Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
Finance electives chosen from FINC 351, FINC 381, FINC 382, FINC 402, FINC 435, FINC 440, FINC 441, FINC 445, FINC 451, FINC 460, FINC 461, FINC 475, FINC 481, FINC 482, FINC 486, FINC 493, FINC 494, FINC 495, FINC 496; IB 449.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

* Meets Volunteer Core Requirements.

Finance Major - Five-Year BSBA/MA in Economics Program

The Department of Economics and Department of Finance offer an accelerated 5-year Bachelor's/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences, a BSBA in Economics through the Haslam College of Business, or a BSBA in Finance through the Haslam College of Business. Then, with an additional two semesters of coursework, students complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business, or a finance major in the Haslam College of Business.

Students first apply to their undergraduate department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.

Students must at least have conditional admission before taking courses that will count for both their bachelor's and master's degrees. These courses must be approved by their undergraduate department and the Graduate School. Students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.

Students must follow the normal procedure for admission to the master's program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department of Economics.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Additionally, MGT 380 is added as a requirement for the concentration to ensure that the engineering and business students in the Heath Integrated Business and Engineering Program are acquiring a certain level of business acumen at the same time and to enable them to progress together in such a way as to facilitate their ability to work together on projects integral to the program. Furthermore, project management exposure and skills are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers and Heath IBEP students begin their post-graduation career.

Financial Impact*

Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Making MGT 380 required for the business students in the Heath IBEP program adds fewer students than would be required for an additional section. The addition of the business students might create enough capacity demand for the creation of an additional section dedicated to students in the Heath Integrated Business and Engineering Program. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Finance major offers students a skill set applicable to a broad range of careers across industries that are relevant to public and private businesses, non-for-profits, and government entities alike. General areas of study are how decision-makers evaluate, fund, and manage projects within an enterprise and how financial market participants process information to price risky assets such as stocks or bonds. Finance majors develop analytical skills useful in examining financial statements and evaluating the financial health of companies, assessing dimensions of business problems, evaluating financial implications of corporate and individual actions, and constructing investment portfolios. Finance majors develop the ability to utilize spreadsheets to process and present financial data. In addition, they may gain specialized training in real estate and Bloomberg, which is considered by finance professionals to be the gold standard for accessing current market, economic, and financial information.

Popular careers include Financial Manager, Financial Analyst, Financial Advisor, Portfolio Manager, Financial Risk Management Actuary, Management Analyst (Consultant), Loan Officer, Budget Analyst, Investor Relations Associate, Credit Analyst, Commercial Real Estate Agent and Securities, Commodities, and Financial Services Sales Agents. Many of these are included in the top 20 best business jobs according to U.S. News and World Report's Best Jobs Rankings for 2017 (http://money.usnews.com/careers/best-jobs/rankings/best-business-jobs), and their job outlook is forecast to be better than the average for all occupations according to the U.S. Department of Labor's Bureau of Labor Statistics Occupational Outlook Handbook (www.bls.gov/ooh/business-and-financial/home.htm).

Finance majors have flexibility to customize their studies through a broad array of electives, student organizations, experiential learning, and collaterals best suited to a particular career path. The department has course listings in investments, financial statement analysis, financial management, financial institutions, international finance, fixed income, real estate, risk and insurance, derivatives, and Bloomberg software training. The Finance department is certified as a Chartered Financial Analyst (CFA) Recognized University. As such, students pursuing a major in Finance gain valuable exposure to many topical areas required in sitting for the CFA designation, which is regarded as the key designation for investment professionals worldwide. Sponsorships are available to help cover costs for students sitting for the CFA exams. The Finance department also offers cutting edge resources through the Masters Investment Learning Center. In addition to specialized Bloomberg training, Finance majors gain real-world experiences in value investing or wealth management managing actual portfolios (via FINC 495). Finance majors may also enrich their experience through internships and participation in the CFA Global Investment Research Challenge, the Tennessee Capital Markets Society, the Financial Management Association, the Real Estate Club, and the UT Investment Group.

Students who major in Finance need quantitative skills, problem solving skills, and communication skills.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

*** Meets Volunteer Core Requirements.**

Finance Major - Five-Year BSBA/MA in Economics Program

The Department of Economics and Department of Finance offer an accelerated 5-year Bachelor's/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences, a BSBA in Economics through the Haslam College of Business, or a BSBA in Finance through the Haslam College of Business. Then, with an additional two semesters of coursework, students complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business, or a finance major in the Haslam College of Business.

Students first apply to their undergraduate department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.

Students must at least have conditional admission before taking courses that will count for both their bachelor's and master's degrees. These courses must be approved by their undergraduate department and the Graduate School. Students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.

Students must follow the normal procedure for admission to the master's program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department of Economics.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale*	This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.
Financial Impact*	Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.
Impact on Other Units*	Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.
Have you consulted with all programs/departments that will be impacted by this change?*	(•) Yes ( ) No ( ) No Impact

Course Description This course introduces students to widely used business software applications and integrates AI as a core business tool, emphasizing how to communicate and collaborate effectively with AI systems. Students learn how and when to apply both traditional software features and AI-enabled capabilities to solve business problems, with focused instruction on prompt engineering, critical evaluation of AI-generated output, and responsible use of AI assistance. Through hands-on activities, students develop practical software fluency, analytical thinking, and digital problem-solving skills aligned with the expectations of today's AI-enabled workplace.

Equivalency

Rationale* This revision modernizes the course to reflect the evolving digital skill set expected of business graduates in an AI-enabled workplace. The course uses Excel—the most widely adopted and functionally representative business application—as the primary environment through which students build transferable software fluency. The shift from 3 credits to 2 credits reflects this streamlined and skills-focused design. Moreover, the rapid integration of AI into productivity suites (e.g., Microsoft Copilot) makes Excel a natural locus for developing AI literacy. Students learn not only how to operate software features, but also how to collaborate with AI as a business tool—practicing prompt design, critical interpretation of AI-generated results, and responsible AI use. By focusing the course on foundational digital fluency and AI-enabled productivity, the streamlined 2-credit structure preserves instructional rigor while improving curricular efficiency and alignment with modern business practice.

Haslam College of Business - Interdepartmental (HCB) - Honors: Business Innovative Practices Certificate

2026-2027 UG Add Program

General Catalog Information

College* Haslam College of Business

Department* Interdepartmental (HCB)

Program Name* Honors: Business Innovative Practices Certificate

Learning Outcomes

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Business Innovative Practices Certificate equips business honors students with the mindset, tools, and execution capabilities needed to lead innovation in dynamic organizational environments. Integrating innovation leadership, creative problem-solving, and project execution, the certificate prepares students to transform ideas into impact while sustaining competitive advantage. Students learn how organizations identify, nurture, and scale opportunities amid uncertainty and change through hands-on methods for framing challenges, developing and testing solutions, and communicating with stakeholders. Emphasizing experiential learning and project management, the certificate prepares students to deliver innovation initiatives that drive adaptability, growth, and value creation. Students must be a business major admitted to the Business Fellows Honors Program to pursue this certificate.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Required Courses (9 Credit Hours)

BUAD 318 Honors Creative Practices Toolbox
ENT 467 Honors: Leading Innovation
MGT 387 Honors: Project Management
[After] * Satisfies Volunteer Core Requirements

Rationale* To create an opportunity for motivated honors students to demonstrate a skill set in business innovation to potential employers. To add value to the Business Fellows program for the participants. To create more honors content and provide more rigor for the program.

Financial Impact* Required coursework will take some demand from non-honors coursework and instructional costs can be covered by tuition and Undergraduate Business Fee.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?*
- ( ) Yes
- ( ) No
- (•) No Impact

CIP Code * 52.0201

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ( ) Yes

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ( ) Yes

◉ No	proposal require Chancellor action? ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

Haslam College of Business - Interdepartmental (HCB) - Honors: Human Centered Consulting Certificate

2026-2027 UG Add Program

General Catalog Information

College* Haslam College of Business

Department* Interdepartmental (HCB)

Program Name* Honors: Human Centered Consulting Certificate

Learning Outcomes

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Human Centered Consulting Certificate equips business honors students with the skills and mindsets needed to lead innovation through empathy-driven problem solving. Grounded in the principles of human centered design, this certificate prepares participants to consult with organizations and communities by applying human-centered methods to uncover deep insights, co-create solutions, and drive meaningful change. Through hands-on learning, real-world projects, and reflective practice, participants learn how to facilitate design workshops, engage diverse stakeholders, map user experiences, and prototype and test solutions. The certificate is ideal for aspiring human centered design consultants, leaders, and change agents seeking to build creative confidence and guide others through the human centered design process in business, nonprofit, government, or education settings. Students must be a business major admitted to the Smith Global Leadership Scholars (GLS) Program to pursue this certificate.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Required Courses (15 Credit Hours)

BUAD 317* Honors Human Centered Leadership Seminar: Advanced Preparation for Honors Projects
BUAD 417 Leadership Seminar: Applications
BUAD 427 Leadership Seminar: Capstone
BUAD 497 Honors Human Centered Leadership Seminar: Converting Insights and Ideas into Innovations
IB 407 Honors Human Centered Leadership Seminar: Innovation in a Global Context
[After] * Satisfies Volunteer Core Requirements

Rationale* A human centered certificate blends elements of human centered design and human centered leadership into a single learning experience. In today's economy, there is considerable market-driven demand for leaders with advanced skills that can facilitate and drive empathy-based creative and innovative initiatives. Stakeholders (e.g., consumers, organizations) are demanding more talent who are capable of offering and delivering creative and innovative solutions that include products, services, spaces, experiences, system processes, etc. Recent research that examines jobs postings indicates that employers seeking creative problem solving skills has increased over 200%. And further, organizations that possess talent will these advanced skills are outperforming competitors in key market indices (e.g., S&P Index). Smith GLS honors students participating in this program will actually engage an external entity and work on an existing business problem as a design challenge in developing a minimal viable solution following the phases of the IDEO methodology (e.g., inspiration, ideation, implementation).

