[Before] any PSYC course not already completed for the major

any non-departmental elective above not already completed for the major

BCMB 415 Foundations in Neurobiology
BCMB 423 Neural Basis of Behavior
CMST 414 Persuasion
COUN 480* Skills for Counseling
ENGL 342* Literature and Medicine
ENGL 461* Global Communication for Science and Technology
JMED 450* Writing about Science and Medicine
[After]

Proficiencies (0 hours)

To support the department's assessment efforts, students are required to complete one 0-credit course, typically at the end of the student's degree program.

PSYC 499 Psychology Proficiency

Honors Concentration – Psychology

The Psychology Department offers an honors concentration that is a specially designed individualized mentorship program for high achieving students. Chancellor's Honors students and psychology majors with psychology GPAs of 3.5 or better and cumulative GPAs of 3.25 or better may apply.

Concentration Requirements

Complete:

all the requirements of the psychology major

PSYC 385* Statistics in Psychology
PSYC 397 Honors: Advanced Research Methods in Psychology
PSYC 498 Honors: Capstone Seminar

Complete one of:

PSYC 467 Psychology Honors Thesis
PSYC 468 Honors: Research Experience in Psychology
PSYC 497 Honors: Internship in Psychology
[After]

A major GPA of 3.5 and an overall GPA of 3.25 is required at graduation.

Footnote:

[1] Distance Education students are required to take PSYC 110* and PSYC 245.

[2]. Not every course is available in both modalities or offered every term. Students should regularly review their Degree Audit Report System, i.e., DARS, and consult with their academic advisor to plan their courses and ensure timely progress toward degree completion based on course availability.

*** Meets Volunteer Core Requirements.**

Rationale*

- Removed PSYC 299 from requirements as course is being dropped.
- Added PSYC 245 to course list and footnote as a required course for Distance education students.

- Added Distance Education modality to overall concentration (will have a separate uTrack/8-term plan with DARS to account for the additional 1.0 credit course requirement of PSYC 245.
- Added new course PSYC 394 to the list of courses for which the maximum credits allowed is 6 credit hours.
- Added ENGL 342 and ENGL 461 to the approved Electives. Both of these courses are relevant to Psychology and Neuroscience. ENGL 342: Literature and Medicine: Literary representations of illness, medical care, and biotechnology with an emphasis on the individual and social meanings of health and disease. ENGL 461: Global Communication for Science and Technology: Theories, methods, issues, and practices for worldwide communication in science and technology. Topics may include nuclear security and nonproliferation, environmental studies, or health sciences and biotechnology in global contexts.
- Removed Prerequisite Sequence for Natural Science options of C (sequence of **BIOL 158*** and **BIOL 167***) and D (sequence of **BIOL 167*** and **168***) as **BIOL 158*, BIOL 167* and BIOL 168*** have all been submitted to be dropped effective Fall 2026.

Justification for the added Distance Education modality (1a).
The proposed online Bachelor of Arts in Psychology is designed to meet the needs of Tennessee residents seeking a high-quality, fully online degree program. Many prospective students have completed some college coursework but have not yet earned a degree. By offering a distance education version of the current Psychology concentration, UT Knoxville will expand access to students who are place-bound due to work, family, or geographic constraints, while also serving adult learners and transfer students who prefer the flexibility of online education. The program will follow a curated list of online courses, ensuring that students can complete the entire degree remotely.

Expectation of Demand (1b).
Psychology is one of the most popular majors at UT Knoxville, consistently ranking among the most popular degree programs on campus. The appeal of psychology as a field of study lies in its versatility: graduates are prepared for a wide range of career paths in human services, business, healthcare, education, and for graduate or professional school. We anticipate strong demand for the Distance Education option, reflecting national and state trends in online degree enrollment as well as the sustained popularity of psychology as a major. By leveraging UT Knoxville's reputation for academic excellence and the success of its on-campus psychology programs, the online option will attract students who otherwise might not pursue or complete a degree.

Contribution to the Overall Degree Program (1c).
The online component complements the existing BA in Psychology by providing students with the opportunity to explore psychology as a hub science across multiple domains of human experience. The curriculum is aligned with the program's current learning outcomes and ensures broad exposure to seven core areas of psychology:

- **Scientific Foundations of Psychology**: Students learn to understand and apply the scientific method through coursework in research methods.
- **Human Development**: Coursework emphasizes psychological development across the lifespan.
- **Cognition and Learning**: Students analyze cognitive processes and mechanisms of learning.
- **Connections to the Biological Sciences**: Students integrate biological principles with psychological phenomena.
- **Connections to the Social Sciences**: Students examine how individuals think, feel, and behave in social contexts.
- **Connections to Mental Health and Applications**: Students identify and understand psychological disorders and therapeutic approaches.
- **Individual Differences and Human Diversity**: Students critically evaluate diversity in psychological experiences and perspectives.

In addition to these core learning areas, students complete electives and a proficiency assessment to demonstrate mastery. By structuring the specific courses to be available online for the distance education students, the program ensures that online learners receive a rigorous and comprehensive psychology education that mirrors the academic quality of the on-campus major while accommodating their unique educational needs. This new online component strengthens the overall BA degree by expanding its accessibility, diversifying its delivery modes, and preparing graduates for careers and further study in psychology and related fields.

Financial Impact*

The proposed addition of the distance education component of the BA in Psychology will be delivered using existing faculty resources. Current faculty in the Department of Psychology will teach the PSYC courses, while current faculty from Sociology, Mathematics, Statistics, Human Development and Family Systems, and Biology will provide instruction for the supporting courses included in the program. As such, the initial implementation of the program will not require new faculty lines or significant additional expenditures.

It is essential to note that the online sections of some courses have lower enrollment capacities than their on-campus counterparts, which may necessitate offering additional sections to meet student demand. As enrollment grows, the department will monitor course availability and, if needed, consider adjustments such as scheduling additional online sections, hiring adjunct instructors, or allocating additional lecturer resources. These incremental costs are expected to be offset by tuition revenue generated through the program's expansion.

Overall, the financial impact is expected to be minimal at program launch, with manageable costs in the future tied directly to enrollment growth and the smaller enrollment capacities of online sections.

Impact on Other Units*

The proposed online component of the BA in Psychology will involve collaboration with several departments across the university. Courses within the program will be taught by faculty from the departments of Human Development and Family Science (HDFS), Mathematics (MATH), Statistics (STAT), and Sociology (SOCI). At least initially, biology courses required for the degree will be provided through distance learning offerings from Arizona State University's EdPlus program, as part of a strategic partnership between ASU and UTK.

These arrangements ensure that students have access to the full range of courses necessary to complete the program while also leveraging existing faculty expertise across units. Coordination among departments will be managed to minimize scheduling conflicts and to ensure consistent instructional quality. The program is expected to contribute positively to course enrollments in participating units without creating undue strain. Any future adjustments to course offerings will be made collaboratively in response to program growth.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Psychology and Neuroscience

Program Name* Psychology Major, BA (uTrack Requirements)

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville, Distance Education**

**Honors Concentration not available for Distance Education

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120-124

Footnotes

Biological Science requirement can be completed through: (a) BIOL 101*-BIOL 102*; (b) BIOL 150*-BIOL 159*; (c) BIOL 160*-BIOL 159*; (d) ANTH 110*-ANTH 309*. To meet the College of Arts and Sciences "Perspectives" requirement in Natural Sciences, students must complete 8 hours of a lab science.
Statistics requirement can be completed through: MATH 115*, PSYC 385*, or STAT 201*.
All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
Distance Education students are required to take PSYC 110* and PSYC 245.
Not every course is available in both modalities or offered every term. Students should regularly review their Degree Audit Report System, i.e., DARS, and consult with their academic advisor to plan their courses and ensure timely progress toward degree completion based on course availability in their declared modality.

* Meets Volunteer Core Requirements.

Rationale*

- Removed PSYC 299 from requirements as course is being dropped.
- Added PSYC 245 to course list and footnote as a required course for Distance education students.
- Added Distance Education modality to overall concentration (will have a separate uTrack/8-term plan with DARS to account for the additional 1.0 credit course requirement of PSYC 245.
- Added new course PSYC 394 to list of courses that maximum credits allowed areas is 6 credit hours.

Justification for the added Distance Education modality (1a).
The proposed online Bachelor of Arts in Psychology is designed to meet the needs of Tennessee residents seeking a high-quality, fully online degree program. Many prospective students have completed some college coursework but have not yet earned a degree. By offering a distance education version of the current Psychology concentration, UT Knoxville will expand access to students who are place-bound due to work, family, or geographic constraints, while also serving adult learners and transfer students who prefer the flexibility of online education. ANTH 110* Introduction to Biological Anthropology
ANTH 309* Advanced Principles of Biological Anthropology

Major Requirements

The Health Services Psychology Concentration consists of **34** credit hours.

Core Courses

Consistent with guidelines from the American Psychological Association, the concentration requires exposure to the broad foundations of behavior, along with an emphasis on applied coursework and an understanding of individual differences.

1. Scientific Foundation of Psychology

Complete:

PSYC 294* Research Methods in Psychology Laboratory
[Right] or
PSYC 297* Honors: Research Methods in Psychology Laboratory
[After]

PSYC 295 Introduction to Psychological Research Methods
[Right] or
PSYC 298 Honors: Introduction to Psychological Research Methods

2. Developmental Aspects of Behavior

Complete:

HDFS 210* Human Development

3. Cognitive Aspects of Behavior

Complete:

PSYC 314 Cognitive Basis of Behavior

4. Biological Aspects of Behavior

Select one course:

PSYC 211 Brain Science Applications
PSYC 301 Foundations of Behavioral Neuroscience
PSYC 375 Behavioral Genetics
PSYC 410 Sensory Processes and Perception

5. Social Aspects of Behavior

Complete:

PSYC 360 Social Psychology

6. Connections to Mental Health and Applications

Complete:

PSYC 330 Abnormal Psychology

Select two courses: (6 credit hours)

COUN 480* Skills for Counseling
PSYC 300 Child Development
PSYC 310 Learning and Thinking
PSYC 335 Intergroup Dialogue Facilitation
PSYC 373 Youth Mentoring: Supervised Field Experience
PSYC 382 Contemporary Topics in Psychology
PSYC 396 Internship in Psychology
PSYC 396N* Internship in Psychology
PSYC 405 Illusion and Knowledge, Intuition and Reason
PSYC 409 Intergroup Dialogue Facilitation II
PSYC 430 Health Psychology
PSYC 432 Childhood Psychopathologies
PSYC 433 Theories of Counseling Psychology
PSYC 436 Positive Psychology
PSYC 440 Industrial and Organizational Psychology
PSYC 445 Measurement and Testing
PSYC 464 Drugs and Behavior
PSYC 472 Psychology of Trauma
PSYC 473 Youth Mentoring: Theory, Research, and Practice
PSYC 475 Adolescent Development
PSYC 481* Intimate Partner Violence
PSYC 482 Topics in Psychology
PSYC 484 Sleep and Dreaming

7. Individual Differences and Human Diversity

Select two courses:

PSYC 335 Intergroup Dialogue Facilitation
PSYC 415 Psychology of Religion
PSYC 434* Psychology of Gender
PSYC 435* Multicultural Psychology
PSYC 470 Theories of Personality
PSYC 471* Psychology of Prejudice
PSYC 476 African American Psychology
PSYC 491 Special Topics in Psychology-Study Abroad
SOCI 341* Social Inequalities
SOCI 343* Race and Ethnicity
SOCI 375* Gender in Society
SOWK 316 Social Justice and Anti-oppressive Practices

8. Affective Aspects of Behavior

Complete:

PSYC 320 Motivation and Emotion

Proficiencies (0 hours)

To support the department's assessment efforts, students are required to complete two 0-credit courses, typically near the beginning and at the end of the student's degree program.

PSYC 499 Psychology Proficiency

Footnotes

*** Meets Volunteer Core Requirements**

Connections requirement - The Connections requirement may be satisfied in one of four ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, (3) by completing 9 hours of study abroad coursework, or (4) by completing all Air Force or Army ROTC program requirements.
All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

Rationale*	We are removing Psyc299 as a requirement for all majors.
Financial Impact*	None
Impact on Other Units*	None

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

[1] Biological Science w/Lab **4** *Credit Hours* *
Foreign Language **3** *Credit Hours* (intermediate level)
[3] Elective **1-3** *Credit Hours*

ENGL 101* English Composition I
[Right] * (or equivalent)
[After]
[Before]Select one course:
PSYC 110* General Psychology
PSYC 117* Honors: General Psychology

Credit Hours 14-16

Term 1 Milestone Notes

Complete at least 12 hours by the end of the term.

Term 2

[1] Biological Science w/Lab **4** *Credit Hours* * (continuation of sequence)
Foreign Language **3** *Credit Hours* * (intermediate level)
[3] Elective **2-3** *Credit Hours*

ENGL 102* English Composition II
[Right] (or equivalent)
PSYC 295 Introduction to Psychological Research Methods
[Right] (Major Core course)
[After]
[Before]Select one course:
PSYC 294* Research Methods in Psychology Laboratory
PSYC 297* Honors: Research Methods in Psychology Laboratory

Credit Hours 16-17

Term 2 Milestone Notes

Complete at least 24 hours by the end of the term.

ENGL 101* English Composition I

Term 3

Oral Communication (OC) Elective **3** *Credit Hours* *
Non-U.S. History **3** *Credit Hours* *
Psychology (Major Core course) **3** *Credit Hours*
Global Citizenship - United States (GCUS) Elective **3** *Credit Hours* *

[Before]2 Select one course:
MATH 115* Statistical Reasoning
STAT 201* Introduction to Statistics

Credit Hours 15

Term 3 Milestone Notes

Complete at least 36 hours by the end of the term.

PSYC 110* General Psychology
[Right] with a grade of C or better

Term 4

Arts and Humanities (Lit/Phil/Rel Thought) **3** *Credit Hours* *
Written Communication (WC) Elective **3** *Credit Hours* *
Non-U.S. History **3** *Credit Hours* * (continuation of sequence)
Psychology (Major Core course) **3** *Credit Hours*
Quantitative Reasoning (QR) Elective **3-4** *Credit Hours* *

Credit Hours 15-16

Term 4 Milestone Notes

[1] Complete Biological Science requirement * with a grade of C or better

[2] Complete Statistics requirement * with a grade of C or better

ENGL 102* English Composition II
[After]

[Before]One course from:
PSYC 294* Research Methods in Psychology Laboratory
[Right] with a grade of C or better
PSYC 297* Honors: Research Methods in Psychology Laboratory
[Right] with a grade of C or better
[After]

[Before]One course from:
PSYC 295 Introduction to Psychological Research Methods
[Right] with a grade of C or better
PSYC 298 Honors: Introduction to Psychological Research Methods
[Right] with a grade of C or better

Term 5

Arts and Humanities (AH) Elective **3** *Credit Hours* *
Social Sciences (SS) Elective **3** *Credit Hours* * (not PSYC)
Psychology (Major Core courses) **6** *Credit Hours*
[3] Elective **3** *Credit Hours*

Credit Hours 15

Term 5 Milestone Notes

Complete two Core courses in psychology with a grade of C or better

Term 6

Psychology (Major Core courses) **6** *Credit Hours*
[4] Connections **6** *Credit Hours*
[3] Elective **3** *Credit Hours*

Credit Hours 15

Term 6 Milestone Notes

Completion of at least 9 upper-division (300-400 level) hours

Term 7

Psychology (Major Elective courses) **6** *Credit Hours*
Engaged Inquiries (EI) Elective **3** *Credit Hours* *
[3] Elective **3** *Credit Hours*
[4] Connections **3** *Credit Hours*

Credit Hours 15

Term 7 Milestone Notes

Completion of at least 24 total upper-division (300-400 level) hours

Term 8

Psychology (Major Elective course) **3** *Credit Hours*
Engaged Inquiries (EI) Elective **6** *Credit Hours* *
[3] Electives **6** *Credit Hours*

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

Biological Science requirement can be completed through: (a) BIOL 101*-BIOL 102*; (b) BIOL 150*-BIOL 159*; (c) BIOL 160*-BIOL 159*; (d) ANTH 110*-ANTH 309*. To meet the College of Arts and Sciences "Perspectives" requirement in Natural Sciences, students must complete 8 hours of a lab science.
Statistics requirement can be completed through: MATH 115*, PSYC 385*, or STAT 201*.
All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

* Meets Volunteer Core Requirements.

Rationale*	Psyc299 was deleted as a prerequisite for our Majors. This change was made to the program page and uTrack was reviewed for accuracy.
Financial Impact*	None
Impact on Other Units*	None
Have you consulted with all programs/departments that will be impacted by this change?*	○ Yes ○ No ◉ No Impact
Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Course Description

Through stories and short novels, this course explores the minds and behaviors of various outcasts, madmen, and misfit-types within the complex social world of 19th-Century Russia. In the course, we ask such questions as: how does one establish an identity? Which rules of Russian society were logical, or absurd? What sorts of mental cages do individuals create for themselves, and can they escape? Which life-paths lead toward falsehood, and which towards truth?

Texts in English translation.

Course Description

This course provides an overview of the main developments in Russian literature from the formation of the Soviet Union to its subsequent collapse in the early 1990s. Students will read a wide selection of stories and short novels from several influential authors, including Zamiatin and Solzhenitsyn, consider the influence of key historical and cultural events upon artistic production of the period, and investigate the interconnections between literature and ideology.

Readings and discussion in English.

Course Description

This course explores the interconnections between news media, popular culture, governance, and propaganda in post-Soviet Russia. Students will examine the various factors that contribute to the production of news media in Russia and consider the key historical and cultural influences upon popular attitudes toward the information it produces and disseminates. Students will also consider the nature of propaganda more generally. Is it always clear to us when bias or state pressure is present? Students will develop a critical eye for detecting bias in Russian (and other) news media.

Readings and discussions in English.

Rationale* We are changing the title and updating the description. The curriculum of this course is designed to “decolonize” Russian film studies to a degree by including films and materials from former Soviet Union member states such as Ukraine and Georgia. It is preferred that the title indicate this.

A parallel proposal for name and title change will be made by Cinema Studies.

Course Description This course explores the social, cultural, and political traditions that have helped shape Russia into what it is today ? a country that is commonly described in the West as an autocratic and highly corrupt dictatorship. The course focuses primarily on three areas: despotism, corruption, and crime as key historical and cultural influences upon Russian societal development and statecraft, and endeavor to answer questions such as: How do Russians experience corruption in everyday life? To what degree is the Russian political system and its corresponding structures corrupt? How ubiquitous is crime, and what do popular attitudes towards various crimes say about Russian society? Can the Russian state fairly be labelled ?despotic,? and, if so, how do Russians feel about it? Were these cultural tendencies inherited from the Soviet period, the pre-Revolutionary period, or both? Students can expect to come away from the course with an expanded knowledge of Russian and Soviet sociopolitical history and underground criminal culture, and a deeper insight into Russia?s recent past, present, and future under Vladimir Putin. Readings and discussion in English.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Notes:

*** Meets Volunteer Core Requirements**

[1]Not every course is available in both modalities or offered every term. Students should regularly review their Degree Audit Report System, i.e., DARS, and consult with their academic advisor to plan their courses and ensure timely progress toward degree completion based on course availability in their declared modality.

Rationale* Religious Studies is making the following changes to our regular major, both the DE and Knoxville campus versions. No changes are being made to the Honors version of the major.

- adding **REST 344,** Religions in Appalachia, to section II.B, North America and Africa (already done for other major concentrations except this one)
- adding **REST 310,** Religion and Gameworlds, to section II.D, Methods and Issues in Religious Studies (already done for other major concentrations except this one)
- Allowing students to take either **REST 101**, Religions of the World, or **REST 103**, Religions in the U.S., for credit in the major. Religious Studies gets most of our enrollment from LD courses, especially these 100-level courses that do not differ substantially from 200-level courses in their level of difficulty. We see these as a new potential gateway into the major or minor, and into the College, for incoming students who may be undecided about their programs of study.
- Clarifying the different levels of courses that students may take for their electives in the major, and specifying that students must take one of the 400-level courses taught by Religious Studies faculty.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Foreign Language 3 *Credit Hours* (intermediate level)

Natural Sciences Elective w/Lab 4 *Credit Hours* *

Quantitative Reasoning Elective 3-4 *Credit Hours* *

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

* Meets Volunteer Core Requirements.

Rationale* Religious Studies is allowing majors to count 3 credit hours at the 100 level (either REST 101 or 103) toward the major, and we are revising terms 2, 3, and 4 our uTrack program to reflect that. We hope this will bring incoming Religious Studies majors into departmental courses sooner, which we think will help us retain them as majors.

Financial Impact* none

Notes:

*** Satisfies Volunteer Core Requirements.**

Rationale*

We are revising this major concentration to let students take either REST 101, Religions of the World, or REST 103, Religions in the U.S., for elective credit in the major. Religious Studies gets most of our enrollment from LD courses, especially these 100-level courses that do not differ substantially from 200-level courses in their level of difficulty. We see these as a new potential gateway into the major or minor, and into the College, for incoming students who maybe undecided about their programs of study.

Added **REST 310** in Section II D

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

* Meets Volunteer Core Requirements.

Rationale* Religious Studies is allowing majors to count 3 credit hours at the 100 level (either REST 101 or 103) toward the major, and we are revising terms 2, 3, and 4 our uTrack program to reflect that. We hope this will bring incoming Religious Studies majors into departmental courses sooner, which we think will help us retain them as majors.

Financial Impact* none

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The Religious Studies minor consists of 15 credit hours in the department of religious studies. Students are encouraged to discuss their program with a faculty member in the department.

Select 3 hours:

REST 101* Religions of the World
REST 103* Religions in the U.S.
[After] or any Religious Studies course at the 200 level or above

Select 12 hours:

any 300-400 level religious studies courses

***Satisfies Volunteer Core Requirements**

Rationale* We are revising the Religious Studies minor to let students take either REST 101, Religions of the World, or REST 103, Religions in the U.S., for credit in the minor. Religious Studies gets most of our enrollment from LD courses, especially these 100-level courses that do not differ substantially from 200-level courses in their level of difficulty. We see these as a new potential gateway into the minor for incoming students who develop an interest in Religious Studies. Our minor previously allowed students to take 3 credit hours at the 200 level, and we are still only allowing 3 credit hours at the LD level count for the minor.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Minor Requirements

The minor consists of 15 hours in the department of Religious Studies. No more than 3 hours may be taken at the 100 or 200 level, and the rest must be at the 300-level or above. Students are encouraged to discuss their program with a faculty member in the department.

I. Complete (3 Credit Hours):

REST 301* Religion and Nonprofit Leadership

II. Select one course from the following list (3 Credit Hours):

ALEC 202* Leadership and Diversity in Organizations and Communities
ALEC 303* Analysis of Leadership Approaches and Styles
CMST 446 Leadership
LEAD 201* Introduction to Leadership Studies
JMED 499* Enterprise and Leadership in Media
MGT 472 Managing People in the Global Environment
REST 309* Religion and the Workplace
RSM 201 Foundations of Recreational Therapy Practice

III. Select one course from the following list (3 Credit Hours):

REST 300* Method and Theory in Religious Studies
REST 302 Anthropology of Religion
REST 303 Sociology of Religion
REST 305 Contemporary Religious Thought and Practice
REST 310* Religion and Gameworlds
REST 316* Topics in Religion and Film
REST 320* Gender, Sexuality, and Religion
REST 343* Religion, Nature, and Ethics

IV. Select 3 hours:

select REST 101, REST 103, or any other Religious Studies course at the 200 level or above

REST 101* Religions of the World
REST 103* Religions in the U.S.
[After] or any other Religious Studies course at the 200 level or above

V. Select 3 hours:

any remaining Religious Studies courses at the 300 level or above (may include other REST courses in sections II and III)

*** Meets Volunteer Core Requirement.**

Rationale*

We are revising the Religion and Nonprofit Leadership minor to 1) add **REST 310,** Religion and Gameworlds, to section III, which includes all courses from the Methods and Issues in Religious Studies category of the major; and 2) let students take either R**EST 101**, Religions of the World, or **REST 103,** Religions in the U.S., for credit in the minor. Religious Studies gets most of our enrollment from LD courses, especially these 100-level courses that do not differ substantially from 200-level courses in their level of difficulty. We see these as a new potential gateway into the minor for incoming students who develop an interest in Religious Studies. Our minor previously allowed students to take 3 credit hours at the 200 level, and we are still only allowing 3 credit hours at the LD level count for the minor.

Requirements*

I. Complete (3 Credit Hours)

REST 353* Religion, Race, and Ethnicity in North America

II. Select two courses from the following (6 Credit Hours)

REST 339* Islam in the Modern World
REST 350 Black Power to Black Lives Matter in African American Religious Thought
REST 352 African American Religion in the United States
REST 356* Vodou Gods and Atlantic Perils: African Religions in the New World
REST 361* The American Jewish Experience
REST 380* American Buddhism

III. Select 3 hours

REST 101, REST 103, or any remaining Religious Studies courses at the 200 level and above (may include other courses in section II).

REST 101* Religions of the World
REST 103* Religions in the U.S.
[After] or any other Religious Studies course at the 200 level or above

IV. Select 3 hours

any remaining Religious Studies courses at the 300 level and above (may include other courses in section II).

*** Meets Volunteer Core Requirements.**

Rationale*
We are revising the Religion, Race, and Ethnicity minor 1) to add the course **REST 356**, "Vodou Gods and Atlantic Perils: African Religions in the New World," which covers relevant content for the minor, and 2) to let students take either **REST 101**, Religions of the World, or **REST 103,** Religions in the U.S., for credit in the minor. Religious Studies gets most of our enrollment from LD courses, especially these 100-level courses that do not differ substantially from 200-level courses in their level of difficulty. We see these as a new potential gateway into the minor for incoming students who develop an interest in Religious Studies. Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?
- ☑ Arts and Humanities
- ☐ Natural Sciences
- ☐ Social Sciences

Should this course be considered for Connections?
- ○ Yes
- ◉ No

If yes, which Connections category?
- ☐ Ancient Mediterranean Studies
- ☐ Biodiversity and Humans
- ☐ Cultural and Artistic Achievement: Arts in the United States
- ☐ Cultures and Societies
- ☐ Emerging Asia
- ☐ Environment and Society
- ☐ Geographic Information Science for Our Changing World
- ☐ Global Social Justice
- ☐ Health and Biophysics
- ☐ Health Care Perspectives
- ☐ How to Live in the Premodern World
- ☐ Humans Living on a Dynamic Earth
- ☐ Inequalities: Race, Ethnicity, Class, and Gender
- ☐ Mobility and Migration
- ☐ New Geographies of the Global Economy
- ☐ Our World: Contemporary Arts and Culture
- ☐ Rise and Decline of Premodern Complex Societies
- ☐ Shifting Borders and Cultures in Europe
- ☐ Understanding Climate Change
- ☐ Visual Cultures and Media Studies

Indicate any CAS Connections that are being removed from this course:

ADMINISTRATIVE USE ONLY

Impact Level

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

College Requirements

Arts and Sciences

Prerequisites (12 hours):

A. Complete (grade of C or better):

ARTH 172* Western Art: Ancient through Medieval
ARTH 173* Western Art: Renaissance to Contemporary

B. Select one course (grade of C or better):

ARTH 152* Survey of Islamic Art
ARTH 183* Asian Art

C. Select 3 hours (grade of C or better):

any 100-200 level Art course (ART)
any 200-level Design course (ARTD)
any 100-200 level Two-Dimensional Arts course (ARTA)
any 100-200 level Three-Dimensional Arts course (ARTB)
any 100-200 level Four-Dimensional Arts course (ARTC)

Major Requirements:

The Art History major consists of **30** credit hours.

A. Select one course from four of the six areas (12 hours):

Ancient World

ARTH 410 Art and Image in the Age of Pharaohs
ARTH 421 Greek Art
ARTH 422 Roman Art

Medieval/Early Renaissance

ARTH 425 Early Christian and Byzantine Art to 1350
ARTH 441* Northern European Painting, 1350-1600
ARTH 443* Islamic Art in Global Context I: Medieval
ARTH 451* The Art of Italy, 1250-1450

Early Modern

ARTH 444* Islamic Art in Global Context II: Early Modern
ARTH 452* Art of Italy, 1475-1600
ARTH 453 Art of Southern Europe, 1575-1700
ARTH 455* The Global Renaissance
ARTH 456* Global Baroque Art and Architecture

American

ARTH 470* African American Art
ARTH 472* History of 20th-Century American Art
ARTH 473* 19th-Century American Art

19th/20th Century

ARTH 403 History of Photography
ARTH 416 Chinese Art of the 20th and 21st Centuries

[Before]3 Select one Global Citizenship - US Elective 3 *Credit Hours* *:
ARTH 405* Topics in Visual and Legal Culture
ARTH 470* African American Art
ARTH 472* History of 20th-Century American Art
ARTH 473* 19th-Century American Art

Credit Hours 15

Term 5 Milestone Notes

Complete two 400-level art history courses with a grade of C or better

Term 6

Art History (major) **6** *Credit Hours* - Select 12 additional hours
[2] Connections **3** *Credit Hours*
Engaged Inquiries Elective **3** *Credit Hours* *
Oral Communication Elective **3** *Credit Hours* *

Credit Hours 15

Term 6 Milestone Notes

Complete a total of at least 9 upper-division (300-400) hours

Term 7

[4] Art History **3** *Credit Hours* (300-400 level) - Select 4 of 6 areas
[2] Connections **6** *Credit Hours*
Engaged Inquiries Elective **3** *Credit Hours* *

ARTH 402* Seminar in Art History II

Credit Hours 15

Term 7 Milestone Notes

Completion of at least 24 total upper-division (300-400) hours

Term 8

Applied Oral Communication Elective **3** *Credit Hours* *
Art History (major) **3** *Credit Hours* - Select 12 additional hours
[4] Art History **3** *Credit Hours* (300-400 level) - Select 4 of 6 areas
[1] Elective **3** *Credit Hours*
[3] Engaged Inquiries Elective **1-3** *Credit Hours* *

Credit Hours 13 - 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.
Select one course from 4 of the 6 areas listed: Ancient World (ARTH 410, ARTH 421, ARTH 422), Medieval/Early Renaissance (ARTH 425, ARTH 441*, ARTH 443*, ARTH 451*), Early Modern (ARTH 443*, ARTH 452*, ARTH 453, ARTH 455*, ARTH 456*), American (ARTH 470*, ARTH 472*, ARTH 473*), 19th/20th century (ARTH 403, ARTH 416, ARTH 433, ARTH 472*, ARTH 475, ARTH 476), Non-Western (ARTH 410, ARTH 411, ARTH 413, ARTH 414, ARTH 416, ARTH 419.)

*** Meets Volunteer Core Requirement.**

Complete two 400-level art history courses with a grade of C or better

Term 6

Art History (major) 6 *Credit Hours* - Select 9 additional hours
[2] Connections 3 *Credit Hours*
Engaged Inquiries Elective 3 *Credit Hours* *
Oral Communication Elective 3 *Credit Hours* *

Credit Hours 15

Term 6 Milestone Notes

Complete a total of at least 9 upper-division (300-400) hours

Term 7

[4] Art History 3 *Credit Hours* (300-400 level) - Select 4 of 6 areas
[2] Connections 6 *Credit Hours*
Engaged Inquiries Elective 3 *Credit Hours* *

ARTH 402* Seminar in Art History II

Credit Hours 15

Term 7 Milestone Notes

Completion of at least 24 total upper-division (300-400) hours

Term 8

Applied Oral Communication Elective 3 *Credit Hours* *
[4] Art History 3 *Credit Hours* (300-400 level) - Select 4 of 6 areas
[1] Elective 1-3 *Credit Hours*
[3] Engaged Inquiries Elective 3 *Credit Hours* *

ARTM 495 Internship

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.
Select one course from 4 of the 6 areas listed: Ancient World (ARTH 410, ARTH 421, ARTH 422), Medieval/Early Renaissance (ARTH 425, ARTH 441*, ARTH 443*, ARTH 451*), Early Modern (ARTH 444*, ARTH 452*, ARTH 453, ARTH 455*, ARTH 456*), American (ARTH 470*, ARTH 472*, ARTH 473*), 19th/20th century (ARTH 403, ARTH 416, ARTH 433, ARTH 472*, ARTH 475, ARTH 476), Non-Western (ARTH 410, ARTH 411, ARTH 413, ARTH 414, ARTH 416, ARTH 419).

* Meets Volunteer Core Requirement.

Rationale* Removed from Footnote #4 - Dropped courses from the Registrar's Not taught in 4 years list

- ARTH 461, ARTH 462, ARTH 463.

Financial Impact* None

Impact on Other Units* None

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* School of Art

Program Name* Art Major, BA

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Contact specific program area faculty for review of schedules and details. It should not be assumed that a high grade point average in the major itself assures fulfilling progression requirements.

Transfer students are advised that a minimum of 20 hours in studio courses must be earned at the University of Tennessee, Knoxville. Students should be cautioned that art courses taken at another institution may not apply toward their major.

No grade below C (2.0) in art courses may be applied to the Bachelor of Arts major. A minimum of 42 credit hours, 300-level or above, must be earned prior to graduation.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

I. Prerequisites (15 hours)

A. Complete (grade of C or better): (9 Credit Hours)

ART 101* Introduction to Art: Surface
ART 102 Introduction to Art: Time
ART 103* Introduction to Art: Space

B. Select 3 hours (grade of C or better):

ARTH 172* Western Art: Ancient through Medieval
ARTH 173* Western Art: Renaissance to Contemporary

C. Select 3 additional hours (grade of C or better):

ARTH 152* Survey of Islamic Art
ARTH 172* Western Art: Ancient through Medieval
ARTH 173* Western Art: Renaissance to Contemporary
ARTH 183* Asian Art

II. Major Requirements

The Art Major, BA requires **33** credit hours.

A. Select 12 hours 200-level studio courses (covering three of the following four areas):

Two-Dimensional Arts

ARTA 211* Drawing I
ARTA 212 Drawing II
ARTA 213* Painting I: Introduction
ARTA 214 Painting II
ARTA 219 Special Topics in Drawing/Painting
ARTA 231* Photography I
ARTA 262* Intaglio I
ARTA 263* Lithography I
ARTA 264* Screen Printing I
ARTA 265* Relief
ARTA 266* Monoprint and Monotype
ARTA 269* Special Topics in Printmaking
ARTA 291* Book Arts and Papermaking

Three-Dimensional Arts

ARTB 221* Ceramic Sculpture
ARTB 222* Beginning Pottery
ARTB 229 Ceramics: Special Topics
ARTB 241* Beginning Sculpture
ARTB 243 Mold-Making and Casting
ARTB 245 Metal Fabrication
ARTB 246 Mixed Media Sculpture
ARTB 249 Special Topics in Sculpture

Time-Based Arts

ARTC 232* Introduction to Performance Art
ARTC 236 Introduction to Cinema and Video Art
ARTC 239 Special Topics in Time-Based Arts

B. Select 15 hours 300-400 level studio courses:

Two-Dimensional Arts

ARTA 311 Drawing III
ARTA 313 Painting III
ARTA 331 Photography II
ARTA 341 Digital Photography
ARTA 342 Large Format Photography I
ARTA 361 Intermediate Print Workshop
ARTA 411 Drawing IV
ARTA 413 Painting IV
ARTA 419 Special Topics in Drawing and Painting
ARTA 431 Photography III
ARTA 461 Advanced Print Workshop
ARTA 469 Special Topics in Printmaking
ARTA 493 Independent Study
ARTA 494 Individual Problems
ARTA 495 Visiting Artist Seminar

Three-Dimensional Arts

ARTB 321 Intermediate Ceramic Sculpture
ARTB 322 Intermediate Pottery
ARTB 323 Intermediate Pottery and Ceramic Sculpture
ARTB 341 Intermediate Sculpture
ARTB 343 Intermediate Mold-Making and Casting
ARTB 345 Intermediate Metal Fabrication
ARTB 346 Intermediate Mixed-Media Sculpture
ARTB 421 Advanced Ceramic Sculpture
ARTB 422 Advanced Pottery
ARTB 429 Ceramics: Special Topics
ARTB 441 Advanced Sculpture
ARTB 449 Special Topics in Sculpture
ARTB 493 Independent Study
ARTB 494 Individual Problems

Time-Based Arts

ARTC 401 Experiments in Sequencing
ARTC 402 Experiments in Space
ARTC 403 Experiments in Systems
ARTC 432 Advanced Time-Based Arts I
ARTC 335* Narrative Filmmaking
ARTC 436 Video Art
ARTC 439 Special Topics in Time-Based Arts
ARTC 493 Independent Study
ARTC 494 Individual Problems

C. Select 3 hours:

300-400 level Art History courses

*** Meets Volunteer Core Requirements.**

D. Professional Practice (3 hours)

ART 455 Professional Practice Seminar

Rationale*

- We are removing the language "ARTA 212 * and ARTA 214 must be taken at the University of Tennessee, Knoxville..." from the description. This requirement is deemed no longer reasonable and puts undo burden on transfer students.
- We are adding **ART 455** Professional Practice Seminar as a requirement to better prepare students for employment and graduate opportunities beyond graduation.
- **Changed major total hours from 30 to 33, for a total of**

Removed- previously deleted or archived:

- ARTA - 215
- ARTA - 216
- ARTB - 424
- ARTC - 235
- ARTC - 495

Financial Impact* These changes use existing courses and require no new faculty. The change does result in a net 3 hour credit increase for the degree total.

