The University of Tennessee, Knoxville
Undergraduate Council
Minutes of the Meeting
February 17, 2026

Leadership and Elected Members present: Chair Manolis Doxastakis, Past Chair Dawn Coleman, Vice Chair Jon Ring, Ashlee Anderson, Justin Arft, Doug Ayres, Vasabjit Banerjee, Quinten Bernhold, Andy Busch, Jochen Denzler, Vermont Dia, Julie Ferrara, William Hardwig, Amanda Hufstedler, Anneke Janzen, Yolanda Kirkpatrick (by proxy Laura Brown), Brian LaRose, Geoffrey Lea, Jian Liu (by proxy Yuqing Qiu), Eric Lukosi (by proxy Gillian Hunt), Nicole McFarlane, Kimberly Mitchell, Ryan Mokhtari, Gary Null, Ashley Pennell, Cindy Raines, Kimberly Roberts, Alex Scott (by proxy Lance Saunders), Josh Weinhandl, and Greg Wright

Ex-Officio Members present: Pat Akos, Katherine Ambroziak, Jennifer Bartlett, Michael Danquah (by proxy Michael Berry), George Drinnon, Lars Dzikus, Beth Foster, Christopher Kelley, Julie Longmire, Brendan McConville (by proxy Abby Huntoon), Edmund Stazyk, Liem Tran, and Michelle Violanti

Student Members present: Chase Darwin

Others present: Laura Brown, Ashley Browning, Mary Beth Burlison (represented by Traci Harrison), Lisa Byrd, Brian Coldren, Alison Connor, Brian Francis, Betsy Gullett, Jake Haramule, Miranda McAfee, Lori Mitchell, Shanna Pendergrast, and Lisa Slaton

Welcome and Call to order: The meeting was called to order by Manolis Doxastakis, Chair, when quorum was determined at 2:33 pm.

Committee Reports and Approvals (see attachments for details):

Academic Policy Committee
The committee presented minutes from the January 28, 2026 meeting.

The minutes were approved.

Curriculum Committee
The committee presented minutes from the December 2, 2025 and the February 3, 2026 meetings.

One proposal was withdrawn:
1. Item 655 Revise Program “Agricultural Leadership, Education, and Communications Major, BS in Agriculture - Agricultural and Natural Resource Communication Concentration”

An amendment was made in the following proposal(s):
1. Item 58 Add Course “BIOL – 400” - deleted text in Pre-req field and edited in Registration Restriction field.
2. Item 59 Add Course “BIOL – 400S” - deleted text in Pre-req field and edited in Registration Restriction field.
3. Item 60 Add Course “BIOL – 450” - deleted text in Pre-req field and edited in Registration Restriction field.

4. Item 61 Add Course “BIOL - 450N” - deleted text in Pre-req field and edited in Registration Restriction field.
5. Item 452 Revise Course “HTM - 450” – removed HTM 326 as departmentally-enforced prerequisite and instead added as a registration-enforced prerequisite. New text reads as “HTM 211 and HTM 326.”
6. Item 800 Revise Program “Music Major, BM – Piano Concentration” – Revisions made to unify the piano proposal with all other BM proposals coming through for Cycle 4.
7. Item 863 Revise Program (Dynamic Changes) “Applied Engineering Major, BSE - Software Engineering and Infrastructure Concentration” – Revised concentration name to include the word “Infrastructure.” Revised Term 7 to replace GCI with GCUS to fulfill VolCore requirements. GCI is accounted for in Term 5.

The minutes were approved.

Volunteer Core Committee
The committee presented minutes from the December 3, 2025 and the January 28, 2026 meetings.

An amendment was made to add ENGL 310/CNST 310 (crosslisted courses) to the list of GCUS approved courses.

The minutes were approved.

Adjournment: Manolis Doxastakis adjourned the meeting at 3:03 pm.

Approval of minutes: These minutes were certified correct via email on February 23**,** 2026.

UG Council - February 17, 2026 (Cycle 4)

Committee UG Council

Notes

Tuesday February 17, 2026 2:30 pm
Student Union, Room 169.

The agenda is attached in the first item "1A. UG Council Agenda - 02/17/2026 (Cycle 4)"

Total Proposals 7

1A. UG Council Agenda - 02/17/2026 (Cycle 4)

UG Agenda Form - Administrative Use Only

General Catalog Information

College* University of Tennessee, Knoxville

Name of Form* 1A. UG Council Agenda - 02/17/2026 (Cycle 4)

Indicate which committee this agenda will be for:
- ○ Curriculum
- ◉ UG Council
- ○ Faculty Senate
- ○ Vol Core
- ○ Standard University Approval Process

See Files for an Excel workbook that organizes the agenda's proposals by College or School. Embedded links direct users back to individual proposals in MCC. Enable editing and hover over cells in the “Action” column to see a brief version of each proposal’s rationale.

Admin Use Only

Notes

1B. UG Council Amendments - 02/17/2026 (Cycle 4)

UG Amendment Form - Administrative Use Only

General Catalog Information

Unit* University of Tennessee, Knoxville

Name of Form* 1B. UG Council Amendments - 02/17/2026 (Cycle 4)

Indicate which committee this form will be for:
- ○ Curriculum
- ◉ UG Council

Enter the following details about each amendment:

A link and item number that corresponds to which proposal is being amended. Ex: "Item 22 [Name of Proposal]: *Link here*"
Describe the error
Describe the amendment.

If an amendment is too complex or lengthy to be processed during the meeting, the college or unit should prepare a Word document outlining the amendment and email it to the catalog team prior to the meeting for attachment to the proposal.

Herbert College of Agriculture

1. Item 655 - Herbert College of Agriculture - Agricultural Leadership, Education, and Communications - Agricultural Leadership, Education, and Communications Major, BS in Agriculture - Agricultural and Natural Resource Communication Concentration

- **Request to withdraw this proposal.**

College of Architecture and Design

College of Arts and Sciences

Description: Information was entered into incorrect field.

Amendment: Move text to Registration Restriction field and update text as below:

1. Delete text in Registration Enforced Prerequisite area. In the Registration Restriction area, edit text to "Open to Biological Sciences majors or minors with completion of sophomore standing, or by permission of instructor."
    1. **Item 58** - College of Arts and Sciences - BIOL - 400 | Curriculum
    2. **Item 59** - College of Arts and Sciences - BIOL - 400S | Curriculum
2. Delete text in Registration Enforced Prerequisite area. In the Registration Restriction area, edit text to "Open to Biological Science majors and minors with junior standing and above, or permission by instructor."
    1. **Item 60** - College of Arts and Sciences - BIOL - 450 | Curriculum
    2. **Item 61** - College of Arts and Sciences - BIOL - 450N | Curriculum

Haslam College of Business

College of Communication and Information

College of Education, Health, and Human Sciences

1. Item 452 - College of Education, Health, and Human Sciences - HTM - 450

- Description: HTM 326 was incorrectly added as a departmentally-enforced prerequisite.
- **Amendment: This proposed friendly amendment is to remove HTM 326 as departmentally-enforced and to instead add as a registration-enforced prerequisite.**

College of Emerging and Collaborative Studies

Tickle College of Engineering

Natalie L. Haslam College of Music

1. Item 800 - Natalie L. Haslam College of Music - Natalie L. Haslam College of Music - Music Major, BM - Piano Concentration | Curriculum

- Description: Showcase does not match revisions that are in other BM program proposals. See two attachments in the proposal link showing: 1) the current MUCO courses and proposed change, and 2) the Showcase displaying the revisions/markup
- **Amendment: This proposed friendly amendment is to unify the piano proposal with all other BM proposals coming through for Cycle 4.**

College of Nursing

College of Social Work

Howard H. Baker Jr. School of Public Policy and Public Affairs

Report

The University of Tennessee, Knoxville
Volunteer Core Committee
Minutes of the Meeting
January 28, 2026

Call to order: A regular meeting of the Volunteer Core Committee was held via online meeting software on January 28, 2026. The meeting was called to order by Chair Michelle Violanti when quorum was met at 9:03 am.

Voting members present: Chair Michelle Violanti, Brittany Adams, David Ammerman, Ashlee Anderson, Pamela Angelle, Justin Arft, Sarah Colby, Harry Dahms, Michael Danquah, Vermont Dia, George Drinnon, Nicole Eggers, Megan Fields, Jon Hess, Brian LaRose, Julie Longmire, Brendan McConville, Robert Mindrup, Phillip Moore, Barbara Murphy, Lee Murphy, Gary Null, James Patterson, Natalie Stepanov, John Stier, Liem Tran, Erin Whitaker, and Greg Wright

Non-Voting Members Present: Alison Connor, Manolis Doxastakis, Beth Foster, Michael McFall, and Shanna Pendergrast

Others present: Lisa Byrd, Mary Campbell, K?Cindra Cavin, Chuck Collins, Cat Cox, Jake Haramule, Traci Harrison, Jonathan Hughes, Miranda McAfee, Jennifer Meunier, Lori Mitchell, John Scheb, and Merrill Walker

Voting Items - Course Approvals:

49 courses were approved for Vol Core.

Applied Arts and Humanities (AAH)

1. ARTC 236/CNST 236: Introduction to Cinema and Vision Art (crosslisting)

Applied Oral Communication (AOC)

1. CECS 485: Transdisciplinary Research Projects in Emerging Technologies
2. CECS 499: CECS Senior Transdisciplinary Capstone
3. HIST 499: Senior Research Seminar
4. LEAD 352/LEAD 357: Leadership and Change Processes
5. REST 383: Japanese Religions

Engaged Inquiries (EI)

1. BAES 498: Senior Capstone: Perspectives in Bioinformatics for Agriculture and Environmental Sciences
2. ENGL 244: Introduction to Games and Narrative
3. IEC 173: Play and Learning Across the Lifespan
4. MUCO 215: Sounding Stories: Case Studies in Western Music & Culture
5. MUSC 112: Foundations of Guitar II - Intermediate Skills
6. MUSC 113: Foundations of Guitar III - Styles
7. MUTH 100: Fundamentals of Music
8. REST 373/AFST 373/ANTH 373: African Religions (crosslisting)
9. RSM 326S: Recreational Therapy Programming
10. UNHO 307: Complex Problems and Innovation

Global Citizenship International (GCI)

1. ENGL 161/WGS 161: Women Writing the World (crosslisting)
2. MUCO 112: Global Pop and Rock

Global Citizenship United States (GCUS)

1. GLBS 150: Tennessee and the World
2. IAC 302 American Legal System
3. MUCO 115 Music in the United States
4. REST 344 Religions in Appalachia
5. REST 352/AFST 352 African American Religion in the United States
6. REST 430: Seminar in North American Religions

Natural Science (NS)

1. EPP 124 Coffee: Agronomy, Biology, Culture
    - Discussed as a lab science in Vol Core meeting

Oral Communication (OC)

1. THEA 205: Presence and Storytelling

Quantitative Reasoning (QR)

1. BAES 460: Metagenomics and Microbiome Analyses in Agriculture and Environmental Sciences
2. GEOG 311: Geovisualization and Geographic Information Science
3. HIST 130: History by Numbers
4. MUTC 311: Data Driven Soundscapes

Social Sciences (SS)

1. ANTH 340: Frauds and Fantastic Claims in Archaeology
2. COUN 222: Mental Health Literacy
3. MUED 110 Introduction to Music Education

Written Communication (WC)

1. ANTH 340: Frauds and Fantastic Claims in Archaeology
2. MUCO 380: Music in World Cultures
3. REST 430: Seminar in North American Religions

Informational Item - Denied Courses:

- HIST 408R (AOC)
- MUBS 303 (AOC)
- NURS 482 (GCUS)
- SNR 250 (GCUS)

Information Item - Withdrawn Courses
(none; all remaining courses in Dynamic Forms will be withdrawn after the February meeting to close out this curricular cycle)

Items from the floor
A motion was passed to allow Vol Core committee pre-approval of outstanding courses that are to be approved in the next 7 days in subcommittees.

Courses approved during that time.

1. AFST 305 (EI): African Women and Social Change
2. ENGL 203 (GCI): Dragons, Knights, and Ladies: Medieval Romance
3. HIST 110 (GCI; approved for AH): Introduction to Cultural History
4. HIST 120 (GCI): History of Empire
5. REST 323 (GCI): Christianity: An Introduction
6. ALEC 104 (SS): Innovations in Environmental and Agricultural Technologies
7. IAC 301 (SS): Acting Democratically

Adjournment: The meeting was adjourned at 10:00 am.

Approval of Minutes: These minutes were certified correct via email on February 10, 2026.

Minutes Submitted by: Miranda McAfee

Volunteer Core Meeting

Date: Wednesday, January 28, 2026 from 9:00 am to 10:00 am

Location: Zoom

Meeting Materials are linked from the VolCore OneDrive proposal tracking form

Agenda

1. Course Approval: Applied Arts and Humanities

- ARTC 236/CNST 236 (also applying for EI): Introduction to Cinema and Vision Art

2. Course Approval: Applied Oral Communication

- CECS 485: Transdisciplinary Research Projects in Emerging Technologies
- CECS 499: CECS Senior Transdisciplinary Capstone

- HIST 499 (approved for WC): Senior Research Seminar

- LEAD 352/357H: Leadership and Change Processes

- REST 383 (approved for GCI): Japanese Religions

3. Course Approval: Arts and Humanities (none)
4. Course Approval: Engaged Inquiries

- BAES 498: Senior Capstone: Perspectives in Bioinformatics for Agriculture and Environmental Sciences
- ENGL 244 Introduction to Games and Narrative (new course; seeking variable title permission)

- IEC 173 Play and Learning Across the Lifespan (new course)

- MUCO 215 Sounding Stories: Case Studies in Western Music & Culture (new course)

- MUSC 112 (approved for AAH): Foundations of Guitar II - Intermediate Skills

- MUSC 113 (approved for AAH): Foundations of Guitar III - Styles

- MUTH 100 : Fundamentals of Music

- REST 373/AFST 373/ANTH 373: African Religions

- RSM 326S (base course RSM 326 already approved for EI): Recreational Therapy Programming

- UNHO 307: Complex Problems and Innovation

5. Course Approval: Global Citizenship International

- ENGL 161/WGS 161 Women Writing the World (new course, seeking variable title permission)
- MUCO 112 Global Pop and Rock (new course)

6. Course Approval: Global Citizenship United States

- GLBS 150 Tennessee and the World (new course)

- REST 430 (applying for WC): Seminar in North American Religions (seeking variable title permission)

7. Course Approval: Natural Science

- EPP 124 Coffee: Agronomy, Biology, Culture (new course, non-lab)

8. Course Approval: Oral Communication

- THEA 205: Presence and Storytelling

9. Course Approval: Quantitative Reasoning

- BAES 460: Metagenomics and Microbiome Analyses in Agriculture and Environmental Sciences

- GEOG 311: Geovisualization and Geographic Information Science

- HIST 130 History by Numbers (new course)

- MUTC 311: Data Driven Soundscapes

10. Course Approval: Social Sciences

- ANTH 340 Frauds and Fantastic Claims in Archaeology (new course)
- COUN 222: Mental Health Literacy

11. Course Approval: Written Communication

- ANTH 340: Frauds and Fantastic Claims in Archaeology (new course)
- MUCO 380 (approved for EI and GCI): Music in World Cultures

- REST 430 (applying for GCUS): Seminar in North American Religions (has variable title permission)

12. Information Item: Denied Courses

- HIST 408R (AOC)
- MUBS 303 (AOC)

- NURS 482 (GCUS)

- SNR 250 (GCUS)

The University of Tennessee, Knoxville
Volunteer Core Committee
Minutes of the Meeting
December 3, 2025

Call to order: A regular meeting of the Volunteer Core Committee was held via online meeting software on December 3, 2025. The meeting was called to order by Chair Michelle Violanti when quorum was met at 9:00 am.

Voting members present: Chair Michelle Violanti, Brittany Adams, David Ammerman, Ashlee Anderson, Pamela Angelle, Justin Arft, Sarah Colby, Harry Dahms, Vermont Dia, George Drinnon, Nicole Eggers, Martin Griffin, Jon Hess, Brian LaRose, Julie Longmire, Brendan McConville, Robert Mindrup, Sean Morey, Barbara Murphy, Lee Murphy, Gary Null, James Patterson, Natalie Stepanov, John Stier, Liem Tran, and Greg Wright

Non-Voting Members Present: Manolis Doxastakis, Beth Foster, Michael McFall, and Shanna Pendergrast

Others present: K?Cindra Cavin, Chuck Collins, Cat Cox, Betsy Gullett, Traci Harrison, Jonathan Hughes, Miranda McAfee, Jennifer Meunier, and Lori Mitchell

Voting Items - Course Approvals:

37 courses were approved for Vol Core.

Applied Arts and Humanities (AAH)

1. ENGL 151 Main Character Energy: Writing the Self

Applied Oral Communication (AOC)

1. CMST 445 Communicate to Lead and Succeed

Arts and Humanities (AH)

1. AFST 115 Southern Food Culture
2. ARTH 110 Stadium to Super Bowl: The Athletic Arts
3. CLAS 455 Comparative Oral Traditional Epics
4. ENGL 161 / WGS 161 Women Writing the World (crosslisting)
5. ENGL 181 What is a Classic?
6. ENGL 203 Dragons, Knights, and Ladies: Medieval Romance
7. ENGL 304 History of the Book
8. HIST 110 Introduction to Cultural History

Engaged Inquiries (EI)

1. AGNR 480 How to Feed the World
2. COUN 210 Careers in Counseling and HDFS
3. FREN 405 Language and Culture of Business in the Francophone World
4. MICR 329 Advanced Microbiology Laboratory
5. MICR 401 Undergraduate Research in Microbiology
6. REST 360 Witchcraft, Magic, and Religion
7. WFS 405 / EEB 402 Disease Ecology (crosslisting)

Global Citizenship International (GCI)

1. HIEU 340 Revolution in Modern European History: Rance and Russia
2. HIST 410 Infectious Disease: A Global History
3. MUCO 421 Music of Bali, Indonesia
4. REST 374 Hindu Traditions
5. REST 383 Japanese Religions

Natural Science (NS)

1. EPP 250 The World of Fungi: Beneficial, Edible, Medicinal, Hallucinogenic, Pathogenic, Toxic, and Deadly
2. EPP 313 Introductory Plant Pathology (lab course)
3. EPP 321 Introductory Entomology (lab course)
4. ESS 130 Fundamentals of Environmental Science (lab course)
5. GEOG 205 Tennessee Tornadoes

Social Sciences (SS)

1. ANTH 326 Ancestral Appetites and Modern Tastes: Food and Culture
2. CMST 266 Star Wars and Human Communication
3. LING 150 How Language Works
4. REST 303 / SOCI 303 Sociology of Religion (crosslisting)
5. SOCI 346 / WGS 346 Sexualities (crosslisting)

Written Communication (WC)

1. BAES 415 Scientific Writing Essentials

Informational Item ? Denied Courses:

- MUSC 115 (AOC)
- ENGL 304 (EI)
- CECS 385 (OC)
- CECS 389 (OC)
- LEAD 217 (OC
- PLSC 270 (OC)
- WLC 110 (OC)
- CYAL 100 (SS)

Adjournment: The meeting was adjourned at 10:01 am.

Approval of Minutes: These minutes were certified correct via email on December 8, 2025.

Minutes Submitted by: Miranda McAfee

Volunteer Core Meeting

Date: Wednesday, December 3, 2025 from 9:00 am to 10:00 am

Location: Zoom

Meeting Materials are linked from the VolCore OneDrive proposal tracking form

Agenda

1. **Update from the Associate Vice Provost for Academic Affairs**

- Working Group

2. **Update from the Chair**
3. **Course Approval: Applied Arts and Humanities**

- ENGL 151: Main Character Energy: Writing the Self (new course)
    - This course is applying for Variable Title permission

4. **Course Approval: Applied Oral Communication**

- CMST 445: Communicate to Lead and Succeed (new course)

5. **Course Approval: Arts and Humanities**

- AFST 115 Southern Food Culture (new course)
- ARTH 110: Stadium to Super Bowl: The Athletic Arts
- CLAS 455 Comparative Oral Traditional Epics (new course)
- ENGL 161 Women Writing the World (also applying for GCI): (new course, variable title)
    1. Crosslisting: ENGL 161 Primary / WGS 161 Secondary
- ENGL 181: What Is a Classic? (new course, variable title)
- ENGL 203 Dragons, Knights, and Ladies: Medieval Romance (also applying for GCI) (new course, variable title)
- ENGL 304 History of the Book (also applying for EI) (new course, variable title)
- HIST 110 Introduction to Cultural History (also applying for GCI) (new course, variable title)

6. **Course Approval: Engaged Inquiries**

- AGNR 480: How to Feed the World
- COUN 210: Careers in Counseling and HDFS
- FREN 405: Language and Culture of Business in the Francophone World
- MICR 329: Advanced Microbiology Laboratory
- MICR 401: Undergraduate Research in Microbiology (because this is EI, they will also have to apply for approval for MICR 401R)
- REST 360 (also applying for AOC): Witchcraft, Magic, and Religion
- WFS 405 (EEB 402, approved for WC): Disease Ecology

7. **Course Approval: Global Citizenship International**

- HIEU 340: Revolution in Modern European History: France and Russia
- HIST 410 (also applying for AH): Infectious Disease: A Global History
- MUCO 421: Music of Bali, Indonesia
- REST 374 (also applying for EI): Hindu Traditions
- REST 383 (also applying for AOC): Japanese Religions

8. **Course Approval: Global Citizenship United States (none)**
9. **Course Approval: Natural Science**

- EPP 250: The World of Fungi: Beneficial, Edible, Medicinal, Hallucinogenic, Pathogenic, Toxic, and Deadly
- EPP 313 (lab course): Introductory Plant Pathology
- EPP 321(lab course): Introductory Entomology
- ESS 130 (lab course): Fundamentals of Environmental Science
- GEOG 205: Tennessee Tornadoes (new course)

10. **Course Approval: Oral Communication (none)**
11. **Course Approval: Quantitative Reasoning (none)**
12. **Course Approval: Social Sciences**

- ANTH 326 Ancestral Appetites and Modern Tastes: Food and Culture (new course)
- CMST 266 Star Wars and Human Communication (new course)
- LING 150: How Language Works
- REST 303: Sociology of Religion
    1. Crosslisting REST 303 Primary / SOCI 303 Secondary
- SOCI 346 Sexualities (new course)
    1. Crosslisting: SOCI 346 Primary / WGS 346 Secondary

13. **Course Approval: Written Communication**

- BAES 415: Scientific Writing Essentials

14. **Information Item: Denied Courses**

- MUSC 115 (AOC)
- ENGL 304 (EI)
- CECS 385 (OC)
- CECS 389 (OC)
- LEAD 217 (OC)
- PLSC 270 (OC)
- WLC 110 (OC)
- CYAL 100 (SS)

15. **Information Item: Withdrawn Courses (none)**
16. **Discussion Item: Assessment Process**
17. **Next Meeting: Wednesday, January 28th**
18. **Adjournment**

UG Council - 02/17/2026 - Cycle 4 - Print Agenda 1

Committee UG Council

Notes

Total Proposals 193

CORRECTION: Industrial Design Major, BFA (correction to degree designation)

Correction Items

General Catalog Information

College* College of Architecture and Design

Name of Proposal* CORRECTION: Industrial Design Major, BFA (correction to degree designation)

Catalog Link* N/A (program not active - pending THEC approval)

MCC Proposal Link* https://utk.curriculog.com/proposal:6789/form and https://utk.curriculog.com/proposal:6819/form

Important Note about this Form:

Please contact the CCM team (curriculum_help@utk.edu) before submitting this form.

Criteria/Threshold of Corrections past Cycle 4:

https://utk.curriculog.com/proposal:3874/form

Minimum program hours for a baccalaureate degree

SACSCOC requires a minimum of 120 semester hours for a baccalaureate degree and, if we discover a program with fewer hours, we (1) inform the college, (2) correct the catalog using the solution the department/college suggests which may be a free elective or a required course that was inadvertently left out or a new course to replace a dropped course or whatever else the department/college thinks is appropriate, and (3) document this correction at the next meeting of the UG Curriculum Committee.

Minimum Vol Core hours

Vol Core has specific requirements. If those requirements are not met in a program, we (1) inform the college, (2) correct the catalog using the solution the department/college suggests which may be changing a free elective to be a Vol Core course, or if course ABC 123 has been submitted to Vol Core but the committee has not yet made a decision about the course, then the correction might indicate to take "ABC 123 or a Vol Core elective" or "free elective or Vol Core elective" or other appropriate solution and (3) document this correction at the next meeting of the UG Curriculum Committee.

Rationale

This is to raise awareness of the processes that our offices have been following when immediate urgent corrections have been required in the active catalog. This does not apply to anything other than urgent corrections noted above. These typically show as low-impact corrections in the last meetings of the spring or the early meetings of the fall. For an example of how this looked in the past, see the attachment that was taken from TRACE minutes of UG Council minutes of meeting April 12, 2022 https://trace.tennessee.edu/cgi/viewcontent.cgi?article=1124&context=utk_undergradcouncil .

Details of Error(s)* The proposal that was approved by Undergraduate Council on February 18th, 2025 described a degree designation of BFA in Industrial Design (BFAID). The Letter of Notification (LON) to THEC, updated on September 2nd, 2025 describes a BFA (Bachelor of Fine Arts) degree designation. See attached document.

Information* Industrial Design major has been corrected from a BFA in Industrial Design to a BFA to match the information contained in the Letter of Notification that was submitted to THEC. Pending THEC approval, the program will display in the Undergraduate Catalog as Industrial Design Major, BFA.

Rationale Correction is required to ensure that the degree designation approved at the institutional level matches the degree designation in the Letter of Notification process reviewed by THEC. The college agrees to this correction (see attached college level approval).

Center for Career Development and Academic Exploration - Center for Career Development and Academic Exploration - University Exploratory Program

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Center for Career Development and Academic Exploration

Department* Center for Career Development and Academic Exploration

Program Name* University Exploratory Program

Degree Type* Non-Degree

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The University Exploratory program is housed within the Center for Career Development & Academic Exploration. Students in the program are advised by Academic & Career Exploration (ACE) Coaches who provide integrated academic and career planning support. The program is intended for students who have no clear idea which major to pursue or those who are trying to decide among majors that are not in a single college. It allows students to explore major options and make progress toward graduation through the completion of Vol Core courses. University Exploratory students are required to meet with their ACE coach every semester.

All UT Knoxville students admitted as University Exploratory Fall 2024 or after must declare a major by 45 attempted credit hours.

Transfer students with more than 24 transferable hours must be admitted directly into a college.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Term 1

[Before] **Select one of the following First-Year Seminars:**
FYS 101 The UT Experience
FYS 129 Special Topics Seminar
AGNR 100 Student Success in the Herbert College of Agriculture
HBS 102 Professional Development Seminar
BUAD 100 Inclusion: Becoming an Engaged Leader in a Diverse Community
COUN 205 Student Development
[After]
[Before] **Select one Written Communication (WC) course:**
SAT/ACT/EPE and AP/dual enrollment credit determines placement in English Composition.
ENGL 101* English Composition I
ENGL 102* English Composition II
ENGL 112* Advanced Writing and Research
ENGL 121 Academic English for Undergraduate Students
ENGL 131* Composition for Non-Native Speakers of English I
[After]
[Before] **Select one Quantitative Reasoning (QR) course:**
SAT/ACT or Math Department Placement Exam or AP/dual enrollment credit determines placement in mathematics.

[Before] **Option A**
For students whose major or minor interests do not include programs with specific math requirements. Option B or C may be chosen if qualifying Math ACT score.
COSC 100* Introduction to Computers and Computing
MATH 113* Mathematical Reasoning
MATH 115* Statistical Reasoning
[After]
[Before] **Option B**
For students whose major or minor interests include programs with specific math requirements other than MATH 141*-MATH 142* or MATH 151*-MATH 152*. MATH 125* has a prerequisite of MATH 119 or Math ACT 25.
MATH 123* Finite Mathematics
MATH 125* Basic Calculus
[After]
[Before] **Option C**
For students whose major or minor interests include programs with a mathematics requirement of MATH 141*-MATH 142* or MATH 151*-MATH 152*. MATH 141* and MATH 151* have a prerequisite of MATH 130 or Math ACT 28.
MATH 141* Calculus I
MATH 147* Honors: Calculus I
MATH 151* Mathematics for the Life Sciences
[After]
[Before] **Option D**
Course chosen depends on major or minor interests and previous background.

[Before] Advanced math chosen from approved QR list

STAT 201* Introduction to Statistics
STAT 207* Honors: Introduction to Statistics
[After]
[After] **Select one Natural Sciences (NS) Elective:**
Natural Sciences (NS) Elective 3-4 *Credit Hours* * Astronomy, Biology, Chemistry, Geography, Geology, Physics (particular course depends on major interests). Consult undergraduate catalog and academic advisor for best option.

Select one Social Sciences (SS) or Global Citizenship - International (GCI) elective:
Social Sciences (SS) Elective 3 *Credit Hours* * OR Global Citizenship - International (GCI) Elective 3 *Credit Hours* *; Intermediate foreign language satisfies the Global Citizenship - International (GCI) Elective * requirement.

Select one general elective if needed:
General Elective 0-2 *Credit Hours*

Credit Hours 14-16

Term 1 Milestone Notes

Completion of at least 12 credit hours

Term 2

[Before] **Select one Written Communication (WC) course:**
ENGL 102* English Composition II
ENGL 131* Composition for Non-Native Speakers of English I
ENGL 132* Composition for Non-Native Speakers of English II
[After]
[After] Quantitative Reasoning (QR) Elective **3-4** *Credit Hours* *

Natural Sciences (NS) Elective **3-4** *Credit Hours* *

Social Sciences (SS) Elective **3** *Credit Hours* * OR Global Citizenship - International (GCI) Elective **3** *Credit Hours* *

General elective to explore a potential major **3** *Credit Hours* *

Credit Hours 14-16

Term 2 Milestone Notes

First-year seminar. ENGL 101* or equivalent.

Term 3

Written Communication (WC) Elective 3 *Credit Hours* * Writing intensive course appropriate for major interest or elective if appropriate course has registration restrictions.

Oral Communication (OC) Elective 3 *Credit Hours* *

Social Sciences (SS) Elective 3 *Credit Hours* * OR Global Citizenship - United States (GCUS) Elective 3 *Credit Hours* * If Global Citizenship was completed in first year, Social Science should be selected here (and vice versa).

Arts and Humanities (AH) Elective 3 *Credit Hours* * Students should select a literature or philosophical course if they have already taken a course from the arts.

Course specific to major and/or college interest 3 *Credit Hours*

Credit Hours 15

Term 3 Milestone Notes

ENGL 102* English Composition II
[Right] *
[Right] (or equivalent)
[After] Quantitative Reasoning (QR) course

[After] Natural Sciences (NS) course

[After] Social Sciences (SS) or Global Citizenship - International (GCI) or Global Citizenship - United States (GCUS) course.

Footnotes

*** Meets Volunteer Core Requirement.**

Rationale* University Honors launched a new curriculum in Fall 2025 and requested this course be archived. As of October 17, 2025, UGC approved archiving the course for Fall 2026.

Financial Impact* none

Impact on Other Units* none

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank. no

- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Introduction to design thinking and innovation for first year and second year undergraduate students from all majors. This course will assist students in how to work in multi-disciplinary teams to solve complex whole-to-part real-world problems. Students engage collaborative design thinking methods that emphasize producing unique, feasible, and implementable outcomes that can be applied in future classes and within career opportunities. Students will complete projects by generating a variety of ideas, applying and synthesizing knowledge from their discipline, building prototypes, and evaluating with critical thinking.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement: (EI) (OC)

Instructional Method* Lab, Lecture

Contact Hour Distribution (if more than one instructional method) 1.25 hour lecture, 2.5 hours lab.

Grading Restriction

Repeatability

Credit Restriction Students may not receive credit for both COAD 130 and COAD 430*. Students in the BFA Graphic Design program may not receive credit for COAD 130.

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Content similarities between COAD 130 and BFA Graphic Design required courses. Restriction is currently handled through advising, but some students register anyway. School would like more official inforcement.

Impact on Other Units*

While many programs are listed in the impact report, only BFA Graphic Design students are affected. This change is per request of the School of Design and reflects current advising.

Credit Restriction:	COAD 130* - Basic Design Thinking and Innovation
	COAD 430* - Design Thinking and Innovation

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 1-6

Course Description Design studio for non-College of Architecture and Design students. Trans-disciplinary studio offered in conjunction with architecture, graphic design, interior architecture, and/or landscape architecture studios.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Studio Work

Contact Hour Distribution (if more than one instructional method) 2-hour studio per credit hour.

Recommended Background

Comments

Registration Restriction(s)

Registration Permission Consent of instructor.

Equivalency* COAD 431

Rationale* Course number change is to align number with typical studio number sequence in the Schools of Architecture, Design, and Interior Architecture, which use x7x.

Inclusion of graphic design to reflect the full range of disciplines in the college.

Impact on Other Units*

The School of Design has reviewed and approved this change.

There are no results for this report.

Impact Report for coad 431.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Architecture and Design

Program Name* Graphic Design Major, BFA in Graphic Design

Degree Type* Bachelor of Fine Arts

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Major Requirements:

I. Foundation (12 hours)

Complete:

DSGN 101 Graphic Design Foundation Studio I
DSGN 102* Graphic Design Foundation Studio II
DSGN 103* Graphic Design Foundation Studio III
DSGN 150* The Idea of Design

II. Graphic Design (45 hours)

A. Complete (portfolio review):

GRDS 200 Graphic Design Portfolio Review

B. Complete (in sequence):

GRDS 255 Beginning Typography
GRDS 256 Interaction Design
GRDS 271 Beginning Graphic Design I
GRDS 272 Beginning Graphic Design II
GRDS 355 Advanced Typography
GRDS 371 Intermediate Graphic Design I
GRDS 372 Advanced Graphic Design II
GRDS 471 Advanced Graphic Design I
GRDS 452 Graphic Design Professional Seminar
GRDS 472 Graphic Design Capstone

C. Complete (practicum) 6-7 hours:

GRDS 451 Graphic Design Practicum

III. Required Design and Professional (9 hours)

Complete 9 hours:

GRDS 425 Special Topics in Graphic Design
[After]
GRDS 444 Graphic Design Research Studio
[After] and/or
GRDS 455 Graphic Design Collaborative Engagement
[After]
GRDS 491 Foreign Study
GRDS 493 Independent Study
[After] Note: Appropriate courses in other departments may be substituted with the approval of student's assigned advisor.

IV. Studio (9 hours)

Select 9 hours from list below:

any 200-level and above course in the School of Art

any 200-level and above ARTN

any course in the College of Architecture and Design with a studio, lab, or workshop component

GRDS 444 Graphic Design Research Studio
GRDS 455 Graphic Design Collaborative Engagement
THEA 340 Costume Design I
THEA 345 Costume Construction

THEA 355 Scenic Design I
THEA 362 Lighting Design I
THEA 373* Sound Design I
THEA 475 Projection and Media Design

V. Art and Design History (9 hours)

Select 9 hours:

any art history course (ARTH)

any design history course offered in the College of Architecture and Design (ARCH, ARCN, COAD, IARC, IARN, INDS, LAR, LARN)

VI. Volunteer Core Curriculum (30-35 hours)

(Volunteer Core requirements not already covered in Foundation, Graphic Design, and Art and Design History program requirements).

A. Written Communication (7-9 hours)*:

ENGL 101* English Composition I
[Right] (or equivalent)
ENGL 102* English Composition II
[Right] (or equivalent)
[After] any Written Communication (WC) course from the Volunteer Core list

B. Oral Communication (1-3 hours)*:

any Oral Communication (OC) course from the Volunteer Core list

C. Ways of Knowing (16-17 hours)*:

any two Natural Sciences (NS) courses from the Volunteer Core list (at least one with a laboratory)

any two Quantitative Reasoning (QR) courses from the Volunteer Core list

any one Social Sciences (SS) course from the Volunteer Core list

D. Global Citizenship (3 hours)*:

any Global Citizenship - United States (GCUS) course from the Volunteer Core list.

E. Engaged Inquiries (3 hours)*:

any Engaged Inquiries (EI) course with a non-GRDS code from the Volunteer Core list

* Meets Volunteer Core Requirements.

Rationale*

Changes made to Art and Design History.

- Adding course designations that offer more options to students (IARN, COAD, IARN, LARN)
- Eliminate requirement for GCI opens up more options for students.

Changes made to II.C: Eliminate other course options except for GRDS 451. Ensures students do not graduate without taking the GRDS 451 course.

Delete 'R' Designation courses: The 'R' designation courses are no longer offered.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

College* College of Architecture and Design

Department* School of Design

Program Name* Graphic Design Studies Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Graphic Design Studies is open to students from any discipline across the University of Tennessee, Knoxville interested in enhancing their major field of study with an understanding of graphic design. Students will receive a broad introduction to concepts, processes, modes of visual communication, and the influence of design in today's world without the intensive, studio-driven experience of the major. The 3 required lecture-based core classes couple with a selection of classes from across several colleges that allow further focus within the minor.

Students must have a cumulative 2.5 GPA and be a declared major outside of the School of Design in order to undertake the minor. Application to the minor is available via the online minor form for the College of Architecture and Design.

Students must successfully complete the following requirements (15 hours).

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements:

GRDS 150* The Idea of Design
GRDS 330 The Art of Presentation Design
GRDS 331 The Art of Identity Design

Select Two Courses:

ADVT 250* Advertising Principles
ARTN 231* Non-Major Intro to Photography
ARTN 264* Non-Major Intro to Screen Printing
ARTN 291* Non-Major Intro to Book Arts and Papermaking
CMST 201* Introduction to Communication Studies
CMST 210* Public Speaking
ENGL 455* Persuasive Writing
ENGL 466 Writing, Layout, and Production of Technical Documents
ENT 350 Introduction to Entrepreneurship
ENT 375 Introduction to Name, Image, and Likeness
ENT 415 Strategic Frameworks for New Ventures
ENT 451 New Venture Planning
GRDS 425 Special Topics in Graphic Design
INSC 311 User-Centered Design
JMED 175* Introduction to Journalism and Creative Media
JMED 330* Communication for Media
PBRL 270* Public Relations Principles
PSYC 314 Cognitive Basis of Behavior
PSYC 360 Social Psychology
PSYC 410 Sensory Processes and Perception
[After]
[After] *Meets Volunteer Core Requirements.

Rationale* Making the Special Topics in Graphic Design an option for those getting a minor in Graphic Design Studies.

Financial Impact* None

Impact on Other Units* None

Credit Hours* 3

Course Description This course will look at the political, social, technological, and economic aspects of globalization and how they affect people's health and well-being—particularly Black communities—while identifying opportunities and risks. Students will be exposed to academic literature across several disciplines that engage with environment-health nexus with emphasis on Black communities. Students will be exposed to examples of global Black health initiatives and will be asked to think critically about why specific global health initiatives and organizations exist, how they function and the impacts they are having on health and health equity in sub-populations in America and globally.

Course Description This course explores how borders shape people's lives and what it means to belong in a world of nations, passports, and walls. Through stories and ethnographic examples from around the globe, this course will look at how governments draw boundaries, how people cross them, and how ideas of security and citizenship affect everyday life.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

- ◉ No

Credit Hours* 3

Course Description This class provides an anthropological perspective on Islam as a living tradition in contemporary social and political life. This course uses ethnographically grounded examples to understand the unity and diversity of contemporary Muslim life and Islam in the modern world. The class draws on anthropological methods and theory to think through how Islam as a religious tradition relates to other spheres of social life - like kinship, politics, and economics.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Approval was given to add CLAS/ANTH 446 to the Digital Humanities GR certificate. CLAS/ANTH 446 GR Courses were not listed in the GR Catalog. Created a GR course of CLAS 546/ANTH 546 that will be added instead and allow students to earn graduate credit, and therefore needed to add a matching credit restriction on CLAS / ANTH 446.

Impact on Other Units* None - credit restriction is only for ANTH 446 and ANTH 546.

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s) ART 455

Department Enforced (DE) Corequisite(s) Must be taken in conjunction with a 400 level studio in the student's concentration area.

Recommended Background

Comments

Registration Restriction(s) Minimum student level – senior.

Registration Permission Consent of instructor.

Equivalency

Rationale* The School of Art is restructuring the capstone experience for students. We currently offer three different capstone courses taught by as many as six different instructors each term. This course will replace that structure so that BFA students meet in a unified capstone course with one instructor in support of organizing their shared capstone exhibition. Students will co-register for our undegraduate professional practice course (ART 455).

Impact on Other Units* N/A

Financial Impact* none

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Removing MATH 130 or 131 prereq. Our goal is that students have familiarity with pre-calc at the beginning and some familiarity with calculus by the end. This is achieved by the calculus co-req. Currently students who place out of pre-calc cannot register. We would also like to allow calculus as a prereq or a co-req. Currently students are only allowed in if they are concurrently enrolled in calculus and this creates a lot of unnecessary prereq/coreq overrides.

Impact on Other Units* Students from other majors will find it easier to enroll in these classes because the pre/co-reqs will make sense.

Credit Hours* 3

Course Description An introduction to stars and the physical principles governing stellar structure and stellar evolution. Topics include equations of state for stars, hydrostatic equilibrium, energy production and energy transport in stars, the birth of stars, extrasolar planets, main sequence stars, solar neutrinos and neutrino oscillations, red giants and post mainsequence evolution, pulsating variable stars, white dwarfs, neutron stars and pulsars, accretion in binary star systems, novae, X-ray bursts, supernovae, and production of the elements in various stellar processes.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Recommended Background ASTR 151*-ASTR 152* or ASTR 218*; and PHYS 136* or PHYS 138*; and PHYS 252 and PHYS 321; or permission of instructor.

Comments

Registration Restriction(s) **Registration Permission**

Equivalency

Rationale* In Fall 2022, we replaced PHYS 232 & PHYS 250 with PHYS 251 & PHYS 252. We are now removing PHYS 232 & PHYS 250 as prerequisite options.

Impact on Other Units* None. This change was already effectively implemented because we no longer teach Phys 250 and students who took Phys 250 have mostly graduated.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Africana Studies

Program Name* Africana Studies Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Africana Studies minor provides students with a foundational understanding of African and African American histories, cultures, and societies. Anchored by core courses in African and African American history students explore the global dimensions of Black life through interdisciplinary coursework in literature, health, politics, and the arts. The minor complements a wide range of majors and prepares students to engage critically and creatively with an everchanging world of work and community.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The following are required in the concentration which consists of 15 hours from the Africana studies curriculum. A maximum of 3 hours in AFST 492 and AFST 493 combined can be applied toward the minor.

Complete: (6 Credit Hours)

AFST 201* Introduction to African American Society and Culture, 1619-1860
AFST 235* Intro to African Cultures and Societies, Before 1880s

Select Three Courses: (9 Credit Hours)

Any 300- or 400- level Africana Studies courses

Notes:

*** Meets Volunteer Core Requirements**

Rationale* Changed sequence to selecting two courses, **AFST 201** and **AFST 235**. This requires all minors to have both African and African American History.

Removed all courses and changed language to accept any 300- or 400- level course for the remaining 9 hours.

Financial Impact* N/A, Just changing minor to simplify the structure for when courses are modified.

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

ANTH 472 Paleopathology
ANTH 474 DNA Lab Methods
ANTH 480 Human Osteology
ANTH 486 Introduction to Forensic Anthropology
ANTH 490 Primate Evolution
ANTH 495 Hominin Paleobiology
ANTH 496 Comparative Primate Anatomy

Select nine hours:

any upper-division ANTH courses

Note:

Students with senior standing are encouraged to substitute appropriate 500-level courses (with permission of the instructor of the course and approval of the department head) for any portion of the above requirements.

Honors Concentration – Anthropology

The Department of Anthropology offers introductory honors courses (ANTH 117*, ANTH 127*, ANTH 137*), an honors course for juniors (ANTH 357), and a Senior Honors Thesis (ANTH 358 and ANTH 457), leading to an honors concentration. The honors concentration consists of at least 12 hours of anthropology honors courses, generally distributed as follows: at least 2 of the 3 introductory honors courses should be taken (during the freshman and/or sophomore years), ANTH 357 (generally during the Fall semester of the junior year), and ANTH 358 and at least two hours of ANTH 457 (taken during the senior year). To provide access to the honors concentration for transfer students and for students who have already completed the basic prerequisite courses, at least six hours of anthropology honors courses (e.g. ANTH 327, ANTH 387, ANTH 467) must be completed in addition to ANTH 357, ANTH 358, and ANTH 457. To satisfy the remaining requirements for the major, 24 additional hours of upper-division coursework in anthropology must be completed as specified above.

Permission of the instructor is required to enroll in any of the introductory honors courses. To progress into ANTH 357, grades of B or better in the introductory honors courses are required or permission of instructor if the student did not complete the introductory honors sequence. A grade of B or better and a thesis proposal approved by the instructor of ANTH 357 and commitment of a faculty member to direct the thesis (ANTH 358) and a grade of B or better, are required in order to enroll in ANTH 457. The Senior Honors Thesis (ANTH 457) is expected to be either original research or an in-depth literature review of a relevant anthropological topic. To graduate with honors the student must pass ANTH 457 with a grade of B or better.

Upon completion of the above requirements, and the earning of a final cumulative university GPA of at least 3.25, the student will graduate with Honors in Anthropology.

* Meets Volunteer Core Requirements.

Rationale*

We are updating the list of courses that are available for students to take to complete each of the required categories. With the addition of new courses, these lists become obsolete fairly frequently.

Archaeological Method and Theory: Added: **ANTH 326, ANTH 401, ANTH 434, ANTH 476**
Removed: **ANTH 466**

Archaeological Area
Added **ANTH 366, ANTH 445, ANTH 456**

Cultural Area
Added ANTH 405

Cultural Area
Removed **ANTH 349** - previously dropped course

Biological Anthropology Method and Theory
Added**: ANTH 387**

Biological Anthropology Applied Area
Added**: ANTH 399**

Honors: Added **ANTH 358, ANTH 457, ANTH 324, ANTH 387, and ANTH 467**

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Continuing, returning, and transfer students must meet progression requirements before declaring a major in anthropology.

Progression into the anthropology major is based on performance in the three prerequisite courses – ANTH 110* or ANTH 117*, ANTH 120* or ANTH 127*, and ANTH 130* or ANTH 137*.

The concentration in Disasters, Displacement and Human Rights (DDHR) is intended for current Anthropology majors wishing to develop specialized knowledge and research skills in the anthropological study of natural and unnatural disasters and humanitarian crises, forced migration, and human rights investigations, policies, practices, and norms. All prerequisites and requirements for the Anthropology major are required for the concentration. Credits earned toward the concentration may also count for departmental distribution requirements for the major.

Students pursuing a DDHR concentration must submit a form to the department and complete the following courses among the 30 required upper-division credits for the major. Special topics courses, and independent or foreign study courses, where appropriate, may be petitioned for the DDHR concentration.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Anthropology

Program Name* Anthropology Major, BA - Forensic Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Forensic concentration in Anthropology provides undergraduate students with a unique hands on program geared for work or research in the medicolegal community upon successful completion of the degree. The program emphasizes how anthropologists contribute to the forensic sciences in a unique manner. Courses provide students with practical experiences in the handling of biological evidence while encouraging ethical and responsible conduct. The unique series of 1 credit practical courses that supplement more traditional course structures make this a distinct academic major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Prerequisites:

ANTH 105 Scene of the Crime: Demystifying Forensic Science
[Before]
ANTH 110* Introduction to Biological Anthropology
[Right] or
ANTH 117* Honors: Introduction to Biological Anthropology
[Before]
ANTH 120* Introduction to World Archaeology
[Right] or
ANTH 127* Honors: Introduction to World Archaeology
[Before]
ANTH 130* Cultural Anthropology
[Right] or
ANTH 137* Honors: Cultural Anthropology
[Before]
ANTH 205 The Crime Lab: Interrogating Forensic Methods
ANTH 229 Skeletal Processing

Major Requirements:

The major consists of at least **30 hours.**

Concentration Requirements

Complete:

ANTH 480 Human Osteology
ANTH 486 Introduction to Forensic Anthropology

Select one course:

If a 3-credit hour course is selected to fulfill this requirement, take one additional ANTH 300 or 400-level course to complete the major requirements.

ANTH 306 Dental Anthropology
ANTH 384 Bioarchaeology
ANTH 395 Evolutionary Biomechanics
ANTH 399 Variable Topics in Forensic Anthropology Lecture Courses
ANTH 470 Anthropology and the Genome
ANTH 472 Paleopathology
ANTH 474 DNA Lab Methods
ANTH 483 Evolutionary Biology for Anthropologists
ANTH 490 Primate Evolution
ANTH 494* Primate Behavior
ANTH 495 Hominin Paleobiology
ANTH 496 Comparative Primate Anatomy
ANTH 499 Selected Topics in Forensic Anthropology

Complete 3 hours:

ANTH 329 Skeletal Collections and Curation
ANTH 339 Advanced Skeletal Processing
ANTH 409 Advanced Collections/Curation
ANTH 429 Anthropological Field Recovery
ANTH 439 Variable Topics in Forensic Center Experience and Practice
ANTH 479 Variable Topics in Forensic Center Methods and Research

Select one course:

ANTH 357 Junior Honors in Anthropology
ANTH 450 Current Trends in Anthropology

Select at least one upper-division anthropology course from each of the following four lists.

Archaeology method and theory:

ANTH 361* Historical Archaeology
ANTH 362 Principles of Archaeology
ANTH 366 Archaeology and Nationalism
ANTH 369 Selected Topics in Archaeology Method and Theory
ANTH 401 Archaeological Science
ANTH 431 Isotope Ecology
ANTH 434 Ceramic Analysis
ANTH 435 Historical Archaeology Laboratory
ANTH 445 GIS for Archaeology
ANTH 446* Archaeological Statistics
ANTH 451 Hunter-Gatherers
ANTH 455 Archaeological Foodways
ANTH 456 Archaeology of Landscapes
ANTH 460 Paleoethnobotany
ANTH 461 Archaeological Resource Management
ANTH 464 Principles of Zooarchaeology
ANTH 475 Archaeology of Empires
ANTH 476 Household Archaeology

Archaeology area

ANTH 360 The Archaeology of Indigenous North America
ANTH 364 African Archaeology
ANTH 366 Archaeology and Nationalism
ANTH 406 Taphonomy
ANTH 445 GIS for Archaeology
ANTH 452 Paleoindian Archaeology
ANTH 454 Archaeology of the African Diaspora
ANTH 456 Archaeology of Landscapes
ANTH 462 Archaeology of Europe
ANTH 463 Rise of Complex Civilizations
ANTH 465* Archaeology of the Trojan War
ANTH 466 Archaeology of Southeastern United States
ANTH 469 Selected Topics in Archaeological Area
ANTH 473 Archaeology of Southwest Asia

Cultural Area

ANTH 301 South Asian Cinema: Bollywood and Beyond
ANTH 311 Southeastern Indians
ANTH 313 Cultures of Mexico and Central America
ANTH 314 Latinos in the United States
ANTH 315 The African Diaspora
ANTH 319 Caribbean Cultures and Societies
ANTH 320* American Cultures
ANTH 322 Variable Topics in Ethnography
ANTH 324 Topics in African Ethnography
ANTH 325* Migration and Transnationalism
ANTH 405 Anthropology of reproduction and sexuality

Cultural Method and Theory

ANTH 325* Migration and Transnationalism
ANTH 412 Ethnographies of Trauma
ANTH 413* Dynamics of Health and Illness
ANTH 414 Political Anthropology
ANTH 415* Environmental Anthropology
ANTH 416 Engaged Anthropology
ANTH 419 Anthropology of Human Rights
ANTH 421 Refugees and Displaced People
ANTH 422 Anthropology of Global Inequality
ANTH 423* Feminist Anthropology
ANTH 425 Humanitarianism
ANTH 426 Decolonization
ANTH 432 Anthropology of Warfare, Violence, and Peace

Rationale*

We are updating the list of courses that can be taken to complete the categories within this concentration. These are housekeeping edits.

Prerequisites:
Added: **ANTH 205**

Major Requirements:

Added**: ANTH 384, ANTH 399, ANTH 499**

Archaeology method and theory:
Added: ANTH 401, ANTH 434, ANTH 476

Archaeology area
Added: ANTH 366, ANTH 445, ANTH 456

Cultural Area
Added ANTH 325

Cultural Method and Theory
Added ANTH 325

College of Arts and Sciences - Anthropology - Archaeology Anthropology Minor

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Anthropology

Program Name* Archaeology Anthropology Minor

Learning Outcomes

1. Students will demonstrate knowledge and understanding of anthropology and its subfields, particularly methods and theories in archaeology.
2. Students will develop skills in archaeology field or laboratory techniques, and critical thinking skills required for a successful career in archaeology or the social sciences.
3. Students will demonstrate understanding of the role of archaeology in current social and political circumstances, particularly as it relates to descendant communities.

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Campus code*

- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The minor in archaeology anthropology consists of **15** Credit Hours of upper-division anthropology courses.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Minor Requirements

The minor in anthropology consists of **15 hours** of upper-division anthropology courses.

Prerequisite: Choose one course from the following:

ANTH 120* Introduction to World Archaeology
ANTH 127* Honors: Introduction to World Archaeology

Prerequisite: Choose one course from the following:

ANTH 110* Introduction to Biological Anthropology
ANTH 117* Honors: Introduction to Biological Anthropology
ANTH 130* Cultural Anthropology
ANTH 137* Honors: Cultural Anthropology

Choose one of the following courses:

ANTH 361* Historical Archaeology
ANTH 362 Principles of Archaeology

Archaeology Method and Theory:

Choose one:

ANTH 326 Ancestral Appetites and Modern Tastes: Food and Culture
ANTH 361* Historical Archaeology
ANTH 362 Principles of Archaeology
ANTH 366 Archaeology and Nationalism
ANTH 369 Selected Topics in Archaeology Method and Theory
ANTH 401 Archaeological Science
ANTH 431 Isotope Ecology
ANTH 434 Ceramic Analysis
ANTH 435 Historical Archaeology Laboratory
ANTH 445 GIS for Archaeology
ANTH 451 Hunter-Gatherers
ANTH 455 Archaeological Foodways
ANTH 456 Archaeology of Landscapes
ANTH 460 Paleoethnobotany
ANTH 461 Archaeological Resource Management
ANTH 464 Principles of Zooarchaeology
ANTH 466 Archaeology of Southeastern United States
ANTH 475 Archaeology of Empires
ANTH 476 Household Archaeology

Archaeology Area

ANTH 360 The Archaeology of Indigenous North America
ANTH 364 African Archaeology
ANTH 406 Taphonomy
ANTH 452 Paleoindian Archaeology
ANTH 454 Archaeology of the African Diaspora
ANTH 462 Archaeology of Europe
ANTH 463 Rise of Complex Civilizations
ANTH 465* Archaeology of the Trojan War
ANTH 466 Archaeology of Southeastern United States
ANTH 469 Selected Topics in Archaeological Area
ANTH 473 Archaeology of Southwest Asia

Select 6 hours:

Take two additional upper-division ANTH courses (chosen in consultation with ANTH advisor).

* Meets Volunteer Core Requirements.

Rationale*

This will provide an option for undergraduate students to add a minor to their degree that focuses on themes in anthropological archaeology, including perspectives on Indigenous and world cultures, hands-on experiences in labs and/or in fieldwork, and critical thinking skills related to evaluating data that are applicable to various career paths and graduate programs.

- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 4

Course Description

The course presents the basic principles of physical chemistry, biophysics and structural biology and applies them to derive a detailed understanding of the functioning of biological molecules. Experimental and computational concepts in biomolecular structure are presented and illustrated with examples. A description of the fundamental interactions between atoms and molecules leads to a discussion of the major techniques that have permitted the solution of biological structures at atomic resolution. The use of AI in biophysics/biochemistry is discussed. The principles of spectroscopy, thermodynamics, kinetics and statistical mechanics are given and applied to fundamental biomolecular processes such as enzyme catalysis, ligand binding, membrane biophysics and protein folding. Allostery and macromolecular complexes are studied as well as how their formation and activity lead to cellular function. Finally, implications of the knowledge gained for the betterment of society are discussed with subjects such as sustainability and vaccine/therapeutic design

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Credit Hours* 4

Course Description This course explores the molecular basis of genome structure and function, with emphasis on chromatin organization and the regulation of gene expression. Topics include the structure of nucleic acids, chromosome architecture, mechanisms of replication, transcription, translation, RNA processing, recombination, DNA repair, and transposition. The course examines how chromatin structure shapes genome organization and gene regulation, and how epigenetic mechanisms such as DNA methylation and genomic imprinting contribute to genome function and genetic diseases. In addition, students will be introduced to next-generation sequencing and modern genomic approaches that have transformed our understanding of genome biology.

Course Description This course is intended for graduate and senior undergraduate students in biology, genome sciences, bioengineering, chemistry, physics, mathematics and computer science. Molecular biophysics is the study of biological molecules and interactions between them. It involves taking principles from physics, chemistry and mathematics and using them to describe biological systems. We will chart the great discoveries in molecular biophysics that have led to a detailed understanding of how biological molecules work and have transformed medicine. The research of ~40 Nobel prizewinners (and one Prime Minister) will be studied.

Rationale* This course was previously taught as a special topics course, and we are now making it a permanent course. The course is designed to fill a curricular gap at the interface of biology, physics, chemistry, and mathematics by exploring the foundational discoveries that have shaped the field of molecular biophysics. While existing coursework in the BCMB curriculum emphasizes molecular mechanisms, structural biology, and biochemical pathways, there is currently no course that explicitly contextualizes how the foundational principles of biophysics emerged through key historical experiments and interdisciplinary insights.

College of Arts and Sciences - BCMB - 440

2026-2027 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Biochemistry and Cellular and Molecular Biology

Subject/Prefix (choose from list)* BCMB

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 440

Course Title (max 100 characters)* Advanced Human Physiology and the Pathophysiology of Disease

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This course explores the cellular mechanisms that maintain physiological homeostasis within the human organism. Students will examine how cells regulate internal functions, as well as how disruptions in these processes contribute to various diseases. The course integrates principles of biochemistry, molecular biology, and cellular physiology to provide a comprehensive understanding of health and disease at the organismal level.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) BIOL 159*-BIOL 160*

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments It is recommended that students complete PHYS 221*-PHYS 222* before enrolling in this course.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Revised title and description to more accurately reflect the content and learning objectives of the course.

