.

Equivalency

Rationale*

The Undergraduate Curriculum Committee has revised the course descriptions to align with the 2021 AACN Essentials, ensuring our courses meet the latest standards in nursing education. This update strengthens our commitment to preparing students with the essential knowledge and competencies required for contemporary nursing practice. By refining course descriptions, we support clear, cohesive learning pathways that reinforce core concepts and professional values across the undergraduate nursing program.

Course Description This course builds on previous clinical immersion experiences, advancing students' skills in delivering evidence-based, person-centered care within a nursing specialty area. Nursing specialties may include pediatric care, primary care, aging adult care, maternal-newborn care, critical care, perioperative care, and psychiatric care. Students will apply nursing knowledge, enhance communication skills, and strengthen critical reasoning to meet the diverse needs of their specialty population. Clinical experiences are offered across various settings, with simulation/lab activities to reinforce learning and skill development.

Course Description

Students acquire evidence-based knowledge essential for promoting and managing health across individuals, families, communities, and populations. Emphasis is placed on understanding the impact of social drivers/determinants of health, cultural and global perspectives, and environmental factors on health outcomes. Students will analyze data from reliable sources, apply principles of epidemiology, and assess how health care policy and public policy shape population health. The course also explores the diverse roles of nurses in community and public health settings, fostering an understanding of ethical and professional responsibilities in delivering equitable, high-quality care.

Course Description This course builds on previous clinical immersion experiences, students apply advanced evidence-based knowledge to deliver person-centered care within a nursing specialty area and a general medical-surgical area. Nursing specialties may include pediatric care, maternal-newborn care, emergency care, critical care, medical-surgical care, perioperative care, and psychiatric care. In the medical-surgical component, students transition into the role of a professional nurse through an intensive preceptorship type of experience. Through hands-on practice, simulation, and reflective techniques, students deepen their clinical competencies, foster professional growth, and prepare for the responsibilities and challenges of autonomous nursing practice

College* College of Nursing

Department (Acalog Hierarchy)* College of Nursing

Subject/Prefix (choose from list)* NURS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 457

Course Title (max 100 characters)* Honors: Nursing Leadership

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- (•) N/A

Variable Title?
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Honors version of NURS 452. Students apply leadership concepts at an advanced level. This course prepares the honor student to develop as a nurse leader within interprofessional healthcare teams. Students will use an evidence-based practice framework to plan quality improvement initiatives; examine the impact of health policy on individual and population health; and assess how different leadership styles shape organizational change and conflict resolution. Emphasis is placed on legal and ethical principles, scope of practice, the delegation process, and budgeting within complex healthcare systems. Through reflective practice, students will create a personal nursing philosophy that fosters compassionate, person-centered care for diverse patient populations.

Rationale*

The Undergraduate Curriculum Committee has revised the course descriptions to align with the 2021 AACN Essentials, ensuring our courses meet the latest standards in nursing education. This update strengthens our commitment to preparing students with the essential knowledge and competencies required for contemporary nursing practice. By refining course descriptions, we support clear, cohesive learning pathways that reinforce core concepts and professional values across the undergraduate nursing program.

Course Description Students acquire evidence-based knowledge essential for promoting and managing health across individuals, families, communities, and populations. Emphasis is placed on understanding the impact of social drivers/determinants of health, cultural and global perspectives, and environmental factors on health outcomes. Students will analyze data from reliable sources, apply principles of epidemiology, and assess how health care policy and public policy shape population health. The course also explores the diverse roles of nurses in community and public health settings, fostering an understanding of ethical and professional responsibilities in delivering equitable, high-quality care.

Credit Hours* 2

Course Description This course builds on prior clinical immersion experiences, enhancing students' abilities to apply theoretical and evidence-based knowledge in community and population health settings. Emphasizing person-centered care, students will collaborate with diverse communities to address health promotion, disease prevention, and social drivers/determinants of health. Through community-based academic service learning, students will practice reflective techniques that foster personal growth and professional development. Clinical experiences, enriched by simulation, support students in honing nursing skills, effective communication, and interprofessional collaboration to optimize population health outcomes.

NOTES:

*** Meets Volunteer Core Requirement.**

Admission to the minor and the combination of courses used for fulfillment of this minor must be approved by the Director of BSSW Programs in the College of Social Work.
All courses have been approved for use in the minor by the relevant college or department.
Participation in the minor does not waive any course prerequisites or affect scheduling of courses.
Psychology majors can use no more than 6 credit hours in psychology to satisfy the minor requirements.
Sociology majors can use no more than 6 credit hours in sociology to satisfy the minor requirements, not including SOCI 492N.
Social work majors can use no more than 6 credit hours in social work to satisfy both major and minor requirements, not including SOWK 444.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
○ Yes
◉ No

Rationale*
Adding four Africana Studies courses captures the importance of Africana studies in the landscape of Social Justice.

Financial Impact*
By adding four Africana Studies courses, Africana studies will need to make sure any additional seats are available which may impact the number of sections needed. Africana Studies is well aware of this impact.

Impact on Other Units*
The College of Social Work, Departments of Sociology and Psychology will be minimally impacted as students pursuiing this minor are still eligible to take all previously approved course in the minor.

Have you consulted with all programs/departments that will be impacted by this change?*
◉ Yes ○ No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Course Description This course introduces students to child welfare and child welfare-adjacent practice. The history of the child welfare system – including federal and state policies, definitions of the types of child abuse and neglect, and common biases will be discussed and applied to outcome measures of safety, permanency, and well-being. Components of the planned change process, such as engagement and assessment, will be considered through a strengths-based, family-centered, and culturally responsive approach. Collaboration with multidisciplinary partners and professional documentation will also be emphasized

Course Description This course is designed to enhance the knowledge and skills of students interested in child welfare and child welfare-adjacent practice by applying a critical lens to the evolution of trauma-informed, evidence-based approaches. Attachment and human development theories, neurobiology, and the importance of creativity and play will provide context to working with children and families in a variety of settings. Special consideration will be given to the intersectionality of child welfare practice with healthcare, education, juvenile justice, immigrant families, military families, and LGBTQ+ youth.