Financial Impact* None; these courses are already delivered by the existing Smith Global Leadership Scholars Program.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?*

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Influential Leadership Certificate prepares business honors students to lead with self-awareness, ethical integrity, and adaptive influence in complex organizational environments. Designed for business honors students, the certificate develops personal, interpersonal, and systemic leadership capabilities needed to guide people, decisions, and change. Students cultivate foundations in emotional intelligence, mindset awareness, and social influence, strengthening empathy, communication, and relational judgment. Emphasizing ethical leadership and responsible decision making, students examine ethical dilemmas, competing moral perspectives, and organizational pressures. The certificate builds capacity to lead organizational change through change frameworks, power and influence, readiness, resilience, and effective stakeholder engagement. Students must be a business major admitted to the Business Fellows Honors Program to pursue this certificate.

Haslam College of Business - Interdepartmental (HCB) - International Business Major

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Interdepartmental (HCB)

Program Name* International Business Major

Degree Type* Non-Degree

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Global trade affects all businesses, even those focused on the domestic market. For students to succeed in this environment, they must have an understanding of cross-border political, legal, economic, social and financial issues. A worldwide perspective is necessary to meet the challenges of our current and developing global workplace, and a requisite knowledge and specialized skills are necessary to prosper in today's global business environment.

A program in International Business is designed to prepare students for an international career in variety of business fields. Haslam's International Business major is designed to accompany a primary major within the Haslam College of Business, which equips them with specific functional skills that enhance their effectiveness as business professionals, while incorporating advanced foreign language requirements and a mandatory semester study abroad experience. Students will develop their international business knowledge, their intercultural fluencies, their technical functional skills, and their communication skills in both English and their chosen second language.

In addition to the double major, students are also required to complete a collateral in a foreign language. This collateral requires at least three courses at the 300+ level. Proficiency in a foreign language is integral to understanding social and historical nuances for foreign cultures. It also positions students to better integrate into their host countries and build meaningful working relationships and successful transcontinental careers.

Finally, students are also required to study abroad for a full semester in an approved destination and program. Through the study abroad requirement, students will gain a deeper knowledge, understanding, and open-mindedness for other cultures and their shared behaviors, beliefs and values. They will also develop different perspectives in regard to other nations and global issues while expanding their capacity to consider, appreciate, and analyze issues for different and even competing viewpoints.

Given the requirements for completion of all aspects of this degree, students must apply for and gain acceptance into the major to ensure appropriate and on-time progression through the coursework. Interested applicants should have a minimum GPA of 3.0 to ensure semester abroad viability. A typical application and selection process will occur in the first semester of the sophomore year, for full integration into the major beginning in the sophomore spring.

Students pursuing the Bachelor of Science in Business Administration degree with a major in International Business must have a primary major elsewhere within the Haslam College of Business.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

The undergraduate major in international business includes the following:

12 hours from:

BUAD 400* Special Topics
IB 409 International Business
IB 429 International Economics for Business
IB 439 Global Supply Chain Management
IB 449 International Finance
IB 492 Off-Campus Study
IB 499 Special Topics in International Business
MGT 472 Managing People in the Global Environment

Complete:

IB 460 Global Capstone in International Business
IB 490 Semester Study Abroad
[Right] (must be a semester abroad experience in an approved destination and program)

[After] 9 Hours of Advanced Foreign Language (AFL). Students may choose from the following language options: Arabic, Chinese, French, German, Italian, Japanese, Portuguese, Russian, or Spanish.

Students may use AFL credit toward existing minors in their selected language. Please review the catalog specifics for that minor and complete requirements for your catalog year.

College Requirements

Curriculum

The curriculum coursework is divided into four components – general education, pre-business core, business core, and major.

General education focus on all aspects of human endeavor – written and oral communications; mathematics; social, behavioral, and natural sciences; humanities; global citizenship; and the arts. General education courses span the student's entire academic career.

The pre-business core courses are taken during the student's first and second year. The pre-business core provides students with the fundamentals of business education, introducing the tools, the environment, and the functions of contemporary business practices.

Building on the pre-business core foundation, the business core consists of integrated contemporary business management modules in supply chain management, demand management, lean operations, and information management; a discipline-specific course in financial management; coursework on ethics and legal issues, and a capstone experience integrating business strategy with a business simulation. As business management perspectives change, the topics in the business core will, by design, adapt.

Simultaneously, students are completing the coursework required by their chosen major. The Haslam College of Business offers eight majors – accounting, business analytics, economics, finance, human resource management, management, marketing, and supply chain management. Within the 30 hours of their major, students may study two areas of emphasis – their major with a collateral or their major with a concentration. With a collateral, students complete 21 hours in their major and 9 hours in their collateral area. With a concentration, students complete 18 hours in their major and 12 hours in their concentration area. A minimum grade of C must be earned in every course counted toward the major, including major, collateral, or concentration courses.

*** Satisfies Volunteer Core Requirements**

Rationale*

This revision softens the restrictions for the "9 hours of advanced foreign language" so that it is not as specific on exact courses/course numbers. Rather, students will be able to complete their advanced foreign language requirements with any combination of upper-level courses in the language. Additionally, some of the program text was changed to accurately reflect that this program is secondary major.

Financial Impact*

None. At most, there may be a small increase in the number of students enrolled in some foreign language courses offered by World Languages and Cultures now that the AFL requirement is more broad. However, the number of credit hours needed in upper-level foreign language courses will still be the same (9 credit hours).

Impact on Other Units*

There may be a small increase in the number of students enrolled in some foreign language courses offered by World Languages and Cultures now that the AFL requirement is more broad. However, the number of credit hours needed in upper-level foreign language courses will still be the same (9 credit hours). See attachment from World Languages and Cultures.

Have you consulted with all programs/departments that will be impacted by this change?*

Haslam College of Business - MGT - 472

2026-2027 UG Revise Course

General Catalog Information

College* Haslam College of Business

Department (Acalog Hierarchy)* Management and Entrepreneurship

Subject/Prefix (choose from list)* MGT

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 472

Course Title (max 100 characters)* Managing People in the Global Environment

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Critical knowledge and skills for understanding and managing people in dynamic global environments, examined from an organizational and interpersonal perspective. Topics include cultural differences in global business; communications, negotiations, and leadership in multi-cultural environments; and international human resource management.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) MGT 201 or MGT 202, or honors equivalents.

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s) Students must be admitted to an international business collateral or concentration or advanced foreign language collateral in the Haslam College of Business or a language and world business concentration in the College of Arts and Sciences.

Registration Permission

Equivalency

Rationale* Catalog clean-up. One of the programs (Advanced Foreign Language collateral) was inadvertently left off the registration restrictions last year. This revision corrects that oversight.

Impact on Other Units*

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Management and Entrepreneurship

Program Name* Entrepreneurship Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The minor consists of 15 hours. Students are strongly encouraged to take at least one course outside of their home college. Minor is not available to students completing an Entrepreneurship collateral within the Haslam College of Business. Students may not minor in both Entrepreneurship and Engineering Entrepreneurship.

Optional Pre-Minor Coursework

BUAD 103 Learning Community Seminar
COAD 130* Basic Design Thinking and Innovation
IES 130 Survey of Engineering Entrepreneurship

Required Courses

Complete:

ENT 350 Introduction to Entrepreneurship

Select one course:

ENT 451 New Venture Planning
IE 457 Engineering Entrepreneurship
[Right] (Cross-listed with CBE 457, ME 457, MSE 457, and NE 457.)
RMM 411 Entrepreneurship and Small Business Management

Complete 9 hours of the following:

ADPR 365 Social Media Strategy
ADPR 375 Integrating Communication Channels
ADPR 310 Advertising Design
ALEC 240* Effective Oral Communication
ALEC 340* Strategic Communication in Agriculture and Natural Resources for Global Audiences
AREC 212 Introduction to Agribusiness Management
AREC 342* Farm Business Management
AREC 442* Advanced Agribusiness Management
COAD 430* Design Thinking and Innovation

JMED 330* Communication for Media
JMED 441* Entrepreneurship in Journalism and Media
MARK 469 Professional Selling
PBRL 400 Ethical and Legal Issues in Public Relations
RMM 312 Digital Retailing
[After]
[After] Prerequisites may apply for some courses.

*** Meets Volunteer Core Requirements.**

Rationale*

The Management and Entrepreneurship department has created a new course, ENT 483: International Entrepreneurship, that would be a beneficial course option for the Entrepreneurship minor. It would be an option for students to take as a minor elective.

Financial Impact*

None. ENT 483 has already been offered/staffed as a special topics course (ENT 499) this academic year.

Impact on Other Units*

None- this revision is simply adding a new ENT course option for the minor.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The management of human capital is critical to the success of an organization. The Human Resource Management major prepares students to assume positions as human resource generalists and specialists. The major develops a student's competencies in forecasting human resource needs as well as the recruitment, selection, training, and development of employees. Human resource managers are also involved in designing performance appraisal systems, developing compensation and benefit programs, monitoring employee health and safety, and establishing cooperative working relationships with organized labor, all of which are covered in the coursework. The human resource management curriculum also addresses analyzing current labor force trends, treating employees fairly, encouraging diversity, and understanding the foundations of employment law. All students in the program complete at least one internship.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 13 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Major elective chosen from any 300-level or 400-level ENT, HRM, or MGT course.

* Meets Volunteer Core Requirements.

Human Resource Management Collateral Options

Advanced Foreign Language

(only available to students pursuing International Business as a secondary major)

9 Hours of 300+ Foreign Language as outlined in International Business Major requirements.

Entrepreneurship

[Before]Complete both courses:

Sales

[Before]Complete both courses:
MARK 350 Consumer Behavior
MARK 469 Professional Selling
[After]
[Before]Complete one course:
MARK 470 Advanced Topics in Sales
MARK 471 Sales Force Management

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The management of human capital is critical to the success of an organization. The Human Resource Management major prepares students to assume positions as human resource generalists and specialists. The major develops a student's competencies in forecasting human resource needs as well as the recruitment, selection, training, and development of employees. Human resource managers are also involved in designing performance appraisal systems, developing compensation and benefit programs, monitoring employee health and safety, and establishing cooperative working relationships with organized labor, all of which are covered in the coursework. The human resource management curriculum also addresses analyzing current labor force trends, treating employees fairly, encouraging diversity, and understanding the foundations of employment law. All students in the program complete at least one internship.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Major elective chosen from any 300-level or 400-level ENT, HRM, or MGT course.