Impact on Other Units*

Credit Hours* 1

Course Description This 200-level seminar course for undergraduate students explores the challenges and opportunities in which scientific discovery and knowledge can have a positive impact. Each session will feature thought-provoking talks by local leaders and professionals who will share their experiences, insights, and challenges. By engaging with real-world perspectives, students will foster meaningful connections beyond the classroom. This seminar is designed to spark curiosity about all topics in Biology, promote civic engagement, develop professional competencies, and encourage experiential learning. Students will be challenged to think critically about the field of Biology and how they can make a difference in Biology by applying their knowledge and skills.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Seminar

Contact Hour Distribution (if more than one instructional method)

Grading Restriction Letter grade only

Repeatability May be repeated. Maximum 2 hours.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* This class is intended for undergraduate students majoring or considering majoring in biology to gain an appreciation of how Biology can help address real-world problems and contemporary challenges, The course is designed to document aspects of the selected topic from a multidisciplinary and integrated perspective to help students build a comprehensive understanding of the selected topic. Developing professional competencies and career readiness are major goals of the course and will be facilitated through networking and integrated VolEdge activities.

Impact on Other Units* N/A

Financial Impact* N/A

College of Arts and Sciences - BIOL - 400

2026-2027 UG Add Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Division of Biology

Subject/Prefix (choose from list)* BIOL

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 400

Course Title (max 100 characters)* Biology of Obesity: From Cells to Communities (with Service-Learning Integration)

Experience Learning Designation
- ○ N (Internship)
- ○ R (Research)
- ○ S (Service Learning)

For N/R/S base courses, should this course be:
- ◉ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This interdisciplinary course investigates the biological foundations of obesity and its impact on human health, while engaging students in meaningful community-based learning and experiences. Through a systems biology approach, students will explore cellular metabolism, endocrine regulation, genetics, and physiological outcomes of obesity. Students will also complete supervised experiential learning with a local health or research organization, applying biological concepts to real-world health disparities and gaining professional experience in the field.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

Recommended Background BIOL 150* and BIOL 160*

Comments This course integrates biological theory with public health practice and fulfills the applied-learning requirement for students in the **Biology of Global Health (GloHeal)** concentration. Service-learning placements will be arranged or approved by the course instructor.

Registration Restriction(s) Open to Biological Sciences majors or minors with completion of sophomore standing, or by permission of instructor.

Registration Permission

Equivalency BIOL 400S

Rationale* Creating a new course that is designed to complement **BIOL 450N (Biology of Global Health Internship – Research)** by offering a **Service-Learning (S)** version focused on community-based global health engagement rather than research emphasis. This course will be added to the Global Health concentration and was developed to strengthen experiential learning and career preparation in health and biological sciences.

Impact on Other Units* None

Financial Impact* None. Will be taught by current faculty.

Comments This course integrates biological theory with public health practice and fulfills the applied-learning requirement for students in the **Biology of Global Health (GloHeal)** concentration. Service-learning placements will be arranged or approved by the course instructor

Registration Restriction(s) Open to Biological Sciences majors or minors with completion of sophomore standing, or by permission of instructor.

Registration Permission

Equivalency BIOL 400

Rationale* Integrating service-learning into BIOL 400S: Biology of Obesity connects classroom learning with real-world experiences, allowing students to apply biological concepts to address obesity-related health challenges. This experiential approach enhances understanding of the biological, behavioral, and social factors influencing obesity while promoting critical thinking, communication, and leadership skills. Students also gain insight into diverse perspectives, social responsibility, civic engagement, and personal and professional growth, reinforcing both course objectives and preparation for future careers.

Impact on Other Units* None

Credit Restriction

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s) Completion of relevant coursework specified in the course syllabus

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments Internship placement and contract must be approved by the **Biology of Global Health Program Director** prior to enrollment. The course integrates biological research and professional skill-building to prepare students for graduate, medical, or public health careers.

Registration Restriction(s) 3.0 minimum grade point average. Open to Biological Sciences majors and minors with junior standing and above, or by permission of instructor.

Registration Permission Departmental approval required.

Equivalency BIOL 450N

Rationale* The BIOL 450 Internship course is equivalent to an upper-level experiential learning course because it integrates disciplinary biology content with supervised professional/field experiences, enabling students to apply and synthesize advanced biological knowledge in a real-world context outside of the classroom setting. The course maintains rigorous academic standards through faculty oversight, structured reflection, and assessment of competencies aligned with the Biological Sciences curriculum. Thus, BIOL 450 fulfills the same level of learning outcomes as a traditional upper-level (400-pluse) course while offering the added dimension of practical professional engagement.

Impact on Other Units* Minimal. The course draws upon existing internship coordination processes within Biological Sciences. No curricular impact on other departments.

Financial Impact* None anticipated. Utilizes existing infrastructure for experiential learning and faculty supervision.

Arts and Sciences Originators Only

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Biochemistry and Cellular and Molecular Biology

Program Name* Molecular Biophysics Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Prerequisites:

BIOL 160* Cellular and Molecular Biology
[After] or
BCMB 230 Human Physiology
[After]
MATH 141* Calculus I
[After] and
MATH 142* Calculus II
[After] or
MATH 151* Mathematics for the Life Sciences
[After] and
MATH 152* Calculus for the Life Sciences
[After]
PHYS 135* Introduction to Physics for Physical Science and Mathematics Majors I
[Right] and
PHYS 136* Introduction to Physics for Physical Science and Mathematics Majors II
[After] or
PHYS 137* Honors: Fundamentals of Physics for Physics Majors I
[After] and
PHYS 138* Honors: Fundamentals of Physics for Physics Majors II
[After] or
PHYS 221* Elements of Physics I
[Right] and
PHYS 222* Elements of Physics II
[After] or
EF 151* Physics for Engineers I
[Right] and
EF 152* Physics for Engineers II
[Right] and
PHYS 231* Fundamentals of Physics: Electricity and Magnetism
[After]
CHEM 260 Foundations of Organic Chemistry
[After] or
CHEM 370 Foundations of Physical Chemistry
[After] Note that calculus-based physics is strongly preferred.

The minor consists of roughly five courses (15+ credit hours, depending on course selection) beyond the required pre-minor coursework mentioned above. Of these five, up to two courses may also be used toward meeting curricular requirements for the student's major or another minor requirement concurrently.

A. Core Concepts (select two):

BCMB 333 Structural Biology and Human Health
[Right] §
BCMB 405 Biophysical Chemistry
BCMB 422* Computational Biology and Bioinformatics
[Right] §

B. Advanced Topics (select two):

BCMB 401 Biochemistry I
[Right] §
[Right] ‡
BCMB 424 Programming for Statistical and Graphical Analysis of Biological Data
BCMB 433 Analytical Techniques in Human Disease
BME 405 Introduction to Drug Delivery
BME 449* Biomedical Engineering Laboratory
[Right] §
CHEM 380 Foundations of Chemical Biology
[Right] ‡
PHYS 251 Fundamentals of Physics: Waves, Optics, and the Breakdown of Classical Physics
PHYS 252 Fundamentals of Physics: Quantum Physics and Applications
PHYS 321 Thermal Physics
PHYS 421 Modern Optics
[After] Notes: One of course can be replaced by a third course from Group A.

C. Capstone

BCMB 452* Independent Research in Biochemistry and Cellular and Molecular Biology
[After] or
[After] A third course labeled with * from group A or B
[After] A third course in Group B labeled with ǂ under the condition that a corresponding lab is taken
[After] or
[Right] (3 credit hours)
CHEM 380 Foundations of Chemical Biology
[Right] +
CHEM 389 Foundations of Chemical Biology Laboratory
[After] or
BCMB 401 Biochemistry I
BCMB 419* Cellular and Comparative Biochemistry Laboratory

Notes:

[1] courses with * labeled have a strong laboratory, project-oriented or hands-on component.

[2] courses listed with § may have enrollment restriction, additional prerequisite (beyond the prerequisite of this minor), or need approval from the instructor for enrollment.

[3] courses listed with ‡ when used to satisfy Group C requirements, need a companion lab course.

* Volunteer Core Requirements

Rationale* The Physics Department is archiving/dropping PHYS 250, therefore, it was removed from the course list. It was replaced with the new courses PHYS 251 and PHYS 252.

Financial Impact* None

Impact on Other Units* None. Physics has not taught PHYS 250 in multiple years due to updates made in Fall 2022. All the students who previously had taken PHYS 250 have now graduated. Replacement courses are currently being taught regularly since they were added to the catalog a few years ago.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Course Description

This course examines the changing meanings of "normal" and "queer" genders and sexualities in Asia and its diasporas. Working through the leading scholarship in Asian queer theories, students identify major issues about bodies, genders, and sexualities in Asian context, learn sex theories and norms, examine their representations in visual culture, and critically evaluate the knowledge production around queerness and sexuality in the encounters of Asia and the west.
The course is conducted in English.

Statement about Crosslistings:

Comments

Registration Restriction(s)

Registration Permission

Equivalency* CHIN 235

Rationale*

Changing course number from CHIN 235* to CHIN 360*. Previously approved for Vol Core GCI.
Because this course covers a wide range of topics and theories, the department thinks it is more adequate to count it as an UD course instead of a LD course. The new title will also more clearly reflect its content. This course is highly relevant to WGS's curriculum so it will be cross-listed as a WGS course.

Impact on Other Units* N/A.

- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description

This course examines the ways gender (especially the image of woman) and sexuality (especially the sexualities beyond heteronormativity) act as visual and discursive signs in Chinese cinema. It tracks the social transformations of twentieth-century China through cinema and revisits the historical trajectories of Chinese cinema through the lens of gender and sexuality.

The course is conducted in English.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary CHIN 469 (Primary), WGS 461 (Secondary), CNST 461 (Secondary)

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Credit Hours* 3

Change course status from active to:* (•) Dropped ( ) Archived

Course Description Introductory survey of civilization of ancient Greece and Rome. Includes aspects of history, literature, art and archaeology, philosophy, and religion.

Satisfies Volunteer Core Requirement: (GCI)

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency CLAS 101

Rationale* This drop is necessary as the intention was to change the course number of CLAS 201 to CLAS 101. A Revise Course (Dynamic Changes) form should have been used, but CLAS 101 was created using an Add form, without stating the equivalency of CLAS 201 to 101.

This dropped course is equivalent to CLAS 101.

Affected programs have been notified.

Rationale* This change is reflecting the change of the previously cross-listed course, RUSS 325*. It is a change to the title and an update to the description. The curriculum of this course is designed to "decolonize" Russian film studies to a degree by including films and materials from former Soviet Union member states such as Ukraine and Georgia. It is preferred that the title indicate this.

Registration Restriction(s)

Registration Permission

Equivalency* CNST 335*

Rationale* Changing course from CNST 335* to CNST 425*. Previously approved for Vol Core AAH.

This course was previously offered at the 400 level and was revised down by a new faculty member who has since left the program. It was deemed by area faculty that the course was more appropriate at the 400 level and additionally met a need there for the MFA graduate program. The course will be added back to the graduate catalog.

Impact on Other Units*

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description This course introduces logistic regression methods for analyzing categorical outcomes, with a focus on real-world applications. Students will explore binary and multinomial models, interpret coefficients, assess model fit, and evaluate predictive performance using tools like ROC curves and AUC. Emphasis is placed on hands-on analysis using statistical software, with practical examples drawn from health, social, and behavioral data. Ideal for students interested in applied data modeling in health and other fields.

Statement about Crosslistings:

Rationale* This course will be part of the new Health Science Data Analytics concentration within the Interdisciplinary Programs (IDP) Major. Logistic regression is a foundational tool in the analysis of binary and categorical outcomes, particularly prevalent in health-related research (e.g., disease presence/absence, treatment success/failure). This course will equip students with essential analytical skills for evidence-based decision-making in public health, biomedical research, and health services.

Impact on Other Units* no impact on other units

Financial Impact* no financial impact. The Math Department has planned for the development and teaching of these courses using its existing faculty resources.

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This course covers key methods for analyzing time-to-event data, with applications across health, social, and natural sciences. Topics include censoring, survival and hazard functions, Kaplan–Meier curves, log-rank tests, and Cox proportional hazards models. Students will learn to interpret results, assess model assumptions, and apply survival analysis to real-world datasets using statistical software. The course also explores how machine learning and AI techniques can enhance traditional survival models for improved prediction and insight, especially in healthcare and biomedical research.

Rationale* This course is for the new Health Science Data Analytics Concentration within the Interdisciplinary Programs (IDP) Major. Time-to-event data are ubiquitous in health research, whether evaluating patient survival, time to disease recurrence, or duration until hospital readmission. Incorporating this course into the Health Data Analytics Concentration will ensure students are equipped with the necessary statistical techniques for modern biomedical and epidemiologic research, enhancing their competitiveness for careers in health data science and biostatistics.

Impact on Other Units* no impact on other units

Financial Impact* No financial impact. The Math Department has planned for the development and teaching of these courses using its existing faculty resources.

Credit Hours* 3

Course Description In this culminating course, students apply the skills gained throughout the Health Data Analytics concentration to a real-world project using health-related data. Working individually or in teams, students will address practical challenges by applying statistical methods, machine learning, and AI tools. Emphasis is placed on critical thinking, collaboration, and effective use of data science techniques, including predictive modeling and pattern recognition, to generate actionable insights. Students will also learn to communicate results clearly to both technical and non-technical audiences.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

Equivalency

Rationale* This course is the capstone experience for the new Health Science Data Analytics concentration of the Statistics major. There is currently a shortage of students who are fully capable of taking on real-world projects in health analytics at UTK. This capstone course helps address that gap by providing students with hands-on experience working with real health data, applying statistical methods, and communicating their findings in a professional setting. The course also equips students with essential skills needed to pursue careers or graduate study in health analytics. By connecting classroom learning to real-world data projects, the course ensures students are prepared to make meaningful contributions in the healthcare and public health workforce.

Impact on Other Units* No impact on other units.

Financial Impact* No financial impact. The Math Department has planned for the development and teaching of these courses using its existing faculty resources.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Chemistry

Program Name* Chemistry Major, BS - Medicinal Chemistry Concentration (uTrack Requirements)

Degree Type* Bachelor of Science

Program Type* Concentration

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

[Before]Complete one of the following elective courses:
BCMB 401 Biochemistry I
CHEM 432 Bioinorganic Chemistry
CHEM 472 Chemoinformatics and Digital Drug Discovery
[After]
[Before]Complete one additional elective from the following:
CHEM 330 Foundations of Inorganic Chemistry
CHEM 370 Foundations of Physical Chemistry
CHEM 430 In-depth Inorganic Chemistry
CHEM 470 In-depth Physical Chemistry
CHEM 490 Introductory Polymer Chemistry
CHEM 311 In Depth Analytical Chemistry

Credit Hours 18

Term 7 Milestone Notes

Complete a total of at least 24 total upper-division (300-400 level) hours

Term 8

Connections **3** *Credit Hours*
Engaged Inquiries (EI) Elective **3** *Credit Hours* *
Written Communication (WC) Elective **3** *Credit Hours* *

[Before]Complete one additional elective from the following courses:
CHEM 432 Bioinorganic Chemistry
CHEM 472 Chemoinformatics and Digital Drug Discovery
BCMB 401 Biochemistry I
[After]
[After]
[Before]Complete the following advanced laboratory class:
CHEM 489* Advanced Medicinal Chemistry Laboratory
[After]
[Before]Complete the following course:
CHEM 409 Chemistry Proficiency

Credit Hours 14

Term 8 Milestone Notes

All students must complete at least 42 total upper-division (300-400 level) hours to receive a degree from the College of Arts & Sciences.

Total Credit Hours 123-127

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
Cognitive electives to the major include MATH 241 or MATH 247; MATH 251 or MATH 257; BIOL 150* or BIOL 158*; STAT 251.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements.**

Rationale* Corrected milestone errors from 2024-2025 that were caught by the DARS team in the Registrar's Office this past summer. Email thread with department approval is attached.

- Removed the duplication of **ENGL 102*** from Term 4 Milestone as it is correctly listed in Term 3.
- Removed the duplication of **MATH 125*** in Milestone Term 3, as it is correctly listed in Term 2.
- Removed **CHEM 306*** from Term 5, as it is correctly listed in Term 6.

Financial Impact* None

Impact on Other Units* None

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The Classical Archaeology minor consists of **18 hours**.

Complete:

CLAS 132 Introduction to Greek and Roman Archaeology and Art

Choose two:

CLAS 436* Cities and Sanctuaries of the Greek and Roman World
CLAS 442* Archaeology of the Prehistoric Aegean
CLAS 443* Archaeology and Art of Ancient Greece
CLAS 444* Archaeology and Art of Ancient Italy and Rome

Choose one:

CLAS 302* History of Greece I
CLAS 304* History of the Early Roman Empire
CLAS 305* History of the Late Roman Empire
CLAS 306* History of Greece II
CLAS 309* History of the Roman Republic

Select 6 hours:

any 200-level or above Classics courses (excluding CLAS 273)

* Meets Volunteer Core Requirements.

Rationale* **CLAS 232*** is being replaced by the gateway new course, **CLAS 132**.

Financial Impact* None.

Impact on Other Units* None.

Requirements*

Minor Requirements

The Minor Track in Classical languages consists of 18 or 19 hours. Select one course from CLAS 112, CLAS 122, or any Classics course numbered 200 or above (excluding CLAS 273). 12 hours must be chosen from any 200-level or above Latin or Greek language courses. 3 hours may be chosen from Classics courses numbered 200 or above (excluding CLAS 273), HIME 382, HIME 400, PHIL 320*.

Select one course:

CLAS 112 Beginning Latin II
CLAS 122 Beginning Ancient Greek II
[After] Any 200-level or above Classics course (except CLAS 273)

Choose one:

[Before]
Any 200-level or above Classics course (except CLAS 273)

HIME 382 Archaeology of Ancient Israel
HIME 400 Archaeology and History of Mesopotamia
PHIL 320* Ancient Western Philosophy

Select 12 hours:

Any 200-level or above Latin or Greek language courses.

*** Meets Volunteer Core Requirements.**

Rationale* With CAS approving 100-level gateway courses for majors, one 4 credit-hour course of either CLAS 112 or CLAS 122 (the 2nd semester of the first-year introductory Latin / Greek sequence) has been added to the courses which can satisfy program requirements (students can either use it as an option or another 200-level Classics course, per the current program requirements).

Financial Impact* None.

Impact on Other Units* None.

College Requirements

Arts and Sciences

Major Requirements

The concentration in classical archaeology consists of **30 hours**.

A. Complete:

CLAS 132 Introduction to Greek and Roman Archaeology and Art
CLAS 299* Research Practicum in Classics

B. Choose two:

CLAS 436* Cities and Sanctuaries of the Greek and Roman World
CLAS 442* Archaeology of the Prehistoric Aegean
CLAS 443* Archaeology and Art of Ancient Greece
CLAS 444* Archaeology and Art of Ancient Italy and Rome

C. Choose one:

CLAS 302* History of Greece I
CLAS 304* History of the Early Roman Empire
CLAS 305* History of the Late Roman Empire
CLAS 306* History of Greece II
CLAS 309* History of the Roman Republic

D. Choose one:

ANTH 361* Historical Archaeology
ANTH 362 Principles of Archaeology
ANTH 369 Selected Topics in Archaeology Method and Theory
ANTH 384 Bioarchaeology
ANTH 430 Fieldwork in Archaeology
ANTH 430R Fieldwork in Archaeology
ANTH 431 Isotope Ecology
ANTH 435 Historical Archaeology Laboratory
ANTH 445 GIS for Archaeology
ANTH 455 Archaeological Foodways
ANTH 456 Archaeology of Landscapes
ANTH 460 Paleoethnobotany
ANTH 464 Principles of Zooarchaeology
CLAS 439* Pompeii
CLAS 446* Archaeological Statistics

E. Choose three Classics courses:

any 200-level or above Classics courses (excluding CLAS 273)

F. Select three hours:

Choose one course:

ANTH 364 African Archaeology
ANTH 403 Archaeology and History of Mesopotamia
ANTH 462 Archaeology of Europe
ANTH 463 Rise of Complex Civilizations
HIME 382 Archaeology of Ancient Israel
HIME 400 Archaeology and History of Mesopotamia
ANTH 451 Hunter-Gatherers
ANTH 462 Archaeology of Europe
ANTH 473 Archaeology of Southwest Asia
HIME 486 Studies in the Ancient Near East
[After] any 300-level or above Classics course

[After]

Note:

The student must satisfy the College's foreign language requirement with Ancient Greek, Latin, French, German, Italian, Spanish or Arabic.

Classical Archaeology - Honors Concentration

The Honors Classical Archaeology Concentration consists of 30 hours. The required core of the major is CLAS 132, which the student must pass with a B+ or better. 9 hours may be from any Classics course numbered 200 or above (excluding CLAS 273). In strict consultation with a departmental advisor, the student pursuing Honors in Classical Archaeology will select an additional 15 hours from ANTH 361*, ANTH 362, ANTH 364, ANTH 369, ANTH 403, ANTH 430, ANTH 430R, ANTH 431, ANTH 435, ANTH 455, ANTH 460, ANTH 462, ANTH 463, ANTH 464; CLAS 299*, CLAS 302*, CLAS 304*, CLAS 305*, CLAS 306*, CLAS 309*, CLAS 436*, CLAS 439*, CLAS 442*, CLAS 443*, CLAS 444*, CLAS 445*, CLAS 446*, CLAS 461, CLAS 464, CLAS 462*, CLAS 465*; HIME 382, HIME 400, HIME 486 to design a program that will advance their understanding of a particular specialty within the field of Classical Archaeology. The student must satisfy the College's foreign language requirement with Greek, Latin, French, German, Italian, Spanish, or Arabic. To graduate with Honors, the student must maintain a minimum B+ average in Classics department courses and a minimum cumulative B+ average at UT. In total, the student must take a minimum of 15 hours of Honors courses, not all of which need to be in the major subject area. These 15 hours include 3 thesis hours (CLAS 498). The student will present an Honors thesis (CLAS 498) which must receive a grade of B+ or better to permit graduation with Honors.

*** Meets Volunteer Core Requirements.**

Rationale*

CLAS 232* is being replaced by **CLAS 132** (100-level gateway course).

More course options are added to categories D and F because of the expansion of relevant archaeological course offerings in the Anthropology department.

Courses Added:
Section D: **ANTH 384, ANTH 445, ANTH 456**
Section F: **ANTH 451, ANTH 462, ANTH 473**

Honors: Replaced **CLAS 272*** with **CLAS 172, added CLAS 464**

Financial Impact*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

*** Meets Volunteer Core Requirements.**

Rationale* **CLAS 232*** is being replaced by the gateway **CLAS 132** in term 3 and in term 4 milestone notes.

Classical Civilization – Honors Concentration

The Honors Classical Civilization concentration consists of **30 hours**. 12 hours may be from any courses in the Classics Department numbered 200 and above (excluding CLAS 273). In strict consultation with a departmental advisor, the student pursuing Honors in Classical Civilization will select an additional 15 hours from Classics CLAS 299* and courses numbered 300 or above, ANTH 403, HIME 382, HIME 400, HIME 486, PHIL 320*, REST 312*, and REST 321* to design a program that will advance their understanding of a particular specialty within the field of Classical Civilization. To graduate with Honors, the student must maintain a minimum B+ average in Classics Department courses and a minimum cumulative B+ average at UT. In total, the student must take a minimum of 15 hours of Honors courses, not all of which need to be in the major subject area. These 15 hours include 3 thesis hours (CLAS 498). The student will present an Honors thesis (CLAS 498) which must receive a grade of B+ or better to permit graduation with Honors.

* Meets Volunteer Core Requirements.

Rationale* **CLAS 201** is being dropped and replaced with gateway course **CLAS 101.**

Financial Impact* None.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

[1] Elective **0-2** *Credit Hours*
Foreign Language (intermediate level) or beginning level chosen from Greek or Latin) **3-4** *Credit Hours*

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

Note: If a student elects to complete CLAS 251 - Intermediate Latin I or CLAS 252* - Intermediate Latin II or CLAS 261 - Intermediate Greek: Grammar Review and Readings or CLAS 264* - Intermediate Greek: Epic Poetry, an additional course at the 300-level or above will need to be completed.

* Meets Volunteer Core Requirements.

Rationale* The DARS Team in the Registrar's Office indicated that the Milestone in Term 3 needed to be corrected from 24 credit hours to 36 credit hours. No other changes were made to this proposal. Milestone has now been corrected.

Financial Impact* None

College* College of Arts and Sciences

Department* Classics

Program Name* Classics Major, BA - Classical Languages Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The B.A. Major Concentration in Classical languages consists of **30 or 31 hours**. The required core of the major is CLAS 299*. Students **select one course** from CLAS 112, CLAS 122, or any Classics course numbered 200 or above (excluding CLAS 273). **18 hours** must be chosen from any 200-level or above Latin or Greek language courses. **6 hours** may be from any Classics course numbered 200 or above (excluding CLAS 273) or from HIME 382, HIME 400, PHIL 320*.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Major Requirements

The concentration in Classical Languages consists of **30 or 31 hours**.

Complete:

CLAS 299* Research Practicum in Classics

Select one:

CLAS 112 Beginning Latin II
CLAS 122 Beginning Ancient Greek II
[After] Any 200-level or above Classics course (except CLAS 273).

Choose six:

CLAS 251 Intermediate Latin I
CLAS 252* Intermediate Latin II
CLAS 261 Intermediate Greek: Grammar Review and Readings
CLAS 264* Intermediate Greek: Epic Poetry
CLAS 351* Latin Prose
CLAS 352* Latin Poetry
CLAS 401* Greek Poetry
CLAS 402* Greek Prose
CLAS 405 Selected Readings from Greek Literature
CLAS 406 Selected Readings from Greek Literature
CLAS 414 Latin Prose Composition
CLAS 431 Selected Readings from Latin Literature
CLAS 432 Selected Readings from Latin Literature
CLAS 435 Medieval Latin
CLAS 471 Special Topics in Medieval Latin Literature

Choose two courses:

ANTH 403 Archaeology and History of Mesopotamia
[Before]Any 200-level or above Classics courses (except CLAS 273).

HIME 382 Archaeology of Ancient Israel
HIME 400 Archaeology and History of Mesopotamia
HIME 486 Studies in the Ancient Near East
PHIL 320* Ancient Western Philosophy
REST 312* Early Judaism
REST 321* New Testament and Christian Origins
[After]

*** Meets Volunteer Core Requirements.**

Rationale*

With CAS approving 100-level gateway courses for majors, one 4 credit-hour course of either CLAS 112 or CLAS 122 (the 2nd semester of the first-year introductory Latin / Greek sequence) has been added to the courses which can satisfy program requirements (students can either use it as an option or another 200-level Classics course, per the current program requirements).

College of Arts and Sciences - Classics - Latin Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College of Arts and Sciences - Division of Biology - Biological Sciences Major, BA - Ecology and Evolutionary Biology Concentration

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Division of Biology

Program Name* Biological Sciences Major, BA - Ecology and Evolutionary Biology Concentration

Learning Outcomes

Degree Type* Bachelor of Arts

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The BA Biological Sciences major offers a concentration in Ecology and Evolutionary Biology.

Continuing, returning, and transfer students must meet progression requirements before declaring a major in biological sciences.

To declare biological sciences as a major, students must have an overall GPA of 2.0, be in good academic standing, and have completed BIOL 150* or BIOL 113* with a minimum grade of C. Although the completion of either BIOL 113*-BIOL 114*-BIOL 115* or BIOL 150*-BIOL 160*-BIOL 159* are permissible as prerequisites to the major, the faculty encourages students to take the BIOL 150*-BIOL 160*-BIOL 159* sequence, particularly if they are pre-professional students.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

College Requirements

Arts and Sciences

Prerequisites

A minimum grade of C must be earned in all prerequisites.

Complete:

BIOL 113* Introductory Plant Biology I
BIOL 114* Introductory Plant Biology II
BIOL 115* Introductory Plant Biology Laboratory
[After]

or

BIOL 150* Organismal and Ecological Biology
[Right] (or equivalent)
BIOL 160* Cellular and Molecular Biology
[Right] (or equivalent)
BIOL 159* Skills of Biological Investigation
[Right] (or equivalent)
[After]

and

BIOL 260 Ecology
BIOL 269 Ecology Field-Based Laboratory
BIOL 280 Evolution
BIOL 281 Evolution Discussion
[Right] (or equivalent)

Select one of the following:

MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 151* Mathematics for the Life Sciences
MATH 132* Calculus 1B Infused with Precalculus

Note:

MATH 141* or MATH 151* can be used to satisfy ecology and evolutionary biology requirements. However, MATH 132*-MATH 142*, or MATH 141*-MATH 142* is recommended for students with a strong interest in quantitative ecology and is prerequisite to several courses that satisfy the ecology and evolutionary biology quantitative requirement.

EEB Concentration Requirements

The Ecology and Evolutionary Biology, BA concentration consists of **32** credit hours.

I. Professional Development

Complete:

EEB 311 Career and Professional Development
EEB 490 Undergraduate Seminar

II. Statistics Requirement

Complete:

EEB 411* Biostatistics

III. Upper-Division Courses

A total of **18 hours** is required from the courses listed below.
Complete at least one course from each area of knowledge below.

A. Ecology and Evolution in Society

EEB 304 Socio-Economic Impact of Plants
EEB 305* Evolution and Society
EEB 306 Ecology and Society
EEB 409 Perspectives in Ecology and Evolutionary Biology
EEB 485 Ethnobiology: Theory and Methods
GEOG 439 Plants, People, and Climate in North America

B. Ethics and History of Natural Sciences

Select one course

ANSC 495* Ethics in Animal Agriculture
EEB 451* Research Ethics
HIEU 435 Science, Religion and Magic in Early Modern Europe
PHIL 340* Ethical Theory
PHIL 345* Bioethics
PHIL 346* Environmental Ethics
PHIL 366* Philosophy of Cognitive Science
PHIL 463* Race, Science, and Medicine
REST 343* Religion, Nature, and Ethics

C. Knowledge of Organisms

EEB 320 Pollinator Ecology
EEB 330* Field Botany
EEB 330S* Field Botany
EEB 351 Field Mycology
EEB 353 Comparative Vertebrate Biology
EEB 414 Plant Anatomy
EEB 420 Fungal Diversity
EEB 444 Diversity of Tennessee Fishes
EEB 461 Special Topics in Organismal Biology
EEB 473 Herpetology
EEB 474 Diversity, Ecology, and Evolution of Fishes
EEB 481 Avian Diversity
WFS 433 Amphibian Ecology and Conservation
WFS 444 Ecology and Management of Wild Mammals
WFS 445 Ecology and Management of Wild Birds

D. Expanding Knowledge of Ecology and Evolution

Select two courses:

EEB 304 Socio-Economic Impact of Plants
EEB 310* Evolution, Disease, and Medicine
EEB 315 Parasites, Disease, and Behavior
EEB 370 Evolutionary Psychology and Ethology
EEB 402* Disease Ecology
EEB 403 The Evolution of Cancer: An Integrative Approach
EEB 404 Ecosystem Ecology
EEB 410 Ecological and Evolutionary Developmental Biology
EEB 415* Field Ecology
EEB 419* Global Change Ecology
EEB 422 Landscape Ecology
EEB 424 The Evolution of Plant Diversity
EEB 426 Plant-Animal Interactions
EEB 430 Invasion Biology
EEB 432 Conservation Genomics
EEB 433* Plant Ecology
EEB 435 Ecophysiology
EEB 450 Animal Behavior
EEB 454 Animal Communication
EEB 459 Animal Behavior Laboratory
EEB 464 Macroevolution
EEB 465 Special Topics in Ecology
EEB 466 Special Topics in Evolution
EEB 469 Special Topics in Conservation Biology
EEB 471* Aquatic Macroecology and Conservation
EEB 476* Theoretical Ecology and its Applications
EEB 479 Advanced Techniques in Nucleic Acid Sequencing
EEB 484 Conservation Biology
GEOG 435 Biogeography

IV. Professional Skills

Select two courses based on your career interests.

AFST 220 Environmental Justice, Climate Change, and Health
ALEC 485* Global Sustainable Development Goals
AREC 314* Environmental Law
EEB 423 Conservation Decision Making
EEB 425* Communicating the Science of Climate Change Biology
ETEC 386 Integrating Technology into the Curriculum
GEOG 202 Effective Science Communication for Geography and Sustainability Professionals
GEOG 346 Energy, Governance, and Sustainability
GEOG 430 Global Environments of the Quaternary

GEOG 431 Environmental History from Lake Sediments
GEOG 432 Environmental History from Tree Rings
GEOG 440* Global Perspectives on Urban Sustainability
GEOG 446 City and Community Sustainability Planning
GEOG 476 Justice in the Energy Transition
HIUS 304 US Environmental History
PHYS 405 Science, Technology, and Public Policy
POLS 350 Sources of Political Change in the Global South: Coups, Climate, and Conflict
SCED 432* Knowing and Learning in Mathematics and Science
SNR 420* International Natural Resource Issues
SOCI 361* Environmental Justice
SOCI 464 Political Economy of Natural Resources and the Environment

V. Practical Experience

Complete two credit hours from section A or B

A. Internship

Select from the following:

EEB 416 Greenhouse Internship
EEB 482 Animal Care Internship
EEB 486 Bioinformatics Software Internship
[Right] 2 Credit Hours

EEB 489 Avian Field Methods Internship
[Right] 2 Credit Hours

EEB 492 Off-Campus Internship in Ecology and Evolutionary Biology
[Right] 2 Credit Hours

EEB 494 Herbarium Internship
[Right] 2 Credit Hours

B. Supervised Research

Select from the following:

EEB 400 Undergraduate Research
[Right] 2 Credit Hours

EEB 407 Senior Honors Thesis
EEB 493 Independent Study
[Right] 2 Credit Hours

VI. Proficiency (0 Credit Hours)

To support the department's assessment efforts, students are required to complete a zero credit course at the end of the student's degree program.

EEB 499 Ecology and Evolutionary Biology Proficiency

Honors Option – Ecology and Evolutionary Biology Concentration

Requirements for the honors option are:

- **fulfill all requirements for the BA in biological sciences with a concentration in ecology and evolutionary biology**
- **achieve at least a grade of B in the upper-division concentration courses**
- **maintain a concentration GPA of at least 3.5**
- **maintain an overall GPA of at least 3.25**
- **complete 9 hours of honors-by-contract coursework from EEB 400, EEB 490, EEB 492, EEB 493 and other upper-division ecology and evolutionary biology courses available for major credit in the concentration**
- **complete EEB 407 Senior Honors Thesis with thesis to be approved by student's committee.**

*** Meets Volunteer Core Requirements.**

Rationale*

This proposal is creating a new Bachelor of Arts (BA) degree in Biological Sciences. Only about 30% of EEB graduates go to graduate school. A BA would be a more flexible degree, enabling more students to get an EEB major and tailor their courses to future career goals. This change would allow us to strengthen the requirements for the BS while simultaneously allowing us to grow the overall program. Adding a BA degree also facilitates transfers into the major, both from other majors and from other institutions.

Many careers that leverage expertise in ecology, evolution, and organismal biology place a premium on skills such as scientific communication, policy literacy, conservation practice, education, outreach, and nonprofit management. These careers include, but are not limited to:

- Conservation and land management (government agencies, NGOs)
- Environmental education and interpretation (nature centers, national parks)
- Wildlife rehabilitation, management, and policy
- Zoo, aquarium, and museum science and outreach
- Science communication, public engagement, and advocacy
- Biological consulting for environmental compliance and mitigation
- Sustainability and biodiversity initiatives in corporate, nonprofit, and government sectors

For these fields, a deep understanding of biological principles and ecological systems is critical, but extensive coursework in chemistry, physics, and calculus is not required. Instead, emphasis on ecology, organismal diversity, evolution, field methods, scientific communication, environmental policy, and data literacy will better prepare students for success.

Financial Impact*

Financial Impact* There are no new courses proposed as part of this new BA degree. We have contacted all units that contribute courses to this new BA degree and none have indicated a financial impact.

Impact on Other Units* Africana Studies

Agricultural Leadership, Education & Communications (ALEC)

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Division of Biology

Program Name* Biological Sciences Major, BA - Ecology and Evolutionary Biology Concentration (uTrack Requirements)

Learning Outcomes

1. Disciplinary Understanding of Core Biological Concepts
Graduates should be able to explain the five big ideas (FBIs) in biology and apply them to ecological and evolutionary phenomena across scales.

- **Evolution**: Explain how populations of organisms and their cellular components change over time through both selective and non-selective evolutionary processes.
- **Structure and Function**: Relate biological structures to their functions at molecular, organismal, and ecosystem levels.
- **Information Flow and Storage**: Describe how information and signals are used and exchanged within and among organisms to direct their functioning.
- **Transformations of Energy and Matter**: Explain how living things acquire, use, release, and cycle matter and energy.
- **Systems**: Recognize that diverse living systems are interconnected, and analyze how they interact and influence each other at multiple levels.

2. Proficiency in Scientific Practices
Graduates should demonstrate the ability to:

- Develop hypotheses and predictions based on models or data.
- Interpret scientific representations (e.g., graphs, phylogenies, molecular structures) and draw evidence-based conclusions.
- Summarize and synthesize scientific information in ways that integrate multiple lines of evidence.

3. Research Skills and Applied Experience
Graduates should be able to:

- Describe and perform modern experimental, field, or computational techniques used in ecology and evolutionary biology.
- Apply disciplinary knowledge and skills in professional contexts such as conservation, environmental policy, communication, education, or applied research.

4. Communication and Professional Literacy
Graduates should be able to communicate clearly and effectively in disciplinary and professional contexts by:

- Locating, evaluating, and using relevant, credible evidence to support ideas in accordance with disciplinary standards.
- Tailoring communication (message, organization, style, and medium) to diverse audiences, including scientific, policy, and public stakeholders.
- Engaging in communication consistent with the ethical responsibilities of professionals in science-related fields.
- Demonstrating respect and professionalism in verbal and nonverbal communication across contexts.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 8

Elective 3 *Credit Hours*
Upper-division EEB – Category: Knowledge of Organisms (major) 3 *Credit Hours*
Professional Skills (major) 3 *Credit Hours*
Engaged Inquiries Elective 3 *Credit Hours**

Credit Hours 15

Term 8 Milestone Notes

Complete a total of at least 42 upper-division (300-400) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements**

Rationale*

This proposal is creating a new Bachelor of Arts (BA) degree in Biological Sciences. Only about 30%of EEB graduates go to graduate school. A BA would be a more flexible degree, enabling morestudents to get an EEB major and tailor their courses to future career goals. This change would allowus to strengthen the requirements for the BS while simultaneously allowing us to grow the overallprogram. Adding a BA degree also facilitates transfers into the major, both from other majors and fromother institutions.

Many careers that leverage expertise in ecology, evolution, and organismal biology place a premiumon skills such as scientific communication, policy literacy, conservation practice, education, outreach,and nonprofit management. These careers include, but are not limited to:

- Conservation and land management (government agencies, NGOs)
- Environmental education and interpretation (nature centers, national parks)
- Wildlife rehabilitation, management, and policy
- Zoo, aquarium, and museum science and outreach
- Science communication, public engagement, and advocacy
- Biological consulting for environmental compliance and mitigation
- Sustainability and biodiversity initiatives in corporate, nonprofit, and government sectors

For these fields, a deep understanding of biological principles and ecological systems is critical, but extensive coursework in chemistry, physics, and calculus is not required. Instead, emphasis on ecology, organismal diversity, evolution, field methods, scientific communication, environmental policy, and data literacy will better prepare students for success.

Financial Impact*

There are no new courses proposed as part of this new BA degree. We have contacted all units thatcontribute courses to this new BA degree and none have indicated a financial impact.

Impact on Other Units*

Please see impacted units on the EEB BA proposal.

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No
- ( ) No Impact

CIP Code * 26.0101.00

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?*

- (•) Yes
- ( ) No

Per Institutional Effectiveness, does this proposal require SACSCOC action?*

- ( ) Yes
- (•) No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Division of Biology

Program Name* Biological Sciences Major, BS - Biochemistry and Cellular and Molecular Biology Concentration

Degree Type* Bachelor of Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Biological Sciences major offers concentrations in Biochemistry, Cellular and Molecular Biology, Ecology and Evolutionary Biology, Global Health, and Microbiology.

To declare Biological Sciences as a major, no requirements are needed.

To declare a concentration of Biological Sciences: students must have an overall GPA of 2.0, be in Good Academic Standing, and have completed CHEM 122*-CHEM 123* and one of: BIOL 150*, BIOL 160*, BIOL 113*, or BIOL 114*.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Prerequisites

A minimum grade of C must be earned in all prerequisites.

Complete:

BIOL 150* Organismal and Ecological Biology
[Right] (or equivalent)
BIOL 160* Cellular and Molecular Biology
[Right] (or equivalent)
BIOL 159* Skills of Biological Investigation
[Right] (or equivalent)

Select one course:

BIOL 211 Eukaryotic Cell Biology
BIOL 220 General Microbiology
BIOL 260 Ecology
BIOL 280 Evolution

Complete:

BIOL 240 General Genetics
CHEM 122* General Chemistry I
CHEM 123* General Chemistry I Laboratory
CHEM 132* General Chemistry II
[Right] (or equivalent)
CHEM 133* General Chemistry II Laboratory
[Right] (or equivalent)
PHYS 221* Elements of Physics I
PHYS 222* Elements of Physics II

Select one sequence:

MATH 132* Calculus 1B Infused with Precalculus
MATH 142* Calculus II
[After] or

MATH 141* Calculus I
MATH 142* Calculus II
[After] or
MATH 151* Mathematics for the Life Sciences
MATH 152* Calculus for the Life Sciences

BCMB Concentration

The concentration consists of **32 hours**.

I. Complete:

BCMB 311 Advanced Cellular Biology
BCMB 401 Biochemistry I
CHEM 260 Foundations of Organic Chemistry
CHEM 269 Foundations of Organic Chemistry Laboratory
CHEM 359 In-depth Organic Chemistry Laboratory
CHEM 360 In-depth Organic Chemistry

II. Select one course:

BCMB 402 Biochemistry II
BCMB 405 Biophysical Chemistry
BCMB 412 Molecular Biology and Genomics

III. Select 13 total credit hours:

A. Select at least 2 credit hours from laboratory courses:

BCMB 322* Plant Physiology and Molecular Biology Lab
BCMB 403 Neurogenetics Laboratory
BCMB 416 Neurobiology Laboratory
BCMB 419* Cellular and Comparative Biochemistry Laboratory
BCMB 452* Independent Research in Biochemistry and Cellular and Molecular Biology
[Right] (Maximum of 3 hours may be applied toward the Biochemistry and Cellular and Molecular Biology Major.)
MICR 479 Advanced Techniques in Nucleic Acid Sequencing

B. Select one integrative biology course:

BCMB 321 Introductory Plant Physiology
BCMB 330 Developmental Biology
BCMB 423 Neural Basis of Behavior
BCMB 415 Foundations in Neurobiology
BCMB 440 Advanced Human Physiology
BCMB 461 Cancer Biology

C. Select remaining hours:

[Before] BCMB courses numbered 300 and above (Check the BCMB webpage to find courses offered by semester at https://bcmb.utk.edu/course-offering-by-semester/)

BCMB 321 Introductory Plant Physiology
BCMB 322* Plant Physiology and Molecular Biology Lab
BCMB 330 Developmental Biology
BCMB 333 Structural Biology and Human Health
BCMB 402 Biochemistry II
BCMB 403 Neurogenetics Laboratory
BCMB 405 Biophysical Chemistry
BCMB 409* Perspectives in Biochemistry and Cellular and Molecular Biology
BCMB 412 Molecular Biology and Genomics
BCMB 415 Foundations in Neurobiology
BCMB 416 Neurobiology Laboratory
BCMB 419* Cellular and Comparative Biochemistry Laboratory
BCMB 420 Advanced Topics in Biochemistry and Cellular and Molecular Biology
BCMB 422* Computational Biology and Bioinformatics
BCMB 423 Neural Basis of Behavior
BCMB 424 Programming for Statistical and Graphical Analysis of Biological Data
BCMB 433 Analytical Techniques in Human Disease
BCMB 440 Advanced Human Physiology
BCMB 452* Independent Research in Biochemistry and Cellular and Molecular Biology
BCMB 452R* Independent Research in Biochemistry and Cellular and Molecular Biology
BCMB 455* Scientific Communication
BCMB 457 Honors Thesis
BCMB 461 Cancer Biology
BCMB 492 Off-Campus Study
BCMB 493 Independent Study
[Before]SELECT REMAINING HOURS:
EEB 403 The Evolution of Cancer: An Integrative Approach
MICR 321 Advanced Microbiology
MICR 330 Immunology
MICR 410 Microbial Physiology
MICR 411 Microbial Genetics
MICR 420 Microbial Pathogenesis
MICR 429 Medical Microbiology Laboratory
MICR 440 Virology

Note:

At least 7 out of the 13 credit hours must be BCMB courses.

Biochemistry and Cellular and Molecular Biology Concentration - Honors Option

An honors option is offered to students who have completed BIOL 150*, BIOL 159*, BIOL 160*, and BIOL 240 with a cumulative GPA of 3.50 or above and an overall GPA of at least 3.25 at the time of electing to take the honors option.
Complete 12 hours of upper-division (300-level or above) honors BCMB courses with a grade of B or better in each course. These honors courses should include BCMB 457 and BCMB courses (except for BCMB 452*) taken as honors-by-contract courses (BCMB 457 is automatically an honors course and cannot be taken as honors-by-contract.)
Participate in independent research (BCMB 452*) with a minimum of 3 credit hours of BCMB 452* and 1 credit hour of BCMB 457 spread out over at least two semesters.
Note: No more than 4 total credit hours combined from BCMB 452* and BCMB 457 may be applied toward the BCMB concentration.
An overall GPA of 3.25 is required at graduation.

*** Meets Volunteer Core Requirements.**

Rationale*

- Updated description to be consistent across all Biological Sciences Concentrations.
- Removed honors **BIOL 158* and BIOL 167*** from description and honors paragraph - dropped courses.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Biological Sciences major offers concentrations in Biochemistry, Cellular and Molecular Biology, Ecology and Evolutionary Biology, Global Health, and Microbiology.

To declare Biological Sciences as a major, no requirements are needed.

To declare a concentration of Biological Sciences: students must have an overall GPA of 2.0, be in Good Academic Standing, and have completed CHEM 122*-CHEM 123* and one of: BIOL 150*, BIOL 160*, BIOL 113*, or BIOL 114*.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Prerequisites

A minimum grade of C must be earned in all prerequisites.

Complete:

BIOL 113* Introductory Plant Biology I
BIOL 114* Introductory Plant Biology II
BIOL 115* Introductory Plant Biology Laboratory
[After] or
BIOL 150* Organismal and Ecological Biology
[Right] (or equivalent)
BIOL 160* Cellular and Molecular Biology
[Right] (or equivalent)
BIOL 159* Skills of Biological Investigation
[Right] (or equivalent)
[After] and
BIOL 260 Ecology
BIOL 269 Ecology Field-Based Laboratory
BIOL 280 Evolution
BIOL 281 Evolution Discussion
CHEM 122* General Chemistry I
[Right] (or equivalent)
CHEM 123* General Chemistry I Laboratory
[Right] (or equivalent)
CHEM 132* General Chemistry II
[Right] (or equivalent)
CHEM 133* General Chemistry II Laboratory
[Right] (or equivalent)
PHYS 221* Elements of Physics I

Select one sequence:

MATH 132* Calculus 1B Infused with Precalculus
MATH 142* Calculus II

or (a)

MATH 141* Calculus I
MATH 142* Calculus II

or (b)

MATH 151* Mathematics for the Life Sciences
MATH 152* Calculus for the Life Sciences

Note:

MATH 132*-MATH 142*, MATH 141*-MATH 142* or MATH 151*-MATH 152* can be used to satisfy ecology and evolutionary biology requirements. However, MATH 132*-MATH 142*, or MATH 141*-MATH 142* is recommended for students with a strong interest in quantitative ecology and is prerequisite to several courses that satisfy the ecology and evolutionary biology quantitative requirement.

EEB Concentration

The concentration consists of **32 hours**.

I. Quantitative Requirement

Select two courses, including one course from list A and one additional course from either list A or B.
Note that course prerequisites are listed in parentheses.

List A.

EEB 406* Models in Biology

EEB 411* Biostatistics
EEB 475* Mathematical Biology for Non-Math People
EEB 476* Theoretical Ecology and its Applications

List B.

BAS 320 Regression Modeling
MATH 231 Differential Equations I
[Right] (MATH 141*-MATH 142*)
MATH 251 Matrix Algebra I
[Right] (MATH 141*-MATH 142*)
STAT 201* Introduction to Statistics
STAT 251 Probability and Statistics for Scientists and Engineers

II. Upper-Division Courses

A total of **26 hours** is required from the courses listed below.

A. Required Courses

EEB 311 Career and Professional Development
EEB 490 Undergraduate Seminar

B. EEB Courses (Minimum 15 Credit Hours)

Minimum 15 credit hours, including two field or lab emphasis courses designated with a ^.

EEB 304 Socio-Economic Impact of Plants
EEB 310* Evolution, Disease, and Medicine
EEB 315 Parasites, Disease, and Behavior
EEB 320 Pollinator Ecology
EEB 330* Field Botany
[Right] ^
EEB 330S* Field Botany
[Right] ^
EEB 351 Field Mycology
[Right] ^
EEB 353 Comparative Vertebrate Biology
[Right] ^
EEB 370 Evolutionary Psychology and Ethology
EEB 400 Undergraduate Research
EEB 401 Natural History Collections Research
EEB 402* Disease Ecology
EEB 403 The Evolution of Cancer: An Integrative Approach
EEB 404 Ecosystem Ecology
EEB 406* Models in Biology
[Right] (may be used to satisfy either Quantitative Requirement or Upper-Division course hours)
EEB 407 Senior Honors Thesis
EEB 409 Perspectives in Ecology and Evolutionary Biology
EEB 410 Ecological and Evolutionary Developmental Biology
EEB 411* Biostatistics
EEB 414 Plant Anatomy
[Right] ^
EEB 415* Field Ecology
[Right] ^
EEB 419* Global Change Ecology
EEB 420 Fungal Diversity
[Right] ^
EEB 422 Landscape Ecology
EEB 423 Conservation Decision Making
EEB 424 The Evolution of Plant Diversity
[Right] ^
EEB 425* Communicating the Science of Climate Change Biology
EEB 426 Plant-Animal Interactions
EEB 430 Invasion Biology
EEB 432 Conservation Genomics
EEB 433* Plant Ecology
[Right] ^
EEB 435 Ecophysiology
EEB 444 Diversity of Tennessee Fishes
EEB 450 Animal Behavior
EEB 451* Research Ethics
EEB 454 Animal Communication
EEB 459 Animal Behavior Laboratory
[Right] ^
EEB 461 Special Topics in Organismal Biology
EEB 464 Macroevolution
EEB 465 Special Topics in Ecology
EEB 466 Special Topics in Evolution
EEB 469 Special Topics in Conservation Biology
EEB 471* Aquatic Macroecology and Conservation
EEB 473 Herpetology
[Right] ^
EEB 474 Diversity, Ecology, and Evolution of Fishes
[Right] ^
EEB 475* Mathematical Biology for Non-Math People
[Right] (may be used to satisfy either EEB Quantitative Requirement or EEB Upper-Division course hours)
EEB 476* Theoretical Ecology and its Applications
[Right] (may be used to satisfy either EEB Quantitative Requirement or EEB Upper-Division course hours)
EEB 479 Advanced Techniques in Nucleic Acid Sequencing
EEB 481 Avian Diversity
EEB 484 Conservation Biology
EEB 485 Ethnobiology: Theory and Methods
EEB 493 Independent Study

EEB 496 Special Topics Seminars

C. Remaining Hours (6 Credit Hours)

ANTH 490 Primate Evolution
ANTH 494* Primate Behavior
BCMB 311 Advanced Cellular Biology
BCMB 401 Biochemistry I
BCMB 412 Molecular Biology and Genomics
BCMB 423 Neural Basis of Behavior
[After]
CHEM 260 Foundations of Organic Chemistry
[Right] or
CHEM 268 Honors: Foundations of Organic Chemistry
[After]
CHEM 359 In-depth Organic Chemistry Laboratory
[After]
CHEM 360 In-depth Organic Chemistry
[Right] or
CHEM 368 Honors: In-depth Organic Chemistry
[After]
EEB 205* Theory and Methods in Ecology and Evolutionary Biology
EEB 250 Human Anatomy
EEB 251 Human Anatomy Laboratory
EEB 416 Greenhouse Internship
EEB 482 Animal Care Internship
EEB 486 Bioinformatics Software Internship
EEB 489 Avian Field Methods Internship
EEB 492 Off-Campus Internship in Ecology and Evolutionary Biology
EEB 494 Herbarium Internship
FORS 414 Tree Physiology
GEOG 430 Global Environments of the Quaternary
GEOG 431 Environmental History from Lake Sediments
GEOG 432 Environmental History from Tree Rings
GEOG 435 Biogeography
GEOG 439 Plants, People, and Climate in North America
EEPS 320 Paleobiology
EEPS 455 Environmental Geology
EEPS 459 Introduction to Oceanography
MICR 321 Advanced Microbiology
MICR 411 Microbial Genetics
MICR 470 Microbial Ecology
WFS 401* Ecology and Management of Wildlife Health
WFS 433 Amphibian Ecology and Conservation
WFS 444 Ecology and Management of Wild Mammals
WFS 445 Ecology and Management of Wild Birds

Note:

Six credit hours from the following courses, if not previously taken as a prerequisite course, may be substituted for remaining hours:

BIOL 220 General Microbiology
[Right] or
BIOL 240 General Genetics
[After]
EEB 205* Theory and Methods in Ecology and Evolutionary Biology
EEB 250 Human Anatomy
EEB 251 Human Anatomy Laboratory

Note:

EEB 305*, EEB 306, and EEB 413 are not allowed for credit in the concentration. Other courses related to the student's determined interests, may be approved by petition to the department and the division. Courses applied to the major must include at least 4 credit hours at the 400-level.

III. Proficiencies (0 credit hours)

To support the department's assessment efforts, students are required to complete a zero credit course at the end of the student's degree program.

EEB 499 Ecology and Evolutionary Biology Proficiency

Honors Option – Ecology and Evolutionary Biology Concentration

Requirements for the honors option are:

- fulfill all requirements for the major in biological sciences with a concentration in ecology and evolutionary biology
- achieve at least a grade of B in the upper-division concentration courses
- maintain a concentration GPA of at least 3.5
- maintain an overall GPA of at least 3.25
- complete 9 hours of honors-by-contract coursework from EEB 400, EEB 490, EEB 492, EEB 493 and other upper-division ecology and evolutionary biology courses available for major credit in the concentration
- complete EEB 407 Senior Honors Thesis with thesis to be approved by student's committee.

* Meets Volunteer Core Requirements.

Rationale*

- Added course **EEB 311** as a required course in Upper Division, Section A, as opposed to an elective in Section B.
- Removed **EEB 480** - course was previously dropped.
- Updated description to have all biological sciences to be consistent across the concentrations.

EEB 311 helps students identify and prepare for a wide range of career paths in the sciences, with a focus on developing professional skills such as CV/resume writing, science communication, graduate school applications, and networking. This course provides essential training that complements academic and field-based coursework. Making EEB 311 a requirement ensures all students benefit from early, structured guidance as they transition into professional roles, graduate school, or internships. We will encourage students to take this course in their third year.

Financial Impact*

No new resources are needed; the course is already being taught annually and has the capacity to accommodate additional students.

Impact on Other Units*

- Anthropology
- Biochemistry and Cellular and Mollecular Biology
- Biology
- Business Analytics and Statistics
- Chemistry
- Earth, Environmental and Planetary Sciences
- Forestry
- Geography
- Math
- Microbiology
- Physics
- Statistics
- Wildlife and Fisheries Science

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

ENGL 101* English Composition I
[Right] (or equivalent)

Social Sciences Elective 3 ***Credit Hours*** ***

Credit Hours 13-15

Term 8 Milestone Notes

Complete a total of at least 42 upper-division (300-400) hours

Total Credit Hours 120-123

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirement.**

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Biological Sciences major offers concentrations in Biochemistry, Cellular and Molecular Biology, Ecology and Evolutionary Biology, Global Health, and Microbiology.

To declare Biological Sciences as a major, no requirements are needed.

To declare a concentration of Biological Sciences: students must have an overall GPA of 2.0, be in Good Academic Standing, and have completed CHEM 122*-CHEM 123* and one of: BIOL 150*, BIOL 160*, BIOL 113*, or BIOL 114*.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

MICR 402 Advanced Undergraduate Research in Microbiology
MICR 410 Microbial Physiology
MICR 411 Microbial Genetics
MICR 420 Microbial Pathogenesis
MICR 421 Food Microbiology
MICR 429 Medical Microbiology Laboratory
MICR 440 Virology
MICR 459 Introduction to Oceanography
MICR 465 Geomicrobiology
MICR 470 Microbial Ecology
MICR 475 Reproducible Data Analysis
MICR 480 Genomics and Bioinformatics
MICR 493 Independent Study
MICR 495* Senior Seminar: Perspectives in Microbiology
PLSC 331 Calling BS: Interpretation and Reasoning Using Data in the Modern World
PSYC 325* Community-Engaged STEM Mentoring and Outreach

C. Proficiencies (0 credit hours):

To support the department's assessment efforts, students are required to complete a 0-credit course at the end of the student's degree program.

MICR 499 Microbiology Proficiency

Note:

Three credit hours from the following courses, if not previously taken as a prerequisite course, may be substituted for a List B course:

BCMB 230 Human Physiology
BIOL 240 General Genetics
BIOL 260 Ecology
BIOL 280 Evolution
[After]
EEB 250 Human Anatomy
[Right] and
EEB 251 Human Anatomy Laboratory

Honors Option – Microbiology Concentration

An honors option is offered to selected students who have completed the required 300-level microbiology courses. In addition to the requirements for the biological sciences major – microbiology concentration, an honors option requires:

- **A minimum GPA of 3.3 in microbiology concentration courses.**
- **A minimum GPA of 3.25 for all UTK courses (this is a University requirement for an honors degree).**
- **Completion of two semesters of independent research taken as MICR 401 and MICR 402.**
- **An honors thesis based on the independent research project undertaken during MICR 401 and MICR 402.**
- **Twelve hours of honors coursework which must include at least 6 hours of 400-level microbiology courses via honors-by-contract. Neither MICR 401 nor MICR 402 can be taken as honors-by-contract.**

*** Meets Volunteer Core Requirements.**

Rationale*

- Adding **PSYC 325*** to Section II. Upper Division Courses, option B as an additional elective course to choose from, as requested from the PSYC Department to assist with the PSYC department's **Community-Engaged STEM mentoring and outreach**."
- Updated description to remain consistent with other Biological Sciences

Financial Impact*

N/A

Impact on Other Units*

Psychology has asked us to add this course:

"We rely heavily on current UTK undergraduates to help us staff the outreach and intervention work we do, and we have proposed three new undergraduate courses to support the new grant. One of these courses is a 3-credit summer course "**Community-Engaged STEM mentoring and outreach**." Students who assist with our on-campus summer programs for the high school students would enroll in this course.