Course Description This course is designed to provide a foundational knowledge of non-profit management and leadership. Specifically, this course focuses on communication, marketing, and public relations while fostering self-awareness and culturally responsive practice. This course addresses financial and human resource development as well as the roles and responsibilities of an effective board of directors and staff leadership. Understanding of ethics, laws, and regulations that govern non-profit leadership will be explored. Various facets of program development, including conducting needs assessments, asset identification, allocation of resources, and program evaluation strategies will be explored. The course will also explore trends and innovations emerging in the non-profit sector.

Statement about Crosslistings:

Equivalency* ACCT 204

Rationale* AIM faculty proposed adding an upper-level managerial accounting course to deepen students' understanding of managerial and cost accounting. The course will cover topics such as product costing, cost behavior, breakeven analysis under uncertainty, decision-making processes, variance analysis, and budgeting. Shifting this course to the 400-level will not only allow for greater depth and rigor than the introductory ACCT 204 but will also better prepare students for complex real-world applications in managerial accounting.

Impact on Other Units*

Impact Report for ACCT 204

Source: WORKING 2025-2026 Undergraduate Catalog	
Programs	Accounting Major, BS in Business Administration - Collateral Option
	Accounting Major, BS in Business Administration - Heath Integrated Business and Engineering Program
	Accounting Major, BS in Business Administration - International Business Concentration

Financial Impact* The instructional resources used for ACCT 204 will shift to the delivery of ACCT 421 without the need to add additional instructional capacity

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The University of Tennessee has one of the leading accounting programs in the nation. The program emphasizes the conceptual and applied understanding of business information and prepares students for careers in accounting and business.

The faculty strongly encourages students who desire to become professional accountants, such as Certified Public Accountants (CPAs), to continue their formal education in UT's full-time, eleven-month Master of Accountancy (MAcc) program, which is described in the University's Graduate Catalog.

The primary objective of the 30 semester-hour MAcc program is to prepare students for careers as professional accountants. MAcc students select a specialty area in (1) audit/controls or (2) information management or (3) taxation.

Taken together, the BS and MAcc programs provide graduates not only with two academic degrees, but also with the educational requirements to sit for the CPA and/or CISA exam as well as the academic preparation to begin successful careers as professional accountants. Most states, including Tennessee, require 150 semester hours of education to sit for the CPA exam. At UT, students may earn 120 semester hours in the undergraduate program and then 30 hours in the MAcc program, for a total of 150 semester hours. The accounting faculty strongly encourages MAcc students to take the CPA and CISA exams as soon as they qualify.

The UT undergraduate accounting program offers its majors an opportunity to participate in two full-time, highly-structured internship programs. The first internship program emphasizes internships in industry. The second internship program emphasizes internships with public accounting firms. Both internship experiences are full-time and offer relevant work assignments and significant compensation.

The undergraduate accounting curriculum introduces students to the major functional areas of accounting (financial, managerial, etc.). The curriculum also requires students to choose a three-course collateral area in one of five areas that closely complement a career in accounting – business analytics, finance, information management, international business, or real estate.

The UT accounting program has separate *accounting accreditation* from AACSB International and is one of the first accounting programs to have earned this designation. As an accredited program, the UT accounting program continuously meets or exceeds a rigorous set of international accreditation standards and is peer reviewed on a regular basis.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Total Credit Hours 120-122

Footnotes:

Must be completed by the end of the First Year.

Chosen from the Volunteer Core list.

Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.

Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 10 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.

Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.

Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.

Students pursuing a collateral in Finance must choose FINC 306.

First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.

At least three hours from courses among the Volunteer Core - Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

* Meets Volunteer Core Requirement.

Real Estate

FINC 381 Real Estate Principles
FINC 481 Real Estate Finance and Investment Analysis
FINC 482 Real Estate Cases

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale*

This revision moves ACCT 311 to term 4 from term 5 and places ACCT 421 in term 5. AIM Faculty have observed that students perform better in ACCT 311 if they have recently taken ACCT 203. This will encourage more students to take ACCT 203 and 311 in adjacent semesters.

It also removes ACCT 414 as uTrack milestone for term 7. Most accounting majors take ACCT 414 in terms 6 or 7. However, some seniors are not able to take the course by term 7 because the class fills up before their registration period. This causes some students to appear “off track” if they take the course in their final semester. Because there is no purpose for the milestone, we propose moving the requirement to avoid confusion related to students worrying that they are “off track.”

Additionally, two new courses that were approved for the Ethics requirement were added to the showcase and schema as course options.

Financial Impact*

None.

Impact on Other Units*

None.

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Footnotes

Must be completed by the end of the First Year.

Chosen from the Volunteer Core list.

Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.

Any courses not already required for the major. Students who plan to enter the Master of Accountancy program will need to take ACCT 411 to fulfill three hours of electives. ACCT 411 is a prerequisite to the MAcc program.

First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.

At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

*Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale*

This revision moves ACCT 311 to term 4 from term 5 and places ACCT 421 in term 5. AIM Faculty have observed that students perform better in ACCT 311 if they have recently taken ACCT 203. This will encourage more students to take ACCT 203 and 311 in adjacent semesters.

It also removes ACCT 414 as uTrack milestone for term 7. Most accounting majors take ACCT 414 in terms 6 or 7. However, some seniors are not able to take the course by term 7 because the class fills up before their registration period. This causes some students to appear “off track” if they take the course in their final semester. Because there is no purpose for the milestone, we propose moving the requirement to avoid confusion related to students worrying that they are “off track.”

Additionally, two new courses that were approved for the Ethics requirement were added to the showcase and schema as course options.

Financial Impact*

None.

Impact on Other Units*

None.

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The University of Tennessee has one of the leading accounting programs in the nation. The program emphasizes the conceptual and applied understanding of business information and prepares students for careers in accounting and business.

The faculty strongly encourages students who desire to become professional accountants, such as Certified Public Accountants (CPAs), to continue their formal education in UT's full-time, eleven-month Master of Accountancy (MAcc) program, which is described in the University's *Graduate Catalog*.

The primary objective of the 30 semester-hour MAcc program is to prepare students for careers as professional accountants. MAcc students select a specialty area in (1) audit/controls or (2) information management or (3) taxation.

Taken together, the BS and MAcc programs provide graduates not only with two academic degrees, but also with the educational requirements to sit for the CPA and/or CISA exam as well as the academic preparation to begin successful careers as professional accountants. Most states, including Tennessee, require 150 semester hours of education to sit for the CPA exam. At UT, students may earn 120 semester hours in the undergraduate program and then 30 hours in the MAcc program, for a total of 150 semester hours. The accounting faculty strongly encourages MAcc students to take the CPA and CISA exam as soon as they qualify.