*** Meets Volunteer Core Requirements.**

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Additionally, MGT 380 is added as a requirement for the concentration to ensure that the engineering and business students in the Heath Integrated Business and Engineering Program are acquiring a certain level of business acumen at the same time and to enable them to progress together in such a way as to facilitate their ability to work together on projects integral to the program. Furthermore, project management exposure and skills are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers and Heath IBEP students begin their post-graduation career.

Financial Impact*

Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Making MGT 380 required for the business students in the Heath IBEP program adds fewer students than would be required for an additional section. The addition of the business students might create enough capacity demand for the creation of an additional section dedicated to students in the Heath Integrated Business and Engineering Program. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Management is a broad field that focuses on the planning, organizing, leading, and controlling of an organization's resources where the ultimate objective is to ensure that the organization achieves and sustains a competitive advantage. The Management Major can be earned through two different tracks of study with distinct career outcomes. The Leadership and Organizational Effectiveness (LOE) track prepares students to create value within existing organizations by managing business opportunities that foster new revenue growth. Leadership and Organizational Effectiveness career outcomes include corporate management trainee programs, project-based work, consulting, and general management. The Entrepreneurship and Emerging Enterprises (EEE) track gives students the content and skills for creating and managing new, early-stage, and high-growth organizations. This track prepares students for opportunities in start-ups and growth businesses, and family-owned firms – including for-profit and not-for-profit organizations. A common thread throughout the Management Major is the development of important professional skills including: data-driven decision making, problem-solving, critical thinking, leadership, and communication. All students in each track are required to complete an internship.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core* list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 13 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
The requirements for the Entrepreneurship and Emerging Enterprises (EEE) Track are ENT 350 and two of ENT 375, ENT 410S, ENT 415, ENT 425, ENT 451, ENT 452, ENT 460, ENT 464, ENT 462, ENT 470, ENT 480, ENT 481, ENT 483, ENT 485, ENT 492N, ENT 499.
Students pursuing a collateral in Finance must choose ACCT 203 or ACCT 208, and FINC 306.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Major elective chosen from any 300-level or 400-level ENT, HRM, or MGT course.

* Meets Volunteer Core Requirements.

Note: Students pursuing the Entrepreneurship and Emerging Enterprises track cannot pursue the Entrepreneurship minor.

Collateral Options for the Entrepreneurship and Emerging Enterprises (EEE) Track:

Advanced Foreign Language

(only available to students pursuing International Business as a secondary major)

9 Hours of 300+ Foreign Language as outlined in International Business Major requirements.

Economics

[Before]Complete both courses:
ECON 311 Intermediate Microeconomics
ECON 381 Introduction to Econometrics

MARK 471 Sales Force Management

Supply Chain Management

[Before]Complete:
SCM 309 Supply Chain Analytics and Decision Making
[After]
[Before]Complete two courses:
SCM 413 Logistics Operations
SCM 414 Manufacturing and Service Operations
SCM 421 Global Strategic and Sustainable Sourcing

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Management is a broad field that focuses on the planning, organizing, leading, and controlling of an organization's resources where the ultimate objective is to ensure that the organization achieves and sustains a competitive advantage. The Management Major can be earned through two different tracks of study with distinct career outcomes. The Leadership and Organizational Effectiveness (LOE) track prepares students to create value within existing organizations by managing business opportunities that foster new revenue growth. Leadership and Organizational Effectiveness career outcomes include corporate management trainee programs, project-based work, consulting, and general management. The Entrepreneurship and Emerging Enterprises (EEE) track gives students the content and skills for creating and managing new, early-stage, and high-growth organizations. This track prepares students for opportunities in start-ups and growth businesses, and family-owned firms – including for-profit and not-for-profit organizations. A common thread throughout the Management Major is the development of important professional skills including: data-driven decision making, problem-solving, critical thinking, leadership, and communication. All students in each track are required to complete an internship.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Management is a broad field that focuses on the planning, organizing, leading, and controlling of an organization's resources. A manager's ultimate objective is to help his or her organization achieve and sustain a competitive advantage. Careers in management have diverse starting points and trajectories. Management majors can be found working throughout the world in many different industries such as manufacturing, financial services, transportation, entertainment, health care, and many more. Some Management graduates start their own businesses while others spend their careers in governmental and non-profit organizations. One common thread is that people who work as managers depend heavily on their problem-solving and communication skills. The Management curriculum also prepares students for post-graduate work in business, law, health care, and other fields. All students in the program are required to complete an internship.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

No milestones

Total Credit Hours 120-122

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core* list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Major elective chosen from any 300-level or 400-level ENT, HRM, or MGT course.

* Meets Volunteer Core Requirements.

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Additionally, MGT 380 is added as a requirement for the concentration to ensure that the engineering and business students in the Heath Integrated Business and Engineering Program are acquiring a certain level of business acumen at the same time and to enable them to progress together in such a way as to facilitate their ability to work together on projects integral to the program. Furthermore, project management exposure and skills are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers and Heath IBEP students begin their post-graduation career

Financial Impact*

Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Making MGT 380 required for the business students in the Heath IBEP program adds fewer students than would be required for an additional section. The addition of the business students might create enough capacity demand for the creation of an additional section dedicated to students in the Heath Integrated Business and Engineering Program. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Haslam College of Business - Management and Entrepreneurship - Management Major, BS in Business Administration - Integrated Business Concentration

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* Haslam College of Business

Department* Management and Entrepreneurship

Program Name* Management Major, BS in Business Administration - Integrated Business Concentration

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

Description

Management is a broad field that focuses on the planning, organizing, leading, and controlling of an organization's resources where the ultimate objective is to ensure that the organization achieves and sustains a competitive advantage. A common thread throughout the Management Major is the development of important professional skills including: data-driven decision making, problem-solving, critical thinking, leadership, and communication.

The Integrated Business Concentration option is a distance education/fully-online option specifically designed for transfer students. Only transfer students who have earned 24 transferable credit hours with a cumulative GPA of 2.50 or higher are eligible to apply and participate in this program.

Current students who meet the above criteria are eligible to apply as well.

Students will need to maintain a 2.5 cumulative UT GPA.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Total Credit Hours 120 (including transfer hours)

Footnotes

Chosen from the Volunteer Core* list.
Any courses not already required for the major.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Requires a grade of C or better.
Approved internship and/or professional experience will be required to meet graduation requirements.

Rationale*

This revision includes changes to the admissions requirement for the program- an associates degree is no longer required. Program curriculum/schema now includes Volunteer Core requirements and Pre-business/Business Core in line with our residential BSBA programs. Additionally, the concentration is changing from Sales to Integrated Business, which allows students to take courses in several business areas (economics, marketing, supply chain management, business analytics) rather than strictly sales.

Additionally, legal and ethical content is combined into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact*

Minimal within the Haslam College of Business. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305. Resources currently being used for the Sales concentration courses will be used for the Integrated Business concentration courses. There may be a slight increase in enrollment in Volunteer Core courses, which Distance Education supports.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change

( ) New major name and new CIP code (requires THEC approval)
(•) New major name and keeping the same CIP code

CIP Code* n/a

Notes

Haslam College of Business - Management and Entrepreneurship - Management Major, BS in Business Administration - International Business Concentration

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Management is a broad field that focuses on the planning, organizing, leading, and controlling of an organization's resources. A manager's ultimate objective is to help his or her organization achieve and sustain a competitive advantage. Careers in management have diverse starting points and trajectories. Management majors can be found working throughout the world in many different industries such as manufacturing, financial services, transportation, entertainment, health care, and many more. Some Management graduates start their own businesses while others spend their careers in governmental and non-profit organizations. One common thread is that people who work as managers depend heavily on their problem-solving and communication skills. The Management curriculum also prepares students for post-graduate work in business, law, health care, and other fields. All students in the program are required to complete an internship.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core* list.
Students who have already completed MATH 132** with a C or better may substitute that for MATH 141*.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses - ACCT 208; BUAD 337, BUAD 338, BUAD 457*; ECON 218*; FINC 308; and STAT 207*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 13 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Twelve hours chosen from IB 407, IB 409, IB 429, IB 439, IB 449, IB 492, IB 499; BUAD 400* or MGT 472; and IB 489.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Major elective chosen from any 300-level or 400-level ENT, HRM, or MGT course.

* Meets Volunteer Core Requirements.