Because the course focuses on science communication, effective mentoring in STEM, and STEM outreach, we are hoping that the course might provide valuable experience for your majors. Our hope is that if we can have the course count as an elective for the major, that might make it more attractive to your students."

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

ENGL 101* English Composition I
[Right] (or equivalent)
[Before]Complete:

BIOL 150* Organismal and Ecological Biology
[After]

MICR 495* Senior Seminar: Perspectives in Microbiology

Credit Hours 15

Term 8 Milestone Notes

Complete a total of at least 42 upper-division (300-400) hours

Total Credit Hours 120-124

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

* Meets Volunteer Core Requirement.

Rationale*

- Ccourse names for MICR 321 and MICR 495* were changed.
- Additionally, we have submitted EI proposals for both MICR 329 (currently listed in UTrack) as well as MICR 401 (not currently listed, but could be added next cycle should EI approval be obtained).

Removed courses

- **BIOL 158*** - Dropped course
- **BIOL 167*** - Dropped course
- **BIOL 168* -** Dropped course

Financial Impact* N/A

Impact on Other Units* N/A

Program Name* Biological Sciences Major, BS - The Biology of Global Health Concentration (GloHeal)

Degree Type* Bachelor of Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Biology of Global Health (GloHeal) concentration examines how biology connects with medicine, public health, nutrition, agriculture, and the environment. Students gain a multidisciplinary understanding of the biological, social, and ecological factors that shape global health challenges. Drawing from all three biology departments and related disciplines, the program prepares students for careers or graduate study in medicine, public health, research, and other health-related fields.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Requirements for All Biology Majors

To declare Biological Sciences as a major: no requirements needed
To declare a concentration of Biological Sciences: students must have a cumulative GPA of 2.0 or higher, be in Good Academic Standing, and have completed CHEM 122-123 and one of: BIOL 150, BIOL 160, BIOL 113, or BIOL 114.

Prerequisites:

A minimum grade of C must be earned in all prerequisites

All Majors Must Complete:

BIOL 150* Organismal and Ecological Biology
BIOL 159* Skills of Biological Investigation
BIOL 160* Cellular and Molecular Biology
CHEM 122* General Chemistry I
CHEM 123* General Chemistry I Laboratory
CHEM 132* General Chemistry II
CHEM 133* General Chemistry II Laboratory
PHYS 221* Elements of Physics I
PUBH 201* Introduction to Public Health

Select one sequence:

MATH 132* Calculus 1B Infused with Precalculus
MATH 142* Calculus II

Or (a)

MATH 141* Calculus I
MATH 142* Calculus II

Or (b)

MATH 151* Mathematics for the Life Sciences
MATH 152* Calculus for the Life Sciences

And Select:

BIOL 240 General Genetics
[After] or

BIOL 220 General Microbiology
[Right] and
BIOL 229 General Microbiology Laboratory
[After]

or

BIOL 260 Ecology
[Right] and

BIOL 269 Ecology Field-Based Laboratory
[After]

or

BIOL 280 Evolution
[Right] and
BIOL 281 Evolution Discussion

The Biology of Global Health (GloHeal)

The Biology of Global Health concentration consists of **32 hours**.

At least **18 credit hours** of these 32 credit hours must be taken from BCMB, EEB, MICR, or BIOL courses within the six topic lists.

Students should choose courses that balance personal interests with the requirement of attaining at least **42 upper-division (300–400 level) hours** to qualify for a degree from the College of Arts and Sciences.

Complete 1 course from each of the six topic lists (I - VI):

I. Introduction to Global Health, Epidemiology, and History

This section introduces students to the foundations of global health, disease patterns, and health systems through historical, cultural, and epidemiological perspectives. Courses emphasize the emergence and spread of infectious diseases, comparative healthcare systems, and the social determinants of health across diverse populations. Students gain an understanding of how global health challenges are shaped by biological, environmental, and socioeconomic factors.

ANTH 413* Dynamics of Health and Illness
MICR 305 Global Emerging Infectious Diseases and One Health
PUBH 400 Comparative Healthcare Systems
PUBH 401 Global Public Health

II. Foundation of Cellular and Molecular Biology, Physiology and Anatomy

These courses provide biological and biochemical basis for understanding health and disease. Students explore molecular genetics, cell signaling, metabolism, neurobiology, and human anatomy and physiology. Emphasis is placed on integrating cellular and systemic processes with disease mechanisms, preparing students for advanced study in biomedical and health-related research fields.

BCMB 230 Human Physiology
BCMB 311 Advanced Cellular Biology
BCMB 321 Introductory Plant Physiology
BCMB 330 Developmental Biology
BCMB 401 Biochemistry I
BCMB 412 Molecular Biology and Genomics
BCMB 415 Foundations in Neurobiology
BCMB 416 Neurobiology Laboratory
BCMB 433 Analytical Techniques in Human Disease
BCMB 440 Advanced Human Physiology
CHEM 260 Foundations of Organic Chemistry
[After]
EEB 250 Human Anatomy
[Right] and
EEB 251 Human Anatomy Laboratory
[After]
EEB 403 The Evolution of Cancer: An Integrative Approach
MICR 321 Advanced Microbiology
MICR 410 Microbial Physiology
MICR 411 Microbial Genetics
NUTR 311 Physiological Biochemistry
NUTR 314 Energy Metabolism and Metabolic Integration

III. Environment and Ecology of Global Health

This section explores how environmental systems, ecological interactions, and global change influence disease dynamics and human health. Courses address topics such as disease ecology, toxicology, climate change, and biodiversity loss. Students examine the relationships between human activities, environmental stressors, and the emergence or transmission of infectious and chronic diseases within the One Health framework.

EEB 310* Evolution, Disease, and Medicine
EEB 315 Parasites, Disease, and Behavior
EEB 402* Disease Ecology
EEB 406* Models in Biology
EEB 419* Global Change Ecology
EEB 430 Invasion Biology
EEB 432 Conservation Genomics
EEPS 456 Global Climate Change
EEPS 466 Water and Air Pollution
MICR 470 Microbial Ecology
WFS 401* Ecology and Management of Wildlife Health

IV. Hosts and Diseases

Courses in this category investigate the biological interactions between hosts and pathogens, as well as molecular mechanisms underlying infection, immunity, and disease progression. Students examine viruses, bacteria, parasites, and host defense systems, alongside special topics such as cancer biology and obesity. The section emphasizes translational connections between basic biological research and clinical or public health applications.

BIOL 400 Biology of Obesity: From Cells to Communities
[Right] or

BIOL 400S Biology of Obesity: From Cells to Communities
[Before]
BCMB 333 Structural Biology and Human Health
BCMB 461 Cancer Biology
EPP 425* Medical and Veterinary Entomology
MICR 330 Immunology
MICR 420 Microbial Pathogenesis
MICR 440 Virology
MICR 495* Senior Seminar: Perspectives in Microbiology

V. Statistical Analysis and Mathematic Modeling

This section provides quantitative tools for analyzing biological and health data. Students develop skills in biostatistics, programming, bioinformatics, and computational modeling to interpret complex datasets and biological systems. Emphasis is placed on applying statistical reasoning and quantitative models to understand disease dynamics, evaluate health interventions, and conduct reproducible research.

BCMB 422* Computational Biology and Bioinformatics
BCMB 424 Programming for Statistical and Graphical Analysis of Biological Data
EEB 411* Biostatistics
EEB 476* Theoretical Ecology and its Applications
HDFS 395 Introduction to Research Methods and Statistics

MICR 435 Quantitative Analysis of Biological Data
MICR 475 Reproducible Data Analysis
MICR 480 Genomics and Bioinformatics

VI. Social, Economic and Political Sciences

Courses in this section bridge biological and social determinants of health, emphasizing how inequality, policy, and cultural context shape health outcomes globally. Students explore intersections of medicine, ethics, history, and communication across populations. This integrative perspective prepares students to understand and address health disparities through interdisciplinary collaboration and evidence-based advocacy.

AFST 313* Social Context of African American Health
AGNR 480 How to Feed the World
ANTH 325* Migration and Transnationalism
ANTH 422 Anthropology of Global Inequality
ECON 362 Environmental and Natural Resource Policy
ECON 436 Economics of Health and Health Care
EEB 451* Research Ethics
ENGL 342* Literature and Medicine
ENGL 461* Global Communication for Science and Technology
GEOG 435 Biogeography
HIST 410 Infectious Disease: A Global History
HIUS 443* Medicine and Healing in the Age of Slavery
JMED 450* Writing about Science and Medicine
PUBH 330 Public Health Emergency Preparedness and Response Management
PUBH 350 Public Health Aspects of Aging
PUBH 420 Environmental Public Health
SPAN 350* Spanish for Medical & Healthcare Professions

VII. GloHeal Electives

The remaining 14 credit hours can come from any of the above six lists or courses below:
Students complete additional coursework tailored to their academic and professional goals.

Options include undergraduate research, independent study, field or foreign study, internships, or advanced electives from previous categories.
Students pursuing health professions may select complementary courses in chemistry, physics, public health, or medical communication.
These flexible credits allow for individualized specialization and experiential learning within the Biology of Global Health framework.

A. Undergraduate Research (up to 3 hours)

BCMB 452* Independent Research in Biochemistry and Cellular and Molecular Biology
[Before] or

BCMB 452R* Independent Research in Biochemistry and Cellular and Molecular Biology
[Before]
EEB 400 Undergraduate Research
[Before] or

MICR 401 Undergraduate Research in Microbiology
MICR 401R Undergraduate Research in Microbiology
[Before]
[Before] Other research-related courses will be considered on a case-by-case basis

B. Independent Study/Off-campus/Foreign Study courses

BIOL 450 Biology of Global Health Internship
BIOL 450N Biology of Global Health Internship
BCMB 492 Off-Campus Study
BCMB 493 Independent Study
EEB 492 Off-Campus Internship in Ecology and Evolutionary Biology
EEB 493 Independent Study
MICR 491 Foreign Study
MICR 492 Off-Campus Study
MICR 493 Independent Study

C. Health-profession related and others

BCMB 230 Human Physiology
BCMB 455* Scientific Communication
CHEM 359 In-depth Organic Chemistry Laboratory
CHEM 360 In-depth Organic Chemistry
CLAS 273 Medical Terminology
PHYS 222* Elements of Physics II
PUBH 202 Introductory Epidemiology
[Before] Note: One of the courses, BIOL 220, 240, 260, or 280, may apply to GloHeal concentration if not used as a prerequisite course.

Biology of Global Health Concentration – Honors Option

Minimum 3.5 GPA in Global Health Concentration courses

Minimum 3.25 GPA at UTK (University-level requirement for an honors degree)

Participate in 3 hours of independent research (BCMB 452*, EEB 400, or MICR 401)

Complete 12 hours of upper division (300-400 level) honors by contract. BCMB 452*, EEB 400, or MICR 401 cannot count towards honors by contract hours.

* **Meets Volunteer Core Requirements.**

Rationale*

Overall Rationale for Program Changes:
The revisions strengthen the Biology of Global Health (GloHeal) concentration by updating, clarifying, and expanding the course options to reflect current scientific and educational priorities.

To Facilitate/Improve Advising:

- Several courses were reordered or reclassified according to the by accessibility to improve advising clarity rather than removed entirely. During the revision, student advisers were consulted to help minimize the number of petitions requested by the students and their advisors.
- **Enhanced academic flexibility:** Students can now pursue pre-health (medical, PA) and research-intensive tracks within the same framework, aligning with student career goals.
- **Improved course access and sequencing:** Updated prerequisite structures and color-coded accessibility indicators help students plan effectively across departments.
- **Expanded interdisciplinary scope:** New courses integrate critical emerging topics such as *disease ecology, behavioral biology, neurobiology, and science communication*, ensuring that graduates are prepared for contemporary global health challenges.
- **Alignment with curricular updates in BCMB, EEB, and MICRO:** Newly added or renamed courses reflect current departmental offerings and eliminate outdated titles.
- **Stronger experiential learning opportunities:** The inclusion of *independent research, internships, and study abroad* courses formalize high-impact practices already popular among students.

Overall, these revisions will make the GloHeal concentration more coherent, modern, and accessible while maintaining its biological rigor and commitment to addressing complex global health issues through an integrative scientific lens.

Courses Added:

- Added *PUBH 400 Comparative Healthcare Systems* to Section I.
- Added *BCMB 433 Analytical Technologies in Human Disease*, *BCMB 415 Foundations of Neurobiology*, and *BCMB 416 Neurobiology Lab* to Section II.
- Added *EEB 315 Behavioral Aspects of Disease*, *EEB 402 Disease Ecology*, *EEB 406 Models in Biology, EEB 430 Invasion Biology*, *EEB 432 Conservation Genomics* to Section III.
- Added *BIOL 400 Biology of Obesity, BIOL 400S Biology of Obesity*, *MICR 495 Microbiology in Practice: Science Communication and Professional Skills* to Section IV.
- Added *MICR 480 Genomics and Bioinformatics* to Section V.
- Added *ENGL 461 Global Communication for Science and Technology, JMED 450 Writing about Science and Medicine*, and *SPAN 350 Spanish for Medical and Healthcare Professions* to Section VI.
- Expanded Section VII to include *Independent Study, Off-Campus, and Foreign Study* courses (BCMB 492, BCMB 493, EEB 492, EEB 493, MICR 491, MICR 492, MICR 493).
- Added *CHEM 359, CHEM 360, PHYS 222, CLAS 273,* BCMB 230, and *BCMB 455* to accommodate pre-med and pre-PA pathways.
- Added BIOL 400, 400s - Biology of Obesity: From Cells to Communities, and moved BCMB 461 to Section IV Hosts and Diseases.
- Added BIOL 450, 450N - Biology of Global Health Internship to Section VII (The remaining 14 hours ....) B - Independent Study/Off-campus/Foreign Study.
- Note: BIOL 400, 400S, 450, 450N are pending approval under UG Add New Courses.

Courses Removed or Reassigned:

- *PUBH 202 Introductory Epidemiology* was moved from the prerequisite list to the elective category (Section VII) to provide greater flexibility in course sequencing.

Financial Impact*

There is no anticipated financial impact associated with these revisions. The Biology of Global Health (GloHeal) concentration utilizes existing courses offered by other units within the College of Arts and Sciences. No new courses or instructional resources are being created as part of this proposal. All participating departments already offer the courses listed, and enrollment changes are expected to be minimal and within normal fluctuations.

Impact on Other Units*

- This proposal includes courses cross-listed or offered by other departments within the College of Arts and Sciences, including BCMB, EEB, MICRO, Public Health, Chemistry, Anthropology, and English, among others.
- Notifications have been sent via email to each unit for courses that are being removed, and permission emails have been obtained from Department Heads and the designated curriculum reviewers for all newly added courses.
- All email communications/documentation can be submitted upon request.
- These revisions do not alter course ownership, credit hours, or delivery methods; they simply update and expand elective options within the existing framework of the Biological Sciences major to improve flexibility and reflect current course offerings.

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Division of Biology

Program Name* Biological Sciences Major, BS - The Biology of Global Health Concentration (GloHeal) (uTrack Requirements)

Degree Type* Bachelor of Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

ENGL 101* English Composition I
[Right] (or equivalent)
[After]
[Before]Complete:

BIOL 150* Organismal and Ecological Biology
[After]
[Before]3Complete Engaged Inquiries Elective 2 *Credit Hours* *:

BIOL 159* Skills of Biological Investigation
[After]
[Before]Choose separate lecture and lab or honors lecture/lab combined:

CHEM 122* General Chemistry I
[Right] and
CHEM 123* General Chemistry I Laboratory
[After] or
CHEM 128* Honors: General Chemistry I
[After]
[Before]Select one course:

MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 151* Mathematics for the Life Sciences

Credit Hours 15-16

Term 1 Milestone Notes

Complete 12 credit hours by the end of the term.

[Before]One from:

MATH 119 College Algebra
[After] ACT Math 25

Term 2

Social Sciences (SS) Elective 3 *Credit Hours* *

ENGL 102* English Composition II
[After]
BIOL 160* Cellular and Molecular Biology
[After]
[Before]Choose separate lecture and lab or honors lecture/lab combined:

CHEM 132* General Chemistry II
[Right] and
CHEM 133* General Chemistry II Laboratory
[After] or
CHEM 138* Honors: General Chemistry II
[After]
[Before]Select one course:

MATH 142* Calculus II
MATH 148* Honors: Calculus II
MATH 152* Calculus for the Life Sciences

Credit Hours 16-17

Term 2 Milestone Notes

Complete 24 credit hours by the end of the term.

ENGL 101* English Composition I
[After]
[Before]Complete one course or pair of courses with a grade of C or better:

BIOL 150* Organismal and Ecological Biology
BIOL 160* Cellular and Molecular Biology
CHEM 122* General Chemistry I
[Right] and
CHEM 123* General Chemistry I Laboratory
CHEM 132* General Chemistry II
[Right] and
CHEM 133* General Chemistry II Laboratory

Term 3

Foreign Language 3 *Credit Hours* (intermediate level)

PUBH 201* Introduction to Public Health
PHYS 221* Elements of Physics I
[After]
[Before]Choose a separate lecture and lab or lecture/lab combined:

BIOL 240 General Genetics
[Before]

or

BIOL 220 General Microbiology
[Right] and
BIOL 229 General Microbiology Laboratory
[Before]

or

BIOL 260 Ecology
[Right] and
BIOL 269 Ecology Field-Based Laboratory
[Before]

or

BIOL 280 Evolution
[Right] and
BIOL 281 Evolution Discussion

Credit Hours 14

Term 3 Milestone Notes

Complete 36 credit hours by the end of the term.

[Before]Complete one course or pair of courses with a grade of C or better:

BIOL 150* Organismal and Ecological Biology
BIOL 160* Cellular and Molecular Biology
CHEM 132* General Chemistry II
[Right] and
CHEM 133* General Chemistry II Laboratory

Term 4

Global Health (Concentration) courses 6 *Credit Hours*
Foreign Language 3 *Credit Hours* * (intermediate level)
Global Citizenship - United States (GCUS) Elective 3 *Credit Hours* *
Elective, 3 *Credit Hours*

Credit Hours 15

Term 4 Milestone Notes

ENGL 102* English Composition II
[After]
[Before]Complete with a grade of C or better:

CHEM 132* General Chemistry II

CHEM 133* General Chemistry II Laboratory

Term 5

Arts and Humanities Lit/Phil/Rel Thought Elective 3 *Credit Hours* *
[1] Engaged Inquiries (EI) Elective 4 *Credit Hours* *
Global Health (Concentration) courses 5 *Credit Hours*
Oral Communication (OC) Elective 3 *Credit Hours* *

Credit Hours 15

Term 5 Milestone Notes

PUBH 201* Introduction to Public Health
[After]
[Before]Complete one course or pair of courses with a grade of C or better:

BIOL 211 Eukaryotic Cell Biology
BIOL 240 General Genetics
BIOL 220 General Microbiology
[Right] and
BIOL 229 General Microbiology Laboratory
BIOL 260 Ecology
[Right] and
BIOL 269 Ecology Field-Based Laboratory
BIOL 280 Evolution
[Right] and
BIOL 281 Evolution Discussion

Term 6

[2] Connections 3 *Credit Hours*
Global Health (Concentration) courses 6 *Credit Hours*
Written Communication (WC) Elective 3 *Credit Hours* *

[Before]3 Select one Global Health (Concentration) course that is an Applied Oral Communication (AOC) Elective 3 *Credit Hours* *:
BCMB 452* Independent Research in Biochemistry and Cellular and Molecular Biology
[Right] (3 hours)
BCMB 452R* Independent Research in Biochemistry and Cellular and Molecular Biology
[Right] (3 hours)
BCMB 455* Scientific Communication
EEB 419* Global Change Ecology
EEB 451* Research Ethics
MICR 495* Senior Seminar: Perspectives in Microbiology

Credit Hours 15

Term 6 Milestone Notes

Complete a total of at least 9 upper-division (300-400) hours

Term 7

[2] Connections 3 *Credit Hours*
Engaged Inquiries (EI) Elective 3 *Credit Hours* *
Global Health (Concentration) courses 6 *Credit Hours*
Non-U.S. History 3 *Credit Hours* *

Credit Hours 15

Term 7 Milestone Notes

Complete a total of at least 24 upper-division (300-400) hours

Term 8

Arts and Humanities (AH) Elective **3** *Credit Hours* *

[2] Connections **3** *Credit Hours*

Global Health (Concentration) courses **6** *Credit Hours*

Non-U.S. History (continuation of sequence) **3** *Credit Hours* *

Credit Hours 15

Term 8 Milestone Notes

Complete a total of at least 42 upper-division (300-400) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

* Meets Volunteer Core requirement.

Rationale*

- Removed **PUBH 202** from Term 4 as a required course, replaced with 3 credit hours of electives to maintain 15 credits for the term, and 120 overall.
- Removed **PUBH 202** from Term 6 Milestones
- Removed **BIOL 158***, **BIOL 167*** and **BIOL 168*** - courses are being dropped
- Added **BCMB 455*** and **EEB 451*** to list of **AOC** courses

Financial Impact*

None

Impact on Other Units*

Minimimal - impacted Units have been contacted and email approval is attached.

- ANTH
- CHEM
- CLAS

Rationale* In this introductory course about women in literature, students will encounter writing by women, about women characters, and for women as readers. This class will draw from established canons of women's literature and literary theory, but it will also introduce students to emerging voices and counter-canon influences across the globe. Students will encounter primary texts in English language fiction and nonfiction, prose and poetry, novels and plays, graphic novels and memoirs. Instructors can make textual selections that are both long studied in women's literature courses as well as emerging or yet undiscovered authors and artists.

While the English department offers upper-division Women in American and British Literature courses, this 100-level course will allow us to expose first- and second-year students to women in literature from a global perspective, emphasizing international women's experiences and cultural contexts. By stressing reading and discussion, this course will prepare beginning students to use critical lenses common in humanities disciplines and create a further pipeline to pursue upper-division course offerings in literature and women's studies.

This course has been submitted for an AH and GCI Vol Core Designations.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Earth, Environmental, and Planetary Sciences

Program Name* Environmental Science Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description The Environmental Science minor draws on the interconnections among biological sciences, Earth sciences, and social sciences with a focus on sustainability and environmental quality. Students can choose from a wide range of courses of interest across various fields in environmental science and geoscience.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Minor Requirements

The Environmental Science minor consists of **15 Credit Hours**.

Select 9 hours:

EEPS 206* Sustainability Principles and Practices
[Right] or
GEOG 206* Sustainability Principles and Practices
[After]
EEPS 443 Urban Ecology
EEPS 453 Modern and Ancient Soils
EEPS 454 Environmental Restoration
EEPS 455 Environmental Geology
EEPS 456 Global Climate Change
EEPS 464 Water Sustainability and Climate
JMED 451* Environmental Writing
SNR 250* Conservation
SNR 320* Human Dimensions of Natural Resources
[After]

Select one course:

GEOG 345 People and Environment
SOCI 360* Environment and Resources
SOCI 465* Social Values and the Environment

Select one course:

AREC 470 Policy Analysis for Environmental and Natural Resource Management
ECON 362 Environmental and Natural Resource Policy
[After]
[After] * Meets Volunteer Core Requirements.

Rationale*

We request a revision of the minor name to replace "Environmental Studies" with "Environmental Science" to better reflect the type of courses and academic training offered for this minor in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Environmental Studies minor at EEPS in UTK. *In contrast, environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Environmental Studies minor.

Financial Impact*

No impact

Impact on Other Units*

No impact

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change

○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

CIP Code*

College of Arts and Sciences - Earth, Environmental, and Planetary Sciences - Geology and Environmental Science Major, BS - Environmental Science Concentration

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Earth, Environmental, and Planetary Sciences

Program Name* Geology and Environmental Science Major, BS - Environmental Science Concentration

Degree Type* Bachelor of Science

Program Type* Concentration

Description The Environmental Science concentration provides sound scientific, socioeconomic, and philosophical background for understanding the Earth's environment and prepares the student for careers in science, education, law, business, public policy, and many other fields.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [x] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

College Requirements

Arts and Sciences

Corequisites

Students wishing to declare their major in Geology and Environmental Science should do so at the earliest opportunity.

A. Complete:

BIOL 260 Ecology
BIOL 269 Ecology Field-Based Laboratory
ECON 201* Introductory Economics: A Survey Course

B. Complete two courses:

EEPS 101* The Dynamic Earth
EEPS 103* The Earth's Environments

C. Select one sequence:

BIOL 113* Introductory Plant Biology I
BIOL 114* Introductory Plant Biology II
BIOL 115* Introductory Plant Biology Laboratory
[After] or
BIOL 150* Organismal and Ecological Biology
BIOL 160* Cellular and Molecular Biology
BIOL 159* Skills of Biological Investigation

D. Select one sequence:

CHEM 102* Principles of Chemistry
CHEM 103* Principles of Chemistry Laboratory
CHEM 112* Introduction to Organic and Biochemistry
CHEM 113* Introduction to Organic and Biochemistry Laboratory
[After] or
CHEM 122* General Chemistry I
CHEM 123* General Chemistry I Laboratory
CHEM 132* General Chemistry II
CHEM 133* General Chemistry II Laboratory
[After] or
PHYS 221* Elements of Physics I
PHYS 222* Elements of Physics II

E. Select one sequence:

MATH 123* - Finite Mathematics

MATH 125* - Basic Calculus

or

MATH 132* - Calculus 1B Infused with Precalculus

MATH 142* - Calculus II

or

MATH 141* Calculus I
MATH 142* Calculus II
[After] or
MATH 151* Mathematics for the Life Sciences
MATH 152* Calculus for the Life Sciences

Concentration Requirements

A. Policy and Writing Skills

Complete:

AREC 470 Policy Analysis for Environmental and Natural Resource Management
[After] or
ECON 362 Environmental and Natural Resource Policy
[After]
GEOG 345 People and Environment
[After] or
SOCI 360* Environment and Resources
[After]
JMED 451* Environmental Writing

B. Environmental Science Core

Complete five courses:

EEPS 301 Field and Laboratory Methods in the Geosciences
EEPS 310* Mineralogy
EEPS 320 Paleobiology
EEPS 340 Earth Sedimentary Processes
EEPS 424 GIS for Geoscientists
EEPS 425 Data Analysis for Geoscientists
EEPS 440 Field Geology
EEPS 443 Urban Ecology
EEPS 450 Landscapes: Earth and Elsewhere
EEPS 452 Cave and Karst Geology
EEPS 453 Modern and Ancient Soils
EEPS 454 Environmental Restoration
EEPS 455 Environmental Geology
EEPS 456 Global Climate Change
EEPS 459 Introduction to Oceanography
EEPS 461 Organic Geochemistry
EEPS 462 Environmental Aqueous Geochemistry
EEPS 464 Water Sustainability and Climate
EEPS 465 Geomicrobiology
EEPS 471 Applied Geophysics
EEPS 485 Principles of Hydrogeology

C. Research or Internship

Complete 3 hours:

EEPS 493 Independent Study

D. Environmental Elective Courses

Select 9 additional hours from this list

AGNR 480 How to Feed the World
EEB 304 Socio-Economic Impact of Plants
EEB 422 Landscape Ecology
EEB 430 Invasion Biology
EEB 471* Aquatic Macroecology and Conservation
EEB 484 Conservation Biology
ESS 326 GIS/GPS Applications in Agriculture and Environmental Science
FORS 335 Principles of Urban Forestry
FORS 422 Forest and Wildland Resource Policy
FORS 423 Wildland Recreation Planning and Management
FORS 433 Urbanization and Urban Soils
SNR 250* Conservation
SNR 315 Principles of Wildlife and Fisheries Management
SNR 320* Human Dimensions of Natural Resources
SNR 324 Applied Ecosystem Restoration
GEOG 206* Sustainability Principles and Practices
GEOG 311 Geovisualization and Geographic Information Science
GEOG 331* Natural Hazards
GEOG 333 Climate Change and Human Response
GEOG 436 Water Resources
HTM 484* Critical Sustainable Tourism
PHIL 346* Environmental Ethics
PLSC 280 Fundamentals of Sustainable Landscape Design
PLSC 321 Landscape Plant Identification, Taxonomy and Morphology II
PLSC 380 Advanced Sustainable Landscape Design
PLSC 455 Advanced Sustainable Landscape Construction
POLS 410 Special Topics in Political Science
[After] POLS 549 - Environmental Policy

SOCI 363* Food, Agriculture, and Society
SOCI 465* Social Values and the Environment

Environmental Science – Honors Concentration

Requirements for the honors option are:

Fulfill all requirements for a concentration of the Geology and Environmental Science degree
Maintain an overall GPA of at least 3.25
Maintain a concentration GPA of at least 3.5
9 hours of honors-by-contract coursework chosen from: approved 300- and 400-level EEPS courses, EEPS 491 Foreign Study, EEPS 492 Off Campus Study, and EEPS 493 Independent Study.
3 hours of EEPS 497 Honors Senior Thesis (with a written and oral presentation of thesis)

Rationale*

We request a revision of the major and concentration names to replace 1) "Geology and Environmental Studies" with "Geology and Environmental Science" and 2) "Environmental Studies" concentration with "Environmental Science" concentration to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Geology and Environmental Studies major and Environmental Studies concentration at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the Geology and Environmental Studies major and Environmental Studies concentration.

Added: **MATH 123, MATH 125, MATH 132, MATH 142**
Removed BIOL 158*, BIOL 167*, BIOL 168* - Dropped courses

Financial Impact* No impact

Impact on Other Units* No impact

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
( ) New major name and new CIP code (requires THEC approval)
(•) New major name and keeping the same CIP code

CIP Code* 40.0601

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Foreign Language **3** *Credit Hours* (intermediate level)

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 122-126

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.

Rationale* We request a revision of the major and concentration names to replace 1) "Geology and Environmental Studies" with "Geology and Environmental Science", and 2) "Environmental Studies" concentration with "Environmental Science" concentration to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Geology and Environmental Studies major and Environmental Studies concentration at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Geology and Environmental Studies major/concentration.

Removed **BIOL 158*, BIOL 167*, BIOL 168*** - courses dropped

College of Arts and Sciences - Earth, Environmental, and Planetary Sciences - Geology and Environmental Science Major, BS - Geology Concentration

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Earth, Environmental, and Planetary Sciences

Program Name* Geology and Environmental Science Major, BS - Geology Concentration

Degree Type* Bachelor of Science

Program Type* Concentration

Description The Geology concentration is designed to provide students with a detailed understanding of rock forming minerals; the physical, chemical, and biological processes involved in rock formation (igneous, sedimentary, and metamorphic); the biologic and tectonic evolution of the Earth; field recognition of geologic processes; and the composition and evolution of extraterrestrial planets. Students then select a suite of upper-level electives to enhance interests in specific geologic disciplines.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [x] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

College Requirements

Arts and Sciences

Prerequisites

Students wishing to declare their major in Geology and Environmental Science should do so at the earliest opportunity.

A. Select one sequence:

CHEM 122* General Chemistry I
[After] and
CHEM 123* General Chemistry I Laboratory
[After]
CHEM 132* General Chemistry II
[After] and
CHEM 133* General Chemistry II Laboratory
[After] or
CHEM 128* Honors: General Chemistry I
CHEM 138* Honors: General Chemistry II
[After] Note: CHEM 132*-CHEM 133* or CHEM 138* may be taken concurrently with 300-level geology courses.

B. Select:

EEPS 101* - The Dynamic Earth and one of these

EEPS 102* - Earth, Life, and Time

EEPS 103* - The Earth's Environments

EEPS 104* - Exploring the Planets

Corequisites

A. Select one sequence:

MATH 132* - Calculus 1B Infused with Precalculus

MATH 142* - Calculus II

or

MATH 141* Calculus I
MATH 142* Calculus II
[After] or
MATH 147* Honors: Calculus I
MATH 148* Honors: Calculus II
[After] or
MATH 151* Mathematics for the Life Sciences
MATH 152* Calculus for the Life Sciences

B. Select one course:

EF 151* Physics for Engineers I
EF 157* Honors: Physics for Engineers I
PHYS 135* Introduction to Physics for Physical Science and Mathematics Majors I
PHYS 137* Honors: Fundamentals of Physics for Physics Majors I
PHYS 221* Elements of Physics I

C. Select one course(s):

BIOL 113* Introductory Plant Biology I
BIOL 115* Introductory Plant Biology Laboratory
[After] or
BIOL 150* Organismal and Ecological Biology
BIOL 159* Skills of Biological Investigation
BIOL 167* Honors: Skills of Biological Investigation

Geology Concentration Requirements

Students are encouraged to participate in undergraduate research. A maximum of 3 hours of EEPS 493 may count toward the major.

A. Complete:

EEPS 310* Mineralogy
EEPS 320 Paleobiology
EEPS 330 Igneous and Metamorphic Petrology
EEPS 340 Earth Sedimentary Processes
EEPS 370 Earth Structure and Geophysics
EEPS 380 Planetary Geoscience

B. Complete at least 5 hours:

You may use a combination of courses to reach 5 credit hours to include:

1) Take an external field geology course for at least 5 credits and transfer those hours as EEPS 440.

2) EEPS 301 (3 credits) + EEPS 440 (3 credits)

3) EEPS 440 (3 credits) + EEPS 440 (3 credits). Note: these two courses must involve different field destinations.

C. Select 9 hours:

400-level or above GEOL courses

Honors Concentration – Geology

Requirements for the honors option are:

- **Fulfill all requirements for a concentration of the Geology and Environmental Science degree**
- **Maintain an overall GPA of at least 3.25**
- **Maintain a concentration GPA of at least 3.5**
- **9 hours of honors-by-contract coursework chosen from: approved 300- and 400-level EEPS courses, EEPS 491 Foreign Study, EEPS 492 Off Campus Study, and EEPS 493 Independent Study.**
- **3 hours of EEPS 497 Honors Senior Thesis (with a written and oral presentation of thesis)**

*** Meets Volunteer Core Requirements**

Rationale* We request a revision of the major name to replace "Geology and Environmental Studies" with "Geology and Environmental Science" to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Geology and Environmental Studies major at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Geology and Environmental Studies major.

Removed BIOL 158, BIOL 167, BIOL 168 - dropped courses

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

ENGL 101* English Composition I
[Right] (or equivalent)
EEPS 101* The Dynamic Earth
[After]
[Before]Choose separate lecture and lab or honors lecture/lab combined:
CHEM 122* General Chemistry I
[Right] and
CHEM 123* General Chemistry I Laboratory
[After] or
CHEM 128* Honors: General Chemistry I
[After]
[Before]Select one course:
MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 147* Honors: Calculus I
MATH 151* Mathematics for the Life Sciences

Credit Hours 14-15

Term 1 Milestone Notes

EEPS 101* The Dynamic Earth
[After]
[Before]One from:
MATH 119 College Algebra
[After] Math ACT score of 25

Term 2

Completion of required math sequence **3-4** *Credit Hours* *

Oral Communication Elective **3** *Credit Hours* *

ENGL 102* English Composition II
[Right] (or equivalent)
[After]
[Before]Choose separate lecture and lab or honors lecture/lab combined:
CHEM 132* General Chemistry II
[Right] and

EF 151* Physics for Engineers I
EF 157* Honors: Physics for Engineers I
PHYS 135* Introduction to Physics for Physical Science and Mathematics Majors I
PHYS 137* Honors: Fundamentals of Physics for Physics Majors I
PHYS 221* Elements of Physics I

Credit Hours 17-18

Term 4 Milestone Notes

Completion of required math sequence

One 300-level Geology course with a grade of C or better

ENGL 102* English Composition II

Term 5

Global Citizenship - US Elective **3** *Credit Hours* *
Social Sciences Elective **3** *Credit Hours* *

EEPS 320 Paleobiology
EEPS 370 Earth Structure and Geophysics

Credit Hours 14

Term 5 Milestone Notes

Additional 300-level Geology course with a grade of C or better

Additional 300-level Geology course with a grade of C or better

CHEM 132* General Chemistry II
[After] and
CHEM 133* General Chemistry II Laboratory

Term 6

Written Communication **Elective 3** ***Credit Hours*** *

EEPS 340 Earth Sedimentary Processes
EEPS 380 Planetary Geoscience
[Right] Complete 5 Credit Hour Field Requirement
[After]
[After] Select one course:
[After] Foreign Language **3** *Credit Hours*

Elective **3** *Credit Hours*

Credit Hours 14

Term 6 Milestone Notes

Completion of at least 9 upper-division (300-400) hours

Term 7

[2] Connections 3 ***Credit Hours***
Engaged Inquiries **Elective 3** ***Credit Hours*** *
Geology (400-level major course) 3 ***Credit Hours***
Non-U.S. History 3 ***Credit Hours*** *

[Before] Complete 5 Credit Hour Field Requirement such as:
EEPS 440 Field Geology

Credit Hours 17

Term 7 Milestone Notes

Completion of at least 24 total upper-division (300-400) hours

Term 8

[2] Connections 6 ***Credit Hours***

Geology (400-level major courses) 6 ***Credit Hours***

Non-U.S. History 3 ***Credit Hours*** * **(continuation of sequence)**

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 126-129

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements.**

Rationale*

We request a revision of the major name to replace "Geology and Environmental Studies" with "Geology and Environmental Science" to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Geology and Environmental Studies major at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Geology and Environmental Studies major.

College* College of Arts and Sciences

Department* Earth, Environmental, and Planetary Sciences

Program Name* Geology and Environmental Science Major, BS - Paleontology Concentration

Degree Type* Bachelor of Science

Program Type* Concentration

Description The EEPS Paleontology concentration is designed to provide students with broad training in the geosciences, with a focus on the interactions of the biological, physical, and chemical components of the Earth system through time. Designed for students interested in studying the history, and the future, of life on Earth, the Paleontology program includes flexible, interdisciplinary coursework, training in field and laboratory techniques, and independent research opportunities. This program prepares graduates with training in the knowledge and skills necessary for careers in academia, museums, state and federal agencies, environmental consulting, and public outreach.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

- [x] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

College Requirements

Arts and Sciences

Prerequisites

[Before]A. Complete:
EEPS 101* The Dynamic Earth
EEPS 102* Earth, Life, and Time
[Before]
B. Select one sequence:
BIOL 150* Organismal and Ecological Biology
BIOL 159* Skills of Biological Investigation
BIOL 160* Cellular and Molecular Biology
[Before]
or
BIOL 113* Introductory Plant Biology I
BIOL 114* Introductory Plant Biology II
BIOL 115* Introductory Plant Biology Laboratory

Corequisites

[Before]A. Select one Chemistry Lecture / Lab Combination:
CHEM 102* Principles of Chemistry
CHEM 103* Principles of Chemistry Laboratory
[Before]
or
CHEM 122* General Chemistry I
CHEM 123* General Chemistry I Laboratory
[Before]
or
CHEM 128* Honors: General Chemistry I
[Before]
B. Select two courses:
STAT 201* Introduction to Statistics
[Before]or
STAT 207* Honors: Introduction to Statistics
[Before]
and
MATH 141* Calculus I
[Before]
or
MATH 147* Honors: Calculus I
[Before]
or
MATH 151* Mathematics for the Life Sciences

Concentration Requirements

This concentration consists of **41 - 42** credit hours.

[Before]A. Complete (15 credit hours):
BIOL 260 Ecology
BIOL 269 Ecology Field-Based Laboratory
BIOL 280 Evolution
EEPS 320 Paleobiology
EEPS 340 Earth Sedimentary Processes
[After]

[Before]B. Field Geology (5-6 Credit Hours):
[Before]You may use a combination of courses to reach a minimum of 5 credit hours to include:
1) EEPS 301 Field and Laboratory Methods in the Geosciences (3 credits) + EEPS 440 Field Geology (3 credits).
2) EEPS 440 Field Geology (3 credits) + EEPS 440 Field Geology (3 credits). Note: these two courses must involve different field destinations/topics.
3) Take an external field geology course for at least 5 credits and transfer those hours as EEPS 440.
EEPS 301 Field and Laboratory Methods in the Geosciences
EEPS 440 Field Geology
[Before]

[Before]C. Complete 9 hours:
EEPS 406 Taphonomy
EEPS 420 Trace Fossils: Behavior, Environment, and Applications
EEPS 421 Vertebrate Paleontology
EEPS 422 Evolution of Life
EEPS 423 Paleoecology
EEPS 426 Biospheric Change and the Fossil Record
[Before]

[Before]D. Complete 3 hours:
EEPS 493 Independent Study
[Before]

[Before]E. Complete 9 hours:
ANTH 329 Skeletal Collections and Curation
ANTH 431 Isotope Ecology
ANTH 471 Vertebrate Osteology

ANTH 490 Primate Evolution
ANTH 495 Hominin Paleobiology
EEB 401 Natural History Collections Research
EEB 330* Field Botany
EEB 330S* Field Botany
EEB 353 Comparative Vertebrate Biology
EEB 404 Ecosystem Ecology
EEB 410 Ecological and Evolutionary Developmental Biology
EEB 411* Biostatistics
EEB 424 The Evolution of Plant Diversity
EEB 426 Plant-Animal Interactions
EEB 433* Plant Ecology
EEB 464 Macroevolution
EEB 473 Herpetology
EEB 474 Diversity, Ecology, and Evolution of Fishes
EEB 484 Conservation Biology
EEPS 205* Age of the Dinosaurs
EEPS 310* Mineralogy
EEPS 330 Igneous and Metamorphic Petrology
EEPS 370 Earth Structure and Geophysics
EEPS 424 GIS for Geoscientists
EEPS 425 Data Analysis for Geoscientists
EEPS 456 Global Climate Change
EEPS 459 Introduction to Oceanography
GEOG 430 Global Environments of the Quaternary
GEOG 431 Environmental History from Lake Sediments

Honors Concentration - Paleontology

Requirements for the honors option are:

Fulfill all requirements for a concentration of the Geology and Environmental Science degree.
Maintain an overall GPA of at least 3.25.
Maintain a concentration GPA of at least 3.5.
9 hours of honors-by-contract coursework chosen from: approved 300- and 400-level EEPS courses, EEPS 491 Foreign Study, EEPS 492 Off-Campus Study, and EEPS 493 Independent Study.
3 hours of EEPS 497 Honors Senior Thesis (with a written and oral presentation of thesis).

*** Satisfies Volunteer Core Requirements**

Rationale*

- We request a revision of the major name to replace "Geology and Environmental Studies" with "Geology and Environmental Science" to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.
- Also adding an Honors option to the concentration, as it was inadvertently left off last year when the concentration was created.

This is justified by the current (updated) definitions, which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of the main courses currently required in the Geology and Environmental Studies major at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Geology and Environmental Studies major.

Honors Concentration:

There is a growing need for geoscientists trained in understanding the interactions between life and other parts of the Earth system. Paleontology provides a framework to tie these systems together and is a well-known discipline to the public. The Paleontology concentration launched in Fall 2025 within EEPS and already has five students, and we expect continued growth.

Hiring trends within the geosciences show growth in fields aligned with environment, biology, and climate, key focus areas of the degree path. Given the global scale of changes in climate and other aspects of the environment, understanding the impact of these changes requires the analysis of similar changes that occurred in Earth's distant and recent past. The curriculum of the Paleontology concentration will provide graduates with the practical knowledge and skills to contribute to solving problems across a variety of fields in education (formal and informal), museum settings, NGO, state and federal agencies, consulting firms, and the private sector.

This concentration takes advantage of existing strengths and resources in EEPS and CAS. There are very few BS degree programs in Paleontology in the United States. The concentration of paleontologists with varied specialties within EEPS provides an opportunity to create a unique program that will be sought out by prospective students from across the country.

The requirements for the added Honors concentration in Paleontology are more focused on student research than on coursework, as in our other concentrations, allowing students to count more independent research hours (one-on-one research with faculty) toward their honors requirements, as well as requiring specific Honors-level coursework. The Honors degree also requires completion of an Honors Senior Thesis (EEPS 497), which includes a written and oral presentation of original research. Our students with these experiences are more likely to be accepted into graduate programs and hired in the geoscience workforce.

Financial Impact* None

Complete two Paleontology electives.
Complete at least 2 credits of EEPS 493.
Complete a total of at least 24 total upper-division (300-400 level) hours

Term 8

[2] Connections 6 *Credit Hours*
Paleontology Elective (EEPS, ANTH, EEB, GEOG) 3 *Credit Hours*
Field Geology 3 *Credit Hours*
Engaged Inquiries (EI) Elective 3 *Credit Hours* *

EEPS 493 Independent Study

Credit Hours 16

Term 8 Milestone Notes

Complete minimum 5 credits of Field Geology
Complete one Paleontology elective.
Complete 3 credit hours of EEPS 493.
Complete at least 42 total upper-division (300-400 level) hours to receive a degree from the College of Arts & Sciences.

Total Credit Hours 129

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

* Meets Volunteer Core Requirements.

Rationale*

- We request a revision of the major name to replace “Geology and Environmental Studies” with “Geology and Environmental Science” to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.
- Additional U-Track revisions: DARS Team in Registar Office requested corrections of milestone related to EEPS 301 in Term 5. Based off of the category it was in and how it was listed on the program, EEPS 301 by itself cannot appear to be a required course. Consequently, “Field Geology 3 Credit Hours” was used for milestones 7, 8 and moved the Non-US History requirements to Terms 5 and 6.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Geology and Environmental Studies major at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Geology and Environmental Studies major.

Financial Impact*: None

Impact on Other Units*: None

Have you consulted with all programs/departments that will be impacted by this change?*: (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.:

For new majors: indicate the type of change:
( ) New major name and new CIP code (requires THEC approval)
(•) New major name and keeping the same CIP code

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Earth, Environmental, and Planetary Sciences

Program Name* Geology and Environmental Science Major, BS - Planetary Geoscience Concentration

Degree Type* Bachelor of Science

Program Type* Concentration

Description A concentration in Planetary Geoscience is for undergraduate students who want to pursue a career in applying geoscience skills to extraterrestrial bodies. Students will gain a strong geoscience background with the flexibility to supplement with additional courses tailored to their specific interest in the planetary field (i.e., remote sensing, astrobiology, etc.). Students in this concentration will develop analytical, critical thinking, and problem-solving skills they can put to work in careers in scientific research, planetary mission development and support, teaching, and related fields.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [x] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Prerequisites:

A. Select one sequence:

CHEM 122* General Chemistry I
CHEM 123* General Chemistry I Laboratory
CHEM 132* General Chemistry II
CHEM 133* General Chemistry II Laboratory
[After] or
CHEM 128* Honors: General Chemistry I
CHEM 138* Honors: General Chemistry II
[After]
Note: CHEM 132* or CHEM 138* may be taken concurrently with 300-level geology courses.

B. Select one sequence:

[Left] A.

EEPS 101* The Dynamic Earth
EEPS 104* Exploring the Planets
[Before]
[Left] B.

EEPS 101* The Dynamic Earth
[Right] or

EEPS 104* Exploring the Planets
[Right] and

ASTR 151* A Journey through the Solar System Lecture
[Right] or

ASTR 152* Stars, Galaxies, and Cosmology Lecture
[Before]

[Left] C.

EEPS 101* The Dynamic Earth
[Before] or

EEPS 104* Exploring the Planets
[Right] and

ASTR 217* Honors: Introductory Astronomy
[Before] or

ASTR 218* Honors: Introductory Astronomy
[Before] Note: EEPS 101* or EEPS 104* may be taken concurrently with 300-level EEPS courses

Corequisites:

A. Select one mathematics sequence:

(1)

MATH 132* Calculus 1B Infused with Precalculus
MATH 142* Calculus II
[After] or

(2)

MATH 141* Calculus I
MATH 142* Calculus II
[After] or

(3)

MATH 147* Honors: Calculus I
MATH 148* Honors: Calculus II
[After] or

(4)

MATH 151* Mathematics for the Life Sciences
MATH 152* Calculus for the Life Sciences

B. Select one physics course:

EF 151* Physics for Engineers I
EF 157* Honors: Physics for Engineers I
PHYS 135* Introduction to Physics for Physical Science and Mathematics Majors I
PHYS 137* Honors: Fundamentals of Physics for Physics Majors I
PHYS 221* Elements of Physics I

Select at least one additional geology, physics, astronomy, statistics, math or biology course:

ASTR 151* A Journey through the Solar System Lecture
ASTR 152* Stars, Galaxies, and Cosmology Lecture
ASTR 218* Honors: Introductory Astronomy
ASTR 217* Honors: Introductory Astronomy
BIOL 113* Introductory Plant Biology I
BIOL 115* Introductory Plant Biology Laboratory
BIOL 150* Organismal and Ecological Biology
BIOL 159* Skills of Biological Investigation
EEPS 102* Earth, Life, and Time
EEPS 103* The Earth's Environments
EEPS 210* Astrobiology: Life, the Universe, and Everything
EF 152* Physics for Engineers II
EF 158* Honors: Physics for Engineers II
MATH 237 Honors: Differential Equations I
MATH 247 Honors: Calculus III
MATH 251 Matrix Algebra I
MATH 231 Differential Equations I
MATH 241 Calculus III
PHYS 136* Introduction to Physics for Physical Science and Mathematics Majors II
PHYS 138* Honors: Fundamentals of Physics for Physics Majors II
PHYS 222* Elements of Physics II
PHYS 251 Fundamentals of Physics: Waves, Optics, and the Breakdown of Classical Physics
STAT 201* Introduction to Statistics
STAT 251 Probability and Statistics for Scientists and Engineers

Concentration Requirements:

A. Complete:

EEPS 310* Mineralogy
EEPS 330 Igneous and Metamorphic Petrology
EEPS 340 Earth Sedimentary Processes
EEPS 370 Earth Structure and Geophysics
EEPS 380 Planetary Geoscience

B. Complete at least 5 hours:

You may use a combination of courses to reach 5 credit hours to include:

1) Take an external field geology course for at least 5 credits and transfer those credit hours as EEPS 440.

2) EEPS 301 (3 credits) + EEPS 440 (3 credits)**

3) EEPS 440 (3 credits) + EEPS 440 (3 credits). Note: these two courses must involve different field destinations.

4) External research internships with NASA or similar organizations, or other significant summer research experiences (e.g., extended field work) may satisfy the field training requirement. Students who engage in such activities are encouraged to consult with their advisor to determine whether it may qualify.

****EEPS 301 may not be used to satisfy credit hour requirements in B and C.**

C. Select 9 hours (6 or more hours from EEPS; and 6 or more at the 400 level):

EEPS 301 Field and Laboratory Methods in the Geosciences
EEPS 424 GIS for Geoscientists
EEPS 432 Geochemical Modeling
EEPS 435 Volcanology
EEPS 450 Landscapes: Earth and Elsewhere
EEPS 459 Introduction to Oceanography
EEPS 465 Geomicrobiology
EEPS 471 Applied Geophysics
EEPS 483 Radiogenic Isotope Geochemistry
EEPS 484 Planetary Geodynamics
EEPS 490 Special Problems in Geology
EEPS 493 Independent Study
[Before]

EEPS 425 Data Analysis for Geoscientists
[Before]or

MICR 475 Reproducible Data Analysis
[After]
PHYS 321 Thermal Physics
MICR 333* Astrobiology
[After]

Advanced undergraduates are encouraged to inquire with instructors of 500- and 600-level EEPS courses about the possibility of enrollment. Such courses are normally closed to undergraduates, but may be opened on a case-by-case basis. Enrollment in any 500- or 600-level EEPS course counts toward the 12-credit concentration requirement in C.

*** Meets Volunteer Core Requirements.**

Honors Concentration – Planetary Geoscience

Requirements for the honors option are:

Fulfill all requirements for a Geology and Environmental Science Planetary Geoscience Concentration degree
Maintain an overall GPA of at least 3.25
Maintain a concentration GPA of at least 3.5
9 hours of honors-by-contract coursework chosen from: approved 300- and 400-level EEPS courses, EEPS 491 Foreign Study, EEPS 492 Off Campus Study, and EEPS 493 Independent Study.
3 hours of EEPS 497 Honors Senior Thesis (with a written and oral presentation of thesis)

Rationale*

We request a revision of the major name to replace "Geology and Environmental Studies" with "Geology and Environmental Science" to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Geology and Environmental Studies major at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Geology and Environmental Studies major.

Also, we have revised the placement of viarious courses in the Curriculum Schema to offer students a better sequence and educational experience to advance knowledge in the interdisciplinary field of planetary geoscience.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

College* College of Arts and Sciences

Department* Earth, Environmental, and Planetary Sciences

Program Name* Geology and Environmental Science Major, BS - Water Science Concentration

Degree Type* Bachelor of Science

Program Type* Concentration

Description

The Geology and Environmental Science major is designed for students who want a broad, general background in geosciences and wish to develop their leadership and communication skills to pursue careers in science, education, law, business, public policy, and many other fields.

Program Learning Outcomes for the B.S. degree in Geology and Environmental Science:

- Students will demonstrate knowledge and understanding of geosciences in one of the four concentrations.
- Students can apply geoscience techniques presented in the curriculum.
- Students will develop a depth of professional knowledge, the ability to problem solve, and critical thinking skills comparable to other professional geoscience programs.

Water Science encompasses a variety of important topics related to water issues and challenges experienced by humanity. Water Science is a core area of the geosciences that is focused on studying the distribution, movement, and storage of water on the surface, and in the soils and rocks of Earth's crust and other rocky planetary bodies. Our undergraduate offerings in the Geology and Environmental Science major focus on rock forming processes on Earth and other planetary bodies, the evolution of life, natural geological resources, geochemistry, environmental pollution, climate and human impact. Courses in the major not only provide the foundation for advanced education and research into urgent challenges in water quality, availability, and management, but also offer our students pathways into successful careers in science, education, industry and government.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

[Before]Choose one:

MATH 142* Calculus II
PHYS 135* Introduction to Physics for Physical Science and Mathematics Majors I
STAT 201* Introduction to Statistics
[After] or
[Before]B.

MATH 151* Mathematics for the Life Sciences
MATH 152* Calculus for the Life Sciences

Concentration Requirements:

This concentration consists of **37-38** credit hours.

A. Complete the following:

EEPS 310* Mineralogy
EEPS 330 Igneous and Metamorphic Petrology
EEPS 340 Earth Sedimentary Processes
EEPS 370 Earth Structure and Geophysics
EEPS 485 Principles of Hydrogeology

B. Complete one course:

EEPS 301 Field and Laboratory Methods in the Geosciences
EEPS 425 Data Analysis for Geoscientists
MICR 475 Reproducible Data Analysis

C. Complete at least 9 hours from:

CE 391 Water Resources Engineering I
CE 494 Water Resources Engineering II
CE 495 Hydrology
EEPS 424 GIS for Geoscientists
EEPS 450 Landscapes: Earth and Elsewhere
EEPS 452 Cave and Karst Geology
EEPS 455 Environmental Geology
EEPS 456 Global Climate Change
EEPS 459 Introduction to Oceanography
EEPS 462 Environmental Aqueous Geochemistry
EEPS 464 Water Sustainability and Climate
EEPS 466 Water and Air Pollution
EEPS 469 Limnology
EEPS 486 Computational Methods in Hydrogeology
EEPS 493 Independent Study
ESS 424* Environmental Stormwater Management
GEOG 433 Landform Analysis and Landscape Planning
GEOG 435 Biogeography
GEOG 436 Water Resources
JMED 451* Environmental Writing

D. Complete one course:

AREC 470 Policy Analysis for Environmental and Natural Resource Management
[Before]
ECON 201* Introductory Economics: A Survey Course
[Right] or

ECON 207* Honors: Introductory Economics
[Before]
ECON 362 Environmental and Natural Resource Policy

E. Complete at least 3 credit hours:

EEPS 440 Field Geology
[Right] or

EEPS 493 Independent Study
[Right] (3 credit hours)

Honors Concentration – Water Science

Requirements for the honors concentration are:

- **Fulfill all requirements for a concentration of the Geology and Environmental Science degree**
- **Maintain an overall GPA of at least 3.25**
- **Maintain a concentration GPA of at least 3.5**
- **9 hours of honors-by-contract coursework chosen from: approved 300- and 400-level EEPS courses, EEPS 491 Foreign Study, EEPS 492 Off Campus Study, and EEPS 493 Independent Study.**
- **3 hours of EEPS 497 Honors Senior Thesis (with a written and oral presentation of thesis)**

Note:

*** Meets Volunteer Core Requirement.**

Rationale*

We request a revision of the major name to replace "Geology and Environmental Studies" with "Geology and Environmental Science" to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Geology and Environmental Studies major at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Geology and Environmental Studies major.

Financial Impact* No imapact

Impact on Other Units* No impact

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
( ) New major name and new CIP code (requires THEC approval)
(•) New major name and keeping the same CIP code

CIP Code* 40.0601

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?
☑ Arts and Humanities
☑ Natural Sciences
☑ Social Sciences

ADMINISTRATIVE USE ONLY

Impact Level
☐ Low
☑ Mid
☐ High

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Earth, Environmental, and Planetary Sciences

Program Name* Geology and Environmental Science Major, BS - Water Science Concentration (uTrack Requirements)

Degree Type* Bachelor of Science

Program Type* Concentration

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [x] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Water Science (400-level major course) 6 *Credit Hours*

Credit Hours 18

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 129

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements.**

Rationale* We request a revision of the major name to replace "Geology and Environmental Studies" with "Geology and Environmental Science" to better reflect the type of courses and academic training offered for this degree in the Earth, Environmental, and Planetary Sciences (EEPS) department at UTK.