Impact on Other Units* n/a

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

College* College of Arts and Sciences

Department* School of Art

Program Name* Art Major, BA - Arts Administration Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The proposed interdisciplinary Art BA Concentration is designed to prepare students for careers on the business side of art galleries, museums, and creative entrepreneurship. Core classes will provide students with a broad introduction to traditional and new concepts, contemporary art practices, various art media and processes, and emerging technologies along with economics, finance, management, marketing, and advertising. In addition to requirements in both the School of Art and Haslam College, students will have electives in both units that will permit them to focus more intensively or specialize in particular areas of interest.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Major Business Requirements:

ENT 350 Introduction to Entrepreneurship
ENT 410S Leadership in Nonprofits and Social Entrepreneurship
ENT 451 New Venture Planning
FINC 300 Fundamentals of Finance
MARK 300 Marketing and Supply Chain Management

Major Business Electives:

Choose 2 of the following.

ADVT 250* Advertising Principles
ENT 425 Entrepreneurial Marketing
ENT 462 Innovation and Creativity
ENT 470 Managing an Entrepreneurial Start-Up
ENT 485 Funding Strategies for Entrepreneurs
ENT 492 Entrepreneurship Internship

Professional Development:

ART 455 Professional Practice Seminar

Notes:

*** Meets Volunteer Core Requirements**

Rationale*

- Removed ARTA 211 from the 200-level Studio Arts Requirements section as a course option, as it is already a required course and can not be double-counted or taken twice. (Per the DARS Team).
- Removed ARTA 215 and ARTA 216 - previously dropped courses (part of ART Shared core that is also submitted to be corrected).
- Removed ARTC 495 - previously dropped course.
- No updates to 8-term plan/uTrack needed as courses were on lists to choose an option from, and ARTA 211 was already listed as a required course.

Financial Impact*

None

Impact on Other Units*

CNST 489 Special Topics in Film

Production:

ARTC 233 Animation I
ARTC 333 Animation II
ARTC 433 Animation III
ARTC 401 Experiments in Sequencing
ARTC 439 Special Topics in Time-Based Arts
CNST 324 Topics in Nonfiction Filmmaking
CNST 335* Narrative Filmmaking
CNST 340 Topics in Post-Production
CNST 365* Writing the Screenplay
CNST 431 The Business of Cinema
CNST 436 Video Art
CNST 496 Senior Projects
JMED 336 Video Production
JMED 436 Advanced Video Production
JMED 446 Documentary Video Production
JMED 480 Media Programming in the Digital Era

Other:

CNST 490 Internship
CNST 491 Foreign Study
CNST 492 Off-Campus Study
CNST 493 Independent Study

Note:

Majors are encouraged to take courses, or even minor or major, in related areas (e.g., Journalism and Electronic Media, Time-Based Art, English, History, Modern Foreign Languages and Literatures, Music, Theatre).

***Meets Volunteer Core Requirements.**

Rationale* Updating the major requirements to incorporate new and newly cross-listed courses in to the Cinema Studies major.

Added Course Options:

History/Theory/Aesthetics:

- **CNST 204**
- **CNST 310**
- **CNST 419**
- **CNST 461**

-Revised 8-term plan/uTrack not required. Just added courses for CNST major options.

Financial Impact* none

Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

A. Complete:

ART 101* Introduction to Art: Surface
ART 102 Introduction to Art: Time
ART 103* Introduction to Art: Space
ARTA 211* Drawing I
ARTH 172* Western Art: Ancient through Medieval
ARTH 173* Western Art: Renaissance to Contemporary

B. Select one course:

ARTH 152* Survey of Islamic Art
ARTH 183* Asian Art

C. Select 6 hours:

any 300-400 level art history courses (ARTH)

D. Select one course from each concentration (200-level studio courses):

Two-Dimensional Arts

ARTA 212 Drawing II
ARTA 213* Painting I: Introduction
ARTA 214 Painting II
ARTA 219 Special Topics in Drawing/Painting
ARTA 231* Photography I
ARTA 262* Intaglio I
ARTA 263* Lithography I
ARTA 264* Screen Printing I
ARTA 265* Relief
ARTA 266* Monoprint and Monotype
ARTA 269* Special Topics in Printmaking
ARTA 291* Book Arts and Papermaking

Three-Dimensional Arts

ARTB 221* Ceramic Sculpture
ARTB 222* Beginning Pottery
ARTB 229 Ceramics: Special Topics
ARTB 241* Beginning Sculpture
ARTB 243 Mold-Making and Casting
ARTB 245 Metal Fabrication
ARTB 246 Mixed Media Sculpture
ARTB 249 Special Topics in Sculpture

Time-Based Arts

ARTC 232* Introduction to Performance Art
ARTC 233 Animation I
ARTC 234 Introduction to Sound Art
ARTC 236 Introduction to Cinema and Video Art
ARTC 239 Special Topics in Time-Based Arts

Rationale* Removal of ARTA 215 and ARTA 216 from the schema as the courses are no longer offered and are not in the catalog

Financial Impact* none

Impact on Other Units* none

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Notes

College of Arts and Sciences - School of Art - Metal Casting and Fabrication Certificate

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* School of Art

Program Name* Metal Casting and Fabrication Certificate

Learning Outcomes

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Metal Casting and Fabrication Certificate is designed to introduce students to the processes of metal casting and fabrication and their varied applications in multiple industries as well as in entrepreneurial pursuits. Students will learn about these processes and applications through coursework focusing on sand casting and investment casting of aluminum and bronze, various welding techniques, cold connections and engineering of structural components.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On, Stand-Alone

Required Course - Select ONE course (3 Credit Hours)

ARTB 241* Beginning Sculpture
ARTB 243 Mold-Making and Casting
ARTB 245 Metal Fabrication
ARTN 241* Non-Major Intro to Sculpture
ARTN 243 Non-major Mold-Making and Casting
ARTN 245 Non-major Metal Fabrication

Electives - Select TWO courses (at least 6 Credit Hours)

ARTB 241* Beginning Sculpture
ARTB 243 Mold-Making and Casting
ARTB 245 Metal Fabrication
ARTB 343 Intermediate Mold-Making and Casting
ARTB 345 Intermediate Metal Fabrication
ARTB 443 Advanced Mold-Making and Casting
ARTB 445 Advanced Metal Fabrication
ARTN 241* Non-Major Intro to Sculpture
ARTN 243 Non-major Mold-Making and Casting
ARTN 245 Non-major Metal Fabrication
[After] * Satisfies Volunteer Core Requirement

Rationale* Upon completion of this certificate, students will be ready to fill the existing metalwork workforce gap in multiple industries including the aerospace and aviation industry, automotive sector, construction, health care sector, electronics, oil and gas etc.

Financial Impact* There is no finanacial impact from this cerficate. It uses only courses from the School of Art and requires no new instuctional, staff or facilities resources.

Impact on Other Units* All courses used for this certificate are from within the School of Art

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

CIP Code * 50.0702

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

College of Arts and Sciences - School of Art - Museum and Curatorial Studies Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Department* School of Art

Program Name* Museum and Curatorial Studies Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The Museum and Curatorial Studies minor consists of **15 hours**.

Required Courses

Complete (grade of C or better) 9 hours:

Grade of C or better

ARTH 405* Topics in Visual and Legal Culture
ARTH 483* History of Museums and Collections
ARTM 490 Introduction to Museum Studies

Complete 3 hours internship (grade C or better) from list below or alternative with consultation of advisor:

ANTH 229 Skeletal Processing
ANTH 329 Skeletal Collections and Curation
ANTH 429 Anthropological Field Recovery
ARTM 492 Off-Campus Study
HIST 490R* Internship at the Center for the Study of Tennesseans and War
EEB 493 Independent Study
PLSC 439 Botanic Garden Practicum

Select 3 hours from the following courses or alternative with consultation of advisor:

ANTH 229 Skeletal Processing
ANTH 329 Skeletal Collections and Curation
ANTH 429 Anthropological Field Recovery
ARTM 492 Off-Campus Study
EEB 330* Field Botany
EEB 351 Field Mycology
EEB 401 Natural History Collections Research
EEB 474 Diversity, Ecology, and Evolution of Fishes
EEB 493 Independent Study
HIST 490R* Internship at the Center for the Study of Tennesseans and War
JMED 320 Media Marketing and Promotions
JMED 333 Media Editing
JMED 422 Social Journalism
PLSC 226 Public Horticulture
PLSC 437 Public Garden Operations and Management
PLSC 439 Botanic Garden Practicum
PLSC 494 Professional Horticultural Communications

Rationale*

Denise Philips in History notified us that **HIST 490** has recieved an R designation and so **HIST 490R** will be replacing the base course going forward. This is an update to the showcase for the minor to reflect that.

Financial Impact*

none

College* College of Arts and Sciences

Department* School of Art

Program Name* Studio Art Major, BFA - Three-Dimensional Arts Concentration

Degree Type* Bachelor of Fine Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Bachelor of Fine Arts with a major in studio art is a professionally oriented degree intended for those students planning careers or graduate study in the visual arts.

To qualify for a BFA with a major in studio art, students must meet the progression requirements in their concentration. Contact specific program area faculty for review of schedules and details. It should not be assumed that a high grade point average in the concentration itself assures fulfilling progression requirement. Before choosing a concentration, students should contact their faculty advisor to see what options are offered in the event they do not fulfill progression requirements.

Students seeking the Bachelor of Fine Arts should also consider pursuing a minor in art history.

Transfer students are advised that a minimum of 20 hours in studio courses must be earned at the University of Tennessee, Knoxville. Students should be cautioned that art courses taken at another institution may not apply toward their concentration. Courses not accepted for application toward a concentration may be counted toward other requirements.

No grade below C in art courses may be applied to the Bachelor of Fine Arts major. A minimum of 42 credit hours, 300-level or above, must be earned prior to graduation.

Excessive absences, withdrawals, incompletes, or repeated courses may result in denial of progression. Progression into the School of Art does not guarantee progression into a chosen concentration. Students may be accepted into advanced concentrations in two-dimensional, three-dimensional, and time-based arts after passing the appropriate progression requirements.

Art Education

The School of Art recommends the Bachelor of Fine Arts for those students pursuing licensure to teach art in schools K-12. Students must also contact the College of Education, Health, and Human Sciences for further requirements.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Requirements for the Bachelor of Fine Arts • Studio Art Major • Three-Dimensional Arts Concentration

I. Foundation

A. Complete:

ART 101* Introduction to Art: Surface
ART 102 Introduction to Art: Time
ART 103* Introduction to Art: Space
ARTA 211* Drawing I
ARTH 172* Western Art: Ancient through Medieval
ARTH 173* Western Art: Renaissance to Contemporary

B. Select one course:

ARTH 152* Survey of Islamic Art
ARTH 183* Asian Art

C. Select 6 hours:

any 300-400 level art history courses (ARTH)

D. Select one course from each concentration (200-level studio courses):

Two-Dimensional Arts

ARTA 212 Drawing II
ARTA 213* Painting I: Introduction
ARTA 214 Painting II
ARTA 215 Watercolor I: Introduction
ARTA 216 Watercolor II

ARTC 493 Independent Study
ARTC 494 Individual Problems

Art

ART 301 Student Exhibition
ART 402 Art and Culture

D. Complete 4 hours (Capstone and Professional Practice):

ART 496 BFA Studio Art Capstone
ART 455 Professional Practice Seminar

III. General Curriculum

A. Complete:

ENGL 101* English Composition I
ENGL 102* English Composition II
[Right] (or their equivalent)

B. Quantitative Reasoning (6 hours)*:

any two QR courses from the Volunteer Core list.

C. Natural Sciences (7-8 hours)*:

any two NS courses from the Volunteer Core list (at least one with a laboratory).

D. Social Sciences (6 hours)*:

any two SS courses from the Volunteer Core list.

E. Intermediate Foreign Language (6 hours)*:

any intermediate foreign language sequence or intermediate intensive course from the Volunteer Core list.

F. Written Communication (3 hours)*:

any WC course from the Volunteer Core list.

G. Oral Communication (3 hours)*:

any OC course from the Volunteer Core list.

H. Non-Art Elective (3 hours):

any Arts and Sciences non-art elective

* Meets Volunteer Core Requirements.

Rationale*

We are removing the language "ARTA 212 * and ARTA 214 must be taken at the University of Tennessee, Knoxville, if they are to count toward the concentration" from the description. This requirement is deemed no longer reasonable and puts undo burden on transfer students.

In an effort to improve our Capstone experience for BFA students and to increase preparedness for employment opportunities post-graduation we are moving ART 455 Professional Practice Seminar to a required course to be taken jointly with Capstone work. to offset these hours we are reducing the studio electives from 18 to 15 hours.

Financial Impact*

These changes use existing courses and require no new faculty.

Impact on Other Units*

None, all courses are within the School of Art

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

ART 496 BFA Studio Art Capstone

Credit Hours 16

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 124

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

The courses indicated meet both a Volunteer Core* requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core* requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements,**

Rationale* This is an update to the U-Track with changes submitted for the BFA curriculum.

In an effort to improve our Capstone experience for BFA students and to increase preparedness for employment opportunities post-graduation we are moving ART 455 Professional Practice Seminar to a required course to be taken jointly with Capstone work. We are reducing the studio elective requirement by 3 hours to offset the addition of the 3 hour professional practice course.

Financial Impact* These changes require no new faculty.

Impact on Other Units* N/A all changes involve courses within the School of Art

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* School of Art

Program Name* Studio Art Major, BFA - Time-Based Arts Concentration

Degree Type* Bachelor of Fine Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Bachelor of Fine Arts with a major in studio art is a professionally-oriented degree intended for those students planning careers or graduate study in the visual arts.

To qualify for a BFA with a major in studio art, students must meet the progression requirements in their concentration. Contact specific program area faculty for review of schedules and details. It should not be assumed that a high grade point average in the concentration itself assures fulfilling progression requirement. Before choosing a concentration, students should contact their faculty advisor to see what options are offered in the event they do not fulfill progression requirements.

Students seeking the Bachelor of Fine Arts should also consider pursuing a minor in art history.

Transfer students are advised that a minimum of 20 hours in studio courses must be earned at the University of Tennessee, Knoxville. Students should be cautioned that art courses taken at another institution may not apply toward their concentration. Courses not accepted for application toward a concentration may be counted toward other requirements.

No grade below C in art courses may be applied to the Bachelor of Fine Arts major. A minimum of 42 credit hours, 300-level or above, must be earned prior to graduation.

Excessive absences, withdrawals, incompletes, or repeated courses may result in denial of progression. Progression into the School of Art does not guarantee progression into a chosen concentration. Students may be accepted into advanced concentrations in two-dimensional, three-dimensional, and time-based arts after passing the appropriate progression requirements.

Art Education

The School of Art recommends the Bachelor of Fine Arts for those students pursuing licensure to teach art in schools K-12. Students must also contact the College of Education, Health, and Human Sciences for further requirements.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Requirements for the Bachelor of Fine Arts • Studio Art Major • Time Based Arts Concentration

I. Foundation

A. Complete:

ART 101* Introduction to Art: Surface
ART 102 Introduction to Art: Time
ART 103* Introduction to Art: Space
ARTA 211* Drawing I
ARTH 172* Western Art: Ancient through Medieval
ARTH 173* Western Art: Renaissance to Contemporary

B. Select one course:

ARTH 152* Survey of Islamic Art
ARTH 183* Asian Art

C. Select 6 hours:

any 300-400 level art history courses (ARTH)

D. Select one course from each concentration (200-level studio courses):

Two-Dimensional Arts

ARTA 212 Drawing II
ARTA 213* Painting I: Introduction
ARTA 214 Painting II
ARTA 215 Watercolor I: Introduction
ARTA 216 Watercolor II
ARTA 219 Special Topics in Drawing/Painting
ARTA 231* Photography I
ARTA 262* Intaglio I
ARTA 263* Lithography I
ARTA 264* Screen Printing I
ARTA 265* Relief
ARTA 266* Monoprint and Monotype
ARTA 269* Special Topics in Printmaking
ARTA 291* Book Arts and Papermaking

Three-Dimensional Arts

ARTB 221* Ceramic Sculpture
ARTB 222* Beginning Pottery
ARTB 229 Ceramics: Special Topics
ARTB 241* Beginning Sculpture
ARTB 243 Mold-Making and Casting
ARTB 245 Metal Fabrication
ARTB 246 Mixed Media Sculpture
ARTB 249 Special Topics in Sculpture

Time-Based Arts

ARTC 232* Introduction to Performance Art
ARTC 233 Animation I
ARTC 234 Introduction to Sound Art
ARTC 236 Introduction to Cinema and Video Art
ARTC 239 Special Topics in Time-Based Arts

II. Concentration – Time-Based Arts

The Time-Based Arts concentration requires **42** credit hours.

A. Select 3 hours (200-level studio course):

Time-Based Arts (Film, Video, and Performance)

ARTC 232* Introduction to Performance Art
ARTC 233 Animation I
ARTC 234 Introduction to Sound Art
ARTC 236 Introduction to Cinema and Video Art
ARTC 239 Special Topics in Time-Based Arts

B. Select 20 hours (300-400 level concentration courses):

Note: Student must meet progression requirements for the concentration before taking upper-division courses.

Time-Based Arts (Film, Video, and Performance)

ARTC 324 Topics in Nonfiction Filmmaking
ARTC 333 Animation II
ARTC 340 Topics in Post-Production
ARTC 401 Experiments in Sequencing
ARTC 402 Experiments in Space
ARTC 403 Experiments in Systems
ARTC 432 Advanced Time-Based Arts I
ARTC 433 Animation III
ARTC 335* Narrative Filmmaking
ARTC 436 Video Art
ARTC 439 Special Topics in Time-Based Arts
ARTC 493 Independent Study
ARTC 494 Individual Problems

C. Select 15 hours (200-400 level studio electives):

Note: Studio electives may be taken in other programs/departments in consultation with departmental advisor.

Two-Dimensional Arts

ARTA 212 Drawing II
ARTA 213* Painting I: Introduction
ARTA 214 Painting II
ARTA 219 Special Topics in Drawing/Painting
ARTA 231* Photography I
ARTA 262* Intaglio I
ARTA 263* Lithography I
ARTA 264* Screen Printing I
ARTA 265* Relief
ARTA 266* Monoprint and Monotype
ARTA 269* Special Topics in Printmaking
ARTA 291* Book Arts and Papermaking
ARTA 311 Drawing III
ARTA 313 Painting III
ARTA 331 Photography II
ARTA 341 Digital Photography
ARTA 342 Large Format Photography I
ARTA 361 Intermediate Print Workshop
ARTA 411 Drawing IV
ARTA 413 Painting IV
ARTA 419 Special Topics in Drawing and Painting
ARTA 431 Photography III
ARTA 461 Advanced Print Workshop
ARTA 469 Special Topics in Printmaking

ARTC 494 Individual Problems

Art

ART 301 Student Exhibition
ART 402 Art and Culture

D. Complete 4 hours (Capstone and Professional Practice):

ART 496 BFA Studio Art Capstone
ART 455 Professional Practice Seminar

III. General Curriculum

A. Complete:

ENGL 101* English Composition I
ENGL 102* English Composition II
[Right] (or their equivalent)

B. Quantitative Reasoning (6 hours)*:

any two QR courses from the Volunteer Core list.

C. Natural Sciences (7-8 hours)*:

any two NS courses from the Volunteer Core list (at least one with a laboratory).

D. Social Sciences (6 hours)*:

any two SS courses from the Volunteer Core list.

E. Intermediate Foreign Language (6 hours)*:

any intermediate foreign language sequence or intermediate intensive course from the Volunteer Core list.

F. Written Communication (3 hours)*:

any WC course from the Volunteer Core list.

G. Oral Communication (3 hours)*:

any OC course from the Volunteer Core list.

H. Non-Art Elective (3 hours):

any Arts and Sciences non-art elective

*** Meets Volunteer Core Requirements.**

Rationale* We are removing the language "ARTA 212 * and ARTA 214 must be taken at the University of Tennessee, Knoxville, if they are to count toward the concentration" from the description. This requirement is deemed no longer reasonable and puts undo burden on transfer students.

In an effort to improve our Capstone experience for BFA students and to increase preparedness for employment opportunities post-graduation we are moving ART 455 Professional Practice Seminar to a required course to be taken jointly with Capstone work. to offset these hours we are reducing the studio electives from 18 to 15 hours.

Financial Impact* These changes use existing courses and require no new faculty. The change does result in a net 1 hour credit increase for the degree total.

Impact on Other Units* none

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

ARTC 234 Introduction to Sound Art
ARTC 236 Introduction to Cinema and Video Art
ARTC 239 Special Topics in Time-Based Arts

II. Concentration – Two-Dimensional Arts

The Two-Dimensional Arts concentration consists of **42** credit hours.

A. Select 3 hours (200-level studio courses):

ARTA 212 Drawing II

ARTA 213* Painting I: Introduction
ARTA 214 Painting II
ARTA 219 Special Topics in Drawing/Painting
ARTA 231* Photography I
ARTA 262* Intaglio I
ARTA 263* Lithography I
ARTA 264* Screen Printing I
ARTA 265* Relief
ARTA 266* Monoprint and Monotype
ARTA 269* Special Topics in Printmaking
ARTA 291* Book Arts and Papermaking

B. Select 20 hours (300-400 level concentration courses):

Note: Student must meet progression requirements for the concentration before taking upper-division courses.

ARTA 311 Drawing III
ARTA 313 Painting III
ARTA 331 Photography II
ARTA 341 Digital Photography
ARTA 342 Large Format Photography I
ARTA 361 Intermediate Print Workshop
ARTA 411 Drawing IV
ARTA 413 Painting IV
ARTA 419 Special Topics in Drawing and Painting
ARTA 431 Photography III
ARTA 461 Advanced Print Workshop
ARTA 469 Special Topics in Printmaking
ARTA 493 Independent Study
ARTA 494 Individual Problems
ARTA 495 Visiting Artist Seminar

C. Select 15 hours (200-400 level studio electives):

Note: Studio electives may be taken in other programs/departments in consultation with departmental advisor.

Two-Dimensional Arts

ARTA 212 Drawing II
ARTA 213* Painting I: Introduction
ARTA 214 Painting II
ARTA 219 Special Topics in Drawing/Painting
ARTA 231* Photography I
ARTA 262* Intaglio I
ARTA 263* Lithography I
ARTA 264* Screen Printing I
ARTA 265* Relief
ARTA 266* Monoprint and Monotype
ARTA 269* Special Topics in Printmaking
ARTA 291* Book Arts and Papermaking
ARTA 311 Drawing III
ARTA 313 Painting III
ARTA 331 Photography II
ARTA 341 Digital Photography
ARTA 342 Large Format Photography I

Art

ART 301 Student Exhibition
ART 402 Art and Culture

D. Complete 4 hours (Capstone and Professional Practice):

ART 455 Professional Practice Seminar
ART 496 BFA Studio Art Capstone

III. General Curriculum

A. Complete:

ENGL 101* English Composition I
ENGL 102* English Composition II
[Right] (or their equivalent)

B. Quantitative Reasoning (6 hours)*:

any two QR courses from the Volunteer Core list.

C. Natural Sciences (7-8 hours)*:

any two NS courses from the Volunteer Core list (at least one with a laboratory).

D. Social Sciences (6 hours)*:

any two SS courses from the Volunteer Core list.

E. Intermediate Foreign Language (6 hours)*:

any intermediate foreign language sequence or intermediate intensive course from the Volunteer Core list.

F. Written Communication (3 hours)*:

any WC course from the Volunteer Core list.

G. Oral Communication (3 hours)*:

any OC course from the Volunteer Core list.

H. Non-Art Elective (3 hours):

any Arts and Sciences non-art elective

* Meets Volunteer Core Requirements.

Rationale* We are removing the language "ARTA 212 * and ARTA 214 must be taken at the University of Tennessee, Knoxville, if they are to count toward the concentration" from the description. This requirement is deemed no longer reasonable and puts undo burden on transfer students.

In an effort to improve our Capstone experience for BFA students and to increase preparedness for employment opportunities post-graduation we are moving ART 455 Professional Practice Seminar to a required course to be taken jointly with Capstone work. to offset these hours we are reducing the studio electives from 18 to 15 hours.

Financial Impact* These changes use existing courses and require no new faculty. The change does result in a net 2 hour credit decrease for the degree total.

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* School of Art

Program Name* Studio Art Major, BFA - Two-Dimensional Arts Concentration (uTrack Requirements)

Degree Type* Bachelor of Fine Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Quantitative Reasoning Elective **3** *Credit Hours* *

Total Credit Hours 122

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

The courses indicated meet both a Volunteer Core Requirements* as well as a requirement in the major. Students can choose to complete the Volunteer Core Requirements* using alternative courses; however, this could increase time to degree.

* Meets Volunteer Core Requirements.

Rationale* This is an update to the uTrack with changes submitted for the BFA curriculum.

In an effort to improve our Capstone experience for BFA students and to increase preparedness for employment opportunities post-graduation we are moving ART 455 Professional Practice Seminar to a required course to be taken jointly with Capstone work.

Financial Impact* These changes require no new faculty.

Impact on Other Units* N/A all changes involve courses within the School of Art.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Notes

College of Arts and Sciences - Sociology - Sociology Major, BA - Criminology and Criminal Justice - Five-Year BA/MA in Applied Sociology

2026-2027 UG End Program

General Catalog Information

College* College of Arts and Sciences

Department* Sociology

Program Name* Sociology Major, BA - Criminology and Criminal Justice - Five-Year BA/MA in Applied Sociology

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

The Department of Sociology at the University of Tennessee offers a Five-Year BA/MA program for highly motivated and academically outstanding students who are passionate about understanding and analyzing human societies. This program offers students the opportunity to earn both a Bachelor of Arts (BA) degree and a Master of Arts (MA) degree in Sociology within a five-year timeframe. The program is designed to provide students with the knowledge, skills, and advanced research experience required for a successful career in sociological research, social services, advocacy, and more.

The core component of the program is that qualified students can apply up to 9 credit hours of graduate courses toward both their undergraduate and graduate degrees. This not only accelerates their academic journey but also enhances their research and analytical capabilities.

Program Components

Eligibility and Admission

Students must have a declared major in Sociology with a specialization in Criminology and Criminal Justice.

Students must have an overall GPA of 3.4 in required coursework for admission to the program.

Conditional admission may be granted after the completion of 60 hours of coursework fulfilling requirements for the BA in Sociology, including a minimum of 15 credit hours in core Sociology courses.

Full admission to the program may be granted after the completion of 90 hours of required coursework for the BA in Sociology with a minimum GPA of 3.4, including at least 24 hours of core Sociology courses.

Admission Process

The admission process begins with application to the Sociology Undergraduate Program Director.

The admission decision will be based on coursework, letters of recommendation, and a personal interview with members of the Undergraduate and Graduate Committees in the Department of Sociology to determine the level of maturity and academic achievement.

Upon approval from the Undergraduate Program Director, students can submit an official application to the Graduate School.

Coursework

Students, once conditionally admitted to the program, may take up to 9 credit hours of approved graduate-level Sociology courses that count towards both their BA and MA degrees.

All courses taken for graduate credit must be approved by the student's academic advisor and the Sociology Director of Graduate Studies.

Students must also request permission from the Graduate School to take approved courses for graduate credit and follow the regular admission process for the Sociology graduate program.

Assistantships

Students will be eligible for assistantship opportunities after they are formally enrolled as graduate-level students in the Sociology Graduate Program.

Thesis

Students in the Five-Year BA-MA program will complete a practicum and thesis as part of their Master of Arts requirements. This option allows for an in-depth exploration of the application of Criminology and Sociology to the wider community.

Faculty Mentorship

Students are required to obtain a commitment from a faculty member in the Sociology Department to serve as their major professor for the MA portion of the program. The major professor will act as a mentor and advisor.

Academic Advising

Students in the Five-Year BA-MA program will receive specialized academic advising to ensure a smooth transition between their undergraduate and graduate studies.

Requirements*

Rationale*

When the Five-Year Sociology programs were created under each Sociology concentration and corresponding honors programs in Fall 2023, an Undergraduate "Add Program" form was submitted to create a listing in the undergraduate catalog for **College of Arts and Sciences - Sociology - Sociology Major, BA - Criminology and Criminal Justice - Five-Year BA-MA in Applied Sociology** in error. The correct UG and GR "Add Program" and "Revise Program" proposals to create the program requirements for each Five-Year Sociology (4+1) concentration were also submitted correctly.

Applied Sociology is not a separate UG Concentration, but an existing Graduate Concentration, and therefore, the listing in the UG Catalog as a separate concentration for Applied Sociology is incorrect. The Registrar's Office brought this to the College's attention with the updates that were made to the Major listings for the 2025-2026 catalog when the erroneous listings were noticed.

Per the Registrar's Office, all Applied Sociology concentrations were not created as a new program in Banner, and therefore, do not exist as UG programs for students to enroll in, and the erroneous listing needs to be removed from the UG Catalog.

This proposal requests to remove this program from the undergraduate catalog, as the current program page discussing the Five-Year Sociology programs are correctly listed in both the Graduate and Undergraduate catalogs.

Original incorrect proposal: College of Arts and Sciences - Sociology - Sociology Major, BA - Criminology and Criminal Justice - Five-Year BA-MA in Applied Sociology | Curriculum

Original Correct proposal: College of Arts and Sciences - Sociology - Sociology Major, BA - Criminology and Criminal Justice - Five-Year BA-MA in Sociology | Curriculum

Impact on Other Units* None. This is an arrant listing in the catalog that was discovered this year, but the concentration does not exist as it appears in the undergraduate catalog.

Financial Impact* None.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Number of students in program* 0

Teach out plan* None. This was an error in submission to list a Graduate concentration in the Undergraduate Catalog. The Applied Sociology concentration, as it exists in the Graduate Catalog, remains unchanged.

Notes

College of Arts and Sciences - Sociology - Sociology Major, BA - Criminology and Criminal Justice Concentration

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Sociology

Program Name* Sociology Major, BA - Criminology and Criminal Justice Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

Description The Criminology and Criminal Justice Concentration consists of **31 hours**. Ideally, students will take SOCI 321 and SOCI 331* no later than their junior year. SOCI 480 will be taken in the senior year.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)

Sociology – Prerequisites (6 hours)

Select one course (grade of C or better):

SOCI 110* Social Problems and Social Justice
SOCI 120* Introduction to Sociology
SOCI 127* Honors: Introduction to Sociology

Select one course:

MATH 115* Statistical Reasoning
STAT 201* Introduction to Statistics
STAT 207* Honors: Introduction to Statistics

Sociology – Major (31 hours)

The major consists of **31 upper-division hours** in sociology.

Complete:

SOCI 321 Sociological Theory
SOCI 331* Sociological Research
SOCI 480 Capstone in Sociology

Criminology and Criminal Justice Concentration

Complete:

SOCI 350* Criminology
SOCI 353* Criminal Justice

Select two courses:

SOCI 449 Youth Justice
SOCI 452 Race, Ethnicity, Crime, and Justice
SOCI 453* Gender and Crime
SOCI 455* Law and Society
SOCI 456* Punishment and Society
SOCI 401 Special Topics in Criminology
SOCI 411 Police and Society
SOCI 415 Visual Criminology
SOCI 454 Restorative Justice

Select four courses:

300-400 level sociology courses

* Meets Volunteer Core Requirements.

Rationale*

Adding a Distance Education modality to the current Criminology and Criminal Justice concentration (DE modality does not include the honors concentration therefore added Distance Education Core that lists this to minimize student confusion).

1. Justification

The proposed online modality builds on UTK's existing on-campus Criminology and Criminal Justice program, offering a curated set of courses available in a fully online format. It leverages Vols Online infrastructure to meet the needs of students who require flexible learning options, particularly adult learners, transfers, and working professionals. The curriculum maintains the same academic rigor and learning outcomes, emphasizing theory, policy, ethics, and social justice.

2. Expected Demand

Market data shows strong and growing demand for online criminal justice programs:

- Over **63,000 students** enrolled exclusively online at Tennessee institutions in 2021, with **81% in-state**.
- Peer institutions (UofM Global, UTC, MTSU, APSU) already offer online criminal justice degrees.
- Target audiences include adult learners with some college, transfer students via the **Criminal Justice Tennessee Transfer Pathway**, and current practitioners seeking career advancement.

3. Contribution to the Degree Program

Adding the Distance Education modality enhances the Sociology major by:

- Preserving core learning outcomes in criminology, justice systems, and social analysis.
- Expanding access through flexible online delivery.
- Offering applied learning experiences such as virtual simulations, community-engaged projects, and optional certifications.
- Supporting UTK's mission to promote inclusive, career-ready education with interdisciplinary depth.

Financial Impact*

Minimal since the online courses available for Distance Education students are frequently offered.

Impact on Other Units*

Mathematics and Statistics - impact will be minimal as these courses are regularly offered. With increase in number of students, might potentiallly need additional online sections.

Approval Documentation attached.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Foreign Language **3** *Credit Hours* (intermediate level)

Natural Sciences Elective w/Lab **4** *Credit Hours* *

Quantitative Reasoning Elective **3** *Credit Hours* *

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements.**

Rationale* Adding a Distance Education modality to the current Criminology and Criminal Justice Concentration.

Corrected Term 3 milestone - changing it from 12 credit hours to 36 credit hours.

Added Vol Core Item #3 to Footnotes since it was missing.

1. Justification

The proposed online concentration builds on UTK's existing on-campus Criminology and Criminal Justice program, offering a curated set of courses available in a fully online format. It leverages Vols Online infrastructure to meet the needs of students who require flexible learning options, particularly adult learners, transfers, and working professionals. The curriculum maintains the same academic rigor and learning outcomes, emphasizing theory, policy, ethics, and social justice.

2. Expected Demand

Market data shows strong and growing demand for online criminal justice programs:

- Over **63,000 students** enrolled exclusively online at Tennessee institutions in 2021, with **81% in-state**.
- Peer institutions (UofM Global, UTC, MTSU, APSU) already offer online criminal justice degrees.
- Target audiences include adult learners with some college, transfer students via the **Criminal Justice Tennessee Transfer Pathway**, and current practitioners seeking career advancement.

3. Contribution to the Degree Program

This concentration enhances the Sociology major by:

- Preserving core learning outcomes in criminology, justice systems, and social analysis.
- Expanding access through flexible online delivery.
- Offering applied learning experiences such as virtual simulations, community-engaged projects, and optional certifications.
- Supporting UTK's mission to promote inclusive, career-ready education with interdisciplinary depth.

Financial Impact* Minimal since courses are frequently offered and Vols Online students might have already taken the two courses from other units prior to arriving at UTK.

Impact on Other Units* Mathematics and Statistics - impact will be minimal as these courses are regularly offered. With increase in number of students, might potentiallly need additional online sections.

Approval Documentation attached.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
( ) New major name and new CIP code (requires THEC approval)
( ) New major name and keeping the same CIP code

CIP Code* 45.1101

Notes

College of Arts and Sciences - Sociology - Sociology Major, BA - Critical Race and Ethnic Studies - Five-Year BA/MA in Applied Sociology

2026-2027 UG End Program

General Catalog Information

College* College of Arts and Sciences

Department* Sociology

Program Name* Sociology Major, BA - Critical Race and Ethnic Studies - Five-Year BA/MA in Applied Sociology

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

The Department of Sociology at the University of Tennessee offers a Five-Year BA/MA program for highly motivated and academically outstanding students who are passionate about understanding and analyzing human societies. This program offers students the opportunity to earn both a Bachelor of Arts (BA) degree and a Master of Arts (MA) degree in Sociology within a five-year timeframe. The program is designed to provide students with the knowledge, skills, and advanced research experience required for a successful career in sociological research, social services, advocacy, and more.

The core component of the program is that qualified students can apply up to 9 credit hours of graduate courses toward both their undergraduate and graduate degrees. This not only accelerates their academic journey but also enhances their research and analytical capabilities.

Program Components

Eligibility and Admission

Students must have a declared major in Sociology with a specialization in critical race and ethnic studies.

Students must have an overall GPA of 3.4 in required coursework for admission to the program.

Conditional admission may be granted after the completion of 60 hours of coursework fulfilling requirements for the BA in Sociology, including a minimum of 15 credit hours in core Sociology courses.

Full admission to the program may be granted after the completion of 90 hours of required coursework for the BA in Sociology with a minimum GPA of 3.4, including at least 24 hours of core Sociology courses.

Admission Process

The admission process begins with application to the Sociology Undergraduate Program Director.

The admission decision will be based on coursework, letters of recommendation, and a personal interview with members of the Undergraduate and Graduate Committees in the Department of Sociology to determine the level of maturity and academic achievement.

Upon approval from the Undergraduate Program Director, students can submit an official application to the Graduate School.

Coursework

Students, once conditionally admitted to the program, may take up to 9 credit hours of approved graduate-level Sociology courses that count towards both their BA and MA degrees.

All courses taken for graduate credit must be approved by the student's academic advisor and the Sociology Director of Graduate Studies.

Students must also request permission from the Graduate School to take approved courses for graduate credit and follow the regular admission process for the Sociology graduate program.

Assistantships

Students will be eligible for assistantship opportunities after they are formally enrolled as graduate-level students in the Sociology Graduate Proggram.

Thesis

Students in the Five-Year BA-MA program will complete a practicum and thesis as part of their Master of Arts requirements. This option allows for an in-depth exploration of the application of critical race and ethnic studies and Sociology to the wider community.

Faculty Mentorship

Students are required to obtain a commitment from a faculty member in the Sociology Department to serve as their major professor for the MA portion of the program. The major professor will act as a mentor and advisor.

Academic Advising

Students in the Five-Year BA-MA program will receive specialized academic advising to ensure a smooth transition between their undergraduate and graduate studies.