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. It is not anticipated that additional faculty will be needed to accommodate this proposal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Haslam College of Business - Management and Entrepreneurship - Social Entrepreneurship Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Management and Entrepreneurship

Program Name* Social Entrepreneurship Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Haslam College of Business minor in Social Entrepreneurship is open to undergraduate students from any major across campus. This minor is intended to address issues of social enterprise, philanthropy, civil engagement, managing NGOs, and other related areas. The minor consists of 15 hours including ENT 410S, which is available to undergraduate students without prerequisites, and the remaining hours chosen from the following lists of elective, complementary courses in each student's home discipline or other disciplines in accordance with course prerequisites and program requirements. Students receive a minor from the Haslam College of Business, but the program and content is tailored to their particular interests and reinforces their major interest.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Complete this 3-Hour Core Course:

ENT 410S Leadership in Nonprofits and Social Entrepreneurship

Complete 6-9 Hours from the following list of content courses:

College of Architecture and Design

COAD 430* Design Thinking and Innovation

College of Arts and Sciences

ANTH 415* Environmental Anthropology
ANTH 420* Disasters
GEOG 409 GIS for Environmental and Socio-Economic Applications

College of Social Work

SOWK 250* Introduction to Social Welfare
SOWK 416 Social Welfare Policy and Programs
SOWK 465 Non-profit Management and Leadership

Complete 3-6 hours from the following list of experiential courses:

College of Architecture and Design

College of Arts and Sciences

GEOG 206* Sustainability Principles and Practices
EEPS 202* Earth as an Ecosystem: Modern Problems and Solutions
PHIL 256S Social Justice
POLS 499 Service Learning in Political Science
SOCI 495 Social Justice and Community Engagement
UNHO 267* Honors: Special Topics in the Social Sciences

College of Education, Health, and Human Sciences

HDFS 480 Practicum: Community Outreach
ELPS 310 Emerging Leaders
ELPS 411 Leadership Knoxville Scholars Capstone Seminar

Haslam College of Business

ENT 492 Entrepreneurship Internship
HRM 492 Internship and Career Development
MGT 492 Internship and Career Development

Howard H. Baker Jr. School for Public Policy and Public Affairs

HBS 495 Special Topics in Public Policy

College of Nursing

NURS 433 Clinical Immersion IV for the Accelerated Student
NURS 483S Clinical Immersion V

Notes:

All courses have been approved for use in the minor by the relevant college or department.
Participation in the minor does not waive any course prerequisites or affect scheduling of courses.
Students may not minor in both Entrepreneurship and Social Entrepreneurship.

*** Meets Volunteer Core Requirements.**

Rationale* The Haslam College of Business minor in Social Entrepreneurship is open to undergraduate students from any major across campus and is intended to address issues of social enterprise, philanthropy, civil engagement, managing NGOs, and other related areas. This revision adds one course, SOWK 465, to a list of possible course options that would count for this minor. Additionally, the department would like to remove the admission requirement for the minor in order to make it more accessible to students.

Financial Impact* None for the Management and Entrepreneurship Department. At most, there may be an incremental increase in the number of students enrolled in SOWK 465 which is offered by the College of Social Work.

Impact on Other Units* At most, there may be an incremental increase in the number of students enrolled in SOWK 465 which is offered by the College of Social Work. See attachment from the College of Social Work.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Marketing in an organization has responsibility for identifying who customers are, what they need and want, and how best to meet those needs/wants by creating and delivering superior value to them. Marketing professionals use strategy tools to target customers, create value propositions and positioning for each target, and deliver and communicate value to these customers through product design, pricing, advertising, personal selling, promotion, and distribution.

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
Choose from: BAS 340, BAS 370S, BAS 454, BAS 471, BAS 475, BAS 476, or INMT 342.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Students should complete courses from one of the following tracks: Customer and Brand Strategy (MARK 464 and one of: MARK 411, MARK 450, MARK 462, MARK 465, MARK 466); Digital and Visual Marketing (MARK 465 and one of: MARK 411, MARK 475, MARK 485, or MARK 495); Professional Sales (MARK 469 and one of: MARK 411, MARK 470, or MARK 471).
Marketing Elective chosen from MARK 411, MARK 450, MARK 462, MARK 464, MARK 465, MARK 466, MARK 469, MARK 470, MARK 471, MARK 475, MARK 485, or MARK 495.

*** Meets Volunteer Core Requirements.**

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours

Financial Impact* Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

SCM 309 Supply Chain Analytics and Decision Making
[After]
[Before]Complete two courses:
SCM 413 Logistics Operations
SCM 414 Manufacturing and Service Operations
SCM 421 Global Strategic and Sustainable Sourcing

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Additionally, the requirements for the track were changed to give students more flexibility in their course selections, better aligning them with their career aspirations.

Financial Impact*

This track revision is not predicted to change the net number of sections the department needs to offer in any of the courses, but it could potentially have a minor effect.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Marketing

Program Name* Marketing Major, BS in Business Administration - Collateral Option - Digital and Visual Marketing Track

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Marketing in an organization has responsibility for identifying who customers are, what they need and want, and how best to meet those needs/wants by creating and delivering superior value to them. Marketing professionals use strategy tools to target customers, create value propositions and positioning for each target, and deliver and communicate value to these customers through product design, pricing, advertising, personal selling, promotion, and distribution.

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Total Credit Hours 120-122

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 13 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
The requirements for the Professional Sales Track are MARK 469, MARK 471, and one of: MARK 411 or MARK 470.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Marketing Elective chosen from MARK 411, MARK 450, MARK 462, MARK 464, MARK 465, MARK 466, MARK 470, MARK 475, MARK 485, or MARK 495.

* Meets Volunteer Core Requirements.

Collateral Options for the Professional Sales Track:

Advanced Foreign Language

(only available to students pursuing International Business as a secondary major)

9 Hours of 300+ Foreign Language as outlined in International Business Major requirements.

Business Analytics

[Before]Complete both courses:
BAS 320 Regression Modeling
BAS 474 Data Mining and Business Analytics
[After]
[Before]Complete one course:
BAS 340 Experimental Methods and Process Improvement
BAS 370S Search Advertising Optimization
BAS 454 Data Visualization for Business Analysts
BAS 471 Statistical Methods
BAS 475 Applied Time Series and Forecasting
BAS 476 Data Engineering and Visualization
INMT 342 Introduction to Database Systems

Economics

ECON 311 Intermediate Microeconomics
ECON 435 Industrial Organization
[After] One 400-level economics elective **3** *Credit Hours*

Entrepreneurship

[Before]Complete both courses:
ENT 350 Introduction to Entrepreneurship
ENT 451 New Venture Planning
[After]
[Before]Complete one course:
ENT 375 Introduction to Name, Image, and Likeness
ENT 410S Leadership in Nonprofits and Social Entrepreneurship
ENT 415 Strategic Frameworks for New Ventures
ENT 452 Business Sustainability, Responsibility, and Ethics
ENT 460 Leading Innovation and Change
ENT 462 Innovation and Creativity
ENT 464 Corporate Entrepreneurship
ENT 470 Managing an Entrepreneurial Start-Up
ENT 480 Franchising
ENT 481 Franchising in Action
ENT 483 International Entrepreneurship
ENT 485 Funding Strategies for Entrepreneurs
ENT 492 Entrepreneurship Internship
ENT 499 Special Topics in Entrepreneurship

Human Resource Management

HRM 360 Managing Human Resources
HRM 481 Recruitment and Selection
MGT 331 Leadership Skills

Information Management

[Before]Complete both courses:
INMT 341 Business Process Analysis
INMT 342 Introduction to Database Systems
[After]
[Before]Complete one course:
INMT 441 Introduction to Cybersecurity in Business
INMT 442 e-Enterprise
INMT 443 Business Applications and Tools
INMT 499 Special Topics in Information Management
[Right] (3 hours)

International Business

[Before]Nine hours from:
IB 407 Honors Human Centered Leadership Seminar: Innovation in a Global Context
IB 409 International Business
IB 429 International Economics for Business
IB 439 Global Supply Chain Management
IB 449 International Finance
IB 492 Off-Campus Study
[Right] (3 hours)
IB 499 Special Topics in International Business
[After]
BUAD 400* Special Topics
[After] or
[Right] (3 hours)
MGT 472 Managing People in the Global Environment
[After]
IB 489 Study Abroad

Leadership

[Before]Complete both courses:
MGT 331 Leadership Skills
MGT 336 Foundations of Organizational Behavior
[After]
[Before]Complete one course:
ENT 410S Leadership in Nonprofits and Social Entrepreneurship
ENT 460 Leading Innovation and Change

Supply Chain Management

[Before]Complete:
SCM 309 Supply Chain Analytics and Decision Making
[After]
[Before]Complete two courses:
SCM 413 Logistics Operations
SCM 414 Manufacturing and Service Operations
SCM 421 Global Strategic and Sustainable Sourcing

Rationale*
This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact*
Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units*
Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*
(•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Haslam College of Business - Marketing - Marketing Major, BS in Business Administration - Heath Integrated Business and Engineering Program

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Marketing

Program Name* Marketing Major, BS in Business Administration - Heath Integrated Business and Engineering Program

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Marketing in an organization has responsibility for identifying who customers are, what they need and want, and how best to meet those needs/wants by creating and delivering superior value to them. Marketing professionals use strategy tools to target customers, create value propositions and positioning for each target, and deliver and communicate value to these customers through product design, pricing, advertising, personal selling, promotion, and distribution.

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
Students should complete courses from one of the following tracks: Customer and Brand Strategy (MARK 464 and one of: MARK 411, MARK 450, MARK 462, MARK 465, or MARK 466); Digital and Visual Marketing (MARK 465 and one of: MARK 411, MARK 475, MARK 485, or MARK 495); Professional Sales (MARK 469 and one of: MARK 411, MARK 470, or MARK 471).
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Marketing Elective chosen from MARK 411, MARK 450, MARK 462, MARK 464, MARK 465, MARK 466, MARK 469, MARK 470, MARK 471, MARK 475, MARK 485, or MARK 495.

* Meets Volunteer Core Requirements.

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Additionally, MGT 380 is added as a requirement for the concentration to ensure that the engineering and business students in the Heath Integrated Business and Engineering Program are acquiring a certain level of business acumen at the same time and to enable them to progress together in such a way as to facilitate their ability to work together on projects integral to the program. Furthermore, project management exposure and skills are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers and Heath IBEP students begin their post-graduation career.

Financial Impact*

Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Making MGT 380 required for the business students in the Heath IBEP program adds fewer students than would be required for an additional section. The addition of the business students might create enough capacity demand for the creation of an additional section dedicated to students in the Heath Integrated Business and Engineering Program. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Haslam College of Business

Department* Marketing

Program Name* Marketing Major, BS in Business Administration - International Business Concentration

Degree Type* Bachelor of Science in Business Administration

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Marketing in an organization has responsibility for identifying who customers are, what they need and want, and how best to meet those needs/wants by creating and delivering superior value to them. Marketing professionals use strategy tools to target customers, create value propositions and positioning for each target, and deliver and communicate value to these customers through product design, pricing, advertising, personal selling, promotion, and distribution.