This is justified by the current (updated) definitions which state that *Environmental science is a natural science that focuses on the physical, chemical, and biological aspects of the environment, using a scientific and quantitative approach to research and problem-solving.* This, in turn, is the exact focus of main courses currently required in the Geology and Environmental Studies major at EEPS in UTK. In contrast, *environmental studies is an interdisciplinary social science that focuses on the human and societal dimensions of environmental issues, such as policy, culture, economics, and ethics, using a more qualitative approach.* This, in turn, is not the main focus of the courses and academic training for the current Geology and Environmental Studies major.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

ENGL 403 Introduction to Middle English
ENGL 422 Women Writers in Britain
ENGL 425 Black Feminist Theory
ENGL 430 Black and Indigenous Literatures
ENGL 439 Race and Ethnicity in American Cinema
ENGL 443* Topics in Black Literature
ENGL 444 Appalachian Literature and Culture
ENGL 446 Native American Writers
ENGL 471 Sociolinguistics
ENGL 472 American English
ENGL 474* Teaching English as a Second or Foreign Language

ENGL 475 The Big Ears Festival
ENGL 476 Second Language Acquisition
ENGL 477* Pedagogical Grammar for ESL Teachers
ENGL 479 Literary Criticism
ENGL 480 Fairy Tale, Legend, and Myth: Folk Narrative

Capstone

ENGL 398* Junior-Senior Honors Seminar
[Right] (honors only)
ENGL 443* Topics in Black Literature
ENGL 470 Special Topics in Rhetoric
ENGL 482 Major Authors
ENGL 483 Special Topics in Literature
ENGL 485 Special Topics in Language
ENGL 486 Special Topics in Criticism
ENGL 489 Special Topics in Film
ENGL 498 Senior Honors Thesis
[Right] (honors only)

Career Readiness

ENGL 499* Careers for English Majors
[Right] (1 hour)

Rationale*

1. We are adding a Career Readiness one-credit hour requirement to our major core, fulfilled by taking our VolCore AOC-designated course, ENGL 499: Careers for English Majors. This raises the required program hours from 30 to 31. Helping English majors prepare for the job market after graduation is a fundamental responsibility of the department and this course allows us to help students translate what they learned in the classroom to the language of the marketplace.

2. We are adding a new course ENGL 304: History of the Book to two historical categories in the Core, pre-1660 and 1660-1900.

3. We are adding two new courses ENGL 310: American Film Genres and ENGL 475: Big Ears Festival to the fourth category in the Core, "Language, Theory, Folklore, Cultural, Ethnic, Gender, or Film Studies"

Financial Impact*

None. Courses will be taught by existing English faculty.

Impact on Other Units*

None.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

[After]

Creative Writing – Honors Concentration

For students who qualify, the English Department offers specially designed courses at all undergraduate levels. The first-year and second-year honors courses are enriched versions of regular sections in composition, and in American and British literatures. To be given honors in English on the transcript, a student must have achieved a 3.25 or better GPA, a 3.5 or higher grade point in English courses, and the student must have completed 12 hours in honors courses in English at the 200-400 levels, including ENGL 398* - Junior-Senior Honors Seminar, and ENGL 498 - Senior Honors Thesis. Any 300- or 400-level courses in English may be taken for honors credit through the Honors-by-Contract program with the permission of the instructor. Courses taken at the graduate level for undergraduate credit may be petitioned to count for honors credit in English. Depending on the topic, ENGL 398* may be petitioned to count for one of the other English major requirements as well.

* Meets Volunteer Core Requirements.

Rationale* Revising the prerequisite language to include new 100-level literature courses and exclude first-year composition courses.

Financial Impact* None.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.

Rationale*

- Changing the uTrack requirements for the prerequisite courses to the major to include newly created 100-level courses.
- Removed "200-level" from Term 3 ENGL course from AH Lit/Phil/Rel Thought list.
- Changed Term 4 milestone to be "One course from English major prerequisites."
- Changed Term 5 milestone to be "Second course from English major prerequisites."

Financial Impact* None.

Impact on Other Units* None.

ENGL 452* Modern Drama
ENGL 453* Contemporary Drama
ENGL 454 20th-Century International Novel
ENGL 456 Contemporary Fiction/Narrative
ENGL 459 Contemporary Poetry
ENGL 479 Literary Criticism
ENGL 480 Fairy Tale, Legend, and Myth: Folk Narrative
ENGL 482 Major Authors
ENGL 483 Special Topics in Literature
ENGL 486 Special Topics in Criticism
ENGL 491 Foreign Study: Drama in Stratford and London
ENGL 492* Off-Campus Study: Drama in New York
ENGL 494* Cultural Rhetorics
[After]

Literature – Honors Concentration

For students who qualify, the English Department offers specially designed courses at all undergraduate levels. The first-year and second-year honors courses are enriched versions of regular sections in composition, and in American and British literatures. To be given honors in English on the transcript, a student must have achieved a 3.25 or higher GPA, a 3.5 or higher grade point in English courses, and the student must have completed 12 hours in honors courses in English at the 200-400 levels, including ENGL 398* - Junior-Senior Honors Seminar, and ENGL 498 - Senior Honors Thesis. Any 300- or 400-level courses in English may be taken for honors credit through the Honors-by-Contract program with the permission of the instructor. Courses taken at the graduate level for undergraduate credit may be petitioned to count for honors credit in English. Depending on the topic, ENGL 398* may be petitioned to count for one of the other English major requirements as well.

*** Meets Volunteer Core Requirements.**

Rationale*

- Revising the prerequisite language to include new 100-level literature courses and exclude first-year composition courses.
- Removed ENGL 401 and ENGL 490 from course list as they were previously dropped courses.

Financial Impact* None.

Impact on Other Units* None.

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Prerequisites

any two English courses at the 100 or 200-level, excluding those that satisfy the first-year composition requirement.

English Major

The major consists of **30 hours** of 300- and 400-level coursework. Courses may not count in more than one category. Depending on the course content, Special Topics, Major Authors, Junior-Senior Honors Seminar, and any other course with variable content may be petitioned to count in a category where it is not listed.

Select one course from each area:

Pre-1660 Literature

ENGL 301* British Culture to 1660
ENGL 321* Introduction to Old English
ENGL 401 Medieval Literature
ENGL 402 Chaucer
ENGL 403 Introduction to Middle English
ENGL 404 Shakespeare I: Early Plays
ENGL 405 Shakespeare II: Later Plays
ENGL 406* Shakespeare's Contemporaries I: Renaissance Drama
ENGL 409 Shakespeare's Contemporaries II: Renaissance Poetry and Prose
ENGL 410 Donne, Milton, and Their Contemporaries

1660-1900 Literature

ENGL 302* British Culture: 1660 to Present
ENGL 411 Restoration and Early Eighteenth-Century British Literature
ENGL 412* Late Eighteenth-Century British Literature
ENGL 414 The Romantics
ENGL 420 The 19th-Century British Novel
ENGL 424 Jane Austen
ENGL 431 Early American Literature
ENGL 432 American Romanticism and Transcendentalism
ENGL 433 American Realism and Naturalism
ENGL 435 American Fiction to 1900

Post-1900 Literature

ENGL 303* American Cultures
ENGL 340* Science Fiction and Fantasy
ENGL 345* Graphic Novel and Comics
ENGL 421 Modern British Novel
ENGL 423 Colonial and Post-Colonial Literature
ENGL 434 Modern American Literature
ENGL 436 Modern American Novel
ENGL 451 Modern British and American Poetry
ENGL 452* Modern Drama
ENGL 453* Contemporary Drama
ENGL 454 20th-Century International Novel
ENGL 456 Contemporary Fiction/Narrative
ENGL 459 Contemporary Poetry

Language, Theory, Folklore, Cultural, Ethnic, Gender, or Film Studies

ENGL 301* British Culture to 1660
ENGL 302* British Culture: 1660 to Present
ENGL 303* American Cultures
ENGL 306 Shakespeare and Film
ENGL 311 Race in Horror, Sci-Fi, and Thriller
ENGL 321* Introduction to Old English
ENGL 322 Race, Gender, and Medicine
ENGL 323 Black Women Writers
ENGL 331* Race and Ethnicity in American Literature
ENGL 332* Women in American Literature
ENGL 333* Black American Literature and Aesthetics
ENGL 334* Film and American Culture
ENGL 335* African Literature
ENGL 336* Caribbean Literature
ENGL 339* Children's/Young Adult Literature
ENGL 341* Religion and Spirituality in American Literature
ENGL 342* Literature and Medicine
ENGL 346* The Gothic
ENGL 351 The Short Story
ENGL 371* Foundations of the English Language

ENGL 372 The Structure of Modern English
ENGL 381* American Tales, Songs, and Material Culture: An Introduction to Folklore
ENGL 389* Literature of the English Bible
ENGL 403 Introduction to Middle English
ENGL 422 Women Writers in Britain
ENGL 425 Black Feminist Theory
ENGL 430 Black and Indigenous Literatures
ENGL 439 Race and Ethnicity in American Cinema
ENGL 443* Topics in Black Literature
ENGL 444 Appalachian Literature and Culture
ENGL 446 Native American Writers
ENGL 471 Sociolinguistics
ENGL 472 American English
ENGL 474* Teaching English as a Second or Foreign Language
ENGL 476 Second Language Acquisition
ENGL 477* Pedagogical Grammar for ESL Teachers
ENGL 479 Literary Criticism
ENGL 480 Fairy Tale, Legend, and Myth: Folk Narrative

Capstone

ENGL 398* Junior-Senior Honors Seminar
[Right] (honors only)
ENGL 443* Topics in Black Literature
ENGL 470 Special Topics in Rhetoric
ENGL 482 Major Authors
ENGL 483 Special Topics in Literature
ENGL 485 Special Topics in Language
ENGL 486 Special Topics in Criticism
ENGL 489 Special Topics in Film
ENGL 498 Senior Honors Thesis
[Right] (honors only)

Publishing Concentration

Complete:

ENGL 361 Introduction to Publishing
[After] to be taken, if possible, near the beginning of the student's major program

Select one Professional Writing course:

ENGL 355* Rhetoric and Writing
ENGL 357* Honors: Rhetoric and Writing
ENGL 360* Technical and Professional Writing
ENGL 455* Persuasive Writing
ENGL 460 Technical Editing
ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents
ENGL 470 Special Topics in Rhetoric
ENGL 494* Cultural Rhetorics

Select one Creative Expression course:

ENGL 363* Writing Poetry
ENGL 364* Writing Fiction
ENGL 367* Honors: Writing Poetry
ENGL 368 Honors: Writing Fiction
ENGL 369* Writing Creative Nonfiction
ENGL 370 Multimedia Storytelling
ENGL 463* Advanced Poetry Writing
ENGL 464* Advanced Fiction Writing
ENGL 469 Advanced Creative Nonfiction Writing
ENGL 484 Special Topics in Writing

Select one Publishing Skills course:

ADPR 365 Social Media Strategy
ADVT 250* Advertising Principles
ARTN 291* Non-Major Intro to Book Arts and Papermaking
ENGL 304 History of the Book
ENGL 400 Internship
[Right] (3 *Credit Hours)*

GRDS 330 The Art of Presentation Design
GRDS 331 The Art of Identity Design
JMED 320 Media Marketing and Promotions
JMED 416 Audience Analytics
JMED 441* Entrepreneurship in Journalism and Media

JMED 441* Entrepreneurship in Journalism and Media

PBRL 270* Public Relations Principles

Complete one Internship in Publishing:

ENGL 400 Internship
[Right] 3 *Credit Hours*

Publishing – Honors Concentration

For students who qualify, the English Department offers specially designed courses at all undergraduate levels. The first-year and second-year honors courses are enriched versions of regular sections in composition, and in American and British literatures. To be given honors in English on the transcript, a student must have achieved a 3.25 or higher GPA, a 3.5 or higher grade point in English courses, and the student must have completed 12 hours in honors courses in English at the 200-400 levels, including ENGL 398* - Junior-Senior Honors Seminar, and ENGL 498 - Senior Honors Thesis. Any 300- or 400-level courses in English may be taken for honors credit through the Honors-by-Contract program with the permission of the instructor. Courses taken at the graduate level for undergraduate credit may be petitioned to count for honors credit in English. Depending on the topic, ENGL 398* may be petitioned to count for one of the other English major requirements as well.

*** Meets Volunteer Core Requirements.**

Rationale*

1. Revising the prerequisite language to include new 100-level literature courses and exclude first-year composition courses.

2. Adding ENGL 304: History of the Book to the Publishing Skills category in the concentration because it offers cultral background for work in the industry.

3. Revising an inadvertent error in the listing of Internship under the Publishing Skills category: if counted under this category, internship should be three hours (and not less) in keeping with the 31-hour requirement for the major generally.

Financial Impact*

None.

Impact on Other Units*

None.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

ENGL 400 Internship

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.

Rationale*

- Changing the uTrack requirements for the prerequisite courses to the major to include newly created 100-level courses.
- Removed "200-level" from Term 3 ENGL course from AH Lit/Phil/Rel Thought list.
- Changed Term 4 milestone to be "One course from English major prerequisites."
- Changed Term 5 milestone to be "Second course from English major prerequisites."

Financial Impact* None.

Impact on Other Units* None.

ENGL 494* Cultural Rhetorics
ENGL 495 Introduction to Rhetoric and Composition

Select one English elective:

any 300-400 level English course

Rhetoric and Writing – Honors Concentration

For students who qualify, the English Department offers specially designed courses at all undergraduate levels. The first-year and second-year honors courses are enriched versions of regular sections in composition, and in American and British literatures. To be given honors in English on the transcript, a student must have achieved a 3.25 or higher

GPA, a 3.5 or higher grade point in English courses, and the student must have completed 12 hours in honors courses in English at the 200-400 levels, including ENGL 398* - Junior-Senior Honors Seminar, and ENGL 498 - Senior Honors Thesis. Any 300- or 400-level courses in English may be taken for honors credit through the Honors by Contract program with the permission of the instructor. Courses taken at the graduate level for undergraduate credit may be petitioned to count for honors credit in English. Depending on the topic, ENGL 398* may be petitioned to count for one of the other English major requirements as well.

* Meets Volunteer Core Requirements.

Rationale*

1. Revising the prerequisite language to include new 100-level literature courses and exclude first-year composition courses.

2. Including two new courses in the concentration: ENGL 356: Writing with Generative AI is being added to the category One Additional Course in Rhetoric and Writing, while ENGL 465: Religious Rhetorics is being added to two categories, Select Two Courses and One Additional Course in Rhetoric and Writing.

3. Removed ENGL 490 and ENGL 496 from the schema and course list - previously dropped courses.

Financial Impact*

None.

Impact on Other Units*

None.

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

*** Meets Volunteer Core Requirements.**

Rationale*

- Changing the uTrack requirements for the prerequisite courses to the major to include newly created 100-level courses.
- Removed "200-level" from Term 3 ENGL course from AH Lit/Phil/Rel Thought list.
- Changed Term 4 milestone to be "One course from English major prerequisites."
- Changed Term 5 milestone to be "Second course from English major prerequisites."

Financial Impact* None.

Impact on Other Units* None.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* English

Program Name* English Major, BA - Technical Communication Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The English major offers six concentrations: Creative Writing, Literature, Publishing, Rhetoric and Writing, Technical Communication, and an Individualized Program. Honors programs are available for the Creative Writing, Literature, Publishing, Rhetoric and Writing, Technical Communication, and Individualized Program concentrations.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Prerequisites

any two English courses at the 100 or 200 level, excluding those that satisfy the first-year composition requirement.

English Major

The major consists of **30 hours** of 300- and 400-level coursework. Courses may not count in more than one category. Depending on the course content, Special Topics, Major Authors, Junior-Senior Honors Seminar, and any other course with variable content may be petitioned to count in a category where it is not listed.

Select one course from each area:

Pre-1660 Literature

ENGL 301* British Culture to 1660
ENGL 321* Introduction to Old English
ENGL 401 Medieval Literature
ENGL 402 Chaucer
ENGL 403 Introduction to Middle English

ENGL 464* Advanced Fiction Writing
ENGL 466 Writing, Layout, and Production of Technical Documents
ENGL 470 Special Topics in Rhetoric
ENGL 494* Cultural Rhetorics
ENGL 495 Introduction to Rhetoric and Composition

Select one course:

any 300-400 level English course

Technical Communication – Honors Concentration

For students who qualify, the English Department offers specially designed courses at all undergraduate levels. The first-year and second-year honors courses are enriched versions of regular sections in composition, and in American and British literatures. To be given honors in English on the transcript, a student must have achieved a 3.25 or better GPA, a 3.5 or better grade point in English courses, and the student must have completed 12 hours in honors courses in English at the 200-400 levels, including ENGL 398* - Junior-Senior Honors Seminar, and ENGL 498 - Senior Honors Thesis. Any 300- or 400-level courses in English may be taken for honors credit through the Honors-by-Contract

program with the permission of the instructor. Courses taken at the graduate level for undergraduate credit may be petitioned to count for honors credit in English. Depending on the topic, ENGL 398* may be petitioned to count for one of the other English major requirements as well.

* Meets Volunteer Core Requirements.

Rationale*

1. Revising the prerequisite language to include new 100-level literature courses and exclude first-year composition courses.

2. Adding one new Technical Communication course to the concentration, ENGL 356: Writing with Generative AI, under the category, One Additional Course in Rhetoric or Writing.

3. Removed ENGL 490 and ENGL 496 from the course list and the schema - previously dropped courses.

Financial Impact*

None.

Impact on Other Units*

None.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

*** Meets Volunteer Core Requirements.**

Rationale* Changing the uTrack requirements for the prerequisite courses to the major to include newly created 100-level courses.

Financial Impact* None.

Impact on Other Units* None.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* English

Program Name* English Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- ☐ Program Name
- ☐ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)
- ☐ Certificate Type
- ☐ Other (include in Rationale)

Requirements*

Campus: Knoxville, Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

Minor Requirements

An English minor consists of at least 15 credit hours of English courses.

- **Three hours may be at the 100 or 200-level (excluding courses that satisfy the first-year composition requirement).**
- **Three credit hours must be at the 400 level.**
- **The remaining nine credit hours may be at the 300 or 400-level.**

Notes:

*** Meets Volunteer Core Requirements**

Rationale* Revising the language to include three credit hours of 100-level literature courses and exclude first-year composition courses from the minor.

Also added a Distance Education modality option. Adding a distance-education modality to the current English Minor would open up the possibility of a minor for students in distance-ed programs to get a minor to fulfill their connections requirements. A distance-education English minor would also provide distance-education students with additional classes to strengthen their reading and written-communication skills, important in today's job market.

Financial Impact* None

Impact on Other Units* None.

Have you consulted with all ○ Yes ○ No ◉ No Impact

programs/departments that will be impacted by this change?*

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ○ New major name and keeping the same CIP code

CIP Code* N/A

Requirements*

Minor Requirements

An English minor with an emphasis in technical communication consists of at least 15 semester hours of English courses.

Select at least three courses:

ENGL 356 Writing with Generative AI
ENGL 360* Technical and Professional Writing
ENGL 460 Technical Editing
ENGL 461* Global Communication for Science and Technology
ENGL 462 Writing for Publication
ENGL 466 Writing, Layout, and Production of Technical Documents

Select one course:

ENGL 355* Rhetoric and Writing
[Right] or

ENGL 357* Honors: Rhetoric and Writing
[After]
ENGL 356 Writing with Generative AI
ENGL 360* Technical and Professional Writing
ENGL 371* Foundations of the English Language
ENGL 372 The Structure of Modern English
ENGL 455* Persuasive Writing
ENGL 460 Technical Editing
ENGL 461* Global Communication for Science and Technology
ENGL 462 Writing for Publication
ENGL 465 Religious Rhetorics
ENGL 466 Writing, Layout, and Production of Technical Documents
ENGL 470 Special Topics in Rhetoric
ENGL 471 Sociolinguistics
ENGL 472 American English
ENGL 485 Special Topics in Language
ENGL 494* Cultural Rhetorics
ENGL 495 Introduction to Rhetoric and Composition

Select one course:

any 300-400 level English course

*** Meets Volunteer Core Requirements.**

Rationale*

Adding two new writing courses to the Minor in Technical Communication. ENGL 356: Writing with Generative AI is being added to the categories Select Three Courses and One Course while ENGL 465: Religious Rhetorics is being included the One Course category.

Removed ENGL 496 as the course has been dropped or archived.

College of Arts and Sciences - English - Teaching English to Speakers of Other Languages (TESOL) Certificate

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* English

Program Name* Teaching English to Speakers of Other Languages (TESOL) Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This Add-On certificate prepares students to teach English as a second or foreign language abroad or in non-public school contexts in the U.S. Students who complete this certificate will be prepared to teach learners of all ages and proficiency levels who are learning English at different instructional levels (e.g., primary, secondary, and post-secondary) in diverse geographical, institutional, and sociolinguistic contexts around the world. This certificate emphasizes pedagogical components of teaching, including how to develop teaching materials suitable for linguistically and culturally diverse learners of English. Students also gain actual experience in the classroom. This certificate program will benefit new graduates who want to teach English to students abroad, to English language learners in this country in non-public school contexts, to international students at universities or colleges where English is used as a medium of instruction, and to international workers. This undergraduate certificate program does NOT certify students to teach in public schools (K-12) in Tennessee or elsewhere in the United States.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Foundation Course

Choose one:

ENGL 371* Foundations of the English Language
ENGL 372 The Structure of Modern English

Two Core Courses

Complete both:

ENGL 474* Teaching English as a Second or Foreign Language
ENGL 476 Second Language Acquisition

Elective

Choose one:

ENGL 471 Sociolinguistics
ENGL 477* Pedagogical Grammar for ESL Teachers
[After] ENGL 575 - Issues in Second/Foreign Language Rhetoric and Composition

Practicum

One credit. Students work in an ESL/L2 classroom, with ESL/L2 students outside of class, and/or with the instructor on class preparations for 3 hours a week and submit a portfolio to the certificate coordinator overseeing the independent study at the end of the semester. The portfolio will include following components: activity logs, a selection of teaching and assessment materials students helped the instructor of the course develop, and a final reflection on practicum experience. During the practicum, students will work closely with the instructor of the course to develop lesson plans, assignments, and assessments. The division of the three hours of work each week would be determined by the student and the certificate coordinator. Students can complete this requirement by working as a teaching assistant in ENGL 121, ENGL 131, ENGL 132, or ENGL 102/ENGL 132 classes. Students must complete the foundation course and two core courses, or get permission from the certificate coordinator, before they can take ENGL 400: Internship - TESOL Practicum.

ENGL 400 Internship

Other Requirements

This 5-course (13 credit hours) certificate requires students to complete all the coursework at the University of Tennessee. Each course must be completed with a grade of C or better. At least three credit hours must be unique to this certificate and not overlap with another major, minor, or certificate. At least four credit hours must be taken through the Department of English. The other nine can be taken as either English or Linguistics. Applications to declare this certificate will be made through the English Department's Undergraduate Studies Office and reviewed by the Coordinator of the Certificate in TESOL. A student pursuing this Add-On certificate must be enrolled as a degree-seeking student at the University of Tennessee.

*** Meets Volunteer Core Requirement.**

Rationale*

We are changing one only element in the TESOL Certificate. For the one-credit Practicum, we are substituting the number ENGL 400: Internship for the former ENGL 493: Independent Study. Because the TESOL practicum involves teaching experience in an English as a Second Language classroom in various instructional settings under the supervision of English faculty, it is closer to an internship in the workplace than to an independent study in higher education. This change also better reflects the career readiness aspect of the practicum.

Financial Impact*

N/A.

Impact on Other Units*

None. All of the courses are in English, including the Practicum.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Geography and Sustainability

Subject/Prefix (choose from list)* GEOG

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 111*

Course Title (max 100 characters)* Digital Earth: Maps, Society, and Environment

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Introduces students to the foundations of spatial data, cartography, and geographic analysis. The course combines quantitative approaches to mapping with critical perspectives on how geographic information shapes our understanding of society and the environment. Students will explore a variety of geographic methods through hands-on work with geospatial datasets and accessible tools. Topics include the ethics of spatial data, geospatial analysis of our environment, and the social implications of mapping technologies. Appropriate for STEM and non-STEM majors alike, the course prepares students to think critically and quantitatively about the role of data and maps in contemporary life.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement: (SS)

Instructional Method* Lecture

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* This proposal updates the title and course description of GEOG 111 to better reflect what is taught in the course. The content, learning outcomes, and approach do not shift from the course as practiced (currently or in the past). The course continues to balance quantitative engagement with geospatial tools and critical examination of their societal and environmental impacts. This course has struggled with enrollment and this revision modernizes the course title/description for student clarity.

Impact on Other Units*

See below Impact Report for GEOG 111 and attached statements from impacted non-GEOG programs in support of the proposal

Credit Hours* 3

Course Description This course examines Tennessee as a region shaped by global convergences of economic, political, social, and cultural forces, introducing students to the phenomenon of globalization from a local vantage point. Using interdisciplinary perspectives, the course investigates how Tennessee has been impacted by globalization processes that connect levels of the local, national, and the global. Topics will include global tourism in TN, the TVA's global impact, transnational corporations in TN, and the global initiatives of the UT system. Course assessments will include weekly quizzes, short writing assignments, and small-group research projects on a site-specific topic related to global connections in Tennessee.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

Rationale* From discussions, we have learned that students would like more GLBS course offerings. We have thus designed a course involving Tennessee and its particular relationship with the world, based on these discussions. We believe this course will appeal to both majors/minors as well as students from various disciplinary backgrounds interested in other global pursuits as they related with business, health, development, and more.

We have also applied for GCUS VolCore credit.

Impact on Other Units* No impact

College of Arts and Sciences - Geography and Sustainability - Sustainability Major, BA

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Geography and Sustainability

Program Name* Sustainability Major, BA

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

Description The sustainability major provides a scientific, socioeconomic, and philosophical background for understanding and mitigating human impact on the natural environment.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- ☐ Program Name
- ☐ Department
- ☐ Add or remove an embedded program (i.e. concentration, honors, 5-year)
- ☑ Modality (campus code)
- ☐ Certificate Type
- ☐ Other (include in Rationale)

Requirements*

Campus: Knoxville, Distance Education

[Right] or

EEPS 443 Urban Ecology
[Before]
PLSC 415* Agroecology

Sustainability Policy and Development

Select one course:

ALEC 485* Global Sustainable Development Goals
AREC 314* Environmental Law
AREC 345 Climate Change and Renewable Energy Economics
AREC 470 Policy Analysis for Environmental and Natural Resource Management
ECON 322 The Global Economy: Trade and Development
ECON 362 Environmental and Natural Resource Policy
FORS 422 Forest and Wildland Resource Policy
GEOG 346 Energy, Governance, and Sustainability
GEOG 363* Southern Spaces and Places
GEOG 440* Global Perspectives on Urban Sustainability
GEOG 441* Cities as Economic Engines
GEOG 442* Urban Spaces and Urban Society
GEOG 446 City and Community Sustainability Planning
GEOG 449* Geography of Transportation
GEOG 451* The Global Economy
HTM 484* Critical Sustainable Tourism
POLS 350 Sources of Political Change in the Global South: Coups, Climate, and Conflict
SNR 420* International Natural Resource Issues
[Before]
SOCI 442 Comparative Poverty and Development
[Right] or

AFST 442 Comparative Poverty and Development

Sustainability and Geospatial Science and Technologies

Select one course:

ESS 326 GIS/GPS Applications in Agriculture and Environmental Science
GEOG 311 Geovisualization and Geographic Information Science
GEOG 409 GIS for Environmental and Socio-Economic Applications

GEOG 411 Intermediate Geographic Information Science
GEOG 412 Environmental Modeling and Geospatial Analysis
GEOG 413 Remote Sensing of the Environment
GEOG 420* GIS in the Community
GEOG 425 Human Dimension in GIScience

Applied Sustainability

[Before] Complete:

GEOG 499 Practicing Geography and Sustainability
[After] And

[Before] Choose one:

GEOG 490 Internship
GEOG 496* Field Experience for Sustainability

Focus Area

Select three additional courses (9 to 12 credit hours) from any of the Sustainability and Society, Sustainability and the Environment, Sustainability Policy and Development, or Sustainability & Geospatial Science and Technologies tracks.

Notes:

*** Meets Volunteer Core Requirements.**

Rationale*

The department is adding a Distance Education modality in Sustainability within the existing Bachelor of Arts in Sustainability program. This addition responds directly to institutional priorities for expanding online offerings and addresses declining enrollment in the College of Arts and Sciences. This concentration mirrors the successful on-campus program and is designed to meet growing student demand for flexible, career-relevant education in environmental and social responsibility.

Sustainability is a rapidly expanding field with strong workforce demand across Tennessee and the broader region, particularly in sectors such as energy, agriculture, urban planning, and corporate social responsibility. By offering this concentration online, the University of Tennessee, Knoxville will increase access for non-traditional and place-bound students, while contributing to the development of a skilled workforce aligned with state and regional economic and environmental goals. The added modality strengthens the overall academic program by integrating interdisciplinary approaches and applied learning opportunities that prepare graduates for meaningful careers and civic engagement.

The department added the following courses so that they would align with the Knoxville Campus Sustainability program and expand the online offerings to support the added Distance Education modality.

- Added **GEOG 121** and **MATH 115,** and moved **STAT 201** from major requirements to the Prerequisites;
- Added **ECON 207*** as an option for a major requirement - was listed on uTrack but not on program options.
- Added **GEOG 344** to "Sustainability and Society" list;
- Added **GEOG 331** to "Sustainability and the Environment" list;
- Added **GEOG 441** and **GEOG 442** to "Sustainability Policy and Development".
- Removed **PSYC 444** - Course is not being taught until at least Fall 2027
- Added crosslisted courses - **PHIL 348*** with **PHIL 346***, **EEPS 443** with **GEOG 443**, **AFST 442** with **SOCI 442, EEB 330S with EEB 330**

Financial Impact*

- The addition of the online Sustainability modality is expected to positively impact enrollment by attracting new student populations, including adult learners, transfer students, and those seeking a flexible, career-oriented education. The development of the online Sustainability modality will require dedicated faculty resources from the College of Arts and Sciences to ensure its success and academic integrity. However, this program was specifically identified as a priority within the university's strategic initiative to expand online offerings and aligns with broader efforts to address enrollment challenges. By leveraging existing curricular strengths and faculty expertise, the program is expected to increase overall enrollment without drawing students away from other programs. It represents a cost-effective investment in growth, access, and workforce development.

Impact on Other Units*

The online program has been built with courses primarily inside the College of Arts and Sciences with the exception of a statistics course and an economics course in the Haslam College of Business. This includes courses within Arts and Sciences such as Geography & Sustainability; Economics; Ecology & Evolutionary Biology; Earth, Environment, and Planetary Sciences; Mathematics; Philosophy; Political Science; Sociology; and Business Analytics & Statistics. All units have been notified of this program creation and approvals of those with courses included in the Distance Education pathway are attached.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change

( ) New major name and new CIP code (requires THEC approval)
( ) New major name and keeping the same CIP code

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Geography and Sustainability

Program Name* Sustainability Major, BA (uTrack Requirements)

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.

Certificate Type To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville, Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120-124

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase the time to degree.

* Meets Volunteer Core Requirements.

Rationale*

The department is adding a Distance Education modality in Sustainability within the existing Bachelor of Arts in Sustainability program. This addition responds directly to institutional priorities for expanding online offerings and addresses declining enrollment in the College of Arts and Sciences. This concentration mirrors the successful on-campus program and is designed to meet growing student demand for flexible, career-relevant education in environmental and social responsibility.

Sustainability is a rapidly expanding field with strong workforce demand across Tennessee and the broader region, particularly in sectors such as energy, agriculture, urban planning, and corporate social responsibility. By offering this concentration online, the University of Tennessee, Knoxville will increase access for non-traditional and place-bound students, while contributing to the development of a skilled workforce aligned with state and regional economic and environmental goals. The added modality strengthens the overall academic program by integrating interdisciplinary approaches and applied learning opportunities that prepare graduates for meaningful careers and civic engagement.

The department added the following courses so that they would align with the Knoxville Campus Sustainability program and expand the online offerings to support the added Distance Education modality.

- Added **GEOG 121** and **MATH 115,** and moved **STAT 201** from major requirements to the Prerequisites;
- Added **ECON 207*** as an option for a major requirement - was listed on uTrack but not on program options.
- Added **GEOG 344** to "Sustainability and Society" list;
- Added **GEOG 331** to "Sustainability and the Environment" list;
- Added **GEOG 441** and **GEOG 442** to "Sustainability Policy and Development".
- Removed **PSYC 444** - Course is not being taught until at least Fall 2027
- Added crosslisted courses - **PHIL 348*** with **PHIL 346***, **EEPS 443** with **GEOG 443**, **AFST 442** with **SOCI 442, EEB 330S with EEB 330**

Financial Impact*

The addition of the online Sustainability modality is expected to positively impact enrollment by attracting new student populations, including adult learners, transfer students,and those seeking flexible, career-oriented education. The development of the online Sustainability modalit will require dedicated faculty resources from the College of Arts and Sciences to ensure its success and academic integrity. However, this program was specifically identified as a priority within the university's strategic initiative to expand online offerings and aligns with broader efforts to address enrollment challenges. By leveraging existing curricular strengths and faculty expertise, the program is expected to increase overall enrollment without drawing students away from other programs. It represents a cost-effective investment in growth, access, and workforce development.

Impact on Other Units*

The online program has been built with courses primarily inside the College of Arts and Sciences with the exception of a statistics course and an economics course in the Haslam College of Business. This includes courses within Arts and Sciences such as Geography & Sustainability; Economics; Ecology & Evolutionary Biology; Earth, Environment, and Planetary Sciences; Mathematics; Philosophy; Political Science; Sociology; and Business Analytics & Statistics. College of Arts and Sciences - Geography and Sustainability - Sustainability Major, BA - Public Policy Concentration

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Geography and Sustainability

Program Name* Sustainability Major, BA - Public Policy Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Public Policy Concentration within the Sustainability major prepares students to address complex environmental and social challenges through policy analysis, leadership, and interdisciplinary approaches. Students gain foundational knowledge in economics, statistics, ecology, and sustainability principles, while developing skills in policy design, data visualization, and effective communication. This concentration emphasizes the intersection of sustainability and governance, equipping graduates for careers in public administration, environmental policy, and sustainable development.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Prerequisites

Students who enter the program with a different natural science lab science sequence may petition to waive the prerequisite natural lab science sequence listed below.

[Before]Choose one of the following lab sequences:
GEOG 131* Weather, Climate, and Climate Change
GEOG 132* Landscapes and Environmental Change
[After] OR
EEPS 101* The Dynamic Earth
EEPS 103* The Earth's Environments
[After] OR
BIOL 113* Introductory Plant Biology I
BIOL 114* Introductory Plant Biology II
BIOL 115* Introductory Plant Biology Laboratory
[After] OR
BIOL 150* Organismal and Ecological Biology
BIOL 159* Skills of Biological Investigation
BIOL 160* Cellular and Molecular Biology

Major Requirements

[Before]Complete the following courses:
ACCT 200 Foundations of Accounting
GEOG 202 Effective Science Communication for Geography and Sustainability Professionals
GEOG 206* Sustainability Principles and Practices
GEOG 216S Sustainability Service-Learning
[After]
[Before]Select one course:
AREC 270* Economic Perspectives on Natural Resource and Environmental Issues
ECON 201* Introductory Economics: A Survey Course
ECON 211* Principles of Microeconomics
[After]
[Before]Select one course:
BIOL 260 Ecology
SNR 250* Conservation
GEOG 204* Understanding Climate Change
[After]
[Before]Select one course:
GEOG 415* Quantitative Methods in Geography
POLS 301* Research Methods I

Agricultural Resource Economics

[Before]Select one course:
AREC 314* Environmental Law
AREC 342* Farm Business Management
AREC 345 Climate Change and Renewable Energy Economics
AREC 350* The Food and Agricultural Marketing System

Supply Chain Management

[Before]Complete:
BUAD 331 CBM I: Supply Chain Management
SCM 440 Social and Environmental Sustainability in Supply Chain Management

Sustainability and Society

[Before]Select one course:
ANTH 415* Environmental Anthropology
EEB 306 Ecology and Society
SNR 320* Human Dimensions of Natural Resources
GEOG 466 Political Ecology
GEOG 344 Population Geography
GEOG 345 People and Environment
PHIL 346* Environmental Ethics
PSYC 444 Sustainability Psychology
REST 343* Religion, Nature, and Ethics
SOCI 342 Globalization and Justice
SOCI 360* Environment and Resources
SOCI 361* Environmental Justice
SOCI 463 Community, Sustainability and Justice
SOCI 465* Social Values and the Environment

Sustainability and the Environment

[Before]Select one course:
EEB 330* Field Botany

EEB 419* Global Change Ecology
EEB 422 Landscape Ecology
EEB 425* Communicating the Science of Climate Change Biology
EEB 484 Conservation Biology
FORS 335 Principles of Urban Forestry
GEOG 331* Natural Hazards
GEOG 333 Climate Change and Human Response
GEOG 430 Global Environments of the Quaternary
GEOG 433 Landform Analysis and Landscape Planning
GEOG 435 Biogeography
GEOG 436 Water Resources
GEOG 439 Plants, People, and Climate in North America
EEPS 443 Urban Ecology
EEPS 454 Environmental Restoration
EEPS 455 Environmental Geology
EEPS 456 Global Climate Change
EEPS 464 Water Sustainability and Climate
EEPS 466 Water and Air Pollution
PLSC 415* Agroecology

Sustainability Policy and Development

[Before]Select one course:
AREC 314* Environmental Law
AREC 345 Climate Change and Renewable Energy Economics
AREC 470 Policy Analysis for Environmental and Natural Resource Management
ECON 322 The Global Economy: Trade and Development
ECON 362 Environmental and Natural Resource Policy
SNR 420* International Natural Resource Issues
GEOG 346 Energy, Governance, and Sustainability
GEOG 362* Sustainable Development in Appalachia
GEOG 440* Global Perspectives on Urban Sustainability
GEOG 441* Cities as Economic Engines
GEOG 442* Urban Spaces and Urban Society
GEOG 446 City and Community Sustainability Planning
GEOG 449* Geography of Transportation
GEOG 451* The Global Economy
POLS 350 Sources of Political Change in the Global South: Coups, Climate, and Conflict
SOCI 442 Comparative Poverty and Development

Sustainability and Geospatial Science and Technologies

[Before]Select one course:
ESS 326 GIS/GPS Applications in Agriculture and Environmental Science
GEOG 311 Geovisualization and Geographic Information Science
GEOG 409 GIS for Environmental and Socio-Economic Applications
GEOG 411 Intermediate Geographic Information Science
GEOG 413 Remote Sensing of the Environment
GEOG 420* GIS in the Community
GEOG 425 Human Dimension in GIScience

Applied Sustainability

[Before]Complete:
GEOG 495 Special Topics in Geography
[Before]AND
GEOG 499 Practicing Geography and Sustainability
[After]
*** Meets Volunteer Core Requirement.**

Rationale*
We added a few courses to match the new online degree program by expanding our offerings on the list. The things that were new were adding GEOG344 to the potential list of "Sustainability and Society", adding GEOG331 to the potential list of "Sustainability and the Environment", and adding GEOG441 and GEOG442 to the potential list of "Sustainability Policy and Development". **This does not have any impact on the uTrack page.**

Notes

College of Arts and Sciences - Geography and Sustainability - Sustainability Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Geography and Sustainability

Program Name* Sustainability Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The minor consists of **15 hours**.

Complete

GEOG 206* Sustainability Principles and Practices

Sustainability and Society

Select one course:

EEB 306 Ecology and Society
SNR 320* Human Dimensions of Natural Resources
GEOG 466 Political Ecology
GEOG 344 Population Geography
GEOG 345 People and Environment
PHIL 346* Environmental Ethics
PSYC 444 Sustainability Psychology
REST 343* Religion, Nature, and Ethics
SOCI 360* Environment and Resources
SOCI 361* Environmental Justice

Policy and Development

Select one course:

ALEC 485* Global Sustainable Development Goals
AREC 270* Economic Perspectives on Natural Resource and Environmental Issues
AREC 314* Environmental Law
AREC 345 Climate Change and Renewable Energy Economics
AREC 470 Policy Analysis for Environmental and Natural Resource Management
ECON 362 Environmental and Natural Resource Policy
SNR 420* International Natural Resource Issues
GEOG 346 Energy, Governance, and Sustainability
GEOG 440* Global Perspectives on Urban Sustainability
GEOG 441* Cities as Economic Engines
GEOG 442* Urban Spaces and Urban Society
GEOG 446 City and Community Sustainability Planning
GEOG 449* Geography of Transportation
GEOG 451* The Global Economy
HTM 484* Critical Sustainable Tourism

Sustainability and the Environment

Select two courses:

EEB 422 Landscape Ecology
FORS 335 Principles of Urban Forestry
SNR 250* Conservation
GEOG 204* Understanding Climate Change
GEOG 331* Natural Hazards
GEOG 333 Climate Change and Human Response
GEOG 430 Global Environments of the Quaternary
GEOG 433 Landform Analysis and Landscape Planning
GEOG 434 Climatology
GEOG 435 Biogeography
GEOG 436 Water Resources
GEOG 443 Urban Ecology
[Right] (same as EEPS 443)
EEPS 454 Environmental Restoration
EEPS 456 Global Climate Change
EEPS 455 Environmental Geology
EEPS 464 Water Sustainability and Climate

EEPS 466 Water and Air Pollution
LAR 432 Plants in the Landscape I
PLSC 415* Agroecology
[After] * Meets Volunteer Core Requirements.

Rationale*
Added courses to expand the minor selection: adding GEOG 344 to the potential list of "Sustainability and Society", adding GEOG 331 to the potential list of "Sustainability and the Environment", and adding GEOG 441 and GEOG 442 to the potential list of "Sustainability Policy and Development".

College of Arts and Sciences - HIAS - 490

2026-2027 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* History

Subject/Prefix (choose from list)* HIAS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 490

Course Title (max 100 characters)* The History and Cultural Legacy of the Samurai

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description A history of the samurai from their rise in the ninth century CE to their formal abolition in 1872, this course contrasts the historical narrative with modern depictions of purported samurai ideals to discuss issues pertaining to the politicization of the past.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Equivalency

Rationale* Faculty member responsible for the course decided to add a separate course on the History of Eastern Europe to the catalog, rather than teach that content in combination with Russian History.

Impact on Other Units* The impact report appears to be inaccurate; the course is not on any Vol Core lists, and also has no recommended background in the catalog. I have, however, emailed the director of Russian Studies to let him know of the change; please see the attached correspondence.

Recommended Background:	RUSS 373* - Despotism, Corruption, and Crime in Russian Culture
	RUSS 453* - Cultural Forms of Protest in Russia
Programs	Arts and Humanities (AH)
	Engaged Inquiries (EI)
	Global Citizenship - International (GCI)
	Russian Literature in Translation Minor
	World Languages and Cultures Major, BA - Language and World Business/Russian Studies Concentration
	World Languages and Cultures Major, BA - Russian Studies Concentration
	World Languages and Cultures Major, BA - Russian Studies Concentration (uTrack Requirements)

College of Arts and Sciences - HIST - 200*

2026-2027 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* History

Subject/Prefix (choose from list)* HIST

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 200*

Course Title (max 100 characters)* Science, Medicine, and Technology in World Perspective

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description This course examines the emergence of science, biomedicine, and engineering since 1500. It considers how science, medicine, and technology have shaped world events, from colonial conquests and plagues to political revolutions and world wars.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement: (GCI)

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* We are narrowing the temporal span of the course to the modern era so that it will be more relevant and intellectually manageable for students from STEM-related fields. No changes are being made to the course that would affect compliance with GCI learning outcomes.

2026-2027 UG Revise Course (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Course (Dynamic Changes) form is to be used for changing the course number, subject code, and/or the department where the course is offered.

All other routine revisions to course requirements can be included in this form. Do not submit a duplicate Revise Course proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department (Acalog Hierarchy)* History

Subject/Prefix (choose from list)* HIST

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 218*

Course Title (max 100 characters)* Honors: History at Play

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This course explores critical moments in world history through the lenses of Reacting to the Past (RTTP), an active-learning pedagogy of role-playing games designed for higher education. In this live-action class, you and your classmates will assume the identities of major, minor, and little-known figures from the past to debate key ideas and texts that have shaped our world.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* History

Program Name* History Major, BA

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description Majors in history should prepare their programs in consultation with a departmental advisor.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

College Requirements

Arts and Sciences

Major Requirements

The History major consists of **33** credit hours, including:

Complete 9 hours:

A. Select 6 hours:

HIUS 221* History of the United States
HIUS 222* History of the United States
[After] or
HIUS 227* Honors: History of the United States
HIUS 228* Honors: History of the United States

B. Complete:

HIST 299 Thinking Historically

Select 24 upper-division hours including at least 6 hours at 400 level:

Complete:

HIST 499* Senior Research Seminar

Select one course in European History:

Any HIEU course at the 300 or 400 level

Select one course in United States History:

Any HIUS course at the 300 or 400 level, or HIST 302R

Select two courses (from two different areas):

Africa: Any HIAF course at the 300 or 400 level

Asia: Any HIAS course at the 300 or 400 level

Latin America: Any HILA course at the 300 or 400 level

Middle East: Any HIME course at the 300 or 400 level

Select one course from Pre-1750 History:

HIAF 371 African History to 1880
HIAS 389* Pre-Modern Chinese History
HIAS 392 History of Pre-Modern Japan
HIAS 394* Chinese Intellectual History: Early Times
HIAS 401 Life in Early Modern Japan (1600-1868): Society, Culture, and the Outside World
HIAS 350 History and Poetry in China
HIAS 351 Chinese History through Objects
HIAS 480 Traditional Chinese Medicine
HIAS 490 The Samurai: Fact, Fiction, Fantasy
HIEU 302* History of Greece I
HIEU 303* History of the Roman Republic
HIEU 304* History of the Early Roman Empire
HIEU 305* History of the Later Roman Empire
HIEU 306* History of Greece II
HIEU 309 Ancient and Medieval Cities
HIEU 310 The Byzantine Empire, 284-1453
HIEU 311* Early Middle Ages
HIEU 312 High Middle Ages
HIEU 313* Later Middle Ages
HIEU 314 Renaissance Europe
HIEU 315 Reformation Europe
HIEU 321* New Testament and Christian Origins
HIEU 322* Martyrs and Monks: Christian History, 100-800 CE
HIEU 323 Deviance and Persecution in the Christian West
HIEU 334 Early Modern Germany
HIEU 354 Early Medieval Warfare
HIEU 355 Women in Medieval Europe
HIEU 383 Studies in Premodern European History
HIEU 420* Invisible Romans
HIEU 425* The City of Rome: Antiquity
HIEU 426 Dark Age Empire
HIEU 429 Medieval Intellectual History
HIEU 430 Gender and Medicine in the Middle Ages
HIEU 435 Science, Religion and Magic in Early Modern Europe

HIST 414 Traveling the Globe in the Premodern World
HIUS 350* Colonial America to 1763
[After] (HIST 373, HIST 485 when topic is appropriate)

Select 6 hours:

any 300-400 level history courses

Honors Concentration – History

The honors concentration consists of **33 hours**, 12 of which must be honors or honors-by-contract courses. The honors concentration provides history majors the opportunity to work with a faculty mentor on an individualized research project. All declared history majors with an overall GPA of at least 3.25 are invited to participate in the honors concentration. A grade of B or above must be maintained in all honors courses, along with an overall GPA of 3.25. Students interested in honors work at any level should consult the department's honors coordinator.

Complete 9 hours:

A. Select 6 hours:

HIUS 221* History of the United States
[Right] with a grade of C or better
HIUS 222* History of the United States
[After] or
[Right] with a grade of C or better
HIUS 227* Honors: History of the United States
[Right] with a grade of C or better
HIUS 228* Honors: History of the United States
[Right] with a grade of C or better

B. Complete:

HIST 299 Thinking Historically

Select 24 upper-division hours:

Complete:

HIST 407R Honors: Senior Paper
HIST 408R Honors: Senior Paper

Select one course in European History:

Any HIEU course at the 300 or 400 level

Select one course in United States History:

Any HIUS course at the 300 or 400 level, or HIST 302R

Select two courses (from two different areas):

Africa: Any HIAF course at the 300 or 400 level

Asia: Any HIAS course at the 300 or 400 level

Middle East: Any HIME course at the 300 or 400 level

Latin America: Any HILA course at the 300 or 400 level

Select one course from Pre-1750 History:

HIAF 371 African History to 1880
HIAS 389* Pre-Modern Chinese History
HIAS 392 History of Pre-Modern Japan
HIAS 394* Chinese Intellectual History: Early Times
HIAS 401 Life in Early Modern Japan (1600-1868): Society, Culture, and the Outside World
HIAS 480 Traditional Chinese Medicine
HIAS 350 History and Poetry in China
HIAS 351 Chinese History through Objects
HIAS 490 The Samurai: Fact, Fiction, Fantasy
HIEU 302* History of Greece I
HIEU 303* History of the Roman Republic
HIEU 304* History of the Early Roman Empire
HIEU 305* History of the Later Roman Empire
HIEU 306* History of Greece II
HIEU 309 Ancient and Medieval Cities
HIEU 310 The Byzantine Empire, 284-1453
HIEU 311* Early Middle Ages
HIEU 312 High Middle Ages
HIEU 313* Later Middle Ages
HIEU 314 Renaissance Europe
HIEU 315 Reformation Europe
HIEU 321* New Testament and Christian Origins
HIEU 322* Martyrs and Monks: Christian History, 100-800 CE
HIEU 323 Deviance and Persecution in the Christian West
HIEU 334 Early Modern Germany
HIEU 354 Early Medieval Warfare
HIEU 355 Women in Medieval Europe
HIEU 383 Studies in Premodern European History
HIEU 420* Invisible Romans
HIEU 425* The City of Rome: Antiquity
HIEU 426 Dark Age Empire
HIEU 429 Medieval Intellectual History
HIEU 430 Gender and Medicine in the Middle Ages
HIEU 435 Science, Religion and Magic in Early Modern Europe
HIEU 482 Studies in Ancient History
HIEU 483 Studies in Medieval and Early Modern European History
HILA 360 History of Early Latin America
HILA 450 Slavery in the Early Americas
HILA 463 History of the Spanish Inquisition
HILA 464 The Spanish Conquest
HILA 465 Gender and Sexuality in Early Latin America
HIME 350 The Crusades and Medieval Muslim-Christian Relations
HIME 360 The Ottomans and the World, 1300-1800
HIME 366* History of the Middle East and the Islamic World, 600 – 1050
HIME 369* History of the Middle East and the Islamic World, ca. 1050 – 1500
HIME 382 Archaeology of Ancient Israel
HIME 383 Ancient Jewish History
HIME 400 Archaeology and History of Mesopotamia
HIST 309* Women in the Atlantic World, 1450-1850
HIST 414 Traveling the Globe in the Premodern World
HIUS 350* Colonial America to 1763
[After] (HIST 373, HIST 485 when topic is appropriate)

Select 2 additional hours:

Select 3 additional hours:

any history honors course or history honors-by-contract course

* Meets Volunteer Core Requirements.

Rationale* We added **HIST 302R** to the courses that can be used to fulfill the US History requirement (this specific course is not required; it is just one of many options that can count). We also added two new classes (HIME 360 and HIEU 355) to the pre-1750 distribution list, and added HIST 407R and HIST 408R to the honors concentration in place of base courses HIST 407 and HIST 408.

Removed **HIEU 316** from Pre-1750 History section in both regular and honors concentrations - Dropped course.

Financial Impact* None

Impact on Other Units* None

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

* Meets Volunteer Core Requirements.

Rationale* We got R-designations for HIST 407 and 408 and needed to add the R-versions of the class to the curriculum.

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s) Enrolled in course with a "WC" attribute

Recommended Background

Comments

Students complete the following requirements:

1. Complete the “Orientation to Course Requirements” by the date listed.

2. Have a minimum of 3 writing consultations, spread out at intervals across the semester.

   - The consultations may be about getting started/brainstorming, creating an outline or research plan, finding and citing relevant source material, reviewing a rough draft, reviewing a final draft, polishing and editing for grammatical correctness and clarity—or about any other part of the writing process.
   - Because the purpose of the course is to help you with your writing as you do it throughout the semester, you must meet the consultation deadlines throughout the semester (rather than completing them all at the end of the term).

3. Complete 1 additional activity of your choosing:

   - Complete 1 additional writing consultation, or
   - Attend 1 writing-focused workshop, or
   - Attend 1 peer writing session

4. Attend online for 1 hour every week at a time you choose.

   - During this hour, work on any reading or writing assigned in your “WC” course, complete a consultation, make use of writing resources available on the course’s Canvas site, attend a writing workshop, or attend a peer writing session. At the end of your hour each week, document what you did by writing a short summary.

5. Complete 2 informal, short reflections about yourself as a writer—one at the beginning of the semester and one at the end.

Registration Restriction(s)	Registration Permission

Equivalency

Rationale*

The primary purpose of this 1-credit elective is to help students succeed with your Vol Core Written Communication (WC) course writing assignments.

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* This course is taught by the College of Ed and is part of the Vols Teach program. Yolanda Franklin teaches this course and requested to have the prerequisite/corequisite updated from TPTE 120 to TPTE 115 or TPTE 120, as TPTE 120 has not been in the catalog since 2020-21. Not having TPTE 115 listed was preventing students from registering for the course without a department override.

Impact on Other Units*

- Email from College of Education, and Professor who teaches this course for Vols Teach is attached.
- Email approval from Mathematics department attached.
- Email approval from EEB department attached.

College of Arts and Sciences - Interdisciplinary Programs - Animal Behavior Certificate

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Animal Behavior Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description The Certificate in Animal Behavior consists of 9 hours selected from the courses listed below.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [x] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Admissions Standards/Procedures

Students seeking admission to the Undergraduate Certificate must meet the admissions standards established by the Undergraduate Council.

Credit Hours Required:

The Animal Behavior Certificate is 9 credit hours.

Required Courses:

Complete 9 credits of coursework from the following list:

ANBV 201 Curious Lives of Animals
ANSC 490 Special Topics in Animal Sciences
EEB 450 Animal Behavior
EEB 459 Animal Behavior Laboratory
EEB 482 Animal Care Internship
EEB 489 Avian Field Methods Internship
PSYC 310 Learning and Thinking
PSYC 370 Evolutionary Psychology and Ethology
PSYC 301 Foundations of Behavioral Neuroscience
PSYC 454 Animal Communication

Optional Courses:

A maximum of 3 credit hours from the following list may be applied to the required 9 credits of coursework:

ANTH 494* Primate Behavior
EEB 400 Undergraduate Research
EEB 407 Senior Honors Thesis
EEB 493 Independent Study
PSYC 467 Psychology Honors Thesis
PSYC 489 Supervised Research
PSYC 493 Independent Study

Non-Course Requirements:

At least 3 of the credit hours used to satisfy the requirements of this certificate must be unique with respect to their minor, major, or another certificate program.

*** Satisfies Volunteer Core Requirements**

Rationale*

We propose moving the animal behavior certificate from the Ecology and Evolutionary Biology department to the Interdisciplinary Programs. The Animal Behavior major and minor are already administered within the Interdisciplinary Programs. This will make advising more efficient and effective for undergraduates and will save staff time. We have also added a new course (ANBV 201) to the list of possible coursework.

This proposal will need THEC approval.

Revised structure format to match other, new UG certificates formating.

Financial Impact*

No financial impact.

Impact on Other Units*

This change impacts the Ecology and Evolutionary Biology Department. The proposed change was reviewed and approved by the EEB faculty.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change

( ) New major name and new CIP code (requires THEC approval)
( ) New major name and keeping the same CIP code

CIP Code* 26.0708

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Animal Behavior Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The minor in Animal Behavior consists of **18 hours** of courses. The minor is designed to give students flexibility to explore different areas of animal behavior, including animal research, care, and welfare.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Minor Requirements

The minor consists of approximately **six courses** (a minimum of 18 credit hours). Up to **9 credit hours** may also be used toward meeting curricular requirements for the student's major or another minor requirement concurrently. Students can obtain a minor in Animal Behavior and also a major in related disciplines, including Psychology, Ecology & Evolutionary Biology, and Animal Science. Students cannot obtain an Interdisciplinary Major and Minor in Animal Behavior.

Complete Core Animal Behavior Courses:

Complete:

EEB 450 Animal Behavior
[After] or
PSYC 450 Animal Behavior
[Before]
EEB 459 Animal Behavior Laboratory
[After] or
PSYC 459 Animal Behavior Laboratory

Complete remaining 12 credit hours from the following list:

ANBV 201 Curious Lives of Animals
ANSC 340 Animal Breeding and Genetics
ANSC 480* Animal Behavior and Welfare
ANTH 483 Evolutionary Biology for Anthropologists
ANTH 490 Primate Evolution
ANTH 494* Primate Behavior
BCMB 423 Neural Basis of Behavior
EEB 423 Conservation Decision Making
EEB 432 Conservation Genomics
EEB 454 Animal Communication
EEB 464 Macroevolution
EEPS 320 Paleobiology
EEPS 420 Trace Fossils: Behavior, Environment, and Applications
EEPS 422 Evolution of Life
EEPS 423 Paleoecology
PSYC 301 Foundations of Behavioral Neuroscience
PSYC 310 Learning and Thinking
PSYC 314 Cognitive Basis of Behavior
PSYC 320 Motivation and Emotion
PSYC 370 Evolutionary Psychology and Ethology
PSYC 410 Sensory Processes and Perception
PSYC 461 Behavioral Neuroscience
WFS 401* Ecology and Management of Wildlife Health
WFS 425 Tropical Ecology, Conservation, and Field Methods
WFS 431 Wildlife Physiology and Nutrition

And/or a maximum of 3 credit hours from:

ANSC 493 Independent Study in Animal Science
ANSC 499 Undergraduate Research
EEB 400 Undergraduate Research
EEB 407 Senior Honors Thesis
EEB 493 Independent Study
EEPS 493 Independent Study
EEPS 497 Honors: Senior Thesis
PSYC 396N* Internship in Psychology
PSYC 489 Supervised Research
WFS 493 Independent Study in Wildlife and Fisheries Science
[After]
*** Meets Volunteer Core Requirement.**

Rationale*

The Animal Behavior minor originally included **INPG 202: Wild Minds: The Secrets of Animal Behavior** as a required core course. This course was designed as an introduction to the field of animal behavior and as an entry point for students considering the major or minor.
After consultation with academic advisors and further discussion about how the minor fits with students' degree pathways, we recommend removing INPG 202 as a required course for the minor. This change will:

- **Increase flexibility** for students who wish to add the minor to their existing course of study, particularly those in programs with limited elective space.
- **Maintain accessibility** to the minor by reducing barriers to completion while still ensuring students are exposed to advanced coursework in animal behavior.
- **Preserve curricular rigor** through the remaining required courses and electives, which provide sufficient coverage of animal behavior concepts, methods, and applications.