Requirements*

Rationale*

When the Five-Year Sociology programs were created under each Sociology concentration and corresponding honors programs in Fall 2023, an Undergraduate "Add Program" form was submitted to create a listing in the undergraduate catalog for **College of Arts and Sciences - Sociology - Sociology Major, BA - Critical Race and Ethnic Studies - Five-Year BA-MA in Applied Sociology** in error. The correct UG and GR "Add Program" and "Revise Program" proposals to create the program requirements for each Five-Year Sociology (4+1) concentration were also submitted correctly.

Applied Sociology is not a separate UG Concentration, but an existing Graduate Concentration, and therefore, the listing in the UG Catalog as a separate concentration for Applied Sociology is incorrect. The Registrar's Office brought this to the College's attention with the updates that were made to the Major listings for the 2025-2026 catalog when the erroneous listings were noticed.

Per the Registrar's Office, all Applied Sociology concentrations were not created as a new program in Banner, and therefore, do not exist as UG programs for students to enroll in, and the erroneous listing needs to be removed from the UG Catalog.

This proposal requests to remove this program from the undergraduate catalog, as the current program page discussing the Five-Year Sociology programs are correctly listed in both the Graduate and Undergraduate catalogs.

Original incorrect proposal: College of Arts and Sciences - Sociology - Sociology Major, BA - Critical Race and Ethnic Studies -Five-Year BA-MA in Applied Sociology | Curriculum

Original Correct proposal: College of Arts and Sciences - Sociology - Sociology Major, BA - Critical Race and Ethnic Studies -Five-Year BA-MA in Sociology | Curriculum

Impact on Other Units* None. This is an arrant listing in the catalog that was discovered this year, but the concentration does not exist as it appears in the undergraduate catalog.

Financial Impact* None.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Number of students in program* 0

Teach out plan* None. This was an error in submission to list a Graduate concentration in the Undergraduate Catalog. The Applied Sociology concentration, as it exists in the Graduate Catalog, remains unchanged.

Students in the Five-Year BA-MA program will complete a practicum and thesis as part of their Master of Arts requirements. This option allows for an in-depth exploration of the application of critical race and ethnic studies within Sociology.

Faculty Mentorship

Students are required to obtain a commitment from a faculty member in the Sociology Department to serve as their major professor for the MA portion of the program. The major professor will act as a mentor and advisor.

Academic Advising

Students in the Five-Year BA-MA program will receive specialized academic advising to ensure a smooth transition between their undergraduate and graduate studies.

Requirements*

Rationale*

When the Five-Year Sociology programs were created under each Sociology concentration and corresponding honors programs in Fall 2023, an Undergraduate "Add Program" form was submitted to create a listing in the undergraduate catalog for **College of Arts and Sciences - Sociology - Sociology Major, BA - Honors Critical Race and Ethnic Studies - Five-Year BA-MA in Applied Sociology** in error. The correct UG and GR "Add Program" and "Revise Program" proposals to create the program requirements for each Five-Year Sociology (4+1) concentration were also submitted correctly.

Applied Sociology is not a separate UG Concentration, but an existing Graduate Concentration, and therefore, the listing in the UG Catalog as a separate concentration for Applied Sociology is incorrect. The Registrar's Office brought this to the College's attention with the updates that were made to the Major listings for the 2025-2026 catalog when the erroneous listings were noticed.

Per the Registrar's Office, all Applied Sociology concentrations were not created as a new program in Banner, and therefore, do not exist as UG programs for students to enroll in, and the erroneous listing needs to be removed from the UG Catalog.

This proposal requests to remove this program from the undergraduate catalog, as the current program page discussing the Five-Year Sociology programs are correctly listed in both the Graduate and Undergraduate catalogs.

Original incorrect proposal: College of Arts and Sciences - Sociology - Sociology Major, BA - Honors Critical Race and Ethnic Studies - Five-Year BA-MA in Applied Sociology | Curriculum

Original Correct proposal: College of Arts and Sciences - Sociology - Sociology Major, BA - Honors Critical Race and Ethnic Studies - Five-Year BA-MA in Sociology | Curriculum

Impact on Other Units* None. This is an arrant listing in the catalog that was discovered this year, but the concentration does not exist as it appears in the undergraduate catalog.

Financial Impact* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Number of students in program* 0

Teach out plan* None. This was an error in submission to list a Graduate concentration in the Undergraduate Catalog. The Applied Sociology concentration, as it exists in the Graduate Catalog, remains unchanged.

Notes

College of Arts and Sciences - Sociology - Sociology Major, BA - Honors Environmental Sociology - Five-Year BA/MA in Applied Sociology

2026-2027 UG End Program

General Catalog Information

College* College of Arts and Sciences

Department* Sociology

Program Name* Sociology Major, BA - Honors Environmental Sociology - Five-Year BA/MA in Applied Sociology

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

The Department of Sociology at the University of Tennessee offers a Five-Year BA/MA program for highly motivated and academically outstanding students who are passionate about understanding and analyzing human societies. This program offers students the opportunity to earn both a Bachelor of Arts (BA) degree and a Master of Arts (MA) degree in Sociology within a five-year timeframe. The program is designed to provide students with the knowledge, skills, and advanced research experience required for a successful career in sociological research, social services, advocacy, and more.

The core component of the program is that qualified students can apply up to 9 credit hours of graduate courses toward both their undergraduate and graduate degrees. This not only accelerates their academic journey but also enhances their research and analytical capabilities.

Program Components

Eligibility and Admission

Students must have a declared major in Sociology with a specialization in Honors Environmental Sociology.

Students must have an overall GPA of 3.4 in required coursework for admission to the program.

Conditional admission may be granted after the completion of 60 hours of coursework fulfilling requirements for the BA in Sociology, including a minimum of 15 credit hours in core Sociology courses.

Full admission to the program may be granted after the completion of 90 hours of required coursework for the BA in Sociology with a minimum GPA of 3.4, including at least 24 hours of core Sociology courses.

Admission Process

The admission process begins with application to the Sociology Undergraduate Program Director.

The admission decision will be based on coursework, letters of recommendation, and a personal interview with members of the Undergraduate and Graduate Committees in the Department of Sociology to determine the level of maturity and academic achievement.

Upon approval from the Undergraduate Program Director, students can submit an official application to the Graduate School.

Coursework

Students, once conditionally admitted to the program, may take up to 9 credit hours of approved graduate-level Sociology courses that count towards both their BA and MA degrees.

All courses taken for graduate credit must be approved by the student's academic advisor and the Sociology Director of Graduate Studies.

Students must also request permission from the Graduate School to take approved courses for graduate credit and follow the regular admission process for the Sociology graduate program.

Assistantships

Students will be eligible for assistantship opportunities after they are formally enrolled as graduate-level students in the Sociology Graduate Proggram.

Thesis

Students in the Five-Year BA-MA program will complete a practicum and thesis as part of their Master of Arts requirements. This option allows for an in-depth exploration of the application of environmental issues within Sociology.

Faculty Mentorship

Students are required to obtain a commitment from a faculty member in the Sociology Department to serve as their major professor for the MA portion of the program. The major professor will act as a mentor and advisor.

Academic Advising

Students in the Five-Year BA-MA program will receive specialized academic advising to ensure a smooth transition between their undergraduate and graduate studies.

College of Arts and Sciences - Theatre - Musical Theatre Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Minor Requirements

The Musical Theatre minor consists of 15 hours.

Prerequisites:

Select One Course.

THEA 210 Basic Acting Techniques for Majors
THEA 220 Introduction to Acting
THEA 230* The Black Arts Workshop: Performance and History

Required Courses:

THEA 215* The Broadway Musical: History of American Musical Theatre
THEA 325* Musical Theatre Performance I
THEA 425 Musical Theatre Performance II

Complete 3 hours:

THEA 231 Group Instruction in Singing for Musical Theatre
[Before]and/or

THEA 331 Individual Instruction in Singing for Musical Theatre

Complete 3 hours:

THEA 222 Special Studies in Dance
[Before]and/or
THEA 322 Special Studies in Dance
[After]
*** Meets Volunteer Core Requirement.**

Rationale*

Added an optional course to the minor when adding the course to the catalog. This will allow for more student enrollment.

Added THEA 231

Course Description This course offers a brief introduction to three world languages (varies each semester). The students will learn the basics, such as greetings, introductions, family, food etc, with a focus on practical communication. They will also be introduced to basic reading and writing skills in each language. Each language will be taught for about 5 weeks. This course is suitable for students who want to explore several options before committing themselves to the study of one particular language. Ideal for future professionals with missions abroad.

Statement about Crosslistings:

Rationale*

We are introducing this class as a first step towards a new minor concentration in our department that focuses on the applied, engaged study of global popular cultures.

Students can pursue this minor/study without majoring in a language or combine it with a language major or a language certificate. The minor will appeal to students across campus and will be composed as interdisciplinary, including classes in music, Africana studies, English, and art/cinema studies.

The class will have a broad appeal as a general education class. We hope to grow it towards a large lecture course with discussion section led by GTAs.

Course Description

In this practice-based course students learn about the production of global pop culture, its circulation, and its critical reception. The class merges seminar discussions with creative lab classes. In practical segments, students design memes, remix music, shoot short-form videos, or create small games/podcasts. During seminar meetings, students learn to critically reflect on processes of media translation, adaptation, circulation, and marketing in local and global contexts. This course prepares students for careers in media and cultural industries as well as for critical, creative approaches to global pop culture.

Taught in English

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Advanced Chinese Certificate is designed for students who want to acquire advanced language skills for real-world communication. By earning this certificate, students demonstrate not only their high proficiency to communicate in one of the world's most widely spoken languages but also their commitment to intercultural competence—a valuable asset in today's globalized job market.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On, Stand-Alone

Credit Hours Required

11-12 Hours

Admissions Standards/Procedures

Students seeking admission to the Undergraduate Certificate must meet the admissions standards established by the Undergraduate Council.

Required Courses:

CHIN 331* Advanced Chinese I
CHIN 332* Advanced Chinese II

Elective Course:

Choose 1 course from the following list

CHIN 300 A Kaleidoscope of China
CHIN 401* Contemporary Chinese Studies I
CHIN 402* Contemporary Chinese Studies II
CHIN 430 Women in China
CHIN 431 Chinese Literature and Culture
CHIN 432 Advanced Reading and Composition
CHIN 469 Gender and Sexuality in Chinese Cinema
CHIN 471* Introduction to Chinese Linguistics
CHIN 491 Chinese Foreign Study
CHIN 493 Independent Study

Non-Course Requirements

No grades below a C are acceptable for students wishing to receive this certificate.
Up to 3 credit hours may be transfer coursework.
At least 3 credit hours used to satisfy a certificate's requirements must be unique to any other credential (certificate, minor, or major) earned by the student.

*** Satisfies Volunteer Core Requirements**

Rationale* Employers in business, education, healthcare, and technology increasingly recognize the advantages of world language skills. This certificate is designed for students who would like to acquire advanced language skills but are unable to complete a language major/minor. Earning this certificate will be a clear credential on their transcript to prove their world language skills.

Non-Course Requirements

Each course must be completed with a grade of C or better. At least 6 credit hours must be taken at UT. At least 3 credit hours must be unique to this certificate and not overlap with the language requirement, another major, minor, or certificate. Applications to declare this certificate will be made through the WLC Department's Undergraduate Studies Office and reviewed by the German Program Chair. Up to 3 credit hours may be transfer coursework. At least 3 credit hours used to satisfy a certificate's requirements must be unique to any other credential (certificate, minor, or major) earned by the student.

***Satisfies Volunteer Core Requirement.**

Rationale* Employers in business, education, healthcare, and technology increasingly recognize the advantages of world language skills. This certificate is designed for students who don't have language requirements, and/or are unable to complete a language major/minor, but would like to have a clear credential on their transcript to prove their world language skills.

Financial Impact* None - courses are already offered regularly.

Impact on Other Units* none.

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No ○ No Impact

CIP Code * 16.0501

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

College of Arts and Sciences - World Languages and Cultures - Asian Studies Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* World Languages and Cultures

Program Name* Asian Studies Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Asian studies minor consists of **15 credit hours**.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Minor Requirements

The minor consists of 15 hours in Asian Studies courses; no more than 4 hours may be at the 200 level. Students are encouraged to discuss their program with the Asian Studies Advisor.

[After]

*** Meets Volunteer Core Requirement.**

Rationale*

Asian Studies is making two kinds of changes to the minor:

1. Allowing minors to count up to 4 credit hours at the 100 level toward the minor. This will allow students who are interested in Asian Studies to find the program more quickly, especially in beginning language courses.
2. Incorporating new courses in Chinese (WLC) into the minor.

Added Courses:

Section I.

- **ARAB 121**
- **ARAB 122**
- **CHIN 130**
- **CHIN 131**
- **CHIN 132**
- **CHIN 220**
- **CHIN 310**
- **CHIN 333**
- **CHIN 335**
- **CHIN 235 changed to CHIN 360. Relocated CHIN 235 to place where CHIN 360 will be**
- **JAPA 151**
- **JAPA 152**
- **KORE 111**
- **KORE 112**

Section II:

- **CHIN 310**
- **CHIN 333**
- **CHIN 335**
- **CHIN 235* changed to CHIN 360***

Financial Impact*

none

Impact on Other Units*

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Minor Requirements

The Chinese minor consists of **17 hours**.

Prerequisites:

CHIN 231 Intermediate Chinese I
CHIN 232* Intermediate Chinese II
[Right] (or equivalents)

Required Courses

Complete:

CHIN 331* Advanced Chinese I
CHIN 332* Advanced Chinese II

Choose one course:

CHIN 401* Contemporary Chinese Studies I
CHIN 402* Contemporary Chinese Studies II
CHIN 431 Chinese Literature and Culture
CHIN 432 Advanced Reading and Composition

Select two courses: (6 Credit Hours)

Any 300 or 400-level CHIN Courses

[Before]Only one course from the following may be included in the 6 hours

ARTH 413 Art of China: Neolithic Period Through the Song Dynasty
ARTH 416 Chinese Art of the 20th and 21st Centuries
HIAS 389* Pre-Modern Chinese History
HIAS 390 Modern Chinese History
POLS 454 Politics in China and Japan: Culture, Power and Competition
REST 379* Chinese Religions
[After]

***Meets Volunteer Core Requirements**

Rationale*

Instead of listing all the courses that count for the minor and having to make curricular changes whenever a new course is added, it is more efficient to just state that any 300-400 CHIN courses will count for the minor. As for courses from other departments, we will limit the number to one (3 credit hours), because we now have enough CHIN courses for students to complete their minor, and we also hope Chinese Minor students will have a more solid foundation in their language skills.

Removed specific courses (will still count in the Chinese minor) from the Choose two/6 credit hours section:

- CHIN 300 - A Kaleidoscope of China
- CHIN 401* - Contemporary Chinese Studies I
- CHIN 402* - Contemporary Chinese Studies II
- CHIN 431 - Chinese Literature and Culture
- CHIN 432 - Advanced Reading and Composition
- CHIN 471* - Introduction to Chinese Linguistics
- CHIN 491 - Chinese Foreign Study
- CHIN 493 - Independent Study

Financial Impact*

None.

Impact on Other Units*

None.

Have you consulted with all programs/departments that will be impacted by this change?*

College of Arts and Sciences - World Languages and Cultures - Conversational French Certificate

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* World Languages and Cultures

Program Name* Conversational French Certificate

Learning Outcomes

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Conversational French Certificate is designed for learners who want to build practical language skills for real-world communications. By earning this certificate, students demonstrate not only their ability to communicate in French but also their commitment to intercultural competence - a valuable asset in today's globalized job market.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On, Stand-Alone

Credit hours required

9 Credit Hours

Admissions Standards/Procedures

Students seeking admission to the Undergraduate Certificate must meet the admissions standards established by the Undergraduate Council. No grades below C are acceptable for students wishing to receive this certificate.

Required courses:

Choose one:

FREN 211 Intermediate French I
FREN 213 Intermediate French I with Business Emphasis
FREN 217 Honors: Intermediate French I
[Before]

AND

[Before] Choose one:

FREN 212* Intermediate French II
FREN 214* Intermediate French II with Business Emphasis
FREN 216* Intermediate French II with Health and Humanitarian Emphasis
FREN 218* Honors: Intermediate French II
[Before]

OR take

FREN 223* Intensive Intermediate French

Electives:

Choose three credit hours from the following list:

FREN 333* Intermediate Composition and Grammar
FREN 420 French Cinema
FREN 431* Highlights of French Civilization
[After] (if offered in English)

FREN 432 Contemporary French Culture
[After] (if offered in English)

FREN 450 Special Topics in French and Francophone Literature
[After] if offered in English

FREN 455 Special Topics in French and Francophone History and Culture
[After] if offered in English

Non-Course Requirements

Up to 3 credit hours may be transfer coursework.
At least 3 credit hours used to satisfy a certificate's requirements must be unique to any other credential (certificate, minor, or major) earned by the student.

*** Meets Volunteer Core Requirements**

Rationale*

Employers in business, education, healthcare, and technology increasingly recognize the advantages of world language skills. This certificate is designed for students who don't have language requirements, and/or are unable to complete a language major/minor, but would like to have a clear credential on their transcript to prove their world language skills.

College of Arts and Sciences - World Languages and Cultures - Global and Popular Cultural Studies Minor

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* World Languages and Cultures

Program Name* Global and Popular Cultural Studies Minor

Learning Outcomes

- Develop critical analysis skills to understand how popular culture shapes and reflects social, cultural, and historical contexts globally.
- Understand the production, marketing, and circulation of global popular cultures in the digital age.
- Apply relevant theories and methodologies.
- Reflect on the diverse impacts of mass media and individual cultural expressions on identity and society across nations and cultures.
- Research and evaluate global popular culture artifacts from both historic and contemporary viewpoints.

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Campus code*

- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The minor in Global and Popular Cultural Studies prepares students to understand and analyze the production and circulation of global popular cultures. Students learn how to engage critically with digital media, video games, music, film, and literature from a wide range of cultural and geographic contexts. The courses also introduce students to research, writing, and analysis in the humanities. Graduating students will be prepared for a growing number of careers in cultural industries, nonprofit, and educational sectors.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

ARAB 321* The Israeli-Palestinian Conflict in Literature, Film, and Popular Culture
[After]

*** Meets Volunteer Core Requirements**

Rationale*
- Increase the department's appeal and visibility beyond language majors and to other departments and colleges.
- Attract students interested in media, game culture, and global perspectives.
- Build an interdisciplinary offering that connects with Music, Africana Studies, English, and Art/Cinema Studies.
- Create a path for students to combine language learning with contemporary cultural topics.

Financial Impact* none. the courses will be offered by existing faculty. the hope is to incease enrollments in the department and college.

Impact on Other Units* none.

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No ○ No Impact

CIP Code * N/A

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

College of Arts and Sciences - World Languages and Cultures - Italian Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* World Languages and Cultures

Program Name* Italian Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Minor Requirements

The Italian minor consists of **18 hours**.

Complete:

ITAL 211 Intermediate Italian
ITAL 212* Intermediate Italian

Choose three courses:

ITAL 314* Highlights of Italian Civilization, Culture, and Identity
ITAL 315 Special topics in Italian History, Literature, and Culture
ITAL 321 A Taste of Italy: Culture and Cuisine Across Regions
ITAL 322 Italian Culture in America: Heritage, Identity, and Legacy
ITAL 341* Intermediate Grammar, Composition and Conversation
ITAL 342* Intermediate Grammar, Composition and Conversation
ITAL 400* The Italian Renaissance through Popular Culture
[Before]
ITAL 401* Dante and Medieval Culture
[Right] or

MRST 401* Dante and Medieval Culture
[Before]
ITAL 405 Topics in Italian Culture, History, and Literature
ITAL 406 Italian Language and Culture through Art
ITAL 409 Directed Readings
ITAL 410 Gender and Sexuality in Italian Literature, Media, and Culture
ITAL 412 Advanced Literary Reading and Conversation
ITAL 413 A journey through Italian novels, poems, and short stories from the Middle Ages to the Present
ITAL 414 Italian Cultural Studies
ITAL 415 History of Italian Theatre and Performance
[Before]
ITAL 422* Topics in Italian Cinema
[Right] or

CNST 422* Topics in Italian Cinema
[Before]
ITAL 423 Language and Culture for the Italian Business World
ITAL 442 Special Topics in Italian Culture
ITAL 491 Foreign Study
[Right] 1-3 Credit Hours

ITAL 493 Independent Study
[Right] 1-3 Credit Hours

Only one of the following may count toward the 12 hours:

ARTH 451* The Art of Italy, 1250-1450
[Right] or

MRST 452* The Art of Italy, 1250-1450
[After]
ARTH 452* Art of Italy, 1475-1600
[Before]
HIEU 314 Renaissance Europe
[Right] or

MRST 314 Renaissance Europe
[After]
MUTH 305* Italian Musical Styles
[Before]

[After] * Meets Volunteer Core Requirements.

Rationale*

ADD new course: ITAL 321 to list of 12 credits to choose from– A Taste of Italy: Culture and Cuisine Across Regions
Rationale: This course fosters global and interdisciplinary engagement by examining cultural identity through Italy's regional histories and culinary practices. It offers students a meaningful way to explore cultural literacy while earning credits toward the Italian major or minor. Its accessible format makes it an ideal elective for students across disciplines.

ADD new course ITAL 322 – Italian Culture in America: Heritage, Identity, and Legacy
Rationale: ITAL 322 deepens students' understanding of transnational cultural exchange and diaspora studies while aligning with UTK's commitment to inclusive and heritage-centered education. By bridging cultural history with personal inquiry, the course empowers students to engage critically with issues of identity and belonging, while fulfilling Italian program requirements.

Change: **Remove**
HIEU 320 - Contemporary Europe to the Italian minor, major and LWB requirements.
Rationale: The Italian Program is proposing to remove HIEU 320 - Contemporary Europe from the list of approved courses for the Italian minor, major, and Language & World Business (LWB) requirements. This change is necessary because HIEU 320 is no longer offered by the History Department, making it an unavailable option for students fulfilling their Italian program requirements. Removing this course will help ensure that our program curriculum remains accurate and up-to-date with currently available course offerings.
Change: **Add**
HIEU 314/MRST 314 – Renaissance Europe to the Italian minor, major and LWB requirements.
Rationale: The Italian Program proposes adding HIEU 314/MRST 314 – Renaissance Europe to the approved course list for the Italian minor, major, and Language & World Business (LWB) requirements. This course aligns closely with the Italian program's focus on Italy's historical, cultural, and intellectual contributions to the Renaissance, providing students with valuable contextual knowledge that supports their Italian studies. Additionally, HIEU 314/MRST 314 offers an interdisciplinary perspective that enriches students' understanding of the Renaissance period, making it a relevant and beneficial option for those pursuing an Italian-focused curriculum.

- Changed 12 hours section to "Select three courses" (12 Credit Hours)
- Added **MRST 452*** as a cross list to **ARTH 451***
- **Added 1-3 Credit Hours** text next to **ITAL 491** and **ITAL 493** for clarification as they are both variable and repeatable up to **15** credit hours.

Financial Impact*

*** Meets Volunteer Core Requirement.**

Rationale*

Asian Studies is making two kinds of changes to this major concentration:

1. Allowing majors to count up to 4 credit hours at the 100 level toward the major. This will allow students who are interested in Asian Studies to find the program more quickly, especially in beginning language courses.
2. Incorporating new courses in Chinese (WLC) into the major.
3. CHIN 235 is changing to CHIN 360 - moved it to the new alphanumeric location.

- No uTrack proposal was needed for this concentration as there were no changes since new courses are listed under major requirements.

Courses added:

ARAB 121, ARAB 122, CHIN 130, CHIN 131, CHIN 132, CHIN 220, CHIN 310, CHIN 333, CHIN 335, JAPA 151, JAPA 152, KORE 111, KORE 112

[After]
[After] * Meets Volunteer Core Requirement.

Rationale*

Asian Studies is making two kinds of changes to this major concentration:

1. Allowing majors to count up to 4 credit hours at the 100 level toward the major in category IV. This will allow students who are interested in Asian Studies to find the program more quickly, especially in beginning language courses.
2. Incorporating new courses in Chinese (WLC) into the major in categories II and IV.
3. CHIN 235 is changing to CHIN 360 - moved it to the new alphanumeric location.
4. No uTrack proposal was needed for this concentration as there were no changes since new courses are listed under major requirements.
5. **Courses added:**

   ARAB 121, ARAB 122, CHIN 130, CHIN 131, CHIN 132, CHIN 220, CHIN 310, CHIN 333, CHIN 335, JAPA 151, JAPA 152, KORE 111, KORE 112

Financial Impact*

none

Impact on Other Units*

none

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

REST 476* Contemporary Asia
REST 479* Seminar in East Asian Religions
[After]
*** Meets Volunteer Core Requirement.**

Rationale*

Asian Studies is making two kinds of changes to this major concentration:

1. Allowing majors to count up to 4 credit hours at the 100 level toward the major in category IV. This will allow students who are interested in Asian Studies to find the program more quickly, especially in beginning language courses.
2. Incorporating new courses in Chinese (WLC) into the major in categories III and IV.
3. CHIN 235 is changing to CHIN 360 - moved it to the new alphanumeric location.
4. No uTrack proposal was needed for this concentration as there were no changes since new courses are listed under major requirements.
5. **Courses added:**

   ARAB 121, ARAB 122, CHIN 130, CHIN 131, CHIN 132, CHIN 220, CHIN 310, CHIN 333, CHIN 335, JAPA 151, JAPA 152, KORE 111, KORE 112

Financial Impact*

none

Impact on Other Units*

none

Have you consulted with all programs/departments that will be impacted by this change?*

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College Requirements

Arts and Sciences

Major Requirements

The Italian concentration consists of **30** credit hours.

Complete:

ITAL 211 Intermediate Italian
ITAL 212* Intermediate Italian
ITAL 341* Intermediate Grammar, Composition and Conversation
ITAL 342* Intermediate Grammar, Composition and Conversation

Select 18 hours:

Choose six courses for 18 credit hours.
Only three credit hours may be counted from ITAL 419 or ITAL 493

ITAL 314* Highlights of Italian Civilization, Culture, and Identity
ITAL 315 Special topics in Italian History, Literature, and Culture
ITAL 321 A Taste of Italy: Culture and Cuisine Across Regions
ITAL 322 Italian Culture in America: Heritage, Identity, and Legacy
ITAL 400* The Italian Renaissance through Popular Culture
[Before]
ITAL 401* Dante and Medieval Culture
[Right] or

MRST 401* Dante and Medieval Culture
[After]
ITAL 405 Topics in Italian Culture, History, and Literature
ITAL 406 Italian Language and Culture through Art
ITAL 409 Directed Readings
ITAL 410 Gender and Sexuality in Italian Literature, Media, and Culture
ITAL 412 Advanced Literary Reading and Conversation
ITAL 413 A journey through Italian novels, poems, and short stories from the Middle Ages to the Present
ITAL 414 Italian Cultural Studies
ITAL 415 History of Italian Theatre and Performance
[Before]
ITAL 422* Topics in Italian Cinema
[Right] or

CNST 422* Topics in Italian Cinema
[After]
ITAL 423 Language and Culture for the Italian Business World
ITAL 442 Special Topics in Italian Culture
ITAL 491 Foreign Study
[Right] (3 Credit Hours)

ITAL 493 Independent Study
[Right] (3 Credit Hours)

Only one of the following may count toward the 18 hours:

ARTH 451* The Art of Italy, 1250-1450
ARTH 452* Art of Italy, 1475-1600
[Before]
HIEU 314 Renaissance Europe
[Right] or

MRST 314 Renaissance Europe
[After]
MUTH 305* Italian Musical Styles
[After] * Meets Volunteer Core Requirements.

Rationale*

REVISION ON MAJOR REQUIREMENT "SELECT 18": Changing the 24 credit hours for UD units to 18, as it currently is a 36 credit hour major, not the intended 30 credit hour major."

Change: Remove

HIEU 320 - Contemporary Europe to the Italian minor, major and LWB requirements.

Rationale: The Italian Program is proposing to remove *HIEU 320 - Contemporary Europe from* the list of approved courses for the Italian minor, major, and Language & World Business (LWB) requirements. This change is necessary because *HIEU 320* is no longer offered by the History Department, making it an unavailable option for students fulfilling their Italian program requirements. Removing this course will help ensure that our program curriculum remains accurate and up-to-date with currently available course offerings.

Change: Add

HIEU 314/MRST 314 – Renaissance Europe to the Italian minor, major and LWB requirements.

Rationale: The Italian Program proposes adding *HIEU 314/MRST 314 – Renaissance Europe* to the approved course list for the Italian minor, major, and Language & World Business (LWB) requirements. This course aligns closely with the Italian program's focus on Italy's historical, cultural, and intellectual contributions to the Renaissance, providing students with valuable contextual knowledge that supports their Italian studies. Additionally, *HIEU 314/MRST 314* offers an interdisciplinary perspective that enriches students' understanding of the Renaissance period, making it a relevant and beneficial option for those pursuing an Italian-focused curriculum.

ADD new course: ITAL 321 – A Taste of Italy: Culture and Cuisine Across Regions

Rationale:
This course fosters global and interdisciplinary engagement by examining cultural identity through Italy's regional histories and culinary practices. It offers students a meaningful way to explore cultural literacy while earning credits toward the Italian major or minor. Its accessible format makes it an ideal elective for students across disciplines.

ADD new course ITAL 322 – Italian Culture in America: Heritage, Identity, and Legacy

Rationale:
ITAL 322 deepens students' understanding of transnational cultural exchange and diaspora studies while aligning with UTK's commitment to inclusive and heritage-centered education. By bridging cultural history with personal inquiry, the course empowers students to engage critically with issues of identity and belonging, while fulfilling Italian program requirements.

Change: title of ITAL 406

From "Italian History through Art" to "Italian Language and Culture through Art"

Rationale: The Italian Program proposes changing the title of *ITAL 406* from "Italian History through Art" to "Italian Language and Culture through Art." This updated title better reflects the course's comprehensive focus, emphasizing not only the historical aspect but also the linguistic and cultural dimensions explored through Italian art. The new title provides a more accurate description of the course content, highlighting its interdisciplinary approach to Italian language, culture, and art history, which aligns with our program's goal of fostering well-rounded cultural and linguistic proficiency.

Added current cross listed courses:
Select Six Courses (18 Credit Hours)

- **MRST 401 (ITAL 401)**
- **CNST 422 (ITAL 422)**

Only one of the following...

- **MRST 314 (HIEU 314)**

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

*** Meets Volunteer Core Requirements.**

Rationale*

- Added **ITAL 341*** as a required course in Term 5 and **ITAL 342*** as a required course in Term 6, as they were not previously listed.
- Changed elective hours and ITAL major hours to match the reduction from 24 major credit hours to 18 credit hours, now that ITAL 341* and ITAL are listed as required courses.

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students pursuing a major in World Languages and Cultures who wish to prepare for careers in international business may complete a special concentration in Arabic, Chinese, French and Francophone Studies, German, Hispanic Studies, Italian, Japanese, Portuguese or Russian Studies. The concentration offers a professional emphasis in International Business, International Retail and Hospitality Management, *or* International Agricultural Economics, and some form of practical experience related to the concentration.

Students interested in the Language and World Business program should contact the department of World Languages and Cultures as early as possible in their college careers.

Continuing, returning, and transfer students must meet progression requirements before declaring a concentration in language and world business.

Minimum requirements for entrance and progression to the major are a 2.7 cumulative average in all courses and a 3.0 average in language courses. Students must meet these requirements for progression prior to the completion of 75 hours. WLC 199 is a requirement for the program. Program standards are adjusted periodically, and current requirements are available from the Director of the Language and World Business Program. For further information, inquire at 701 McClung Tower.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

AREC 350* The Food and Agricultural Marketing System
AREC 420 International Agricultural Trade and Marketing
ECON 311 Intermediate Microeconomics
STAT 201* Introduction to Statistics
[After]
[After] * Meets Volunteer Core Requirements.

Rationale*

1. Description reviewed to include the new department name "World Languages and Cultures" and the revised professional emphasis: International Retail and Hospitality Management.

2. Total hours for section I. Language Requirement: Chinese changed from 27 to 28 hours. Current total is listed as 27.

3. Added a new "B. Select 3 hours" (with selected 400-level courses: CHIN 401, CHIN 402, CHIN 431, CHIN 432).

4. Revised previous "B. Select 9 hours" to "C. Select 6 hours". This section was simplified by including "Any 300 or 400-level CHIN course," and specifying that only one course from the list of outside departmental courses may be included in the 6 hours for this section.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

For qualified students, the Department of World Languages and Cultures offers a five-year BA/MA program with a BA major in Language and World Business/ French and Francophone studies concentration and an MA major in French. Qualified students take 6-9 credit hours of approved graduate courses for their senior undergraduate electives which count toward both the BA and the MA degrees. This 5-Year BA/MA is a coursework only option without comprehensive exam. Qualifications for admission to the program are:

- The student must have an overall cumulative GPA of 3.00 and a cumulative GPA of 3.50 in undergraduate French and business courses.
- Conditional and full admission must be approved by the Department of World Languages & Cultures and by the Graduate School.
- Conditional admission may be granted after completion of 64 credit hours of the requirements for the BA in Language and World Business/ French and Francophone studies concentration.
- Conditional admission must be obtained before taking a graduate course that is to be used to satisfy the requirements of both the BA degree and the MA degree.
- Full admission may be granted after completion of 96 credit hours of the requirements for the BA in Language and World Business/ French and Francophone studies concentration.
- Any course taken for graduate credit, prior to satisfying all requirements for the BA degree, must be approved by the department head (or designee) and by the Graduate School.
- A student will not be eligible for a graduate assistantship until the student has satisfied all of the requirements for the BA degree.

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students pursuing a major in World Languages and Cultures who wish to prepare for careers in international business may complete a special concentration in Arabic, Chinese, French and Francophone Studies, German, Hispanic Studies, Italian, Japanese, Portuguese or Russian Studies. The concentration offers a professional emphasis in international business, international retail merchandising, or international agricultural economics, and some form of practical experience related to the concentration.

Students interested in the language and world business program should contact the department of World Languages and Cultures as early as possible in their college careers.

Continuing, returning, and transfer students must meet progression requirements before declaring a concentration in language and world business.

Minimum requirements for entrance and progression to the major are a 2.7 cumulative average in all courses and a 3.0 average in language courses. Students must meet these requirements for progression prior to the completion of 75 hours. WLC 199 is a requirement for the program. Program standards are adjusted periodically, and current requirements are available from the Director of the Language and World Business Program. For further information, inquire at 701 McClung Tower.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* World Languages and Cultures

Program Name* World Languages and Cultures Major, BA - Language and World Business/Japanese Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students pursuing a major in World Languages and Cultures who wish to prepare for careers in international business may complete a special concentration in Arabic, Chinese, French and Francophone Studies, German, Hispanic Studies, Italian, Japanese, Portuguese or Russian Studies. The concentration offers a professional emphasis in international business, international retail merchandising, or international agricultural economics, and some form of practical experience related to the concentration.

Students interested in the language and world business program should contact the department of World Languages and Cultures as early as possible in their college careers.

Continuing, returning, and transfer students must meet progression requirements before declaring a concentration in language and world business.

Minimum requirements for entrance and progression to the major are a 2.7 cumulative average in all courses and a 3.0 average in language courses. Students must meet these requirements for progression prior to the completion of 75 hours. WLC 199 is a requirement for the program. Program standards are adjusted periodically, and current requirements are available from the Director of the Language and World Business Program. For further information, inquire at 701 McClung Tower.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Prerequisites:

Complete:

RUSS 101 Elementary Russian
RUSS 102 Elementary Russian
RUSS 201 Intermediate Russian
RUSS 202* Intermediate Russian

Major Requirements

The Russian Studies concentration consists of 30 credit hours.

A. Complete:

Required Russian language courses:

RUSS 311* Russian Composition and Conversation
RUSS 312* Russian Composition and Conversation
RUSS 401 Advanced Grammar, Conversation, and Composition
RUSS 402 Advanced Grammar, Conversation, and Composition
RUSS 451 Senior Seminar

B. Complete:

Select from any of the following culture, politics, and literature courses. Only 6 credit hours can be taken at the 200 level.

RUSS 221* Rebels, Dreamers, and Fools: The Outcast in 19th Century Russian Literature
RUSS 222* Heaven or Hell: Utopias and Dystopias in 20th-Century Russian Literature
[Before]Any RUSS courses numbered 300 and above.

[Before]Or one of the following:

GEOG 461 Russia and Its Neighbors
HIEU 341 History of Modern Russia and Eastern Europe
RUSS 271* Putin's Russia and the Art of Propaganda
[Before]
[After] *Meets Volunteer Core Requirements

Rationale*

This is an update to the second part of the major "select 15 hours"

- Removed all individual RUSS Courses and replaced with a general statement of accepting all 300- and above RUSS courses.
- Added **GEOG 461** to the Elective options.
- Added **RUSS 271** to the Elective options.
- Removed **RUSS 430** from course list - previously deleted or archived

Also added a Prerequisite core includeing **RUSS 101, RUSS 102, RUSS 201, and RUSS 202** as the courses were listed as required on the 8-term plan/uTrack.

Financial Impact*

none.