Marketing education enables one to pursue varied career opportunities critical to organizations. Typically, a career in marketing begins in either consumer or industrial sales or retailing, which eventually may lead to management positions in any of several areas. For example, marketing professionals may hold positions in advertising, brand management, sales management, promotion management, marketing research, distribution, and other related areas.

Students interested in a marketing career will have a broad-based business education, which includes financial management, supply chain management, operations, human resources, business strategy, economics, and statistics. In addition to a broad array of courses in arts and sciences, marketing students will obtain a strong grounding in the social sciences to better understand the forces that shape consumer preferences.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Students admitted to Smith Global Leadership Scholars will complete the honors versions of these courses: ACCT 208, BUAD 337, BUAD 338, BUAD 457*, ECON 218*, FINC 308, and STAT 207*.
Any courses not already required for the major. Students admitted to Smith Global Leadership Scholars will fulfill 13 hours of electives with the following courses – BUAD 217, BUAD 317*, BUAD 417, BUAD 427, and BUAD 497.
Twelve hours chosen from IB 407, IB 409, IB 429, IB 439, IB 449, IB 492, IB 499; BUAD 400* or MGT 472; and IB 489.
Students admitted to Smith Global Leadership Scholars will not take these courses due to content being covered elsewhere in their curriculum.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.
Students should complete courses from one of the following tracks: Customer and Brand Strategy (MARK 464 and one of: MARK 411, MARK 450, MARK 462, MARK 465, or MARK 466); Digital and Visual Marketing (MARK 465 and one of: MARK 411, MARK 475, MARK 485, or MARK 495); Professional Sales (MARK 469 and one of: MARK 411, MARK 470, or MARK 471).
Marketing Elective chosen from MARK 411, MARK 450, MARK 462, MARK 464, MARK 465, MARK 466, MARK 469, MARK 470, MARK 471, MARK 475, MARK 485, or MARK 495.

* Meets Volunteer Core Requirements.

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Supply chain management has responsibility for the movement of raw materials and component parts into and within a business firm and to the distribution of finished products and services to customers.

Because having products and/or services in the right place at the right time is critical for success in any business, supply chain management plays a critical role in a firm's comprehensive supply chain. A career in supply chain management offers students the opportunity to make a significant contribution to corporate effectiveness in this area.

The internationally recognized Supply Chain Management program at the University of Tennessee is currently regarded as one of the most comprehensive and contemporary programs in the nation. The program offers a fundamental yet innovative curriculum. Students develop important skills required of supply chain management professionals as well as learn how supply chain management helps solve business supply chain management problems.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Total Credit Hours 120-122

Footnotes

Must be completed by the end of the First Year.

Chosen from the Volunteer Core* list.

Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.

Any courses not already required for the major.

First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.

At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

One of: BAS 370S, BAS 454, BAS 464, BAS 471, BAS 475, BAS 476, or INMT 342.

*** Meets Volunteer Core Requirements.**

Rationale* This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Financial Impact* Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units* Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Supply chain management has responsibility for the movement of raw materials and component parts into and within a business firm and to the distribution of finished products and services to customers.

Because having products and/or services in the right place at the right time is critical for success in any business, supply chain management plays a critical role in a firm's comprehensive supply chain. A career in supply chain management offers students the opportunity to make a significant contribution to corporate effectiveness in this area.

The internationally recognized Supply Chain Management program at the University of Tennessee is currently regarded as one of the most comprehensive and contemporary programs in the nation. The program offers a fundamental yet innovative curriculum. Students develop important skills required of supply chain management professionals as well as learn how supply chain management helps solve business supply chain management problems.

FINC 482 Real Estate Cases

Sales

MARK 350 Consumer Behavior
MARK 469 Professional Selling
[After] and one of
MARK 470 Advanced Topics in Sales
MARK 471 Sales Force Management

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Additionally, Real Estate was added as a collateral option due to input from industry partners that Real Estate is a growing field with links to supply chain management.

Financial Impact*

Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

This addition may cause a slight increase in enrollment in Real Estate courses. Finance department was consulted and approved adding this collateral.

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No
- ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Footnotes

Must be completed by the end of the First Year.
Chosen from the Volunteer Core list.
Students who have already completed MATH 132* with a C or better may substitute that for MATH 141*.
Any courses not already required for the major.
First-semester freshmen should take BUAD 100; transfer students should take BUAD 210.
At least three hours from courses among the Volunteer Core Applied Arts and Humanities (AAH), Arts and Humanities (AH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS) lists.

*** Meets Volunteer Core Requirements.**

Rationale*

This revision includes changes to our Business Core requirements, combining legal and ethical content into one new course (BULW 305) in place of the previous BULW 301 and Ethics requirements. The major requirements increased by 3 credit hours and unrestricted electives were reduced by 1 credit hour to make up for these changes and keep the program at 120 total hours.

Additionally, MGT 380 is added as a requirement for the concentration to ensure that the engineering and business students in the Heath Integrated Business and Engineering Program are acquiring a certain level of business acumen at the same time and to enable them to progress together in such a way as to facilitate their ability to work together on projects integral to the program. Furthermore, project management exposure and skills are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers and Heath IBEP students begin their post-graduation career.

Financial Impact*

Minimal. Current faculty already teach BULW 301, and the department will reduce seats in BULW 301 next year to offset adding BULW 305.

Making MGT 380 required for the business students in the Heath IBEP program adds fewer students than would be required for an additional section. The addition of the business students might create enough capacity demand for the creation of an additional section dedicated to students in the Heath Integrated Business and Engineering Program. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Impact on Other Units*

Minimal. Some of the courses for the previous Ethics requirement may see a reduction in enrollment (e.g., PHIL 244 and PHIL 252). See attached communication.

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No
- ( ) No Impact

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Supply chain management has responsibility for the movement of raw materials and component parts into and within a business firm and to the distribution of finished products and services to customers.

Because having products and/or services in the right place at the right time is critical for success in any business, supply chain management plays a critical role in a firm's comprehensive supply chain. A career in supply chain management offers students the opportunity to make a significant contribution to corporate effectiveness in this area.

The internationally recognized Supply Chain Management program at the University of Tennessee is currently regarded as one of the most comprehensive and contemporary programs in the nation. The program offers a fundamental yet innovative curriculum. Students develop important skills required of supply chain management professionals as well as learn how supply chain management helps solve business supply chain management problems.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Herbert College of Agriculture - AGNR - 117

2026-2027 UG Drop/Archive Course

General Catalog Information

College* Herbert College of Agriculture

Department (Acalog Hierarchy)* Agriculture and Natural Resources (Interdepartmental)

Subject/Prefix (choose from list)* AGNR

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 117

Course Title (max 100 characters)* HCA Honors Freshman Seminar

Credit Hours* 1

Change course status from active to:* (•) Dropped ( ) Archived

Course Description The freshman seminar will address global challenges in the Food, Agriculture, Natural Resources, and Human Sciences (FANHS) like the "One Health" model. Federal agencies that have historically acted unilaterally are now recognizing that health of animals, people, and the environment are inextricably linked. The "One Health" approach is the collaborative effort of the human health, veterinary health, and environmental health communities to interact on a local, national, and global scales in order to attain and maintain optimal health not only for people, but for domestic, farm, and food animals, wildlife, plants, and environment. This course will focus on research programs in the Institute of Agriculture that approach solving challenges through communication, cooperation, and collaboration across disciplines and institutions, thus maintaining or reducing health risks to animals, humans, the environment and society.

Satisfies Volunteer Core Requirement:

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale* The course has been in the catalog since 2018. No students have ever enrolled in the course. Removing the course will declutter the catalog offerings and open up the course number for future use (in 6 yrs).

Impact on Other Units* None-no students have ever enrolled in the course, and it is not used in any other college's curriculum schema

Impact Report for AGNR 117

Source: WORKING 2026-2027 Undergraduate Catalog	
Programs	Honors Food, Agricultural, Natural Resource, and Human Sciences Minor
	One Health Minor

Financial Impact* None-no students have ever enrolled in the course, and it is not used in any other college's curriculum schema. The faculty member originally intended to teach the course has been reassigned instruction of other courses that have students.

General Catalog Information

College* Herbert College of Agriculture

Department (Acalog Hierarchy)* Agricultural Leadership, Education, and Communications

Subject/Prefix (choose from list)* ALEC

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 360

Course Title (max 100 characters)* Leadership in Deliberative Civic Engagement

Experience Learning Designation
- ○ N (Internship)
- ○ R (Research)
- ○ S (Service Learning)

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This course explores the principles and practices of civic leadership within the context of deliberative civic engagement. Students will examine various models and strategies for fostering participatory, dialogic, and deliberative practices and processes that address complex adaptive system-level challenges. The course emphasizes leadership communication, facilitating dialogic and deliberative processes, building consensus, working across factions, and creating conditions for productive disagreement in order to advance problem-solving among diverse stakeholders. Students will develop advanced facilitation skills, knowledge, and critical reflection on their ability to design, facilitate, and evaluate effective deliberative processes through experiential learning experiences.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary. ALEC 360 (Primary), LEAD 360 (Secondary)

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Rationale* This course is an important component to the new international agriculture concentration that is being proposed this cycle in ALEC. It will teach students effective and innovative skills around global tenets of leadership development that they can apply in the future for careers in international agriculture. The competencies taught in the course are essential for effective leadership in today's interconnected global landscape.

Impact on Other Units* N/A

Financial Impact* The Herbert College of Agriculture will invest 0.1FTE to teach the course as part of the new ALEC undergraduate international agriculture concentration.

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisors

Greig, Rampold, Ruth, Lay

The Agricultural Leadership, Education, and Communications major is designed for students who want a broad, general background in agriculture and wish to develop their leadership and communication skills to pursue careers in business and industry, agricultural education, agricultural extension education, and agricultural communications. The agricultural communications concentration is designed for those students wanting a background in agriculture while pursuing communication careers in areas such as journalism, electronic media, marketing/management, and broadcasting.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Chosen from the Volunteer Core list.