This adjustment does not alter the overall credit hour requirements for the minor, nor does it affect the availability of INPG 202, which will continue to be offered as an elective course. Students who wish to take INPG 202 as part of their minor may still do so.
In summary, dropping INPG 202 from the minor's core requirements enhances student flexibility and accessibility without reducing the academic integrity of the program.

INPG 202 can now be replaced with ANBV 201, as a new prefix and courses were created to apply to the Animal Behavior programs.

Financial Impact*

Financial Impact	None

Impact on Other Units*	None

http://artsci.utk.edu/

The College of Arts and Sciences is home to a wide array of academic disciplines and interdisciplinary programs. The departments, schools, and special programs housed within the college stretch across several broad divisions: the arts and humanities, the natural sciences, and the social sciences. Although the faculty of the college have disciplinary interests that range across many diverse academic fields, the college faculty are united by a commitment to the goals and values of liberal education: unfettered intellectual inquiry, a dedication to the quest for knowledge as a worthwhile goal in and of itself, the development of a responsible and creative mind, and the cultivation of intellectual tolerance.

The liberally educated individual is characterized not so much by specific subject matter knowledge as by the habits of mind that are cultivated during a liberal education. A liberally educated person is thus one who is able to reason and communicate effectively, who values lifelong learning, and who can confront the uncertainties of human experience. A liberal education provides a strong foundation for research, scholarship, and teaching in a student's chosen academic discipline. It also provides an invaluable educational background for a student who enters business, industry, the professions, or government or public service. A liberal education offers all individuals the opportunity to share in a rich intellectual heritage, to enjoy the adventures of the mind, and to live an engaged and fulfilling life.

The faculty of the college are committed to cultivating the habits of mind of liberal education in all of the students they teach: both those students who are pursuing concentrated study in a field within the college and those students who enroll in the academic courses offered by the college to complete University-wide general education requirements. General education serves as the underpinning of liberal education, both by providing students with opportunities to master basic learning skills and by acquainting students with the "ways of knowing" that characterize diverse academic disciplines. General education thus prepares students to become engaged lifelong learners.

Students who pursue focused studies in the College of Arts and Sciences will join a community of teacher-scholars dedicated to the generation, transmission, and preservation of knowledge in the many fields that constitute the college. The faculty of the college maintain robust agendas of research, scholarship, and creative activity in their chosen fields, and they encourage undergraduate students to join them as partners in research and creative activity. Through faculty-directed independent study and participation in faculty members' research projects and creative activity, students hone their abilities to think critically and communicate effectively and learn how the frontiers of human knowledge are extended.

The great universities of the world are so labeled because their faculties have earned the reputation of being renowned scholars. The University of Tennessee, Knoxville, has earned such a

General Instructions for Requirements

Requirements*

Arts and Sciences Advising Services

Mission

The mission of Arts and Sciences Advising Services is to guide our diverse undergraduate population in developing and implementing sound educational plans that are consistent with their values and their academic and career goals. Our purpose is to encourage students to become self-directed learners and decision-makers. Further, we serve as a resource to faculty and support their work with undergraduate students within the college. Finally, our efforts support the University of Tennessee's broader mission, specifically by encouraging student persistence towards graduation.

Academic Advising

Prior to enrolling for the first time at the university, all degree-seeking first-year students and transfer students are required to meet with an academic advisor. Readmitted students must also meet with an academic advisor prior to reenrolling. The following groups of students are required to meet with an advisor during each tracking semester (fall and spring):

- **All students with fewer than 30 hours at UT Knoxville.**
- **Students following exploratory tracks.**
- **Students identified as "off track" by uTrack.**
- **Students on Academic Probation.**

All other students are required to consult with an advisor for a substantial conference during a designated semester each year.

Programs of Study

The college offers students a wide variety of undergraduate degree programs. These programs have been designed both to help students achieve specific educational and vocational objectives and to provide students with a broad-based liberal education that will prepare them to be engaged global citizens. The college also offers a small number of three-year pre-professional curricula that prepare students for advanced study in a specific profession. Detailed information about these pre-professional curricula can be found by consulting the Pre-Professional Programs major description and by contacting Arts and Sciences Advising Services.

Bachelor of Arts (B.A.) and Bachelor of Science (B.S.)

Students earning the Bachelor of Arts and Bachelor of Science degrees have achieved both broad knowledge of the arts and sciences and a comprehensive understanding of one or more focused areas of special interest.

Bachelor of Arts in College Scholars

The College Scholars program is a college-wide honors program that serves a limited number of especially qualified and motivated students. College Scholars have additional freedom to design an individualized undergraduate curriculum that meets particular academic interests and goals. Students must apply for admission to the College Scholars program. More information about the College Scholars program is available at https://scholars.utk.edu/.

VolsTeach Program

Students pursuing a major in selected programs in the College of Arts and Sciences are eligible to participate in the University's VolsTeach program (http://volsteach.utk.edu/). This 4-year program permits students to complete a major in mathematics or science while also receiving secondary education teaching licensure through completion of a VolsTeach minor. For more information about VolsTeach, including advising associated with teacher licensure requirements, contact https://cehhs.utk.edu/cehhsadvising/.

Pre-Professional Programs

The college offers pre-professional undergraduate programs for students who wish to participate in the cooperative 3+1 curricula in the health sciences (dentistry, pharmacy, or veterinary medicine) and in pre-law, and the four-year pre-medicine program. Students taking one of the health sciences or pre-law curricula proceed directly to specialized training in the chosen area after the third year of Arts and Sciences study. These students complete the first year of professional study in lieu of satisfying the requirements for a traditional major in the college.

Bachelor of Science in Chemistry

See Department of Chemistry.

Bachelor of Fine Arts

See School of Art.

Readmission

Information regarding readmission to the College of Arts and Sciences is available at http://admissions.utk.edu/other/readmission/. The official notification of readmission from the Office of Undergraduate Admissions will provide additional details regarding academic advising.

Requirements for Degrees

To earn a Bachelor of Arts or Bachelor of Science degree, these requirements must be completed.

- **All university degree requirements as described in the section Academic Policies and Procedures – General Requirements for a Bachelor's Degree.**
- **A minimum of 120 credit hours.**
- **At least 42 credit hours in courses numbered 300 or above.**
- **Appropriate work to satisfy the Foundations, Perspectives, and Connections requirements. (These three requirements do not apply to students in the College Scholars Program.)**
- **Completion of any required coursework designed to prepare students for their chosen major(s). This work may be described as "preparation for" or "prerequisites to" or "corequisites to" the major(s) chosen by a student.**
- **Completion of at least one major consisting of 30 to 48 credit hours of coursework. Courses used for the major may also be used to satisfy Foundations, Perspectives, and Connections requirements as described below.**

Students may choose to complete one or more minors. A minor in the college consists of 15 or more hours of coursework (no more than eight hours of 100-level).

Students may take up to 20 hours of courses graded Satisfactory/No Credit subject to the regulations described below.

Satisfactory/No Credit Courses

A few courses in the college are offered only on a Satisfactory/No Credit (S/NC) basis. Students may elect to take other courses on this basis, except where the S/NC option is specifically prohibited. Courses taken on the S/NC basis, if successfully completed, will count as hours for graduation although neither S nor NC grades will be calculated in a student's grade point average. Satisfactory is defined as C or better work on the traditional grading scale and No Credit is defined as less than C.

The option of taking courses on an S/NC basis is provided to encourage the curious and able student to explore subject matter in fields where the student's performance may be somewhat less outstanding than work in the student's primary field.

Note: Students planning to seek admission to graduate or professional schools (especially in the health sciences) should discuss with their advisors possible limitations on exercise of the S/NC option before registering for courses on this basis.

The following regulations apply to S/NC coursework:

Except for courses offered only on the S/NC basis, courses taken under the S/NC option may not be applied towards Foundations, Perspectives, or Connections requirements, towards major and minor requirements, or towards major or minor preparatory work, prerequisites, or corequisites unless specifically permitted by petition.
The maximum number of S/NC elective hours which may be counted toward graduation is 20, exclusive of courses that are offered only on the S/NC basis, physical education courses, and/or satisfactory hours earned by examination, military service, etc.
A transfer student with S/NC or equivalent credit earned prior to admission to the University of Tennessee, Knoxville, in a course which satisfies a Foundations, Perspectives, or Connections requirement may count it for that purpose. Transfer students who want to apply S/NC or equivalent credit to a major or minor requirement, or to major or minor preparatory work, prerequisites, or corequisites, must receive permission to do so by petition.

College-wide Requirements for B.A. and B.S. Students

To receive a B.A. or B.S. degree from the College of Arts and Sciences, students must satisfy the Foundations, Perspectives, Engaged Inquiries, and Connections requirements as well as the requirements for a major in the college. The requirements are described in detail below.

The following rules govern students' ability to apply courses to more than one College of Arts and Sciences degree requirement:

Except as otherwise noted, no course may be applied to both the Perspectives requirement and the Connections requirement.
No course may be used to satisfy two different components of the Perspectives requirement.
If a student satisfies the Connections requirement by completing a 9-credit Connections Package, one course that applies to the Connections Package may also be applied to the student's major requirements.
Foundations courses may be applied to Perspectives, Engaged Inquiries, Connections, and the major.

College-wide Requirements: Foundations

All students who earn a degree in the College of Arts and Sciences must complete the Foundations requirement established by the college. Satisfying the Foundations requirement demonstrates that a student can communicate effectively in English, both orally and in writing, and that a student can use the tools of quantitative analysis. The Foundations coursework requirements consist of four parts: (1) first year English composition; (2) one additional course designated as a Volunteer Core Written Communication (WC) course; (3) one course designated as a Volunteer Core Oral Communication (OC) course; and (4) one course designated as a Volunteer Core Applied Oral Communication (AOC) course; and (5) two courses that provide foundational instruction in quantitative reasoning. The specific course requirements are as follows.

First Year English Composition

Completing the University's first year English composition requirement equips students with the skills needed to write persuasive, logical and coherent essays in English; teaches students to read critically and to evaluate and cite sources in research; and helps students understand how to write effectively for different audiences and purposes. Students may satisfy this requirement in one of two ways.

By completing 6 hours in English writing courses according to one of the following 3 sequences:

ENGL 101* and ENGL 102*

ENGL 101* and ENGL 298* (for 1794 Scholars Program, Chancellor's Honors Program, Haslam Scholars Program, or Honors Leadership Program students)

ENGL 131* and ENGL 132*. Placement in ENGL 131* or ENGL 132* will be determined by TOEFL (or equivalent standardized test) scores.

By earning credit for ENGL 101* through a College Board Advanced Placement Test and completing one additional course from the following:

ENGL 102*, ENGL 112*, or ENGL 298*. Eligibility for ENGL 112*, and ENGL 298* will be determined by a combination of AP and ACT or SAT scores.

First-Year English Placement Information

Eligibility for ENGL 112* - Advanced Writing and Research* will be determined by ACT or SAT scores. Placement in ENGL 131* - Composition for Non-Native Speakers of English I* will be determined by TOEFL (or equivalent standardized test) scores. All students enrolled in either ENGL 101* or ENGL 131* may simultaneously enroll in ENGL 103 - Writing Workshop I to receive additional instruction in writing.

A student must complete the first-year composition requirement prior to enrolling in English courses numbered 200 or higher.

Written Communication

To further develop the writing skills that are foundational to advanced work in the College of Arts and Sciences, all students pursuing a degree from the college must, after satisfying the first year English composition requirement, complete one additional course designated as a Volunteer Core Written Communication (WC) course. This additional course may also be applied to either the Perspectives or Connections requirement of the college and may be used to satisfy major requirements.

Oral Communication

The ability to communicate one's ideas orally is as important as the ability to express them in writing, and oral communication skills are foundational to advanced work in the College of Arts and Sciences. All students pursuing a degree from the college must therefore complete one course designated as a Volunteer Core Oral Communication (OC) course.

Applied Oral Communication

Effectively communicating ideas within a particular discipline or profession is a fundamental skill that all students should acquire and demonstrate. Applied Oral Communication (AOC) courses will expand upon OC course skills to promote understanding of and engagement with targeted audiences and stakeholders in a variety of communication contexts, such as: interpersonal, small group, and team communication; nonverbal and cross-cultural communication; communication of discipline-specific or professional information both within and outside the discipline or profession; conversational communication in formal and informal settings; and active listening. All students pursuing a degree from the college must therefore complete one course designated as a Volunteer Core Applied Oral Communication (AOC) course. Students may satisfy the AOC requirement by completing any course from the approved AOC.

Quantitative Reasoning

All students pursuing a degree from the College of Arts and Sciences must demonstrate the ability to use quantitative, statistical, and logical methods to build arguments and support opinions and actions. Students may meet this college requirement either by completing two courses from the Volunteer Core Quantitative Reasoning list of mathematics, statistics, and data science courses, or by completing one course from the list of mathematics, statistics, and data sciences courses and one additional course designated as a Volunteer Core Quantitative Reasoning (QR) course. The QR course can be counted towards the student's major, other requirements, or be an elective.

College-wide Requirements: Perspectives

All students who earn a degree from the College of Arts and Sciences must complete the Perspectives requirement established by the college. The Perspectives requirement is designed to introduce students to the modes of inquiry and discourse that characterize various academic disciplines and to the ways in which hypotheses are constructed and evaluated. In completing the Perspectives requirement, students also gain an informed appreciation for the diverse natures of the world's cultures and societies, whether historical or present-day, and for the artistic and cultural milestones created by these cultures and societies. Perspectives courses thus prepare students to become broadly-educated, engaged, and responsible citizens.

Arts and Humanities

By studying the arts and humanities, and by participating as an informed and appreciative observer of artistic and cultural achievements in fields within the visual, spatial, musical, theatrical, or written arts, we gain new perspectives on the human experience and on humankind's creative impulse. Studying the arts and humanities also develops our critical thinking and analytical skills as we consider historical and present-day answers to the enduring question "What common experiences, if any, make up the human experience?" The Arts and Humanities component of the Perspectives requirement serves to introduce students to the modes of inquiry that are employed in the fields that constitute the arts and humanities, to help students understand how aesthetic and moral judgments are arrived at and defended, and to acquaint students with the artistic and cultural achievements of both the past and the present.

Students may meet this requirement by completing two courses, from two different departments, chosen from the Literature and Philosophical and Religious Thought List (Lit/Phil/Rel Thought List), or complete one course from the (Lit/Phil/Rel Thought List) and a second course from a different department from the approved Volunteer Core Arts and Humanities (AH) or Applied Arts and Humanities (AAH) list.

Natural Sciences

Science and technology play an important role in many aspects of modern life, and as citizens we are increasingly asked to make decisions about public policy questions with scientific or technological aspects. Familiarity with scientific methods of inquiry and with the development and testing of scientific hypotheses provides us with the foundation to make these decisions in an informed and responsible way, and also helps us distinguish science from pseudoscience. The Natural Sciences component of the Perspectives requirement serves to introduce students both to the basic discoveries, foundational knowledge, and logical organization of a scientific discipline and to the experimental methods used in that discipline for scientific inquiry and for the testing of scientific hypotheses.

Students may satisfy this requirement by completing one of the 8-credit laboratory sequences listed below.

ASTR 151*-ASTR 153* and ASTR 152*-ASTR 154* (all four of these courses must be completed to fulfill the 8-credit requirement), ASTR 217*-ASTR 218*; BIOL 101*-BIOL 102*, BIOL 113*-BIOL 114*-BIOL 115*, BIOL 150*-BIOL 160*-BIOL 159* (all three of these courses must be completed to fulfill the 8-credit requirement), CHEM 102*-CHEM 103* and CHEM 112*-CHEM 113*; CHEM 122*-CHEM 123* and CHEM 132*-CHEM 133*, CHEM 128*-CHEM 138*; GEOG 131*-GEOG 132*, GEOG 137*-GEOG 138*; two courses chosen from EEPS 101*, EEPS 102*, EEPS 103*, EEPS 104*, EEPS 107*, EEPS 108*; PHYS 135*-PHYS 136*, PHYS 137*-PHYS 138*, PHYS 221*-PHYS 222*.

Social Sciences

The disciplines that make up the social sciences help us analyze the interactions that take place between individuals, between groups or societies, and between an individual and a group. Studying these interactions helps us understand the political and social dynamics that govern contemporary societies. Equipped with this understanding, we can participate more effectively, and as informed and engaged citizens, in social, political, and economic decision making. The Social Sciences (SS) component of the Perspectives requirement serves to introduce students both to the principal concerns of disciplines in the social sciences and to the methods by which social scientists collect and evaluate knowledge and test hypotheses.

Students may meet this requirement by completing two courses, from two different departments, chosen from the Volunteer Core Social Sciences (SS) list.

Foreign Language

Learning a foreign language helps prepare a student to become an engaged global citizen. Studying the vocabulary, grammatical structure, and literary milestones of a second language can help students understand the close relationship between language and culture, and can provide students with tools that can be used to both understand and bridge cultural differences. Study of a foreign language can also help us understand better the structure and nuances of our own native language. The Foreign Language component of the Perspectives requirement supports the broad goals of liberal education by promoting intellectual tolerance and flexibility, informing students' understanding of cultural diversity, and introducing students to the literary achievements of authors writing in other languages.

Students may meet this college requirement in one of four ways.

Completion of one of the following intermediate-level foreign language sequences: ARAB 221-ARAB 222*; ARAB 231-ARAB 232*; ASL 211*-ASL 212*; ASST 261-ASST 262; CHIN 231-CHIN 232*; FREN 211-FREN 212*, FREN 211-FREN 214*, FREN 211-FREN 216*, FREN 212*-FREN 213, FREN 213-FREN 214*, FREN 213-FREN 216*, FREN 217-FREN 218*; GERM 211-GERM 212*; (Greek) CLAS 261-CLAS 264*; (Latin) CLAS 251-CLAS 252*; HEBR 241-HEBR 242*; ITAL 211-ITAL 212*; JAPA 251-JAPA 252*; KORE 211-KORE 212; PERS 261-PERS 262; PORT 211-PORT 212*; REST 221-REST 222*; RUSS 201-RUSS 202*; SPAN 211-SPAN 212*, or SPAN 217-SPAN 218*.
Completion of a six-hour intensive intermediate-level foreign language course. Any one of the following courses will satisfy the requirement: FREN 223*, GERM 223, SPAN 223*.
Demonstration of intermediate competence on a departmental placement or proficiency examination or by AP or CLEP credit.
Students whose native language is not English may satisfy the requirement with ENGL 131* and ENGL 132* and any two of the following courses: AFST 225*, AFST

Students whose native language is not English may satisfy the requirement with ENGL 101* and ENGL 102* and any two of the following courses: AFST 225*, AFST 226*, AFST 233*; CLAS 253*; ENGL 201*, ENGL 206*, ENGL 207*, ENGL 209*, ENGL 221*, ENGL 225*, ENGL 226*, ENGL 231*, ENGL 232*, ENGL 233*, ENGL 237*, ENGL 238*, ENGL 247*, ENGL 248*, ENGL 251*, ENGL 252*, ENGL 253*, ENGL 254*, ENGL 258*; ITAL 401*, JAPA 313, JAPA 314; JST 312*; LAC 315; MRST 261, MRST 262, MRST 401*, WLC 300*; PORT 315; REST 312*; RUSS 221*, RUSS 222*.

Foreign Language Placement Information

All students who wish to enroll in a foreign language course, who have completed at least two years of this language in high school and who have not yet taken a college course in the language, must take a placement examination before enrolling. Placement in the appropriate course will be determined by the score on the examination. Examinations for most languages will be given online prior to orientation and at any time during the fall, spring, and summer. Students who place into 200-level courses will receive six hours of elementary language credit upon successful completion of a 200-level course in the same language at UTK, provided that they do not subsequently enroll and receive credit for any 100-level course in the same language. If they do, elementary placement credit is forfeited and removed from the student's transcript.

Students who place into 300-level courses will receive six hours of intermediate language credit upon successful completion of a 300-level course in the same language at UTK, provided that they do not subsequently enroll and receive credit for any 200-level course in the same language. If they do, intermediate placement credit is forfeited and removed from the student's transcript. Those students who place into 200- or 300-level courses and do not wish to continue in a language, but wish to receive six hours of 100- or 200-level credit, respectively, for their online exam, may do so by completing a proctored placement exam during the fall, spring, or summer and confirming the results of their online placement exam.

Placement test scores expire after one year. Students have one year from the date on which they take the placement exam to either register for the course for which they are eligible (as determined by their placement test score) or complete the proctored placement exam to confirm the results of the online exam. After the one-year period elapses, students will have to take the placement test again.

For placement information regarding ASL, contact the Deaf Studies program in the College of Education, Health and Human Sciences.

Non-U.S. History

Careful and thoughtful study of the past, and of the diversity of human societies and cultures found around the world, helps us understand the historical origins of contemporary society. By investigating change and continuity in human societies, and by asking how historical contexts shape people, events, and ideas, students can also further develop their analytical and critical thinking skills. The Non-U.S. History component of the Perspectives requirement serves to introduce students to the modes of inquiry that are employed in the study of human history, to help students understand how hypotheses about the historical past are formulated and tested, and to improve students' understanding of how historical events have shaped present-day society.

Students may meet this requirement by completing one of the following pairs of courses:

[Before]Complete one pair of courses:

AFST 235* Intro to African Cultures and Societies, Before 1880s
[Right] and

AFST 236* Intro to African Cultures and Societies, 1880s-Present
[Before]

HIEU 241* Development of Western Civilization
[Right] and

HIEU 242* Development of Western Civilization

[Right] and

LAC 252* Modern Latin American and Caribbean History
[Before]

MRST 201* Medieval Civilization I [Right] and

MRST 202* Medieval Civilization II

Global Citizenship - US Focus

Courses in the U.S. Focus area of the Global Citizenship (GCUS) category develop students' appreciation of the variety and realities of the "American experience," taking into consideration categories of difference, such as social class, disability, ethnicity, gender, human geography, language, race, religion, and sexual orientation. Courses will help students develop an understanding of the transnational, historical, and contemporary forces that affect American society, in order to foster students' awareness of their own identities and responsibilities in a deeply pluralistic nation and globally intertwined world. Students may satisfy the GCUS requirement by completing one course from the approved Volunteer Core Global Citizenship - United States (GCUS) list.

College-Wide Requirements: Engaged Inquiries

Truly well-educated citizens should be ready to lead and solve problems, building on their chosen fields of study and personal interests and strengths. Students will benefit from experiences that broaden, extend, apply, and integrate prior learning and promote effective collaboration and self-awareness. In all Engaged Inquiries courses, students will produce an investigative, creative, or practical work relevant to the course topic. All students pursuing a degree from the college must therefore complete 9 credits in Volunteer Core Engaged Inquiries (EI) courses from at least two different departments. Students may satisfy the EI requirement by completing courses from the approved EI list.

College-wide Requirements: Connections

In completing the **Connections** requirement of the college, students undertake a focused educational experience that complements in-depth study in their chosen major field. Students may satisfy the Connections requirement in one of four ways.

- Completion of nine credit hours of study abroad coursework or six credit hours of study abroad coursework and completing one additional upper level course from the approved Global Citizenship-International (GCI) list. These nine hours of coursework may, if appropriate, be applied to non-Connections degree requirements. The nine hours of coursework do not need to be taken during a single academic term or at a single study abroad site. Students interested in pursuing study abroad are strongly encouraged to contact a study abroad advisor at the Center for Global Engagement.
- Completion of a minor, a second concentration, or a second major. The minor or second major may be in the College of Arts and Sciences or in another college. Courses used to satisfy the requirements of a minor or a second major may also be used to meet Perspectives requirements.
- Completion of nine credit hours drawn from one of the **Connections Packages** listed here. The nine credit hours must be drawn from at least two different departments. Three of the nine credit hours may be applied toward a student's major requirements. Connections Packages are topically-oriented collections of upper-division courses that have been designed by faculty to focus students' attention on questions that have substantial multidisciplinary character.
- Completion of all Air Force or Army ROTC program requirements.

<Insert new link here> - could also put link on Connections in first sentence or in bullet point.

Majors

Requirements for specific majors vary by program and are discussed under each department or program. A major consists of 30 to 48 credit hours in courses numbered 100 or above (no more than eight credit hours at 100-level) as specified by the department or program. Courses taken to satisfy the college Foundations requirement may, when appropriate, be used in the major. A minimum grade of C must be earned in every course counted as part of the major. This grade requirement does not apply to preparatory coursework, prerequisites, or corequisites unless otherwise stated by the department.

All first-time, first-year UT Knoxville students who are admitted to an exploratory program must declare a major no later than the end of their fourth tracking semester. Transfer students with less than 45 hours of transferable work must declare a major no later than the end of their second full semester at UT. Transfer students with 45 hours or more of transferable work must be admitted directly into a major. Returning students may declare a major as soon as they have met required standards; however, they must officially declare a major by the time they have earned 75 credit hours.

Students transferring from other institutions must complete at least nine credit hours at the University of Tennessee, Knoxville, in each major earned in the College of Arts and Sciences. Majors available for students pursuing a B.A. or B.S. degree can be found **<insert link anchor to the bottom of the page where departments are listed>**

Optional Multiple Majors

After a student has satisfied the general Foundations and Perspectives requirements, and the requirements of a major, additional majors may be recorded on the transcript without regard to course overlap among majors or among the additional majors and Foundations, Perspectives, or Connections requirements, provided a minimum of 18 distinct credit hours differentiates the primary major from the additional majors. Students developing multiple majors must declare this intent at the time of application for graduation. Once a student has graduated, the establishment of additional majors becomes subject to university second degree requirements.

Students who satisfy the requirements of a degree in a college other than Arts and Sciences may also major inside the College of Arts and Sciences with the approval of the degree-granting unit. These students need complete only the major requirements, not the Foundations, Perspectives, or Connections requirements for Arts and Sciences degrees. The Arts and Sciences major may also be listed on the student's transcript.

Minors

Single or multiple minors may be recorded on the academic record without regard to course overlap among minors and major or among minors and Foundations and Perspectives requirements, provided at least nine hours differentiate a minor from a student's majors and from any other minors and the minor is not in the same concentration as any of the student's majors. Students who satisfy the requirements of a degree in a college other than Arts and Sciences may also minor inside the College of Arts and Sciences with the approval of the degree-granting unit. The minimum requirement for a minor is 15 credit hours in courses numbered 100 or above (no more than eight hours at the 100-level). Minors are available in most departments or programs in which majors are offered across the University. At least 6 of the 15 credit hours required for a minor must be completed at the University of Tennessee, Knoxville. Students should declare the minor at the earliest possible date, and in any case, prior to applying for graduation.

Elective Courses

Students completing a B.A. or B.S. degree in the college have the opportunity to select elective courses that supplement and support the work being done in the major and in the college-wide Foundations, Perspectives, and Connections requirements. This dimension of the student's experience at the university represents that freedom within which total education may be rounded out and enriched. Elective courses should be chosen with care so that they will truly enhance the student's total program and help in the achievement of well thought-out educational objectives.

Some of the choices which the student might make in selecting the elective courses are additional courses in the major field, a related minor, an area in the arts, or an off-campus semester.

Only the student's imagination and initiative and the willingness to conceive and develop a meaningful academic program limit the choices of supplementary elective courses.

Program for Prospective K-12 Teachers

Students planning careers in K-12 teaching must complete an Arts and Sciences major in a department, in one of the interdisciplinary programs, or, if eligible, in the College Scholars Program. Prospective secondary and middle school teachers must fulfill the requirements of appropriate content majors; prospective elementary teachers may choose any major in the College of Arts and Sciences.

To be licensed for teaching, students must also gain formal admission to the Teacher Education Program in the College of Education, Health, and Human Sciences. The process involves successful completion of a series of requirements including presentation of satisfactory scores on certain tests, completion of professional courses in the College of Education, Health, and Human Sciences, maintenance of a 2.7 or higher GPA, and completion of a fifth year program emphasizing practical application. For details, see the College of Education, Health, and Human Sciences section of this catalog and contact the Advising Center, 332 Bailey Education Complex.

PEACE CORPS PREP PROGRAM

The Peace Corps Prep program at the University of Tennessee is open to all undergraduate UT students regardless of major, provided they meet the admissions requirements for the program. Students in the program prepare for international experiences by completing a set of courses and activities designed to develop their professional and leadership skills. These courses may be used to satisfy requirements or electives in many UT majors and the International Agricultural and Natural Resources minor. The program is designed to prepare students to be strong candidates for the U. S. Peace Corps program following completion of their undergraduate degrees. The program includes training/experience for specific sectors: Education, Health, Environment, Agriculture, Youth in Development, and Community Economic Development. Students should apply for admission to the program as early as possible and no later than one year before they expect to complete their UT undergraduate degree. For more information, please visit the Peace Corps page of the Department of Political Science website or contact the Peace Corps Prep Program Coordinator.

***** Meets Volunteer Core Requirements.

Academic Departments

Africana Studies	Interdisciplinary Programs
Anthropology	Mathematics
School of Art	Medical Laboratory Science Major, BS
Biochemistry and Cellular and Molecular Biology	Microbiology
Division of Biology	Philosophy
Chemistry	Physics and Astronomy
Classics	Political Science
College Scholars Program	Pre-Professional Programs
Earth, Environmental, and Planetary Sciences	Psychology and Neuroscience
Ecology and Evolutionary Biology	Religious Studies
Economics (Arts and Sciences)	Sociology
English	Statistics (Arts and Sciences)
Geography and Sustainability	Theatre
History	World Languages and Cultures

Rationale*

- Remove the 6 credit hour rule in the Majors section to satisfy major requirements and Perspectives requirements
- Removed Connections Packages. Created New Link to New Connections page
- Removed manual Lit/Phil/ Rel Thought courses and created a new page. Need to Link to Lit/Phil/Rel Thought. proposal in description text, like the Vol Core AH and AAH pages.
- Updated Non-US History formatting - no course changes
- Removed **BIOL 158*, BIOL 167*, and BIOL 168*** - department dropped courses
- Link Majors to the bottom Academic Departments
- Need to remove links for Connections at top in description or make links go to new Connections page.

Financial Impact* None

Impact on Other Units* None

College of Arts and Sciences - Interdisciplinary Programs - Computational Social Science Certificate

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Computational Social Science Certificate

Learning Outcomes Students completing the Certificate in Computational Social Sciences will develop abilities to

- Conceptualize real-world societal challenges in computational terms
- Use computational tools to analyze social science variables
- Develop the ability to visualize or map social science variables
- Communicate CSS-based assessments for diverse audiences.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code* ☑ Knoxville Campus
☐ Distance Ed
☐ Nashville Campus
☐ UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Computational Social Science Certificate provides students with essential skills at the intersection of data, technology, and society. Through coursework in computational tools, data visualization, analytical thinking, and applied analysis, students learn to conceptualize societal challenges in computational terms, analyze social and behavioral data for diverse audiences. As a shorter, focused version of the Computational Social Science minor, the certificate equips students with practical, interdisciplinary skills applicable to business, healthcare, public policy, social media, and service sectors.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Credit Hours Required

The Computational Social Sciences Undergraduate Certificate consists of a minimum of 12 hours, 9 of which are completed at the upper division level (300 or above). Courses for the certificate must be completed with a grade of "C" or better. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Admissions Standards/Procedures

Applicants to the Computational Social Science (CSS) undergraduate certificate program must submit a letter of application to the director(s) of the Computational Social Science program. The CSS certificate is intended as additional study for undergraduate students who are concurrently enrolled in another discipline at the University of Tennessee.

Requirements

CSS Core (3 Credit Hours)

Complete:

CSS 201* Computational Social Science

Foundational and Conceptual Requirements (3 Credit Hours)

Complete:

HBS 301 Thinking Analytically

Skills-Based Methods Requirements (6 Credit Hours)

Choose two to three courses for six credit hours chosen from the computational research methods and skill-based courses below.

GEOG 312 First Steps in GIS Programming
GEOG 311 Geovisualization and Geographic Information Science
INSC 395 Special Topics in Information Sciences
[Before]1

Note:

[1]. INSC 395 Special Topics in Information Sciences - Visualizing Networks (Network Science) section. Approval from Computational Social Science Chair

*** Meets Volunteer Core Requirements**

Rationale*

The proposed Certificate in Computational Social Science will equip students with skills to conceptualize, analyze, visualize, and communicate social–behavioral data using computational methods. With 60% of Tennessee employers reporting a lack of adequately trained workers, there is demand in hiring for technical proficiency with social insight [1]. The Tennessee Department of Labor emphasizes the importance of data-driven decision-making, including skills in synthesizing socio-economic data [2]. The CSS certificate will help preparing students for roles across government, healthcare, business, and research.

1. Axios Nashville, Dec 3, 2024: "Tennessee doesn't have enough workers to fill all of its open jobs."
2. https://www.tn.gov/workforce/divisions/wired.html

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Computational Social Sciences Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description As an established element of the social sciences, computational social science comprises interdisciplinary skills for visualization and predictive modeling using social science data. This minor brings together approaches from different disciplines, including social sciences, geography, public policy, and information science. Examples of applications range from mapping and revealing sociodemographic factors across society, analysis of population-scale public health factors, exploration of innovation in science and public opinion, or topic analysis in communication and social media. The tools in the elective courses range from mapping and visualization to established statistics and regression analyses. Future additions may include machine learning and A.I.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Introduction: Complete one course (3 credit hours)

Choose one of these courses to start the minor. **15 credits are needed to complete the minor.** In the sections that follow this portion -- **Analysis**, **Mapping** and **Applying** -- students must take at least one course from each section, and then an additional course from at least one section, so that the total credits is at least 15.

[Before]Select one course:

ANTH 449 Computational Social Science
INSC 260 Programming for Information Applications

Analysis: Complete one or two courses (3-6 credit hours)

CLAS 446* Archaeological Statistics
HBS 301 Thinking Analytically
INSC 384 Database Design
INSC 486 Data Analytics
POLS 302 Research Methods II

Mapping: Complete one or two courses (3-6 credit hours)

GEOG 312 First Steps in GIS Programming
GEOG 409 GIS for Environmental and Socio-Economic Applications
GEOG 411 Intermediate Geographic Information Science
GEOG 414 Spatial Data Management
GEOG 415* Quantitative Methods in Geography

Applying: Complete one or two courses (3-6 credit hours)

HBS 302 Visualizing and Communicating Policy Data
HBS 481 Policy Lab I
HBS 482 Policy Lab II
INSC 489 Information Visualization
POLS 420* Political Attitudes and Behavior

Note:

*** Meets Volunteer Core Requirements**

Rationale*

By request of Political Science Department, and approved by the Steering Committee for this Interdisciplinary Programs - Computational Social Sciences Minor, we would like to add two courses. These include the Research Methods II (POLS 302) to add to the "Analysis" electives, and Political Attitudes and Behavior (POLS 420) to add to the "Applying" electives.

Please note: although POLS 301 is the pre-requisite for POLS 302, only POLS 302 is proposed here to be added to the minor. This is because POLS 302 is the course that explicitly offers computational skills.

Financial Impact*

No financial impact

Impact on Other Units*

These courses are offered by Political Science (see attached email)

Description

College-wide Requirements: Connections

In completing the Connections requirement of the college, students undertake a focused educational experience that complements in-depth study in their chosen major field. Students may satisfy the Connections requirement in one of four ways.

1. Completion of nine credit hours of study abroad coursework or six credit hours of study abroad coursework and completing one additional upper-level course from the approved Global Citizenship-International (GCI) list. These nine hours of coursework may, if appropriate, be applied to non-Connections degree requirements. The nine hours of coursework do not need to be taken during a single academic term or at a single study abroad site. Students interested in pursuing study abroad are strongly encouraged to contact a study abroad advisor at the Center for Global Engagement.
2. Completion of a minor, a second concentration, or a second major. The minor or second major may be in the College of Arts and Sciences or in another college. Courses used to satisfy the requirements of a minor or a second major may also be used to meet Perspectives requirements.
3. Completion of nine credit hours drawn from one of the Connections Packages listed here. The nine credit hours must be drawn from at least two different departments. Three of the nine credit hours may be applied toward a student's major requirements. Connections Packages are topically-oriented collections of upper-division courses that have been designed by faculty to focus student's attention on questions that have substantial multidisciplinary character.
4. Completion of all Air Force or Army ROTC program requirements.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Ancient Mediterranean Studies

The "Ancient Mediterranean Studies" Connections Package emphasizes the history and cultures of the people who lived around the Mediterranean Sea from prehistory through the end of late antiquity. Because of the conquests of Alexander the Great and the later unification of the region under the Roman Empire, the influence of the ancient Mediterranean has been far-reaching: from the philosophy of Plato and Aristotle to the art that inspired the Renaissance, from the literature we call the Classics to the medical tradition of the Hippocratic Oath, from Athenian democracy to the Roman Senate, and from the development of Judaism to the rise of Christianity. It is difficult to exaggerate the influence that the ancient Mediterranean has had on Western history and continues to have in our world today. This Connections Package includes courses from Art History, Classics, History, Philosophy, and Religious Studies, emphasizing the deeply interdisciplinary nature inherent in the study of the Ancient Mediterranean world.

Students who complete this Connections Package will be able to: (1) analyze the rich connectivity among the different micro-regions of the ancient Mediterranean; (2) recognize the influence of ancient Mediterranean cultures in our world today; and (3) communicate orally and in writing across traditional disciplinary boundaries.

Biodiversity and Humans

The loss of biodiversity resulting from growing human populations and impacts on Earth is an issue of great global concern, given the importance of biodiversity for human welfare. The concept of biodiversity encompasses the number of species of plants, animals, fungi, and microorganisms in different areas and in the world as a whole, the genes in these species, and the different ecosystems in which the species are found. As humans, we are a part of Earth's biodiversity, and we are shaped by and depend upon the biodiversity around us while also strongly influencing it. Human actions can promote local increases in biodiversity, but on a global scale, we are responsible for huge and increasing losses in biodiversity, including species extinctions that have greatly altered the natural world and may threaten human survival. The multidisciplinary theme of this connections package is the interrelationships between biodiversity and humans, including how biodiversity is explored, documented, conceptualized, and exploited by humans; how biodiversity can be increased or decreased by human activity and environmental changes; how changes in biodiversity affect human society and the natural world; and patterns of human biodiversity and their causes.

Students who complete the Biodiversity and Humans Connections package will be able to: (1) identify methods used to document and study biodiversity; (2) describe patterns in biodiversity across different wild or managed ecosystems; (3) explain the importance of biodiversity for humans; and (4) give examples of natural and anthropogenic forces that cause changes in biodiversity.

Cultural and Artistic Achievement: Arts in the United States

Artistic creation is one significant way that some members of a society respond to and try to represent the culture in which they live and work. This connections package will focus on the traditions of artistic achievement in the visual and fine arts, music, film, and literature produced by artists living and working in the United States.

Students who select this package will be able to: (1) recognize and analyze the aesthetic similarities and differences among various art forms produced in the United States; (2) describe the historical development of conventions and traditions in different art forms; and (3) recognize the relationships between artworks and the cultures within which those works were created.

Cultures and Societies

The connections package "Cultures and Societies" explores the interaction between different cultures and their impact on society. Pulling from a broad range of courses, students will see how these different perspectives help us understand ourselves and our situations. This connections package is especially for students in the Applied Studies Interdisciplinary Program in the Cultures and Societies Track. These courses support the focus of that program and sections of these courses will be offered online.

Students completing this package will: (1) learn about different cultures and their perspectives; and (2) explore how these different views given added insight into our current society and inform our actions in it.

Emerging Asia

The main goal of this connections package is to provide students with the background and analytical tools to understand the dynamics that have facilitated the rise of some of the fastest growing economies in the world across the past half-century, and to understand the impacts of these countries within the region and around the world. The catalysts for the recent economic development and increasing geopolitical power of countries such as China, India, and Japan are rooted in numerous (and interconnected) economic, geographical, historical, and political factors, some of which were influenced by outside actions (and actors).

Students completing this package will be able to: (1) understand the myriad historical factors that have catalyzed this explosive growth, and just as important, stifled development in other parts of Asia; (2) explore patterns of growth in terms of rising economic, industrial, and geopolitical power across the Asia-Pacific region; (3) recognize the cultural, economic, and political impacts of this growth not only on China, India, Japan, South Korea, and other countries across Asia, but also outside of the region; and (4) assess the local, regional, and global environmental impacts of this explosive growth.

Environment and Society

Environment and Society provides students with a strong social, biophysical, and ecological foundation that can be used to identify and assess major socio-environmental issues facing the Earth, the United States, and Southern Appalachia. Courses in this cluster engage topics and methodologies related to biodiversity, industrialization and urbanization, pollution, climate change, population, technology, energy resources, and environmental justice.

Students completing this package will be able to: (1) recognize the interconnectedness of self, society, and nature; (2) analyze policies, conflicts, and places and degrees of environmental danger; and (3) consider alternatives to current practices.

Geographic Information Science for Our Changing World

Recent developments in Geographic Information Science (GIS) and Technology are transforming our environment and society, changing our natural and societal behaviors/practices in different parts of the world. Understanding the technical and theoretical aspects of GIS is of critical importance to train a new generation of students in developing and applying GIS on various issues associated with environment, natural resources, and social imperatives, which in turn exert their impacts on our dynamic world.

Students completing this package will be able to: (1) understand the problem-solving values of GIS and its role on the information-based society and environment/natural resource management of the twenty-first century; (2) obtain a solid understanding of GIS to analyze environmental and social issues from a spatially integrated science perspective; and (3) gain hands-on experience with a variety of geospatial technologies, ranging from desktop-based to web-based mapping, spatial analysis, and remote sensing-based data processing, to address various environmental and societal issues.

Global Social Justice

This connections package explores the problems and promises of social justice in a global age. Courses illuminate the various visions of globalization and the multiple methods and theories through which to analyze the modern world. In order to better understand and address some of the world's most pressing social problems, students explore the social, economic, political, cultural, ideological, and historical processes that connect disparate parts of the world in highly unequal ways, examining the various factors that contribute to social injustice. Students completing this package will be able to: (1) recognize key processes and elements of globalization as they relate to injustice; (2) critically examine the differential effects of globalization on historically marginalized, oppressed, and vulnerable groups; and (3) consider fair, equitable, and beneficial policies and pathways for peoples engaged in struggles and contests for social justice.

Health and Biophysics

At the intersection of medical/biological sciences with the physical sciences, health physics and biophysics encompass a broad range of studies that help us understand biological systems and their response to light and ionizing radiation. From studying the physical structure of cells, to the mechanisms used to image the human body, as well as the underlying physics and chemistry, this package highlights the interdisciplinary nature of the health and biological sciences.

Students completing this package will be able to integrate fundamental biology, physics, and engineering principles together to solve problems in health and biological sciences. Depending on courses chosen this may include: (1) discussing the advantages and health risks of using different types of radiation in medical diagnosis and therapy; (2) understanding the structure of biological matter and how it can be studied with nuclear magnetic resonance and X-ray crystallography; (3) characterizing how the structure of biomolecules drive their function, and how disruption of the structure leads to health conditions and diseases; (4) applying computational modeling to biological systems to understand experimental results and predict biological responses; and (5) examining reaction kinetics in biochemical systems.

Health Care Perspectives

As our population continues to grow and to age, the factors affecting health care and public health are becoming increasingly important. The breadth of courses compiled for Health Care Perspectives incorporates the complexity and challenges facing future patients and health care providers.

Students completing this package will be able to: (1) explain the impact of human aging on society, (2) describe the various facets of the science of medicine, (3) recognize the multiple levels of science communication in health care, and (4) discuss public health issues from both a local and a global perspective.

How to Live in the Premodern World

The connections package “How to Live in the Premodern World” explores how people in the period before ca. 1600 CE responded to the fundamental human problem of how one ought to live life. Students who complete this package will learn about various modes in which people in antiquity conceived of the question of proper living, including religion, philosophy, and social roles. Students will furthermore become familiar with representative examples of these things from various places and times before the modern era, with possibilities ranging from Chinese philosophy to Roman physical ideals and Middle Eastern religion. Finally, students who complete this package will also come to understand different ways scholars in the present examine attitudes and conceptions in antiquity, drawing not only upon texts but also through archaeological exploration and the study of material culture.

Students completing this package will: (1) learn about the ways in which people in premodern (before ca. 1600 CE) societies conceived of the question of a proper life; (2) become familiar with representative answers to that question that appeared in various times and places; and (3) understand methods used by modern scholars to study attitudes and concepts in the distant past.

Humans Living on a Dynamic Earth

The Earth's environment is constantly changing, but just how much and how fast the Earth has changed and is changing has evoked considerable debate. The public often receives misinformation when all the public wants is answers to questions such as: "Is the Earth actually warming up?" "Why can't we predict hurricanes and earthquakes?" and "How long have humans been altering our environment?" Courses included in the Humans Living on a Dynamic Earth Connections package provide focused opportunities for our undergraduates to learn about our ever-changing Earth and how humans have and will continue to alter the Earth.

Students completing this package will be able to: (1) understand why our Earth's surface is constantly changing; (2) recognize the gradual (such as erosion by water, wind, and ice) and abrupt (earthquakes and volcanic eruptions) processes that altered and created the landscapes we live in today; and (3) assess and understand how humans have impacted our environment.

Inequalities: Race, Ethnicity, Class, and Gender

This connections package reflects an interdisciplinary approach to the study of race, ethnicity, class, and gender, and how these social categories produce stratification, discrimination, and inequality. It focuses upon the ways in which categories of difference interact with one another to shape identities, opportunities, life experiences, and life chances by exploring what categories of difference mean and how they have been defined, constructed, and applied in various contexts.

Students completing this package will: (1) engage in a critical examination of the construction of race, ethnicity, class, and gender in a variety of social, cultural, historical, political, and economic contexts; (2) develop skills in critical thinking, comparative analysis, theory, research methods, and written expression as it relates to identity; and (3) explore strategies and policies necessary for a more informed understanding of difference.

Mobility and Migration

Modern transportation and communication technologies contribute to an increase in mobility and migration worldwide. This connections package explores identity issues related to mobility and migration, and the historical, socio-cultural, and political contexts within which mobility and migration take place. It also addresses policy issues and ethical questions related to mobility and migration, and the creation, maintenance, and policing of (inter)national borders. Students completing this package will be able to: (1) explain factors that contribute to contemporary forms of mobility and migration; (2) analyze historical, political, social, cultural, and ethical aspects of mobility and migration; and (3) place mobility and migration issues in a national and global context.

New Geographies of the Global Economy

International trade has increased rapidly in recent decades, encompassing movements in raw materials, manufactured goods, services, information, and labor. Given the current state of the global economy, the location-based aspects of economic activities become even more important to examine, especially in terms of the impacts of trade on people at various scales, ranging from the local to the global levels. Students completing this package will be able to: (1) recognize patterns of trade and economic development; (2) analyze the impacts of trade on economic development and labor; and (3) recognize and evaluate disparities in development, trade policies, wealth, and economic growth.

Our World: Contemporary Arts and Culture

Characterized by globalization, political crisis, and the entrance of technology into all facets of everyday life, the period from 1945 to the present arguably has seen some of the most drastic and accelerated changes of cultural life in human history. Focusing on how the humanities and social sciences analyze and contribute to these changes, this package offers students a rich and complex experience of the post-WWII era, teaching them skills and perspectives that they will need to enter today's global environment. Courses in the package emphasize critical thinking, comparative analysis, and research methods. Coursework asks students to consider the thorny issues of non-negotiable cross-cultural contact, how we formulate political and ethical values in today's complex world, and the important role of the arts (movies, books, music, media) in constructing our reality.

Students completing this package will be able to: (1) recognize historical, cultural, and sociological movements important to post-1945 political environments; (2) analyze the relationships between art and culture that are important to contemporary life; (3) evaluate the importance of new, contemporary art forms in relation to previous arts theories, movements, and performances; and (4) articulate philosophical, ethical, political, and sociological positions concerning how new global exchanges reconfigure how we think about the world and our place within it.

Rise and Decline of Premodern Complex Societies

The connections package "Rise and Decline of Premodern Complex Societies" consists of courses that explore socio-political organization and change in Europe, the Middle East, Africa, the Far East and the New World predating the European Renaissance. One of the fundamental questions in premodern history and archaeology is how complex societies developed from the simple villages that were the earliest form of permanent settlement in human history. This question has bearing on basic issues of the human condition that are still very much in focus in the world today: human relationships, the ability to organize and incorporate ever larger population groups, the development of socio-political elites, and the wielding of power. Conversely, even though complex societies as a rule had a degree of built-in stability, all have come to an end. A continuing discourse in social archaeology and history is concerned with the question of how complex societies collapsed and reverted to a simpler level of socio-political organization. Students will explore these issues through written and/or archaeological evidence as well as by examining current scholarly approaches.

Students who complete this package will learn to (1) analyze different ways in which premodern societies in various parts of the world were organized; and (2) evaluate how these societies experienced – and dealt with – societal change.

Shifting Borders and Cultures in Europe

With the growing importance of the European Union, both the cultures of Europe and its very borders have become more dynamic and contested. This connections package offers students a multifaceted set of lenses through which to investigate broad themes and issues in European history from the medieval period up until the present day. The varied approaches of courses on political and economic history, literature and film, history of science and conceptions of gender, sexuality, and ethnic identity allows students to piece together a comprehensive overview of the changing physical, cultural, religious, and economic characteristics of Europe from the Middle Ages to today.

Students completing this package will be able to: (1) understand and analyze topics in European history, geography, culture, literature, and religion across regions and centuries; (2) engage with a variety of perspectives on shifting borders and cultures in Europe and develop skills to make synthetic and comparative arguments about them in their socio-cultural and historical context; and (3) cultivate basic research skills, develop analytical writing abilities, and practice writing to advance an argument.

REST 385 Contemporary Jewish Thinkers
REST 386* Voices of the Holocaust
WLC 410 Black European Identities and Narratives in Afro-European Literature, Media, Music and Art

Understanding Climate Change

Climate change is one of the most significant issues of our time, but few citizens have the background to understand the public debates it raises or to move beyond the focus on "Is climate changing?" to consider the effects of climate change on environments, ecosystems, and economies – and humankind's options for the future. Courses included in the Understanding Climate Change connection package provide opportunities for focused inquiry into the nature of the climate system; how climate interacts with and affects weather, ocean processes, hazards, vegetation, wildlife, and human activity; the evidence for climate change in the past and present; and the longer-term context of natural climate change and variability.

Students who complete this connections package will be able to: (1) identify natural and anthropogenic causes of climate change; (2) describe sources of data on past climate; (3) give examples of how past changes in climate have affected Earth's environments and ecosystems; (4) recognize how climate change affects human society; and (5) place current climate trends in their longer-term context.

EEB 404 Ecosystem Ecology

GEOG 432 Environmental History from Tree Rings
GEOG 439 Plants, People, and Climate in North America
GEOG 453 Extreme Weather Climatology

Visual Cultures and Media Studies

In a globalized world, the study of cinema has acquired a new meaning. From the 1960s onward, many countries have witnessed escalating violence, social unrest and war. Many scholars have examined the cinematic representation of these events, however, the process of negotiation inside different countries' popular cinematic genre has just started to be mapped out. This connection package demonstrates that some of the most important documents of self-representation in the 20th century and of its cultural-political disorientation can be found in films. International references are ever-present in many national cinemas together with the recording of fluctuating national identities, as a consequence, the study of cinematic products, instead of displaying a direct reliance on Hollywood cultural formats, presents a multiplicity of discordant messages. Cinema after the 1960s occupies a liminal zone that traverses cultures, genres, and tastes, challenging the notion of a national cinema that speaks only to its own people. The courses in this package all address aspects of visual culture in the media, be it in film, TV, print, digital media, or the arts. The prominence of the visual in today's world and its use and abuse for political and social agendas make it pertinent that we learn how to critically read the visual image. This package also includes courses that offer critical tools for analyzing media in the digital age from cinematic, historical, socio-political, and economic points of view.

Students completing this package will be able to: (1) critically analyze their own culture; (2) demonstrate knowledge of foreign cultures other than their own; (3) demonstrate insight into aspects of world geography, global economics, international politics, various religions, philosophies, histories, languages, literatures, or arts; (4) demonstrate intercultural communication concepts; (5) evaluate the impact of historical forces on the modern world; (6) explain the causes of domestic and global social problems; (7) identify and summarize concepts of interdependence; and (8) recognize global systems, processes, social constructs, trends, and issues.

ARTH 356 Video Game Art

WLC 482* Special Topics in Global Cinema

Rationale*

Updating the Arts and Sciences Connections Package to be on an editable and separate program page. The current lists of courses in the CAS Connections packages are listed on the CAS main catalog page and can only be updated manually. Creating a separate page will allow courses to be easily and automatically updated if there are course adds and/or course drops to each individual section of courses within each grouping.

The link to this new Connections page will be added to the main CAS Catalog page, replacing the Connections Packages listed there and cleaning up the CAS UG College page.

Removed **POLS 330** - Course was dropped by the department.

Removed **REST 202** and **THEA 215** - added by mistake as 200-level courses are not permitted to be part of the designated Course groupings (only 300-400-level courses).

Existing courses approved by CAS Connections Committee in Fall 2025 to be added to the **Emerging Asia** package:

- **CHIN 360* / WGS 360*** - Desiring Asia: Sex, Intimacy, and Global Capital; (previously **CHIN 235*** - Course title change and number change and added cross listings are part of proposal College of Arts and Sciences - CHIN - 360* | Curriculum)
- **CHIN 469 / CNST 461 / WGS 461** - Gender and Sexuality in Chinese Cinema; (Cross listed courses are new cross listings).
- Added cross listings of existing courses that were not listed previously.

Financial Impact*

None

Impact on Other Units*

None. The courses listed are all currently listed on the 2025-2026 CAS Catalog page.

- Removed **HIEU 434** - Course was dropped by the department.
- Removed **POLS 330** - Course was dropped by the department.
- Removed **REST 202** and **THEA 215** - added by mistake as 200-level courses are not permitted to be part of the designated Course groupings (only 300-400-level courses).

Have you consulted with all programs/departments that will be impacted by this change?*

College of Arts and Sciences - Interdisciplinary Programs - Digital Humanities Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Digital Humanities Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Digital Humanities (DH) minor offers students the opportunity to study from an interdisciplinary perspective and enhance their skills in humanities, liberal arts, and social sciences by incorporating digital technology. Students learn how to engage critically with digital media, and many courses introduce students to digital techniques for research, analysis, and publication. Courses enable students to create digital work, and some of them offer students the opportunity to plan and build digital projects independently and in project teams. The range of electives available for the digital humanities minor, combined with frequent special topics courses enables students to find thematic clusters that connect to their interests in literature, history, classics, graphic design, music, information sciences, text analysis, digital archives, and more. Graduates with a digital humanities minor are well prepared for a growing number of careers in industry, nonprofit, and educational sectors that welcome digital skills alongside the communication and critical thinking abilities that have long been valued in humanities students.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Minor Requirements

The minor requires the completion of a minimum of **15 credit hours**. Three of those credit hours may be at the 100-level.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Global Studies Major, BA - Global Politics and Economy Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

The Global Studies major focuses on understanding connections between different parts of the world. The Global Politics and Economy concentration has a social sciences orientation and requires more coursework in the social sciences than the humanities. Globalization, or the trans-national exchange of investments, commodities, people, politics, technologies, and cultures, is both a characteristic of the contemporary world and the culmination of large-scale, long-term social change. Although globalization, at times, seems dominated by new economic and political formations more powerful than the traditional nation-state, it has also mobilized new expressions of local and transnational discontent and resistance.

The University of Tennessee, Knoxville, global studies curriculum helps students understand the implications of global change, allowing the university community to confront what is occurring in our immediate locale by examining what is going on elsewhere. Bringing together faculty and students from diverse perspectives creates an interdisciplinary understanding of the disruption and integration resulting from changing configurations of nations, global processes, and identities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [x] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

College Requirements

Arts and Sciences

Prerequisite

GLBS 250* Introduction to Global Studies

Major Requirements

The major requires **31-32 credit hours** in the form of ten courses. No course may be counted toward more than one of the following categories. No more than 3 credit hours may be taken under the 300-level. Any courses taken to fulfill a core requirement cannot be used to fulfill a regional studies or methods/foreign language requirement. A student may choose to concentrate in global society and culture, global politics and economy, or language, politics, and culture. Three hours of independent study or off-campus study can be used to substitute for a core course. Courses are to be distributed as follows:

A. Select two courses: Global society and culture

AFST 421 Comparative Studies in African and African American Societies
ANTH 315 The African Diaspora
ANTH 370* Gender and Globalization
ANTH 413* Dynamics of Health and Illness
CNST 482* Special Topics in Global Cinema
ENGL 331* Race and Ethnicity in American Literature
ENGL 454 20th-Century International Novel

E. Complete:

GLBS 480 Capstone in Global Studies

Note:

Additional courses not listed above may be petitioned for credit upon successful completion with the Director of Global Studies when the course content is consistent with the objectives of the major.

*** Meets Volunteer Core Requirements.**

Rationale* Requesting to move the Degree and concentrations from the Sociology home department to the Interdisciplinary Programs home department as part of the CAS Consortium on Social and Cultural Inquiry (CoSCI initiative).

Added new courses: **GLBS 150** and **GLBS 350** to section A.

Removed inactive courses: **ARTH 461/AFST 464, ARTH 463/AFST 466, GLBS 492 and replaced with GLBS 492N, HIEU 434, ITAL 411, and SOCI 492**.

Removed **MUCO 413**

The THEC Academic Unit Modification packet is in progress.

Financial Impact* n/a

Impact on Other Units* None, we are just switching to IDP from Sociology

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
○ New major name and new CIP code (requires THEC approval)
○ New major name and keeping the same CIP code

CIP Code* 30.2001

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?

College of Arts and Sciences - Interdisciplinary Programs - Global Studies Major, BA - Global Politics and Economy Concentration (uTrack Requirements)

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Global Studies Major, BA - Global Politics and Economy Concentration (uTrack Requirements)

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [x] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements.**

Rationale* We are switching home departments from Sociology to Interdisciplinary Programs. Global Studies will still continue to be a stand-alone major. The Global Studies courses will stay under the home department of Sociology for scheduling and time-table purposes. The THEC Academic Unit Modification packet is in progress.