Impact on Other Units*

none. geography has been contacted since we added one of their courses - see attached email.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

RUSS 325* Russian Film
RUSS 373* Despotism, Corruption, and Crime in Russian Culture
RUSS 421* Tolstoy and the Quest for the Good Life
RUSS 424* Nabokov's Novels and Stories
RUSS 453* Cultural Forms of Protest in Russia

Term 8

Engaged Inquiries Elective 6 *Credit Hours* *

[1] Electives 3 *Credit Hours*

RUSS 402 Advanced Grammar, Conversation, and Composition
[Left] Russian (major)
RUSS 451 Senior Seminar

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120-123

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.
The courses indicated meet both a Volunteer Core equirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.
Only 6 credit hours of 200-level RUSS can count in the 15 credits of elective courses.

*** Meets Volunteer Core requirement.**

Rationale*

- Removed courses **RUSS 221* and RUSS 222*** from Term 3 AH (Lit/Phil/Rel Thought) - courses became electives on the program to choose from, rather than required options.
- Removed courses **RUSS 221*, RUSS 222*, RUSS 322*, and RUSS 421*** from Term 5 WC - courses became electives on the program to choose from, rather than required options this term.
- Removed courses **RUSS 322*, RUSS 323, RUSS 324*, RUSS 325*, RUSS 373*, RUSS 421*, RUSS 424*, and RUSS 453*** from Term 7 milestones - all 300 and 400 RUSS courses are electives in the program to choose from, rather than required options in this term.
- **Changed elective credit hours in Term 1 from 0-2 to 1-2**, as lowest term total credits did not add up to 120 total credits for the major.
- **Changed elective credit hours in Term 2 from 0-2 to 1-2,** as lowest term total credits did not add up to 120 total credits for the major.
- Removed **RUSS 430** from course list - course had been previously dropped or archived.
- Added a Footnote bullet that only 6 credit hours of 200-level RUSS courses can count as an elective course (Section B Major requirements)

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) CMST 201*, CMST 207*, or CMST 266.

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments For declared Communication Studies minors, the prerequisite of CMST 201, 207, or one three-credit hour class between CMST 261-269 can be waived. Please reach out to the School of Communication Studies for registration.

Registration Restriction(s) Communication studies majors/minors or consent of instructor.

Registration Permission

Equivalency

Rationale* Faculty voted to expand options for prerequisites for Communication Studies minors. The three-credit hour class at the CMST 200 level can be taken at any point in the student's academic journey if the student is a CMST minor.

The School of Communication Studies will add additional classes between CMST 261-269 in upcoming years. For CMST majors, CMST 201, CMST 207, or any three-credit hour class between CMST 261-269 can count as a prerequisite for CMST 342.

Impact on Other Units* None.

Department (Acalog Hierarchy)* School of Information Sciences

Subject/Prefix (choose from list)* INSC

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 440

Course Title (max 100 characters)* Strategy and Practice in Modern Information Security and Cybersecurity

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Moving beyond foundational concepts, students apply theoretical knowledge to practical, organizational scenarios, gaining hands-on experience in protecting organizations from modern and complex information security and cyber threats. The course explores the full lifecycle of a security program, from proactive defense and threat intelligence to incident response and recovery, through real-world case analysis, dissecting how major incidents unfolded. It also covers the critical, non-technical aspects of the field, including information and cybersecurity governance, ensuring security practices align with business strategy and legal requirements, and critically examines the ethical and privacy implications of information security and cybersecurity work.

College of Communication and Information - Interdepartmental (CCI) - Communication and Information Exploratory Program

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Communication and Information

Department* Interdepartmental (CCI)

Program Name* Communication and Information Exploratory Program

Degree Type* Non-Degree

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The College of Communication and Information Exploratory program is designed for students who are deciding among one or more majors in the College. It allows students to explore major options as well as make progress toward graduation through the completion of general education courses. Exploratory students are required to meet with an advisor every semester.

All full-time, degree-seeking students who first entered Fall 2013 or later must transition out of the exploratory track into a major no later than the end of the fourth tracking semester. Transfer students admitted as exploratory students must transition out of the exploratory track into a major no later than the end of their second semester.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Term 1

ENGL 101* English Composition I
[After]
[After] Select one course from the following:
[After] Natural Sciences (NS) Elective **3-4** *Credit Hours* *

Quantitative Reasoning (QR) Elective **3-4** *Credit Hours* *

Social Sciences (SS) Elective **3** *Credit Hours* *

Term 2

ENGL 102* English Composition II
[Right] (or equivalent)
CCI 101 Examining the World of Communication and Information
[Before] Select one course from the following:

ADVT 250* Advertising Principles
CMST 201* Introduction to Communication Studies
INSC 201* Foundations of Information Sciences
JMED 175* Introduction to Journalism and Creative Media
PBRL 270* Public Relations Principles

Term 3

[Before] Quantitative Reasoning (QR) Elective **3-4** *Credit Hours* *

CCI 201 Examining Your Purpose in the World of Communication and Information
[Before] Select one course from the following:
ADVT 250* Advertising Principles
CMST 201* Introduction to Communication Studies
INSC 201* Foundations of Information Sciences
JMED 175* Introduction to Journalism and Creative Media
PBRL 270* Public Relations Principles

Footnotes

Students in the exploratory major should meet with an advisor each term to select courses best suited for their intended career path.

*** Meets Volunteer Core Requirements.**

Rationale* CCI 150 needed to be removed because of changes that happened last year and changed the course to be for students outside of CCI.

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This online-only degree program is designed for students interested in developing or enhancing skills for communication careers. Students will gain knowledge and skills in advertising, public relations, organizational communication, journalism and media and information sciences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

Global Citizenship - United States (GCUS) Elective **3** *Credit Hours* *

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Total Credit Hours 120

Choose from the Natural Sciences (NS) Volunteer Core list. At least one of the courses must be a 4-credit hour lab sciences.
Choose from the Quantitative Reasoning (QR) Volunteer Core list.
Choose from any courses not already required for the major.
Choose from the Volunteer Core Curriculum Requirements, Applied Arts and Humanities (AAH), Social Sciences (SS), Global Citizenship - United States (GCUS), and Global Citizenship - International (GCI) Volunteer Core lists.
Choose from the Volunteer Core Curriculum Requirements Volunteer Core list.
Select two of the three speaking-emphasis classes listed.
Choose one course from the following: Global Citizenship - United States (GCUS) and Global Citizenship - International (GCI), Volunteer Core Curriculum Requirements Volunteer Core lists.
Six hours of the same Foreign Language (Intermediate Level).
Choose from Written Communication (WC) Volunteer Core list. Sample options include ENGL 255*, or ENGL 257*, ENGL 295*, ENGL 355* or ENGL 357*, ENGL 360*, ENGL 455*; JMED 200* among others.
Choose two courses (6 hours) from advertising, advertising and public relations, communication and information, communication studies, information sciences, journalism and electronic media, and/or public relations.
Four courses (12 hours, at least 6 hours must be at the 300-400 level). These courses may be used to complete a minor or may be a combination of classes from all departments except Advertising, Advertising and Public Relations, Communication and Information, Communication Studies, Counselor Education, First Year Studies, Information Sciences, Journalism and Electronic Media, Physical Education, and Public Relations.
Select three courses from CMST 300, CMST 400, CMST 410, CMST 412, CMST 414, CMST 415, CMST 416, CMST 419, CMST 426, CMST 429, CMST 442, CMST 444, CMST 446, CMST 449, and CMST 491. No more than 3 hours each of CMST 300 and CMST 491 may be counted toward the major; additional hours beyond the required 9 hours may be counted as College Electives or Unrestricted Electives.
Choose from the Engaged Inquiries (EI) Volunteer Core list. If CMST 201 or CMST 207 is taken, students may use that course for three hours of EI.

* Meets Volunteer Core Requirements.

Rationale* CMST 201, 207, and 266 are approved Social Sciences classes and will fulfill three hours of the Expanded Perspectives requirement.

Faculty voted to expand introductory course options, so we needed to build in three hours of Engaged Inquiry in case students took CMST 266 rather than CMST 201 or CMST 207

Financial Impact* None.

Impact on Other Units* Limited impact. Students can choose whichever class they want to fulfill the Engaged Inquiry Elective.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The School of Communication Studies offers an honors program that provides a rewarding educational experience for exceptional students. All students must complete CMST 201* or CMST 207*; CMST 210* or CMST 217*, CMST 240* or CMST 247*; CMST 250, and/or CMST 266. After completing these required courses with a cumulative GPA of 3.5, students are eligible to apply for admission to the communication studies honors program. To graduate with honors, students must maintain a 3.5 cumulative GPA in all courses in the major and a 3.25 cumulative GPA in all university courses.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Footnotes

Select two science courses (7 hours) from the Natural Sciences (NS) Volunteer Core list. At least one of the courses must have a laboratory.
Chosen from the Quantitative Reasoning (QR) Volunteer Core list.
Choose from any courses not already required for the major.
Choose from the Arts and Humanities (AH), Applied Arts and Humanities (AAH), Social Sciences (SS), Global Citizenship - United States (GCUS), and Global Citizenship - International (GCI) Volunteer Core lists.
Choose from the Arts and Humanities (AH) Volunteer Core list.
Six hours of the same intermediate foreign language

Six hours of the same intermediate foreign language.

Choose from Written Communication (WC) Volunteer Core list. Sample options include ENGL 255* ,ENGL 257*, ENGL 295*, ENGL 355*, ENGL 357*, ENGL 360*, ENGL 455*; JMED 200*, among others.
Choose one course from the following: Global Citizenship - United States (GCUS) and Global Citizenship - International (GCI) Volunteer Core lists.
Two courses (6 hours) chosen from advertising, advertising and public relations, communication and information, communication studies, information sciences, journalism and electronic media, and/or public relations. CMST 392 may be counted toward this requirement.
Two courses (6 hours taken at the 300-400 level). These courses may be used to complete a minor or may be a combination of classes from all departments except Advertising, Advertising and Public Relations, Communication and Information, Communication Studies, Counselor Education, First Year Studies, Information Sciences, Journalism and Electronic Media, Physical Education, and Public Relations.
Choose from the Engaged Inquiries (EI) Volunteer Core list. If CMST 201 or CMST 207 is taken, students may use that course for three hours of EI.

* Meets Volunteer Core Requirements.

Rationale*

CMST 201, 207, and 266 are approved Social Sciences classes and will fulfill three hours of the Expanded Perspectives requirement.

Faculty voted to expand introductory course options. We therefore needed to build in three hours of Engaged Inquiry in case students take CMST 266 rather than CMST 201 or CMST 207. Students can take either CMST 201, CMST 207, CMST 266, or another three-credit hour CMST class between CMST 261-269 as their introductory course into the major. The School will add additional classes between CMST 261-269 in future years.

Financial Impact*

None.

Impact on Other Units*

Limited impact. Students can choose whichever class they want to fulfill the Engaged Inquiry Elective.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Communication and Information

Department* School of Communication Studies

Program Name* Communication Studies Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- ☐ Program Name
- ☐ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)
- ☐ Certificate Type
- ☐ Other (include in Rationale)

Requirements*

Campus: Knoxville, Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

Minor Requirements

The minor consists of 15 hours. CMST 392, CMST 491, and CMST 493 do not count toward the minor.

Select one three-credit hour CMST 200-level course (excludes CMST 260).

Complete:

CMST 312 Survey of Interpersonal Communication
CMST 342 Survey of Organizational Communication

Select 6 hours:

any 400-level CMST electives

***Satisfies Volunteer Core Requirements**

Rationale* The Communication Studies faculty voted to update the minor to make it more accessible to students. The minor will be offered to Distance Education students as well as residential students.

Financial Impact* No financial impact on other units is anticipated. The updated minor uses current courses in the School of Communication Studies already taught.

Impact on Other Units* No financial impact on other units is anticipated. The updated minor uses current courses in the School of Communication Studies already taught.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ○ New major name and keeping the same CIP code

CIP Code* N/A

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Communication and Information

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This distance education only concentration is designed for students interested in careers in computer, information, and communications technology and desire an asynchronous online modality. Information sciences concerns the ethics and impact of data, information, and technology on individuals, organizations, and society. Students will gain knowledge and skills in information management, user experience research and user-centered design, database development and implementation, and data visualization.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Information Security and Cybersecurity concentration is designed for students interested in careers in cybersecurity with an emphasis on information and data integrity and security. This concentration provides students with the knowledge and skills necessary to understand cybersecurity's conceptual, practical, theoretical, and policy underpinnings in the context of information and data life cycles. The program will prepare students to apply their knowledge and skills to assess and recognize evolving security vulnerabilities, threats, attacks, and risks to information and data; implement effective policies and governance frameworks; and manage their implementations to mitigate the threats to ensure information and data integrity.

The program and courses in the curriculum will cover topics including information and data security applications, ethics, privacy, accountability, bias, copyright and intellectual property, defamation, confidential information, electronic communication, compliance, audit, legal issues related to privacy and security, and advanced topics such as cybersecurity tools and controls (administrative, physical, and technical), unauthorized access, encryption/decryption, authentication, anonymity, ethical hacking, and security and risk analysis.

Footnotes

Select courses from the Volunteer Core list.

Select two courses from the Volunteer Core list. At least one of the courses must have a laboratory.

Select three courses from the Volunteer Core list from at least two subject areas.

Any courses not already required for the major.

Two courses chosen from advertising, advertising and public relations, communication and information, communication studies, journalism and electronic media, and/or public relations.

INSC courses not already required for the major. Students may elect to take DATA 102* as an INSC elective.

* Meets Volunteer Core Requirements.

Rationale* Both INSC 201 and INSC 210 now satisfy the Social Sciences requirement for the VOL Core Curriculum and fulfill the expanded perspectives requirement. Allowing 6 hours of unrestricted electives offers more flexibility for students in scheduling and degree planning.

Financial Impact* No impact

Impact on Other Units* No impact

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Communication and Information

Department* School of Journalism and Media

Program Name* Journalism and Media Major, BS in Communication - Creative Media Concentration

Degree Type* Bachelor of Science in Communication

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This concentration is designed for students interested in creative writing, producing, and directing for the entertainment world, including for television broadcasting and digital media. The School of Journalism and Media maintains relationships with major entertainment media companies that offer excellent opportunities to our students.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

College of Communication and Information - Tombras School of Advertising and Public Relations - Advertising and Public Relations Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Communication and Information

Department* Tombras School of Advertising and Public Relations

Program Name* Advertising and Public Relations Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description To earn a minor in Advertising and Public Relations, students must complete the **15 hours** as described below.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Complete 6 Hours:

ADVT 250* Advertising Principles
PBRL 270* Public Relations Principles

Complete 9 Hours:

ADPR 216 Special Topics in Advertising and Public Relations
ADPR 265* Communicating in a Diverse and Global Society
ADPR 316 Special Topics in Advertising and Public Relations
ADPR 365 Social Media Strategy
ADPR 375 Integrating Communication Channels
ADPR 415 Social Media Analytics
ADPR 416 Special Topics in Advertising and Public Relations
PBRL 400 Ethical and Legal Issues in Public Relations
PBRL 430 Crisis Communication
[After]

*** Meets Volunteer Core Requirements.**

Rationale* Faculty voted to remove CCI 150 from the list of required courses and electives to provide students with more options of electives focused on advertising and public relations topics, changed required course hours to 6 and electives to 9, and removed ADVT 480 from the electives list as this course requires a pre-requisite that many students in the minor have not taken and prevents them from registering in the course.

Financial Impact* No financial impact on other units is anticipated. Current Tombras School of Advertising and Public Relations faculty will teach the courses.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Registration Restriction(s) **Registration Permission**

Equivalency

Rationale* This course is the first of three intended for a new distance education undergraduate certificate in addiction counseling that meets educational standards for the TN Level 1 Licensed Alcohol and Drug Abuse Counselor (LADAC).

This fully online course provides a comprehensive introduction to the field of addiction counseling, exploring the complex nature of substance use disorders and behavioral addictions. Through interactive online modules, discussion forums, and individual assignments, students gain foundational knowledge about addiction theories, assessment techniques, treatment approaches, and the social, cultural, and systemic factors that influence addiction and recovery. The knowledge and skills they develop in this course will provide essential preparation for understanding how addiction affects individuals, families, and communities.

Impact on Other Units* There is not an equivalent existing course.

Financial Impact* The course has potential for positive financial impact as we expect demand will outweigh costs; the department has financial reserves necessary to cover initial investment.

Equivalency

Rationale* This course is the third of three intended for a new distance education undergraduate certificate in addiction counseling that meets educational standards for the TN Level 1 Licensed Alcohol and Drug Abuse Counselor (LADAC). It was developed based on research and extensive collaboration with community partners in TN and funded by a Grand Challenges grant.

This fully online course provides specialized training in understanding and treating substance use disorders within rural communities. Through interactive online modules, discussion forums, and practical assignments based on real-world case studies from rural Tennessee providers, students will develop essential competencies for addressing the unique challenges and strengths of rural addiction treatment. Drawing from extensive qualitative research with rural addiction treatment providers, this course bridges the critical gap between general addiction counseling knowledge and the specialized skills needed to effectively serve rural populations.

Impact on Other Units* There is not an equivalent existing course

Financial Impact* The course has potential for positive financial impact as we expect demand will outweigh costs; the department has financial reserves necessary to cover initial investment.

College of Education, Health, and Human Sciences - Counseling, Human Development, and Family Science - Addiction Counseling Certificate

2026-2027 UG Add Program

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Counseling, Human Development, and Family Science

Program Name* Addiction Counseling Certificate

Learning Outcomes

1. Integrate knowledge of addiction etiology, neurobiology, and pharmacology to explain the development, progression, and treatment of substance use disorders
2. Apply evidence-based assessment, diagnosis, and treatment planning strategies that incorporate both pharmacological and psychosocial interventions tailored to individual client needs.
3. Evaluate the influence of cultural, social, ethical, and systemic factors—including those unique to rural contexts—on addiction, treatment engagement, and recovery outcomes.
4. Develop and adapt community-informed interventions that leverage harm reduction, recovery supports, and collaborative networks to reduce barriers to care and sustain recovery.
5. Demonstrate professional competence and ethical decision-making consistent with addiction counseling standards, with attention to client welfare, provider sustainability, and community impact.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*

- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The addiction counseling undergraduate certificate program prepares learners for engagement as a Level 1 Licensed Alcohol and Drug Abuse Counselor (LADAC). The certificate includes 270 content hours across three sequential courses that directly map to eight required LADAC competency domains including assessment, treatment planning, pharmacology, and specialized populations. The rural focus addresses an underserved specialty area not covered in existing programs.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville, Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

Undergraduate Certificate Type: Add-On, Stand-Alone

Addiction Counseling Certificate

COUN 240 Foundations of Addiction
COUN 241 Psychopharmacology of Addictions
COUN 242 Rural Addictions

Rationale*

The addiction counseling undergraduate certificate program prepares learners for engagement as a Level 1 Licensed Alcohol and Drug Abuse Counselor (LADAC). The certificate includes 270 content hours across three sequential courses that directly map to eight required LADAC competency domains including assessment, treatment planning, pharmacology, and specialized populations. The rural focus addresses an underserved specialty area not covered in existing programs.

The sequential structure of this certificate program builds from foundational knowledge (COUN 240) through specialized pharmacology (COUN 241) to applied rural contexts (COUN 242). Each course includes substantial applied components and real-world case studies. The online delivery model is designed to serve both traditional students and working professionals. Our program is built on extensive qualitative research with rural addiction treatment providers across Tennessee, making it evidence-based and responsive to actual field needs.

The certificate addresses a critical workforce development gap identified in national and state-level addiction treatment reports. The United States faces a severe shortage of addiction treatment providers that significantly hampers responses to the ongoing opioid and substance use crisis. Only 18% of individuals with opioid use disorder receive evidence-based treatment, with provider shortages being a primary barrier to expanding access (McNeely et al., 2021). The mental health and addiction workforce has been chronically plagued by shortages, high turnover, lack of diversity, and effectiveness concerns (Hoge et al., 2013). Recent surveys confirm that addiction medicine continues to be challenged by specialist shortages and care complexity (Alvanzo & Jarvis, 2023). These workforce deficits impede the treatment system's ability to meet rising demand, particularly as overdose deaths increase among populations of color (Paradise & Wakeman, 2023). Addressing this crisis requires a multipronged approach, which includes federal and state programs to grow and diversify the provider pipeline, enhanced medical education initiatives, structural reforms integrating addiction treatment into mainstream care, and new treatment models like telehealth (McNeely et al., 2021; Hoge et al., 2013).

This certificate is customized to the unique needs of Tennessee. Despite 19.2% of Tennesseans aged 12 or older requiring substance misuse treatment, 71% receive no assistance (SAMHSA, 2022). Tennessee had an opioid dispensing rate of 61.5 per 100 persons in 2022, placing it in the highest category nationally (CDC, 2023). Likewise, Tennessee ranked 2nd highest in the nation for fatal overdose rates at 52.8 per 100,000 people in 2023.

Rural Tennessee areas face disproportionate loss of hospitals and lack of specialized addiction services, with recent needs assessment highlighting pressing demand for more addiction support in rural TN areas (TDMHSAS, 2023). East Tennessee shows the highest overdose mortality rates among the state's three grand divisions, with age-adjusted rates reaching approximately 70 per 100,000 Tennesseans in 2023 (TDOH,2025).

Taken together, these data underscore the urgency of preparing an addiction counseling workforce equipped to meet Tennessee's escalating needs. The Addiction Counseling Certificate directly responds to this crisis by expanding access to high-quality, evidence-based education that can be completed flexibly by those already working or seeking to enter the behavioral health field. By focusing on rural practice, the program aligns with Tennessee's most acute workforce shortages and contributes to the broader public health goal of reducing preventable overdose deaths through expanded access to care. In doing so, the certificate not only fills a critical pipeline gap but also advances the state's strategic efforts to strengthen behavioral health infrastructure and improve treatment outcomes.

Financial Impact*

The certificate has potential for positive financial impact as we expect demand will outweigh costs; the department has financial reserves necessary to cover initial investment. In addition, the certificate is closely aligned to state and federal funding priorities given the focus on underserved rural populations, positioning the university to seek workforce development funding that would support Tennesseeans in accessing the certificate.

Impact on Other Units*

We are not aware of any other units impacted by this proposal.

College of Education, Health, and Human Sciences - Counseling, Human Development, and Family Science - Addiction Counseling Minor

2026-2027 UG Add Program

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Counseling, Human Development, and Family Science

Program Name* Addiction Counseling Minor

Learning Outcomes

1. Integrate knowledge of addiction etiology, neurobiology, and pharmacology to explain the development, progression, and treatment of substance use disorders
2. Apply evidence-based assessment, diagnosis, and treatment planning strategies that incorporate both pharmacological and psychosocial interventions tailored to individual client needs.
3. Evaluate the influence of cultural, social, ethical, and systemic factors—including those unique to rural contexts—on addiction, treatment engagement, and recovery outcomes.
4. Develop and adapt community-informed interventions that leverage harm reduction, recovery supports, and collaborative networks to reduce barriers to care and sustain recovery.
5. Demonstrate professional competence and ethical decision-making consistent with addiction counseling standards, with attention to client welfare, provider sustainability, and community impact.

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Addiction Counseling Minor

COUN 240 Foundations of Addiction
COUN 241 Psychopharmacology of Addictions
COUN 242 Rural Addictions
COUN 480* Skills for Counseling
[Before]*Satisfies Volunteer Core Requirements

Rationale*

The addiction counseling undergraduate minor prepares learners for engagement as a Level 1 Licensed Alcohol and Drug Abuse Counselor (LADAC). The minor includes dedicated coursework in gcounseling skills alongside three sequential courses (270 content hours) that directly map to eight required LADAC competency domains including assessment, treatment planning, pharmacology, and specialized populations. The rural focus addresses an underserved specialty area not covered in existing programs.

The sequential structure of this minor builds from foundational knowledge (COUN 240) through specialized pharmacology (COUN 241) to applied rural contexts (COUN 242). Each course includes substantial applied components and real-world case studies, and students receive hands-on instruction in skill applications via COUN 480. The delivery model is designed to serve both traditional students and working professionals. Our program is built on extensive qualitative research with rural addiction treatment providers across Tennessee, making it evidence-based and responsive to actual field needs.

The minor addresses a critical workforce development gap identified in national and state-level addiction treatment reports. The United States faces a severe shortage of addiction treatment providers that significantly hampers responses to the ongoing opioid and substance use crisis. Only 18% of individuals with opioid use disorder receive evidence-based treatment, with provider shortages being a primary barrier to expanding access (McNeely et al., 2021). The mental health and addiction workforce has been chronically plagued by shortages, high turnover, lack of diversity, and effectiveness concerns (Hoge et al., 2013). Recent surveys confirm that addiction medicine continues to be challenged by specialist shortages and care complexity (Alvanzo & Jarvis, 2023). These workforce deficits impede the treatment system's ability to meet rising demand, particularly as overdose deaths increase among populations of color (Paradise & Wakeman, 2023). Addressing this crisis requires a multipronged approach, which includes federal and state programs to grow and diversify the provider pipeline, enhanced medical education initiatives, structural reforms integrating addiction treatment into mainstream care, and new treatment models like telehealth (McNeely et al., 2021; Hoge et al., 2013).

This minor is customized to the unique needs of Tennessee. Despite 19.2% of Tennesseans aged 12 or older requiring substance misuse treatment, 71% receive no assistance (SAMHSA, 2022). Tennessee had an opioid dispensing rate of 61.5 per 100 persons in 2022, placing it in the highest category nationally (CDC, 2023). Likewise, Tennessee ranked 2nd highest in the nation for fatal overdose rates at 52.8 per 100,000 people in 2023.

Rural Tennessee areas face disproportionate loss of hospitals and lack of specialized addiction services, with recent needs assessment highlighting pressing demand for more addiction support in rural TN areas (TDMHSAS, 2023). East Tennessee shows the highest overdose mortality rates among the state's three grand divisions, with age-adjusted rates reaching approximately 70 per 100,000 Tennesseans in 2023 (TDOH,2025).

Taken together, these data underscore the urgency of preparing an addiction counseling workforce equipped to meet Tennessee's escalating needs. The Addiction Counseling minor directly responds to this crisis by expanding access to high-quality, evidence-based education that can be completed by traditional and nontraditional students alike. By focusing on rural practice, the program aligns with Tennessee's most acute workforce shortages and contributes to the broader public health goal of reducing preventable overdose deaths through expanded access to care. In doing so, the certificate not only fills a critical pipeline gap but also advances the state's strategic efforts to strengthen behavioral health infrastructure and improve treatment outcomes.

Financial Impact*

The minor has potential for positive financial impact as we expect demand will outweigh costs; the department has financial reserves necessary to cover initial investment. In addition, the minor is closely aligned to state and federal funding priorities given the focus on underserved rural populations, positioning the university to seek workforce development funding that would support Tennesseeans in accessing the coursework.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The 5-year accelerated BS/MS program is designed for highly motivated and academically outstanding Human Development and Family Science (HDFS) majors who invested in understanding, analyzing, and applying developmental and family science to promote optimal development and holistic well-being throughout the lifespan.

This program offers students the opportunity to earn both a Bachelor of Science (BS) degree with a major in HDFS and a Master of Science (MS) degree in HDFS (practicum option with comprehensive examination) within a five-year timeframe. The program is designed to provide students with the knowledge and skills needed to translate and apply basic and applied research and theory through community engagement, family life education, prevention and intervention sciences, and public policy advocacy.

The core component of this program is that qualified students can apply up to 9 credit hours of graduate courses toward both their undergraduate and graduate degrees. This accelerates students' academic and professional journeys and enhances their marketability after graduate school.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Eligibility

The accelerated program is available to any student pursuing a BS in Health and Human Sciences with a major in Human Development and Family Science. Eligible candidates for conditional admission must: (1) be declared as an HDFS Major, (2) have a minimum overall UT, (3) have a minimum overall GPA of 3.3 in all HDFS courses, and (4) complete HDFS 210, 211, or 213; HDFS 220; and at least one 300- or 400-level HDFS course with at least a B grade.

Full admission to the accelerated program may be granted after the competion of: (1) 90 hours of required coursework for the BS with a minimum UT of 3.3, (2) at least 24 hours of HDFS coursework with a minimum GPA of 3.3, and (3) a grade of B or higher in in-progress or completed HDFS graduate courses.

Application and Admission Process

The application and admission process is a two-step process:

(Spring of Junior Year) Submit Application to the Accelerated Program available on the CHDFS website or through the department office. Applications are due March 1 with notification of conditional acceptance by April 1. Note that acceptance into the accelerated program does not guarantee admission to the Graduate School or to the MS program.

(Fall of Senior Year) Submit formal Application to the MS in HDFS via standard Graduate School application procedures. Accelerated students may apply for summer or fall admission. Before selecting summer or fall admission, students should review the course offerings schedule and consult the HDFS Graduate Program Director to verify that a curricular pathway fits the desired timeline. We recommend consulting OneStop to ensure the curricular pathway is financially feasible. Refer to OneStop for Graduate Tuition and Fee schedule.

Approved Graduate Courses for Seniors

Students may use the "Senior Requesting Graduate Credit" process to complete up to 9 hours of graduate coursework that applies to both the undergraduate degree and the MS in HDFS. Approved graduate courses in HDFS include:

HDFS 510 - Theories in Human Development **3** *credit hours*
HDFS 550 - Theories in Family Science **3** *credit hours*
HDFS 552 - Diversity in Children and Families **3** *credit hours*
Another HDFS graduate course approved by the program **3** *credit hours*

Term 7

HDFS 405* Development of Professional Skills
HDFS 440 Family Life and Parent Education
COUN 480* Skills for Counseling
HDFS 485 Current Topics in Human Development and Family Science
[After] One approved graduate course in HDFS:

HDFS 510 Theories in Human Development

HDFS 550 Theories in Family Science

HDFS 552 Diversity in Children and Families

Another HDFS graduate course approved by the program

Credit Hours 15

Term 7 Milestone Notes

Term 8

[2] **Unrestricted Elective 3** *Credit Hours*

[Before]5 Select one course:
HDFS 480N Internship in Human Development and Family Science
[Right] (6 hours)
HDFS 490 Internship: Research in Human Development and Family Science
[Right] (6 hours)
[Before]Select one or two approved graduate courses in HDFS:

HDFS 510 Theories in Human Development

HDFS 550 Theories in Family Science

HDFS 552 Diversity in Children and Families

Another HDFS graduate course approved by the program

Credit Hours 15

Term 8 Milestone Notes

No milestones.

Total Credit Hours 120-121

Footnotes

Chosen from Volunteer Core list. At least one of the natural sciences electives must have a laboratory.

At least 48 hours in 300-500 level courses are required.

Advanced Social Science Electives: Students must complete 15 credit hours of upper division (300-400 level) coursework or 500 level coursework (using the "Senior Requesting Graduate Credit" process) in anthropology, Africana studies, communication studies, counselor education, educational psychology, history, human development and family science, Latin American and Caribbean studies, political science, psychology, public health, recreation and sport management, social work, sociology, and/or women, gender, and sexuality studies. A course may not be used to fulfill any other elective requirement. Check the Undergraduate Catalog for any prerequisites required for these courses.

Meets Written Communication and Applied Oral Communication requirements.

HDFS 480N and HDFS 490 require a cumulative GPA of 2.5; completion of all prerequisites enforced by the registration system; completion of at least 30 hours of HDFS credit; a minimum grade of C in all CFS/HDFS and COUN courses required for degree; completed application; student conduct and criminal background clearance. At the time of enrollment in HDFS 480N, students should have no more than 15 credits remaining for degree completion. HDFS 480N is typically completed in one semester but may be completed in two semesters by advisement. HDFS 490 may be completed over one or two semesters.

Degree completion requires C or better in all required HDFS and COUN coursework.

*** Meets Volunteer Core Requirements.**

Rationale* The accelerated BS/MS option in HDFS allows students to leverage senior privilege to complete 9 credit hours of graduate-level HDFS coursework in lieu of 9 credit hours of advanced social science electives required for the HDFS major. This creates an expedited pathway in which it is possible for students to complete the MS in HDFS in as little as one year, thus reducing time and cost burden while allowing specialized study in HDFS.

Financial Impact* We believe the accelerated pathway will reduce opportunity cost for students, thus incentivizing enrollment in the MS graduate courses and program. Currently, the 9 credit hours of advanced social science electives are broadly defined (vs. selected from an approved list), with students taking these electives from a broad range of units on campus. We anticipate that up to five students per year will select the accelerated pathway for a total of 45 credit hours potential impacted. Although we are not able to forecast a specific financial impact related to lost enrollments, we expect the unit-level impacts to be minimal.

Impact on Other Units* As noted above, the only impacts on other units may be a very small number of lost course enrollments from the handful of students who select the accelerated option rather than complete advanced social science electives from a broad range of other departments in their senior year.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

CIP Code * 19.0701

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Description

The 5-year accelerated BS/MS program is designed for highly motivated and academically outstanding Human Development and Family Science (HDFS) minors who are committed to understanding, analyzing, and applying developmental and family science to promote optimal development and holistic well-being throughout the lifespan.

This program offers students the opportunity to earn a bachelor's degree with a minor in HDFS and a Master of Science (MS) degree in HDFS (practicum option with comprehensive exam). The program is designed to provide students with the knowledge and skills needed to translate and apply basic and applied research and theory through community engagement, family life education, prevention and intervention sciences, and public policy advocacy.

The core component of this program is that qualified students can apply up to 9 credit hours of graduate courses toward both their undergraduate and graduate degrees. This accelerates students' academic and professional journeys and enhances their marketability after graduate school.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Eligibility

The accelerated program is available to any student pursuing an undergraduate degree at the university with a minor in Human Development and Family Science. To be eligible for conditional admission, students must: (1) be declared as an HDFS Minor, (2) have a minimum UT GPA of 3.3, (3) have a minimum overall GPA of 3.3 in all HDFS courses, and (4) complete HDFS 210, 211, 213; HDFS 220; and at least one 300- or 400-level HDFS course with at least a B grade.

Full admission to the program may be granted after: (1) completion of 90 hours of required coursework for the bachelor's degree with a minimum UT GPA of 3.3, (2) completion of at least 15 hours of HDFS courses with a minimum GPA of 3.3, and (3) an earned grade of B or higher in in-progress or completed HDFS graduate courses.

Application and Admission Process

The application and admission process is a two-step process:

(Spring of Junior Year) Submit Application to the Accelerated Program available on the CHDFS website or through the department office. Applications are due March 1 with notification of conditional acceptance by April 1. Note that acceptance into the accelerated program does not guarantee admission to the Graduate School or to the MS program.
(Fall of Senior Year) Submit formal Application to the MS in HDFS - Applied Concentration via standard Graduate School application procedures. Accelerated students may apply for summer or fall admission. Before selecting summer or fall admission, students should review the course offerings schedule and consult the HDFS Graduate Program Director to verify that a curricular pathway fits the desired timeline. We recommend consulting OneStop to ensure the curricular pathway is financially feasible. Refer to OneStop for Graduate Tuition and Fee schedule.

Approved Graduate Courses for Seniors

Students may use the "Senior Requesting Graduate Credit" process to complete up to 9 hours of graduate coursework that applies to both the undergraduate degree and the MS in HDFS. Approved graduate courses in HDFS include:

HDFS 510 - Theories in Human Development 3 *credit hours*
HDFS 550 - Theories in Family Science 3 *credit hours*
HDFS 552 - Diversity in Children and Families 3 *credit hours*
Another HDFS graduate course approved by the program 3 *credit hours*

Rationale*

The accelerated option allows HDFS undergraduate minors who intend to pursue the MS in HDFS to leverage senior privilege to complete 9 credit hours of graduate-level HDFS coursework to satisfy disciplinary elective requirements in the student's bachelor's degree program. This creates an expedited pathway in which it is possible for students to complete the MS in HDFS in as little as three semesters, thus reducing time and cost burden while allowing specialized study of HDFS.

Financial Impact*

We believe the accelerated pathway will reduce opportunity cost for students, thus incentivizing enrollment in the MS graduate courses and program. Currently, the 9 credit hours of disciplinary electives are broadly defined, with students taking these electives from a broad range of units on campus. We anticipate that up to three minors per year will select the accelerated pathway for a total of 27 credit hours potential impacted. Although we are not able to forecast a specific financial impact related to lost enrollments, we expect the unit-level impacts to be minimal.

Impact on Other Units*

As noted above, the only impacts on other units may be a very small number of lost course enrollments from the handful of students who select the accelerated option rather than complete disciplinary electives from a broad range of other departments in their senior year.

Course Description This course is designed to prepare students for a successful and meaningful field experience in their field of study. Through weekly sessions, students will explore professional expectations, clarify personal goals, and learn practical skills needed to thrive in their practicums and internships. Topics include, but are not limited to, site search strategies, resume building, ethics and legal considerations, documentation requirements, communication, and workplace professionalism. Students will also receive training on systems such as Typhon and review program-specific requirements. By the end of the course, students will be well-equipped to engage in their field experience with confidence and intentionality.

Statement about Crosslistings:

Equivalency

Rationale* The *Professional Preparation for Field Experience in KRSS* course is designed to ensure students are well-prepared for field-based learning by offering structured, intentional preparation before entering professional internship settings. As internships increasingly serve as gateways to employment and graduate study, it's critical that students approach these experiences with professionalism, confidence, and a clear understanding of expectations.

This course also addresses a key gap in students' transition from the classroom to the field. While many students are eager to gain hands-on experience, they often lack guidance on how to navigate workplace dynamics, advocate for themselves, or recognize when something isn't right. This course helps students understand both their responsibilities and their rights, and what is and is not acceptable in a professional setting. It includes guidance on identifying red flags in potential sites and strategies for addressing concerns respectfully and effectively. In doing so, the course supports student well-being, enhances their success, and strengthens relationships with internship partners.