AREC 201* (4) or ECON 201* (4) or ECON 207* (4) satisfies the Volunteer Core – Social Sciences requirement and the major requirement for economics. If the student transfers ECON LD for 3 credits, it will satisfy the major requirement but will not satisfy the Volunteer Core – Social Sciences requirement. In these cases, the student should take two courses from the Social Sciences list.

Select sequence (8 hours) from BIOL 101*-BIOL 102*, BIOL 150*-BIOL 160*-BIOL 159*, or BIOL 158*-BIOL 168*-BIOL 167*.

The Agricultural Sciences and Natural Resources electives may be selected from any courses in the college not already required for the major.

JMED 333, JMED 360, JMED 390, or JMED 446.

Any course not already required for the major.

Students who have earned the A.S. degree in agriculture or related field of study from a Tennessee community college or university may apply A.S. coursework to meet this requirement.

*** Meets Volunteer Core requirement.**

Rationale* We are removing JMED 466 from the curriculum in term 8 and replacing it with JMED 230 because 230 is better suited for our Ag Comm students' educational goals and for the career fields they will be going into. The instructor for JMED 230 is supportive of this, there is no concern about space for our students, and there are multiple sections offered in fall and spring.

Financial Impact* minimal to none as we're using a different course from the same program (JMED)

Impact on Other Units* minimal to none as we're using a different course from the same program (JMED)

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisors

Richards, Stephens, West, Lay

The Agricultural Leadership, Education, and Communications major is designed for students who want a broad, general background in agriculture and wish to develop their leadership and communication skills to pursue careers in business and industry, agricultural education, agricultural extension education, and agricultural communications. The community engagement and leadership development concentration is designed for students who want to develop leadership skills and pursue careers in extension, government, community or youth organizations, business/industry, or international environments.

Graduates who plan to enter careers in Extension must have a minimum cumulative grade point average of 2.7 on a 4.0 point scale, a minimum of 3.0 during their senior year of undergraduate study, or must have earned a Masters degree.

Students who have an Associate of Science or Associate of Science in Teaching degree from a Tennessee Board of Regents (TBR) community college or have completed 6-credit hours and have a 2.0 GPA may complete the Community Engagement and Leadership Development Concentration as an ALEC Distance Education student.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Knoxville campus students interested in pursuing a career as an agriculture and natural resources Extension agent should complete 18 hours in one Herbert College of Agriculture department (not ALEC). Students are strongly encouraged to declare a minor in that department; however, if the minor requires less than 18 hours, students will need to take additional hours within the same department. Distance education students can select any course in the Herbert College of Agriculture not already required in the major.
Chosen from the Volunteer Core list.
Any course not already required for the major
Select sequence (8 hours) from BIOL 101*-BIOL 102*, BIOL 150*-BIOL 160*-BIOL 159*, or BIOL 158*-BIOL 168*-BIOL 167*.
Community Engagement elective chosen from PLSC 122*, PLSC 411, PLSC 412, PLSC 413, AFST 325, AGNR 491, ANTH 130*, AREC 395*, EDPY 210*, ELPS 1** - ELPS 499, HDFS 1** - HDFS 499, IEC 320, LEAD 349, LEAD 350 PSYC 110*, PSYC 473, RSM 326*, RSM 426, SOCI 120*, SOWK 200*, ALEC 325*, ALEC 483, ALEC 485*; HDFS 210*, HDFS 213, HDFS 220*, HDFS 240*, HDFS 320*, or HDFS 360; COUN 333*, or COUN 480*; CSE 300*; PSYC 235, PSYC 335, PSYC 409, PSYC 450, PSYC 454, PSYC 459, PSYC 461, PSYC 470, PSYC 471*, PSYC 472, PSYC 475, or PSYC 481*; PUBH 201*, PUBH 315, PUBH 401, or PUBH 430; SOCI 342, SOCI 360*, SOCI 363*, or SOCI 375*; WGS 200* or WGS 370*. Distance Education students may select alternative courses in consultation with their academic advisor.
Distance Education students who have earned the A.S. degree from a Tennessee community college or university can apply A.S. coursework to meet this requirement. Distance Education students who have earned an A. S. degree from a regionally accredited community college or university and have met the Volunteer Core requirements can apply A.S coursework to meet this requirement.
Distance Education students can satisfy the ALEC 434* requirement by substituting ALEC 493.
Distance Education students who have earned the A.S. degree from a Tennessee community college or university or from a regionally accredited community college can apply A.S. coursework to meet this requirement.
Knoxville campus students interested in pursuing a career in family and consumer sciences Extension should select 18 hours from HDFS 210*, HDFS 213, HDFS 220*, HDFS 240*, HDFS 320*, HDFS 360; HTM 101, HTM 341; NUTR 100*, NUTR 302; PUBH 201*, and PUBH 315.
Any approved Engaged Inquiries (EI) elective except those with an ALEC prefix.

* Meets Volunteer Core Requirement.

Rationale* LEAD 349 and 350 added to the Community Engagagement electives will give our students exposure and opportunity to further leadership development skills through practical application.

Financial Impact* minimal

Impact on Other Units* minimal

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisors

Lay, Gill, Flanagan, Romanini

The Agricultural Leadership, Education, and Communications major is designed for students who want a broad, general background in agriculture and wish to develop their leadership and communication skills to pursue careers in business and industry, agricultural education, agricultural extension education, and agricultural communications. The International Agriculture concentration is designed for students who want to develop their global knowledge and skills and pursue careers in or related to international agriculture.

Students are encouraged to utilize stackable credentials (e.g., certificate programs) and minors in the Herbert College of Agriculture to complete the agricultural core electives.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: **Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type options should be entered from the following list: **Add-On, Stand-Alone**

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Footnotes

Some careers addressed by this program may require strong emphasis in a particular department (e.g., UT Extension jobs require 18 hours within a Herbert College of Agriculture department outside of ALEC). Students will select courses in the Herbert College of Agriculture not already required in the major or in a closely related field in consultation with their academic advisor.

Chosen from the Volunteer Core list

Any course not already required for the major

Select sequence (8 hours) from BIOL 101*-BIOL 102*, BIOL 150*-BIOL 160*-BIOL 159*, or BIOL 158*-BIOL 168*-BIOL 167*.

Students who have earned the A.S. degree from a Tennessee community college or university can apply A.S. coursework to meet this requirement. Students who

Students who have earned the A.S. degree from a Tennessee community college or university can apply A.S. coursework to meet this requirement. Students who have earned an A. S. degree from a regionally accredited community college or university and have met the Volunteer Core requirements can apply A.S coursework to meet this requirement.

Any approved Engaged Inquiries elective except those with an ALEC prefix

* Meets Volunteer Core Requirement.

Rationale* This program and one like it is something that students and faculty have been asking for and trying to develop for some time. There's a lot student interest in this program because of the ever expanding global nature of agriculture. This program prepares students to be global leaders in agriculture and equips them with the essential skills, knowledge, and practical experience that will help them be successful and change agents in agriculture in many various global settings.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

CIP Code * n/a

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

Description

Advisor – Lay
Faculty mentors – Clark, Boyer, & Stripling
The Herbert College of Agriculture, as a partner in the University of Tennessee College of Law's 3+3 Program, offers this pathway for qualified students to earn a bachelor's degree and J.D. degree on an accelerated schedule.
Students pursuing this program complete their first three years of coursework in the Herbert College of Agriculture, fulfilling all University General Education requirements, completing courses in the Departments of Agricultural Leadership, Education and Communications, and Agricultural and Resource Economics, and successfully completing at least 90 credit hours of undergraduate coursework.
During their junior year, students will submit a J.D. admissions application (including Law School Admissions Test score) to the College of Law. Students accepted for admission will then enroll in J.D. classes in their fourth year. Upon successful completion of 30 credit hours of J.D. coursework, students will be awarded a B.S. degree in Agriculture with a concentration in Pre-Law. Students will receive the J.D. degree upon successful completion of the graduation requirements for that degree.
Students are initially advised in the Herbert College of Agriculture regarding undergraduate degree requirements and College of Law admission requirements and current standards. If a student chooses not to apply for J.D. admission or is denied admission, the student will have the opportunity to complete the B.S. degree through other coursework.

[3]Select sequence (8 hours) from BIOL 101 *-BIOL 102 *. BIOL 150 *-BIOL 160 *-BIOL 159 *. or BIOL 158*-BIOL 168 *-BIOL 167 *.

*Any approved Engaged Inquiries elective except those with [illegible] prefix
*Meets Volunteer Core Requirement.

Rationale* There has been more than sufficient interest and need for some time for a direct academic pathway program for agriculture students interested in pursuing law school. Both in AREC and ALEC departments, there have been many students who have gotten into law school, and have aspirations to go into law school yet there was not a program to address those student's interest and aspiration. This program answers/addresses that need/demand and will prepare students accordingly. The program further creates more opportunity and offerings for agriculture students looking to go into law school.

Financial Impact* minimal financial impact on other units as many courses are offered within the department and HCA

Impact on Other Units* College of Law; impact on other units will be minimal

Herbert College of Agriculture - Agriculture and Natural Resources (Interdepartmental) - Food Security Certificate

2026-2027 UG Add Program

General Catalog Information

College* Herbert College of Agriculture

Department* Agriculture and Natural Resources (Interdepartmental)

Program Name* Food Security Certificate

Learning Outcomes Students will be able to 1) Describe the three dimensions of food security as defined by the -physical availability of food, economic & physical food access, and food utilization, 2) Explain the interaction between food security and external forces (weather, political instability, etc.), and 3) Apply principles of food security to address challenges at the household, national, and global level.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*

- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisors: Dia (Herbert), Kwon (Education, Health & Human Sciences), Sunil Thankam (Education, Health & Human Sciences), Jackie Yenerall (Herbert)

The Food Security certificate prepares students to address food security issues faced by households, communities, or nations in a domestic or international setting depending on course selection. The certificate is meant to be additive to a student's degree program through building of local and national or international food supply, safety, and acquisition systems, particularly for but not limited to, students pursuing degrees in agriculture, business, economics, engineering, natural resources, nutrition, policy, public health, retail hospitality & tourism, social work, and sociology. The certificate may also provide an access point to non-degree seeking students choosing to expand their skills and knowledge.