- Corrected the removal of the Term 5 milestone - indicating 12 credit hours be completed by the end of the term, as indicated by the DARS team in the Registrar's Office.
- Added Footnote number 3 for Volunteer Core requirements.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Global Studies Major, BA - Global Society and Culture Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

The Global Studies major focuses on understanding connections between different parts of the world. The Society and Culture concentration has a humanist orientation and requires more coursework in the humanities than the social sciences. Globalization, or the trans-national exchange of investments, commodities, people, politics, technologies, and cultures, is both a characteristic of the contemporary world and the culmination of large-scale, long-term social change. Although globalization, at times, seems dominated by new economic and political formations more powerful than the traditional nation-state, it has also mobilized new expressions of local and transnational discontent and resistance.

The University of Tennessee, Knoxville, global studies curriculum helps students understand the implications of global change, allowing the university community to confront what is occurring in our immediate locale by examining what is going on elsewhere. Bringing together faculty and students from diverse perspectives creates an interdisciplinary understanding of the disruption and integration resulting from changing configurations of nations, global processes, and identities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [x] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

College Requirements

Arts and Sciences

Prerequisite

GLBS 250* Introduction to Global Studies

Major Requirements

The major requires **31-32 credit hours** in the form of ten courses. No course may be counted toward more than one of the following categories. No more than 3 credit hours may be taken under the 300-level. Any courses taken to fulfill a core requirement cannot be used to fulfill a regional studies or methods/foreign language requirement. A student may choose to concentrate in global society and culture or global politics and economy, or language, politics, and culture. Three hours of independent study or off-campus study can be used to substitute for a core course. Courses are to be distributed as follows:

A. Select five courses: Global society and culture

AFST 421 Comparative Studies in African and African American Societies
ANTH 315 The African Diaspora
ANTH 370* Gender and Globalization
ANTH 413* Dynamics of Health and Illness

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Global Studies Major, BA - Global Society and Culture Concentration (uTrack Requirements)

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [x] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Global Studies Major, BA - Language, Politics and Culture Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

The Global Studies major focuses on understanding connections between different parts of the world. The Global Politics and Economy concentration has a social sciences orientation and requires more coursework in the social sciences than the humanities. Globalization, or the trans-national exchange of investments, commodities, people, politics, technologies, and cultures, is both a characteristic of the contemporary world and the culmination of large-scale, long-term social change. Although globalization, at times, seems dominated by new economic and political formations more powerful than the traditional nation-state, it has also mobilized new expressions of local and transnational discontent and resistance.

The University of Tennessee, Knoxville, global studies curriculum helps students understand the implications of global change, allowing the university community to confront what is occurring in our immediate locale by examining what is going on elsewhere. Bringing together faculty and students from diverse perspectives creates an interdisciplinary understanding of the disruption and integration resulting from changing configurations of nations, global processes, and identities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

- [ ] Other (include in Rationale)

Requirements*

College Requirements

Arts and Sciences

Prerequisite

SOCI 250* Introduction to Global Studies
[After] or
GLBS 250* Introduction to Global Studies

Major Requirements:

The major requires **34 credit hours** in the form of twelve courses. No course may be counted toward more than one of the following categories. No more than 3 credit hours may be taken under the 300-level. Any courses taken to fulfill a core requirement cannot be used to fulfill a regional studies or methods/foreign language requirement. A student may choose to concentrate in global society and culture, global politics and economy, or language, politics, and culture. Three hours of independent study or off-campus study can be used to substitute for a core course. Courses are to be distributed as follows:

Select seven courses from list A and B with a minimum of 2 courses from each

A. Global Society and Culture

AFST 421 Comparative Studies in African and African American Societies
ANTH 315 The African Diaspora
ANTH 370* Gender and Globalization
ANTH 413* Dynamics of Health and Illness

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Global Studies Major, BA - Language, Politics, and Culture Concentration (uTrack Requirements)

Degree Type* Bachelor of Arts

Program Type* Concentration

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [x] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Global Studies Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description

Global Studies focuses on understanding connections between different parts of the world. The Global Studies minor includes the Introduction and a selection from the Society and Culture and Politics and Economy concentrations.

Globalization, or the trans-national exchange of investments, commodities, people, politics, technologies, and cultures, is both a characteristic of the contemporary world and the culmination of large-scale, long-term social change. Although globalization, at times, seems dominated by new economic and political formations more powerful than the traditional nation-state, it has also mobilized new expressions of local and transnational discontent and resistance. The University of Tennessee, Knoxville, global studies curriculum helps students understand the implications of global change, allowing the university community to confront what is occurring in our immediate locale by examining what is going on elsewhere. Bringing together faculty and students from diverse perspectives creates an interdisciplinary understanding of the disruption and integration resulting from changing configurations of nations, global processes, and identities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

College of Arts and Sciences - Interdisciplinary Programs - Humanities Certificate

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Humanities Certificate

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

A Humanities Certificate is open to all enrolled Knoxville Campus Students of any major. This certificate will prepare students for the complex, diverse, and rapidly changing world that awaits them. Students completing the 12 credit hours of coursework required for the Humanities Certificate will have the opportunity to make a wealth of interdisciplinary connections as they choose courses from Africana Studies, Art History, Classics, English, History, Philosophy, Religious Studies, Theatre, and World Languages and Cultures. A wide range of courses taught by UTK's expert faculty in each of these disciplines (e.g., 200-level introductory courses, specialized upper-division courses, research-intensive seminars, community-engaged courses, off-campus study) can satisfy the requirements of the Humanities Certificate.

12 credit hours of 200-400-level coursework.

At least 9 of these hours must be in upper-division courses. 6 credit hours must be unique, i.e., outside of the student's major.

Courses for the certificate must be completed with a grade of "C" or better. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Stand-Alone

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Interdisciplinary Programs Major, BA - Africana Studies Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Africana Studies major offers an interdisciplinary exploration of Black life, culture, and thought across global contexts. Students begin with foundational courses in African and African American histories and cultures, then engage with contemporary issues through literature, health, environmental justice, and performance. The curriculum emphasizes critical thinking, research, and creative practice, culminating in advanced coursework and community engagement. This major prepares students for careers in education, public service, health, law, and the arts, while fostering a deep understanding of the global Black experience.*Natalie Graham, Interim Department Head, Department of Africana Studies*

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Major Requirements

The Africana Studies concentration consists of **30 hours**. A maximum of 6 hours in AFST 492 and AFST 493 combined can be applied toward the concentration.

Historical Foundations

Complete: (6 Credit Hours)

AFST 201* Introduction to African American Society and Culture, 1619-1860
AFST 235* Intro to African Cultures and Societies, Before 1880s

Exploring the Field

Select Two Courses: (6 Credit Hours)

AFST 202* Introduction to African American Society and Culture, 1860-Present
AFST 220 Environmental Justice, Climate Change, and Health
AFST 225* Introduction to African Literature
AFST 226* Introduction to Caribbean Literature
AFST 230* The Black Experience in Theatre Performance
AFST 233* Major Black Writers
AFST 236* Intro to African Cultures and Societies, 1880s-Present

Africana Studies Core Curriculum: (18 Credit Hours)

Apply, analyze, and evaluate theories, creative practice, and historical evidence.

Complete: (3 Credit Hours)

AFST 359 African American Intellectual Thought

Select Three Courses: (9 Credit Hours)

AFST 311 Race in Horror, Sci-Fi, and Thriller
AFST 313* Social Context of African American Health
AFST 322 Race, Gender, and Medicine
AFST 323 Black Women Writers
AFST 329 Black History in Tennessee 1796-1980
AFST 330* Black Music Culture
AFST 332 Black Women in Popular Culture
AFST 333* Black American Literature and Aesthetics
AFST 343* Race and Ethnicity
AFST 353* Religion, Race, and Ethnicity in North America
AFST 354 Black Men in U.S. Society
AFST 302* Globalization and Black Health
AFST 314 The Evolution of Gospel Music
AFST 375 African American Women's History from Slavery to the Present

Complete: (3 Credit Hours)

AFST 450 Issues and Topics in African American Studies

Select One Course: (3 Credit Hours)

AFST 415 Black American Politics
AFST 425 Black Feminist Theory
AFST 430 Black and Indigenous Literatures
AFST 443* Topics in Black Literature
AFST 456 Race, Ethnicity, Crime, and Justice
AFST 476 African American Psychology
[After] *Satisfies Volunteer Core Requirements

Rationale* The major was changed in order to rebuild the program and clarify the major expectations in conversation with our faculty strengths.

- We changed the sequence and made AFST 201 and AFST 235 mandatory. This requires all majors to have both African and African American History.
- The previous assignment of the remaining 24 hours was unclear and did not provide a pathway for assessment. We reorganized a core curriculum that requires an advanced course, AFST 359, and a culminating course, AFST 450.
- To streamline the major and create an major identity with courses taught by department faculty, we removed the following courses:
- AFST 315 - The African Diaspora **3** *Credit Hours*
- AFST 319 - Caribbean Cultures and Societies **3** *Credit Hours*
- AFST 331* - Race and Ethnicity in American Literature **3** *Credit Hours*
- AFST 335* - African Literature **3** *Credit Hours*
- AFST 336* - Caribbean Literature **3** *Credit Hours*
- AFST 371 - African History to 1880 **3** *Credit Hours*
- AFST 372 - African History Since 1880 **3** *Credit Hours*
- AFST 376 - The African American Experience from the Colonial Period to the Civil War **3** *Credit Hours*
- AFST 380 - The African American Experience from the Civil War to the Present **3** *Credit Hours*
- AFST 381 - History of South Africa **3** *Credit Hours*
- AFST 421 - Comparative Studies in African and African American Societies **3** *Credit Hours*
- AFST 442 - Comparative Poverty and Development **3** *Credit Hours*
- AFST 460 - Africana Research Methods **3** *Credit Hours*
- AFST 464 - Art of Southern and Eastern Africa **3** *Credit Hours*
- AFST 465 - Art and Archaeology of Ancient Africa **3** *Credit Hours*
- AFST 466 - Arts of the African Diaspora **3** *Credit Hours*
- AFST 471* - African-American Art **3** *Credit Hours*
- AFST 472* - Civil Rights Movement **3** *Credit Hours*

Financial Impact* N/A

Impact on Other Units* No, all courses are Africana Studies Courses.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description As an established element of the social sciences, computational social science comprises interdisciplinary skills for visualization and predictive modeling using social science data. This IDP major brings together approaches from different disciplines, including geography, sociology, psychology and neuroscience, public policy, information science, economics, and anthropology. Examples of applications range from mapping and revealing sociodemographic factors across society, analysis of population-scale public health factors, exploration of innovation in science and public opinion, or topic analysis in communication and social media. Using accessible coding langauges, the tools in the elective courses range from mapping and visualization to established statistics and regression analyses to machine learning.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Completion of at least 24 total upper-division (300-400 level) hours

Term 8

[2] Connections **3** *Credit Hours*

[4] Computational Social Science Elective **3** *Credit Hours* (300-400 level major courses)

[1] Elective **3** *Credit Hours*

[3] Engaged Inquiries (EI) Elective **3** *Credit Hours* *

CSS 499 Capstone in Computational Social Science

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages; (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

Engaged Inquiries electives must total 9 credit hours from two or more subjects

Students need to accumulate 15 Credit Hours (at least 5 Courses) of upper-level courses from the list below ("Computational Social Science elective courses").

* Meets Volunteer Core Requirements.

Computational Social Science elective courses

Students need to accumulate 15 Credit Hours (at least 5 Courses) from this list. Please consult course catalog for any prerequisite requirements.

CLAS 446* Archaeological Statistics
COSC 325 Introduction to Machine Learning
COSC 421 Computational Cognitive Neuroscience
COSC 426 Introduction to Data Engineering
COSC 445 Fundamentals of Digital Archeology
COSC 465 Databases and Scripting Languages
GEOG 311 Geovisualization and Geographic Information Science
GEOG 312 First Steps in GIS Programming
GEOG 409 GIS for Environmental and Socio-Economic Applications
GEOG 411 Intermediate Geographic Information Science
GEOG 414 Spatial Data Management
GEOG 415* Quantitative Methods in Geography
HBS 301 Thinking Analytically
HBS 302 Visualizing and Communicating Policy Data
HBS 481 Policy Lab I
HBS 482 Policy Lab II
IE 465 Applied Data Science
INSC 384 Database Design
INSC 484 Database Applications
INSC 489 Information Visualization
MATH 323 Probability and Statistics
MATH 371 Numerical Algorithms
MATH 423 Probability
MATH 426 Statistics for Risk Modeling
MATH 424 Stochastic Processes
MATH 425 Statistics
POLS 301* Research Methods I
POLS 302 Research Methods II
POLS 420* Political Attitudes and Behavior
PSYC 385* Statistics in Psychology

Rationale* By request of Political Science Department, and approved by the Steering Committee for this Interdisciplinary Programs Major, BA: Computational Social Science Concentration, we would like to add three electives. These include the Research Methods sequence (POLS 301 and POLS 302) to add to the Methods electives, and Political Attitudes and Behavior (POLS 420) to add to the Applications and Contexts electives.

Financial Impact* No financial impact

Impact on Other Units* The added courses are offered by Political Science (see attached email)

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Interdisciplinary Programs Major, BA - Cultures and Societies Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The concentration in Cultures and Societies provides online students with a deeper understanding of the beliefs, practices, and behaviors of different groups of people. The courses are designed to strengthen knowledge of the history of diverse cultures and societies and examine how cultural practices and behaviors influence both people and the environment.

The Cultures and Societies concentration encourages students to explore connections between people and to engage with a variety of perspectives and disciplines, including comparative studies, anthropology, economics, and environmental studies. Students can choose from a wide range of scholarly areas, such as literature, philosophy, sociology, psychology, political science, religious studies, and gender and women's studies.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

This concentration consists of 30 credit hours:

Primary Emphasis (9 credit hours)

Complete 2 courses (6 credit hours) from the following

ANTH 309* Advanced Principles of Biological Anthropology
CLAS 201* Introduction to Classical Civilization
CLAS 253* Greek and Roman Literature in English Translation
ENGL 251* Introduction to Poetry
ENGL 252* Introduction to Drama
ENGL 253* Introduction to Fiction
HIEU 241* Development of Western Civilization
HIEU 242* Development of Western Civilization
PSYC 295 Introduction to Psychological Research Methods
REST 225* Judaism, Christianity, Islam
REST 280* Religions of Asia

Complete 1 course (3 credit hours) from the following

EEB 306 Ecology and Society
ENGL 339* Children's/Young Adult Literature
GEOG 345 People and Environment
PHIL 345* Bioethics
POLS 312* Popular Culture and American Politics
PSYC 320 Motivation and Emotion
PSYC 482 Topics in Psychology
PSYC 484 Sleep and Dreaming
REST 202* Religion and Film
REST 309* Religion and the Workplace
REST 361* The American Jewish Experience
SOCI 321 Sociological Theory

Secondary Emphasis - Choose 4 courses from one of the following 5 options (12 credit hours).

All courses must be distinct from the courses used for the Primary Emphasis.

Option A - Political Issues & Society

EEB 305* Evolution and Society
EEB 306 Ecology and Society
PHIL 345* Bioethics
PHYS 405 Science, Technology, and Public Policy
PSYC 360 Social Psychology
SOCI 341* Social Inequalities

Option B – Contemporary & Critical Issues

EEB 305* Evolution and Society
EEB 306 Ecology and Society
EEPS 202* Earth as an Ecosystem: Modern Problems and Solutions
PHIL 252* Contemporary Moral Problems
PHIL 345* Bioethics
PHYS 405 Science, Technology, and Public Policy
SOCI 341* Social Inequalities
SOCI 375* Gender in Society
WGS 383* Feminism and the Environment

Option C – Professional Development

Option C - Professional Development

ENGL 255* Public Writing
ENGL 295* Writing in the Workplace
ENGL 360* Technical and Professional Writing
PHIL 244* Professional Responsibility
POLS 311* Contemporary Issues in American Public Policy
PSYC 320 Motivation and Emotion
PSYC 330 Abnormal Psychology
PSYC 360 Social Psychology
PSYC 482 Topics in Psychology
REST 309* Religion and the Workplace

Option D - Method & Theory

ENGL 360* Technical and Professional Writing
PSYC 300 Child Development
PSYC 360 Social Psychology
SOCI 321 Sociological Theory
SOCI 331* Sociological Research
WGS 200* Introduction to Women, Gender, and Sexuality

Option E - Cultural Studies

ENGL 339* Children's/Young Adult Literature
ENGL 480 Fairy Tale, Legend, and Myth: Folk Narrative
POLS 312* Popular Culture and American Politics
REST 202* Religion and Film
REST 311* Hebrew Bible/Old Testament
REST 319 Gender, Sexuality, and Religion in Asia
REST 320* Gender, Sexuality, and Religion
REST 381* Judaism
SOCI 375* Gender in Society
SOCI 419 Sociology, Science Fiction Film, and Artificial Intelligence
[Right] or

CNST 419 Sociology, Science Fiction Film, and Artificial Intelligence

Electives in Major (9 credit hours)

Choose up to 3 courses from a second Secondary Emphasis Area (must be distinct from the courses used for the Primary and Secondary Emphasis). Can replace up to 2 courses with up to 6 credit hours of INPG 492 - Off-Campus Study.

These are not part of the major but will be part of the 60-hour requirement and used to meet the Connections Requirement.

Choose 3 courses (9 credit hours). All must be distinct from hours used for the major.

EEB 306 Ecology and Society
ENGL 252* Introduction to Drama
ENGL 339* Children's/Young Adult Literature
ENGL 474* Teaching English as a Second or Foreign Language
GEOG 345 People and Environment
POLS 312* Popular Culture and American Politics
PHIL 345* Bioethics
PSYC 320 Motivation and Emotion
REST 202* Religion and Film
REST 309* Religion and the Workplace
REST 361* The American Jewish Experience
SOCI 321 Sociological Theory
[Before]
WGS 383* Feminism and the Environment
[Right] or

GEOG 383 Feminism and the Environment

Additional Coursework: (21 credit hours to get to 120 credit hours overall)

Can include courses taken beyond those for the major used to meet the Foreign language and non-US History requirement
Up to 6 additional hours of INPG 492
42 hours must be at the 300- or 400-level

* Volunteer Core Requirements

Rationale*

- Removed **EEB 423 and EEB 425** - not currently being taught due to no faculty.
- Removed **CLAS 273** - not relevant to program
- Removed MATH 400 Removed due to not being a Distance Learning course: **MUTH 305***
- Removed **POLS 215, POLS 330, POLS 454, POLS 454**,- Course was dropped.
- Removed **POLS 374** - no plan to offer online sections.
- Removed **REST 233*** - Course was not successful online due to low enrollment. Removed **REST 372*** - not yet online. Will add back once the course is consistently offered with online options.
- Removed **PSYC 475 and PSYC 484** - not developed for full online consistency.
- Removed **WGS 201*, WGS 419*, and WGS 469***- Not available online yet and will be a few years, or not taught frequently enough.
- Updated program description to match what's listed on Vols Online

Financial Impact*

None

Impact on Other Units*

None.

All removed courses were approved and confirmed by departments they were not being taught online

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Elective **2** *Credit Hours*

College of Arts and Sciences - Interdisciplinary Programs - Interdisciplinary Programs Major, BA - Health Science Data Analytics Concentration

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Interdisciplinary Programs Major, BA - Health Science Data Analytics Concentration

Learning Outcomes

- Student will possess a strong foundation in statistical and mathematical principles as applied to health sciences, including regression, survival analysis, and experimental design.
- Students will be proficient in modern health data analytics techniques, including predictive modeling, machine learning applications, and analysis of time-to-event and categorical outcomes.
- Students will gain hands-on experience working with real-world health data, including data from electronic health records, wearable devices, and genomics.
- Students will apply skills through a capstone project to solve practical health data challenges, integrating statistical methods and data science tools while communicating findings to both technical and non-technical audiences.

Students will be able to communicate complex health data analyses effectively in written reports and oral presentations to diverse audiences.

Degree Type* Bachelor of Arts

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Health Science Data Analytics concentration equips students to transform complex health data, spanning genomics, wearable technologies, clinical records, and social determinants, into actionable insights for healthcare systems, public health agencies, and the biotechnology sector. Anchored in rigorous statistical and mathematical foundations, the concentration integrates advanced methods in data analysis, visualization, and predictive modeling within the context of real-world health data. This concentration embodies the key components of Health Science Data Analytics by providing an interdisciplinary framework that unites quantitative reasoning, computational methods, and health sciences. Students gain proficiency in data management, statistical modeling, and machine learning while developing the ability to interpret findings within biological, behavioral, and population health contexts.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

[Before]

MATH 423 Probability
[Before]

MATH 453 Matrix Algebra II
[Right] or

MATH 487 Honors: Linear Algebra II

*** Meets Volunteer Core Requirement.**

Rationale*

We propose to create a new concentration within the Interdsicplinary Programs major that prepares students for careers at the intersection of health science and data analytics. This concentration responds to increasing demand for professionals trained in health data interpretation and modeling, both in Tennessee and nationally.

The program leverages UT's partnership with the Center for Precision Health to give students access to real-world projects and datasets, enhancing experiential learning. The three new courses, CSDS 311 - Applied Logistic Regression, CSDS 312 - Survival Analysis, and CSDS 411 - Applications in Health Analytics (Capstone), build students' capacity to analyze health data rigorously and translate insights into actionable recommendations.

National workforce data and UTK enrollment trends show strong and growing interest in health sciences, computing, and interdisciplinary training. This concentration will position UTK as a leader in preparing the next generation of health data professionals.

Financial Impact*

The financial impact is expected to be minimal and manageable. The proposed concentration introduces three new courses, and the Department has planned for the development and teaching of these courses using its existing faculty resources.

Furthermore, most other requirements draw from existing BAS, MATH, and PUBH courses, minimizing additional instructional costs. The partnership with the Center for Precision Health will provide significant in-kind support for capstone projects, reducing operational expenses. Overall, the program is expected to be cost-effective relative to its potential to attract new students and increase enrollment in CAS quantitative programs.

Impact on Other Units*

Minimal impact expected on other departments since most required courses are already offered regularly within BAS, MATH, and PUBH.

Collaborative benefit anticipated through increased enrollment in elective and foundation courses offered by other units (e.g., Public Health, Philosophy).

Coordination with the Center for Precision Health will enhance experiential learning opportunities but will not require new resources from other departments.

All potentially impacted departments have been consulted to ensure capacity and alignment with existing curricula

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No
- ( ) No Impact

CIP Code * 30.0801

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?*

- ( ) Yes
- (•) No

Per Institutional Effectiveness, does this proposal require SACSCOC action?*

- ( ) Yes
- (•) No

Notes

College of Arts and Sciences - Interdisciplinary Programs - Interdisciplinary Programs Major, BA - Health Science Data Analytics Concentration (uTrack Requirements)

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Interdisciplinary Programs Major, BA - Health Science Data Analytics Concentration (uTrack Requirements)

Learning Outcomes

- Student will possess a strong foundation in statistical and mathematical principles as applied to health sciences, including regression, survival analysis, and experimental design.
- Students will be proficient in modern health data analytics techniques, including predictive modeling, machine learning applications, and analysis of time-to-event and categorical outcomes.
- Students will gain hands-on experience working with real-world health data, including data from electronic health records, wearable devices, and genomics.
- Students will apply skills through a capstone project to solve practical health data challenges, integrating statistical methods and data science tools while communicating findings to both technical and non-technical audiences.

Students will be able to communicate complex health data analyses effectively in written reports and oral presentations to diverse audiences.

Degree Type* Bachelor of Arts

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Foreign Language **3** *Credit Hours* (intermediate level)
Oral Communication (OC) Elective **3** *Credit Hours* *

ENGL 101* English Composition I
[Right] (or equivalent)
[After]
INPG 205 Data Foundations for Health Analytics
[After]
[Before] Select one Course:

MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 147* Honors: Calculus I

Credit Hours 15-16

Term 1 Milestone Notes

Complete 12 credit hours by the end of the term.

Term 2

Foreign Language **3** *Credit Hours* * (intermediate level)
Social Sciences (SS) Elective **3** *Credit Hours* *

ENGL 102* English Composition II
[Right] (or equivalent)
PUBH 201* Introduction to Public Health

CSDS 311 Applied Logistic Regression
CSDS 312 Survival Analysis

Term 8

Applied Oral Communication (AOC) Elective 3 *Credit Hours* *
[4] Connections 3 *Credit Hours*
[2] Health Analytics Elective 3 *Credit Hours*
Elective 3 Credit Hours

CSDS 412 Applications in Health Analytics

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

1. Students interested in taking BME 205 or EEB 250 should take an appropriate biology prerequisite sequence.

2. **Students interested in taking MATH 323 or MATH 423 as an elective will need to take MATH 241 or MATH 247 and Math 300 and MATH 307, which are prerequisites. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.**

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts & Sciences.

*** Meets Volunteer Core Requirements.**

Rationale*

We propose to create a new concentration within the Interdisciplinary Programs major that prepares students for careers at the intersection of health science and data analytics. This concentration responds to increasing demand for professionals trained in health data interpretation and modeling, both in Tennessee and nationally.

The program leverages UT's partnership with the Center for Precision Health to give students access to real-world projects and datasets, enhancing experiential learning. The three new courses, CSDS 311 - Applied Logistic Regression, CSDS 312 - Survival Analysis, and CSDS 412 - Applications in Health Analytics (Capstone), build students' capacity to analyze health data rigorously and translate insights into actionable recommendations.

National workforce data and UTK enrollment trends show strong and growing interest in health sciences, computing, and interdisciplinary training. This concentration will position UTK as a leader in preparing the next generation of health data professionals.

Financial Impact*

The financial impact is expected to be minimal and manageable. The proposed concentration introduces three new courses, and the Department has planned for the development and teaching of these courses using its existing faculty resources.

Furthermore, most other requirements draw from existing BAS, MATH, and PUBH courses, minimizing additional instructional costs. The partnership with the Center for Precision Health will provide significant in-kind support for capstone projects, reducing operational expenses. Overall, the program is expected to be cost-effective relative to its potential to attract new students and increase enrollment in CAS quantitative programs.

Impact on Other Units*

Minimal impact expected on other departments since most required courses are already offered regularly within BAS, MATH, and PUBH.

Collaborative benefit anticipated through increased enrollment in elective and foundation courses offered by other units (e.g., Public Health, Philosophy).

Coordination with the Center for Precision Health will enhance experiential learning opportunities but will not require new resources from other departments.

All potentially impacted departments have been consulted to ensure capacity and alignment with existing curricula.

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No
- ( ) No Impact

CIP Code * 30.0801

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?*

- ( ) Yes
- (•) No

Per Institutional Effectiveness, does this proposal require SACSCOC action?*

- ( ) Yes

College of Arts and Sciences - Interdisciplinary Programs - Interdisciplinary Programs Major, BA - Linguistics Concentration

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Thorsten Huth, Linguistics Program, Chair

This concentration offers a broad exposure to the various fields of linguistics (including historical, descriptive, theoretical, and applied linguistics) along with an opportunity to study areas where linguistics overlaps with other disciplines such as psycholinguistics, sociolinguistics, and speech pathology.

The program of study is designed to:

- Prepare a student for graduate work in linguistics or related areas.
- Serve as a general survey of language and linguistics.
- Provide the additional possibility of emphasizing the teaching of English as a Second Language for students interested in language-related employment at the Bachelor of Arts level.

Students are strongly encouraged to:

- Consult program advisors early in planning a linguistics major or minor.
- Take 300-level courses before 400-level courses whenever possible.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Corequisites

Language Corequisite

Completion of a third year of foreign language study (upper-division courses) – either Indo-European or non-Indo-European – plus a two-semester sequence of another language chosen so that both one Indo-European and one non-Indo-European language are studied to fulfill this corequisite.

Non-Indo-European languages may be selected from the following:

ASL 111 Elementary American Sign Language I
ASL 112 Elementary American Sign Language II
[After]
ARAB 121 Elementary Arabic I
ARAB 122 Elementary Arabic II
[After]
CHIN 131 Elementary Chinese I
CHIN 132 Elementary Chinese II
[After]
HEBR 141 Elementary Modern Hebrew I
HEBR 142 Elementary Modern Hebrew II
[After]
JAPA 151 Elementary Japanese I
JAPA 152 Elementary Japanese II
[After]
REST 121 Elementary Biblical Hebrew I
REST 122 Elementary Biblical Hebrew II
[After]
[After] or other non-Indo-European languages approved by the Linguistics Committee.

Statistics Corequisite

Completion of one semester of statistics. This requirement may be met by completing MATH 115*, STAT 201* or STAT 207*, all of which will also help meet the Quantitative Reasoning requirement of the College. Other appropriate statistics courses may be taken if approved by the Linguistics Committee.

Concentration Requirements (30 credit hours)

Select one course:

AUSP 305 Phonetics
FREN 421 Phonetics
LING 421 Phonetics
SPAN 315 Spanish Phonetics and Phonology
[After] or other phonetics course approved by the Linguistics Committee

Complete:

LING 371* Foundations of the English Language
LING 372 The Structure of Modern English
LING 425 Descriptive Linguistics
LING 471 Sociolinguistics
LING 476 Second Language Acquisition

Choose one course:

LING 423 History of Linguistics
LING 426 Topics in Linguistics Research Methods

Select 9 hours (in consultation with a linguistics advisor):

Only a total of 3 credit hours can be taken from the 100/200 level.

ASL 435* Linguistics of American Sign Language
AUSP 302 Acoustics and Perception
AUSP 305 Phonetics
AUSP 320 Speech and Language Development
CHIN 471* Introduction to Chinese Linguistics
CMST 412 Close Relationships
EDDE 415 Language Development of the Deaf and Hard of Hearing I
EDDE 416* Language Development of the Deaf and Hard of Hearing II
FREN 421 Phonetics
LING 150 How Language Works
[Before]
LING 200 Language, Linguistics, and Society
[Right] or

ENGL 200 Language, Linguistics, and Society
[After]
LING 321* Introduction to Old English
LING 350 How to Construct a Language
LING 351 Languages of the Middle East and North Africa
LING 400 Topics in Linguistics
LING 421 Phonetics
LING 423 History of Linguistics
LING 426 Topics in Linguistics Research Methods
LING 431 Topics in Hispanic Linguistics
LING 435 Structure of the German Language
LING 440 Translation, Linguistics, and Context
LING 472 American English
LING 474* Teaching English as a Second or Foreign Language
LING 476 Second Language Acquisition
LING 477* Pedagogical Grammar for ESL Teachers
LING 485 Special Topics in Language
LING 491 Foreign Study
LING 492 Off-Campus Study
LING 493 Independent Study
WLC 400 Psycholinguistics
PHIL 235* Formal Logic
PSYC 314 Cognitive Basis of Behavior
PSYC 400* Advanced Cognitive Psychology
SPAN 315 Spanish Phonetics and Phonology
SPAN 410 Introduction to Hispanic Linguistics
SPAN 420 Applied Linguistics
SPAN 430 Topics in Hispanic Linguistics
SPAN 432 Multilingualism
THEA 326 Voice and Speech for the Stage Actor
WLEL 455 Teaching of World Languages
WLEL 466 ESL Assessment and Evaluation
WLEL 489 Content-Based ESL Methods

Footnotes:

*** Meets Volunteer Core Requirement.**

Rationale*
Adding LING 150 and LING 200 as electives adds two 100/200-level gateway courses into the major. These are the only two courses the Linguistics IDP has on the 100/200 level, so the nature of the degree consisting overwhelmingly of upper division courses remains intact.

Financial Impact*
None.

Impact on Other Units*
LING 200 is cross-listed with ENGL 200. I have secured approval from English, see attached email from Gerard Cohen-Vrignaud.

Have you consulted with all programs/departments that will be impacted by this change?*
(•) Yes ( ) No ( ) No Impact

Requirements*

Distance Education

For specific Admissions Requirements for Distance Learning students, visit https://volsonline.utk.edu/programs-degrees/bachelor-programs/

The major consists of 30 credit hours:

Primary Emphasis (9 credit hours)

Complete 2 courses (6 credit hours) from the following:

POLS 200 Introduction to Political Philosophy
POLS 240 Introduction to Public Administration and Public Policy
POLS 249 Introduction to Comparative Politics
POLS 265* Introduction to International Relations
POLS 301* Research Methods I

Complete 1 course (3 credit hours) from the following

POLS 301* Research Methods I
POLS 311* Contemporary Issues in American Public Policy
POLS 312* Popular Culture and American Politics
POLS 350 Sources of Political Change in the Global South: Coups, Climate, and Conflict
POLS 366 United States Foreign Policy Process
POLS 370 Contemporary International Problems
POLS 470* International Law
POLS 472* Conflict Processes

Secondary Emphasis - Choose 4 courses from one of the following 5 options (12 credit hours).

All courses must be distinct from the courses used for the Primary Emphasis.

Option A - Political Issues & Society

EEB 305* Evolution and Society
EEB 306 Ecology and Society
PHIL 345* Bioethics
PHYS 405 Science, Technology, and Public Policy
PSYC 360 Social Psychology
SOCI 341* Social Inequalities

Option B – Contemporary & Critical Issues

EEB 305* Evolution and Society
EEB 306 Ecology and Society
EEPS 202* Earth as an Ecosystem: Modern Problems and Solutions
PHIL 252* Contemporary Moral Problems
PHIL 345* Bioethics
PHYS 405 Science, Technology, and Public Policy
SOCI 341* Social Inequalities
SOCI 375* Gender in Society
[Before]
WGS 383* Feminism and the Environment
[Right] or

GEOG 383 Feminism and the Environment

Option C - Professional Development

ENGL 255* Public Writing
ENGL 295* Writing in the Workplace

ENGL 360* Technical and Professional Writing
PHIL 244* Professional Responsibility
POLS 311* Contemporary Issues in American Public Policy
PSYC 320 Motivation and Emotion
PSYC 330 Abnormal Psychology
PSYC 360 Social Psychology
PSYC 482 Topics in Psychology
REST 309* Religion and the Workplace

Option D - Method & Theory

ENGL 360* Technical and Professional Writing
PSYC 300 Child Development
PSYC 360 Social Psychology
SOCI 321 Sociological Theory
SOCI 331* Sociological Research
WGS 200* Introduction to Women, Gender, and Sexuality

Option E - Cultural Studies

ENGL 252* Introduction to Drama
ENGL 339* Children's/Young Adult Literature
ENGL 480 Fairy Tale, Legend, and Myth: Folk Narrative
POLS 312* Popular Culture and American Politics
REST 202* Religion and Film
REST 311* Hebrew Bible/Old Testament
REST 319 Gender, Sexuality, and Religion in Asia
REST 320* Gender, Sexuality, and Religion
REST 381* Judaism
SOCI 375* Gender in Society
[Before]
SOCI 419 Sociology, Science Fiction Film, and Artificial Intelligence
[Right] or

CNST 419 Sociology, Science Fiction Film, and Artificial Intelligence

Electives in Major (9 credit hours)

Choose up to 3 courses from a second Secondary Emphasis Area (must be distinct from the courses used for the Primary and Secondary Emphasis). Can replace up to 2 courses with up to 6 credit hours of INPG 492 - Off-Campus Study.

These are not part of the major but will be part of the 60-hour requirement and used to meet the Connections Requirement.

Connections: Choose 3 courses (9 credit hours). All must be distinct from hours used for the major.

ENGL 252* Introduction to Drama
ENGL 339* Children's/Young Adult Literature
ENGL 474* Teaching English as a Second or Foreign Language
POLS 301* Research Methods I
POLS 311* Contemporary Issues in American Public Policy
POLS 312* Popular Culture and American Politics
POLS 350 Sources of Political Change in the Global South: Coups, Climate, and Conflict
POLS 366 United States Foreign Policy Process
POLS 370 Contemporary International Problems
POLS 470* International Law

Additional Courses: (21 credit hours to get to 120 credit hours overall)

Can include courses taken beyond those for the major used to meet the Foreign language and non-US History requirement
Up to 6 additional hours of INPG 492
42 hours must be at the 300- or 400-level

*** Meets Volunteer Core Requirements.**

Rationale*

The college is cleaning up the course listings for those courses that are no longer being offered asynchronously with regular cadence to be beneficial to students in the program.

- Removed **EEB 423** and **EEB 425*** - Faculty who taught asynchronously left UT. **EEB 425*** prerequisites are also not available in asynchronous format.
- Removed **MATH 400** - no plan for the department to offer online in the next 3 years.
- Removed **MUTH 305*** - not an online course.
- Removed **POLS 330** - Department dropping the course.
- Removed **POLS 215** - Department is redeveloping asynchronous course.
- Removed **POLS 374, POLS 453*, POLS 455*, POLS 461*, POLS 454, and POLS 471*** - Department does not plan to offer asynchronously.
- Removed **REST 233*** - Course was not successful online due to low enrollment.
- Removed **WGS 201*, WGS 419*, and WGS 469*** - Not available online yet and will be a few years, or not taught frequently enough.
- Removed **PSYC 475** - not developed for online
- Added **GEOG 383*** - Cross listed with **WGS 383***
- Added program description to match what is listed on Vols online.
- Changes made are all options within the individual sections, therefore no major updates to the current uTrack / 8 -term showcase. Made minor updates for catalog consistency

Financial Impact*

None

Impact on Other Units*

None - the courses listed were not, or have not been taught asynchronously, and therefore not open to Distance Educatioin students.

Have you consulted with all programs/departments that will be impacted by this change?*

( ) Yes ( ) No (•) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

College of Arts and Sciences - Interdisciplinary Programs - Interdisciplinary Programs Major, BA - Public Policy and Administration Concentration (uTrack Requirements)

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The interdisciplinary BA in Visual and Interactive Storytelling Program (VIS) is designed to prepare students for careers in emerging forms of storytelling that employ visual, narrative, and performative elements. Core classes will provide students with a broad introduction to traditional and new concepts, art and literary history, various modes of storytelling, visual and audio art practices, and emerging technologies. Students elect experiential and project-based learning through studio and laboratory experiences to specialize in animation, filmmaking, theatre, interactive media, virtual reality, sound design, data visualization, and artificial intelligence, supported by a strong historical and narrative grounding in great storytelling as a fundamental human activity.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Requirements*

College Requirements

Arts and Sciences

Prerequisites (6 credit hours):

ART 102 Introduction to Art: Time
ARTH 173* Western Art: Renaissance to Contemporary

Major Requirements

The VIS concentration consists of **33** credit hours.

Historical Foundations (3 credit hours).

Choose one of the following.

ENGL 201* British Literature
ENGL 221* World Literature
ENGL 231* American Literature, Beginnings to the Civil War
ENGL 232* American Literature, Civil War to the Present
HIST 150* History through Video Games
THEA 414 Topics in Theatre History

Narrative Foundations (6 credit hours):

Choose two of the following.

ENGL 263* Introduction to Creative Writing
[After] or
ENGL 277 Honors: Introduction to Creative Writing
[After]
CNST 365* Writing the Screenplay
[Right] /
ENGL 365* Writing the Screenplay
[After]
HIUS 310 American History Through Video Games
[After]
THEA 200 Play Analysis
[After]
THEA 205 Presence and Storytelling
[After]
THEA 413 Dramaturgy and New Play Development

Digital Technology Foundations (6 credit hours):

Choose two of the following:

ARTC 233 Animation I
[Right] /
CNST 233 Animation I
[After]
ARTC 236 Introduction to Cinema and Video Art
[Right] /
CNST 236 Introduction to Cinema and Video Art
[After]
ENGL 370 Multimedia Storytelling

VIS Major Requirements (6 credit hours):

Choose two of the following:

CNST 281* Introduction to Film Studies
[Right] /
ENGL 281* Introduction to Film Studies
[After]
CNST 490 Internship
[After]
ENGL 252* Introduction to Drama
[After]
ENGL 253* Introduction to Fiction
[After]
THEA 200 Play Analysis
[After]
DH 492 Digital Humanities Internship

Major Electives (12 credit hours):

Choose four of the following from at least two different areas.

(Note: Courses used in a Foundation area can not be used as a Major Elective)

Art and Cinema Studies Area

ARTC 233 Animation I
[Right] /
CNST 233 Animation I

College of Arts and Sciences - Interdisciplinary Programs - Interdisciplinary Programs Major, BA - Visual and Interactive Storytelling Program (VIS) Concentration - Gaming Paradigms Track

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Interdisciplinary Programs Major, BA - Visual and Interactive Storytelling Program (VIS) Concentration - Gaming Paradigms Track

Learning Outcomes

Graduates of the Gaming Paradigms track will be able to:

1. Demonstrate foundational knowledge of visual, narrative, and performative storytelling traditions
    - Apply historical and literary perspectives to analyze and create compelling games.
2. Integrate digital technologies into game development
    - Use tools such as animation, video art, multimedia platforms, game engines, and virtual reality to produce interactive narratives.
3. Create original works that reflect interdisciplinary approaches to game creation
    - Combine elements from art, theatre, cinema, literature, and emerging technologies in project-based learning environments.
4. Critically analyze diverse cultural narratives and their representations
    - Engage with a broad set of cultural forms through literature, film, and performance.
5. Apply creative visualization, writing and dramaturgical techniques to various game formats
    - Develop multimedia scripts using industry-standard practices.
6. Collaborate effectively in studio and laboratory settings
    - Work in teams to produce game prototypes and games, demonstrating communication and project management skills.
7. Evaluate the ethical and societal implications of game development.
    - Reflect on the role of narrative in shaping public discourse, identity, and cultural memory.
8. Demonstrate proficiency in both the theory and practice of game creation.
    - Integreate skills from a variety of arts and humanities courses in art, creative writing, animation, filmmaking, sound design, theatre, or artificial intelligence applications.

Degree Type* Bachelor of Arts

Program Type* Concentration

Campus code*

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Gaming Paradigms track is part of the Visual and Interactive Storytelling (VIS) Interdisciplinary Program within the College of Arts and Sciences. This innovative curriculum invites students to explore digital games as both a cultural phenomenon and a leading force in technological advancement.

Blending applied humanities with hands-on training in storytelling and emerging technologies—including artificial intelligence, virtual and augmented reality, and immersive media—the program equips students to create, analyze, and critique analog and digital forms of play. Interdisciplinary coursework emphasizes world-building, systems of knowledge circulation, and feedback, fostering both critical insight and practical skills.

Graduates will be prepared to pursue careers in digital media and cultural industries, or to advance into graduate study in game studies and digital humanities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Theatre Area

THEA 323 Stage Movement
THEA 326 Voice and Speech for the Stage Actor

Notes:

***Meets** Volunteer Core Requirements

Rationale* Through the College of Arts and Sciences Gaming Initiative, we currently have significant expertise in game studies in the humanities and a strong foundation of "art first" courses in art, theatre, and music that align with game creation to establish an interdisciplinary BA degree that would prepare our graduates for employment in the gaming industry. The global games market is projected to reach approximately $522.46 billion in 2025, with the domestic video game industry having generated ~$101 billion in economic output in 2024, contributing ~$66B to the US GDP. The industry supports over 350,000 jobs across the nation, with at least 78 gaming companies based in Tennessee. This interdisciplinary degree program will combine studio practice using visual and narrative world-building informed by courses in the humanities organized around a strategic niche in nonlinear digital narrative encompassing world-building, and digital storytelling. This proposed track within the Visual and Interactive Storytelling Program (VIS) Concentration is informed by degree programs at several other universities, while taking particular advantage of our unique strengths in narrative world-building and game studies.

Financial Impact* None - Almost all courses are within CAS.

Impact on Other Units* None - Almost all courses are within CAS.

Natalie Haslam College of Music has granted permission to use MUTC - see attached.

    - Use tools such as animation, video art, multimedia platforms, game engines, and virtual reality to produce interactive narratives.
3. Create original works that reflect interdisciplinary approaches to game creation
    - Combine elements from art, theatre, cinema, literature, and emerging technologies in project-based learning environments.
4. Critically analyze diverse cultural narratives and their representations
    - Engage with a broad set of cultural forms through literature, film, and performance.
5. Apply creative visualization, writing and dramaturgical techniques to various game formats
    - Develop multimedia scripts using industry-standard practices.
6. Collaborate effectively in studio and laboratory settings
    - Work in teams to produce game prototypes and games, demonstrating communication and project management skills.
7. Evaluate the ethical and societal implications of game development.
    - Reflect on the role of narrative in shaping public discourse, identity, and cultural memory.
8. Demonstrate proficiency in both the theory and practice of game creation.
    - Integreate skills from a variety of arts and humanities courses in art, creative writing, animation, filmmaking, sound design, theatre, or artificial intelligence applications.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

*** Meets Volunteer Core Requirements.**

Rationale* Through the College of Arts and Sciences Gaming Initiative, we currently have significant expertise in game studies in the humanities and a strong foundation of "art first" courses in art, theatre, and music that align with game creation to establish an interdisciplinary BA degree that would prepare our graduates for employment in the gaming industry. The global games market is projected to reach approximately $522.46 billion in 2025, with the domestic video game industry having generated ~$101 billion in economic output in 2024, contributing ~$66B to the US GDP. The industry supports over 350,000 jobs across the nation, with at least 78 gaming companies based in Tennessee. This interdisciplinary degree program will combine studio practice using visual and narrative worldbuilding informed by courses in the humanities organized around a strategic niche in nonlinear digital narrative encompassing world-building, and digital storytelling. This proposed track within the Visual and Interactive Storytelling Program (VIS) Concentration is informed by degree programs at several other universities, while taking particular advantage of our unique strengths in narrative worldbuilding and game studies.

Financial Impact* None - Almost all courses are within CAS.

Impact on Other Units* None - Almost all courses are within CAS.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Nora Berenstain, Department of Philosophy, Chair

Women, Gender, and Sexuality is a major dedicated to the study of how gender and sexuality shape the past, present, and future of human cultures and societies. Our interdisciplinary curriculum trains students in critical studies of the ways gender and sexuality intersect with race, ethnicity, nationality, dis/ability, and other dimensions of social inequality. Our courses provide students with a wide variety of methodological skills and perspectives with which to conduct their own research, creative activity, and activism.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

WGS 466 Special Topics in Race and Ethnicity
WGS 161 Women Writing the World
WGS 499 Capstone Seminar in Women, Gender, and Sexuality
[After]

*** Meets Volunteer Core Requirements.**

Rationale*

This proposal adds the following relevant courses, including newly cross-listed courses, to count for our major in Women, Gender, and Sexuality:

WGS/CHIN 130 - Love and Sex in Chinese and Sinophone Cultures

WGS/CHIN 335 - From Fox Spirits to FemTech: Gender, Myth, and Media in China

WGS/CHIN 360 - Desiring Asia: Sex, Intimacy, and Global Capital

WGS 461/CHIN 469 - Gender and Sexuality in Chinese Cinema

WGS/SOCI 346 - Sexualities

WGS/ENGL 161 - Women Writing the World

WGS/GEOG 383 - Feminism and the Environment

AFST 329 - Black History in TN 1796-1980

ANTH 405 - Anthropology of Reproduction and Sexuality

This proposal also adds courses that were cross-listed last academic year, but were not added to the major course list:

WGS/SOCI 343 - Race and Ethnicity

WGS/SOCI 454 - Restorative Justice

WGS/SOCI 460 - Capitalism and Racism

WGS/SOCI 466 - Special Topics in Race and Ethnicity

WGS/AFST 322 - Race, Gender, and Medicine

The proposal also updates the major schema to expand the courses counting in each category (e.g., adding "Feminism and the Environment" to Social Sciences.

This proposal also removes WGS - 499 - Capstone Seminar in Women, Gender, and Sexuality from required courses, which is not currently taught but will be taught in the future. Instead, we revised the curriculum schema to require an additional 3 credit hours of electives. There is a corresponding uTrack proposal to revise the schema.

Finally, this proposal adds language to allow students to take up to 8 credit hours of WGS courses and count them toward the major per the new college policy: "Students may count up to 8 credits of Women, Gender, and Sexuality courses at the 100-level toward the major concentration."

Description

Nora Berenstain, Department of Philosophy, Chair

Women, Gender, and Sexuality is a major dedicated to the study of how gender and sexuality shape the past, present, and future of human cultures and societies. Our interdisciplinary curriculum trains students in critical studies of the ways gender and sexuality intersect with race, ethnicity, nationality, dis/ability, and other dimensions of social inequality. Our courses provide students with a wide variety of methodological skills and perspectives with which to conduct their own research, creative activity, and activism.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Concentration Requirements

The concentration consists of **30** credit hours.

Students may count up to 8 credits of Women, Gender, and Sexuality courses at the 100-level toward the major concentration.

Complete (6 hours):

WGS 200* Introduction to Women, Gender, and Sexuality
WGS 464* Feminist Philosophy of Science

Sexual and Reproductive Health (6 credit hours):

Select two courses.

ANTH 405 Anthropology of Reproduction and Sexuality
HDFS 240* Human Sexuality
PSYC 435* Multicultural Psychology
PSYC 476 African American Psychology
SOCI 346 Sexualities
STHS 200* Introduction to Science, Technology, Health, and Society
WGS 201* Intro to LGBTQ+ Studies
WGS 322 Race, Gender, and Medicine
WGS 382* Philosophy of Feminism
WGS 419* Gender and Sexuality in Ancient Western Philosophy
WGS 434* Psychology of Gender
WGS 463 Race, Science, and Medicine
WGS 346 Sexualities

Health and Social Systems (6 credit hours):

Select two courses.

AFST 322 Race, Gender, and Medicine
ANTH 405 Anthropology of Reproduction and Sexuality
ANTH 413* Dynamics of Health and Illness
CHIN 335 From Fox Spirits to FemTech: Gender, Myth, and Media in China
PHIL 382* Philosophy of Feminism
SOCI 343* Race and Ethnicity
SOCI 460 Capitalism and Racism
SOCI 466 Special Topics in Race and Ethnicity
STHS 200* Introduction to Science, Technology, Health, and Society
WGS 370* Gender and Globalization
WGS 383* Feminism and the Environment
WGS 423 Feminist Anthropology
WGS 424 Queer Anthropology
WGS 425 Black Feminist Theory
WGS 426 Decolonization
WGS 335 From Fox Spirits to FemTech: Gender, Myth, and Media in China
WGS 322 Race, Gender, and Medicine
WGS 382* Philosophy of Feminism
WGS 460 Capitalism and Racism
WGS 463 Race, Science, and Medicine
WGS 466 Special Topics in Race and Ethnicity

Women's Health Electives (minimum of 12 credit hours):

Select four additional courses.

AFST 329 Black History in Tennessee 1796-1980
ANTH 405 Anthropology of Reproduction and Sexuality
ANTH 413* Dynamics of Health and Illness
ANTH 423* Feminist Anthropology
ANTH 424 Queer Anthropology
ANTH 426 Decolonization
CHIN 130 Love and Sex in Chinese and Sinophone Cultures
CHIN 335 From Fox Spirits to FemTech: Gender, Myth, and Media in China
CHIN 360 Desiring Asia: Sex, Intimacy, and Global Capital
CHIN 430 Women in China
CHIN 469 Gender and Sexuality in Chinese Cinema
ENGL 161 Women Writing the World
ENGL 322 Race, Gender, and Medicine
ENGL 425 Black Feminist Theory
FREN 433* French and Francophone Women Writers
GEOG 383 Feminism and the Environment
GERM 370* Witches: Myth, Reality, and Representation
GERM 434 Extraordinary Wo(Men)—Outcasts, Rebels, Martyrs, and Saints
HDFS 240* Human Sexuality
PSYC 435* Multicultural Psychology
PSYC 476 African American Psychology
SOCI 343* Race and Ethnicity

SOCI 346 Sexualities
SOCI 361* Environmental Justice
SOCI 454 Restorative Justice
SOCI 460 Capitalism and Racism
SOCI 466 Special Topics in Race and Ethnicity
SPAN 433 Gender and Sexuality in Hispanic Literature and Culture
STHS 200* Introduction to Science, Technology, Health, and Society
WGS 130 Love and Sex in Chinese and Sinophone Cultures
WGS 161 Women Writing the World
WGS 201* Intro to LGBTQ+ Studies
WGS 314 Food, Fiction, and Film in Modern Japan
WGS 319 Gender and Religion in Asia
WGS 320* Gender, Sexuality, and Religion
WGS 322 Race, Gender, and Medicine
WGS 325 Women in American History
WGS 330* Music, Gender, and Sexuality
WGS 332* Women in American Literature
WGS 335 From Fox Spirits to FemTech: Gender, Myth, and Media in China
WGS 346 Sexualities
WGS 340 Gender, Politics, and the Law
WGS 343* Race and Ethnicity
WGS 360 Desiring Asia: Sex, Intimacy, and Global Capital
WGS 370* Gender and Globalization
WGS 375* Gender in Society
WGS 376 African American Women's History from Slavery to the Present
WGS 382* Philosophy of Feminism
WGS 383* Feminism and the Environment
WGS 384* Gender and Sexuality in Greece and Rome
WGS 400 Topics in Women, Gender, and Sexuality
WGS 412 Gender, Performance Art, and the Avant Garde
WGS 419* Gender and Sexuality in Ancient Western Philosophy
WGS 422 Women Writers in Britain
WGS 423 Feminist Anthropology
WGS 424 Queer Anthropology
WGS 425 Black Feminist Theory
WGS 426 Decolonization
WGS 434* Psychology of Gender
WGS 436 History of Gender and Sexuality in the United States
WGS 453* Gender and Crime
WGS 454 Restorative Justice
WGS 460 Capitalism and Racism
WGS 461 Gender and Sexuality in Chinese Cinema
WGS 463 Race, Science, and Medicine
WGS 465 Gender and Sexuality in Early Latin America
WGS 466 Special Topics in Race and Ethnicity
WGS 469* Sexuality and Cinema
WGS 484 African American Women in American Society
WGS 490 Internship
WGS 491 Foreign Study
WGS 492 Off-Campus Study
WGS 493 Independent Study
WGS 499 Capstone Seminar in Women, Gender, and Sexuality

Notes:

*** Meets Volunteer Core Requirements**

Rationale*

This proposal adds the following relevant courses, including newly cross-listed courses, to count for our major in Women, Gender, and Sexuality with a Women's Health track:

WGS/CHIN 130 - Love and Sex in Chinese and Sinophone Cultures

WGS/CHIN 335 - From Fox Spirits to FemTech: Gender, Myth, and Media in China

WGS/CHIN 360 - Desiring Asia: Sex, Intimacy, and Global Capital

WGS 461/CHIN 469 - Gender and Sexuality in Chinese Cinema

WGS/SOCI 346 - Sexualities

WGS/ENGL 161 - Women Writing the World

WGS/GEOG 383 - Feminism and the Environment

AFST 329 - Black History in TN 1796-1980

ANTH 405 - Anthropology of Reproduction and Sexuality

This proposal also adds courses that were cross-listed last academic year, but were not added to the major course list:

WGS/SOCI 343 - Race and Ethnicity

WGS/SOCI 454 - Restorative Justice

WGS/SOCI 460 - Capitalism and Racism

WGS/SOCI 466 - Special Topics in Race and Ethnicity

WGS/ANTHRO 426 - Decolonization

WGS/AFST 322 - Race, Gender, and Medicine

The proposal also updates the major schema to expand the courses counting in each category (e.g., adding "ANTH 405 to "Sexual and Reproductive Health")

This proposal also removes WGS - 499 - Capstone Seminar in Women, Gender, and Sexuality from required courses, which is not currently taught but will be taught in the future. We have also removed the required course WGS 201 and instead offer it for credit as an elective. The major previously required 33 hours, and these revisions changes this requirement to 30 hours. There is a corresponding uTrack proposal to revise the schema.

Finally, this proposal adds language to allow students to take up to 8 credit hours of 100-level WGS courses and count them toward the major per the new college policy: "Students may count up to 8 credits of Women, Gender, and Sexuality courses at the 100-level toward the major concentration."

Financial Impact*

N/A

Impact on Other Units* Sociology, Chinese, English, Africana Studies, Anthropology

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Foreign Language **3** *Credit Hours* (intermediate level)
Natural Sciences Elective w/Lab **4** *Credit Hours* *
Quantitative Reasoning Elective **3-4** *Credit Hours* *
[1] Elective **1-2** *Credit Hours*

ENGL 101* English Composition I
[Right] (or equivalent)

Credit Hours 14-16

Term 1 Milestone Notes

Completion of at least 12 credit hours before the end of the term.

Term 2

Foreign Language **3** *Credit Hours* * (intermediate level)
Natural Sciences Elective w/Lab **4** *Credit Hours* *
Quantitative Reasoning Elective **3-4** *Credit Hours* *
[1] Elective **1-2** *Credit Hours*

ENGL 102* English Composition II
[Right] (or equivalent)

Credit Hours 14-16

Term 2 Milestone Notes

Complete at least 24 credit hours by the end of the term.

ENGL 101* English Composition I

Term 3

Non-U.S. History **3** *Credit Hours* *
Oral Communication Elective **3** *Credit Hours* *
Social Sciences Elective **6** *Credit Hours* *

WGS 200* Introduction to Women, Gender, and Sexuality

Credit Hours 15

One WGS course with a grade of C or better

ENGL 102* English Composition II

Term 5

Applied Oral Communication Elective 3 *Credit Hours* *
[2] Connections 6 *Credit Hours*
WGS - Health and Social Systems Category 3 *Credit Hours*

WGS 464* Feminist Philosophy of Science

Credit Hours 15

Term 5 Milestone Notes

Two WGS courses with a grade of C or better

Term 6

[2] Connections 3 *Credit Hours*
[1] Electives 6 *Credit Hours*
WGS - Health and Social Systems Category 3 *Credit Hours*
WGS - Sexual and Reproductive Health Category 3 *Credit Hours*

Credit Hours 15

Term 6 Milestone Notes

Completion of at least 9 upper-division (300-400) hours.

Term 7

Arts and Humanities (Lit/Phil/Rel Thought) Elective 3 *Credit Hours* *
[3] Engaged Inquiries Elective 3 *Credit Hours* *
Written Communication Elective 3 *Credit Hours* *
WGS (major) 6 *Credit Hours*

Term 7 Milestone Notes

Completion of at least 24 total upper-division (300-400) hours

Term 8

[1] Electives **3** *Credit Hours*
Engaged Inquiries Elective **6** *Credit Hours* *
WGS (major) **6** *Credit Hours*

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
Engaged Inquiries electives must total 9 credit hours from two or more subjects.

* Meets Volunteer Core Requirements.

Rationale* This proposal removes WGS - 201 - Intro to LGBTQ + Studies from Term 5, and WGS - 499 - Capstone Seminar in Women, Gender, and Sexuality (which is not currently taught regularly) from Term 8.

Instead of WGS 201, students have the opportunity to take an elective from our list.