Several other academic units across campus (e.g., Social Work, Haslam College of Business) already utilize zero-credit internship prep courses to maintain program quality and improve site partnerships. Adopting this model will align our department with proven best practices and meet a growing need for early, structured engagement with our students.

College of Education, Health, and Human Sciences - Kinesiology, Recreation, and Sport Studies - Sport Management Major, BS

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Education, Health, and Human Sciences

Department* Kinesiology, Recreation, and Sport Studies

Program Name* Sport Management Major, BS

Degree Type* Bachelor of Science

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Sport Management major prepares students interested in working in the sport industry. The program combines the sport management curriculum with a minor in business administration. The program concludes with a semester-long internship experience.

Major Requirements and Rules

Advising Transition

Academic advising for freshmen, sophomores, and transfer students in the Sport Management major occurs in the College of Education, Health, and Human Sciences (CEHHS) Office of Advising and Student Services (BEC 332). If you have not been advised by anyone in CEHHS Advising before, please visit their website for more information about scheduling an appointment with their office. The KRSS Advising Staff is not able to review a student's academic history if they are not currently a Sport Management major.

A student will transition from CEHHS Advising to KRSS Department Advising after he/she completes the following:

- Maintains a minimum UT GPA of 2.5 after a minimum of 30 hours of coursework
- Completion of RSM 250 with a grade of C or better
- Successful completion of ENGL 101* and ENGL 102*, and one Quantitative Reasoning Elective

At the end of each semester, staff of the CEHHS Office of Advising and Student Services will compile a list of students ready to change to departmental advising. Students will be emailed an advising transition letter with the name and contact information of their new department advisor. Students will then be responsible for scheduling a meeting with their new advisor to complete this transition. Scheduling with KRSS Advisors should be done via email by contacting your new advisor directly.

Minimum Grades and Required GPA for Continuation in the Major

Any Recreation and Sport Management course taken must be passed with a minimum grade of C. A 2.5 GPA is required to register for RSM 290N*, RSM 390N*, and RSM 490N and to graduate.

Transfer Coursework

The Sport Management major has six (6) Sport Management required classes and four (4) Sport Management elective classes in the curriculum in addition to the practicum and internship requirements. A maximum of four Sport Management classes will be accepted for transfer credit in the major. The Recreation & Sport Management Curriculum Committee will determine which classes will be accepted for transfer credit and for which classes in which they can be substituted.

A substitution for RSM 290N – Sport Management Practicum I can be considered as well. The Recreation & Sport Management Curriculum Committee will determine if the requested class meets the minimum requirements of work hours, supervision, and evaluation as well as other aspects of the class. This would count as one of the four transfer classes allowed if accepted. Substitutions are not allowed for RSM 390N – Sport Management Practicum II or RSM 490N – Sport Management Internship.

College of Education, Health and Human Sciences Honors Program

Recreation and Sport Management majors have the opportunity to participate in the college's honors program. For eligibility and requirements, see College of Education, Health and Human Sciences Honors program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Select courses from the Volunteer Core* list. At least one natural science course must have a lab.
Select any course not already required for the major.
Business administration minor requirement.
Requires advancement into the recreation and sport management major.
May choose from RSM 330, RSM 337, RSM 338, RSM 355, RSM 360, RSM 370, RSM 380 (class focus must be sport management), RSM 381, RSM 382, RSM 410, RSM 415, RSM 460. All courses except RSM 338 and RSM 370 require advancement into the recreation and sport management major.

Note - Course seating priority will be given to majors first and then minors.

*** Meets Volunteer Core Requirements.**

Rationale*

1. Added note about transfer coursework in description as we have seen an increase in requests to count transfer coursework for students who have taken a substantial number of sport management classes already. Faculty would like to be accommodating to those students, but also want students to have more than half of the sport management coursework be from UT if they are earning their degree from UT.

2. Removed footnote 4 from business minor classes in showcase/schema (MARK 300, MGT 300, & FINC 300), as that footnote does not apply to business minor classes.

3. Changed footnote on Recreation & Sport Management electives in Terms 4, 5, & 7 to footnote 5, as that is the correct footnote for those courses. (There is not a footnote 6.)

4. Removed footnotes from RSM 350 and RSM 390N in Term 6 and RSM 490N in Term 8. Footnote was incorrect and no footnote is needed for those courses.

5. RSM 355 added to footnote 5, as it is intended to count as an RSM elective. Please link to the course description.

6. RSM 381, which was a new course proposed prior to last UGCRC meeting, added to footnote 5, as it is intended to count as an RSM elective. (If it is too early to request this edit, please let me know.) Please link to the course description once added.

7. Added ENGL 142 to term 3 as an option for an OC for students in this program.

8. Added ECON 213 to term 3 as an option for meeting this business minor and Vol Core requirement. Haslam COB has been accepting ECON 213 as an equivalent transfer course for ECON 201 Introductory Economics in the business admin minor. ECON 213 is listed in VolCore as an approved social science option in the undergraduate catalog. Additionally, transfer students from TBR schools often receive credit for ECON 213 if they completed an economics course prior to transferring. This will eliminate the need for the advisor to petition this course for transfer students.

9. Added RSM 212 - Professional Preparation for Field Experience in KRSS in Term 2. This is a new course proposal (see separate proposal) and should ideally be taken in the same semester as RSM 250.

Financial Impact*

None.

Impact on Other Units*

Course Description Application of principles of concepts introduced in NUTR 412 (Food and Nutrition in the Community). Students will work in the community. Successful completion of 20 hours of service learning is required.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement: (EI)

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) NUTR 302.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Education, Health, and Human Sciences

Department* Nutrition

Program Name* Nutrition Major, BS in Health and Human Sciences - Biomedical Nutrition Science Concentration

Degree Type* Bachelor of Science in Health and Human Sciences

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Nutrition major is designed for students interested in basic and applied sciences, and students are able to pursue one of three concentrations: the Biomedical Nutrition Science Concentration, the Community Nutrition Concentration, or the Dietetics Concentration. The Biomedical Nutrition Science Concentration of the Nutrition Major prepares students for graduate study in biological and health sciences or for health professional programs, such as pharmacy and medicine. This concentration also prepares students for careers as laboratory technicians, research assistants, technical consultants, and sales representatives in the biomedical and nutrition industries. Additional coursework may be is necessary to meet health professional program prerequisites and integration of this coursework should be coordinated closely with the academic advisor and/or pre-health advising as these requirements will vary by program.

Requirements for Transition to Upper Division

In order to graduate with a major in nutrition, regardless of concentration, students must earn a grade of C or better in every required nutrition course.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Select any courses not already required for the major. Some pre-health tracks specifically require SOCI 120*, PHYS 221*, and PHYS 222*. Students pursuing a health professional career may choose to complete the pre-health professions minor and should consult with their advisor, relevant pre-health guide, and undergraduate catalog in selecting electives to fulfill requirements. Students NOT pursuing a health professional career, should consult with their advisor in selecting electives. Course recommendations include NUTR (any 200+ not already required for the major), NUTR 412, NUTR 415*, NUTR 416, and NUTR 493; BIOL (any 200+); BCMB (any 200+); KNS (any 200+); MICR (any 200+ not already required); EEB (any 200+ not already required); FDSC courses; ANSC 320, ANSC 330, ANSC 380; HDFS 210*, HDFS 211, HDFS 213, or HDFS 240*; PSYC 301, PSYC 370, PSYC 385*, PSYC 445, PSYC 450, PSYC 459, or PSYC 461; PUBH 202, PUBH 315, PUBH 401, or PUBH 420.

Students pursuing a pre-health track should consult with their advisor and the relevant pre-health guide for Quantitative Reasoning Elective recommendations/requirements.

Select courses from the Volunteer Core list.

Students in some pre-health tracks are required to also take the lab class (CHEM 269) associated with CHEM 260 and should consult with their advisor and the relevant pre-health guide.

Students in some pre-health tracks are required to also take the lab class (CHEM 359) associated with CHEM 360 and should consult with their advisor and the relevant pre-health guide.

Must be taken at UTK.

Some pre-health tracks require SOCI 120*, which also meets the Global Citizenship - US Volunteer Core requirement.

* Meets Volunteer Core Requirements.

Rationale* We removed the statement "Students completing this track are not eligible to apply to any ACEND-accredited supervised practice programs" for acuracy as students who complete this track may become eligible to to apply to any ACEND-accredited supervised practice programs if they complete all requirements.

Financial Impact* None

Impact on Other Units* None

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

For qualified students, the Department of Nutrition offers a 5-year BS/MS accelerated degree program with a major in Nutrition and a concentration in Community Nutrition. Central to this program is that a qualified student may take up to 9 credit hours of approved graduate courses for their senior undergraduate electives and have them count toward both the BS degree and the MS degree. Students will be considered for conditional admission to the program by the end of their junior year of undergraduate study at UT. Students can choose from a project option or a course-only, no comprehensive exam option. Those who choose the project option will begin working on their project no later than Term 7 of undergraduate studies by enrolling in NUTR 493 with Public Health Nutrition faculty. For each student in the program, a graduate advisory committee composed of a minimum of three faculty members must be established before completion of Term 7. To be considered for conditional admission to the program. This can lead to the Public Health Minor, but the student must declare it.

- A student must be a declared Nutrition major, Community Nutrition Concentration, with a minimum GPA of 3.30, must have completed at least 15 credit hours of Nutrition courses, and must have completed at least 90 credit hours of the 120 credit hours of coursework required for the BS degree with a major in Nutrition.
- A student must provide one letter of support from a Community Nutrition faculty member. In that letter, the Nutrition graduate research faculty member must agree to serve as the graduate mentor-advisor (i.e., major professor) and as the chair of their graduate advisory committee.
- The Department may consider other relevant factors such as an applicant's work experience before conditionally admitting a student to the BS/MS accelerated degree program. Conditional admission of a student into the 5-year BS/MS accelerated degree program must be approved by both the Department of Nutrition and the Graduate School. Students will be typically informed of the outcome of their application before they start their senior year of undergraduate study.

Any graduate course taken before satisfying all requirements for the BS degree must be approved by the student's graduate advisory committee, the Director of the Program in Public Health Nutrition, the Department Director of Graduate Studies, and the Graduate School. These graduate courses must be identified in advance in consultation with the undergraduate advisor and the graduate advisory committee.

A student that is conditionally admitted to the BS-MS accelerated degree program may complete up to 9 credit hours of graduate level coursework during the student's undergraduate study and apply those 9 credit hours to satisfy both the BS degree requirements and also the MS degree requirements, provided that these graduate credit hours were approved by both the Department and by the Graduate School.

The form "Nutrition Conditional Admission 5 Year BS-MS" is available from the Director of Graduate Studies and must be completed and signed by the undergraduate advisor, undergraduate coordinator, and graduate advisory committee by May 1st of their junior year. After review by the Department, the form will be signed by the Director of Graduate Studies and submitted to the Graduate School for approval and processing.

To receive graduate credit for the 9 credit hours listed on the Nutrition Conditional Admission Form and approved by their graduate advisory committee, and others granting approval by signing that form, the student must complete and submit the Senior Requesting Graduate Credit Form to the Graduate School. If the graduate courses are to be taken during different semesters, the student will need to submit this form per each relevant semester.

Conditional admission into the BS/MS accelerated degree program does not guarantee acceptance into either the Graduate School or the MS program. Students in the BS/MS accelerated degree program must submit an application for admission to the Office of Graduate Admissions and to the MS program during their senior year of undergraduate study for the fall term immediately following the completion of their undergraduate study, following the same procedures of all other student applicants. Students will be fully admitted to the MS program after they have been accepted both by the Graduate School and by the Nutrition Department. Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Education, Health, and Human Sciences

Department* Nutrition

Program Name* Nutrition Major, BS in Health and Human Sciences - Dietetics Concentration

Degree Type* Bachelor of Science in Health and Human Sciences

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Nutrition major is designed for students interested in basic and applied sciences, and students are able to pursue one of three concentrations: the Biomedical Nutrition Science Concentration, the Community Nutrition Concentration, or the Dietetics Concentration. The Dietetics Concentration of the Nutrition Major is accredited as a Didactic Program in Dietetics (DPD) by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 S. Riverside Plaza, Suite 2190, Chicago, Illinois 60606-6995, (312) 899-0040 ext. 5400, url https://www.eatrightpro.org/acend. As such, graduates are eligible to apply for ACEND-accredited supervised practice programs and, following successful completion are eligible to take the Registration Examination for Dietitians to become Registered Dietitian Nutritionists (RDNs) and active members of the Academy of Nutrition and Dietetics. RDNs are food and nutrition professionals who unite the science of nutrition with the application of nutrition principles to improve health through interventions, including education and counseling, at the community and individual levels or by addressing nutritional aspects of medical problems in clinical practice. Many work in acute care hospitals, long-term care, and medical offices as members of the health care team or in community-based settings. Other areas of practice include corporate wellness, journalism, sports nutrition, the food and nutrition industry, and others.

At the completion of term 6 – Students meeting eligibility requirements may apply for the accelerated combined bachelor's/master's program to pursue the M.S. Program in Nutrition, Clinical Nutrition and Dietetics Concentration, or continue on in the traditional Dietetics Concentration.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Select any Quantitative Reasoning (QR) courses not already required for the major.that also meets prerequisite requirements for CHEM 122*.

Select courses from the Volunteer Core* list.

Fulfills Global Citizenship - International (GCI) requirement. Alternative courses may be considered to meet this requirement upon request, provided that students consult with their academic advisor.

Select any courses not already required for the major.

Select from FDSC 100*, FDSC 241, or HTM 101.

Must be taken at UT.

At the completion of term 6 – Students meeting eligibility requirements may apply for the accelerated combined bachelor's/master's program to pursue the M.S. Program in Nutrition, Clinical Nutrition and Dietetics Concentration, or continue on in the traditional Dietetics Concentration.

This course requirement is waived for students accepted to the accelerated combined bachelor's/master's in program to pursue the M.S. in Nutrition, Clinical Nutrition and Dietetics concentration who are not in the Service Learning Honors program as associated competencies will be completed in a graduate course.

Students accepted to the accelerated combined bachelor's/master's program to pursue the M.S. in Nutrition, Clinical Nutrition and Dietetics concentration or who have been otherwise admitted to the M.S. in Nutrition, Clinical Nutrition and Dietetics concentration, must enroll in HTM 445 and approved graduate coursework if not previously completed.

*** Meets Volunteer Core Requirement.**

Rationale* Update program description for accuracy and clarity. we replaced the statement"

"The accelerated combined bachelor's/master's program leading to a B.S. in Health and Human Sciences – Nutrition major, Dietetics concentration/M.S. in Nutrition, concentration in Clinical Nutrition and Dietetics.

Students enrolled in the Bachelor of Science program with a Nutrition-Dietetics major or who are completing all coursework consistent with requirements of the Nutrition-Dietetics major who are interested in clinical nutrition practice as a RDN are eligible to apply".

with the following statement: "At the completion of term 6 – Students meeting eligibility requirements may apply for the accelerated combined bachelor's/master's program to pursue the M.S. Program in Nutrition, Clinical Nutrition and Dietetics Concentration, or continue on in the traditional Dietetics Concentration."

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Education, Health, and Human Sciences

Department* Public Health

Program Name* Public Health Major, BS in Public Health - Five-Year BSPH/MPH Program

Degree Type* Bachelor of Science in Public Health

Program Type* Concentration

Description

Overview

Public Health Majors who are planning to apply to UTK?s Master of Public Health Program (MPH), may apply to the Five-Year Accelerated program during junior year for advanced placement in the MPH degree program, saving time and money.

Eligibility Requirements

To be considered for this program, students must:

1. Have a minimum overall UT GPA of 3.3.
2. Be declared as a Public Health Major.
3. Complete PUBH 201*, PUBH 202, and PUBH 320* with at least a B grade. Conditional admission is possible if the above courses are in process and students have a grade of B or higher at the time of application.
4. By fall of senior year, complete at least 90 out of required total credit hours for Bachelor?s degree.
5. Graduate with Bachelor?s degree in spring.

* Meets Volunteer Core Requirement.

Program Benefits

If accepted to the program, Five-Year Accelerated students may take **up to three approved graduate public health courses (9 credit hours)** during senior year that count toward **BSPH Professional Electives and MPH Foundation Courses.**

- An **MPH degree** is **42 graduate credits** and traditionally completed on a full-time basis in **two academic years**: fall 1, spring 1, fall 2, spring 2.
- A **Five-Year Accelerated student** will **save 9 credits of graduate tuition cost** by completing up to three graduate courses (9 credits) as a senior, and then enrolling in **Graduate School** to complete the remaining **33 graduate credits** in the **summer + one academic year**: summer 1, fall 1, spring 1, summer 2.

Accelerated MPH Program Plan*

Year 4 ? Undergraduate Tuition, 9 credits		Year 5 ? Graduate Tuition, 33 credits			
Senior Year Fall 3 credits	Senior Year Spring 6 credits	MPH Summer 1 6 credits	MPH Fall 1 11 credits	MPH Spring 1 10 credits	MPH Summer 2 6 credits

*Summer courses are extremely time-intensive due to the university?s condensed summer session, therefore students are advised not to work during summer sessions. All graduate public health summer courses are in an online format.

Traditional MPH Program Plan*

Graduate Tuition, 42 credits			
MPH Fall 1 12 credits	MPH Spring 1 11 credits	MPH Fall 2 10 credits	MPH Spring 2 9 credits

***9-12 graduate credits per semester is considered full-time. There may be slight variations to the above depending on your concentration.**

Graduate Courses

Approved Courses for Seniors:

1. **Term 7 (senior year, fall)**:
    - PUBH 530 - Biostatistics (3 Credit Hours)
2. **Term 8 (senior year, spring)**:
    - PUBH 510 - Environmental Health (3 Credit Hours)
    - PUBH 520 - Health Systems, Policy, and Leadership (3 Credit Hours)

Additional Considerations

- **Graduation** - The Accelerated program is only available to undergraduates who graduate with their Bachelor's degree in spring (e.g., May) and can start Graduate School in the summer. Due to graduate course sequencing, undergraduates who graduate in fall (e.g., December) or summer (e.g., August) are *not* eligible for the Five-year program but are encouraged to apply for the traditional MPH program. More information about MPH program concentrations is available in the Graduate Catalog
- **Program Modality** ? Undergraduates in the Campus program format will take Campus graduate courses senior year. Similarly, undergraduates in the Distance Education (DE) program will take DE graduate courses senior year. In other words, campus students may not take DE courses, and DE students may not take campus courses. However, for the MPH degree, you may choose to change your modality as a Graduate Student by applying to either the Campus MPH program or DE MPH program modality. As an MPH student, you will only take courses in the modality that you enroll for graduate school. All summer MPH courses are fully online format for both the campus and DE program modality.
- **Advising Note** - If you have an undergraduate course conflict during senior year, you may not be able to complete all 9 graduate credits as an undergraduate, which may result in extending your time in the MPH program. Consult with your undergraduate academic advisor and the MPH program director.

Admission Process

Students will **apply to two different programs**:

1. Accelerated Program
2. MPH Program

Acceptance into the Accelerated Program does not guarantee acceptance into the MPH program.

When to Apply

1. Apply to the **Accelerated Program** by **March 1 of junior year.** Application window is December 1 ? March 1.
2. Apply to the **Graduate School and MPH program** by **February 1 of senior year** for a summer MPH admission.

How to Apply

Accelerated Program

Submit an electronic application form via the Public Health website by March 1st of junior year. Applications do not require letters of recommendation but do include short answer / essay questions and a current resume. Students will be notified of acceptance by April 1, in time for fall course registration. A graduate advising orientation will be subsequently provided to review the MPH course plan of study.

MPH Program

During senior year, Accelerated students will apply to the MPH program through the Graduate School using the standard application procedures. Acceptance into the Accelerated program does not guarantee acceptance into Graduate School or MPH program itself. Minimum GPA for graduate admissions is 3.0. Accelerated students won?t be eligible to apply for a graduate assistantship until a bachelor?s degree is completed. Accelerated students will apply for summer admission into the MPH program.

More information about MPH program concentrations is available in the Graduate Catalog. Refer to OneStop for the Graduate Tuition and Fee schedule.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*
- ☐ Program Name
- ☑ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)
- ☐ Certificate Type
- ☐ Other (include in Rationale)

Requirements*

Campus: Knoxville, Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

Rationale*

Upon consultation with our first cohort of accelerated students, we updated the program description to be more in line with information the students need and want to make an informed decision about entering into our accelerated program. We added a DE program format. Due to graduate course sequencing, we removed the option for a fall MPH start.

Financial Impact*

None.

Impact on Other Units*

None.

Have you consulted with all programs/departments that will be impacted by this change?*
- ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ○ New major name and keeping the same CIP code

CIP Code* 51.2201

1. **Term 7 (senior year, fall)**:
    - PUBH 530 - Biostatistics (3 Credit Hours)
2. **Term 8 (senior year, spring)**:
    - PUBH 510 - Environmental Health (3 Credit Hours)
    - PUBH 520 - Health Systems, Policy, and Leadership (3 Credit Hours)

Additional Considerations

- **Graduation** - The Accelerated program is only available to undergraduates who graduate with their Bachelor?s degree in spring (e.g., May) and can start Graduate School in the summer. Due to graduate course sequencing, undergraduates who graduate in fall (e.g., December) or summer (e.g., August) are *not* eligible for the Five-year program but are encouraged to apply for the traditional MPH program. More information about MPH program concentrations is available in the Graduate Catalog?
- **Program Modality** ? Undergraduates in the Campus program format will take Campus graduate courses senior year. Similarly, undergraduates in the Distance Education (DE) program will take DE graduate courses senior year. In other words, campus students may not take DE courses, and DE students may not take campus courses. However, for the MPH degree, you may choose to change your modality as a Graduate Student by applying to either the Campus MPH program or DE MPH program modality. As an MPH student, you will only take courses in the modality that you enroll for graduate school. All summer MPH courses are fully online format for both the campus and DE program modality.
- **Advising Note** - If you have an undergraduate course conflict during senior year, you may not be able to complete all 9 graduate credits as an undergraduate, which may result in extending your time in the MPH program. Consult with your undergraduate academic advisor and the MPH program director.

Admission Process

Students will **apply to two different programs**:

1. Accelerated Program
2. MPH Program

Acceptance into the Accelerated Program does not guarantee acceptance into the MPH program.

When to Apply

1. Apply to the **Accelerated Program** by **March 1 of junior year.** Application window is December 1 ? March 1.
2. Apply to the **Graduate School and MPH program** by **February 1 of senior year** for a summer MPH admission.

How to Apply

Accelerated Program

Submit an electronic application form via the Public Health website by March 1st of junior year. Applications do not require letters of recommendation but do include short answer / essay questions and a current resume. Students will be notified of acceptance by April 1, in time for fall course registration. A graduate advising orientation will be subsequently provided to review the MPH course plan of study.

MPH Program

During senior year, Accelerated students will apply to the MPH program through the Graduate School using the standard application procedures. Acceptance into the Accelerated program does not guarantee acceptance into Graduate School or MPH program itself. Minimum GPA for graduate admissions is 3.0. Accelerated students won?t be eligible to apply for a graduate assistantship until a bachelor?s degree is completed. Accelerated students will apply for summer admission into the MPH program.

More information about MPH program concentrations is available in the Graduate Catalog. Refer to OneStop for the Graduate Tuition and Fee schedule

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*
- [ ] Program Name
- [x] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville, Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

Rationale*

Upon consultation with our first cohort of accelerated students, we updated the program description to be more in line with information the students need and want to make an informed decision about entering into our accelerated program. We added a DE program format. Due to graduate course sequencing, we removed the option for a fall MPH start.

Course Description

This course is designed to prepare students for a successful and meaningful field experience in their field of study. Through weekly sessions, students will explore professional expectations, clarify personal goals, and learn practical skills needed to thrive in their practicums and internships. Topics include, but are not limited to, site search strategies, resume building, ethics and legal considerations, documentation requirements, communication, and workplace professionalism. Students will also receive training on systems such as Typhon and review program-specific requirements. By the end of the course, students will be well-equipped to engage in their field experience with confidence and intentionality.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Seminar

Contact Hour Distribution (if more than one instructional method)

Rationale*

The *Professional Preparation for Field Experience in KRSS* course is designed to ensure students are well-prepared for field-based learning by offering structured, intentional preparation before entering professional internship settings. As internships increasingly serve as gateways to employment and graduate study, it's critical that students approach these experiences with professionalism, confidence, and a clear understanding of expectations.

This course also addresses a key gap in students' transition from the classroom to the field. While many students are eager to gain hands-on experience, they often lack guidance on how to navigate workplace dynamics, advocate for themselves, or recognize when something isn't right. This course helps students understand both their responsibilities and their rights, and what is and is not acceptable in a professional setting. It includes guidance on identifying red flags in potential sites and strategies for addressing concerns respectfully and effectively. In doing so, the course supports student well-being, enhances their success, and strengthens relationships with internship partners.

Several other academic units across campus (e.g., Social Work, Haslam College of Business) already utilize zero-credit internship prep courses to maintain program quality and improve site partnerships. Adopting this model will align our department with proven best practices and meet a growing need for early, structured engagement with our students.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Education, Health, and Human Sciences

Department* Retail, Hospitality, and Tourism Management

Program Name* Hospitality and Tourism Management Major, BS in Retail, Hospitality, and Tourism Management

Degree Type* Bachelor of Science in Retail, Hospitality, and Tourism Management

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The hospitality and tourism management major focuses on meeting the middle- and upper-level management needs of the food, lodging, and event planning industry. It is a program that assists students in getting the breadth of knowledge, responsibility, and creativity to meet the changing environment of complex management problems in industry. A business minor is built into the degree requirements.

The major requires extensive field experience. The curriculum provides a strong base in management and practical application of these skills. The general education electives help students to sharpen their analytical, conceptual, and communications abilities. Graduates may start as management trainees in restaurants, foodservice, hotels, support industries, or in tourism operations with subsequent upward mobility into management positions.

Progression Requirements

For progression in the major, students must meet the following criteria.

- Cumulative grade point average 2.3 or greater for at least 30 semester hours completed.
- Grade of C or better in all hospitality and tourism management prefix courses.
- Successful completion of ENGL 101* and ENGL 102*.
- Complete 300 post-secondary school hours of industry related work for the chosen major. A complete list of appropriate work experiences is available in the departmental office.

For graduation, students must earn a grade of C or better in all hospitality, and tourism management courses.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Select courses from the Volunteer Core list.
Select any courses not already required for the major.
Business administration minor requirement.
Must be taken at UTK.
Choose from HTM 225, HTM 235, HTM 299, HTM 312, HTM 335, HTM 384, HTM 412, HTM 435, HTM 440, HTM 445, HTM 450, HTM 484*, HTM 493, HTM 494, HTM 495; RMM 411, RMM 312.

Recommended major electives for specialized career interests:

Tourism Management: HTM 435, HTM 450, HTM 484*.

Restaurant/Culinary: HTM 101, HTM 225 or HTM 335, HTM 299, HTM 445, RMM 411.

Hotel and Resort Management: HTM 299, HTM 445, HTM 450, RMM 411.

Meeting and Event Planning: HTM 101, HTM 299, HTM 312, HTM 435, HTM 445, RMM 411.

Must be a non-HTM prefix course.

*** Meets Volunteer Core Requirements.**

Rationale* Adding HTM 235 (newly proposed course) and HTM 412 (existing course) in the #5 footnote as potential HTM electives.

Financial Impact* None.

Impact on Other Units* None.

College of Education, Health, and Human Sciences - Retail, Hospitality, and Tourism Management - Hospitality and Tourism Management Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Education, Health, and Human Sciences

Department* Retail, Hospitality, and Tourism Management

Program Name* Hospitality and Tourism Management Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This minor provides an opportunity to acquire specialized knowledge and skills in lodging, foodservice, and event planning. The minor is very flexible, allowing students to choose courses that fit their unique goals. The additional knowledge, skills, and experience gained from this minor can potentially elevate a student's marketability to future employers.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The minor consists of **15 hours**.

Complete:

HTM 102* Introduction to Travel and Tourism
HTM 326 Cost Controls in Hospitality and Tourism Operations

Select two of three:

HTM 210 Foodservice Operations Management
HTM 211 Leading and Managing Hotels and Resorts
HTM 212 Event Planning and Design

Select one:

HTM 311 Talent Management in Hospitality and Retailing
HTM 435 Advanced Event Planning and Design
HTM 445 Restaurant and Catering Management and Execution
HTM 450 Hotel Development and Analytics
HTM 484* Critical Sustainable Tourism
[After]
[After] *Meets Volunteer Core Requirements.

Rationale* Adding HTM 326 to the required courses for the minor will strengthen students' skillset with regard to the financial aspects of hospitality and tourism management. To refrain from increasing the total credit hours required for the minor, we are asking students to select one fewer course from the list of electives.

Financial Impact* None. We have faculty regularly teaching RMM 326 and can handle the addition of minors to the course.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Recommended Background

Comments

Registration Restriction(s)

Registration Permission Permission from instructor

Equivalency

Rationale* This course will provide students with an opportunity to engage in research with a faculty member. The course will primarily be taught as an independent study / small group course. It has been taught by Deborah Reed as a special topics course for a while and we think it would be beneficial to go ahead and get a permanent course for this purpose at both the undergraduate and graduate levels.

Impact on Other Units* There is no impact on other units

Financial Impact* There is no financial impact as this will be taught as it has been in the past - independent study with an individual faculty member. This course will not be in anyone's regular load. We have added the restriction of permission of instructor so that this would be offered only when faculty want to have students engaging in research with them.

Equivalency

Rationale* Effective communication is a central component to the development of interprofessional practices. Our words and actions have an impact on the world around us and influence the systems in which we engage. In this course, learners will develop skillful communication strategies at both the individual and group levels. Tasked with working on an interdisciplinary team to solve complex systemic problems specific to STEM topic areas, learners will employ research-based communication strategies that will enable them to overcome differences in opinion and negotiate to reach consensus. They will also focus on professional use of both formal (e.g. meetings) and informal (e.g. email) communication.

Impact on Other Units* No impact on other units

Financial Impact* No impact. Taught by current faculty

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Revised course description after consultation with CEHHS faculty. Intended to support students to create a range of social science and education visualizations using software R. This course is distinct from other data visualization courses on campus and not duplicative as noted further below

This is an undergraduate version of a popular graduate-level class, STEM 691. Some undergraduates have asked to enroll in STEM 691, and this course is meant to accommodate students with this interest. It is planned to be a part of a new certificate in Computational Social Science led by faculty in the College of Arts and Sciences.

It is distinct from ESM 250 - Applied Statistical Concepts for Decision Makers in that it focuses exclusively on data visualization theory and practice; ESM 250 only treats data visualization as one of seven areas of focus (along with more statistical/mathematical topics, such as sampling distributions and hypothesis testing—not the focus of this proposed course).

It is also distinct from other campus courses, including AI 302 - AI-based Data Handling and Visualization, which emphasizes the use of AI for data preparation and representation (unlike the proposed course, which emphasizes deeply understanding data visualization fundamentals); BAS 454 - Data Visualization for Business Analysts and BAES 450 - Data Visualization in Genomics and Bioinformatics, which both state they use a variety of tools, whereas the proposed courses uses R and gglot2 exclusively; DATA 202 - Data Management and Visualization and BAS 476 - Data Engineering and Visualization, which use python.

Impact on Other Units* No impact on other units

Financial Impact* Minimal impact, we plan to offer this course with different expectations of students reflected in modified assignments and rubrics along with STEM 691 (merged in Canvas and treated as a single course in terms of one's teaching load) so long as the total number of students is reasonable for one instructor

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Education major, BS in Education – Elementary Education/ Special Education Interventionist K-8 Dual Concentration, Undergraduate Internship Program is designed for students seeking Elementary Education teacher licensure with a Special Education Interventionist dual endorsement. This distance education program primarily focuses on elementary education preparation while incorporating strategic special education coursework that enables graduates to also obtain the interventionist license. Graduates will be prepared to teach in elementary settings with enhanced skills to support diverse learners and will be eligible for Tennessee teacher licensure in Elementary Education with the Special Education Interventionist dual endorsement.

Admission Requirements

Students desiring entry into this program must meet admission requirements including, but not limited to the following:

- Academic achievement - minimum 2.75 cumulative GPA
- 24 credit hours completed
- Tennessee state law (TCA 49-5-5610) requires that students wishing to enter an approved higher education educator preparation program must submit to a criminal history background check. Admission to the program is dependent on clearance of any conviction(s) as referenced to a list of crimes that would prohibit a person from being licensed in Tennessee.

Progression Requirements

Progression to Interventionist Special Education specialization requires a 2.75 cumulative GPA after a minimum of 24 semester hours of coursework. Once candidates formally progress to the specialization, they must maintain a minimum cumulative GPA of 2.75 while in the program. Students must earn a grade of C or better in all teacher education courses. Students with less than a 2.75 GPA for two consecutive semesters will be dropped from the program. Students who fail to meet the standards for professional conduct during the course of their fieldwork will not be retained in the major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Distance Education

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Three courses from the Written Communication (WC), First-year composition sequence, 2 courses, 3 credit hours each. Additional approved Written Communication (WC) course.
One course from approved Arts and Humanities (AH) courses.
Two courses from approved Natural Sciences (NS) courses, one must have a laboratory.
Two courses from approved Quantitative Reasoning (QR) courses. Please note that students must select a math and/or statistics course.
One course from approved Oral Communication (OC) courses.
One course from approved Social Sciences (SS) courses.
Two courses from approved Global Citizenship courses: Global Citizenship - International (GCI) CSE 200*; Global Citizenship - United States (GCUS) CSE 300*.
One course from approved Applied Oral Communication (AOC) courses.
Nine credit hours from at least two different subjects from approved Engaged Inquiries (EI) courses.

*** Meets Volunteer Core Requirement.**

Program Notes

- **Students must complete all field experiences and student teaching requirements**
- **Students must pass all required Praxis examinations for licensure**
- **Students should work with advisors to develop 2-year, 3-year, and 4-year completion plans as needed**

Licensure Requirements

Upon successful completion of this program, students will be eligible to apply for Tennessee teacher licensure in Elementary Education (K-5) as their initial licensure. Students will also be eligible for the Special Education Interventionist (K-8) add-on endorsement. Students must pass required Praxis examinations for Elementary Education and Special Education and meet all state licensure requirements.

Rationale* This distance education undergraduate teacher licensure program addresses the critical need for qualified elementary educators by providing a pathway for specialization in Elementary Education with a Special Education Interventionist dual endorsement. The program primarily focuses on elementary education preparation while strategically incorporating special education coursework that allows graduates to obtain the interventionist dual certification. The online format increases accessibility for working professionals, paraprofessionals, and students in rural areas who cannot attend on-campus programs. This structure aligns with Tennessee's licensure policies while preparing elementary teachers with enhanced skills to serve diverse learners in inclusive settings.

Financial Impact* There is no significant financial impact. Current TPTE faculty will teach the education courses in online formats. The program leverages existing ASU Online partnerships for VolCore courses and utilizes current faculty expertise in online pedagogy. Revenue from increased enrollment will offset any technology or support costs.

Impact on Other Units* Impact on other units is minimal as this distance education program will rely on courses outside of our deparement provided by Arizona State University through UTK's Digital Learning

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No ○ No Impact

CIP Code * 13.0101

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank. Yes. This program leads to Tennessee teacher licensure in: Elementary Education (K-5) - Initial licensure Special Education Interventionist (K-8) - Dual endorsement

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

General Catalog Information

College* College of Education, Health, and Human Sciences

Department* Theory and Practice in Teacher Education

Program Name* Education Major, BS in Education - Interdisciplinary Early Childhood Concentration (PreK-3rd Grade Undergraduate Student Teaching Specialization)

Learning Outcomes

1. Proposes appropriate curricular objectives based on State and/or Common Core Standards.
2. Develops instructional activities that take into account students' strengths, interests, and needs to enable each student to advance and accelerate his/her learning.
3. Combines formative and summative assessment as appropriate to support, verify, and document learning.
4. Uses current technologies to maximize content learning in varied contexts.
5. Designs a safe, positive learning climate of openness, mutual respect, support, and inquiry.
6. Uses understanding of individual differences and diverse cultures and communities to promote inclusive learning and/or social environments that enable all individuals to meet high standards.

Degree Type* Bachelor of Science in Education

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Education major, BS in Education - Interdisciplinary Early Childhood Concentration, PreK-3rd Grade Undergraduate Student Teaching provides preparation needed for students who would like to be licensed to teach Early Childhood Education Integrated PreK-3rd (teach children ages birth to 3rd grade). This program is designed with an emphasis on an inclusive, unified, and integrated curriculum in which early childhood and special education content are purposefully blended into courses and clinical experiences. The program objectives center on preparing candidates who understand children and families in context to meet a diverse set of needs across a range of early childhood settings.

Progression Requirements

Students interested in this licensure should work closely with their advisor to ensure that they understand and meet Teacher Education program requirements and that they strictly follow the application process. Students will complete the admission to Teacher Education process for the Interdisciplinary Early Childhood Concentration (Integrated PreK-3rd Grade Student Teaching) licensure program upon completion of 12 undergraduate hours.

A student desiring to be admitted into the Interdisciplinary Early Childhood Concentration (Integrated PreK-3rd Grade Student Teaching) teacher education program must meet the following admission requirements including, but not limited to the following:

- Academic achievement - minimum 2.75 cumulative GPA.
- 12 credit hours completed
- Tennessee state law (TCA 49-5-5610) requires that students wishing to enter an approved higher education educator preparation program must submit to a criminal history background check. Admission to the program is dependent on clearance of any conviction(s) as referenced to a list of crimes that would prohibit a person from being licensed in Tennessee.