Students must complete an introductory course and a capstone course, with selection of at least two additional courses of interest, for a minimum of 12 credit hours and a maximum of 15 credit hours. Students enrolled in a degree program must complete at least one course outside of their major. At least one course must be a hands-on, experiential learning course as approved by the program advisory group.

Questions should be directed to one of the program advisors. No more than 3 credit hours may be accepted as transfer credit, pending review by one or more of the program advisors. Transfer credit will only be accepted for students enrolled in one of UT's degree programs.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Undergraduate Certificate Type: Add-On

Section 1 Food Supply, Society and the Natural Environment 3 credits

The purpose of the section is to provide a baseline of the food supply and its interface with society and the natural environment.

AGNR 180* Global Dynamics: Food, Biodiversity, and the Environment

Section 2: Household, National, International Food Security 6 credits

Choose six credits from the following courses.

AGNR 201 Sustainable Food Systems
ALEC 325* Philosophy of Sustainable Agriculture
AREC 201* Economics of the Global Food and Fiber System
AREC 331 Agricultural Commodity Policy
AREC 332* Food Policy
AREC 350* The Food and Agricultural Marketing System
FDSC 150* History and Culture of Food
FDSC 241 Food Preservation and Packaging
PUBH 420 Environmental Public Health
HTM 235 Food Upcycling Operations Management

Section 3: Capstone 3 credits

The capstone requirement is intended to allow students to apply concepts from other sections of the certificate in a culminating experience that addresses food security in a real world situation. Can be a regular course or an experience for credit (e.g., Internship for credit, service learning, etc.). Two or more courses, that are each less than 3 cr each, may be used together to fill the 3 credit requirement. Limited to 300 or 400 level. Internships and other non-regular courses, or regular courses not listed, may be petitioned for counting as the capstone requirement. Additional credit hours may be completed from either section two or section three courses to achieve a minimum 12 credits for the certificate

AGNR 480 How to Feed the World
ALEC 450* Servant Leadership
HTM 392 Community and Industry Engagement
[After] * Satisfies Volunteer Core Requirements

Rationale*

The Food Security certificate prepares students to address food security issues faced by households, communities, or nations in a domestic or international setting depending on course selection. The certificate is meant to be additive to a student's degree program through building of local and national or international food supply, safety, and acquisition systems, particularly for but not limited to, students pursuing degrees in agriculture, business, economics, engineering, natural resources, nutrition, policy, public health, retail hospitality & tourism, social work, and sociology. The certificate may also provide an access point to non-degree seeking students choosing to expand their skills and knowledge.

Financial Impact*

None

Impact on Other Units*

Courses will be taken at the following departments:

Agricultural and Resource Economics

Agricultural Leadership, Education, and Communications

Agricultural and Natural Resources

Food Science

Public Health

Retail, Hospitality, and Tourism Management

Have you consulted with all programs/departments that will be impacted by this change?*

- (•) Yes
- ( ) No
- ( ) No Impact

CIP Code * 30.0000

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?*

- ( ) Yes
- (•) No

Per Institutional Effectiveness, does this proposal require SACSCOC action?*

- (•) Yes
- ( ) No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

Notes

Herbert College of Agriculture - Agriculture and Natural Resources (Interdepartmental) - Honors Food, Agricultural, Natural Resource, and Human Sciences Minor

2026-2027 UG End Program

General Catalog Information

College* Herbert College of Agriculture

Department* Agriculture and Natural Resources (Interdepartmental)

Program Name* Honors Food, Agricultural, Natural Resource, and Human Sciences Minor

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description A coursework and experiential program is offered by the Herbert College of Agriculture leading to an Honors Food, Agricultural, Natural Resource, and Human Sciences (FANHS) minor. The program is designed to develop future leaders through a student-centered program in research, leadership, international programming, and/or Extension that includes co-curricular programming emphasizing soft skill refinement. Students will be able to articulate inter-connection among FANHS disciplines and demonstrate skills necessary to do independent research in FANHS. This minor is restricted to HCA students that qualify for University Honors Programs or HCA students that have a 3.5 GPA after the first year. Students wishing to declare the minor must contact the HCA Honors Coordinator.

Requirements*

Minor Requirements

The minor is restricted to HCA students who meet the University of Tennessee requirements for the Volunteer Scholarship or have achieved a 3.5 GPA at the end of their freshman year. Students wishing to declare the minor must contact the HCA Honors Coordinator.

The minor requires **21 honors credit hours**, up to 12 of which may be in the student's major. Students must take AGNR 117 by the fall semester of the second year.

Complete the following (3 hours):

AGNR 117 HCA Honors Freshman Seminar
AGNR 217 Research Ethics, Compliance, and Methods

Choose one (3 hours):

AGNR 480 How to Feed the World
[Right] (taken for graduate credit)
AGNR 497 Honors Research
SNR 420* International Natural Resource Issues

Choose one (3 hours):

AGNR 488 Honors Capstone
AGNR 498 Honors Thesis

Complete one of the following (9 hours):

Research (at least 9 credit hours in major taken for honors credit)

Leadership (at least 9 credit hours of courses approved for the Agricultural Leadership minor taken for honors credit)

International (at least 9 credit hours courses approved for the International minor taken for honors credit)

Extension (at least 9 credit hours of courses in Extension Education taken for honors credit)

Honors courses in the College of Agriculture and Natural Resources (at least 9 credit hours, can be Honors-by-Contract upon approval)

Complete (3 hours):

Any course approved for honors credit by the University of Tennessee, Knoxville, Honors and Scholars office

Complete (4 points or more):

Global Enrichment Challenges and Opportunities (GECO) requirements, designed to challenge and provide opportunities for HCA Honors students to address global issues in FANHS. Each student will be required to earn at least four points in GECO activities and must do activities in at least two of the five GECO Areas. Each box in Table 1 represents a separate activity. GECO experiences indicated with an asterisk require prior permission from the HCA Honor Coordinator.

TABLE 1. Point Values for Global Challenges and Opportunities

GECO Area	Level 1 (1 point)	Level 2 (2 points)	Level 3 (3 points)
Research	1-semester mentored undergraduate research experience (does not include experiences used for AGNR 497 or AGNR 488 credit) + mentor-approved presentation to University, stakeholder group, or professional society*	2-semester mentored undergraduate research experience including one semester of AGNR 497 (at least 3 credit hours) or equivalent + mentor-approved presentation to University or professional society*	3-semester mentored undergraduate research experience including one semester of AGNR 497 (at least 3 credit hours) or equivalent + mentor-approved presentation to University or professional society*
	Co-author on refereed, peer- reviewed research publication (submitted to professional journal)	Short-term research, typically summer, internship (at least 8 weeks full time) + mentor-approved presentation to University or professional society*	
International	Volunteer in local multicultural communities (Honors and Scholars Program-approved Study Abroad alternative for 1 semester)	Study abroad (1-semester)*	International Agriculture and Natural Resources minor (at least two courses taken for honors credit)
	1-semester mentored independent study addressing global food or environmental challenges (does not include experiences used for AGNR 497 or AGNR 488 credit) + mentor-approved presentation to University, stakeholder group, or professional society*	2-semester mentored independent study addressing global food or environmental challenges + mentor-approved presentation to University, stakeholder group, or professional society*	3-semester mentored independent study addressing global food or environmental challenges + mentor-approved presentation to University or professional society*
	AGNR 491 International Experience in Agriculture and Natural Resources		
	Summer or mini-term faculty-led international trips.	3 courses from International Agriculture and Natural Resources minor (2 of which are taken for honors credit)	Extended study abroad (>1 semester) + presentation to University, stakeholders, or professional society*
		Foreign language minor (honors courses not required)	
Leadership	1-semester mentored leadership experience (does not include experiences used for AGNR 497 or AGNR 488 credit) + mentor-approved presentation to University, stakeholder group, or professional society*	2-semester mentored leadership experience + mentor-approved presentation to University, stakeholder group, or professional society*	3-semester mentored leadership experience + presentation to stakeholders + mentor-approved presentation to University or professional society*
		3 courses from Agricultural Leadership minor (at least 2 of which must be taken for honors credit)	Agricultural Leadership minor (at least 2 of which must be taken for honors credit)
	University of Tennessee Leadership (HCA Honors Council; student government)	Intensive University of Tennessee Leadership (HCA Ambassadors or Student Government elected positions)	Honors Engineering Leadership minor
			Honors Leadership Program
Extension	1-semester mentored Extension experience (does not include experiences used for AGNR 497 or AGNR 488 credit) + mentor-approved presentation to University, stakeholder group, or professional society.*	2-semester mentored Extension experience + mentor-approved presentation to University, stakeholder group, or professional society.*	3-semester mentored Extension experience + presentation to stakeholders + presentation to University or professional society.*
	Co-author on peer-reviewed Extension publication	Short-term internship, typically summer (at least 8 weeks full time) with county Extension office or Extension Specialist + presentation to University or professional society.*	Intensive Extension experience with deliverable (developed and approved prior to experience by both Extension Leadership and Honors Coordinator)*
		ALEC 211*, ALEC 345, and ALEC 434* (2 courses must be for honors credit).	
Service	HCA Honors Service Projects (2 projects)	1-semester service learning project related to major*	2-semester service learning project related to major*
		ALEC 450* Servant Leadership taken for Honors credit (may not be used in combination with Agricultural Leadership minor).	
		HCA Ambassadors*	

*requires approval from HCA Honors Coordinator prior to experience

Rationale* Only two or three students have ever used the minor. The last student to use the minor graduated in spring 2022. Removing the minor declutters catalog offerings and allows the College to focus on more meaningful programs.