We replaced WGS 499 with an additional elective opportunity in Term 8.

Financial Impact* N/A

Impact on Other Units* N/A

Notes

College of Arts and Sciences - Interdisciplinary Programs - Interdisciplinary Programs Major, BS - Animal Behavior Concentration

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Interdisciplinary Programs Major, BS - Animal Behavior Concentration

Learning Outcomes

1. **Foundational Knowledge**
   Students will be able to explain and apply core principles of animal behavior, including evolutionary, ecological, physiological, and cognitive mechanisms underlying behavioral diversity.
   Assessment examples: course exams, concept inventories, GenBioMAP-style questions.

2. **Scientific Inquiry and Data Analysis**
   Students will demonstrate proficiency in scientific practices by formulating hypotheses, designing experiments or field studies, analyzing behavioral data with appropriate statistical methods, and interpreting results in the context of existing theory.
   Assessment examples: research reports, lab practicals, statistics projects.

3. **Research Techniques and Field/Lab Competence**
   Students will correctly perform modern experimental, observational, and computational techniques used in animal behavior research (e.g., behavioral coding, bioacoustics, neurobiological methods, field sampling).
   Assessment examples: lab/field practicals, skills checklists, research artifacts.

4. **Communication and Professional Skills**
   Students will communicate clearly and ethically about animal behavior research, adapting language and format to scientific, applied, and public audiences; they will locate and use credible evidence to support arguments.
   Assessment examples: oral presentations, written assignments, outreach products, peer review.

5. **Integration and Application**
   Students will integrate knowledge across biological and social sciences to address applied problems in animal behavior (e.g., animal welfare, conservation decision-making, human–wildlife conflict, veterinary and agricultural contexts).
   Assessment examples: case studies, capstone projects, applied internships.

6. **Ethics and Societal Context**
   Students will evaluate the ethical dimensions of studying and managing animal behavior in diverse cultural, ecological, and professional contexts, and demonstrate respect for diversity in collaborative and cross-disciplinary work.
   Assessment examples: ethics reflections, debate assignments, internship supervisor evaluations.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The B.S. in Animal Behavior offers an interdisciplinary foundation, including courses from the natural sciences, social sciences, and humanities to explore animal behavior from multiple perspectives. This degree prepares students for careers in research, wildlife conservation, veterinary medicine, animal training, and more. Through coursework and hands-on experiences, students investigate the causes and evolution of animal behavior, gaining insights into both biological and environmental influences. Opportunities for independent research, internships, and laboratory work prepare students to apply their skills in settings such as zoos, wildlife centers, and museums.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

College Requirements

Arts and Sciences

Prerequisites for Understanding Animal Behavior (23 Credit Hours)

A minimum grade of C must be earned in all prerequisites.

I. Introductory Biology

Complete one sequence:

BIOL 101* Introduction to Biology: Cells, Genetics, and Physiology
BIOL 102* Introduction to Biology: Biodiversity and Ecology
[Before] or

BIOL 150* Organismal and Ecological Biology
[Right] (or equivalent)
BIOL 160* Cellular and Molecular Biology
[Right] (or equivalent)
BIOL 159* Skills of Biological Investigation
[Right] (or equivalent)
[After] Although the completion of either BIOL 101*-BIOL 102* or BIOL 150*-BIOL 160*-BIOL 159* are permissible as prerequisites to the concentration, the faculty encourage students to take BIOL 150*-BIOL 160*-BIOL 159*, particularly if they are pre-professional students.

II. Introductory Psychology

Complete:

PSYC 110* General Psychology
[Before] or

PSYC 117* Honors: General Psychology
[Right] (or equivalent)

III. Science Electives

Select two courses: one course from list A and one additional course from either list A or B.

[Before] A.
CHEM 122* General Chemistry I
[Right] (or equivalent)
CHEM 132* General Chemistry II
[Right] (or equivalent)
MATH 115* Statistical Reasoning
MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 151* Mathematics for the Life Sciences
MATH 152* Calculus for the Life Sciences
PHYS 221* Elements of Physics I
[After]

[Before] B.

ANTH 110* Introduction to Biological Anthropology
COSC 111* Computational Thinking and the Art of Programming
EEPS 102* Earth, Life, and Time
GEOG 204* Understanding Climate Change

IV. Statistics

Select one course:

EEB 411* Biostatistics
MATH 153 Introduction to Statistics for Biology
[Before]
STAT 201* Introduction to Statistics
[Before] or

STAT 207* Honors: Introduction to Statistics
[Right] (or equivalent)
[Before]
STAT 251 Probability and Statistics for Scientists and Engineers

V. Behavior through Ethical and Historical Lenses

Select one course:

ANSC 495* Ethics in Animal Agriculture
EEB 451* Research Ethics

HIUS 365* Food and Power in U.S. History
HIEU 435 Science, Religion and Magic in Early Modern Europe
PHIL 340* Ethical Theory
[Right] (or equivalent)
PHIL 345* Bioethics
PHIL 346* Environmental Ethics
[Right] (or equivalent)

PHIL 463* Race, Science, and Medicine
REST 343* Religion, Nature, and Ethics

Animal Behavior Concentration

The Animal Behavior BS concentration consists of **37 credit hours**.

I. Core Animal Behavior Courses

Complete all courses:

ANBV 201 Curious Lives of Animals
ANBV 301 Design Your Career in Animal Behavior
[Before]
EEB 450 Animal Behavior
[Right] or

PSYC 450 Animal Behavior
[Before]
EEB 459 Animal Behavior Laboratory
[Right] or

PSYC 459 Animal Behavior Laboratory
[Before]

II. Approaches in Animal Behavior

To ensure students are exposed to diverse approaches, the animal behavior concentration requires coursework in three areas: the causes and evolution of behavior, and the application of behavior to solve specific problems.

A. Understanding the Causes of Behavior

Select two courses:

ANTH 415* Environmental Anthropology
ANTH 464 Principles of Zooarchaeology
BCMB 423 Neural Basis of Behavior
PHIL 366* Philosophy of Cognitive Science
PSYC 301 Foundations of Behavioral Neuroscience
PSYC 310 Learning and Thinking
PSYC 314 Cognitive Basis of Behavior
PSYC 320 Motivation and Emotion
PSYC 410 Sensory Processes and Perception
PSYC 461 Behavioral Neuroscience

B. Understanding the Evolution of Behavior

Select two courses:

ANTH 483 Evolutionary Biology for Anthropologists
ANTH 490 Primate Evolution
EEB 315 Parasites, Disease, and Behavior
EEB 454 Animal Communication
EEB 464 Macroevolution
EEPS 320 Paleobiology
EEPS 420 Trace Fossils: Behavior, Environment, and Applications
EEPS 422 Evolution of Life
EEPS 423 Paleoecology
PSYC 370 Evolutionary Psychology and Ethology

C. Applied Approaches

Select two courses:

ANSC 340 Animal Breeding and Genetics
ANSC 480* Animal Behavior and Welfare
ANTH 494* Primate Behavior
EEB 423 Conservation Decision Making
EEB 432 Conservation Genomics
EEPS 420 Trace Fossils: Behavior, Environment, and Applications
WFS 401* Ecology and Management of Wildlife Health
WFS 425 Tropical Ecology, Conservation, and Field Methods
WFS 431 Wildlife Physiology and Nutrition

III. Practical Experience (3-4 Credit Hours)

Choose one of the following options:

A. Field Experience

Select one course:

ANTH 494* Primate Behavior
EEB 415* Field Ecology
EEB 444 Diversity of Tennessee Fishes
EEB 473 Herpetology
EEB 474 Diversity, Ecology, and Evolution of Fishes

B. Internship

Three (3) credit hours:

ANBV 492 Off-Campus Animal Behavior Internship
EEB 401 Natural History Collections Research
EEB 482 Animal Care Internship
EEB 489 Avian Field Methods Internship
PSYC 396N* Internship in Psychology

C. Supervised Research

Three (3) credit hours:

ANSC 493 Independent Study in Animal Science
ANSC 499 Undergraduate Research
EEB 400 Undergraduate Research
EEB 407 Senior Honors Thesis
EEB 493 Independent Study
EEPS 493 Independent Study
EEPS 497 Honors: Senior Thesis
PSYC 489 Supervised Research
WFS 493 Independent Study in Wildlife and Fisheries Science

IV. Electives

Select two courses:

[Before]
Any course not previously completed above in major **Section II - Approaches in Animal Behavior.**

[Before]
Any course not previously taken above in **Prerequisite Section IV - Statistics.**

ANSC 330 Comparative Animal Nutrition
AUSP 302 Acoustics and Perception
COSC 422 Tools for Applied Machine Learning
EEB 419* Global Change Ecology
EEB 425* Communicating the Science of Climate Change Biology
EEB 484 Conservation Biology
PHIL 375* Philosophy of Action
PHIL 383* Philosophy of Disability
PSYC 403 Cognitive Neuroscience
[Before]or

NEUR 403 Cognitive Neuroscience
PSYC 464 Drugs and Behavior
SNR 315 Principles of Wildlife and Fisheries Management
WFS 434 Ecology and Conservation of Tropical Mammals
WFS 444 Ecology and Management of Wild Mammals
WFS 445 Ecology and Management of Wild Birds
[After]
*** Meets Volunteer Core Requirement.**
ANTH 464 Principles of Zooarchaeology

Rationale*

Our original intent for this curricular framework was a B.S. degree. When this curriculum was first developed, the proposal was circulated to all departments with courses included in the curriculum. Eighteen academic units reviewed the plan and provided their approval, confirming that the program was feasible and appropriately supported across disciplines.

During the curriculum change process, we were advised that there was no existing line for an Interdisciplinary Programs Bachelor of Science degree. As a result, we were directed to move forward under the framework of an Interdisciplinary Programs Bachelor of Arts, establishing a concentration in Animal Behavior. This was an administrative adjustment rather than a reflection of the intended academic design of the program.

Since then, in consultation with our THECS campus representative, we have confirmed that it is possible to propose an Animal Behavior Bachelor of Science degree. We are therefore submitting a THECS proposal to add a B.S. degree option to the Interdisciplinary Program. The approval processes occur in parallel, with the last stage of the university process being the addition of the final university approval letter to the THECS submission. That step is underway.

In implementing this change, we plan to replace the current B.A. concentration with the B.S. concentration, once it is approved. At that point in time, no new students will be admitted to the B.A., but the degree will be maintained for those already enrolled until all current students complete their studies. This ensures continuity and minimizes disruption for students.

Finally, it is important to emphasize that the program structure remains unchanged from the version originally approved as a B.S. degree by 18 academic units last year. Because the curriculum, course requirements, and interdisciplinary contributions are identical, it is not necessary to repeat the impact review process. The change represents a correction to align the degree designation with the program's original design and academic intent.

Financial Impact*

There is no financial impact. The program uses existing courses that were previously approved by all participating academic units when the degree was first proposed as a B.S. program. Eighteen departments reviewed and signed off on the curriculum for a B.S. last year, confirming that staffing and course availability were sufficient to support the program. Please see attached emails.

The current proposal adds new ANBV courses but these were previously INPG 201 (repeated for 3 CH and 1 CR) but the content of the courses are not changing. The current proposal does not alter the structure of the degree; it simply corrects the concentration designation from a B.A. to a B.S. As such, no additional instructional resources, faculty lines, or course sections are required. All contributing units have already accounted for their participation, and the existing program structure has been fully vetted through the original impact review.

Because no new demands are being placed on other departments, and because the transition involves replacing the existing B.A. concentration with the B.S. concentration, there are no new financial implications for any unit.

Impact on Other Units* The following units contribute courses:

- **Biological Sciences (BIOL)**
- **Psychology (PSYC)**
- **Anthropology (ANTH)**
- **Ecology & Evolutionary Biology (EEB)**
- **Chemistry (CHEM)**
- **Computer Science (COSC)**
- **Earth, Environmental & Planetary Sciences (EEPS)**
- **Mathematics (MATH)**

College of Arts and Sciences - Interdisciplinary Programs - Interdisciplinary Programs Major, BS - Animal Behavior Concentration (uTrack Requirements)

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Interdisciplinary Programs Major, BS - Animal Behavior Concentration (uTrack Requirements)

Learning Outcomes

1. **Foundational Knowledge**
   Students will be able to explain and apply core principles of animal behavior, including evolutionary, ecological, physiological, and cognitive mechanisms underlying behavioral diversity.
   Assessment examples: course exams, concept inventories, GenBioMAP-style questions.

2. **Scientific Inquiry and Data Analysis**
   Students will demonstrate proficiency in scientific practices by formulating hypotheses, designing experiments or field studies, analyzing behavioral data with appropriate statistical methods, and interpreting results in the context of existing theory.
   Assessment examples: research reports, lab practicals, statistics projects.

3. **Research Techniques and Field/Lab Competence**
   Students will correctly perform modern experimental, observational, and computational techniques used in animal behavior research (e.g., behavioral coding, bioacoustics, neurobiological methods, field sampling).
   Assessment examples: lab/field practicals, skills checklists, research artifacts.

4. **Communication and Professional Skills**
   Students will communicate clearly and ethically about animal behavior research, adapting language and format to scientific, applied, and public audiences; they will locate and use credible evidence to support arguments.
   Assessment examples: oral presentations, written assignments, outreach products, peer review.

5. **Integration and Application**
   Students will integrate knowledge across biological and social sciences to address applied problems in animal behavior (e.g., animal welfare, conservation decision-making, human–wildlife conflict, veterinary and agricultural contexts).
   Assessment examples: case studies, capstone projects, applied internships.

6. **Ethics and Societal Context**
   Students will evaluate the ethical dimensions of studying and managing animal behavior in diverse cultural, ecological, and professional contexts, and demonstrate respect for diversity in collaborative and cross-disciplinary work.
   Assessment examples: ethics reflections, debate assignments, internship supervisor evaluations.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Interdisciplinary Programs, B.S. - Animal Behavior Concentration offers an interdisciplinary foundation, including courses from the natural sciences, social sciences, and humanities to explore animal behavior from multiple perspectives. This degree prepares students for careers in research, wildlife conservation, veterinary medicine, animal training, and more. Through coursework and hands-on experiences, students investigate the causes and evolution of animal behavior, gaining insights into both biological and environmental influences. Opportunities for independent research, internships, and laboratory work prepare students to apply their skills in settings such as zoos, wildlife centers, and museums.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

[1] Introductory Biology w/Lab **4-5** *Credit Hours* *
Science Elective course 'List A' **3-4** *Credit Hours*
Elective **0-1** *Credit Hours*

ENGL 101* English Composition I
[Right] (or equivalent)
PSYC 110* General Psychology
[Right] or

PSYC 117* Honors: General Psychology

Credit Hours 14-16

Term 1 Milestone Notes

- Complete at least 12 hours by the end of the term.
- Complete Natural Sciences with Lab Elective 4 Credit Hours *
- Complete Science Elective course 'List A' 3-4 Credit Hours
- Meet with your academic advisor to discuss career goals and degree plans.

Term 2

[1] Introductory Biology w/Lab **3-4** *Credit Hours* * (continuation of sequence)
Science Elective course 'List A or B' **3-4** *Credit Hours*
Oral Communication (OC) Elective **3** *Credit Hours* *

ENGL 102* English Composition II
[Right] (or equivalent)
ANBV 201 Curious Lives of Animals

Credit Hours 15-17

Term 2 Milestone Notes

Complete at least 24 hours by the end of the term.
Complete Oral Communication (OC) Elective 3 Credit Hours *
Complete Natural Sciences Elective 3 Credit Hours *

ENGL 101* English Composition I

Term 3

Foreign Language **3** *Credit Hours* * (intermediate level)
Global Citizenship - United States (GCUS) Elective **3** *Credit Hours* *
Approaches in Animal Behavior **3** *Credit Hours*
Behavior Through Ethical and Historical Lenses course **3** *Credit Hours* *

[Before]Select one course:
EEB 411* Biostatistics
MATH 153 Introduction to Statistics for Biology
STAT 201* Introduction to Statistics
[Right] (or equivalent)
STAT 251 Probability and Statistics for Scientists and Engineers

Credit Hours 15

Term 3 Milestone Notes

- Consider Study Abroad opportunities.
- Consider a minor, such as in Ecology & Evolutionary Biology.
- Maintain a minimum GPA of 2.75 for eligibility in research or internships.
- Complete Quantitative Reasoning (QR) Elective 3-4 Credit Hours *
- Complete Global Citizenship - United States (GCUS) Elective 3 Credit Hours *
- Complete 36 Credit Hours by the end of the term.

Term 4

Arts and Humanities (Lit/Phil/Rel Thought) Elective **3** *Credit Hours* *
Foreign Language **3** *Credit Hours* * (intermediate level)
Written Communication (WC) Elective **3** *Credit Hours* *
Quantitative Reasoning (QR) Elective **3-4** *Credit Hours* *
Approaches in Animal Behavior course **3** *Credit Hours*

Credit Hours 15-16

Term 4 Milestone Notes

Start seeking lab research or internship opportunities for hands-on experience.

[1] Complete Introductory Biology requirement* with a grade of C or better

[3] Complete Statistics requirement* with a grade of C or better
Complete Written Communication (WC) Elective 3 Credit Hours *
Complete Arts and Humanities (Lit/Phil/Rel Thought) Elective 3 Credit Hours *
Complete Quantitative Reasoning (QR) Elective 3-4 Credit Hours *
Complete Global Citizenship - International (GCI) Elective 3 Credit Hours *

ENGL 102* English Composition II

Term 5

Approaches in Animal Behavior course **3** *Credit Hours*
Quantitative Reasoning (QR) Elective **3-4** *Credit Hours* *
[2] Applied Oral Communication Elective **3** *Credit Hours* *

[Before] Complete:

EEB 450 Animal Behavior
[Right] or

PSYC 450 Animal Behavior
[After]
EEB 459 Animal Behavior Laboratory
[Right] or

PSYC 459 Animal Behavior Laboratory

Credit Hours 15

Term 5 Milestone Notes

- Begin preparing for an internship or fieldwork related to animal behavior.
- Complete at least 9 upper-division (300-400 level) credit hours.
- Complete Applied Oral Communication Elective 3 Credit Hours *

Term 6

Arts and Humanities Elective **3** *Credit Hours* *
Social Sciences (SS) Elective **3** *Credit Hours* * (not PSYC)

Social Sciences (SS) Elective 3 *Credit Hours* * (not PSYC)
Non-U.S. History 3 *Credit Hours* * (continuation of sequence)

[4] Connections 6 *Credit Hours*

ANBV 301 Design Your Career in Animal Behavior

Credit Hours 18

Term 6 Milestone Notes

- Complete a total of at least 18 upper-division (300-400) hours.
- Discuss careers in animal behavior with faculty mentor.
- Complete Arts and Humanities Elective 3 Credit Hours *
- Complete Social Sciences (SS) Elective 3 Credit Hours * (not PSYC)

Term 7

[4] Connections 3 *Credit Hours*
Non-U.S. History 3 *Credit Hours* *
Approaches in Animal Behavior courses 6 *Credit Hours*
Practical Experience requirement 3 *Credit Hours*

Credit Hours 15

Term 7 Milestone Notes

Complete a total of at least 24 upper-division (300-400) hours

Engage in independent research experiences

Term 8

Approaches in Animal Behavior courses 3 *Credit Hours*
Engaged Inquiries (EI) Elective 6 *Credit Hours* *
[5] Electives (major) 6 *Credit Hours*

Credit Hours 15

Term 8 Milestone Notes

- Complete at least 42 upper-division (300-400) credit hours.

Total Credit Hours 120-123

Footnotes

The Introductory Biology requirement can be completed through: (a) BIOL 101*-BIOL 102* OR BIOL 150*-BIOL 160*-BIOL 159*. To meet the College of Arts and Sciences' "Perspectives" requirement in Natural Sciences, students must complete 8 hours of a lab science.
The courses indicated meet both a Volunteer Core requirement and a major requirement. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase the time to degree completion.
The statistics requirement can be completed through: MATH 153, STAT 201*, STAT 251, or EEB 411*
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework.
All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

* Meets Volunteer Core Requirements

Rationale* The University of Tennessee has already approved the curricular framework for a degree in Animal Behavior, originally designed as a Bachelor of Science. When this program was first developed, the proposal was circulated to all departments with courses included in the curriculum. Eighteen academic units reviewed the plan and provided their approval, confirming that the program was feasible and appropriately supported across disciplines.
During the curriculum change process, we were advised that there was no existing line for an Interdisciplinary Programs Bachelor of Science degree. As a result, we were directed to move forward under the framework of an Interdisciplinary Programs Bachelor of Arts, establishing a concentration in Animal Behavior. This was an administrative adjustment rather than a reflection of the intended academic design of the program.
Since then, in consultation with our THEC campus representative, we have confirmed that it is possible to propose an Interdisciplinary Programs BS degree with a concentration in Animal Behavior. We are therefore submitting a THECS proposal for this. The approval processes occur in parallel, with the last stage of the university process being the addition of the final university approval letter to the THECS submission. That step is underway.
In implementing this change, we will replace the current B.A. concentration with the B.S. concentration. No new students will be admitted to the B.A., but the degree will be maintained for those already enrolled until all current students complete their studies. This ensures continuity and minimizes disruption for students.
Finally, it is important to emphasize that the program structure remains unchanged from the version originally approved as a B.S. degree by 18 academic units last year. Because the curriculum, course requirements, and interdisciplinary contributions are identical, it is not necessary to repeat the impact review process. The change represents a correction to align the degree designation with the program's original design and academic intent.

Financial Impact* There is no financial impact. The program uses existing courses that were previously approved by all participating academic units when the degree was first proposed as a B.S. program. Eighteen departments reviewed and signed off on the curriculum for a B.S. last year, confirming that staffing and course availability were sufficient to support the program. Please see attached emails.
The current proposal adds new ANBV courses but these were previously INPG 201 (repeated for 3 CH and 1 CR) but the content of the courses are not changing. The current proposal does not alter the structure of the degree; it simply corrects the concentration designation from a B.A. to a B.S. As such, no additional instructional resources, faculty lines, or course sections are required. All contributing units have already accounted for their participation, and the existing program structure has been fully vetted through the original impact review. Because no new demands are being placed on other departments, and because the transition involves replacing the existing B.A. concentration with the B.S. concentration, there are no new financial implications for any unit.

Impact on Other Units* See the Interdisciplinary Programs, BS - Animal Behavior concentration proposal for list of impacted units and attachments of emails from those units.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

College of Arts and Sciences - Interdisciplinary Programs - Justice Studies Certificate

2026-2027 UG End Program

General Catalog Information

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Justice Studies Certificate

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Description

The Undergraduate Certificate in Justice Studies (JUST) offers undergraduate students the opportunity to train in complex and collaborative sociolegal problem solving to address the diverse issues faced by marginalized rural and urban Appalachian communities, as articulated by those communities themselves. The certificate is offered through the newly established Justice Studies interdisciplinary program, home to the Appalachian Justice Research Center's undergraduate curriculum. Working with interdisciplinary UTK faculty and community members, undergraduate students will train in capstone, intern, and/or community lab courses, alongside law, graduate, and clinical students. Students will select their courses from a menu of curated courses from across campus, in consultation with the program director/advisor. In addition to the core JUST curriculum, students are required to choose courses from 1) a foundational set of sociolegal and justice studies courses and 2) a robust set of transdisciplinary methods and skill sets needed for an emergent and transforming justice workforce. Completion of the certificate requires an online exit survey for program assessment purposes.

Applicants to the JUST undergraduate certificate program must submit a letter of application and record of coursework to the director(s) of the Appalachian Justice Research Center, including any relevant courses and community experience. Students should tailor their letter to their major's skill sets, their justice interests, and their community background. The JUST certificate is intended as additional study for undergraduate students who are concurrently enrolled in another discipline at the University of Tennessee.

The JUST Undergraduate Certificate consists of a minimum of 12 hours, completed at the upper division level (300 or above), in interdisciplinary coursework outlined as follows. A maximum of 6 credits can overlap between the JUST certificate and the student's home discipline, as approved by the program director. Courses for the certificate must be completed with a grade of "C" or better. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Credit Hours Required

The JUST Undergraduate Certificate consists of a minimum of **12** hours, completed at the upper division level (300 or above). A maximum of 6 credits can overlap between the JUST certificate and the student's home discipline, as approved by the program director. Courses for the certificate must be completed with a grade of "C" or better. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Admissions Standards/Procedures

Applicants to the JUST undergraduate certificate program must submit a letter of application to the director(s) of the Appalachian Justice Research Center, including any relevant courses and community experience. Students should tailor their letter to their major's skill sets, justice interests, and community background. The JUST certificate is intended as additional study for undergraduate students who are concurrently enrolled in another discipline at the University of Tennessee.

Requirements

JUST Core

Three (3) credits chosen from a JUST course.

JUST 200 Foundations in Justice Studies
JUST 400 Special Topics in Justice Studies
JUST 460 Appalachian Justice Research Lab (Lecture)
JUST 492 Internship in Justice Studies
JUST 493 Independent Study in Justice Studies

Foundational and Conceptual Requirements

Six (6) credits chosen from conceptual and foundational courses in sociolegal and justice studies.

SOCI 492N Internship
[After]
[After] * Meets Volunteer Core Requirement.

Non-Course Requirements

Completion of online assessment module (exit survey) upon completion of all other certificate requirements.

Rationale*

The rationale to terminate the Justice Studies Undergraduate Certificate is as follows:

Currently, the Justice Studies Undergraduate Certificate has 0 students, and the Justice Studies Steering Committee (SC), with full support of the Program Chair, has recently voted to end/terminate the Justice Studies Undergraduate Certificate (12 credit hours). The SC wants our IDP's energy and focus to be our new Minor (15 credit hours) that was created last year and launched Fall 2025. Once it became clear JUST was going to pursue a Minor, we had begun anticipating the possible need to terminate the Certificate, in part because the Certificate is much less focused in its menu of course offerings whereas the Minor was a much more concerted curation of possible courses. The Certificate includes over 200 courses as possible options (with many having little to do with the study of justice), whereas the Minor has a menu of 70 courses specifically selected for the value they bring to a student pursuing the study of justice. Former Divisional Dean of Social Sciences, Patrick Grzanka, also encouraged me to consider terminating the Certificate in order to put all of our time on the Minor.

UTK's SACSCOC represenative, Ashley Browning, has also been notified of this, and she has provided the JUST Program Chair with instructions on how to proceed to fulfull SACSCOC requirements and paperwork. Please see attached email.

Impact on Other Units*

Please see attached email notifiying all of the Department Heads representing the Departments that have courses offered in the Justice Studies Undergraduate Certificate. The Departments/Programs notified are as follows:

Africana Studies, Anthropology, Art, Geography, History, Journalism and Media, Philosophy, Political Science, Psychology, Religious Studies, Sociology, Women, Gender, & Sexuality.

Financial Impact*

None.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Number of students in program* 0

Teach out plan*

Given that the JUST undergraduate certificate currently has 0 students enrolled, the teach-out plan seems relatively straightforward: there are no enrolled students, to our knowledge, who will be impacted by the termination of the certificate and therefore no students who will need to be directly communicated with about the end of the program and the teach-out program. We will though make sure to communicate the termination more generally to prospective students, such as those taking JUST 200, the foundational course that is key for recruiting students into the IDP.

If/once the certificate is terminated, the JUST Program Chair will make sure to notify all impacted departments as well as advising offices and marketing/recruitment entities.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Justice Studies Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The undergraduate minor in Justice Studies (JUST) offers students the opportunity to integrate social sciences, humanities, and law in the empirical and theoretical study of legal, political, and economic systems of justice. The Justice Studies curriculum is designed to equip students with a comprehensive but contextualized understanding of justice and injustice from diverse perspectives, including the importance of race, class, gender, sexuality, ecology, and indigeneity in struggles over the meaning and delivery of justice and injustice. This entails a consideration of how precarious populations in local and global contexts often articulate claims to justice that challenge a status quo. To study the politics of justice is to study the sociopolitical forces, structures of power, cultural rhetorics, and historical roots of conflict, harm, and inequality while contextualizing the role of social movements, grassroots organizing, and legal tactics in local to global struggles for a more just world.

The JUST Minor is intended as an additional study for undergraduate students who are concurrently enrolled in a degree program at the University of Tennessee. Students will select their courses from a menu of curated courses from a variety of different departments and programs. Degree programs that might pair well with the JUST Minor are Africana Studies, Anthropology, English, Geography and Sustainability, Global Studies, History, Philosophy, Political Science, Psychology, Religious Studies, Sociology (and Criminology), Women, Gender, and Sexuality Program, and many more. Applicants to the JUST undergraduate minor must submit a letter of application and record of coursework to the Program Chair of Justice Studies.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Credit Hours Required

The Justice Studies minor requires the completion of a minimum of **15** credit hours

Minor Requirements

To earn a Minor in Justice Studies, students are required to 1) take the core, JUST 200-Foundations of Justice Studies, 2) select two courses from the Theoretical and Conceptual Foundations set of courses, and 3) select two courses from the Justice in Historical and Contempoary Contexts set of courses. Completion of the Minor also requires an online exit survey for program assessment purposes.

A maximum of 6 credits can overlap between the JUST Minor and the home discipline of the student, as approved by the program director. Courses for the Minor must be completed with a grade of "C" or better. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this Minor.

JUST Core for Minor

JUST 200 Foundations in Justice Studies

Theoretical and Conceptual Foundations

Select two (2) courses:

AFST 359 African American Intellectual Thought
AFST 425 Black Feminist Theory

Requirements*

Minor Requirements

The minor in linguistics consists of **18 credit hours**.

Complete (12 hours):

AUSP 305 Phonetics
[Right] or
FREN 421 Phonetics
[Right] or
LING 421 Phonetics
[Right] or
SPAN 315 Spanish Phonetics and Phonology
[After]
LING 371* Foundations of the English Language
[Right] or
LING 372 The Structure of Modern English
[After]
LING 423 History of Linguistics
[Right] or
LING 426 Topics in Linguistics Research Methods
[After]
LING 425 Descriptive Linguistics

Select 6 hours (in consultation with advisor):

Only a total of 3 credit hours can be taken from the 100/200 level.

ASL 435* Linguistics of American Sign Language
AUSP 302 Acoustics and Perception
AUSP 305 Phonetics
AUSP 320 Speech and Language Development
CHIN 471* Introduction to Chinese Linguistics
CMST 412 Close Relationships
EDDE 415 Language Development of the Deaf and Hard of Hearing I
EDDE 416* Language Development of the Deaf and Hard of Hearing II
FREN 421 Phonetics
LING 150 How Language Works
LING 200 Language, Linguistics, and Society
LING 321* Introduction to Old English
LING 350 How to Construct a Language
LING 351 Languages of the Middle East and North Africa
LING 371* Foundations of the English Language
LING 372 The Structure of Modern English
LING 400 Topics in Linguistics
LING 421 Phonetics
LING 423 History of Linguistics
LING 426 Topics in Linguistics Research Methods
LING 431 Topics in Hispanic Linguistics
LING 435 Structure of the German Language
LING 471 Sociolinguistics
LING 472 American English
LING 474* Teaching English as a Second or Foreign Language
LING 476 Second Language Acquisition
LING 477* Pedagogical Grammar for ESL Teachers
LING 485 Special Topics in Language
LING 491 Foreign Study
LING 492 Off-Campus Study
LING 493 Independent Study
PHIL 235* Formal Logic
PSYC 314 Cognitive Basis of Behavior
PSYC 400* Advanced Cognitive Psychology
SPAN 315 Spanish Phonetics and Phonology
SPAN 410 Introduction to Hispanic Linguistics
SPAN 420 Applied Linguistics
SPAN 430 Topics in Hispanic Linguistics
SPAN 432 Multilingualism
THEA 326 Voice and Speech for the Stage Actor
WLC 400 Psycholinguistics
WLEL 455 Teaching of World Languages
WLEL 466 ESL Assessment and Evaluation
WLEL 489 Content-Based ESL Methods
[After]
[After] * Meets Volunteer Core Requirements.

Rationale*

Adding LING 150 and LING 200 as electives adds two 100/200-level gateway courses into the minor. These are the only two courses the Linguistics IDP has on the 100/200 level, so the nature of the degree consisting overwhelmingly of upper division courses remains intact.

Financial Impact*

None.

Impact on Other Units*

LING 200 is cross-listed with ENGL 200. I have secured approval from English, see attached email from Gerard Cohen-Vrignaud.

Have you consulted with all programs/departments that will be impacted by this change?*

WGS 332* Women in American Literature
WGS 382* Philosophy of Feminism
WLC 300* Global Texts and Cultures

Rationale*

This list is part of the College of Arts and Sciences "Perspective" requirements section. It was previously a manual list of courses on the CAS main webpage, and was always at risk for errors with course drops and not easy to update or maintain. Creating a new and separate Literature/Philosophy and Religious Thought page so that it is easier to update when courses get added or dropped. The manual list will be removed and replaced with this page/link.

This page will a link added on the main CAS Catalog college page, like the AH and AAH Vol Core pages are linked. Will need a Content and Text form to add the content link to the main CAS page when it's ready.

Added Courses: see attached file.
- adding note that ENGL 339 is not on this new list per request of the ENGL Department, as it always fills enrollment capacity.

Removed Courses due to Course drop or archived:

- ENGL 202*
- ENGL 208*
- ENGL 222
- CLAS 221
- CLAS 222
- RUSS 321
-

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Rationale*

Adding new minors to the CAS Minors shared core for this concentration. These programs will need to be added to the list above list:

College of Arts and Sciences - Anthropology - Archaeology Anthropology Minor | Curriculum

College of Arts and Sciences - Anthropology - Cultural Anthropology Minor | Curriculum

College of Arts and Sciences - Earth, Environmental, and Planetary Sciences - Environmental Science Minor | Curriculum (name change from Environmental Studies to Environmental Science

College of Arts and Sciences - Microbiology - Microbiology Minor | Curriculum

College of Arts and Sciences - Interdisciplinary Programs - Native American and Indigenous Studies Minor | Curriculum

College of Arts and Sciences - World Languages and Cultures - Global and Popular Cultural Studies Minor | Curriculum

Financial Impact*

None

Impact on Other Units*

None

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Women's Health Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Nora Berenstain, Department of Philosophy, Chair

Women, Gender, and Sexuality is a major dedicated to the study of how gender and sexuality shape the past, present, and future of human cultures and societies. Our interdisciplinary curriculum trains students in critical studies of the ways gender and sexuality intersect with race, ethnicity, nationality, dis/ability, and other dimensions of social inequality. Our courses provide students with a wide variety of methodological skills and perspectives with which to conduct their own research, creative activity, and activism.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Requirements*

Campus: Knoxville

Minor requirements

The minor consists of 15 hours.

Required Courses (6 credit hours):

WGS 200* Introduction to Women, Gender, and Sexuality
WGS 464* Feminist Philosophy of Science

Choose any three of the following (9 credit hours):

ANTH 405 Anthropology of Reproduction and Sexuality
ANTH 413* Dynamics of Health and Illness
ANTH 424 Queer Anthropology
CHIN 335 From Fox Spirits to FemTech: Gender, Myth, and Media in China
ENGL 425 Black Feminist Theory
HDFS 240* Human Sexuality
PHIL 382* Philosophy of Feminism
PSYC 435* Multicultural Psychology
PSYC 476 African American Psychology
SOCI 343* Race and Ethnicity
SOCI 346 Sexualities
STHS 200* Introduction to Science, Technology, Health, and Society
WGS 201* Intro to LGBTQ+ Studies
WGS 322 Race, Gender, and Medicine
WGS 335 From Fox Spirits to FemTech: Gender, Myth, and Media in China
WGS 346 Sexualities
WGS 370* Gender and Globalization
WGS 382* Philosophy of Feminism
WGS 383* Feminism and the Environment
WGS 400 Topics in Women, Gender, and Sexuality
WGS 419* Gender and Sexuality in Ancient Western Philosophy
WGS 423 Feminist Anthropology
WGS 424 Queer Anthropology
WGS 425 Black Feminist Theory
WGS 426 Decolonization
WGS 434* Psychology of Gender
WGS 463 Race, Science, and Medicine
[After]
*** Meets Volunteer Core Requirement.**

Rationale*

This proposal adds the following relevant courses, including newly cross-listed courses, to count for our Women's Health minor:

WGS/SOCI 346 - Sexualities

ANTH 405 - Anthropology of Reproduction and Sexuality

WGS/CHIN 335 - From Fox Spirits to FemTech: Gender, Myth, and Media in China

WGS/SOCI 460 - Capitalism and Racism

WGS 490 - Internship

This proposal also adds a course that was cross-listed last academic year, but was not added to the major course list:

WGS/AFST 322 - Race, Gender, and Medicine

We have also removed the required course WGS 201 and instead offer it for credit as an elective.

Financial Impact*

N/A

Impact on Other Units*

Sociology, Anthropology, Africana Studies

Recommended Background

Comments The Appalachian Justice Research Lab (AJRL) is made up of a Lecture and Lab which run as co-requisites and which we refer to together as the AJRL. There is a lab component (3 credits) of the course. It is taught by variable faculty who will directly supervise students in research teams, projects, and curricula. There is also a lecture component (1 credit), where all students and instructors in the course assemble for instruction under the supervision of the AJRC director(s) as instructor(s).

Registration Restriction(s) **Registration Permission**

Equivalency

Rationale* This proposal requests a revision to the grading restriction for JUST 460 - Appalachian Justice Research Lab (Lecture) to be updated from "A-F" to "Satisfactory/No Credit." Over the course of two semesters we have come to the conclusion that JUST 460 should be graded as satisfactory/no credit rather than on a letter scale. Students are required to attend and participate and at times they are required to post discussion questions or reflections, but the bulk of their graded work takes place in the co-requisite course (JUST 461, three credits) rather than in this one credit lecture. Because of the lack of substantial assessable work-product connected directly with the lecture, we think it is more appropriate to grade this one credit component of the course on a satisfactory/no credit basis. This would not affect the granting of letter grades in the co-requisite course, JUST 461.

Rationale* The only change is that the new proposal deletes “series solutions.” in the course description. The Math 231 Course Materials Committee (Tadele Mengesha, chair, Jenny Fowler, Abner Salgado, Grozdena Todorova, and Konstantin Yakunin) included this suggestion in their report regarding the choice of the Math 231 text. The rationale given in their report is: “Mike Berry has shared with us, through the Chair, the results of a survey he conducted on the skills that departments within the College of Engineering expect their students to learn from Math 231. The survey indicates that most engineering departments do not require knowledge of, or are indifferent towards, ‘Series Solutions’. It is also widely recognized that, due to time constraints, many instructors often omit this topic. Therefore, the committee recommends removing ‘Series Solutions’ from the curriculum in favor of covering other important topics such as numerical methods (e.g., Euler’s method), Green's functions, and some boundary value problems.” Any Math 231 instructor still has the option of covering series solutions of ODEs. But by removing the topic from the catalog description, instructors are not obligated to cover it.

Impact on Other Units* None. Only minor updates to the course description.

Rationale* Changed title name and description:
The name *Linear Algebra* properly describes the content of the courses, which does not only deal with matrices, but also with vector spaces and linear transformations, and is the standard name for similar courses.

Moreover, the current title has caused problems with students trying to transfer credits to other universities, which assumed that our “Matrix Algebra” course was not equivalent to their “Linear Algebra” course.

Impact on Other Units* Only the title changed. No impact to units listed.

Equivalency MATH 487

Rationale* We propose changing the course name for Math 453 from 'Matrix Algebra II' to 'Linear Algebra II' (along with changing the names of Math 251/257, which are separate proposals). This course does not only deal with matrices, but also with vector spaces and linear transformations. 'Linear Algebra' is the standard name for similar courses at other institutions, and this change will also help with facilitating transfer credit from UT to other places.

While making the name change, we also propose changing the course description to better communicate about the content of the course.

Registration Restriction(s)

Registration Permission

Equivalency MATH 453

Rationale* In the past, there were two groups of students taking MATH 453: students interested in an applications-oriented approach and those interested in a proof-based approach. As its only prerequisite is MATH 200 or MATH 251 or 257, and does not require MATH 300, MATH 453 cannot be “proof-based.”

This new course is designed to fill this need and serve this second group of students, adding MATH 300 as a prerequisite to MATH 251 or MATH 257. Based on past enrollment history, we expect to have enough students to run both MATH 453 and 487.

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Microbiology

Subject/Prefix (choose from list)* MICR

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 495*

Course Title (max 100 characters)* Microbiology in Practice: Science Communication and Professional Skills

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description Development of professional skills (oral presentation, critical analysis and writing) with consideration of microbiological problems of current and historical interest. The historical background, impact on society, future directions of the science of microbiology are discussed. Emphasis on oral presentations and written reports and the development of constructive critical technique.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement: (AOC)

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Mathematics

Program Name* Mathematics Major, BS

Degree Type* Bachelor of Science

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The undergraduate mathematics major is designed to provide a broad introduction to mathematics which serves as preparation for a wide variety of careers. The requirements below, which provide a solid introduction to four of the core components of mathematics, should be regarded as minimal preparation for careers in mathematics or closely related mathematical fields. Students with special interests and talents are encouraged to take as many other mathematics courses as their schedule permits. In order to graduate, majors must take MATH 495.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Prerequisites

Each course must be completed with a grade of C or better.

Select one course:

MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 147* Honors: Calculus I

Select one course:

MATH 142* Calculus II
MATH 148* Honors: Calculus II

Select one option:

[Before]Option (a): Take the following course

MATH 171 Computer Literacy for Mathematics
[Before]Option (b): Take both the following courses

COSC 103 Introduction to Computer Science
COSC 104 Introduction to Computer Science Labratory

Major Requirements

The concentration consists of **41 hours** in fourteen courses divided into five categories: (1) core courses, (2) courses for breadth, (3) courses for education breadth, (4) courses for depth and (5) additional courses (to reach 41 hours).

1. For the Core, complete all of the following (or honors equivalents):

MATH 231 Differential Equations I
MATH 241 Calculus III
MATH 251 Matrix Algebra I
MATH 295 Introduction to Mathematical Sciences
MATH 300 Introduction to Abstract Mathematics
MATH 495 Math Proficiency

2. For Breadth, select one course from each category:

Algebra

MATH 351 Introduction to Abstract Algebra
MATH 457 Honors: Abstract Algebra I
MATH 458 Honors: Abstract Algebra II

Analysis

MATH 341 Introduction to Analysis
MATH 447 Honors: Analysis I

Numerical Analysis

COSC 370 Introduction to Scientific Computing
MATH 371 Numerical Algorithms
MATH 471 Numerical Analysis
MATH 472 Numerical Algebra

Probability and Statistics

MATH 323 Probability and Statistics
MATH 423 Probability

MATH 424 Stochastic Processes
MATH 425 Statistics

3. For Depth, select one of the following pairings:

MATH 423 Probability
MATH 424 Stochastic Processes

or (a)

MATH 423 Probability
MATH 425 Statistics

or (b)

MATH 421 Combinatorics
MATH 423 Probability

or (c)

MATH 447 Honors: Analysis I
MATH 448 Honors: Analysis II

or (d)

MATH 443 Complex Variables
MATH 447 Honors: Analysis I

or (e)

MATH 450 Number Theory
MATH 457 Honors: Abstract Algebra I

or (f)

MATH 471 Numerical Analysis
MATH 472 Numerical Algebra

or (g)

MATH 471 Numerical Analysis
MATH 475* Industrial Mathematics

or (h)

MATH 472 Numerical Algebra
MATH 475* Industrial Mathematics

or (i)

MATH 431 Differential Equations II
MATH 435 Partial Differential Equations

or (j)

MATH 431 Differential Equations II
MATH 453 Matrix Algebra II

or (k)

MATH 462 Differential Geometry
MATH 467 Honors: Topology

or (l)

MATH 420 Graph Theory
MATH 421 Combinatorics

4. Select additional courses to reach a total of 41 hours:

any 400 level mathematics courses (except MATH 490, MATH 498, and MATH 499)
mathematics graduate courses with approval of the department

Honors Concentration – Mathematics Major, BS

The Mathematics Department Honors Program offers highly talented students an accelerated curricular path that permits them to enroll in graduate-level mathematics courses as early as the junior year, providing excellent preparation for graduate school or competitive careers in mathematics or related areas. In mathematics, unlike many other fields, graduate students are generally supported by graduate assistantships or fellowships that pay tuition plus an annual living stipend. In recent years, 100% of math honors graduates who have applied for a math graduate assistantship have received at least one offer to a very good graduate school. Other graduates have continued to graduate school in computer science, economics, education, finance, law, medicine, and statistics.

In addition to a more rapid curriculum, the honors program offers enhanced academic advising and opportunities for students to interact with their peers through the Honors Seminar (MATH 397), in which honors students prepare for graduate school in mathematics and related fields.

For purposes of the mathematics honors requirements, the upper-division mathematics GPA (MGPA) consists of the GPA for all courses numbered MATH 300-475, except MATH 309 and MATH 399, and all graduate courses numbered MATH 510 or higher. If the student has completed more than 8 such courses then the MGPA is calculated using the 8 highest grades for those courses.

The mathematics honors concentration is open to students who finish at or near the top of the MATH 300/MATH 307 class. The students are nominated by their MATH 300/MATH 307 teachers, then they are selected by the mathematics honors committee to join the mathematics honors concentration. The mathematics honors concentration must be declared prior to the last 60 hours of undergraduate enrollment (usually this means prior to the beginning of the junior year). The 60 hours requirement may be waived for students having a large number of transfer, AP, or other credits not earned at the University of Tennessee.

To continue as a mathematics major with honors concentration the student must:

Maintain a 3.4 or higher cumulative MGPA. (Any mathematics honors student whose cumulative MGPA drops below 3.4 in a given semester may keep the honors concentration provided the cumulative MGPA returns to 3.4 after the subsequent semester and remains above 3.4 until graduation.)

Attend at least three mathematics-related public lectures (such as the Mathematics Junior Colloquium or a departmental seminar) during each semester.

Make adequate progress towards completing the mathematics honors thesis at least one full semester prior to graduation.

The requirements to graduate with honors in mathematics are the same as those for the mathematics major along with the additional requirements below:

For Depth (3), complete 2 pairings, one of which must be an honors sequence (MATH 447-MATH 448, MATH 457-MATH 458), a pairing taken as honors through honors-by-contract, or a math graduate sequence.

Graduate with an overall GPA of at least 3.25 and an MGPA of at least 3.4.

Complete 3 hours of MATH 397.

Complete MATH 398 every semester that you are a member of the Math Honors Program.

Complete at least 3 hours of MATH 498 and submit a completed thesis at least 30 calendar days prior to the end of the final semester of enrollment.

Complete one of MATH 447, MATH 457, MATH 467, or a math graduate course with approval of the department.

Complete a total of 18 hours of math honors courses or mathematics graduate courses with approval of the department, which may include courses used to fulfill other requirements to graduate with a mathematics honors concentration.

* Meets Volunteer Core Requirements.

Rationale* We are proposing two changes for all math major concentrations: (1) Require a C or better in the courses that are prequisite to the math major. (2) Update the relevant requirement to be aligned with the proposed changes by EECS to archive COSC 102 and replace it with courses COSC 103 and 104.

The rationale for (1):

In order to be successful in their math major, students need to master the material in the prerequisite courses. Currently, students only need a D- or higher in the courses that are prerequisites to the math major (Calculus 1, Calculus 2, and an introduction to programming), and we propose changing this to a grade of C or higher, in order to provide students with a solid foundation for their math major. Also, we do currently require a grade of C or better in the prerequisite courses for the math minor. So we currently have stronger prerequisite requirements for the minor than for the major, and we wish to align these.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Total Credit Hours 120-122

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.

Rationale* We are updating the uTrack requirements to align with the proposed changes to the prerequisites for the math major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

College Requirements

Arts and Sciences

Prerequisites

Each course must be completed with a grade of C or better.

Select one course:

MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 147* Honors: Calculus I

Select one course:

MATH 142* Calculus II
MATH 148* Honors: Calculus II

Select one option:

[Before]Option (a): Take the following course.

MATH 171 Computer Literacy for Mathematics
[Before]Option (b): Take both the following courses.

COSC 103 Introduction to Computer Science
COSC 104 Introduction to Computer Science Laboratory

Concentration Requirements

The concentration consists of 41 hours in fourteen courses divided into five categories: (1) core courses, (2) courses for breadth, (3) courses for actuarial breadth, (4) courses for depth, and (5) additional courses (to reach 41 hours).

1. For the Core, complete all of the following (or honors equivalents):

MATH 231 Differential Equations I
MATH 241 Calculus III
MATH 251 Matrix Algebra I
MATH 300 Introduction to Abstract Mathematics
MATH 495 Math Proficiency

2. For Breadth, select one course from each category:

Algebra

MATH 351 Introduction to Abstract Algebra
MATH 450 Number Theory
MATH 457 Honors: Abstract Algebra I
MATH 458 Honors: Abstract Algebra II

Analysis

MATH 341 Introduction to Analysis
MATH 447 Honors: Analysis I

Numerical Analysis

COSC 370 Introduction to Scientific Computing
MATH 371 Numerical Algorithms
MATH 471 Numerical Analysis
MATH 472 Numerical Algebra

Probability and Statistics

MATH 323 Probability and Statistics
MATH 423 Probability
MATH 424 Stochastic Processes
MATH 425 Statistics

3. For Actuarial Breadth, select one course from each category:

(a) Financial Math

MATH 222 Financial Mathematics

(b) Actuarial Science Problems

MATH 322 Actuarial Science Problems in Financial Math
MATH 422 Actuarial Science Problems in Probability

(c) Modeling

MATH 405* Models in Biology
MATH 411* Mathematical Modeling
MATH 426 Statistics for Risk Modeling
MATH 475* Industrial Mathematics

4. For Depth, select one of the following pairings:

pair 1

MATH 423 Probability
MATH 424 Stochastic Processes

or pair 2

MATH 423 Probability
MATH 425 Statistics

5. Select additional courses to reach a total of 41 hours:

any 400 level mathematics courses (except MATH 490, MATH 497, MATH 498, and MATH 499)

mathematics graduate courses with approval of the department

*** Meets Volunteer Core Requirements.**

Rationale*

We are proposing two changes for all math major concentrations: (1) Require a C or better in the courses that are prequisite to the math major. (2) Update the relevant requirement to be aligned with the proposed changes by EECS to archive COSC 102 and replace it with courses COSC 103 and 104.

The rationale for (1):

In order to be successful in their math major, students need to master the material in the prerequisite courses. Currently, students only need a D- or higher in the courses that are prerequisites to the math major (Calculus 1, Calculus 2, and an introduction to programming), and we propose changing this to a grade of C or higher, in order to provide students with a solid foundation for their math major. Also, we do currently require a grade of C or better in the prerequisite courses for the math minor. So we currently have stronger prerequisite requirements for the minor than for the major, and we wish to align these.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Department* Mathematics

Program Name* Mathematics Major, BS - Actuarial Sciences Concentration (uTrack Requirements)

Degree Type* Bachelor of Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

[1] Elective **1** *Credit Hours*

Term 3 Milestone Notes

[Before]A grade of C or better in one course from:

MATH 142* Calculus II
MATH 148* Honors: Calculus II

Term 4

Applied Oral Communication (AOC) Elective **1-3** *Credit Hours* *

[1] Elective **1-2** *Credit Hours*

Non-U.S. History **3** *Credit Hours* * (continuation of sequence)

[Before]Select the one MATH course or two COSC courses:

MATH 171 Computer Literacy for Mathematics
COSC 103 Introduction to Computer Science
COSC 104 Introduction to Computer Science Labratory
[After]
[Before]Select one course:
MATH 251 Matrix Algebra I
MATH 257 Honors: Matrix Algebra I
[After]
[Before]Select one course:
MATH 300 Introduction to Abstract Mathematics
MATH 307 Honors: Introduction to Abstract Mathematics

Credit Hours 14-18

Term 4 Milestone Notes

ENGL 102* English Composition II
MATH 241 Calculus III
[Right] with a grade of C or better

Term 5

Arts and Humanities (AH) (Lit/Phil/Rel Thought) Elective **3** *Credit Hours* *

[2] Connections **6** *Credit Hours*

Mathematics (major) **6** *Credit Hours*

Credit Hours 15

Term 5 Milestone Notes

[Before]Complete both with a grace of C or better:
MATH 231 Differential Equations I
MATH 251 Matrix Algebra I
[After]
[Before]Complete the one MATH course or the two COSC courses with a grade of C or better:

MATH 171 Computer Literacy for Mathematics
COSC 103 Introduction to Computer Science
COSC 104 Introduction to Computer Science Labratory

Term 6

Arts and Humanities (AH) Elective 3 *Credit Hours* *

Global Citizenship - United States (GCUS) Elective 3 *Credit Hours* *

Mathematics (major) 6 *Credit Hours*

Social Sciences (SS) Elective 3 *Credit Hours* *

Credit Hours 15

Term 6 Milestone Notes

Completion of at least 9 upper-division (300-400 level) hours

Term 7

Mathematics (major) 6 *Credit Hours*

Oral Communication (OC) Elective 3 *Credit Hours* *

Written Communication (WC) Elective 3 *Credit Hours* *

[Before]1,3 Select one Engaged Inquiries Elective 3 *Credit Hours* *:
MATH 405* Models in Biology
MATH 411* Mathematical Modeling
MATH 475* Industrial Mathematics

Credit Hours 15

Term 7 Milestone Notes

Completion of at least 24 total upper-division (300-400 level) hours

Term 8

[2] Connections 3 *Credit Hours*

[1] Elective 3 *Credit Hours*

Mathematics (major) 9 *Credit Hours*

MATH 495 Math Proficiency

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120-121

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-

400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.

Rationale* We are updating the uTrack requirements to align with the proposed changes to the prerequisites for the math major.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

College Requirements

Arts and Sciences

Prerequisites

Each course must be completed with a grade of C or better.

Select one course:

MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 147* Honors: Calculus I

Select one course:

MATH 142* Calculus II
MATH 148* Honors: Calculus II

Select one option:

[Before]Option (a): Take the following course

MATH 171 Computer Literacy for Mathematics
[Before]Option (b): Take both the following courses

COSC 103 Introduction to Computer Science
COSC 104 Introduction to Computer Science Labratory

Concentration Requirements

The concentration consists of 41 hours in fourteen courses divided into five categories: (1) core courses, (2) courses for breadth, (3) courses for education breadth, (4) courses for depth, and (5) additional courses (to reach 41 hours).

1. For the Core, complete all of the following (or honors equivalents):

MATH 231 Differential Equations I
MATH 241 Calculus III
MATH 251 Matrix Algebra I
MATH 295 Introduction to Mathematical Sciences
MATH 300 Introduction to Abstract Mathematics
MATH 495 Math Proficiency

2. For Breadth, select one course from each category:

Algebra

MATH 351 Introduction to Abstract Algebra
MATH 450 Number Theory
MATH 457 Honors: Abstract Algebra I
MATH 458 Honors: Abstract Algebra II

Analysis

MATH 341 Introduction to Analysis
MATH 447 Honors: Analysis I

Numerical Analysis

COSC 370 Introduction to Scientific Computing
MATH 371 Numerical Algorithms
MATH 471 Numerical Analysis
MATH 472 Numerical Algebra

Probability and Statistics

MATH 323 Probability and Statistics
MATH 423 Probability
MATH 424 Stochastic Processes
MATH 425 Statistics

MATH 425 Statistics

3. For Applied Breadth, select one course from each category:

(a)

MATH 435 Partial Differential Equations
MATH 453 Matrix Algebra II

(b)

MATH 405* Models in Biology
MATH 411* Mathematical Modeling
MATH 475* Industrial Mathematics
MATH 498 Senior Honors Thesis

(c)

any 300-400 level course in an area outside of mathematics, or an additional foundational course, chosen in consultation with an advisor and approved by the Director of Undergraduate Studies.

4. For Depth, select one of the following pairings:

MATH 423 - Probability

MATH 424 - Stochastic Processes

or (a)

MATH 423 Probability
MATH 425 Statistics

or (b)

MATH 471 Numerical Analysis
MATH 472 Numerical Algebra

or (c)

MATH 471 Numerical Analysis
MATH 475* Industrial Mathematics

or (d)

MATH 472 Numerical Algebra
MATH 475* Industrial Mathematics

5. Select additional courses to reach a total of 41 hours:

approved 300 or 400 level courses outside of mathematics

400 level math courses, chosen in consultation with an advisor

mathematics graduate courses with approval of the department

* Meets Volunteer Core Requirements.

Rationale*

We are proposing two changes for all math major concentrations: (1) Require a C or better in the courses that are prequisite to the math major. (2) Update the relevant requirement to be aligned with the proposed changes by EECS to archive COSC 102 and replace it with courses COSC 103 and 104.

The rationale for (1):

In order to be successful in their math major, students need to master the material in the prerequisite courses. Currently, students only need a D- or higher in the courses that are prerequisites to the math major (Calculus 1, Calculus 2, and an introduction to programming), and we propose changing this to a grade of C or higher, in order to provide students with a solid foundation for their math major. Also, we do currently require a grade of C or better in the prerequisite courses for the math minor. So we currently have stronger prerequisite requirements for the minor than for the major, and we wish to align these.

Financial Impact*

None

Impact on Other Units*

None

MATH 472 Numerical Algebra
MICR 321 Advanced Microbiology
MICR 329 Advanced Microbiology Laboratory
MICR 330 Immunology
MICR 421 Food Microbiology
MICR 470 Microbial Ecology
WFS 340* Wetlands Ecology and Management
WFS 401* Ecology and Management of Wildlife Health
WFS 431 Wildlife Physiology and Nutrition
WFS 443 Ecology and Management of Fishes
WFS 444 Ecology and Management of Wild Mammals
[After]

Graduate courses in Mathematical Ecology or Biological Sciences can be used with approval of the department.

[After] * Meets Volunteer Core Requirements.

Rationale*

We are proposing two changes for all math major concentrations: (1) Require a C or better in the courses that are prequisite to the math major. (2) Update the relevant requirement to be aligned with the proposed changes by EECS to archive **COSC 102** and replace it with courses **COSC 103** and **COSC 104.**

The rationale for (1):

In order to be successful in their math major, students need to master the material in the prerequisite courses. Currently, students only need a D- or higher in the courses that are prerequisites to the math major (Calculus 1, Calculus 2, and an introduction to programming), and we propose changing this to a grade of C or higher, in order to provide students with a solid foundation for their math major. Also, we do currently require a grade of C or better in the prerequisite courses for the math minor. So we currently have stronger prerequisite requirements for the minor than for the major, and we wish to align these.