The UT undergraduate accounting program offers its majors an opportunity to participate in two full-time, highly-structured internship programs. The first internship program (summer program) emphasizes internships in industry. The second internship program (spring program) emphasizes internships with public accounting firms. Both internship experiences are full-time and offer relevant work assignments and significant compensation.

The UT accounting program has separate *accounting accreditation* from AACSB International and is one of the first accounting programs to have earned this designation. As an accredited program, the UT accounting program continuously meets or exceeds a rigorous set of international accreditation standards and is peer reviewed on a regular basis.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Rationale* BAS 320 was taken by over 560 students in the last academic year (Fall 2023 and Spring 2024). We believe many of the students that enroll in BAS 320 are eager to take honors versions of many of the courses that they enroll in. With the existence of The Chancellor's Honors Program and The Business Fellows Program within the Haslam College of Business, the demand for honors versions of courses is at an all-time high. Many students have discussed with their BAS 320 instructor the desirability of having an honors version of BAS 320, and one faculty member (Mr. Brian Stevens) is very excited to create this course and teach it for the first time. The Corporate Partners of the Business Analytics & Statistics Department have asked the faculty to encourage the best and brightest Business Analytics undergraduate majors to take BAS 320 prior to their junior year (where it is positioned in the catalog) so that they would have the skillset of BAS 320 for a summer internship between their sophomore and junior year. They have also suggested that it would be nice to have a way to identify sophomores that want to excel in their Analytics education, and students that take BAS 327 in their sophomore year will be very attractive to our corporate partners for summer internships.

Impact on Other Units* None.

Financial Impact* None. It is expected that a faculty member that would teach BAS 327 would have been assigned a similar size section of BAS 320 if BAS 327 did not exist.

Rationale* Removal of "or consent of instructor" clause in prerequisite statement. In an effort to make our undergraduate course prerequisites more uniform, our undergraduate committee studied all of our course prerequisites. Some of our courses include "or consent of instructor" at the end of the prerequisite statement but most of them do not. There is only one of our undergraduate courses where "or consent of instructor" makes sense, so we wish to remove this statement from this (and one other) course. Also, the Undergraduate Business Programs Office has requested that we consider removing this statement from our course prerequisites, as it causes ambiguity in the minds of students when registering for classes, and causes delays in registering students for classes as they "plead their case" to an instructor regarding why they should be let into a course without the stated course prerequisites.

Rationale* Revision of prerequisite statement. In an effort to make our undergraduate course prerequisites more uniform, our undergraduate committee studied all of our course prerequisites. Some of our courses include "or consent of instructor" at the end of the prerequisite statement but most of them do not. There is only one of our undergraduate courses where "or consent of instructor" makes sense, so we wish to remove this statement from this (and one other) course. Also, the Undergraduate Business Programs Office has requested that we consider removing this statement from our course prerequisites, as it causes ambiguity in the minds of students when registering for classes, and causes delays in registering students for classes as they "plead their case" to an instructor regarding why they should be let into a course without the stated course prerequisites. Regarding the change of the grade needed in BAS 320 to take BAS 475 (from B- to C), the Undergraduate Committee discussed the history of this grade prerequisite, and came to the conclusion that this was an outdated and unnecessarily restrictive prerequisite for BAS 475. Making both of these changes to the prerequisite makes this course's prerequisites more consistent with other courses offered by the Department of Business Analytics & Statistics.

Credit Hours* 3

Course Description Fundamentals of programming using Python with particular focus on data preparation, visualization, and data understanding. Topics include but are not limited to reading data, object-oriented programming, loops, conditional processing, aggregating, merging, and dynamic visualization. Experience gained in producing repeatable data products in Python that automatically ingest, process, and display data in interactive plots.

Statement about Crosslistings:

Rationale* Revision of course prerequisite. This is our "Python" class for undergraduates. When this course was developed by Michel Ballings in 2018, he suggested the prerequisite be BAS 474 with a grade of C or better. The UG Committee, at that time, voted to make the prerequisite BAS 474 with a grade of B- or better. Since that time, those teaching this course agree that a BAS 474 prerequisite is not necessary, and students earning a grade of C or better in BAS 320 should be able to handle this course. Our corporate partners have been telling us for over a year that our BA majors need to get exposure to Python. However, many students wait until their senior year to take BAS 474, and as such, likely would not have room in their schedule in their last semester to add BAS 476. Additionally, some students might be avoiding this course because of the "strong" prerequisite, viewing it as a very difficult elective. This curricular change is needed to get more of our Business Analytics majors exposure to Python, thus making them more attractive to employers for internships and full-time positions.

Impact on Other Units*

Impact Report for BAS 476

	Supply Chain Management Major, BS in Business Administration - Collateral Option

Financial Impact*

None. We already have the faculty capacity to teach 2 section of this course in the Fall of 2024. We are in the process of hiring a new NTT faculty to help with adding teaching capacity in all of our undergraduate courses. We do not anticipate needing to hire even more lecturers because of this change. Impact on other units: This change will not have any financial impact on other units. This curricular change will have a positive impact on student beyond Business Analytics majors, it will also have a positively impact on students that have a collateral or concentration in Business Analytics. Making this BAS elective more accessible to all majors will strengthen the resume of any student that takes it.

Course Description The course will focus on the concepts that enable coordination of the end-to-end relationships between supply chain members from raw material inputs through conversion to delivery of product/services to end customers with a goal of developing a sound understanding of the impact of seamlessly managing flows of products, services, information and financial elements across the supply chain to provide optimal value to customers. Emphasis is on the skills needed to integrate end-to-end supply chain activities through improved processes and relationships as well as innovation in new products and services to achieve and maintain competitive advantage with customers.

Credit Hours* 1-3

Course Description Supervised honors projects research. This advanced seminar immerses students in Human-Centered Design research, focusing on converting insights and ideas into actionable innovations. Using a team-based seminar format, the class will partner students with external clients to address real-world design challenges. Utilizing the design thinking process, students will work collaboratively to gather insights, generate ideas, build and test prototypes, and iterate towards an implementable innovation. Facilitated by dedicated faculty, this course develops leadership skills through an in-depth hands-on experience. Ideal for those seeking to hone their leadership skills and drive meaningful change through design thinking.

- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The degree in Business Analytics is designed to prepare students for a career in business analytics by developing their business knowledge, their technical skills and their communication skills.

Business analytics involves the use of data analysis and computer models to make better business decisions. Organizations use business analytics to answer strategic questions such as (1) which products and services that we provide are most profitable (2) who are our most profitable customers and (3) where should we locate our retail outlets and our distribution centers. Business analytics are also used for tactical decisions in optimizing an organization's day-to-day operations, marketing, purchasing and pricing decisions.

Banks, credit card companies and insurance companies use business analytics to predict the profitability of potential customers and to offer better deals to the more profitable customers. Online vendors use business analytics to make recommendations to customers. Manufacturers use business analytics to optimize the location of their distribution centers and to optimally manage the movement of products through their supply chain. Retailers use business analytics to grow their revenues through customer loyalty programs. Sports teams have used business analytics to gain a competitive advantage in selecting players and in making tactical decisions on the field.

Business analytics is transforming the way traditional businesses make decisions. It is also the critical element in an entire industry of internet companies that provides services, search capabilities and social networking. These companies use business analytics to glean marketable insights from the massive amounts of data that they collect from their users.

The Business Analytics program also provides students the background to gain industry certifications in commercial software for data analysis and tools used for optimizing online sales and advertising. This further enhances students' job opportunities.

Students who major in Business Analytics need quantitative skills, interpersonal skills, an interest in business and a desire to be a pioneer in a rapidly growing new field.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale*

This revision reflects new Marketing elective options for the Marketing collateral (in collaboration with the Marketing Department).

Additionally, two new courses that were approved for the Ethics requirement were added to the showcase and schema as course options.

Financial Impact* None.

Impact on Other Units* None.

Business analytics involves the use of data analysis and computer models to make better business decisions. Organizations use business analytics to answer strategic questions such as (1) which products and services that we provide are most profitable (2) who are our most profitable customers and (3) where should we locate our retail outlets and our distribution centers. Business analytics are also used for tactical decisions in optimizing an organization's day-to-day operations, marketing, purchasing and pricing decisions.

Banks, credit card companies and insurance companies use business analytics to predict the profitability of potential customers and to offer better deals to the more profitable customers. Online vendors use business analytics to make recommendations to customers. Manufacturers use business analytics to optimize the location of their distribution centers and to optimally manage the movement of products through their supply chain. Retailers use business analytics to grow their revenues through customer loyalty programs. Sports teams have used business analytics to gain a competitive advantage in selecting players and in making tactical decisions on the field.

Business analytics is transforming the way traditional businesses make decisions. It is also the critical element in an entire industry of internet companies that provides services, search capabilities and social networking. These companies use business analytics to glean marketable insights from the massive amounts of data that they collect from their users.

The Business Analytics program also provides students the background to gain industry certifications in commercial software for data analysis and tools used for optimizing online sales and advertising. This further enhances students' job opportunities.

Students who major in Business Analytics need quantitative skills, interpersonal skills, an interest in business and a desire to be a pioneer in a rapidly growing new field.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* Two new courses approved for the Ethics requirement were added to the showcase and schema as course options.

Financial Impact* None.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Course Description This is a dynamic course designed to spark the entrepreneurial spirit and cultivate innovative problem-solving skills in aspiring change-makers. This course takes students on an inspiring journey through the world of entrepreneurship, blending theoretical foundations with real-world insights from successful entrepreneurs. Throughout the semester, students will explore the art of identifying opportunities, develop creative problem-solving techniques, and learn to overcome obstacles with resilience. The course emphasizes the importance of innovation in today's rapidly changing business landscape and encourages students to think beyond conventional boundaries.

Course Description Many entrepreneurs build their companies through a series of “pivots” and small failures. Much of this is due to having to learn how to build and operate the business as they go. They are often unaware of the many frameworks and processes available to guide their thinking and inform their decisions. This course adapts accepted business frameworks to provide the entrepreneur with a tool box of strategy frameworks to help them avoid a few of the pitfalls of starting a new business.

Course Description Sustainability (environmental, social, and economic performance) is a top priority for CEOs and is increasingly embedded into business strategy, resulting in changing business models, product strategies and innovation, etc. This course explores the challenges and opportunities faced by businesses through ethics, responsibility, and sustainability lenses. Through readings, speakers, discussions, and critical thinking exercises, students will gain exposure to the key environmental, ethical, and social issues facing businesses today and how they are reacting. Emphasis will be placed on understanding the tradeoffs between economic, environmental, and social performance.

Course Description Franchising is a system for expanding a business and distributing goods and services. It provides an opportunity to operate a business under a recognized brand name and creates a relationship between the brand owner (franchisor) and the local operator (franchisee). Building on the foundations of franchising, the goal of this course is to explore the process of becoming a franchisee. Through interactions with current franchisees, franchisors, and lenders, students will engage in interactive case study focusing on market need identification, franchise due diligence, business planning, and exploring options for securing funding.

Equivalency

Rationale* This is an emerging content and skill development area in a specialized area of entrepreneurship.

Impact on Other Units* Minimal. This course will be an option for students in the Entrepreneurship track, minor, or collateral.

Financial Impact* Given the current size of the program and the existing staffing model, the financial impact of these changes should be minimal.

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?
- ☐ Arts and Humanities
- ☐ Natural Sciences

Natural Sciences

Haslam College of Business - Economics (Business) - Economics Major, BS in Business Administration - Business Analytics Concentration

2025-2026 UG Revise Program

General Catalog Information

College* Haslam College of Business

Department* Economics (Business)

Program Name* Economics Major, BS in Business Administration - Business Analytics Concentration

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The economics major provides an opportunity to apply the theoretical and analytical rigor of basic managerial and macroeconomic tools to contemporary issues in economics and business. Students choose from a traditional option (27 hours in economics), a collateral option (complementary coursework in accounting, business analytics, finance, or mathematics), a concentration in business analytics, a concentration in international business, or a concentration in Heath Integrated Business and Engineering. Electives, as well as major coursework under the traditional option, consider topics such as business/industrial organization and public finance, as well as international, quantitative, monetary, regional/urban, environmental, labor, and health economics. Majors pursue careers in the traditional business disciplines, consulting, all levels of government service, and a variety of other fields. The program provides excellent training for graduate work in economics, business, public policy, and law. Students planning to pursue graduate study in economics should elect the quantitative economics and mathematics collateral option.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* Two new courses approved for the Ethics requirement were added to the showcase and schema as course options. Additionally, the program description was updated to accurately reflect the collateral and concentration options for the major.