Students are expected to know the criteria they must meet in order to progress into a practicum (IEC 470 and IEC 472) and to regularly monitor their progress in meeting these criteria. Students will not be allowed to progress into the practicum until these criteria are met. If students do not appear able to meet these criteria, they are encouraged to work closely with their advisor to plan an alternative educational program. Specific information on how to apply for the practicum is available from the student?s advisor. Students must work closely with their advisor to ensure that they understand the requirements for progression and that they strictly follow the application process for the practicum experience of their choice.

Prerequisites for the Practicum

1. Completion of all prerequisites enforced by the registration system.
2. A cumulative GPA of at least 2.75).
3. A minimum grade of C in all Theory and Practice in Teacher Education courses.
4. Completion of a practicum application the semester before to the intended practicum semester.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Chosen from Volunteer Core list.
Early Childhood Education Teacher Licensure Specialty Area course.
Meets Communicating through speech Oral Communication (OC) requirements.
Meets both Written Communication (WC) and Applied Oral Communication (AOC) requirements.
IEC 470 requires a cumulative GPA of 2.75; completion of all prerequisites enforced by the registration system; a minimum grade of C in all child and family studies courses; completed application; student conduct and criminal background clearance. IEC 470 must be completed in one semester.
Meets Global Citizenship - International (GCI) requirement.
Meets Engaged Inquiries (EI) requirement.

*** Meets Volunteer Core Requirement.**

****Chosen from the Quantitative Reasoning (QR) Volunteer Core list.**

Rationale* Shortages for early childhood teachers persist, and these new options will meet immediate needs for students wanting to be teachers of young children. Also, there is not currently an undergraduate route for Integrated PreK-3 Licensure in our department (only 5th year professional internship) and this will provide a more affordable and transfer-friendly option for students wanting this type of license.

Financial Impact* There is no financial impact. Current faculty will teach courses in this pathway since the courses overlap with courses in other currently running pathways.

Impact on Other Units* No impact on other units

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

CIP Code * 13.0101

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank. Yes, TN teacher licensure in Integrated Early Childhood PreK-3

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

- (•) No

Credit Hours* 3

Course Description This course introduces students to applied computing in the context of rapidly evolving technologies that shape business, health, agriculture, arts, social sciences, finance, and national security. Unlike a traditional applied computing course focused primarily on programming and algorithms, this course emphasizes practical technical skills alongside conceptual, ethical, and policy dimensions of computing. Students will gain hands-on experience with tools for data analysis, visualization, artificial intelligence, cybersecurity, cloud and edge computing, and blockchain. Discipline spotlights are integrated each week to show how computing intersects with careers across sectors. Students complete a sequence of applied mini-projects and a final portfolio that demonstrate their skill development.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description This course introduces non-engineering students to practical coding and programming skills through hands-on applications in emerging technologies. The emphasis is not on computer science theory but on applied problem-solving across disciplines. Students learn Python, data analysis, APIs, automation, and lightweight app development while working directly with gadgets including humanoid robots, robotic dogs, AR/VR headsets, 3-D printers, and immersive 3-D domes. Coding assignments are paired with no-code/low-code alternatives to reduce intimidation while showing the power of programming. Students complete discipline-relevant labs and projects that demonstrate how applied computing impacts business, health, agriculture, arts, finance, social sciences, and national security.

Course Description This course focuses on the design, analysis, and practical application of algorithms in modern computing environments. Students use intermediate to advanced Python or JavaScript to implement common algorithmic techniques, including sorting, searching, recursion, and iterative problem-solving patterns, with attention to efficiency and scalability. The course also covers working with APIs and third-party libraries, algorithmic problem-solving in professional coding environments, and automation through scripting tasks such as data processing and web scraping. By the end of the course, students will be able to design, implement, and evaluate algorithmic solutions in applied computing contexts.

Course Description This course examines advanced computational techniques and emerging technologies shaping the future of computing systems including how these technologies differ from traditional computing paradigms and the challenges they introduce, as well as broader trends, future directions, and ethical, societal, and workforce implications. Students explore sophisticated algorithmic approaches and high-performance computing concepts, including the use of graphics processing units (GPUs) and other high-bandwidth platforms to support data-intensive workloads. The course introduces foundational principles of quantum computing, emphasizing computational models, basic algorithms, and emerging applications rather than hardware implementation. Students also investigate spatial computing technologies, including augmented and virtual reality (AR/VR), focusing on how immersive systems integrate computation, data processing, and user interaction.

Course Description Introduction to foundational concepts, techniques, and applications of Artificial Intelligence (AI) relevant for all disciplines – especially across non-computer science fields. Explores the history and current scope of AI, data sources and tools, and fundamental components of AI solutions. Special attention will be placed on the strengths and weaknesses of the methods as well as on identifying bias, social impacts, and other ethical considerations of AI. Students will gain experience through hands-on activities using no-code AI platforms.

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This course probes the vital junctures of artificial intelligence, ethics, and legal considerations. Throughout their studies, students will explore the ethical challenges posed by emerging AI technologies, understand the societal ramifications of AI decisions, and familiarize themselves with the global legal frameworks that oversee AI applications. As part of the curriculum, students will delve into ethical principles central to AI design and deployment. They will also address concerns related to bias, fairness, and transparency in AI systems. Additionally, discussions will touch upon the crucial aspects of privacy and data rights. An in-depth look into regulatory landscapes will offer insights into AI governance. By the end of this course, students will be primed to approach AI solutions holistically, bearing in mind both the ethical and legal dimensions.

Course Description

Centered on the user-centric aspects of AI, this course offers students an introduction to the principles and best practices pertinent to human-AI interaction. It bridges both theoretical underpinnings and their practical manifestations. Within this scope, students will learn about the essentials of user experience (UX) as it relates to AI systems. They will also delve into the strategies for crafting intuitive AI interfaces and discover the nuances of managing user trust and expectations during AI interactions. To further deepen their understanding, the curriculum incorporates case studies that showcase both exemplary and problematic instances of AI-human interactions. Throughout the course, students will enjoy hands-on opportunities to design and assess AI-driven user experiences, emphasizing the creation of AI solutions that are both user-friendly and effective

Course Description This course provides a comprehensive study of Natural Language Processing (NLP) and how it empowers the creation of conversational AI agents. Students will begin with an understanding of the fundamentals of NLP and linguistics. Building upon that, the course will guide them through the process of constructing chatbots and conversational interfaces. They will also engage in sentiment analysis and delve into the intricacies of text classification. Advanced topics, such as the mechanics of dialogue systems and the nuances of machine translation, will further enrich their learning journey. By the course's conclusion, students will not only have hands-on experience in crafting conversational AI applications but will also possess a profound grasp of the foundational NLP techniques that drive them.

Course Description As the landscape of cyber threats continues to change, the demand for innovative AI-driven solutions becomes paramount. In this course, students will journey through the intricate relationship between artificial intelligence and cybersecurity. They'll begin with an introduction to the foundational principles of cybersecurity and the challenges that professionals face in this domain. As they progress, they'll familiarize themselves with the AI tools and algorithms tailored for threat detection and mitigation. Furthermore, through case studies, students will gain insights into AI-driven cyberattacks and the corresponding defense strategies employed to counteract them. The curriculum is further enriched with hands-on projects that emulate real-world cybersecurity scenarios. Upon completing the course, students will be adept at designing and executing AI strategies to enhance cybersecurity infrastructures.

Course Description Detailed study of concepts, techniques, and applications of Artificial Intelligence (AI) relevant for all disciplines – especially across non-computer science fields. Explores the history and current scope of AI, data sources and procedures for attaining and working with data, and fundamental components of AI solutions. Special attention will be placed on the strengths and weaknesses of the methods as well as on identifying bias, social impacts, and other ethical considerations of AI. Introduces students to AI-relevant programming through hands-on coding projects. This is an undergraduate and graduate course (AI 501) taught concurrently, where graduate students will have additional requirements and assignments.

Credit Hours* 3

Course Description This course introduces fundamental mathematics for applied artificial intelligence and data science. Students explore key concepts in linear algebra, topics of calculus, and statistics and probabilities. Students will connect theory to real-world problems through computational examples, preparing them for advanced coursework and practical applications in data-driven decision making and intelligent systems.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s) Restricted to CECS majors.

Registration Permission

Equivalency

Rationale* The current data science and applied artificial intelligence programs do not require a stand-alone mathematical foundations course. The faculty have found that this course is necessary to enhance the quality and rigor of upper-level courses within these degree programs.

Impact on Other Units* No impact on other units.

Financial Impact* No financial impact.

Arts and Sciences Originators Only

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description This Capstone course is a senior level, hands-on course during which students will complete a comprehensive project. Students will apply their knowledge and use their skills as they work in collaborative teams and develop innovative solutions to real-world problems. Under faculty guidance, students will present their findings through a final report and/or presentation.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Artificial Intelligence Major, BS in Applied Artificial Intelligence

Degree Type* Bachelor of Science in Applied Artificial Intelligence

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description Students in the Applied Artificial Intelligence B.S. program learn core AI principles, algorithms, and models to prepare for diverse career path in AI. Students learn how to apply AI techniques to real-world problems while considering AI's ethical, social, and legal impacts. Students will collaborate across disciplines, integrating AI insights and solving complex challenges using creative AI solutions while attaining job readiness through for-credit internships and project-based learning. The AAI program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville, Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Artificial Intelligence Major, BS in Applied Artificial Intelligence - Applied Computing Concentration

Degree Type* Bachelor of Science in Applied Artificial Intelligence

Program Type* Concentration

Description

Students in the Applied Artificial Intelligence B.S. program learn core AI principles, algorithms, and models to prepare for diverse career path in AI. Students learn how to apply AI techniques to real-world problems while considering AI's ethical, social, and legal impacts. Students will collaborate across disciplines, integrating AI insights and solving complex challenges using creative AI solutions while attaining job readiness through for-credit internships and project-based learning. The AAI program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

The Applied Computing concentration (12 credit hours) is designed to provide students with a strong foundation in key computing concepts, preparing them for careers in a variety of industries.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

The Applied Computing Concentration consists of 12 credit hours of required coursework. To satisfy the Applied Computing Concentration requirements, students must complete the following courses:

Required Courses (6 credit hours)

AC 101 Introduction to Applied Computing I
AC 102 Introduction to Applied Computing II

Concentration Track - Select one (6 credit hours)

Select one of the following tracks and complete both courses:

Web Development

AC 202 Introduction to Web Development
AC 302 Advanced Web Development

Cloud Computing

AC 211 Introduction to Cloud Computing and Databases
AC 311 Cloud Computing Applications

Rationale* This program is being revised to align with revisions to the BSAAI program. The BSAAI program revisions reflect recommendations from the curriculum committee, faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study. No revisions have been made to the concentration courses.

This program is also being revised to remove the DE modality because this concentration is not currently offered under the Distance Education campus code.

Financial Impact* No financial impact.

Impact on Other Units* There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Applied Artificial Intelligence Major, BS in Applied Artificial Intelligence - Leadership Studies Concentration

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Artificial Intelligence Major, BS in Applied Artificial Intelligence - Leadership Studies Concentration

Degree Type* Bachelor of Science in Applied Artificial Intelligence

Program Type* Concentration

Description

Students in the Applied Artificial Intelligence B.S. program learn core AI principles, algorithms, and models to prepare for diverse career path in AI. Students learn how to apply AI techniques to real-world problems while considering AI's ethical, social, and legal impacts. Students will collaborate across disciplines, integrating AI insights and solving complex challenges using creative AI solutions while attaining job readiness through for-credit internships and project-based learning. The AAI program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

The Leadership Studies concentration (12 credit hours) is designed to provide students with the opportunity to build foundational knowledge in leadership theory, strengthen leadership skills, and develop leadership capacity through experiential and applied learning opportunities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

GEOG 414 Spatial Data Management

Leadership Studies Concentration Requirements

The Leadership Studies Concentration consists of 12 credit hours of required coursework. To satisfy the Leadership Studies Concentration requirements, students must complete the following courses:

Required Courses (9 credit hours)

LEAD 201* Introduction to Leadership Studies
LEAD 349 Leadership Learning Through Practice
LEAD 350* Coached Leadership Practicum
LEAD 352 Leadership and Change Processes

Select one course (3 credit hours)

LEAD 210 Ethics in Leadership
LEAD 490 Contemporary Issues in Leadership Studies

Rationale*

This program is being revised to align with revisions to the BSAAI program. The BSAAI program revisions reflect recommendations from the curriculum committee, faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study. No revisions have been made to the concentration courses.

This program is also being revised to remove the DE modality because this concentration is not currently offered under the Distance Education campus code.

Financial Impact*

Financial Impact*
No financial impact.

Impact on Other Units*
There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?*
○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

CIP Code* 11.0102

Technical Communication Concentration Requirements

The Technical Communication Concentration consists of 12 credit hours of required coursework. To satisfy the requirements for the Technical Communication Concentration, students must complete the following courses:

Required Courses (9 credit hours)

[Before]Complete:
ENGL 360* Technical and Professional Writing
[Before]Select two courses:
ENGL 460 Technical Editing
ENGL 461* Global Communication for Science and Technology
ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents

Concentration Elective (3 credit hours)

Select one additional course in rhetoric or writing from list below:

ENGL 355* Rhetoric and Writing

ENGL 357* Honors: Rhetoric and Writing
ENGL 455* Persuasive Writing
ENGL 460 Technical Editing
ENGL 461* Global Communication for Science and Technology
ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents
ENGL 470 Special Topics in Rhetoric
ENGL 494* Cultural Rhetorics

Rationale*

This program is being revised to align with revisions to the BSAAI program. The BSAAI program revisions reflect recommendations from the curriculum committee, faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study. No revisions have been made to the concentration courses.

This program is also being revised to remove the DE modality because this concentration is not currently offered under the Distance Education campus code.

Financial Impact* No financial impact.

Impact on Other Units* There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Artificial Intelligence Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description A minor in Applied Artificial Intelligence provides students with a focused and practical introduction to the rapidly evolving field of artificial intelligence (AI). This minor is designed to complement a variety of major programs by equipping students with the foundational knowledge and skills needed to apply AI techniques in real-world contexts. The minor covers key areas such as machine learning, deep learning, data analysis, and ethical considerations in AI development.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Computing Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description

The Applied Computing Certificate is designed to provide students with a strong foundation in key computing concepts, preparing them for careers in a variety of industries. The certificate program consists of four courses, combining introductory coursework with specialized sequences in web development or cloud computing and databases.

The 2-semester introductory course sequence introduces students to the basics of programming, computational thinking, and problem-solving approaches. Students will learn core programming concepts such as variables, loops, conditionals, and algorithms. The course also explores the role of software in various domains, including AI and data science, while emphasizing ethics in computing, such as data privacy and cybersecurity. Hands-on projects using basic programming tools will help students apply the concepts they learn to real-world problems. Students will be exposed to object-oriented programming, databases, and advanced algorithms and data structures and explore cloud computing, distributed systems, and the basics of machine learning and AI tools. Practical applications in data science, cybersecurity, and automation will be covered, culminating in a group-based semester project that applies computing solutions to real-world problems.

Then students can choose between two specialized tracks:

- Web Development Track: This two-semester sequence covers both front-end and back-end web development. Students will gain experience in technologies such as HTML, CSS, JavaScript, React.js, Node.js, and databases. They will also explore key topics like responsive design, version control, API integration, user authentication, and deployment using platforms like AWS and Heroku. The course culminates in a capstone project where students will build and deploy a web application.
- Cloud Computing and Databases Track: This sequence explores cloud computing fundamentals (IaaS, PaaS, SaaS) and cloud platforms such as AWS, Google Cloud, and Azure. Students will learn to work with relational (SQL) and NoSQL (MongoDB) databases in cloud environments, as well as the integration of cloud-hosted services. The course also covers AI applications in industries such as healthcare and finance, with practical labs focused on cloud deployment, debugging, and writing test cases. The semester concludes with a project that applies cloud computing and database management skills to real-world scenarios.

Upon completion of the certificate, students will be equipped to pursue careers in web development, cloud computing, or other applied computing fields, with a foundation in programming, algorithms, and software development best practices.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On, Stand-Alone

Credit Hours Required

The Applied Computing Certificate consists of 12 credit hours of coursework.

Required Courses (6 Credit Hours)

Complete both courses:

AC 101 Introduction to Applied Computing I
AC 102 Introduction to Applied Computing II

Elective Courses (6 credit hours)

Select any two from the following:

AC 202 Introduction to Web Development
AC 302 Advanced Web Development
AC 211 Introduction to Cloud Computing and Databases
AC 311 Cloud Computing Applications
DATA 203* Analytical Methods of Data Science
[Right] 1
DH 200* Introduction to Digital Humanities
INMT 341 Business Process Analysis
[Right] 1
INMT 342 Introduction to Database Systems
[Right] 1
INSC 384 Database Design
INSC 484 Database Applications
[Right] 1

Footnotes

[1] Course has its own set of prerequisites. Please consult the catalog for more information.

*** Meets Volunteer Core Requirement.**

Rationale* This program is being revised to remove the DE modality. This certificate is not currently available under the Distance Education campus code.

Financial Impact* No financial impact.

Impact on Other Units* No impact on other units.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

CIP Code* 11.0101

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Computing Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description

The Applied Computing Minor is designed to provide students with a robust foundation in computing concepts and hands-on skills, preparing them for a variety of careers in the growing field of technology. This minor consists of six courses, combining foundational knowledge with specialized sequences in web development or cloud computing and databases, or other electives, along with a capstone course to apply skills to real-world problems.

The 2-semester introductory course introduces students to the basics of programming, computational thinking, and problem-solving approaches. Students will learn core programming concepts such as variables, loops, conditionals, and algorithms. The course also explores the role of software in various domains, including AI and data science, while emphasizing ethics in computing, such as data privacy and cybersecurity. Hands-on projects using basic programming tools will help students apply the concepts they learn to real-world problems. Students will be exposed to object-oriented programming, databases, and advanced algorithms and data structures, and explore cloud computing, distributed systems, and the basics of machine learning and AI tools. Practical applications in fields like data science, cybersecurity, and automation will be covered, culminating in a group-based semester project that applies computing solutions to real-world problems.

In the capstone course, students will apply the concepts and skills learned throughout the minor to a real-world problem. Working in teams, students will undertake a capstone project that requires designing, developing, and deploying a comprehensive computing solution. The project will integrate knowledge from various domains, such as programming, cloud computing, web development, databases, and AI, and students will present their findings and outcomes to faculty and industry professionals.

Additionally, students will choose three courses between electives. Potential courses may include topics in web development, cloud computing, AI, machine learning, data science, cybersecurity, or software engineering. Electives will allow students to tailor their minor to their interests and career goals. Two specialized tracks will be offered:

- Web Development Track: This two-semester sequence covers both front-end and back-end web development. Students will gain experience in technologies such as HTML, CSS, JavaScript, React.js, Node.js, and databases. They will also explore key topics like responsive design, version control, API integration, user authentication, and deployment using platforms like AWS and Heroku. The course culminates in a capstone project where students will build and deploy a web application.
- Cloud Computing and Databases Track: This sequence explores cloud computing fundamentals (IaaS, PaaS, SaaS) and cloud platforms such as AWS, Google Cloud, and Azure. Students will learn to work with relational (SQL) and NoSQL (MongoDB) databases in cloud environments, as well as the integration of cloud-hosted services. The course also covers AI applications in industries such as healthcare and finance, with practical labs focused on cloud deployment, debugging, and writing test cases. The semester concludes with a project that applies cloud computing and database management skills to real-world scenarios.

By completing the Applied Computing Minor, students will be equipped to design, develop, and deploy software solutions, with expertise in web development, cloud computing, and databases. The minor fosters critical problem-solving skills, hands-on experience with modern computing tools, and the ability to tackle complex real-world challenges in diverse industries.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Requirements*

Campus: Knoxville

Credit Hours Required:

The Applied Computing Minor consists of 18 credit hours of coursework.

Required Courses (6 credit hours)

Complete both courses:

AC 101 Introduction to Applied Computing I
AC 102 Introduction to Applied Computing II

Elective Courses (9 credit hours)

Complete three courses from the following list including at least one upper division course:

AC 202 Introduction to Web Development
AC 211 Introduction to Cloud Computing and Databases
AC 302 Advanced Web Development
AC 311 Cloud Computing Applications
DATA 203* Analytical Methods of Data Science
[Right] 1
DH 200* Introduction to Digital Humanities
INMT 341 Business Process Analysis
[Right] 1
INMT 342 Introduction to Database Systems
[Right] 1
INSC 384 Database Design
INSC 484 Database Applications
[Right] 1

Required Capstone Course (3 credit hours)

Complete:

CECS 399 CECS Transdisciplinary Capstone

Footnotes

[1] Course has its own set of prerequisites. Please consult the catalog for more information.

*** Meets Volunteer Core Requirement.**

Rationale*

This program is being revised as listed below:

- Removing DE modality.
- Removing CECS 499 from the list of courses that satisfy the Capstone requirement. All students in the minor will be required to complete CECS 399 to satisfy Capstone course requirement.

Financial Impact*

No financial impact.

Impact on Other Units*

No impact on other units.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change

○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Cybersecurity Major, BS in Applied Cybersecurity

Degree Type* Bachelor of Science in Applied Cybersecurity

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Bachelor of Science in Applied Cybersecurity (BSCYBR) will consist of 120 total student credit hours, as required for any bachelor's degree at the University of Tennessee, Knoxville (UTK). Out of the total 120 credit hours, 21 hours will be Applied Cybersecurity core courses, plus two capstone courses (6 credit hours). The BSCYBR is designed to prepare all the enrolled students to succeed in the workforce and therefore these 27 credit hours (9 courses) will orient students with foundational concepts of applied cybersecurity domain including foundations of cybersecurity, cybersecurity tools, cryptology, incident management, risk assessment and cybersecurity related laws and policies. Additionally, each student will then choose a combination of certificates or minors from the College of Emerging and Collaborative Studies and other UTK colleges made up of existing UTK courses. The students will be supported through the CECS advising center to customize their program by selecting relevant stackable certificate options. Each certificate offered by CECS consists of 12 credit hours, of which 3 credit hours are CECS-taught gateway or core courses and 9 credit hours are drawn from courses outside CECS at UTK. A certificate offered by another college may have a different number of credit hours and may not include courses offered by CECS. Students will be able to develop a highly customized cybersecurity curriculum by selecting certificates and/or minors and elective courses from across the University. Students will complete 51–58 credit hours of VolCore courses that provide the general education foundation for all bachelor's students at the University of Tennessee. Additionally, students will have college- and university-wide free electives to complete their customized degree program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

CECS 485 has a prerequisite of CECS 385.

* Meets Volunteer Core Requirement.

Transdisciplinary Options (TOPS) Requirements

Students must take 30 credit hours of Transdisciplinary Options (TOPS) credit.
Students must complete at least one certificate, minor, second major, or a second bachelor's degree listed in the undergraduate catalog .
Students may select program electives from list below to satisfy TOPS credit requirements **after** completing one certificate, minor, second major, or second bachelor's degree.

Applied Cybersecurity Program Electives

The program elective courses listed below are eligble for TQDS credit. Please consult course catalog for specific course prerequisite requirements.

CYBR 465 Cybersecurity for Network-Controlled Systems
CYBR 470 Cybercrime and Digital Law Enforcement

Rationale*
This program is being revised to reflect recommendations from the curriculum committee, faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study.

Financial Impact*
No financial impact.

Impact on Other Units*
There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?*

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Applied Cybersecurity Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description The Applied Cybersecurity minor program for undergraduate students offers specialized knowledge and skills in the realm of cybersecurity, emphasizing practical, operational applications. The curriculum has been specifically created to provide students with the necessary knowledge and skills to effectively tackle the ever-changing issues within the cybersecurity field. The applied cybersecurity curriculum incorporates courses and knowledge from multiple disciplines to develop skills in applied and operational cybersecurity for undergraduate students. The minor requires at least 18 credits and includes a 3 credits industry sponsored junior capstone project.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Artificial Intelligence and Medicine Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description The Certificate in Artificial Intelligence in Medicine is a specialized program designed to empower healthcare professionals and technologists with the knowledge and skills needed to harness the transformative potential of artificial intelligence in the medical field. This program merges the realms of healthcare and cutting-edge technology, providing participants with a deep understanding of how AI can enhance diagnostics, treatment planning, and overall healthcare delivery.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- ☐ Program Name
- ☐ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)
- ☐ Certificate Type
- ☐ Other (include in Rationale)

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On, Stand-Alone

Required Course - Select ONE course (3 Credit Hours)

AI 101* Introduction to the World of AI
AI 102* Natural Language-based Programming Techniques

Electives - Select ONE course (3 Credit Hours)

AI 201 AI, Ethics, and Legal Frameworks
AI 202 Human-AI Interaction and Experience Design
AI 301 Natural Language Processing and Conversational AI
AI 302 AI-based Data Handling and Visualization
AI 311 AI for Cybersecurity

Electives - Select TWO courses (6 Credit Hours)

AI 351 AI and Data-Driven Clinical Solutions and Projects
AI 451 Advanced Research in AI and Data-Driven Multidisciplinary Medical Applications

Rationale* This program is being revised to remove the DE modality. This certificate is not currently offered under the Distance Education campus code.

Financial Impact* No financial impact.

Impact on Other Units* No impact on other units.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ○ New major name and keeping the same CIP code

CIP Code* 11.0102

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Bioinformatics Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description This program is intended to equip students with bioinformatics knowledge and skills necessary in a range of settings, including post-graduate studies and work in industry, research institutions, and some government agencies. The program is designed to accommodate and support students with diverse backgrounds, including those with limited initial programming experience. By completing the two core bioinformatics courses, students will develop foundational computational skills. Subsequent upper-level electives will develop additional relevant skills in math, computing, statistics and/or biology that will help enable success post-graduation. For students who already have a strong background in one disciplinary area and wish to continue to prioritize, greater computational skills will allow pursuit of more advanced coursework in that desired area. By graduation all bioinformatics students will be able to identify important problems in bioinformatics and to develop relevant solutions.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

- ☐ Other (include in Rationale)

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On, Stand-Alone

Credit Hours Required

The Bioinformatics Certificate consists of 12 credit hours of coursework.

Required Course (3 Credit Hours)

BINF 201 Introduction to Bioinformatics

Required Course (3 credit hours)

Complete one course from the list below:

BINF 202 Bioinformatics Programming
COSC 111* Computational Thinking and the Art of Programming

Electives courses (6 credit hours)

Select two courses from the list below:

[Left] 1
BCMB 412 Molecular Biology and Genomics
[Left] 2
BCMB 422* Computational Biology and Bioinformatics
[Left] 1
BSE 464 Data Analytics in Agricultural and Ecological Systems
COSC 420 Biologically-Inspired Computation
EEB 403 The Evolution of Cancer: An Integrative Approach
[Left] 1
EEB 406* Models in Biology
[Left] 1
EEB 411* Biostatistics
[Left] 1
MICR 411 Microbial Genetics
[Left] 1
MICR 470 Microbial Ecology
[Left] 1, 2
MICR 479 Advanced Techniques in Nucleic Acid Sequencing
[Left] 1
MICR 480 Genomics and Bioinformatics

Footnotes

* Meets Volunteer Core Requirement.

[1] Course has its own sequence of prerequisites. Please consult the catalog for additional information.

[2] Course has registration restrictions. Please consult the catalog for additional information.

Rationale* This program is being revised to remove the DE modality. This certificate is not currently offered under the Distance Education campus code.

Financial Impact* No financial impact.

Impact on Other Units* No impact on other units.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Bioinformatics Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description This program is intended to equip students with bioinformatics knowledge and skills necessary in a range of settings, including post-graduate studies and work in industry, research institutions, and some government agencies. The program is designed to accommodate and support students with diverse backgrounds, including those with limited initial programming experience. Students will develop relevant skills in math, computing, statistics and/or biology that will help enable success in post-graduation. For students who already have a strong background in one disciplinary area and wish to continue to prioritize, greater computational skills will allow pursuit of more advanced coursework in that desired area. The capstone project will provide the students with real wold problems to practice and apply their skills.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

Credit Hours Required

The Bioinformatics Minor consists of 18 credit hours of coursework.

Required Course (3 credit hours)

BINF 201 Introduction to Bioinformatics

Required Course (3 credit hours)

Select one course:

BINF 202 Bioinformatics Programming
COSC 111* Computational Thinking and the Art of Programming

Elective Courses (9 credit hours)

Select any three courses from the following list:

BCMB 412 Molecular Biology and Genomics
[Left] 1
BCMB 422* Computational Biology and Bioinformatics
BSE 464 Data Analytics in Agricultural and Ecological Systems
[Left] 1
COSC 420 Biologically-Inspired Computation
EEB 403 The Evolution of Cancer: An Integrative Approach
EEB 406* Models in Biology

MICR 470 Microbial Ecology
[Left] 1
MICR 479 Advanced Techniques in Nucleic Acid Sequencing
[Left] 1
MICR 480 Genomics and Bioinformatics

Required Capstone Course (3 credit hours)

Complete:

CECS 399 CECS Transdisciplinary Capstone

Footnotes

[1] **Course has its own set of prerequisites. Please consult the catalog for more information.**

*** Meets Volunteer Core Requirement.**

Rationale*

This program is being revised as listed below:

- Removing DE modality.
- Removing CECS 499 from the list of courses that satisfy the Capstone requirement. All students in the minor will be required to complete CECS 399 to satisfy Capstone course requirement.

Financial Impact*

No financial impact.

Impact on Other Units*

No impact on other units.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Data Science Major, BS in Data Science

Degree Type* Bachelor of Science in Data Science

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description Students in the Data Science B.S. program learn to transform raw data into meaningful information using data-oriented programming languages through core data mining, statistics and data modeling skills. Students learn to extract, prepare, and visualize data, which they then model and analyze. Students learn to apply these skills with sector-specific knowledge in the capstone course, where they develop workforce-ready skills on real-world projects. The BSDS degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

See Transdisciplinary Options (TOPS) Electives Requirements below for additional information.
Expanded Perspectives Electives must total 6 credit hours from any courses on the approved Arts and Humanities (AH), Social Sciences (SS), Global Citizenship - International (GCI), or Global Citizenship - United States (GCUS) or Applied Arts and Humanities (AAH) lists
CECS 485 has a prerequisite of CECS 385.

*** Meets Volunteer Core Requirement.**

Transdisciplinary Options (TOPS) Requirements

Students must take 30 credit hours of Transdisciplinary Options (TOPS) credit.
Students must complete at least one certificate, minor, second major, or a second bachelor's degree listed in the undergraduate catalog .
Students may select program electives from list below to satisfy TOPS credit requirements after completing one certificate, minor, second major, or second bachelor's degree.

Data Science Program Electives

The program elective courses listed below are eligble for TOPS credit. Please consult course catalog for specific course prerequisite requirements.

Mathematical and Statistical Foundations of Data Science

BAS 320 Regression Modeling
BAS 471 Statistical Methods
BAS 474 Data Mining and Business Analytics
ESM 250* Applied Statistical Concepts for Decision Makers

Methods of Data Science

IE 465 Applied Data Science

Data Management and Visualization

BAS 476 Data Engineering and Visualization
GEOG 311 Geovisualization and Geographic Information Science
GEOG 414 Spatial Data Management
INSC 260 Programming for Information Applications
INSC 384 Database Design
INSC 484 Database Applications
INSC 486 Data Analytics
INSC 489 Information Visualization

Ethics and Policy in Data Science

EEB 451* Research Ethics
GEOG 421 Maps, Society, Power
GEOG 425 Human Dimension in GIScience
INSC 305 Internet and Society
PHIL 360* Philosophy of Science
PHIL 371* Epistemology

Data Science in Context

ANTH 446* Archaeological Statistics
BCMB 422* Computational Biology and Bioinformatics
CLAS 446* Archaeological Statistics
EEB 411* Biostatistics
SNR 313 Measurements and Sampling

Rationale* This program is being revised to reflect recommendations from the Data Science curriculum committee, Data Science faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study.

Financial Impact* No financial impact.

Impact on Other Units* No impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

4. CECS 485 has a prerequisite of CECS 385.

5. Students who complete AC 202 in Term 7 must complete AC 302 in Term 8.

6. Students who complete AC 211 in Term 7 must complete AC 311 in Term 8.

*** Meets Volunteer Core Requirement.**

Transdisciplinary Options (TOPS) Elective Requirements

Students must take 18 credit hours of Transdisciplinary Options (TOPS) credit.
Students may complete a certificate, minor, second major, or a second bachelor's degree listed in the undergraduate catalog from the list below to satisfy TOPS credit.
Students may select program electives from list below to satisfy TOPS credit requirements.

Data Science Program Electives

The program elective courses listed below are eligble for TOPS credit. Please consult course catalog for specific course prerequisite requirements.

BAS 320 Regression Modeling
BAS 471 Statistical Methods
BAS 474 Data Mining and Business Analytics
ESM 250* Applied Statistical Concepts for Decision Makers

Methods of Data Science

IE 465 Applied Data Science

Data Management and Visualization

BAS 476 Data Engineering and Visualization
GEOG 311 Geovisualization and Geographic Information Science
GEOG 414 Spatial Data Management
INSC 260 Programming for Information Applications
INSC 384 Database Design
INSC 484 Database Applications
INSC 486 Data Analytics
INSC 489 Information Visualization

Ethics and Policy in Data Science

EEB 451* Research Ethics
GEOG 421 Maps, Society, Power
GEOG 425 Human Dimension in GIScience
INSC 305 Internet and Society

PHIL 371* Epistemology

Data Science in Context

ANTH 446* Archaeological Statistics
BCMB 422* Computational Biology and Bioinformatics
CLAS 446* Archaeological Statistics
EEB 411* Biostatistics
SNR 313 Measurements and Sampling

Applied Computing Concentration Requirements

The Applied Computing Concentration consists of 12 credit hours of required coursework. To satisfy the Applied Computing Concentration requirements, students must complete the following courses:

Required Courses (6 credit hours)

AC 101 Introduction to Applied Computing I
AC 102 Introduction to Applied Computing II

Concentration Track - Select one (6 credit hours)

Select one of the following tracks and complete both courses:

Web Development

AC 202 Introduction to Web Development
AC 302 Advanced Web Development

Cloud Computing

AC 211 Introduction to Cloud Computing and Databases
AC 311 Cloud Computing Applications

Rationale*

This program is being revised to align with revisions to the BSDS program. The BSDS program revisions reflect recommendations from the curriculum committee, faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study. No revisions have been made to the concentration courses.

This program is also being revised to remove the DE modality because this concentration is not currently offered under the Distance Education campus code.

Financial Impact*

No financial impact

No financial impact.

Impact on Other Units* There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ○ New major name and keeping the same CIP code

CIP Code* 30.7001

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Data Science Major, BS in Data Science - Bioinformatics Concentration

Degree Type* Bachelor of Science in Data Science

Program Type* Concentration

Description The BSDS degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors. The Bioinformatics concentration (12 credit hours) is intended to equip students with bioinformatics knowledge and skills necessary in a range of settings, including post-graduate studies and work in industry, research institutions, and some government agencies.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Data Science Major, BS in Data Science - Leadership Studies Concentration

Degree Type* Bachelor of Science in Data Science

Program Type* Concentration

Description

Students in the Data Science B.S. program learn to transform raw data into meaningful information using data-oriented programming languages through core data mining, statistics and data modeling skills. Students learn to extract, prepare, and visualize data, which they then model and analyze. Students learn to apply these skills with sector-specific knowledge in the capstone course, where they develop workforce-ready skills on real-world projects. The BSDS degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors.

The Leadership Studies concentration (12 credit hours) is designed to provide students with the opportunity to build foundational knowledge in leadership theory, strengthen leadership skills, and develop leadership capacity through experiential and applied learning opportunities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Footnotes

1. See Transdisciplinary Options (TOPS) Electives Requirements below for additional information.

2. Expanded Perspectives Electives must total 6 credit hours from any courses on the approved Arts and Humanities (AH), Social Sciences (SS), Global Citizenship - International (GCI), or Global Citizenship - United States (GCUS) or Applied Arts and Humanities (AAH) lists.

3. Concentration requirement. See Sport Analytics Concentration Requirements below for additional information.

4. CECS 485 has a prerequisite of CECS 385.

* Meets Volunteer Core Requirement.

Transdisciplinary Options (TOPS) Elective Requirements

Students must take 18 credit hours of Transdisciplinary Options (TOPS) credit.
Students may complete a certificate, minor, second major, or a second bachelor's degree listed in the undergraduate catalog from the list below to satisfy TOPS credit.
Students may select program electives from list below to satisfy TOPS credit requirements.

Data Science Program Electives

The program elective courses listed below are eligble for TOPS credit. Please consult course catalog for specific course prerequisite requirements.