Also removed BIOL 158*, 167*, and 168* honors courses - BIOL department is dropping the courses.

Financial Impact*

None

Impact on Other Units*

None

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

MATH 495 Math Proficiency

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120-123

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

*** Meets Volunteer Core Requirements.**

Rationale*

We are updating the uTrack requirements to align with the proposed changes to the prerequisites for the math major.

- Added milestones for completion of 12 credit hours in term 1, 24 credit hours in Term 2, and 36 credit hours in term 3.
- Changed language in Term 2 Milestones for a C or better in one course.
- Added **MATH 147*** to Term 2 Milestones
- Changed language in Term 3 Milestones for a C or better in one course
- Added **MATH 148*** to Term 3 Milestone
- Removed **COSC 102** from Term 4. Added **COSC 103** and **COSC 104.**
- Changed language in Term 5 Milestones -Complete the one MATH or two COSC courses with a C or better. Added **COSC 103** and **COSC 104**

Requirements*

College Requirements

Arts and Sciences

Prerequisites

Each course must be completed with a grade of C or better.

Select one course:

MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 147* Honors: Calculus I

Select one course:

MATH 142* Calculus II
MATH 148* Honors: Calculus II

Select one option:

[Before]Option (a): Take the following course

MATH 171 Computer Literacy for Mathematics
[Before]Option (b): Take both the following courses

COSC 103 Introduction to Computer Science
COSC 104 Introduction to Computer Science Labratory

Concentration Requirements

The concentration consists of 41 hours in fourteen courses divided into five categories: (1) core courses, (2) courses for breadth, (3) courses for education breadth, (4) courses for depth, and (5) additional courses (to reach 41 hours).

1. For the Core, complete all of the following (or honors equivalents):

MATH 231 Differential Equations I
MATH 241 Calculus III
MATH 251 Matrix Algebra I
MATH 295 Introduction to Mathematical Sciences
MATH 300 Introduction to Abstract Mathematics
MATH 495 Math Proficiency

2. For Breadth, select one course from each category:

Algebra

MATH 351 Introduction to Abstract Algebra
MATH 450 Number Theory
MATH 457 Honors: Abstract Algebra I
MATH 458 Honors: Abstract Algebra II

Analysis

MATH 341 Introduction to Analysis
MATH 447 Honors: Analysis I

Numerical Analysis

COSC 370 Introduction to Scientific Computing
MATH 371 Numerical Algorithms
MATH 471 Numerical Analysis
MATH 472 Numerical Algebra

Probability and Statistics

MATH 323 Probability and Statistics
MATH 423 Probability
MATH 424 Stochastic Processes
MATH 425 Statistics

MATH 425 Statistics

3. For Education Breadth, select one course:

INPG 385 VolsTeach: Research Methods in Science
TPTE 355 Introduction to Secondary Schools

4. For Depth, select one of the following pairings:

MATH 400 - History of Mathematics

MATH 460 - Geometry

or

MATH 460 - Geometry

INPG 353* - VolsTeach: Perspectives on Math and Science

5. Select additional courses to reach a total of 41 hours:

Any 400-level MATH courses, except for MATH 497, MATH 498 and MATH 499 (If INPG 353* is used to satisfy the Depth requirement, MATH 400 may not be used to satisfy this requirement).

mathematics graduate courses with approval of the department

*** Meets Volunteer Core Requirements.**

Rationale*

We are proposing two changes for all math major concentrations: (1) Require a C or better in the courses that are prequisite to the math major. (2) Update the relevant requirement to be aligned with the proposed changes by EECS to archive COSC 102 and replace it with courses COSC 103 and 104.

The rationale for (1):

In order to be successful in their math major, students need to master the material in the prerequisite courses. Currently, students only need a D- or higher in the courses that are prerequisites to the math major (Calculus 1, Calculus 2, and an introduction to programming), and we propose changing this to a grade of C or higher, in order to provide students with a solid foundation for their math major. Also, we do currently require a grade of C or better in the prerequisite courses for the math minor. So we currently have stronger prerequisite requirements for the minor than for the major, and we wish to align these.

MATH 457 Honors: Abstract Algebra I
MATH 458 Honors: Abstract Algebra II

Analysis

MATH 341 Introduction to Analysis
MATH 447 Honors: Analysis I

Numerical Analysis

COSC 370 Introduction to Scientific Computing
MATH 371 Numerical Algorithms
MATH 471 Numerical Analysis
MATH 472 Numerical Algebra

Probability and Statistics

MATH 323 Probability and Statistics

MATH 423 Probability
MATH 424 Stochastic Processes
MATH 425 Statistics

3. For Theoretical Breadth, select one course from each category:

Algebra

MATH 450 Number Theory
MATH 454 Honors: Linear Algebra II
MATH 457 Honors: Abstract Algebra I

Analysis

MATH 447 Honors: Analysis I
MATH 443 Complex Variables

Geometry/Topology

MATH 467 Honors: Topology
MATH 462 Differential Geometry

4. For Depth, select one of the following pairings:

MATH 447 Honors: Analysis I
MATH 448 Honors: Analysis II

or (a)

MATH 443 Complex Variables
MATH 447 Honors: Analysis I

or (b)

MATH 450 Number Theory
MATH 457 Honors: Abstract Algebra I

or (c)

MATH 462 Differential Geometry
MATH 467 Honors: Topology
[After] **or**
[After] With approval of the department a graduate sequence can be used to satisfy this requirement.

5. Select additional courses to reach a total of 41 hours:

MATH 420 Graph Theory
MATH 421 Combinatorics
MATH 423 Probability
MATH 424 Stochastic Processes
MATH 425 Statistics
MATH 431 Differential Equations II
MATH 435 Partial Differential Equations
MATH 443 Complex Variables
MATH 447 Honors: Analysis I
MATH 448 Honors: Analysis II
MATH 450 Number Theory
MATH 453 Matrix Algebra II
MATH 454 Honors: Linear Algebra II
MATH 457 Honors: Abstract Algebra I
MATH 458 Honors: Abstract Algebra II
MATH 462 Differential Geometry
[After] Graduate courses in Algebra, Analysis, Geometry, Topology, Probability or Differential Equations with approval of the department.

*** Meets Volunteer Core Requirements.**

Rationale*

After the concentration was first designed, some courses were removed from the catalog which reduced the options and required the non-honors students in this concentration to take at least two 400-level honors courses. Currently this concentration is difficult for students to complete due to the limited number of options, the course rotation schedule, and course cancellations. We propose changing this concentration to make it more viable for students.

At the same time, we are proposing to change the prerequisite in all math major concentrations to ensure students have the solid foundation needed to be successful in the major.

Lastly, we are making an update to be aligned with the proposed changes by EECS to archive COSC 102 and replace it with courses COSC 103 and 104.

Financial Impact* none

Impact on Other Units* none

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Mathematics

Program Name* Mathematics Major, BS - Theoretical Math Concentration (uTrack Requirements)

Degree Type* Bachelor of Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

[1] Elective **1** *Credit Hours*

Foreign Language **3** *Credit Hours* (intermediate level)

Natural Sciences (NS) Elective w/Lab **4** *Credit Hours* *

[1] Engaged Inquiries (EI) Elective **3** *Credit Hours* *

Mathematics (major) **9** *Credit Hours*

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120-124

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

*** Meets Volunteer Core Requirements.**

Rationale* We are updating the uTrack requirements to align with the proposed changes to the prerequisites for the math major.

- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description A minor in Microbiology consists of a minimum of 15 credit hours beyond the pre-requisite course. The minor is designed to give students flexibility to explore different areas within microbiology including human health and ecological systems.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Requirements

The minor consists of a minimum of 15 credit hours beyond the prerequisite course. Students cannot obtain a Microbiology minor if they already have a concentration in Microbiology.

Prerequisite:

BIOL 220 General Microbiology

Minor Program

Select 3 courses from the following:

MICR 321 Advanced Microbiology
MICR 330 Immunology
MICR 410 Microbial Physiology
MICR 411 Microbial Genetics
MICR 420 Microbial Pathogenesis
MICR 431 Advanced Immunology
MICR 440 Virology
MICR 470 Microbial Ecology
MICR 480 Genomics and Bioinformatics

Select from the following for the remaining hours (to total a minimum of 15 credit hours)

MICR 209 Introduction to Lab Research Techniques
MICR 305 Global Emerging Infectious Diseases and One Health
MICR 309 Introduction to Independent Research
MICR 321 Advanced Microbiology
MICR 329 Advanced Microbiology Laboratory
MICR 330 Immunology
MICR 333* Astrobiology
MICR 401 Undergraduate Research in Microbiology
MICR 410 Microbial Physiology
MICR 411 Microbial Genetics
MICR 420 Microbial Pathogenesis
MICR 421 Food Microbiology
MICR 429 Medical Microbiology Laboratory
MICR 431 Advanced Immunology
MICR 435 Quantitative Analysis of Biological Data
MICR 440 Virology
MICR 459 Introduction to Oceanography
MICR 465 Geomicrobiology
MICR 470 Microbial Ecology
MICR 475 Reproducible Data Analysis
MICR 479 Advanced Techniques in Nucleic Acid Sequencing
MICR 480 Genomics and Bioinformatics
MICR 495* Senior Seminar: Perspectives in Microbiology
[After] * Satisfies Volunteer Core Requirements

Rationale*

We are proposing the creation of a minor in Microbiology to better service our undergraduate population. Students majoring in a wide-range of degree programs will often enrol in Microbiology courses to enhance their knowledge as they prepare for advanced degrees and/or future careers within human, animal, and ecological health, as well as agricultural and industrial settings.

Financial Impact*

A pre-requisite for this minor is BIOL 220, General Microbiology. This course is offered through the Division of Biology but is staffed via faculty and graduate teaching assistants in Microbiology.

Impact on Other Units*

A pre-requisite for this minor is BIOL 220, General Microbiology. This course is offered through the Division of Biology but is staffed via faculty and graduate teaching assistants in Microbiology. BIOL 220 does have prerequesites as well, but those are under the Division of Biology. We have consulted with those departments and leadership of the Division of Biology regarding this change.

Have you consulted with all programs/departments that will be impacted by this change?*

Equivalency* PHYS 441

Rationale* Changing course from PHYS 441 to PHYS 241.

We are changing this class from an upper-division elective to one of the (lower-level) alternatives for our introductory programming requirement. This includes tweaks to the course description and changing the second-semester intro physics prerequisite to a corequisite. This is motivated by the computer science department's changes in COSC 102, which used to be required for physics majors and now no longer meets the department's needs.

Impact on Other Units* There will potentially be slightly fewer physics majors enrolling in introductory computer science classes.

Impact Report for PHYS 441.

Course Description Fundamental concepts of modern physics and their applications to atomic, nuclear, particle, and condensed matter physics, with lab.

Satisfies Volunteer Core Requirement:

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale* In Fall 2022, we replaced PHYS 232 & PHYS 250 with PHYS 251 & PHYS 252. We last offered PHYS 232 in Spring 2023 and PHYS 250 in Fall 2022. We are now archiving the courses and removing them from programs.

Impact on Other Units*

Credit Hours* 4

Course Description Explores the fundamentals of quantum physics and applications to solid state physics, nuclear physics, particle physics, and cosmology. Topics covered include: The nature of photons; Wave particle duality; Application of the Schrödinger Equation to simple steps and barriers; and Models of single- and multi-electron atoms. This course includes a laboratory component that may be incorporated into the class time in a studio physics modality. Basic scientific computing will be integrated into the course.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Rationale* We are adding PHYS 241 - Introduction to Computational Physics (formerly PHYS 441) to count as one of the options for introductory programming, so adding this course as one of the prerequisites for this class.
Also, removed COSC 102 (dropped course) and added COSC 103 and COSC 104 to replace it.

Impact on Other Units*

This particular proposal does not impact other departments. We include the impact in the proposal to change the program. While the impact report indicates other departments may use this course, these students will still be able to enroll in this class.

Rationale* In Fall 2022, we replaced PHYS 232 & PHYS 250 with PHYS 251 & PHYS 252. We are now removing PHYS 232 & PHYS 250 as prerequisite options. Last year, we also started requiring vector calculus and matrix algebra, so we no longer need to a 200-level or higher in advanced calculus as a recommended background.

Impact on Other Units*

Notes

College of Arts and Sciences - POLS - 330

2026-2027 UG Drop/Archive Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Political Science

Subject/Prefix (choose from list)* POLS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 330

Course Title (max 100 characters)* Law in American Society

Credit Hours* 3

Change course status from active to:* (•) Dropped ( ) Archived

Course Description Law as a process through which social problems are addressed in the United States. Examples from case law, legislation, and administrative regulation.

Satisfies Volunteer Core Requirement:

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale* The title and description of this class is too broad and vague. In addition, students' demand for pre-law courses has been increasing. Therefore, the Department of Political Science proposes to add more specialized courses that discuss various aspects of the American legal system. This class is replaced by those new courses.

Impact on Other Units*

Rationale* This course has been taught for years as a supervised research/fieldwork course that has combined lecture with didactic training with Contact Care/Crisis Intervention. This proposal is splitting the course into one lecture-based course and an experiential/internship component.

This is the experiential component/field work that will accompany the didactic course of PSYC 393. Students will first take PSYC 393 and learn about Crisis Intervention Psychology, then, if they choose, they can partake in this course as field experience, specifically in sites that deal with crisis intervention. This course has been running as one course that was originally split, with half of the semester didactic and half the semester experience. The department believes this would be better split, giving students the option to just take the didactic without the field experience.

Course Description This course examines theories and research about mindfulness as a construct in psychology and neuroscience. Areas of review include domains such as education and the workplace, technological impacts, and applications for health and well being.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Philosophy

Program Name* Philosophy Major, BA

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Philosophy major provides students with a rigorous education in critical thinking, analysis, and clear communication. Students engage with fundamental questions about knowledge, ethics, science, medicine, and the human condition while studying both historical and contemporary philosophical traditions. The major cultivates intellectual breadth, reasoning skills, and interpretive depth that serve as excellent preparation for graduate study in philosophy and related fields, as well as for careers in law, medicine, public policy, business, and beyond.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Major Requirements

The major consists of 30 hours of courses. At least 6 hours must be taken at the 400-level or above; PHIL 407 may not be used to satisfy this 6-hour requirement.

I. Complete: (3 Credit Hours)

PHIL 235* Formal Logic

II. Select one course from each area:

A. Ancient Philosophy (3 Credit Hours)

PHIL 320* Ancient Western Philosophy
PHIL 322* Medieval Philosophy
PHIL 327* Honors: Ancient Western Philosophy

B. Modern Philosophy (3 Credit Hours)

PHIL 324* 17th- and 18th-Century Philosophy
PHIL 326* Topics in 19th- and 20th-Century Philosophy
PHIL 328* Honors: 17th- and 18th-Century Philosophy

C. Ethics (3 Credit Hours)

PHIL 340* Ethical Theory
PHIL 347* Honors: Ethical Theory

D. Epistemology, Metaphysics, Logic (3 Credit Hours)

PHIL 360* Philosophy of Science
PHIL 365* Philosophy of Social Science
PHIL 370* Philosophy of Religion
PHIL 371* Epistemology
PHIL 372* Metaphysics
PHIL 373* Philosophy of Mind
PHIL 375* Philosophy of Action
PHIL 435 Intermediate Formal Logic

III. Select five additional Philosophy courses: (15 Credit Hours)

Only 3 hours of Philosophy electives may be taken at the 100 or 200-level.

IV. Proficiencies

Students are required to complete a 0-credit course, typically at the end of the student's degree program.

PHIL 499 Philosophical Proficiency
[After]
*** Meets Volunteer Core Requirement.**

Rationale*

Allowing up to one 100 level course to count will help with accessibility, retention, recruitment, and advising. This strikes a good balance between accessibility for students and rigor for our programs. We also do not make a significant distinction between our 100 and 200 level courses, so this change is modest.

Also added a more informative description.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core Requirement* as well as a requirement in the major. Students can choose to complete the Volunteer Core Requirement* using alternative courses.
Only 3 credit hours of 100 or 200-level of Philosophy electives may be taken at the 100 or 200 level.

*** Meets Volunteer Core Requirements.**

Rationale*

- Updating 8-term plan text and added footnote #4 to include 100-level courses than can be included as counted elective hours in the major.
- Removed specific listed PHIL WC courses as there are now more WC options available for a student to take than the four course that were previously listed (none of which were listed as required courses).

College* College of Arts and Sciences

Department* Philosophy

Program Name* Philosophy Major, BA - Five-Year BA/MA Program

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The accelerated BA–MA program in Philosophy allows qualified undergraduates to complete both the bachelor's and master's degrees in five years. Students gain advanced training in philosophical research, writing, and critical analysis while deepening their engagement with historical and contemporary issues in ethics, science, medicine, politics, and the nature of reason. The program prepares students for doctoral study in philosophy and related fields, and it provides a strong foundation for careers in law, medicine, public policy, education, and other professions that value rigorous reasoning and clear communication.

Students in the program apply 9 hours of approved graduate courses to both the BA and MA. Interested students typically apply for conditional admission to the program during, or immediately following, their third year of undergraduate study. A student will be conditionally admitted to the program only if they:

- are a declared Philosophy major;
- have completed at least 90 hours overall with a minimum GPA of 3.25; and
- have completed at least 15 hours in Philosophy with a minimum GPA of 3.5.

Applicants must also provide three letters of recommendation. Applicants are strongly encouraged, but not required, to have completed PHIL 235* and at least one 400-level Philosophy course. The Department may consider other relevant factors, such as an applicant's work experience and potential for academic success in deciding whether to conditionally admit students to the BA/MA program. Both the Department of Philosophy and the Graduate School must approve all conditional admissions into the BA/MA program. The Department will inform applicants of its decisions by the beginning of their fourth and final year of undergraduate study.

Both the Department Head (or designee) and the Graduate School must approve any course taken for graduate credit before the student satisfies all requirements for the BA. A student conditionally admitted to the BA/MA program may complete up to 9 hours of graduate credit to count toward both the BA and MA requirements. Only graduate courses taken after conditional admission into the BA/MA program may be used to satisfy the requirements of both degrees.

Conditional admission to the BA/MA program does not guarantee acceptance into either the Graduate School or the MA program in Philosophy. Students conditionally admitted into the BA/MA program at the start of their fourth year must apply that year for admission to both the MA program and the Graduate School. Such applicants must follow standard application procedures; in particular, they must submit GRE scores and a writing sample. If the student is accepted by both the MA program and the Graduate School, they will be fully admitted to the BA/MA program; they must then complete the standard curriculum for the MA program.

Students are ineligible for graduate assistantships until they satisfy all requirements for the BA degree.

* Meets Volunteer Core Requirements.

Requirements*

College Requirements

Arts and Sciences

Concentration Requirements

The honors concentration requires a 3.25 overall GPA with a 3.5 GPA in philosophy coursework. It consists of **31 hours** of courses numbered. Two honors philosophy courses, two honors or honors-by-contract philosophy courses, and additionally, one hour of PHIL 407 with a grade of B or better are required. Apart from the one required hour of PHIL 407, at least 6 hours must be taken at the 400-level or above.

I. Complete:(3 Credit Hours)

PHIL 235* Formal Logic

II. Select one course from each area (at least two honors courses):

A. Ancient Philosophy (3 Credit Hours)

PHIL 320* Ancient Western Philosophy
PHIL 327* Honors: Ancient Western Philosophy

B. Modern Philosophy (3 Credit Hours)

PHIL 324* 17th- and 18th-Century Philosophy
PHIL 328* Honors: 17th- and 18th-Century Philosophy

C. Ethics (3 Credit Hours)

PHIL 340* Ethical Theory
PHIL 347* Honors: Ethical Theory

D. Epistemology, Metaphysics, Logic (3 Credit Hours)

PHIL 360* Philosophy of Science
PHIL 365* Philosophy of Social Science
PHIL 370* Philosophy of Religion
PHIL 371* Epistemology
PHIL 372* Metaphysics
PHIL 373* Philosophy of Mind
PHIL 375* Philosophy of Action
PHIL 435 Intermediate Formal Logic

III. Select five additional Philosophy courses: (15 Credit Hours)

Only 3 hours of philosophy electives may be taken at the 100 or 200-level.

IV. Complete one hour

Must receive a grade of B or better.
No more than 1 hour may be applied toward the major.

PHIL 407 Honors: Thesis

V. Proficiencies

Students are required to complete a 0-credit course, typically at the end of the student's degree program.

PHIL 499 Philosophical Proficiency
[After]
*** Meets Volunteer Core Requirement.**

Rationale* Allowing up to one 100-level course to count will help with accessibility, retention, recruitment, and advising. This strikes a good balance between accessibility for students and rigor for our programs. We also do not make a significant distinction between our 100 and 200-level courses, so this change is modest.

Also added a more informative description and credit hour totals by each section.

PHIL 372* Metaphysics
PHIL 373* Philosophy of Mind
PHIL 375* Philosophy of Action
PHIL 435 Intermediate Formal Logic
PHIL 463* Race, Science, and Medicine
PHIL 464* Feminist Philosophy of Science

2. Value Foundations: Policy, Politics, Law

PHIL 345* Bioethics
PHIL 346* Environmental Ethics
PHIL 348* Honors: Environmental Ethics
PHIL 365* Philosophy of Social Science
PHIL 382* Philosophy of Feminism
PHIL 383* Philosophy of Disability
PHIL 390* Philosophical Foundations of Democracy
PHIL 441* Global Justice and Human Rights
PHIL 463* Race, Science, and Medicine

PHIL 464* Feminist Philosophy of Science

II. Select one additional Philosophy course: (3 Hours)

III. Complete one hour:

Must receive a grade of B or better.
No more than 1 hour may be applied toward the major.

PHIL 407 Honors: Thesis

IV. Proficiencies

Students are required to complete a 0-credit course, typically at the end of the student's degree program.

PHIL 499 Philosophical Proficiency
[After]
* Meets Volunteer Core Requirement.

Rationale*

Allowing up to one 100-level course to count will help with accessibility, retention, recruitment, and advising. This strikes a good balance between accessibility for students and rigor for our programs. We also do not make a significant distinction between our 100 and 200-level courses, so this change is modest.

Also added a more informative description and credit hour totals next to each pertinent section.

Financial Impact*

None

Impact on Other Units*

None

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Philosophy

Program Name* Philosophy Major, BA - Honors Philosophy of Science and Medicine Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Honors Philosophy of Science and Medicine Concentration offers motivated students the opportunity for advanced study of the conceptual, ethical, and social foundations of science and medicine. In addition to completing concentration requirements, students take enriched coursework and complete an honors thesis under faculty supervision. The program emphasizes independent research, critical analysis, and scholarly writing, preparing students for graduate study in philosophy, the sciences, medicine, or public policy, as well as for careers that demand rigorous reasoning and clear communication.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

College Requirements

Arts and Sciences

Concentration Requirements

The honors philosophy of science and medicine concentration requires a 3.25 overall GPA with a 3.5 GPA in philosophy coursework. It consists of **31 hours** of courses. Four honors or honors-by-contract philosophy courses and additionally, one hour of PHIL 407 with a grade of B or better are required. Apart from the one required hour of PHIL 407, at least 6 hours must be taken at the 400-level or above.

I. Complete A, B, and C (including four honors courses or honors-by-contract courses):

A. Complete:(9 Credit Hours)

PHIL 235* Formal Logic
PHIL 345* Bioethics
PHIL 360* Philosophy of Science

B. Select one course from each area:

1. Ancient Philosophy (3 Credit Hours)

PHIL 320* Ancient Western Philosophy
PHIL 327* Honors: Ancient Western Philosophy

2. Modern Philosophy (3 Credit Hours)

PHIL 324* 17th- and 18th-Century Philosophy
PHIL 328* Honors: 17th- and 18th-Century Philosophy

3. Ethics (3 Credit Hours)

PHIL 340* Ethical Theory
PHIL 347* Honors: Ethical Theory

C. Select three courses: (9 Credit Hours)

PHIL 346* Environmental Ethics
PHIL 348* Honors: Environmental Ethics
PHIL 365* Philosophy of Social Science
PHIL 366* Philosophy of Cognitive Science
PHIL 370* Philosophy of Religion
PHIL 371* Epistemology
PHIL 372* Metaphysics
PHIL 373* Philosophy of Mind
PHIL 375* Philosophy of Action
PHIL 383* Philosophy of Disability
PHIL 435 Intermediate Formal Logic
PHIL 460 Topics in Philosophy of Science
PHIL 463* Race, Science, and Medicine
PHIL 464* Feminist Philosophy of Science

II. Select one additional Philosophy course (3 Credit Hours)

III. Complete one hour:

Must receive a grade of B or better.
No more than 1 hour may be applied toward the major.

PHIL 407 Honors: Thesis

IV. Proficiencies

Students are required to complete a 0-credit course, typically at the end of the student's degree program.

PHIL 499 Philosophical Proficiency
[After]
*** Meets Volunteer Core Requirement.**

Rationale*
Allowing up to one 100-level course to count will help with accessibility, retention, recruitment, and advising. This strikes a good balance between accessibility for students and rigor for our programs. We also do not make a significant distinction between our 100 and 200-level courses, so this change is modest.

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Legal and Political Philosophy Concentration provides focused study of foundational issues in law, justice, rights, and political authority. Students explore both historical and contemporary debates in legal and political theory while developing skills in critical reasoning, argumentation, and writing. The concentration offers excellent preparation for law school, public policy, graduate study in political or social philosophy, and careers that demand analytical rigor and clear communication.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Philosophy (major) 6 *Credit Hours*

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Hours 120-121

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.
The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

*** Meets Volunteer Core Requirements.**

Rationale*

- Updating 8-term plan text and added footnote #4 to include 100-level courses than can be included as counted elective hours in the major.
- Changed Term 5 milestone from "One 200-level or higher Philosophy course with a grade of C or better" to "One Philosophy course with a grade of C or better" to reflect acceptance of 100-level courses in the major.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Philosophy

Program Name* Philosophy Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Philosophy minor develops skills in critical thinking, analysis, and writing while engaging fundamental questions about knowledge, ethics, and the human condition. It complements a wide range of majors by fostering intellectual breadth and clarity of thought.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Complete 18 hours of Philosophy courses:

Only 6 hours of Philosophy courses may be taken at the 100-level.
At least 6 hours of Philosophy courses must be taken at the 300-level or above.

Rationale* Allowing up to two 100-level courses to count while requiring at least two 300 or 400-level courses will help with accessibility, retention, recruitment, and advising. This strikes a good balance between accessibility for students and rigor for our programs. We also do not make a significant distinction between our 100 and 200 level courses, so this change is modest.

Also added a more informative description.

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Philosophy

Program Name* Philosophy of Science and Medicine Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Philosophy of Science and Medicine minor explores the conceptual, ethical, and social dimensions of science and medical practice. It strengthens critical thinking and analysis while complementing majors in the sciences, health fields, and the humanities.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The Philosophy of Science and Medicine consists of 18 hours of Philosophy courses.

I. Select four courses: (12 Credit Hours)

PHIL 246* Ethics and Technology
PHIL 345* Bioethics
PHIL 360* Philosophy of Science
PHIL 365* Philosophy of Social Science
PHIL 366* Philosophy of Cognitive Science
PHIL 383* Philosophy of Disability
PHIL 435 Intermediate Formal Logic
PHIL 460 Topics in Philosophy of Science
PHIL 463* Race, Science, and Medicine
PHIL 464* Feminist Philosophy of Science

II. Select two additional courses (6 Credit Hours)

*** Meets Volunteer Core Requirement.**

Rationale* Allowing up to two 100-level courses to count while continuing to require at least three 300- or 400-level courses will help with accessibility, retention, recruitment, and advising. This strikes a good balance between accessibility for students and rigor for our programs. We also do not make a significant distinction between our 100- and 200 -level courses, so this change is modest.

Also added a more informative description and credit hour totals by each section.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Requirements*

Minor Requirements

An astronomy minor consists of 24-25 hours.

Complete:

ASTR 217* Honors: Introductory Astronomy
ASTR 218* Honors: Introductory Astronomy

Complete:

ASTR 411 Stellar Structure and Stellar Evolution
[After]
ASTR 421 General Relativity, Black Holes, and Cosmology
[After]
PHYS 252 Fundamentals of Physics: Quantum Physics and Applications
PHYS 311 Mechanics I
[Before]
PHYS 421 Modern Optics
[After] or
PHYS 321 Thermal Physics
[After]

*** Meets Volunteer Core Requirements.**

Rationale* Removing Astr 490 from allowed classes. We used to teach Astr 421 as a special topics class, but eventually it got its own number. We allowed the special topics class initially, which reduced the number of petitions from students who had taken it under the number Astr 490. However, this is a variable credit class. While we have never offered any other Astr 490 classes, in principle, we could offer a special topics class for one credit hour and, under the current catalog, that would be an allowable substitute for a 3-credit upper division course. We don't want that.

PHYS 461* Modern Physics Laboratory
PHYS 490 Senior Seminar
PHYS 491 Foreign Study
PHYS 492 Off-Campus Study
PHYS 493 Research and Independent Study
PHYS 494 Special Topics in Physics
PHYS 498 Honors Thesis in Physics

• A maximum of 6 hours can come from the courses listed below from other departments:

CHEM 330 Foundations of Inorganic Chemistry
CHEM 370 Foundations of Physical Chemistry
CHEM 379 Foundations of Physical Chemistry Laboratory
CHEM 470 In-depth Physical Chemistry
DATA 303 Advanced Data Analysis
DATA 304 Data Wrangling
DATA 401 Visual Analytics
EEPS 456 Global Climate Change
EEPS 459 Introduction to Oceanography
EEPS 471 Applied Geophysics
EEPS 485 Principles of Hydrogeology
MATH 231 Differential Equations I
MATH 300 Introduction to Abstract Mathematics
MATH 323 Probability and Statistics
MATH 435 Partial Differential Equations
MATH 443 Complex Variables
MATH 462 Differential Geometry
MSE 405 X-ray Diffraction
MSE 408 Functional Nanoscale Materials: Processing, Properties, and Applications
MSE 410 Theory and Processing of Conventional and Nano-Structured Devices
MSE 466 Magnetism and Magnetic Materials
NE 406 Radiation Shielding
NE 433 Principles of Health Physics
NE 460 Introduction to Fusion Technology
NE 470 Nuclear Reactor Theory
NE 490 Radiation Biology
[After]

No more than 6 hours of PHYS 293, PHYS 393, PHYS 493, and PHYS 498 may be applied to the major.

Honors Concentration – Physics Major, BA

Students who complete all requirements for the physics major (BA) will be awarded a degree with honors if their cumulative GPA is at least 3.25, their GPA in 300- and 400-level mathematics and physics courses is at least 3.50, they complete a minimum of 12 hours in honors courses, and they complete a written senior thesis reporting results of research conducted under faculty supervision and defended before a committee of three physics faculty members as recorded by satisfactory completion of:

PHYS 498 - Honors Thesis in Physics

*** Meets Volunteer Core Requirements.**

Rationale*

We are explicitly listing upper division courses which are allowed. This is because we do not want upper division courses to transferred in without any approval. We would like quality control on our degree. We still intend to allow upper division courses from other departments which do not overlap significantly with our own courses and are of sufficient quality to count.

We are also adding the honors classes, EF 157 & 158, as options for the intro course. This is to avoid unnecessary petitions.

Financial Impact*

None

Impact on Other Units*

Since many of our physics BAs have it as a second major with a primary major in engineering, this will make it easier for students who take the honors EF 157 & 158 class to get credit for them. Explicitly listing courses for electives will not impact UTK units; it will only impact courses which are transferred in.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Credit Hours 18

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 126-130

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

*** Meets Volunteer Core Requirements.**

Rationale*

This is, quite simply, fixing a mistake. Our major allows students to take either Phys 201 or Math 241 to meet the vector calculus requirement. Our milestones currently do not and will mark any student who has not completed Phys 201 as off track. We are adding Math 241 as an alternative to fix this mistake. This will significantly reduce the number of petitions.

We are also adding Phys 201 and 301 to the showcase schedule. Omitting them was a mistake!

Financial Impact*

None

Impact on Other Units*

We are required to say there's an impact on math because it involves a math class, but it is really, truly just fixing a mistake!

Have you consulted with all programs/departments that will be impacted by this change?*

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

College of Arts and Sciences - Political Science - International Security and Intelligence Studies Certificate

2026-2027 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Political Science

Program Name* International Security and Intelligence Studies Certificate

Learning Outcomes The International Security and Intelligence Studies Certificate program will equip students with the following skills.

1. The ability to analyze complex situations, evaluate evidence, and develop policy solutions.
2. Understand contemporary security challenges and develop strategies to mitigate threats.
3. Develop writing skills that will be useful in briefing policymakers and intelligence users.
4. Proficiency in applying research methods and tools to complex security challenges.
5. Develop oral communication skills that are essential for presenting research reports to diverse audiences.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Department of Political Science offers an International Security and Intelligence Studies Certificate. This program provides students with an understanding of the complex risks and dangers confronted by private and governmental organizations in our world today and how information and intelligence shape policymakers' decisions and the policymaking process.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On, Stand-Alone

Credit Hours Required

The International Security and Intelligence Studies Certificate consists of 15 credit hours of coursework.

Admission Standards/Procedures

Students seeking admission to the Undergraduate Certificate must meet the admissions standards established by the Undergraduate Council.

Required Courses (6 credit hours)

ITS 360 Intelligence, Espionage, and Statecraft
POLS 265* Introduction to International Relations

Elective Courses (9 Credit Hours)

Select 1 Course from Track A, 1 Course from Track B, and 1 Course from Track C (9 credit hours)

Upon the department head or graduate director's approval, a student may take two courses from a track to substitute for a course in a different track (e.g., one course from Track A, two courses from Track C).

Track A: International Security and Political Violence

DETR 303 Nuclear Deterrence and Disruptive Technologies
POLS 371 Terrorism and Political Violence
POLS 372* Civil War and the International System: Rebellions, Resources, and Outside Intervention
POLS 465 Nuclear Politics of the Middle East: Conflict, Energy, and the Environment
POLS 470* International Law
POLS 483* Arms Control and Nuclear Proliferation
CSS 201* Computational Social Science

Track B: Bargaining and Information Security

CYBR 495 Special Topics in Applied Cybersecurity
INSC 312 Fundamentals of Information Security and Cybersecurity
PHIL 235* Formal Logic
POLS 366 United States Foreign Policy Process
POLS 473* Negotiation, Bargaining, and Diplomacy

Track C: Analytical Tools, Research Methods, and Data Visualization

AI 302 AI-based Data Handling and Visualization
[Before]1

ANTH 449 Computational Social Science
CYBR 202 Introduction to Cybersecurity Tools
GEOG 311 Geovisualization and Geographic Information Science
INSC 489 Information Visualization
[Before]1

POLS 301* Research Methods I
POLS 302 Research Methods II
[Before]1

Non-Course Requirements

Students must complete all courses from this list with a 2.5 GPA.

Footnote

[1]Course has its own set of prerequisites and/or registration restrictions. Please consult the catalog for more information. (AI 302, INSC 489, POLS 302)

*Satisfies Volunteer Core Requirements

Rationale* A certificate in international security and intelligence studies provides focused training on the methods, history, and practice of intelligence collection, analysis, and policy for careers in national security, international security, law enforcement, and private security sectors. The program covers topics, such as evaluating foreign threats, applying analytical tools and software, navigating ethical, political, and legal considerations, and translating intelligence concepts into real-world security strategies. Students gain practical skills like research, writing, briefing, analysis, and threat assessment to support decision-making in both public and private organizations. The curriculum develops a broad knowledge of content in multiple disciplines that are valued by employers in homeland security, nuclear nonproliferation, transnational crime, and intelligence-related fields.

Financial Impact* N/A

Impact on Other Units* College of Emerging and Collaborative Studies -- Approved

CAS - Department of Philosophy -- Approved

CAS - Department of Anthropology -- Approved

CAS - Department of Geography and Sustainability -- Approved

School of Information Science -- Approved

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ◉ No ○ No Impact

CIP Code * 45.1001

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The political science discipline is broad and diverse ranging from the study of campaigns and elections to analysis of political philosophy. Political science gives attention to the theory and practice of government at all levels from local to international, as well as to the complex relationships between social values and the formulation of public policy. As a blend of the theoretical and the practical, political science has much to offer as an undergraduate major and as an elective field for the non-major. It provides a broad liberal arts background for professional careers in law, government service, foreign service, business, journalism, and public-school teaching. It offers a good foundation for those wishing to pursue post-graduate study, especially in the fields of law, political science, and public administration. For those interested in specializing in fields outside of law and government, political science courses can contribute significantly to an awareness of public issues and an appreciation of the complexity of modern society.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Honors Option - Democracy, Social Problems, and Political Advocacy

Admission to the Department of Political Science Honors Program is selective, and by application. Generally, the Department of Political Science Honors Program admits only those majors who have completed more than forty (40) hours of college course credit with a minimum GPA of 3.0. A student's GPA, however, does not automatically qualify or disqualify him/her from admission to the Department of Political Science Honors Program. A student must apply for and be admitted to the Department of Political Science Honors Program by the Honors Program Director in the Department of Political Science.

The Department of Political Science accepts applications to its Honors Program on a rolling basis, but students are encouraged to apply during the sophomore or junior year. The Honors Program encourages fruitful contacts between individual students and faculty members, and student involvement in planning and developing the program.

As a senior, each student takes POLS 487 and POLS 488, investigates a topic of his or her choice, and presents the results in an Honors Thesis. This project develops with the assistance and supervision of the Honors Director or another member of the Political Science faculty

Program Requirements

To receive Honors in Political Science students must:

- Apply for and be admitted to the program by the Director of Undergraduate Studies; students are encouraged to apply for the program during the Fall Semester (by mid-October) of their Junior Year.
- Maintain a minimum 3.3 GPA in Political Science and a minimum cumulative GPA of 3.0 for all university coursework;
- Complete 40 hours of credit in Political Science courses numbered 200 or above, as detailed below.
- Complete POLS 301*, POLS 487 and POLS 488. POLS 487 and POLS 488 are taken during fall and spring, respectively, of the senior year. POLS 301* should be completed prior to enrolling in POLS 487, but can be taken at the same time as 487.

College requirements

Arts and Sciences

Prerequisites

1. Select one course: (3 Credit Hours)

POLS 101* United States Government and Politics
POLS 107* Honors: United States Government and Politics

2. Complete: (3 Credit Hours)

POLS 102* Introduction to Political Science

Democracy, Social Problems, and Political Advocacy - Honors Concentration

Students majoring in political science who wish to pursue careers involving public policy, solving social problems, campaigns, political advocacy, or work in support of democracy in the United States and/or around the world may select the Democracy, Social Problems, and Political Advocacy concentration. The concentration consists of **40 hours** of coursework in political science beyond the 100-level.

1. Complete the following four courses: (12 Credit Hours)

POLS 200 Introduction to Political Philosophy
POLS 240 Introduction to Public Administration and Public Policy
POLS 249 Introduction to Comparative Politics
POLS 265* Introduction to International Relations

2. Complete the following three courses: (9 Credit Hours)

POLS 351 Democracy and Authoritarianism
POLS 422 Political Campaigns and Elections
SOCI 341* Social Inequalities

3. Democracy and Democratic Institutions: (3 Credit Hours)

JMED 366 Media and Democracy
POLS 320 State Government and Politics
POLS 412 Congress
POLS 415 Black American Politics

POLS 425 Media and Politics
POLS 452* Foundations of African Politics: Dictators, Democratization, and Development
POLS 456* Development and Decay of Democracy in Latin America

4. Social Problems: (3 Credit Hours)

Select one course:

POLS 311* Contemporary Issues in American Public Policy
POLS 350 Sources of Political Change in the Global South: Coups, Climate, and Conflict
POLS 370 Contemporary International Problems
POLS 413 Race, Ethnicity, and Politics
POLS 414 Gender and Politics
POLS 461* Comparative Public Policy: Ideas, Interests, and Institutions
POLS 463 Politics and Power in the Middle East
POLS 464* Fear and Bias in Migration Politics
POLS 469* The Politics of Genocide and Ethnic Cleansing: Theory, Prevention, and Aftermath
SOWK 316 Social Justice and Anti-oppressive Practices

5. Political Advocacy and Communication: (3 Credit Hours)

Select one course:

JMED 419 Communicating with Data
POLS 341 Judicial Process and Policymaking
POLS 420* Political Attitudes and Behavior
POLS 421* Political Parties and Interest Groups
SOCI 345* Social Movements

6. Complete: (10 Credit Hours)

POLS 301* Research Methods I
POLS 480 Capstone
POLS 487 Senior Honors: Thesis and Seminar
POLS 488 Senior Honors: Thesis and Seminar
[After]
*** Meets Volunteer Core Requirement.**

Rationale* **POLS 330** is being dropped from the department curriculum and should be removed from the list of courses for this concentration in section 3.

Requirements*

College Requirements

Arts and Sciences

Prerequisites

Select one course:

POLS 101* United States Government and Politics
POLS 107* Honors: United States Government and Politics

Complete:

ECON 201* Introductory Economics: A Survey Course
POLS 102* Introduction to Political Science

Public Administration Concentration

Students majoring in political science who wish to prepare for a career in public service may select the concentration in public administration. The concentration consists of 34 hours of coursework in political science and economics.

Select three courses – Foundations of Political Science:

POLS 200 Introduction to Political Philosophy
POLS 249 Introduction to Comparative Politics
POLS 265* Introduction to International Relations
POLS 301* Research Methods I

Complete:

POLS 240 Introduction to Public Administration and Public Policy

Select four courses:

ECON 331 Government and Business
ECON 333 Law and Economics
ECON 362 Environmental and Natural Resource Policy
POLS 215 Tennessee Government and Politics
POLS 311* Contemporary Issues in American Public Policy
POLS 320 State Government and Politics
POLS 440 Public Management and Human Resources
POLS 441 Public Budgeting
POLS 442 Administrative Law and Regulatory Policymaking
POLS 461* Comparative Public Policy: Ideas, Interests, and Institutions

Complete 9 hours:

Upper-division (300-400 level) political science courses (Note: POLS 480 - Capstone does not count toward this requirement.)

Complete:

POLS 480 Capstone
[After]
[After] * Meets Volunteer Core Requirements.

Rationale*

The department added three courses in the list of selective courses that are relevant for the concentration.

Courses Added to "Select Four" electives:

- **POLS 215**
- **POLS 320**
- **POLS 461***

Also updated program description to be similar to other POLS programs.

Public Administration Concentration Honors

Students majoring in political science who wish to prepare for a career in public service may select the concentration in public administration. The concentration consists of 40 hours of coursework in political science and economics beyond the 100-level. To graduate with honors in the public administration concentration of political science, the student must have a minimum GPA of 3.5 in political science and a minimum cumulative GPA of 3.25.

1. Complete:

POLS 200 Introduction to Political Philosophy
POLS 249 Introduction to Comparative Politics
POLS 265* Introduction to International Relations

2. Complete:

POLS 240 Introduction to Public Administration and Public Policy
POLS 301* Research Methods I

3. Select four courses:

ECON 331 Government and Business
ECON 333 Law and Economics
ECON 362 Environmental and Natural Resource Policy
POLS 215 Tennessee Government and Politics
POLS 311* Contemporary Issues in American Public Policy
POLS 320 State Government and Politics
POLS 440 Public Management and Human Resources
POLS 441 Public Budgeting
POLS 442 Administrative Law and Regulatory Policymaking
POLS 461* Comparative Public Policy: Ideas, Interests, and Institutions

4. Select two courses:

Any 300-400 level political science course (Note: POLS 480 – Capstone does not count towards this requirement.)

5. Complete:

POLS 480 Capstone
POLS 487 Senior Honors: Thesis and Seminar
POLS 488 Senior Honors: Thesis and Seminar

Rationale*

The department added three courses in Section number 3:

- **POLS 215**
- **POLS 320**
- **POLS 461**

The department also changed the Honors GPA requirement in the major from a **3.25 to a 3.5** to be consistent across all Political Science Honors Concentrations. See attached email for approval from the Department Head.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* College of Arts and Sciences

Department* Political Science

Program Name* Political Science Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Minor Requirements

The minor consists of 18 hours of courses numbered 200 and above.

Prerequisites

Select one course: (3 Credit Hours)

POLS 101* United States Government and Politics
POLS 107* Honors: United States Government and Politics

Complete: (3 Credit Hours)

POLS 102* Introduction to Political Science

Required Courses (6 Credit Hours)

Select one course from List A and one course from list B.

List A

POLS 215 Tennessee Government and Politics
POLS 240 Introduction to Public Administration and Public Policy
POLS 301* Research Methods I

List B

POLS 200 Introduction to Political Philosophy
POLS 249 Introduction to Comparative Politics
POLS 265* Introduction to International Relations

Complete 12 hours:

Upper-division (300-400 level) political science courses (Note: POLS 480 - Capstone does not count toward this requirement.)

*** Meets Volunteer Core Requirements.**

Rationale*

The Department added a course to the minor program and changed the structure of required courses so that students choose courses from different sub-fields in political science.
Added to list A:

- **POLS 215**

Created a list B and moved courses from A to B:

- **POLS 200**
- **POLS 249**
- **POLS 265***

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The College of Arts and Sciences Exploratory program is designed for students who are deciding among one or more majors in the College. It allows students to explore major options as well as make progress toward graduation through the completion of general education courses. Exploratory students are required to meet with their advisor every semester.

All full-time, degree-seeking UT Knoxville students who first entered Fall 2013 or later must transition out of the exploratory track into a major no later than the end of their fourth tracking semester. Transfer students with less than 45 hours of transferrable work who are admitted as exploratory students must transition out of the exploratory track into a major no later than the end of their second full semester at UT.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Campus: Knoxville

Term 1

[Before] Select one of the following first-year seminars:
HBS 102 Professional Development Seminar
COUN 205 Student Development
FYS 101 The UT Experience
FYS 129 Special Topics Seminar
[After]
[Before] Select one Written Communication (WC) course:
[Before] SAT/ACT/EPE and AP/dual enrollment credit determines placement in English Composition.
ENGL 101* English Composition I
ENGL 102* English Composition II
ENGL 112* Advanced Writing and Research
ENGL 121 Academic English for Undergraduate Students
ENGL 131* Composition for Non-Native Speakers of English I
[Before] Select one Quantitative Reasoning (QR) course:
SAT/ACT or Math Department Placement Exam or AP/dual enrollment credit determines placement in mathematics.
[Before] Option A
For students whose major or minor interests do not include programs with specific math requirements
MATH 113* Mathematical Reasoning
MATH 115* Statistical Reasoning
COSC 100* Introduction to Computers and Computing
[After]
[Before] Option B
For students whose major or minor interests include programs with specific math requirements other than MATH 141*-MATH 142* or MATH 141*-MATH 152*
MATH 123* Finite Mathematics
MATH 125* Basic Calculus
[Right] has a prerequisite of MATH 119 or Math ACT 25.
[After]
[Before] Option C
For students whose major or minor interests include programs with specific math requirements other than MATH 141*-MATH 142* or MATH 151*-MATH 152*
MATH 141* and MATH 151* have a prerequisite of MATH 130 or Math ACT 28.
MATH 141* Calculus I
MATH 147* Honors: Calculus I
MATH 151* Mathematics for the Life Sciences
[After]
[Before] Option D
Course chosen depends on major or minor interests and previous background.
[Before] Advanced math chosen from approved QR list.

STAT 201* Introduction to Statistics
STAT 207* Honors: Introduction to Statistics
[After]
Natural Sciences (NS) with Lab
Astronomy, Biology, Chemistry, Geography, Geology, Physics (particular course depends on major interests) 4 *Credit Hours*
Consult undergraduate catalog and academic advisor for best option
[After]
Social Sciences (SS) or Foreign Language
Intermediate foreign language satisfies the Global Citizenship - International (GCI) * requirement. 3 *Credit Hours*

[After] General Elective **0-1** *Credit Hours*

Credit Hours 15-19

Term 1 Milestone Notes

Completion of at least 12 credit hours

Term 2

[Before] Written Communication (WC) 3 *Credit Hours*
ENGL 102* English Composition II
ENGL 131* Composition for Non-Native Speakers of English I
ENGL 132* Composition for Non-Native Speakers of English II
ENGL 298* Honors Writing and Research
[Right] (for Chancellor's Honors Program students only)
[After]
Quantitative Reasoning (QR) 3 *Credit Hours*

Natural Sciences (NS) 3-4 *Credit Hours*

Foreign Language or general elective to explore a potential major
Intermediate foreign language satisfies the Global Citizenship - International (GCI) * requirement. 3 *Credit Hours*

Social Sciences (SS) 3 *Credit Hours*

Credit Hours 15-16

Degree Type* Bachelor of Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The college offers an accelerated B.S./J.D. program with the College of Law. For joint B.S./J.D. students, College of Law admissions requirements are higher than those normally expected for J.D. applicants. Desired College of Law qualifications include at a minimum a cumulative undergraduate GPA and a Law School Admissions Test (LSAT) score at or above the medians for the entering class.

Students pursing this program complete their first three years of coursework in the College of Arts and Sciences, and their last three years of coursework in the College of Law. During their first three years, students will fulfill all University General Education requirements and all College of Arts and Sciences requirements for a B.S. degree, will complete a minor in the College of Arts and Sciences, will complete 13 hours of pre-law professional electives, and will complete a total of at least 90 hours of undergraduate coursework.

Students interested in pursuing the accelerated B.S./J.D. program are counseled initially in Arts and Sciences Advising Services (313 Ayres Hall) regarding both College of Law admissions standards and undergraduate degree requirements for the College of Arts and Sciences. If the student is a likely candidate for admission into the J.D. program, she or he should consult with the College of Law Admissions Office, take the LSAT, and submit an application to the College of Law. Upon admission to the joint B.S./J.D. program, a student will begin College of Law coursework in the fourth year and, upon successful completion of 30 hours of College of Law coursework, will be awarded a B.S. degree in Pre-Professional Programs with a concentration in Pre-Law at the end of that year. The student will receive the J.D. degree upon successful completion of the graduation requirements for that degree.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Pre-Professional Programs Major with a Pre-Medicine concentration at the University of Tennessee, Knoxville, is designed to offer students a comprehensive four-year program that prepares them for medical school and other health-related professional studies. Moving beyond the traditional pre-medical track, this program emphasizes a holistic, interdisciplinary approach to healthcare, providing students with the knowledge and skills to thrive in an evolving medical landscape. Students will gain a solid foundation in biological, chemical, and physical sciences, while also exploring the critical social, cultural, ethical, and psychological factors that influence healthcare.

This program prepares students for medical schools nationwide, offering a curriculum that aligns with the expectations of modern healthcare education. Students will develop the critical thinking, research, and clinical inquiry skills necessary to address complex healthcare challenges. The program combines essential coursework in science with humanities, social sciences, and hands-on field experiences, fostering an understanding of diverse populations and the socio-economic and behavioral influences on health.

In addition to core science courses, students are encouraged to engage in research, internships, and volunteer work, gaining practical experience that complements their academic studies. The flexible curriculum also allows for study abroad opportunities, broadening students' global health perspectives. Graduates of the program will be well-prepared for admission to medical schools and other health-related graduate programs, equipped with a comprehensive and adaptable skillset for future careers in medicine, dentistry, pharmacy, or allied health fields.

General Instructions for Requirements

Requirements*

Program Requirements

The Pre-Professional Programs Major with a Pre-Medicine concentration at the University of Tennessee, Knoxville, is a **35** credit hour program designed to prepare students for medical school and health-related fields. It combines a strong foundation in biological, chemical, and physical sciences with an interdisciplinary approach that integrates social, cultural, ethical, and psychological aspects of healthcare. Students are encouraged to broaden their knowledge through research, internships, volunteer work, and/or study abroad, while fulfilling other college and university requirements.

College Requirements

Arts and Sciences

Prerequisites (26-27 credit hours)

A minimum grade of C must be earned in all prerequisites.

Select one course:

MATH 115* Statistical Reasoning
MATH 151* Mathematics for the Life Sciences
STAT 201* Introduction to Statistics
STAT 207* Honors: Introduction to Statistics

Select one course:

Notes

*** Meets Volunteer Core Requirements.**

Several courses listed in the curriculum meet both a Volunteer Core Requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core Requirement using alternative courses; however, this could increase time to degree.

In addition to the coursework listed in the curriculum and uTrack pathway, students should plan to engage in research, internships, volunteer work, and MCAT preparation throughout the program, particularly during the summer months. These activities not only strengthen applications to medical school but also to other health-related professions. By balancing academics with hands-on opportunities, students can develop critical skills and experiences beyond the classroom. This approach will provide a deeper understanding of the healthcare field and better prepare students for the challenges ahead.

The Pre-Medicine concentration is one of many pathways offered within the College of Arts and Sciences (CAS) to help prepare students for future careers in health-related fields. Common pathways include programs in the biological sciences, such as Biochemistry, Cellular, and Molecular Biology (BCMB), Microbiology, Ecology and Evolutionary Biology (EEB), Global Health, and Neuroscience. Students are encouraged to explore these various options with guidance from CAS academic advisors to determine the pathway that best aligns with their career goals and academic interests.

Footnotes

*** Meets Volunteer Core Requirement.**

[1]MCAT 2015 contains new content; therefore, pre-med students should complete BIOL 240 and BCMB 401 and select PSYC 110* or PSYC 117* and SOCI 120* to satisfy the Volunteer Core Requirement in Social Sciences.

[2]The Connections requirement may be satisfied in one of four ways:

completing 9 hours from one of the approved Connections packages,
completing the requirements for a second major or minor, or
completing 9 hours of study abroad coursework.
completing all Air Force or Army ROTC program requirements
Completion of at least 42 total upper-division (300-400 level) hours to receive a degree from the College of Arts and Sciences.

Rationale*
The Pre-Professional Programs Major with a Pre-Medicine concentration was modified in 2024-2025 into a full 4-year concentration and a separate program page was never created. This proposal corrects that and creates a distinct program page that aligns with the other programs for the College of Arts and Sciences.

Financial Impact*
None

Impact on Other Units*
None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Campus: Knoxville

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

ENGL 101* English Composition I
[After] Select one course:
MATH 115* Statistical Reasoning
MATH 151* Mathematics for the Life Sciences
STAT 201* Introduction to Statistics

Notes

College of Arts and Sciences - Psychology and Neuroscience - Psychology Major, BA

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* College of Arts and Sciences

Department* Psychology and Neuroscience

Program Name* Psychology Major, BA

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

Description The Bachelor of Arts in Psychology provides a research-driven education in the science of behavior and mental processes. Students explore foundational areas such as developmental psychology, cognitive science, neuroscience, individual differences, social behavior, and mental health, with opportunities to gain practical experience through internships, research participation, and career-focused coursework.

Graduates are well-prepared for careers in human services, research, education, and business, as well as for advanced study in psychology, law, medicine, and related fields.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [ ] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [x] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville, Distance Education**

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

**Honors Concentration not available for Distance Education

College Requirements

Arts and Sciences

Prerequisites (GPA of at least 2.0)

(grade of C or better in all Prerequisite courses)

Select one course: (3 Credit Hours)

[Left] 1

PSYC 110* General Psychology
PSYC 117* Honors: General Psychology

Select one course: (3 Credit Hours)

MATH 115* Statistical Reasoning
STAT 201* Introduction to Statistics

Select one sequence from the following: (5 - 8 Credit Hours)

A.

BIOL 101* Introduction to Biology: Cells, Genetics, and Physiology
BIOL 102* Introduction to Biology: Biodiversity and Ecology

B.

BIOL 150* Organismal and Ecological Biology
BIOL 159* Skills of Biological Investigation

C.

BIOL 160* Cellular and Molecular Biology
BIOL 159* Skills of Biological Investigation

D.

ANTH 110* Introduction to Biological Anthropology
ANTH 309* Advanced Principles of Biological Anthropology

Major Requirements

The major consists of **31 hours** of Psychology at the 200 level or higher and at least 20 of which must be at the 300-level or above. No more than 6 hours from courses offered outside the psychology department may be counted toward the major. No more than 6 hours from PSYC 289, PSYC 373, PSYC 382, PSYC 394, PSYC 399, PSYC 486, PSYC 489, PSYC 491, PSYC 492, or PSYC 493 may be used in this major. Continuation in the psychology major requires maintenance of a GPA of 2.0. Students placed on Academic Probation will be informed in writing that they are on probation and their records will be reviewed. Students who continue on Academic Probation will be dropped from the major.

Core Courses (22 Hours)

To ensure that all psychology majors are exposed to the breadth of psychology as a hub science, including the diversity of human experience, all psychology majors are required to complete coursework in seven core areas.

1. Scientific Foundation of Psychology

Complete:

PSYC 294* Research Methods in Psychology Laboratory
[Right] or
PSYC 297* Honors: Research Methods in Psychology Laboratory
[After]
PSYC 295 Introduction to Psychological Research Methods
[Right] or
PSYC 298 Honors: Introduction to Psychological Research Methods

2. Human Development

Select one course:

HDFS 210* Human Development
PSYC 300 Child Development

3. Cognition and Learning

Select one course:

PSYC 310 Learning and Thinking
PSYC 314 Cognitive Basis of Behavior

4. Connections to the Biological Sciences

Select one course:

PSYC 211 Brain Science Applications
PSYC 301 Foundations of Behavioral Neuroscience
PSYC 320 Motivation and Emotion
PSYC 370 Evolutionary Psychology and Ethology
PSYC 410 Sensory Processes and Perception

5. Connections to the Social Sciences

Complete:

PSYC 360 Social Psychology

6. Connections to Mental Health and Applications

Complete:

PSYC 330 Abnormal Psychology

7. Individual Differences and Human Diversity

Select one course:

PSYC 335 Intergroup Dialogue Facilitation
PSYC 415 Psychology of Religion
PSYC 434* Psychology of Gender
PSYC 435* Multicultural Psychology
PSYC 470 Theories of Personality
PSYC 471* Psychology of Prejudice
PSYC 476 African American Psychology
PSYC 491 Special Topics in Psychology-Study Abroad
SOCI 341* Social Inequalities
SOCI 343* Race and Ethnicity
SOCI 375* Gender in Society
SOWK 316 Social Justice and Anti-oppressive Practices

Electives (9 hours)

Psychology majors will choose a minimum of 3 additional courses, at least one of which must be at the 400-level. No more than 6 hours of PSYC 382, PSYC 399, PSYC 394, PSYC 489, PSYC 491, PSYC 492, PSYC 493 may be counted toward the major and no more than 6 hours from courses offered outside the psychology department.