Financial Impact* None.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Credit Restriction

Registration Enforced (RE) Prerequisite(s) C or better in ACCT 203; ECON 201 or ECON 211*; MGT 201 or MGT 202; MATH 125 or MATH 132 or MATH 141; and MATH 123 or MATH 142 (or honors equivalents)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s) ECON 213*; STAT 201*; INMT 242* (or honors equivalents)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments Admission to the Haslam College of Business's Smith Global Leadership Scholars Program or permission of instructor.

Registration Restriction(s) Majors in the Haslam College of Business.

Registration Permission

Equivalency

Rationale* The Registrar no longer creates behind the scenes coding for Banner to recognize approved course substitutions. Course prerequisites need to be updated to include ECON 201 (in place of ECON 211), MGT 201 (in place of MGT 202), and other approved math sequences (MATH 141-MATH 123 or MATH 132-MATH 123 or MATH 132-MATH 142). Currently, academic advisors must provide registration overrides for students with these credits to be able to register for Business Core classes.

Impact on Other Units*

Recommended Background

Comments

Registration Restriction(s) Majors in the Haslam College of Business.

Registration Permission

Equivalency

Rationale* Revision of course prerequisite. We are in the process of restructuring the flow of FINC 420. We need to be able to teach 306 topics early in that course. Additionally, a non-trivial number of students who take both 306 and 420 end up failing 306. The department views this as a strong indication those students need to change their major away from Finance. However, students resist doing so if they've already taken 420. The change allows us to provide unambiguous feedback to our students as early as possible.

Impact on Other Units*

Impact Report for FINC 420

Source: WORKING 2025-2026 Undergraduate Catalog	
(RE) Prerequisite(s):	FINC 435 - Financial Markets and Institutions
	FINC 440 - Fixed Income Analysis and Markets

Credit Hours* 3

Course Description Introduces students to the world of FinTech (Financial Technology). The course spends significant time on one of the most disruptive innovations in FinTech – blockchain technology. Students are introduced to blockchain mechanics (e.g., hashing, mining, proof-of-work (POW), proof-of stake (POS), etc.), cryptocurrency, and decentralized finance (DeFi) applications. Students will also be exposed to technological innovations in securities trading, lending, raising capital, delegated asset management, advising (i.e., Robo-advising), and how many of these issues are currently being regulated.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Finance major offers students a skill set applicable to a broad range of careers across industries that are relevant to public and private businesses, non-for-profits, and government entities alike. General areas of study are how decision-makers evaluate, fund, and manage projects within an enterprise and how financial market participants process information to price risky assets such as stocks or bonds. Finance majors develop analytical skills useful in examining financial statements and evaluating the financial health of companies, assessing dimensions of business problems, evaluating financial implications of corporate and individual actions, and constructing investment portfolios. Finance majors develop the ability to utilize spreadsheets to process and present financial data. In addition, they may gain specialized training in real estate and Bloomberg, which is considered by finance professionals to be the gold standard for accessing current market, economic, and financial information.

Popular careers include Financial Manager, Financial Analyst, Financial Advisor, Portfolio Manager, Financial Risk Management Actuary, Management Analyst (Consultant), Loan Officer, Budget Analyst, Investor Relations Associate, Credit Analyst, Commercial Real Estate Agent and Securities, Commodities, and Financial Services Sales Agents. Many of these are included in the top 20 best business jobs according to U.S. News and World Report's Best Jobs Rankings for 2017 (https://money.usnews.com/careers/best-jobs/rankings/best-business-jobs), and their job outlook is forecast to be better than the average for all occupations according to the U.S. Department of Labor's Bureau of Labor Statistics Occupational Outlook Handbook (www.bls.gov/ooh/business-and-financial/home.htm).

Finance majors have flexibility to customize their studies through a broad array of electives, student organizations, experiential learning, and collaterals best suited to a particular career path. The department has course listings in investments, financial statement analysis, financial management, financial institutions, international finance, fixed income, real estate, risk and insurance, derivatives, and Bloomberg software training. The Finance department is certified as a Chartered Financial Analyst (CFA) Recognized University. As such, students pursuing a major in Finance gain valuable exposure to many topical areas required in sitting for the CFA designation, which is regarded as the key designation for investment professionals worldwide. Sponsorships are available to help cover costs for students sitting for the CFA exams. The Finance department also offers cutting edge resources through the Masters Investment Learning Center. In addition to specialized Bloomberg training, Finance majors gain real-world experiences in value investing or wealth management managing actual portfolios (via FINC 495). Finance majors may also enrich their experience through internships and participation in the CFA Global Investment Research Challenge, the Tennessee Capital Markets Society, the Financial Management Association, the Real Estate Club and the UT Investment Group.

Students who major in Finance need quantitative skills, problem solving skills, and communication skills.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* This revision adds the new FINC 461 course as an option for Finance major electives. Additionally, two new courses approved for the Ethics requirement were added to the showcase and schema as course options.

Financial Impact* None.

Impact on Other Units* None- FINC 461 is only for Finance majors.

Finance majors develop the ability to utilize spreadsheets to process and present financial data. In addition, they may gain specialized training in real estate and Bloomberg, which is considered by finance professionals to be the gold standard for accessing current market, economic, and financial information.

Popular careers include Financial Manager, Financial Analyst, Financial Advisor, Portfolio Manager, Financial Risk Management Actuary, Management Analyst (Consultant), Loan Officer, Budget Analyst, Investor Relations Associate, Credit Analyst, Commercial Real Estate Agent and Securities, Commodities, and Financial Services Sales Agents. Many of these are included in the top 20 best business jobs according to U.S. News and World Report's Best Jobs Rankings for 2017 (http://money.usnews.com/careers/best-jobs/rankings/best-business-jobs), and their job outlook is forecast to be better than the average for all occupations according to the U.S. Department of Labor's Bureau of Labor Statistics Occupational Outlook Handbook (www.bls.gov/ooh/business-and-financial/home.htm).