Mathematical and Statistical Foundations of Data Science

BAS 320 Regression Modeling
BAS 471 Statistical Methods
BAS 474 Data Mining and Business Analytics
ESM 250* Applied Statistical Concepts for Decision Makers

Methods of Data Science

IE 465 Applied Data Science

Data Management and Visualization

BAS 476 Data Engineering and Visualization
GEOG 311 Geovisualization and Geographic Information Science
GEOG 414 Spatial Data Management
INSC 260 Programming for Information Applications
INSC 384 Database Design
INSC 484 Database Applications
INSC 486 Data Analytics
INSC 489 Information Visualization

Ethics and Policy in Data Science

EEB 451* Research Ethics
GEOG 421 Maps, Society, Power
GEOG 425 Human Dimension in GIScience
INSC 305 Internet and Society
PHIL 360* Philosophy of Science
PHIL 371* Epistemology

Data Science in Context

ANTH 446* Archaeological Statistics
BCMB 422* Computational Biology and Bioinformatics
CLAS 446* Archaeological Statistics
EEB 411* Biostatistics
SNR 313 Measurements and Sampling

Sport Analytics Concentration Requirements

The Sport Analytics Concentration consists of 12 credit hours of required coursework. To satisfy the Sport Analytics Concentration requirements, students must complete the following courses:

Required Course (3 credit hours)

Select one course:

KNS 355 Analytical Methods in Sport
RSM 355 Analytical Methods in Sport

Required Course (3 credit hours)

Select one course:

KNS 200 Introduction to Kinesiology
RSM 250 Foundations of Sport Management

Elective Courses (6 credit hours)

Select two courses from the list below:

ADPR 365 Social Media Strategy
ADPR 415 Social Media Analytics
BAS 310 Analytic Models for Decision Optimization
BAS 320 Regression Modeling
BAS 340 Experimental Methods and Process Improvement
BAS 454 Data Visualization for Business Analysts
JMED 416 Audience Analytics
JMED 419 Communicating with Data
RMM 376 Customer Experience Analytics
RMM 425 Retail Category Management

Rationale*

This program is being revised to align with revisions to the BSDS program. The BSDS program revisions reflect recommendations from the curriculum committee, faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study. No revisions have been made to the concentration courses.

This program is also being revised to remove the DE modality because this concentration is not currently offered under the Distance Education campus code.

Financial Impact* No financial impact.

Impact on Other Units* There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ○ New major name and keeping the same CIP code

CIP Code* 30.7001

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Data Science Major, BS in Data Science - Technical Communication Concentration

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Data Science Major, BS in Data Science - Technical Communication Concentration

Degree Type* Bachelor of Science in Data Science

Program Type* Concentration

Description Students in the Data Science B.S. program learn to transform raw data into meaningful information using data-oriented programming languages through core data mining, statistics and data modeling skills. Students learn to extract, prepare, and visualize data, which they then model and analyze. Students learn to apply these skills with sector-specific knowledge in the capstone course, where they develop workforce-ready skills on real-world projects. The BSDS degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors. The Technical Communication concentration (12 credit hours) is designed to prepare students to effectively convey complex technical information to diverse audiences using industry-standard tools and best practices.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- ☐ Program Name
- ☐ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)
- ☐ Certificate Type
- ☐ Other (include in Rationale)

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Data Science Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The intercollegiate Data Science minor consists of six courses and 18 hours. Two core courses give students a broad background in the foundations of Data Science. Three elective courses allow students to apply Data Science techniques to a specific field, to deepen their understanding of Data Science methodologies, or to gain further background in the ethical and policy considerations of Data Science. In the sixth course, students pursue an interdisciplinary, team-based capstone experience.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Experiential Medical Science Certificate

2026-2027 UG Add Program

General Catalog Information

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Experiential Medical Science Certificate

Learning Outcomes

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Experiential Medical Science Certificate is a 12-credit, practicum-based program that introduces students to foundational translational research concepts through supervised engagement in real healthcare, public health, or health-industry environments. Students gain exposure to the language, systems, and professional culture of healthcare while completing structured applied-inquiry activities such as data collection, workflow evaluation, usability observation, or protocol review. These experiential research tasks are designed to build early competencies that support future participation in clinical careers, clinical research, digital health innovation, and translational problem-solving. Practicum sites may include hospitals, clinical research teams, public health agencies, or medical technology organizations, allowing students to tailor experiences to pre-medical, health-industry, or innovation-focused pathways.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Credit Hours Required

The Experiential Medical Science Certificate consists of 12 credit hours.

Admission Standards

Applicants must demonstrate strong academic preparation, professional readiness, and a clear commitment to their intended track.

Requirements include:

Completion of MEDS 201 (Designing Your Healthcare Pathway) with a minimum grade of A- prior to fall admission. **This requirement may be waived at the discretion of the department.*
Minimum student level- junior.
Minimum cumulative GPA of 3.5.
Statement of intent articulating the student's chosen track and professional goals.

Personal interview assessing readiness for experiential placements in hospitals, public health settings, or industry.

Academic Standards

Students must maintain a minimum cumulative GPA of 3.5 across all courses required for the certificate.

Required Courses (12 credit hours)

Complete courses as listed below:

MEDS 401 Medical Terminology and Healthcare Ethics
MEDS 410 Understanding Healthcare Systems
MEDS 420 Clinical and Applied Research
MEDS 430 Leadership in Healthcare

Rationale* The Experiential Medical Science Certificate prepares students for structured applied-research engagement within healthcare, public health, and health-technology environments. Through supervised experiential placements, students develop foundational competencies in clinical inquiry, systems evaluation, and translational problem-solving. At the completion of the certificate, students will be able to apply principles of research ethics, observational methodology, and systems analysis to real healthcare settings, demonstrating early translational research readiness that supports future clinical, public health, or biomedical innovation pathways.

Financial Impact* CECS faculty and staff will oversee the implementation of this certificate.

Impact on Other Units* No impact on other units.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

CIP Code * 51.1401

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ◉ Yes ○ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Game Craft Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description The undergraduate certificate in Game Craft is a focused and hands-on academic program that provides students with a comprehensive introduction to the art and science of game design and development. This program is designed to equip individuals with the foundational skills and knowledge needed to enter the dynamic and rapidly evolving field of game development.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- ☐ Program Name
- ☐ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)
- ☐ Certificate Type
- ☐ Other (include in Rationale)

Requirements*

Campus: Knoxville

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Human-Intelligent Systems Interaction Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description This certificate program provides students with foundational knowledge and skills at the intersection of human-computer interaction (HCI) and intelligent systems. Learners will explore how humans interact with AI-driven technologies, focusing on user-centered design, adaptive systems, and ethical considerations. Through hands-on projects and interdisciplinary learning, students will develop the ability to design, prototype, and evaluate intelligent systems that enhance user experience and address real-world challenges.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Human-Intelligent Systems Interaction Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description The minor in Human Interaction and Intelligent Systems equips students with interdisciplinary knowledge at the intersection of human-computer interaction (HCI) and intelligent technologies. This program emphasizes user-centered design, adaptive system development, and the ethical integration of AI and machine learning into everyday applications. Students will gain skills in designing accessible and engaging interfaces, analyzing user behavior, and addressing societal challenges associated with intelligent systems. The program culminates in a hands-on capstone project, where students collaborate on real-world challenges to design, prototype, and test intelligent systems that address user needs in fields such as healthcare, education, entertainment, or public services.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Innovative Transdisciplinary Studies Major, BS in Innovative Transdisciplinary Studies

Degree Type* Bachelor of Science in Innovative Transdisciplinary Studies

Program Type* Undergrad (Major)

Description The Bachelor of Science in Innovative Transdisciplinary Studies (BS-ITS) will consist of 120 total student credit hours, as required for any bachelor's degree at the University of Tennessee. Out of the total 120 credit hours, 27 hours will be core courses, including two capstone courses. The BS-ITS is designed to prepare all the enrolled students to succeed in the transdisciplinary workforce; therefore, these 27 credit hours (9 courses) will orient students with concepts of transdisciplinary studies, including synthesizing relevant content from across disciplines, research methods, and problem-solving for transdisciplinary projects. Each student will also complete any three certificates listed in the academic catalog as part of the degree program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Footnotes

A certificate course is any course applied toward the completion of an approved certificate program. The ITS degree requires students to complete a total of **three certificate programs**. Completion of any three certificates listed within the academic catalog will fulfill this requirement.
Expanded Perspectives Electives must total 6 credit hours from any courses on the approved Arts and Humanities (AH), Social Sciences (SS), Global Citizenship - International (GCI), or Global Citizenship - United States (GCUS) or Applied Arts and Humanities (AAH) lists

* Meets Volunteer Core Requirements.

Rationale* This program is being revised to reflect recommendations from faculty and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study.

This program is also being revised to remove the DE modality. This program is not currently offered under the Distance Education campus code.

Financial Impact* No financial impact.

Impact on Other Units* There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

CIP Code* 30.0601

Footnotes:

A certificate course is any course applied toward the completion of an approved certificate program. The ITS degree requires students to complete a total of three certificate programs. The Applied Computing concentration satisfies one of the three certificate program requirements. Completion of two additional certificates listed within the academic catalog will fulfill this requirement.
Expanded Perspectives Electives must total 6 credit hours from any courses on the approved Arts and Humanities (AH), Social Sciences (SS), Global Citizenship - International (GCI), or Global Citizenship - United States (GCUS) or Applied Arts and Humanities (AAH) lists
Concentration requirement. See Applied Computing Concentration Requirements below for additional information.
Students who complete AC 202 in Term 7 must complete AC 302 in Term 8.
Students who complete AC 211 in Term 7 must complete AC 311 in Term 8.

* Meets Volunteer Core Requirements.

Applied Computing Concentration Requirements

Required Courses (6 credit hours)

AC 101 Introduction to Applied Computing I
AC 102 Introduction to Applied Computing II

Concentration Track - Select one track and complete both courses (6 credit hours)

Web Development

AC 202 Introduction to Web Development
AC 302 Advanced Web Development

Cloud Computing

AC 211 Introduction to Cloud Computing and Databases
AC 311 Cloud Computing Applications

Rationale* This program is being revised to align with revisions to the BSITS program. The BSITS program revisions reflect recommendations from the curriculum committees, faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study. No revisions have been made to the concentration courses.

This program is also being revised to remove the DE modality because this concentration is not currently offered under the Distance Education campus code.

Financial Impact* No financial imapct

Impact on Other Units* There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

CIP Code* 30.0601

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Innovative Transdisciplinary Studies Major, BS in Innovative Transdisciplinary Studies - Human-Intelligent Systems Interaction Concentration

Degree Type* Bachelor of Science in Innovative Transdisciplinary Studies

Program Type* Concentration

Description The BS in Innovative Transdisciplinary Studies degree program is a 120-credit, 4-year B.S. program that provides customizable transdisciplinary options including stackable certificates, concentrations and minors. The core courses in this program orient students with concepts of transdisciplinary studies, including synthesizing relevant content from across disciplines, research methods, and problem-solving for transdisciplinary projects. The Human-Intelligent Systems Interaction concentration (12 credit hours) provides students with foundational knowledge and skills at the intersection of human-computer interaction (HCI) and intelligent systems and prepares them to apply these skills to successfully solve real-world problems as members of transdisciplinary teams.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- ☐ Program Name
- ☐ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)
- ☐ Certificate Type
- ☐ Other (include in Rationale)

The Technical Communication concentration satisfies one of the three certificate program requirements. Completion of two additional certificates listed within the academic catalog will fulfill this requirement.

Expanded Perspectives Electives must total 6 credit hours from any courses on the approved Arts and Humanities (AH), Social Sciences (SS), Global Citizenship - International (GCI), or Global Citizenship - United States (GCUS) or Applied Arts and Humanities (AAH) lists

Concentration requirement. See Technical Communication Concentration Requirements below for additional information.

*** Meets Volunteer Core Requirements.**

Technical Communication Concentration Requirements

The Technical Communication Concentration consists of 12 credit hours of required coursework. To satisfy the Technical Communication Concentration requirements, students must complete the following courses:

Complete:

ENGL 360* Technical and Professional Writing

Select two courses:

ENGL 460 Technical Editing
ENGL 461* Global Communication for Science and Technology
ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents

Select one additional course in rhetoric or writing:

ENGL 355* Rhetoric and Writing
ENGL 357* Honors: Rhetoric and Writing
ENGL 455* Persuasive Writing
ENGL 460 Technical Editing
ENGL 461* Global Communication for Science and Technology
ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents
ENGL 470 Special Topics in Rhetoric
ENGL 494* Cultural Rhetorics

Rationale*

This program is being revised to align with revisions to the BSITS program. The BSITS program revisions reflect recommendations from the curriculum committees, faculty, and CECS advisors to strengthen core curriculum and improve alignment across CECS programs. The revisions also expand opportunities for students to engage in applied, experiential, and interdisciplinary learning, ensuring graduates are well prepared for professional practice or graduate study. No revisions have been made to the concentration courses.

This program is also being revised to remove the DE modality because this concentration is not currently offered under the Distance Education campus code.

Financial Impact*

No financial impact.

Impact on Other Units*

There is no impact on other units. No courses from other units have been added or removed from the program.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change

○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

CIP Code* 30.0601

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Literacy on Emerging Topics Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description The Undergraduate Certificate in Emerging Topics Literacy is designed to equip students with the essential skills and knowledge required to navigate, critically analyze, and communicate effectively about emerging issues within their chosen field. In an ever-evolving landscape, this program provides a foundation for understanding the dynamic nature of emerging topics, fostering adaptability, and promoting interdisciplinary perspectives.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- ☐ Program Name
- ☐ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Nuclear Deterrence Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description

As long as there are states that seek to or have nuclear weapons, especially in the current era of global geopolitical instability it's vital that the United States has a talent pipeline of nuclear experts to avoid nuclear crisis. The waning interest in the study of nuclear deterrence in the aftermath of the Cold War, coupled with the increasing retirement of nuclear experts, is leading to a large gap between the need for nuclear expertise and the number of students trained to deal with nuclear threats.

The interdisciplinary Nuclear Deterrence Certificate program for undergraduate students is the first step in educating the next generation of U.S. leaders in nuclear deterrence. The program offers a rigorous curriculum from numerous colleges across UTK providing students with a solid understanding of technology, social sciences, and leadership as they relate to nuclear deterrence.

Undergraduate students in the Nuclear Deterrence certificate program will gain a deep understanding of deterrence concepts and theory, strategy and doctrine, technologies, insights into international relations and conflict frameworks, and leadership development.

Upon completion of this certificate, students are qualified for junior positions in the federal government and military, national laboratories, think tanks, and international institutions specializing in defense and security.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Credit Hours Required

The Professional Advancement Through Hands-On Learning (PATH) Certificate consists of 12 credit hours.

Academic Standards

Students must pass each course with a C or above to receive credit for the certificate.

Required Courses (9 credit hours)

Complete courses as listed below:

CECS 101* Design Your Career, Design Your Degree
CECS 201 Industry CoLab
CECS 301 Industry Action Lab
[After] ***The requirement to complete CECS 301 may be waived at the discretion of the Dean of CECS or their delegate.***

Elective Course (3 credit hours)

[1]Select one course from the list below:

CECS 365 Service to Community
CECS 375 Internship in Emerging Technologies
CECS 385 Transdisciplinary Research Methods in Emerging Technologies
CECS 399 CECS Transdisciplinary Capstone

Footnotes

[1]Any course that is listed with an R, N, or S designation in the undergraduate catalog can also be used to satisfy the elective course requirement.

Rationale* This certificate is being revised as listed below:

- Removing Distance Education modality because courses in the certificate program of study are not currently available in the DE catalog.
- Removing CECS 475, 485, and 499. The 400 level service, internship, and research courses in CECS are restricted to CECS majors.
- Adding a service course (CECS 365)
- Updating language to reflect CECS 301 requirement may be waived at the discretion of the Dean of CECS or their delegate.

Financial Impact* No financial impact.

[Left] 1
BAS 454 Data Visualization for Business Analysts
DATA 203* Analytical Methods of Data Science
JMED 416 Audience Analytics
JMED 419 Communicating with Data
[Left] 1
RMM 376 Customer Experience Analytics
[Left] 1, 2
RMM 425 Retail Category Management

Footnotes

[1] Course has its own set of prerequisites. Please consult the catalog for more information.

[2] Course has registration restrictions. Please consult the catalog for more information.

*** Satisfies Volunteer Core Requirement.**

Rationale*

CECS is revising this certificate to add KNS 355 as it is crosslisted with RSM 355 and should be included as an alternative to RSM 355 in the list of required courses.

CECS is removing the Distance Education modality (campus code) from this certificate program as one of the required courses is not available in the Distance Education (online) modality. The modality change was already approved however this proposal is needed to include additional curricular changes that were not included in the earlier proposal.

Financial Impact*

No financial impact.

Impact on Other Units*

This course was approved to be included when the certificate was proposed last year. There will be no additional impact related to this revision.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Students and learners who complete the Sport Analytics Minor program are prepared to partner with various transdisciplinary personnel to bridge data management, computer science, statistical analysis, emerging technology, and sport acumen to make data-driven strategic decisions.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Credit Hours Required

The Sport Analytics Minor consists of 18 credit hours of coursework.

Required Courses (9 credit hours)

Complete all courses listed below:

DATA 101* Data Knowledge and Discovery
DATA 202* Data Management and Visualization
[Before]Select one:

KNS 355 Analytical Methods in Sport
[Before]or

RSM 355 Analytical Methods in Sport

Elective Courses (6 credit hours)

Select any two courses from the following list:

ADPR 365 Social Media Strategy
ADPR 415 Social Media Analytics
BAS 310 Analytic Models for Decision Optimization
BAS 320 Regression Modeling
BAS 340 Experimental Methods and Process Improvement
BAS 454 Data Visualization for Business Analysts
JMED 416 Audience Analytics
JMED 419 Communicating with Data
RMM 376 Customer Experience Analytics

Required Capstone Course (3 credit hours)

Complete:

CECS 399 CECS Transdisciplinary Capstone
[After]

*** Satisfies Volunteer Core Requirement**

Rationale*

The minor in Sport Analytics has been developed to expand upon the existing Sport Analytics certificate program. It enhances career readiness, aligns with industry trends, and provides a valuable complement to existing undergraduate degree programs.

Financial Impact*

All courses from other units have been approved to be included in this program. There is no additional financial impact to consider.

Impact on Other Units*

The following units have courses listed as required courses or electives in the Sport Analytics Minor:

- Advertising and Public Relations (ADPR)
- Business Analytics and Statistics (BAS)
- Journalism and Media (JMED)
- Kinesiology, Recreation, and Sport Studies (KNS, RSM)
- Retail and Merchandising Management (RMM)

Department approvals are attached to proposal.

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No
- ( ) No Impact

CIP Code * N/A

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?*

- ( ) Yes
- (•) No

Per Institutional Effectiveness, does this proposal require SACSCOC action?*

- ( ) Yes
- (•) No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

Written Communication

English first-year composition

Notes

College of Emerging and Collaborative Studies - College of Emerging and Collaborative Studies - Sustainable Development Certificate

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Emerging and Collaborative Studies

Department* College of Emerging and Collaborative Studies

Program Name* Sustainable Development Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description The Sustainable Development Certificate is intended for working professionals, graduate, and undergraduate students interested in incorporating the United Nations Sustainable Development Goals (UN SDGs) into their current practice and skills. This certificate is intended to increase sustainable development competency both internationally and domestically, and to prepare students for a career in private industry, the government, or a non-governmental organization. This certificate is intended to be an accelerated program and students can complete the certificate within an academic year. The certificate is available to individuals who are 1) pursuing any academic programs at the University of Tennessee or 2) a current student at an outside accredited 4-year post-secondary institution or 3) post-baccalaureate and enrolled solely in the certificate program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On, Stand-Alone

College of Emerging and Collaborative Studies - DATA - 111

2026-2027 UG Add Course

General Catalog Information

College* College of Emerging and Collaborative Studies

Department (Acalog Hierarchy)* College of Emerging and Collaborative Studies

Subject/Prefix (choose from list)* DATA

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 111

Course Title (max 100 characters)* Data Knowledge and Discovery for Majors

Experience Learning Designation
- ○ N (Internship)
- ○ R (Research)
- ○ S (Service Learning)

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description Introduction to the essential elements of data science through the examination of data sets drawn from a variety of fields. Explores data collection and management, exploration and visualization of data, modeling, computing, and ethical issues associated with data science. Introduces students to programming through hands-on activities.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction Students may not receive credit for both DATA 101 and DATA 111.

Course Description Covers basics of data visualization and exploratory data analysis. This course is project-oriented and focuses on foundational concepts, recent research results, and best practices for combining raw data from a variety of domains with automated analytical methods and interactive visual interfaces to support analytical reasoning.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Credit Hours* 1

Course Description MEDS 201 is an exploratory, student-centered course that introduces students to the wide landscape of careers across healthcare, health technology, public health, and medical innovation. Using design thinking methods, students map their interests, strengths, and long-term goals to a personalized healthcare pathway. Through guided activities, career immersion modules, conversations with practitioners, and reflective assignments, students gain clarity on the academic and experiential trajectory that best aligns with their aspirations. By the end of the course, each student develops an individualized pathway plan that supports entry into one of the program's specialized tracks.

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description

Students will embark on a comprehensive exploration of the transformative potential of artificial intelligence and data science in the medical and healthcare sectors. The course delves into the practical application of AI algorithms and data science tools for diagnosing diseases, predicting patient outcomes, optimizing treatment plans, and enhancing patient care. Students will be introduced to real-world clinical problems and collectively explore potential AI and data-driven solutions for those problems. This collaborative approach ensures that all students gain exposure to various clinical scenarios. It also lays the groundwork for individual project work, which becomes the focal point in subsequent advanced courses like MEDS 451.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

Course Description

Building upon foundational knowledge, this advanced course offers a deep dive into the multifaceted role of artificial intelligence and data science across various medical disciplines. Rather than adhering to a traditional structure, students will immerse themselves in collaborative research projects, gaining hands-on experience in real-world healthcare settings. This course aims to refine students' skills and understanding, preparing them for leadership roles in AI and data-driven medical innovations. Through hands-on projects and real-world case studies, students will develop AI and data-driven solutions to address pressing clinical challenges. Collaborative group projects will provide opportunities for students to design, implement, and evaluate AI models and data science tools tailored for specific clinical scenarios. In addition to technical skills, emphasis will be placed on the ethical considerations, data privacy issues, and the patient-centric approach required when integrating AI and data science into clinical settings. By the end of the course, students will be equipped with the skills and knowledge to innovate and contribute meaningfully to the rapidly evolving landscape of AI and data science in medicine.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Nursing

Department* College of Nursing

Program Name* Nursing Major (Accelerated Track), BS in Nursing

Degree Type* Bachelor of Science in Nursing

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Accelerated Track for Bachelor of Science in Nursing

An accelerated track is available for non-nurses with a prior baccalaureate degree.

Accelerated Track Admission

Students will be selected on the basis of the following criteria:

Cumulative GPA for all courses completed.

Cumulative GPA in required prerequisite courses.

Number of course withdrawals and repetitions.

Grade improvement over time.

Probability of completing all required prerequisite courses prior to fall semester.

Interest in and commitment to nursing.

Availability of space.

The admission process is highly selective, with more qualified applicants than spaces available. If a student is selected for admission but then fails to successfully complete all required prerequisites with a grade of C or better prior to beginning the nursing sequence, the student will not progress into the accelerated BSN program.

Dual Application Process

For applicants seeking to enroll in a College of Nursing Graduate Program directly after the conclusion of the ABSN program, applicants would notate this track on their University of Tennessee Application. Applicants will then complete the necessary admission requirements set forth by the Graduate Programs. (Not applicable for BSN-DNP Nurse Anesthesia Concentration)

Students in the accelerated track must complete the following prerequisite courses prior to admission:

BCMB 230 Human Physiology
HDFS 210* Human Development
MICR 210* Allied Health Microbiology
[After]
[Before]Select one course:
MATH 115* Statistical Reasoning
STAT 201* Introduction to Statistics
[After]
[Before]Select one pair of courses:
EEB 250 Human Anatomy
[Right] and
EEB 251 Human Anatomy Laboratory
[After] or
NURS 250 Human Anatomy
[Right] and
NURS 251 Human Anatomy Laboratory
[After] or
ANTH 250 Human Anatomy
[Right] and
ANTH 251 Human Anatomy Laboratory
[After]

Total prerequisite coursework: 18 hours (dependent on A and P courses).

Comparable coursework may be taken as prerequisites at any accredited college or university and transferred to the University of Tennessee, Knoxville. Prerequisites must be completed prior to beginning the nursing sequence in the Accelerated BSN track.

Course Requirements (47 hours)

NURS 309 Clinical Immersion I for the Accelerated Student
NURS 316 Pathophysiology for the Accelerated Student
NURS 322 Foundations of Professional Nursing Practice for the Accelerated Student
NURS 333 Health Assessment for the Accelerated Student
NURS 351 Pharmacotherapeutics for the Accelerated Student
NURS 354 Leadership I for the Accelerated Student
NURS 371 Introduction to Evidence-Based Practice
NURS 415 Maternal-Newborn Nursing for the Accelerated Student
NURS 419 Nursing Care of Adults for the Accelerated Student
NURS 420 Clinical Immersion II for the Accelerated Student
NURS 422 Psychiatric Mental Health Nursing for the Accelerated Student
NURS 432 Population Health for the Accelerated Student
NURS 433 Clinical Immersion IV for the Accelerated Student
NURS 444 Pediatric Nursing for the Accelerated Student
NURS 445 Clinical Immersion III for the Accelerated Student
NURS 446 Clinical Immersion V - Capstone for the Accelerated Student
NURS 454 Leadership II for the Accelerated Student
NURS 471R Introduction to Evidence-Based Practice for the Accelerated Student
[After]
[After] * Meets Volunteer Core Requirements.

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

NURS 309 Clinical Immersion I for the Accelerated Student
NURS 316 Pathophysiology for the Accelerated Student
NURS 322 Foundations of Professional Nursing Practice for the Accelerated Student
NURS 333 Health Assessment for the Accelerated Student
NURS 354 Leadership I for the Accelerated Student

Credit Hours 14

Term 1 Milestone Notes

[Before]Complete all with a grade of C or better:
NURS 309 Clinical Immersion I for the Accelerated Student
NURS 316 Pathophysiology for the Accelerated Student
NURS 322 Foundations of Professional Nursing Practice for the Accelerated Student
NURS 333 Health Assessment for the Accelerated Student
NURS 354 Leadership I for the Accelerated Student

Term 2

NURS 351 Pharmacotherapeutics for the Accelerated Student
NURS 419 Nursing Care of Adults for the Accelerated Student
NURS 420 Clinical Immersion II for the Accelerated Student
NURS 422 Psychiatric Mental Health Nursing for the Accelerated Student
NURS 471R Introduction to Evidence-Based Practice for the Accelerated Student

Credit Hours 17

Term 2 Milestone Notes

[Before]Complete all with a grade of C or better:
NURS 351 Pharmacotherapeutics for the Accelerated Student
NURS 419 Nursing Care of Adults for the Accelerated Student
NURS 420 Clinical Immersion II for the Accelerated Student
NURS 422 Psychiatric Mental Health Nursing for the Accelerated Student
NURS 471R Introduction to Evidence-Based Practice for the Accelerated Student

Term 3

NURS 415 Maternal-Newborn Nursing for the Accelerated Student
NURS 432 Population Health for the Accelerated Student
NURS 433 Clinical Immersion IV for the Accelerated Student
NURS 444 Pediatric Nursing for the Accelerated Student
NURS 445 Clinical Immersion III for the Accelerated Student
NURS 446 Clinical Immersion V - Capstone for the Accelerated Student
NURS 454 Leadership II for the Accelerated Student

Credit Hours 16

Term 3 Milestone Notes

NURS 415 Maternal-Newborn Nursing for the Accelerated Student
NURS 432 Population Health for the Accelerated Student
NURS 433 Clinical Immersion IV for the Accelerated Student
NURS 444 Pediatric Nursing for the Accelerated Student
NURS 445 Clinical Immersion III for the Accelerated Student
NURS 446 Clinical Immersion V - Capstone for the Accelerated Student
NURS 454 Leadership II for the Accelerated Student

Total Credit Hours 47

Footnotes

Note that students on the Accelerated Track are not monitored in uTrack.

Rationale* Division of NURS 445 into two courses will provide separate clinical experiences and clinical hours for med-surg and specialty focus. Creating distinct courses provides clarity and ensures more accurate assessment of each clinical experience.

Financial Impact* none

Impact on Other Units* none

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Course Description Provides beginning students the opportunity to practice health promotion, health restoration, and health maintenance within a specialty area such as childbearing women, children, individuals with mental health conditions, emergency trauma, requiring critical care, palliative and hospice care, or aging adults. Builds on the foundation of nursing knowledge, communication skills, and critical reasoning to address unique needs of the specialty population selected. Experiences are in a variety of settings, supplemented with simulation.

Course Description This course builds on previous clinical immersion experiences, students apply advanced evidence-based knowledge to deliver person-centered care within a nursing specialty area and a general medical-surgical area. Nursing specialties may include pediatric care, maternal-newborn care, emergency care, critical care, medical-surgical care, perioperative care, and psychiatric care. In the medical-surgical component, students transition into the role of a professional nurse through an intensive preceptorship type of experience. Through hands-on practice, simulation, and reflective techniques, students deepen their clinical competencies, foster professional growth, and prepare for the responsibilities and challenges of autonomous nursing practice.

Course Description This is a capstone clinical immersion course that builds on previous clinical immersion experiences. Students apply advanced evidence-based knowledge to deliver safe, high-quality, person-centered care across diverse patient populations. Students transition into the role of a professional nurse through an intensive preceptorship type of experience. Through hands-on practice, simulation, and reflective techniques, students deepen their clinical competencies, critical thinking, foster professional growth, and prepare for the responsibilities and challenges of autonomous nursing practice.

Statement about Crosslistings:

College of Social Work - College of Social Work - Social Work Major, BS in Social Work - Online BSSW Program

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Social Work

Department* College of Social Work

Program Name* Social Work Major, BS in Social Work - Online BSSW Program

Degree Type* Bachelor of Science in Social Work

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description All curriculum and program requirements for the Online BSSW Program are identical to those required for the on-campus BSSW Program. All required social work courses will be delivered exclusively online using the UT approved online learning management system. Like the on-campus BSSW Program, students will work with their field coordinator to secure their required field/internship placements that occur in a real-world practice setting under the supervision of a professional social worker.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Footnotes

Natural Sciences (NS) - chosen from the Volunteer Core list.

Global Citizenship courses - chosen from the Volunteer Core list.

Arts and Humanities (AH) - chosen from the Volunteer Core list.

Expanded Perspectives - chosen from the Volunteer Core list.

Any Social Sciences course not already required for the major.

Engaged Inquiries (EI) - chosen from the Volunteer Core list.

Any unrestricted elective or social work course not already required for the major.

Any unrestricted elective or social work course not already required for the major.

*** Meets Volunteer Core Requirements.**

Rationale* The proposal aims to align the Online BSSW curriculum schema with the Knoxville campus BSSW program curriculum schema for greater clarity for students transferring into the Online program without an Associates degree. Previous to this proposal, transferring students without an Associates degree would still have needed to complete Vol Core requirements.

Financial Impact* No financial impact as the proposal aims to closely mirror curricular requirements on the Online BSSW program with the Knoxville campus BSSW program.

Impact on Other Units* No impact on other units, as transfer students without an Associates degree would continue to take any required Vol Courses just as they would have prior to this proposal.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Course (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Course (Dynamic Changes) form is to be used for changing the course number, subject code, and/or the department where the course is offered.

All other routine revisions to course requirements can be included in this form. Do not submit a duplicate Revise Course proposal while this form is in the submission and approval process.

College* Haslam College of Business

Department (Acalog Hierarchy)* Accounting and Information Management

Subject/Prefix (choose from list)* ACCT

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 303

Course Title (max 100 characters)* Intermediate Financial Accounting I

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Theory and practice that underlies the preparation, analysis, and use of financial statements with special emphasis on accounting for assets.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction Students may not receive credit for both ACCT 303 and ACCT 311.

Registration Enforced (RE) Prerequisite(s) C or better in ACCT 203.

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s) Majors in the Haslam College of Business.

Registration Permission

Equivalency* ACCT 311

Rationale* This change helps alleviate confusion about the progression of courses in the financial accounting curriculum. Students will start with ACCT 203 (Intro to Financial Accounting), take ACCT 303 (Intermediate Financial Accounting 1), take ACCT 304 (Intermediate Financial Accounting 2) and then take ACCT 403 (Advanced Financial Accounting).

Impact on Other Units*

Course Description Application of accounting theory to complex business transactions, including mergers and acquisitions, equity investments, and foreign currency translation. The course also examines accounting and financial reporting for governmental entities, not-for-profit organizations, and partnerships, emphasizing key differences from for-profit accounting standards and the implications for financial statement analysis.

Statement about Crosslistings:

Recommended Background

Comments

Registration Restriction(s) Majors in the Haslam College of Business.

Registration Permission

Equivalency

Rationale* AIM faculty propose expanding the existing course on business combinations to include governmental, not-for-profit, and partnership accounting. These topics are essential for students pursuing professional accounting careers across public, corporate, and governmental sectors and are covered on the CPA exam. By incorporating these areas, the course will provide broader exposure to the range of entities and transactions accountants encounter in practice, ensuring that students are better prepared for both the CPA exam and for the technical and analytical demands of their careers.

Impact on Other Units* None.

Financial Impact* The instructional resources used for ACCT 508 will shift to the delivery of ACCT 403. However, there will be additional financial resources needed to support teaching additional sections of ACCT 403 due to increased demand at the undergraduate level.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The University of Tennessee has one of the leading accounting programs in the nation. The program emphasizes the conceptual and applied understanding of business information and prepares students for careers in accounting and business.

The faculty strongly encourages students who desire to become professional accountants, such as Certified Public Accountants (CPAs), to continue their formal education in UT's full-time, eleven-month Master of Accountancy (MAcc) program, which is described in the University's Graduate Catalog.

The primary objective of the 30 semester-hour MAcc program is to prepare students for careers as professional accountants. MAcc students select a specialty area in (1) audit/controls or (2) information management or (3) taxation.

Taken together, the BS and MAcc programs provide graduates not only with two academic degrees, but also with the educational requirements to sit for the CPA and/or CISA exam as well as the academic preparation to begin successful careers as professional accountants. Most states, including Tennessee, require 150 semester hours of education to sit for the CPA exam. At UT, students may earn 120 semester hours in the undergraduate program and then 30 hours in the MAcc program, for a total of 150 semester hours. The accounting faculty strongly encourages MAcc students to take the CPA and CISA exams as soon as they qualify.

The UT undergraduate accounting program offers its majors an opportunity to participate in two full-time, highly-structured internship programs. The first internship program emphasizes internships in industry. The second internship program emphasizes internships with public accounting firms. Both internship experiences are full-time and offer relevant work assignments and significant compensation.

The undergraduate accounting curriculum introduces students to the major functional areas of accounting (financial, managerial, etc.). The curriculum also requires students to choose a three-course collateral area in one of five areas that closely complement a career in accounting – business analytics, finance, information management, international business, or real estate.

The UT accounting program has separate *accounting accreditation* from AACSB International and is one of the first accounting programs to have earned this designation. As an accredited program, the UT accounting program continuously meets or exceeds a rigorous set of international accreditation standards and is peer reviewed on a regular basis.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes:

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major. ACCT 492 may be used for unrestricted electives to help undergraduate students reach the 30 hours necessary to sit for the CPA exam. Students admitted to Smith Global Leadership Scholars will fulfill 13 hours of electives with the following courses - BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
Students pursuing a collateral in Finance or Real Estate must choose FINC 306.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core - Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Students who plan on pursuing the Master of Accountancy are encouraged to take ACCT 411.

* Meets Volunteer Core Requirement.

Real Estate

FINC 381 Real Estate Principles
FINC 481 Real Estate Finance and Investment Analysis
[Before] Select one course:

FINC 382 Real Estate Law
FINC 482 Real Estate Cases

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

The new ACCT 403 requirement provides three additional hours of financial accounting for the major and helps better prepare students for the CPA exam and potential careers in related fields. Additionally, the coursework for the Real Estate collateral was revised to include a new course to provide students with more options.

Financial Impact*

The instructional resources used for ACCT 508 will shift to the delivery of ACCT 403. However, there will be additional financial resources needed to teach additional sections of ACCT 403 due to increased demand at the undergraduate level.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The University of Tennessee has one of the leading accounting programs in the nation. The program emphasizes the conceptual and applied understanding of business information and prepares students for careers in accounting and business.

The faculty strongly encourages students who desire to become professional accountants, such as Certified Public Accountants (CPAs), to continue their formal education in UT's full-time, eleven-month Master of Accountancy (MAcc) program, which is described in the University's Graduate Catalog.

The primary objective of the 30 semester-hour MAcc program is to prepare students for careers as professional accountants. MAcc students select a specialty area in (1) audit/controls or (2) information management or (3) taxation.

Taken together, the BS and MAcc programs provide graduates not only with two academic degrees, but also with the educational requirements to sit for the CPA and/or CISA exam as well as the academic preparation to begin successful careers as professional accountants. Most states, including Tennessee, require 150 semester hours of education to sit for the CPA exam. At UT, students may earn 120 semester hours in the undergraduate program and then 30 hours in the MAcc program, for a total of 150 semester hours. The accounting faculty strongly encourages MAcc students to take the CPA and CISA exams as soon as they qualify.

The UT undergraduate accounting program offers its majors an opportunity to participate in two full-time, highly-structured internship programs. The first internship program emphasizes internships in industry. The second internship program emphasizes internships with public accounting firms. Both internship experiences are full-time and offer relevant work assignments and significant compensation.

The UT accounting program has separate accounting accreditation from AACSB International and is one of the first accounting programs to have earned this designation. As an accredited program, the UT accounting program continuously meets or exceeds a rigorous set of international accreditation standards and is peer reviewed on a regular basis.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major. ACCT 492 may be used for unrestricted electives to help undergraduate students reach the 30 hours necessary to sit for the CPA exam.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Students who plan to enter the Master of Accountancy program will need to take ACCT 411 to fulfill three hours of electives. ACCT 411 and ACCT 431 are prerequisites to the MAcc program.