Finance majors have flexibility to customize their studies through a broad array of electives, student organizations, experiential learning, and collaterals best suited to a particular career path. The department has course listings in investments, financial statement analysis, financial management, financial institutions, international finance, fixed income, real estate, risk and insurance, derivatives, Bloomberg software training. The Finance department is certified as a Chartered Financial Analyst (CFA) Recognized University. As such, students pursuing a major in Finance gain valuable exposure to many topical areas required in sitting for the CFA designation, which is regarded as the key designation for investment professionals worldwide. Sponsorships are available to help cover costs for students sitting for the CFA exams. The Finance department also offers cutting edge resources through the Masters Investment Learning Center. In addition to specialized Bloomberg training, Finance majors gain real-world experiences in value investing or wealth management managing actual portfolios (via Finance 495). Finance majors may also enrich their experience through internships and participation in the CFA Global Investment Research Challenge, the Tennessee Capital Markets Society, the Financial Management Association, the Real Estate Club, and the UT Investment Group.

Students who major in Finance need quantitative skills, problem solving skills, and communication skills.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* This revision adds the new FINC 461 course as an option for Finance major electives. Additionally, two new courses approved for the Ethics requirement were added to the showcase and schema as course options.

Financial Impact* None.

Impact on Other Units* None- FINC 461 is only for Finance majors.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Finance major offers students a skill set applicable to a broad range of careers across industries that are relevant to public and private businesses, non-for-profits, and government entities alike. General areas of study are how decision-makers evaluate, fund, and manage projects within an enterprise and how financial market participants process information to price risky assets such as stocks or bonds. Finance majors develop analytical skills useful in examining financial statements and evaluating the financial health of companies, assessing dimensions of business problems, evaluating financial implications of corporate and individual actions, and constructing investment portfolios. Finance majors develop the ability to utilize spreadsheets to process and present financial data. In addition, they may gain specialized training in real estate and Bloomberg, which is considered by finance professionals to be the gold standard for accessing current market, economic, and financial information.

Popular careers include Financial Manager, Financial Analyst, Financial Advisor, Portfolio Manager, Financial Risk Management Actuary, Management Analyst (Consultant), Loan Officer, Budget Analyst, Investor Relations Associate, Credit Analyst, Commercial Real Estate Agent and Securities, Commodities, and Financial Services Sales Agents. - ○ No

Credit Hours* 3

Course Description This human centered design bootcamp course is designed to build creative confidence and equip students with methods to lead, mobilize, and tackle challenges within a global context. Students will learn how to utilize a design thinking framework to become more impactful, adaptive, and innovative leaders. The course explores how cultures, mindsets, and people vary, how to recognize these variances, and how to successfully lead and manage effectively within these environments. Through a combination of online learning modules, interactive lectures, and experiential assignments, students will explore unique opportunities and design challenges that confront leaders navigating in a global economic context.

Recommended Background

Comments

Registration Restriction(s) Majors in the Haslam College of Business.

Registration Permission

Equivalency

Rationale* Revision of course description. This modification codifies an existing procedure to enroll all students in this zero credit hour course. While this course is required for all IB collaterals/concentrations while studying abroad, enrolling all students helps to facilitate tracking and assessment of the study abroad experience, and to include wrap-around cultural preparation for the experience. It also demonstrates on the transcript the completion of such an experience.

Course Description Internships are a chance for students to gain hands-on experience in the business world, apply the knowledge learned in the classroom to real-world problems, and develop important professional skills. By participating in an internship, students gain a competitive advantage for future employment by providing meaningful work experience and an introduction to a potential career or employer. With an international internship, students can acquire and hone additional skills that range from language proficiency to intercultural communication. IB 492 is intended for any internship, regardless of business major, that occurs outside of the United States. Students must be engaged in rigorous, professionally applicable work that relates to their field of study, educational goals and/or career aspirations that can be transferred to other employment or academic settings. The hiring organization must provide the student with a supervisor that provides routine feedback. Students will be eligible for 1 credit hour per 50 hours worked. The student can only enroll in IB 492 for the academic term in which they are completing the internship.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

Course Description This 'hands on', project-based course, involves the use of several technology tools to build and deploy database solutions. Topics include fundamentals of database technology, database design, database use, database query language (SQL), and database implementation. Focus is on developing the technical and business skills necessary to successfully manage, manipulate, and query data to improve business processes in technology-driven environments. Students work with modern database management systems software and query languages and develop database project management skills.

Course Description This course introduces students to key information management trends and challenges related to artificial intelligence (AI). The course overviews key components of AI and how sociotechnical systems made up of people (internal and external stakeholders), processes (regulation), and technologies (AI) affect the performance and application of these algorithms in businesses. Students work hands-on with a variety of AI during labs and in-class exercises to enhance their skills in using artificial intelligence effectively and efficiently. Topics covered include different AI models (e.g., neural networks, LLMs, CNNs), AI model evaluation, AI prompt engineering, AI statistical analysis, and AI systems sociotechnical system design (e.g., infrastructure and policy), amongst others.

Credit Hours* 3

Course Description This course teaches students how to create, implement, and maintain an effective social media strategy in support of business objectives. It provides an understanding of how to establish an authentic voice, create engaging content through storytelling, develop a content calendar, determine appropriate key performance indicators for campaigns, and leverage analytics to achieve maximum impact and efficiency. The course explores the major social media channels used in business and provides students with insight on the skills needed for a successful career in social media.

Registration Restriction(s) Majors in the Haslam College of Business.

Registration Permission

Equivalency

Rationale* Course is needed to expand elective seats in our Digital and Visual Marketing Track, the most popular specialization area for marketing majors (40%+ of majors choose this track). In addition, the course is a much-needed addition to any marketing curriculum, and commonly taught in leading programs across the nation.

Impact on Other Units* None.

Financial Impact* The course is currently being taught under the special topics designation by an adjunct at the college adjunct rate. We anticipate continued employment of the adjunct to deliver the course, and leveraging existing faculty capacity (resulting from an increase in section sizes) to teach the course as needed.

- ○ No

Credit Hours* 3

Course Description Students will learn the basics of project management in a hands-on, experiential course. We will explore the role of the project manager and the facets of project management including project scope, schedule, cost, quality, resource, communication, risk, procurement, and stakeholder management. Upon completion of the course, students will have met the requirements to take the Certified Associate in Project Management (CAPM) certification exam. Students will complete a final project and invited guests from industry will enrich this course. Priority given to Management majors but all Haslam students are welcome, space permitting.

Statement about Crosslistings:

Registration Restriction(s) Majors in the Haslam College of Business

Registration Permission

Equivalency MGT 480

Rationale* Currently, majors have the option to take MGT 480 as a major elective. After the department curriculum review conducted in Summer 2024, the department realized that Project Management was considered a core desirable skill by employers. This course name and description change result from a) including this skill set as a requirement of the Management LOE major and b) providing a more in-depth sequence for majors that could lead to Professional Project Management certification.

This proposal is dropping MGT 480 and adding MGT 380 through an equivalency. An exception to allow this action on this form is granted one time in order to facilitate the requested friendly amendments in time for the fall 2025 catalog.

Impact on Other Units*

Impact Report for MGT 480

Source: WORKING 2025-2026 Undergraduate Catalog	
Programs	Management Major, BS in Business Administration - Collateral Option - Leadership and Organizational Effectiveness Track
	Management Major, BS in Business Administration - Sales Concentration

Financial Impact* Given the current size of the program and the existing staffing model, the financial impact of these changes should be minimal. MGT 480 is already an elective. This is a change in name and course description.

Course Description This course covers the science of well-being, personal happiness, and ethical living pertinent to both business leaders and those they lead. Coverage includes exploring the features of a life lived well, determinants of personal and collective happiness, and frameworks for ethical decision-making in business and in life in general. Students engage in experiential learning and facilitated exercises to better understand their sources of happiness and well-being, to advance their personal journeys toward happier and more meaningful living, and to increase their positive impact as business leaders. While the course is targeted to future business leaders, the content and presentation will be of value to anyone.

Credit Hours* 3

Course Description This course develops students' negotiation and conflict management skills. Negotiations are a primary part of social life in general and organizational life in particular. Especially now that organizations are becoming flatter and more decentralized, managers can no longer just impose their decisions on subordinates and rely on hierarchical control for implementation. Modern managers need to negotiate with peers, resolve latent and sometimes manifest conflict, and be able to persuade rather than coerce. Since almost everyone involved in organizations engages in some kind of negotiations (with bosses, peers, suppliers, clients, etc.) this course promises to be relevant and helpful for a variety of students.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The management of human capital is critical to the success of an organization. The Human Resource Management major prepares students to assume positions as human resource generalists and specialists. The major develops a student's competencies in forecasting human resource needs as well as the recruitment, selection, training, and development of employees. Human resource managers are also involved in designing performance appraisal systems, developing compensation and benefit programs, monitoring employee health and safety, and establishing cooperative working relationships with organized labor, all of which are covered in the coursework. The human resource management curriculum also addresses analyzing current labor force trends, treating employees fairly, encouraging diversity, and understanding the foundations of employment law. All students in the program complete at least one internship.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?*
- ( ) Yes
- (•) No

Rationale* Reflects new ENT and MARK courses as options for respective collaterals. Additionally, two new courses approved for the Ethics requirement were added to the showcase and schema as course options.

Financial Impact* See new course proposals; courses are currently being taught as special topics courses.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?
- [ ] Arts and Humanities

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Management is a broad field that focuses on the planning, organizing, leading, and controlling of an organization's resources where the ultimate objective is to ensure that the organization achieves and sustains a competitive advantage. The Management Major can be earned through two different tracks of study with distinct career outcomes. The Leadership and Organizational Effectiveness (LOE) track prepares students to create value within existing organizations by managing business opportunities that foster new revenue growth. Leadership and Organizational Effectiveness career outcomes include corporate management trainee programs, project-based work, consulting, and general management. The Entrepreneurship and Emerging Enterprises (EEE) track gives students the content and skills for creating and managing new, early-stage, and high-growth organizations. This track prepares students for opportunities in start-ups and growth businesses, and family-owned firms – including for-profit and not-for-profit organizations. A common thread throughout the Management Major is the development of important professional skills including: data-driven decision making, problem-solving, critical thinking, leadership, and communication. All students in each track are required to complete an internship.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Marketing in an organization has responsibility for identifying who customers are, what they need and want, and how best to meet those needs/wants by creating and delivering superior value to them. Marketing professionals use strategy tools to target customers, create value propositions and positioning for each target, and deliver and communicate value to these customers through product design, pricing, advertising, personal selling, promotion, and distribution.

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

General Instructions for Requirements

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Marketing in an organization has responsibility for identifying who customers are, what they need and want, and how best to meet those needs/wants by creating and delivering superior value to them. Marketing professionals use strategy tools to target customers, create value propositions and positioning for each target, and deliver and communicate value to these customers through product design, pricing, advertising, personal selling, promotion, and distribution.

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 10 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
The requirements for the Professional Sales Track are MARK 469, MARK 471, and one of: MARK 411 or MARK 470.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

* Meets Volunteer Core Requirements.

Collateral Options for the Professional Sales Track:

Advanced Foreign Language

(only available to students pursuing International Business as a secondary major)

9 Hours of 300+ Foreign Language as outlined in International Business Major requirements.

Business Analytics

[Before]Complete both courses:
BAS 320 Regression Modeling
BAS 474 Data Mining and Business Analytics

[After]
[Before]Complete one course:
BAS 340 Experimental Methods and Process Improvement
BAS 370S Search Advertising Optimization
BAS 454 Data Visualization for Business Analysts
BAS 471 Statistical Methods
BAS 475 Applied Time Series and Forecasting
BAS 476 Data Engineering and Visualization

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Marketing in an organization has responsibility for identifying who customers are, what they need and want, and how best to meet those needs/wants by creating and delivering superior value to them. Marketing professionals use strategy tools to target customers, create value propositions and positioning for each target, and deliver and communicate value to these customers through product design, pricing, advertising, personal selling, promotion, and distribution.

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 10 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Twelve hours chosen from IB 407, IB 409, IB 429, IB 439, IB 449, IB 492, IB 499; BUAD 400* or MGT 472; and IB 489.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Students should complete courses from one of the following tracks: Customer and Brand Strategy (MARK 464 and one of: MARK 411, MARK 450, MARK 462, MARK 465, or MARK 466); Digital and Visual Marketing (MARK 465 and one of: MARK 411, MARK 475, MARK 485, or MARK 495); Professional Sales (MARK 469 and one of: MARK 411, MARK 470, or MARK 471).