***Meets Volunteer Core Requirements.**

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced to make up for these changes and keep the program at 120 total hours. The new ACCT 403 requirement provides three additional hours of financial accounting for the major and helps better prepare students for the CPA exam and potential careers in related fields.

Additionally, MGT 380 is added as a requirement for the concentration to ensure that the engineering and business students in the Heath Integrated Business and Engineering Program are acquiring a certain level of business acumen at the same time and to enable them to progress together in such a way as to facilitate their ability to work together on projects integral to the program. Furthermore, project management exposure and skills are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers and Heath IBEP students begin their post-graduation career.

Financial Impact*

The instructional resources used for ACCT 508 will shift to the delivery of ACCT 403. However, there will be additional financial resources needed to teach additional sections of ACCT 403 due to increased demand at the undergraduate level.

Making MGT 380 required for the business students in the Heath IBEP program adds fewer students than would be required for an additional section. The addition of the business students might create enough capacity demand for the creation of an additional section dedicated to students in the Heath Integrated Business and Engineering Program. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The University of Tennessee has one of the leading accounting programs in the nation. The program emphasizes the conceptual and applied understanding of business information and prepares students for careers in accounting and business.

The faculty strongly encourages students who desire to become professional accountants, such as Certified Public Accountants (CPAs), to continue their formal education in UT's full-time, eleven-month Master of Accountancy (MAcc) program, which is described in the University's *Graduate Catalog*.

The primary objective of the 30 semester-hour MAcc program is to prepare students for careers as professional accountants. MAcc students select a specialty area in (1) audit/controls or (2) information management or (3) taxation.

Taken together, the BS and MAcc programs provide graduates not only with two academic degrees, but also with the educational requirements to sit for the CPA and/or CISA exam as well as the academic preparation to begin successful careers as professional accountants. Most states, including Tennessee, require 150 semester hours of education to sit for the CPA exam. At UT, students may earn 120 semester hours in the undergraduate program and then 30 hours in the MAcc program, for a total of 150 semester hours. The accounting faculty strongly encourages MAcc students to take the CPA and CISA exam as soon as they qualify.

The UT undergraduate accounting program offers its majors an opportunity to participate in two full-time, highly-structured internship programs. The first internship program (summer program) emphasizes internships in industry. The second internship program (spring program) emphasizes internships with public accounting firms. Both internship experiences are full-time and offer relevant work assignments and significant compensation.

The UT accounting program has separate *accounting accreditation* from AACSB International and is one of the first accounting programs to have earned this designation. As an accredited program, the UT accounting program continuously meets or exceeds a rigorous set of international accreditation standards and is peer reviewed on a regular basis.

Course Description This course provides students with a practical introduction to the rapidly evolving landscape of emerging technologies in the business world. In particular, students will gain a fundamental understanding of Artificial Intelligence (AI) technologies, along with a range of other innovative technologies, including but not limited to Internet of Things (IoT), Blockchain, Cloud and Edge Computing, and Cybersecurity. The fundamental knowledge and practical experiences provided will enable students to be both effective users and innovative integrators of emerging technologies such as AI into diverse business contexts.

Registration Restriction(s) Majors in the Haslam College of Business

Registration Permission

Equivalency* BUAD 220

Rationale* Approximately 18 months ago, the faculty in the Department of Business Analytics & Statistics (BAS) were approached by the Deans in the Haslam College of Business (HCB) and asked to develop an “Emerging Technologies” course. The vision at that time was to make this course required of all HCB majors. As such, we picked the BUAD course designation when we initially proposed the creation of this new course (BUAD 220). Since that time, plans have changed, and it was decided to incorporate some “emerging technologies” concepts into an existing required BUAD course. The faculty in BAS have decided that the content in the 3-hour BUAD 220 course should still be a Business Analytics elective, as it will go much deeper than what all HCB undergraduates will be exposed to in the redesigned BUAD course where some of these topics will be covered. As such, we want to change the course designation from BUAD to BAS, and change the course number from 220 to 401 (but keep the same course title).

Impact on Other Units*

Impact Report for BUAD 220

There are no results for this report.

Financial Impact* When the initial BUAD 220 course was proposed, the BAS department was given permission to hire a new faculty member to help coordinate this course, and to keep it current over time. When plans changed and this course was no longer going to be taken by all HCB students, the Department Head in BAS and Deans in HCB agreed that this new hire could still be made, as enrollments in BAS are increasing, and not only will BAS 401 be initially taught by this new hire, but they will be assigned other BAS courses to teach.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s) Business Analytics majors only, or consent of instructor

Registration Permission

Equivalency

Rationale* Based on typical student behavior, most Business Analytics majors are waiting until very late in their college career to take INMT 342. In many cases, they are taking it in their very last semester, while they take BAS 479 (our Business Analytics capstone course). The faculty in the Department of Business Analytics & Statistics agreed that we want our majors to take this course much earlier. Moving the corequisite requirement for INMT 342 from BAS 479 to BAS 474 will force all students to take this course at least one semester earlier than typically happens now. Having this content earlier will be valuable to students seeking an internship between their junior and senior year.

- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description This course examines how technology platforms and business applications create value by enabling business innovation and generating strategic advantage. Students learn how organizations leverage emerging technologies—especially artificial intelligence (AI)—to streamline processes, augment decision making, and unlock new business opportunities. The course emphasizes how to apply AI tools not only for productivity but also for innovation-oriented, strategic problem solving. Guest speaker sessions with business leaders connect classroom concepts to real-world innovation practices and competitive strategy.

Statement about Crosslistings:

Registration Permission

Equivalency

Rationale* This revision modernizes the course to reflect how the role of information systems has shifted from back-end infrastructure to front-line innovation and strategic value creation. The prior version primarily emphasized system components and basic database concepts—content that is now insufficient for preparing students for today's AI-enabled business environment. The updated course equips students with the skills to understand and apply emerging technologies—particularly artificial intelligence—to drive innovation, improve decision making, and create competitive advantage. Expanding the course from 2 to 3 credit hours allows for deeper experiential learning, hands-on exploration of AI tools, and integration of industry engagement through guest speakers. By centering innovation, strategy, and applied use cases, the revised course better prepares students for upper-division coursework and the realities of a technology-driven workplace.

Equivalency

Rationale* Changes to course title and description reflect the current nature and design of this class. Additionally, the experience far exceeds 2 hours of credit in both learning outcomes and student work requirements. Changing the credit hours from "2" to "2-3" allows us to still offer the 2 credit hour version of the course to current students on older catalogs, ensuring that there are no negative consequences related to Course Program of Study (CPOS). For incoming students on the 2026 catalog, we can offer the class as 3 credit hours to align with the course content and work requirements.

- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This course examines the ethical and legal dimensions of the contemporary domestic business environment. Students will study both foundational legal principles impacting domestic businesses (including but not limited to contracts, torts, regulatory law, employment, and the litigation process) and various ethical theories (including but not limited to utilitarianism, Kantian ethics, and corporate social responsibility). Attention will be given to the question of whether compliance with the law, alone, meets the appropriate ethical standard in the business environment.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Registration Permission

Equivalency

Rationale* To create a course that combines the college requirements for business law and ethics in order to streamline the core curriculum and give three credit hours back to departments to add major hours that best serves their students. Course will eventually replace BULW 301 - Legal Environment of Business 2 Credit Hours. However, during the transition, both courses will be offered.

Impact on Other Units* Minimal. Course will eventually replace BULW 301 - Legal Environment of Business 2 Credit Hours. However, during the transition, both courses will be offered. Impacted units have been notified.

Financial Impact* No impact. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Haslam College of Business - Business Analytics and Statistics - Artificial Intelligence and Statistical Modeling Certificate

2026-2027 UG Add Program

General Catalog Information

College* Haslam College of Business

Department* Business Analytics and Statistics

Program Name* Artificial Intelligence and Statistical Modeling Certificate

Learning Outcomes

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code* ☑ Knoxville Campus ☐ Distance Ed ☐ Nashville Campus ☐ UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The undergraduate certificate in Artificial Intelligence and Statistical Modeling is designed to expose students to a wide variety of emerging technologies related to Artificial Intelligence (AI) and advanced statistical techniques, from generative AI and cloud computing to time series models and nonparametric techniques. The specific topics covered will evolve to ensure the certificate remains aligned with the cutting-edge tools used by leading organizations. Students well-versed in both AI and advanced statistics will be attractive to a wide variety of organizations and will be prepared for more advanced academic studies.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Prerequisites

STAT 201* Introduction to Statistics
BAS 320 Regression Modeling

Required Courses (9 Credit Hours)

BUAD 220 Emerging Technologies in Business
BAS 471 Statistical Methods
BAS 475 Applied Time Series and Forecasting
[After] * Satisfies Volunteer Core Requirements

Rationale* We are observing a significant demand in the job market for individuals with this combination of skills. Specifically, discussions with our corporate partners indicate that a strong understanding of the cutting-edge topics covered in BUAD 220 (Generative AI, Internet Of Things, cloud computing, etc.), combined with the deep statistical modeling capabilities gained in BAS 471 and BAS 475, provides a highly attractive skillset that is crucial for workers across many business disciplines. Based on numerous conversations with corporate contacts, we anticipate that students completing this certificate will be very attractive to the potential employers that hire our students for summer internships and/or full-time jobs.

Financial Impact* If demand is high enough to necessitate new sections of the courses in the certificate, there could be a need for additional faculty and/or GTA capacity to staff these courses. Furthermore, since BAS 320 is a prerequisite for BAS 471 and BAS 475, there could also be a need for additional sections of BAS 320. It is also possible that demand for other BAS electives might decrease if students with an interest in business analytics shift away from other BAS electives and towards the electives in this certificate. However, note that business analytics majors pursuing this certificate would have to take one more BAS elective, since only 2 of the 3 certificate courses could apply to their current degree requirements. This could increase demand for BAS electives, which might require additional sections to be taught. The Department Head of Business Analytics & Statistics, as well as the Deans in the Haslam College of Business, are aware of a potential increase in demand for certain courses and are prepared to provide the necessary resources if needed.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

CIP Code * 52.1302

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The degree in Business Analytics is designed to prepare students for a career in business analytics by developing their business knowledge, their technical skills and their communication skills.

Business analytics involves the use of data analysis and computer models to make better business decisions. Organizations use business analytics to answer strategic questions such as (1) which products and services that we provide are most profitable (2) who are our most profitable customers and (3) where should we locate our retail outlets and our distribution centers. Business analytics are also used for tactical decisions in optimizing an organization's day-to-day operations, marketing, purchasing and pricing decisions.

Banks, credit card companies and insurance companies use business analytics to predict the profitability of potential customers and to offer better deals to the more profitable customers. Online vendors use business analytics to make recommendations to customers. Manufacturers use business analytics to optimize the location of their distribution centers and to optimally manage the movement of products through their supply chain. Retailers use business analytics to grow their revenues through customer loyalty programs. Sports teams have used business analytics to gain a competitive advantage in selecting players and in making tactical decisions on the field.

Business analytics is transforming the way traditional businesses make decisions. It is also the critical element in an entire industry of internet companies that provides services, search capabilities and social networking. These companies use business analytics to glean marketable insights from the massive amounts of data that they collect from their users.

The Business Analytics program also provides students the background to gain industry certifications in commercial software for data analysis and tools used for optimizing online sales and advertising. This further enhances students' job opportunities.

Students who major in Business Analytics need quantitative skills, interpersonal skills, an interest in business and a desire to be a pioneer in a rapidly growing new field.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Footnotes:

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 13 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Select three courses from the following: BAS 310, BAS 340, BAS 370S, BAS 401, BAS 454, BAS 464, BAS 471, BAS 475, BAS 476, BAS 494R (Melton Scholars only).
Students admitted to Melton Scholars program will enroll in BAS 494R; select two courses from BAS 310, BAS 340, BAS 370S, BAS 401, BAS 454, BAS 464, BAS 471, BAS 475, BAS 476.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
Students pursuing a collateral in Finance or Real Estate must choose ACCT 203 or ACCT 208, and FINC 306.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

* Meets Volunteer Core Requirements.

Business Analytics Collateral Options

Advanced Foreign Language

(only available to students pursuing International Business as a secondary major)

9 Hours of 300+ Foreign Language as outlined in International Business Major requirements

SCM 309 Supply Chain Analytics and Decision Making
[After]
[Before]Complete two courses:
SCM 413 Logistics Operations
SCM 414 Manufacturing and Service Operations
SCM 421 Global Strategic and Sustainable Sourcing

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Select two courses from the following: BAS 310, BAS 340, BAS 370S, BAS 401, BAS 454, BAS 464, BAS 471, BAS 475, or BAS 476.

*** Meets Volunteer Core Requirements.**

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Additionally, MGT 380 is added as a requirement for the concentration to ensure that the engineering and business students in the Heath Integrated Business and Engineering Program are acquiring a certain level of business acumen at the same time and to enable them to progress together in such a way as to facilitate their ability to work together on projects integral to the program. Furthermore, project management exposure and skills are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers and Heath IBEP students begin their post-graduation career.

Financial Impact*

Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Making MGT 380 required for the business students in the Heath IBEP program adds fewer students than would be required for an additional section. The addition of the business students might create enough capacity demand for the creation of an additional section dedicated to students in the Heath Integrated Business and Engineering Program. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Business Analytics and Statistics

Program Name* Business Analytics Major, BS in Business Administration - Information Management Concentration

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The degree in Business Analytics is designed to prepare students for a career in business analytics by developing their business knowledge, their technical skills and their communication skills.

Business analytics involves the use of data analysis and computer models to make better business decisions. Organizations use business analytics to answer strategic questions such as (1) which products and services that we provide are most profitable (2) who are our most profitable customers and (3) where should we locate our retail outlets and our distribution centers. Business analytics are also used for tactical decisions in optimizing an organization's day-to-day operations, marketing, purchasing and pricing decisions.

Banks, credit card companies and insurance companies use business analytics to predict the profitability of potential customers and to offer better deals to the more profitable customers. Online vendors use business analytics to make recommendations to customers. Manufacturers use business analytics to optimize the location of their distribution centers and to optimally manage the movement of products through their supply chain. Retailers use business analytics to grow their revenues through customer loyalty programs. Sports teams have used business analytics to gain a competitive advantage in selecting players and in making tactical decisions on the field.

Business analytics is transforming the way traditional businesses make decisions. It is also the critical element in an entire industry of internet companies that provides services, search capabilities and social networking. These companies use business analytics to glean marketable insights from the massive amounts of data that they collect from their users.

The Business Analytics program also provides students the background to gain industry certifications in commercial software for data analysis and tools used for optimizing online sales and advertising. This further enhances students' job opportunities.

Students who major in Business Analytics need quantitative skills, interpersonal skills, an interest in business and a desire to be a pioneer in a rapidly growing new field.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Footnotes:

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH) , Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - International (GCI), or Social Sciences (SS) lists.
Select two courses from the following: BAS 310, BAS 340, BAS 370S, BAS 401, BAS 454, BAS 464, BAS 471, BAS 475, or BAS 476.

* Meets Volunteer Core Requirements.

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Description

The degree in Business Analytics is designed to prepare students for a career in business analytics by developing their business knowledge, their technical skills and their communication skills.

Business analytics involves the use of data analysis and computer models to make better business decisions. Organizations use business analytics to answer strategic questions such as (1) which products and services that we provide are most profitable (2) who are our most profitable customers and (3) where should we locate our retail outlets and our distribution centers. Business analytics are also used for tactical decisions in optimizing an organization's day-to-day operations, marketing, purchasing and pricing decisions.

Banks, credit card companies and insurance companies use business analytics to predict the profitability of potential customers and to offer better deals to the more profitable customers. Online vendors use business analytics to make recommendations to customers. Manufacturers use business analytics to optimize the location of their distribution centers and to optimally manage the movement of products through their supply chain. Retailers use business analytics to grow their revenues through customer loyalty programs. Sports teams have used business analytics to gain a competitive advantage in selecting players and in making tactical decisions on the field.

Business analytics is transforming the way traditional businesses make decisions. It is also the critical element in an entire industry of internet companies that provides services, search capabilities and social networking. These companies use business analytics to glean marketable insights from the massive amounts of data that they collect from their users.

The Business Analytics program also provides students the background to gain industry certifications in commercial software for data analysis and tools used for optimizing online sales and advertising. This further enhances students' job opportunities.

Students who major in Business Analytics need quantitative skills, interpersonal skills, an interest in business and a desire to be a pioneer in a rapidly growing new field.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Select two courses from the following: BAS 310, BAS 340, BAS 370S, BAS 401, BAS 454, BAS 464, BAS 471, BAS 475, or BAS 476.

* Meets Volunteer Core Requirements.

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Business Analytics and Statistics

Program Name* Business Analytics Major, BS in Business Administration - Supply Chain Management Concentration

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The degree in Business Analytics is designed to prepare students for a career in business analytics by developing their business knowledge, their technical skills and their communication skills.

Business analytics involves the use of data analysis and computer models to make better business decisions. Organizations use business analytics to answer strategic questions such as (1) which products and services that we provide are most profitable (2) who are our most profitable customers and (3) where should we locate our retail outlets and our distribution centers. Business analytics are also used for tactical decisions in optimizing an organization's day-to-day operations, marketing, purchasing and pricing decisions.

Banks, credit card companies and insurance companies use business analytics to predict the profitability of potential customers and to offer better deals to the more profitable customers. Online vendors use business analytics to make recommendations to customers. Manufacturers use business analytics to optimize the location of their distribution centers and to optimally manage the movement of products through their supply chain. Retailers use business analytics to grow their revenues through customer loyalty programs. Sports teams have used business analytics to gain a competitive advantage in selecting players and in making tactical decisions on the field.

Business analytics is transforming the way traditional businesses make decisions. It is also the critical element in an entire industry of internet companies that provides services, search capabilities and social networking. These companies use business analytics to glean marketable insights from the massive amounts of data that they collect from their users.

The Business Analytics program also provides students the background to gain industry certifications in commercial software for data analysis and tools used for optimizing online sales and advertising. This further enhances students' job opportunities.

Students who major in Business Analytics need quantitative skills, interpersonal skills, an interest in business and a desire to be a pioneer in a rapidly growing new field.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Course Description
Market forces and economic decisions in a broad social and legal context. Consideration of moral and ethical issues raised by market systems and the role of law and policy in addressing them. Emphasis on market efficiency v. market failure, corporate responsibility v. regulation, individual freedom v. social welfare. Discussion of the importance and limits of property rights and the role of tort, criminal, and antitrust law in mitigating market failures.

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* An important role Econ 305 has served is as one course option for satisfying the HCB ethics requirement. Students met the requirement of a course on the legal and regulatory context of firms separately. The college has moved toward a model of having a single course cover ethics and the legal and regulatory context of firms. Econ 305 is being revised with increased focus on the firms' legal and regulatory framework to appropriately serve as one option for students to meet that requirement.

Equivalency

Rationale* Requiring ECON 381 (Introduction to Econometrics) as a corequisite for ECON 474 (Applied Economic Analysis) will ensure students share a consistent foundation in econometric methods. ECON 474 teaches applied economic analysis, and the primary tool of economic analysis is econometrics. Aligning these two courses supports more effective instruction and applied learning by reducing disparities in students' quantitative preparation and strengthening the integration of econometric theory with data analysis practice. In addition, because the class relies heavily on group work, students without econometrics experience impact the ability to provide a high-quality instructional experience to the entire class.

College* Haslam College of Business

Department (Acalog Hierarchy)* Management and Entrepreneurship

Subject/Prefix (choose from list)* ENT

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 460

Course Title (max 100 characters)* Leading Innovation

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description This course covers how entrepreneurs and managers develop processes to continually innovate, a difficult task even for firms widely viewed as being innovative. Students will examine obstacles, challenges, and opportunities for successful innovation stemming from both inside and outside of the firm. The course emphasizes building actionable, evidence-based skills for navigating the challenges of leading innovation.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Registration Permission

Equivalency

Rationale* There is little change management in the current design and offering of this class. We are also seeking to stand up a new change management class that will offer this needed content. Finally, instructors asked for more time to accentuate innovation-related processes, instead of change management, which this proposal would provide.

Course Description This course explores the theories, practices, opportunities, and challenges of entrepreneurship across borders. Students examine how new ventures start, scale, and sustain international operations, with emphasis on strategy, culture, financing, regulation, digital tools and AI, risk, and ecosystem dynamics. The course integrates contemporary research and real-world perspectives to understand how entrepreneurs identify and pursue opportunities in diverse global markets. Topics include cross-cultural management, institutional differences, innovation diffusion, sustainable and inclusive entrepreneurship, and the role of technology in enabling borderless enterprise. Students also analyze how policy environments, capital flows, and global value chains influence entrepreneurial success. By bridging theory and practice, this course provides a holistic understanding of how entrepreneurial thinking and innovation operate in an interconnected world—preparing students to navigate and lead ventures in both emerging and developed markets.

Rationale* Expanding the breadth of our ENT curriculum strengthens both academic and co-curricular programming tied to the Entrepreneurship Center (ACEI). Based on initial student discovery and gap analysis with peer and aspirant universities, we anticipate strong appeal not only among ENT majors, minors, and collateral students but also across students pursuing international-focused concentrations. This positions ENT as a dynamic, cross-disciplinary offering that aligns with our mission to prepare students for entrepreneurial leadership in a global economy. This course will be an option for the ENT minor, ENT collateral, and MGT major-ENT tracks.

Impact on Other Units* N/A

Financial Impact* None. We already staff this course as a “special topics.”

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Economics (Business)

Program Name* Economics Major, BS in Business Administration - Business Analytics Concentration

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The economics major provides an opportunity to apply the theoretical and analytical rigor of basic managerial and macroeconomic tools to contemporary issues in economics and business. Students choose from a traditional option (27 hours in economics), a collateral option (complementary coursework in accounting, business analytics, finance, or mathematics), a concentration in business analytics, a concentration in international business, or a concentration in Heath Integrated Business and Engineering. Electives, as well as major coursework under the traditional option, consider topics such as business/industrial organization and public finance, as well as international, quantitative, monetary, regional/urban, environmental, labor, and health economics. Majors pursue careers in the traditional business disciplines, consulting, all levels of government service, and a variety of other fields. The program provides excellent training for graduate work in economics, business, public policy, and law. Students planning to pursue graduate study in economics should elect the quantitative economics and mathematics collateral option.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Footnotes

Must be completed by the end of the First Year.

Chosen from the Volunteer Core list.

Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.

Any courses not already required for the major.

Two courses from the following: BAS 310, BAS 340, BAS 454, BAS 464, BAS 471, BAS 476.

First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.

At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

* Meets Volunteer Core Requirements.

Economics Major - Five-Year BSBA/MA Program

The Department of Economics and Department of Finance offer an accelerated 5-year Bachelor's/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences, a BSBA in Economics through the Haslam College of Business, or a BSBA in Finance through the Haslam College of Business. Then, with an additional two semesters of coursework, students complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business, or a finance major in the Haslam College of Business.

Students first apply to their undergraduate department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.

Students must at least have conditional admission before taking courses that will count for both their bachelor's and master's degrees. These courses must be approved by their undergraduate department and the Graduate School. Students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.

Students must follow the normal procedure for admission to the master's program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department of Economics.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

This proposed change strengthens the economics major by requiring one additional upper-division economics course. With two credits freed from the recent course consolidation, this adjustment ensures students gain broader and deeper exposure to economic theory and applied analysis—better preparing them for graduate study, research, and a competitive job market.

Financial Impact*

Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
Students completing the collateral in quantitative economics and math will complete ECON 381 and ECON 482 as two of the five required economics elective courses.
Students pursuing a collateral in Finance must choose ACCT 203 or ACCT 208, and FINC 306.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

* Meets Volunteer Core Requirements.

Economics Collateral Options

Accounting

[Before]Complete:
ACCT 311 Intermediate Financial Accounting I
ACCT 414 Intermediate Financial Accounting II
[After]
[Before]Complete one course:

ACCT 403 Advanced Financial Accounting
ACCT 431 Federal Income Taxation
INMT 341 Business Process Analysis

Advanced Foreign Language

(only available to students pursuing International Business as a secondary major)

9 Hours of 300+ Foreign Language as outlined in International Business Major requirements

Business Analytics

[Before]Complete:
BAS 474 Data Mining and Business Analytics
[After]
[Before]Complete two courses:
BAS 320 Regression Modeling
BAS 454 Data Visualization for Business Analysts
BAS 471 Statistical Methods
BAS 476 Data Engineering and Visualization
[After] (Students who do not take BAS 320 must have proficiency in R programming language to take other indicated BAS courses.)

Finance

[Before]Complete:
FINC 420 Financial Statement Analysis
[After]
[Before]Complete two courses:
FINC 381 Real Estate Principles
FINC 425 Investment and Portfolio Management
FINC 435 Financial Markets and Institutions
FINC 455 Financial Management: Theory and Practice
FINC 475 Insurance and Financial Planning Management
FINC 481 Real Estate Finance and Investment Analysis
IB 449 International Finance
[After] (Students who plan on taking FINC 481 will need to take FINC 381 first; FINC 425 is a corequisite for FINC 455.)

Quantitative Economics and Math

[Before]Complete:
MATH 142* Calculus II
MATH 241 Calculus III
MATH 251 Matrix Algebra I

The Department of Economics and Department of Finance offer an accelerated 5-year Bachelor's/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences, a BSBA in Economics through the Haslam College of Business, or a BSBA in Finance through the Haslam College of Business. Then, with an additional two semesters of coursework, students complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business, or a finance major in the Haslam College of Business.

Students first apply to their undergraduate department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.

Students must at least have conditional admission before taking courses that will count for both their bachelor's and master's degrees. These courses must be approved by their undergraduate department and the Graduate School. Students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.

Students must follow the normal procedure for admission to the master's program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department of Economics.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

This proposed change strengthens the economics major by requiring one additional upper-division economics course. With two credits freed from the recent course consolidation, this adjustment ensures students gain broader and deeper exposure to economic theory and applied analysis—better preparing them for graduate study, research, and a competitive job market.

Financial Impact*

Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Economics (Business)

Program Name* Economics Major, BS in Business Administration - Heath Integrated Business and Engineering Program (Business Administration)

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The economics major provides an opportunity to apply the theoretical and analytical rigor of basic managerial and macroeconomic tools to contemporary issues in economics and business. Students choose from a traditional option (27 hours in economics), a collateral option (complementary coursework in accounting, business analytics, finance, or mathematics), a concentration in business analytics, a concentration in international business, or a concentration in Heath Integrated Business and Engineering. Electives, as well as major coursework under the traditional option, consider topics such as business/industrial organization and public finance, as well as international, quantitative, monetary, regional/urban, environmental, labor, and health economics. Majors pursue careers in the traditional business disciplines, consulting, all levels of government service, and a variety of other fields. The program provides excellent training for graduate work in economics, business, public policy, and law. Students planning to pursue graduate study in economics should elect the quantitative economics and mathematics collateral option.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

*** Meets Volunteer Core Requirements.**

Economics Major - Five-Year BSBA/MA Program

The Department of Economics and Department of Finance offer an accelerated 5-year Bachelor's/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences, a BSBA in Economics through the Haslam College of Business, or a BSBA in Finance through the Haslam College of Business. Then, with an additional two semesters of coursework, students complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business, or a finance major in the Haslam College of Business.

Students first apply to their undergraduate department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.

Students must at least have conditional admission before taking courses that will count for both their bachelor's and master's degrees. These courses must be approved by their undergraduate department and the Graduate School. Students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.

Students must follow the normal procedure for admission to the master's program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department of Economics.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

This proposed change strengthens the economics major by requiring one additional upper-division economics course. With two credits freed from the recent course consolidation, this adjustment ensures students gain broader and deeper exposure to economic theory and applied analysis—better preparing them for graduate study, research, and a competitive job market.

Additionally, MGT 380 is added as a requirement for the concentration to ensure that the engineering and business students in the Heath Integrated Business and Engineering Program are acquiring a certain level of business acumen at the same time and to enable them to progress together in such a way as to facilitate their ability to work together on projects integral to the program. Furthermore, project management exposure and skills are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers and Heath IBEP students begin their post-graduation career.

Financial Impact*

Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Making MGT 380 required for the business students in the Heath IBEP program adds fewer students than would be required for an additional section. The addition of the business students might create enough capacity demand for the creation of an additional section dedicated to students in the Heath Integrated Business and Engineering Program. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses – ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 13 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Twelve hours chosen from IB 407, IB 409, IB 429, IB 439, IB 449, IB 492, IB 499, BUAD 400* or MGT 472; and IB 489.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

* Meets Volunteer Core Requirements.

Economics Major - Five-Year BSBA/MA Program

The Department of Economics and Department of Finance offer an accelerated 5-year Bachelor's/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences, a BSBA in Economics through the Haslam College of Business, or a BSBA in Finance through the Haslam College of Business. Then, with an additional two semesters of coursework, students complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business, or a finance major in the Haslam College of Business.

Students first apply to their undergraduate department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.

Students must at least have conditional admission before taking courses that will count for both their bachelor's and master's degrees. These courses must be approved by their undergraduate department and the Graduate School. Students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.

Students must follow the normal procedure for admission to the master's program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department of Economics.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

This proposed change strengthens the economics major by requiring one additional upper-division economics course. With two credits freed from the recent course consolidation, this adjustment ensures students gain broader and deeper exposure to economic theory and applied analysis—better preparing them for graduate study, research, and a competitive job market.

Financial Impact* Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Economics (Business)

Program Name* Economics Major, BS in Business Administration - Traditional Option (Business)

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The economics major provides an opportunity to apply the theoretical and analytical rigor of basic managerial and macroeconomic tools to contemporary issues in economics and business. Students choose from a traditional option (27 hours in economics), a collateral option (complementary coursework in accounting, business analytics, finance, or mathematics), a concentration in business analytics, a concentration in international business, or a concentration in Heath Integrated Business and Engineering. Electives, as well as major coursework under the traditional option, consider topics such as business/industrial organization and public finance, as well as international, quantitative, monetary, regional/urban, environmental, labor, and health economics. Majors pursue careers in the traditional business disciplines, consulting, all levels of government service, and a variety of other fields. The program provides excellent training for graduate work in economics, business, public policy, and law. Students planning to pursue graduate study in economics should elect the quantitative economics and mathematics collateral option.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Haslam College of Business - FINC - 427

2026-2027 UG Revise Course

General Catalog Information

College* Haslam College of Business

Department (Acalog Hierarchy)* Finance

Subject/Prefix (choose from list)* FINC

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 427

Course Title (max 100 characters)* Honors: Investments and Portfolio Management

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Rigorous introduction to the fundamental principles and concepts of the valuation of stocks and bonds (financial assets) in competitive and efficient financial markets. Risk and return analysis of portfolios of financial assets, capital market theory, security market theory, financial market microstructure, and professional ethics.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) FINC 306 or FINC 308 with a grade of C+ or better.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Finance major offers students a skill set applicable to a broad range of careers across industries that are relevant to public and private businesses, non-for-profits, and government entities alike. General areas of study are how decision-makers evaluate, fund, and manage projects within an enterprise and how financial market participants process information to price risky assets such as stocks or bonds. Finance majors develop analytical skills useful in examining financial statements and evaluating the financial health of companies, assessing dimensions of business problems, evaluating financial implications of corporate and individual actions, and constructing investment portfolios. Finance majors develop the ability to utilize spreadsheets to process and present financial data. In addition, they may gain specialized training in real estate and Bloomberg, which is considered by finance professionals to be the gold standard for accessing current market, economic, and financial information.

Popular careers include Financial Manager, Financial Analyst, Financial Advisor, Portfolio Manager, Financial Risk Management Actuary, Management Analyst (Consultant), Loan Officer, Budget Analyst, Investor Relations Associate, Credit Analyst, Commercial Real Estate Agent and Securities, Commodities, and Financial Services Sales Agents. Many of these are included in the top 20 best business jobs according to U.S. News and World Report's Best Jobs Rankings for 2017 (https://money.usnews.com/careers/best-jobs/rankings/best-business-jobs), and their job outlook is forecast to be better than the average for all occupations according to the U.S. Department of Labor's Bureau of Labor Statistics Occupational Outlook Handbook (www.bls.gov/ooh/business-and-financial/home.htm).

Finance majors have flexibility to customize their studies through a broad array of electives, student organizations, experiential learning, and collaterals best suited to a particular career path. The department has course listings in investments, financial statement analysis, financial management, financial institutions, international finance, fixed income, real estate, risk and insurance, derivatives, and Bloomberg software training. The Finance department is certified as a Chartered Financial Analyst (CFA) Recognized University. As such, students pursuing a major in Finance gain valuable exposure to many topical areas required in sitting for the CFA designation, which is regarded as the key designation for investment professionals worldwide. Sponsorships are available to help cover costs for students sitting for the CFA exams. The Finance department also offers cutting edge resources through the Masters Investment Learning Center. In addition to specialized Bloomberg training, Finance majors gain real-world experiences in value investing or wealth management managing actual portfolios (via FINC 495). Finance majors may also enrich their experience through internships and participation in the CFA Global Investment Research Challenge, the Tennessee Capital Markets Society, the Financial Management Association, the Real Estate Club and the UT Investment Group.

Students who major in Finance need quantitative skills, problem solving skills, and communication skills.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
Finance electives chosen from FINC 351, FINC 381, FINC 382, FINC 402, FINC 435, FINC 440, FINC 441, FINC 445, FINC 451, FINC 460, FINC 461, FINC 475, FINC 481, FINC 482, FINC 486, FINC 493, FINC 494, FINC 495, FINC 496; IB 449.
Select courses from BAS 310, BAS 340, BAS 370S, BAS 454, BAS 464, BAS 471, BAS 475, BAS 476, or INMT 342.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

* Meets Volunteer Core Requirements.

Finance Major - Five-Year BSBA/MA in Economics Program

The Department of Economics and Department of Finance offer an accelerated 5-year Bachelor's/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences, a BSBA in Economics through the Haslam College of Business, or a BSBA in Finance through the Haslam College of Business. Then, with an additional two semesters of coursework, students complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business, or a finance major in the Haslam College of Business.

Students first apply to their undergraduate department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.

Students must at least have conditional admission before taking courses that will count for both their bachelor's and master's degrees. These courses must be approved by their undergraduate department and the Graduate School. Students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.

Students must follow the normal procedure for admission to the master's program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department of Economics.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Finance major offers students a skill set applicable to a broad range of careers across industries that are relevant to public and private businesses, non-for-profits, and government entities alike. General areas of study are how decision-makers evaluate, fund, and manage projects within an enterprise and how financial market participants process information to price risky assets such as stocks or bonds. Finance majors develop analytical skills useful in examining financial statements and evaluating the financial health of companies, assessing dimensions of business problems, evaluating financial implications of corporate and individual actions, and constructing investment portfolios. Finance majors develop the ability to utilize spreadsheets to process and present financial data. In addition, they may gain specialized training in real estate and Bloomberg, which is considered by finance professionals to be the gold standard for accessing current market, economic, and financial information.

Popular careers include Financial Manager, Financial Analyst, Financial Advisor, Portfolio Manager, Financial Risk Management Actuary, Management Analyst (Consultant), Loan Officer, Budget Analyst, Investor Relations Associate, Credit Analyst, Commercial Real Estate Agent and Securities, Commodities, and Financial Services Sales Agents. Many of these are included in the top 20 best business jobs according to U.S. News and World Report's Best Jobs Rankings for 2017 (http://money.usnews.com/careers/best-jobs/rankings/best-business-jobs), and their job outlook is forecast to be better than the average for all occupations according to the U.S. Department of Labor's Bureau of Labor Statistics Occupational Outlook Handbook (www.bls.gov/ooh/business-and-financial/home.htm).

Finance majors have flexibility to customize their studies through a broad array of electives, student organizations, experiential learning, and collaterals best suited to a particular career path. The department has course listings in investments, financial statement analysis, financial management, financial institutions, international finance, fixed income, real estate, risk and insurance, derivatives, Bloomberg software training. The Finance department is certified as a Chartered Financial Analyst (CFA) Recognized University. As such, students pursuing a major in Finance gain valuable exposure to many topical areas required in sitting for the CFA designation, which is regarded as the key designation for investment professionals worldwide. Sponsorships are available to help cover costs for students sitting for the CFA exams. The Finance department also offers cutting edge resources through the Masters Investment Learning Center. In addition to specialized Bloomberg training, Finance majors gain real-world experiences in value investing or wealth management managing actual portfolios (via Finance 495). Finance majors may also enrich their experience through internships and participation in the CFA Global Investment Research Challenge, the Tennessee Capital Markets Society, the Financial Management Association, the Real Estate Club, and the UT Investment Group.

Students who major in Finance need quantitative skills, problem solving skills, and communication skills.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Finance Major - Five-Year BSBA/MA in Economics Program

The Department of Economics and Department of Finance offer an accelerated 5-year Bachelor's/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences, a BSBA in Economics through the Haslam College of Business, or a BSBA in Finance through the Haslam College of Business. Then, with an additional two semesters of coursework, students complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business, or a finance major in the Haslam College of Business.

Students first apply to their undergraduate department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.

Students must at least have conditional admission before taking courses that will count for both their bachelor's and master's degrees. These courses must be approved by their undergraduate department and the Graduate School. Students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.

Students must follow the normal procedure for admission to the master's program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department of Economics.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

[2] Natural Sciences (NS) Elective **3** *Credit Hours* *