* Meets Volunteer Core Requirements.

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale* This revision reflects the addition of new Marketing courses for the track electives as well as two new courses approved for the Ethics requirement.

Financial Impact* See new course proposals (MARK 411 and MARK 495); courses are currently being taught as special topics courses.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Marketing in an organization has responsibility for identifying who customers are, what they need and want, and how best to meet those needs/wants by creating and delivering superior value to them. Marketing professionals use strategy tools to target customers, create value propositions and positioning for each target, and deliver and communicate value to these customers through product design, pricing, advertising, personal selling, promotion, and distribution.

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

Department (Acalog Hierarchy)* Supply Chain Management

Subject/Prefix (choose from list)* SCM

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 440

Course Title (max 100 characters)* Social and Environmental Sustainability in Supply Chain Management

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?
- ○ Yes
- ○ No

Credit Hours* 3

Course Description Sustainable supply chain management addresses the ethical and triple bottom line (Economic, Environmental and Social) concerns inherent in supply chain management. This course will discuss strategic, financial, leadership and operational elements critical to the successful delivery of sustainable strategies across the Supply Chain. The course follows a model of strategic supply chain management decisions (plan, source, make, deliver and return) offering foundational knowledge elements as well as analyzing practical cases.

Statement about Crosslistings:

Rationale* Revision of course description. The current catalog description for STAT 207 dates back to the creation of this course in the 2007-2008 undergraduate catalog. It is cumbersome for users of the catalog to have to click the hyperlink for STAT 201 within the description of STAT 207 to understand the content of this course. This revision will match the course description for STAT 201 with the exception of the last sentence, where it indicates it is appropriate for honors students. Additionally, the stated MATH 125 "recommended background" is an outdated concept that we wish to remove. Additionally, recommending a minimum ACT or SAT score is also outdated and we wish to remove that as well.

Credit Hours* 3

Course Description Data collection and descriptive statistics. Concepts of probability and probability distributions. Discrete and continuous distributions. Estimation of means, confidence intervals, and hypothesis tests for single mean and proportion. Simple regression and correlation. Process improvement, statistical process control, and 2-level experiments. Use of statistical computing software.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. See section 3.6.4 in the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Equivalency

Rationale* Addition of AET 200 as prerequisite option. There is a proposal in the works for a new Applied Engineering and Technology (AET) program. Those that are creating the curriculum for these different programs want some concentrations to take STAT 251 - Probability and Statistics for Scientists and Engineers. However, such students will not be required to take MATH 142 or MATH 148. They are developing a new course: AET 200 that is "a special math course we are developing for the applied engineering degree and will cover what students need to know to be successful in STAT 251." Adding AET 200 will allow such students the ability to take STAT 251 without taking MATH 142 or MATH 148. The current instructor of STAT 251 has been in consultation with those developing AET 200, and believe this course will adequately prepare students to be successful in STAT 251.

Financial Impact*

In conversations with Eric Lukosi, Interim Department Head, Applied Engineering and Technology, he anticipates that as many as 50 students will begin these programs in AY26-27. As such, at least one new section of STAT 251 will be needed at some point after that to accommodate the increased demand for STAT 251. The Department Head in Business Analytics & Statistics (Dr. Mike Galbreth) where STAT 251 is taught has communicated this to the Haslam College of Business Leadership Team (including Dean Lane Morris), and they are supportive of our adding the necessary capacity in STAT 251 to handle these additional students. It is not anticipated that this one event will require the hiring of additional faculty.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Supply chain management has responsibility for the movement of raw materials and component parts into and within a business firm and to the distribution of finished products and services to customers.

Because having products and/or services in the right place at the right time is critical for success in any business, supply chain management plays a critical role in a firm's comprehensive supply chain. A career in supply chain management offers students the opportunity to make a significant contribution to corporate effectiveness in this area.

The internationally recognized Supply Chain Management program at the University of Tennessee is currently regarded as one of the most comprehensive and contemporary programs in the nation. The program offers a fundamental yet innovative curriculum. Students develop important skills required of supply chain management professionals as well as learn how supply chain management helps solve business supply chain management problems.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Supply chain management has responsibility for the movement of raw materials and component parts into and within a business firm and to the distribution of finished products and services to customers.

Because having products and/or services in the right place at the right time is critical for success in any business, supply chain management plays a critical role in a firm's comprehensive supply chain. A career in supply chain management offers students the opportunity to make a significant contribution to corporate effectiveness in this area.

The internationally recognized Supply Chain Management program at the University of Tennessee is currently regarded as one of the most comprehensive and contemporary programs in the nation. The program offers a fundamental yet innovative curriculum. Students develop important skills required of supply chain management professionals as well as learn how supply chain management helps solve business supply chain management problems.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

MARK 471 Sales Force Management

Is this proposal Adding or Removing a 5-Year and/or Honors version of this program?* ○ Yes ◉ No

Rationale*

This revision includes updating the courses for the Operations Analytics collateral. From the inception of the Operations Analytics collateral for Supply Chain Management (SCM) majors (first seen in the 2023-2024 undergraduate catalog), we had always wanted this collateral to be a "no code" analytics option for SCM majors. A collateral in Business Analytics has been available to SCM students for many years, but the two required courses for this collateral involve using "R", a coding-based statistical software package. Rather than wait until we had 3 adequate "no code" analytics courses for SCM majors, we decided to introduce a "low code" collateral option for SCM majors in the 2023-2024 catalog (namely the Operations Analytics collateral), consisting of the courses indicated above. The Business Analytics & Statistics department has recently revised BAS 454 to be a course on data visualization using Tableau (which does not involve coding). Replacing BAS 320 with BAS 454 accomplishes the initial goal of providing 3 "no code" analytics courses for SCM majors appropriate for their field.

Additionally, two new courses approved for the Ethics requirement were added to the showcase and schema as course options.

Financial Impact*

None, this will shift a small amount of demand from BAS 320 to BAS 454. We expect BAS 454 to be a popular elective for all Haslam College of Business students pursuing a major, collateral or concentration in Business Analytics, and are already planning on increasing capacity to offer more sections of this course in the future.

Impact on Other Units*

Proposal came from Department of Business Analytics and Statistics, which staffs this collateral.

Have you consulted with all programs/departments that will be impacted by this change?*