Impact on Other Units* None - no other unit uses the minor, and so few students used the minor that it will have no discernible impact on enrollments in any courses

Financial Impact* None - no other unit uses the minor, and so few students used the minor that it will have no discernible impact on enrollments in any courses'

Have you consulted with all programs/departments that will be impacted by this change?*	○ Yes ○ No ◉ No Impact
Number of students in program*	0
Teach out plan*	Not needed - no students have been in the program for almost four years

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?	☐ Arts and Humanities ☐ Natural Sciences ☐ Social Sciences

ADMINISTRATIVE USE ONLY

Impact Level	☐ Low ☑ Mid ☐ High

Herbert College of Agriculture - Agriculture and Natural Resources (Interdepartmental) - International Agriculture and Natural Resources Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Agriculture and Natural Resources (Interdepartmental)

Program Name* International Agriculture and Natural Resources Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Globalization and feeding the world's projected 2050 population of 9 billion has made international experiences nearly obligatory for students to excel in the professional workforce. This minor will prepare undergraduate students to sustainably meet the challenges of global food and natural resources security while concurrently conserving ecosystems and biodiversity.

The learning outcomes of this minor are:

1. understand the interdependency across nations to produce food and natural resources,
2. appreciate the connectedness of food and natural resources production on natural ecosystems and global processes, and
3. comprehend strategies by which agricultural products and natural resource use can be sustainably procured.

More information on the minor can be obtained on the Herbert College of Agriculture (Herbert) website or by contacting the Coordinator, Adam Willcox (974-1557, awillcox@utk.edu). Students wishing to declare the minor must contact the Coordinator for advising. The minor may also fulfill multiple requirements for the University of Tennessee Peace Corps Prep Program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Minor Requirements

The minor consists of 15 hours, and includes five 3-hour courses from four categories. Some of the classes listed may have prerequisites. At least 9 credits must be at the 300 or 400 level.

Category 1 – International Agriculture and Natural Resources Sustainability

This category introduces students to explore global agriculture and natural resources issues. This will enable students to choose topics and courses of interest in Categories 2 and 3 as they progress in the minor. Students may choose the introductory course for the minor, AGNR 180*. This course addresses global food and natural resources security and conservation issues by focusing on the interconnectedness of food and natural resources physical, cultural, political, and socioeconomic systems. This course also highlights current UTIA international research, teaching, and extension projects and prepares students to succeed during their international experience (see Category 2). Students unable to accommodate AGNR 180* into their schedules may substitute any 100 or 200 level course from Category 3 below. Select one course:

AGNR 180* Global Dynamics: Food, Biodiversity, and the Environment
[After]

Any 100 or 200 level Herbert College of Agriculture course from Category 3. If used in Category 1, the course cannot be counted again to fulfill Category 3 requirements.

Category 2 – Experience and Preparedness in International Agriculture and Natural Resources

Students will travel to a foreign country or attain intermediate proficiency in a foreign language to be competent in foreign cultures or languages. Students obtain international agriculture and natural resources travel educational experiences by taking a faculty-led study abroad course, completing an international internship, or enrolling in a foreign academic institution. Courses and internships not listed below must have an agriculture and natural resources focus and be approved by Coordinator. Alternatively, students can achieve preparedness to enter into the international agricultural workforce by attaining Intermediate II or Intensive Intermediate levels of language proficiency. Select one course:

[Left] 1
AGNR 491 International Experience in Agriculture and Natural Resources
PLSC 491* International Study: Design Thinking Through The Lens of Gardens and Culture
WFS 425 Tropical Ecology, Conservation, and Field Methods
[After] 2 Short-term or semester abroad courses in international agriculture and natural resources offered at UT not listed above.

3 Short-term of semester abroad courses in international agriculture and natural resources offered by institutions other than UT.

[After] or
ARAB 222* Intermediate Arabic II
ASST 262 Intermediate Persian II
CHIN 232* Intermediate Chinese II
FREN 212* Intermediate French II
FREN 218* Honors: Intermediate French II
FREN 223* Intensive Intermediate French
GERM 212* Intermediate German II
GERM 223 Intensive Intermediate German
HEBR 242* Intermediate Modern Hebrew II
ITAL 212* Intermediate Italian
ITAL 223 Intensive Intermediate Italian
JAPA 252* Intermediate Japanese II
PERS 262 Intermediate Persian II
PORT 212* Intermediate Portuguese
RUSS 202* Intermediate Russian
SPAN 212* Intermediate Spanish II
SPAN 218* Honors: Intermediate Spanish II
SPAN 223* Intensive Intermediate Spanish

Category 3 – Food, Agricultural and Natural Resources Courses with an International Focus

In this category, students will gain proficiency in international agriculture and natural resources in their areas of interest. The courses offered include all Herbert departments, ensuring flexibility so that all majors can tailor the minor to their academic concentrations. The courses also include non-Herbert courses with high international agriculture and natural resources content. Select two courses[4].

AFST 235* Intro to African Cultures and Societies, Before 1880s
AFST 236* Intro to African Cultures and Societies, 1880s-Present
[Left] 1
AGNR 201 Sustainable Food Systems
AGNR 491 International Experience in Agriculture and Natural Resources
ALEC 340* Strategic Communication in Agriculture and Natural Resources for Global Audiences
ALEC 450* Servant Leadership
ALEC 483 International Agriculture Education and Extension Systems
ANSC 120 Modern Animal Agriculture in the U.S.
ANSC 150* Global Animal Agriculture Systems and Society
ANTH 130* Cultural Anthropology
ANTH 319 Caribbean Cultures and Societies
ANTH 463 Rise of Complex Civilizations
AREC 201* Economics of the Global Food and Fiber System
AREC 420 International Agricultural Trade and Marketing
EEB 304 Socio-Economic Impact of Plants
EPP 123* Chocolate: Bean to Bar
EPP 201* Ecological and Societal Impacts of Insects and Plant Diseases
EPP 425* Medical and Veterinary Entomology
ESS 120* Soils and Civilizations
ESS 220* Waters and Civilizations
ESS 462* Environmental Climatology
FDSC 150* History and Culture of Food
GEOG 101* World Geography
GEOG 333 Climate Change and Human Response
GEOG 345 People and Environment
GEOG 371 Exploring Europe
GEOG 373* Cultural Geography of Latin America and the Caribbean
GEOG 375* Society and Spaces of South Asia
GEOG 436 Water Resources
EEPS 202* Earth as an Ecosystem: Modern Problems and Solutions

EEPS 206* Sustainability Principles and Practices
EEPS 208* Honors: Earth as an Ecosystem: Modern Problems and Solutions
EEPS 456 Global Climate Change
FDSC 110* Fermented Foods of the World
GLBS 250* Introduction to Global Studies
PLSC 115* Plants That Changed the World
PLSC 250* World Food and Fiber Plant Production
PLSC 415* Agroecology
POLS 265* Introduction to International Relations
POLS 370 Contemporary International Problems
POLS 471* International Political Economy
PUBH 401 Global Public Health
REST 101* Religions of the World
REST 102 The Comparison of World Religions
SOCI 363* Food, Agriculture, and Society
SOCI 446 The Modern World System
WFS 434 Ecology and Conservation of Tropical Mammals
[After] Any additional approved study abroad experiences in international agriculture and natural resources from Category 2.

[After] Any of the following not used for Category 4- AGNR 480 - How to Feed the World, ALEC 485* - Global Sustainable Development Goals, SNR 420* - International Natural Resource Issues, SNR 427* - Honors International Natural Resource Issues

Category 4 – Capstone in International Agriculture and Natural Resources

In category 4, students will gain a deeper understanding of international agriculture and natural resources by working with faculty on an independent study project or with peers in a group setting to address international agriculture and natural resources challenges. Select one course:

AGNR 480 How to Feed the World
ALEC 485* Global Sustainable Development Goals
SNR 420* International Natural Resource Issues
SNR 427* Honors International Natural Resource Issues

Notes:

The international experience is a planned experience in a foreign country, such as a study abroad program, semester abroad, or internship, with approval on a case-by-case basis. AGNR 491 may be taken incrementally as 1 or 2 credit hours over time to achieve the 3 credit hours required for category 2. AGNR 491 may also count for Category 3 if Category 2 has been satisfied by either coursework or another AGNR 491 in a country(ies) different than the first.

Students may select any course, internship, or experience offered at a foreign location during a mini-term, summer or semester abroad experience that transfers or provides 3 hours of credit at UTK. The course or internship must focus on agriculture and/or natural resources and should be pre-approved by the Herbert Student International Experiences Coordinator.

Students may substitute international study abroad courses from UT colleges other than Herbert to be added by petition. Students must provide syllabi from these courses to the Herbert Student International Experiences Coordinator that demonstrate adequate focus on international agriculture and natural resources.

*** Meets Volunteer Core Requirements.**

Rationale* Addition of new courses to suite of elective options.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* Herbert College of Agriculture

Department* Animal Science

Program Name* Animal and Veterinary Science Major, BS in Animal Science - Animal Industries Concentration

Degree Type* Bachelor of Science in Animal Science

Program Type* Concentration

Description To remain in the major, students must maintain at least a 2.0 cumulative GPA in ANSC courses by the end of semester three. Students must complete ANSC 100, ANSC 120 or ANSC 150*, and ANSC 220 with minimum grades of C, C, and C- respectively to remain in the Animal and Veterinary Science Major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

One Quantitative Reasoning Elective must be AGNR/SNR 220*, AREC 324*, MATH 115* or STAT 201* or STAT 207*. MATH 123* is recommended but not required.
A minor in Agricultural Extension, Agricultural and Natural Resource Communication, Food and Agricultural Business, Business Administration, Communication Studies, Information Sciences, Journalism and Media Minor, or other discipline with approval of the Animal Science Undergraduate Committee is required.
STEM elective chosen from AGNR 101*; ANSC 362, ANSC 420, ANSC 430, ANSC 431, ANSC 461, ANSC 462, ANSC 463, ANSC 464, ANSC 470, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486, ANSC 489, ANSC 493, ANSC 499, or PLSC 435 (after major requirement and Capstone Course requirement has been met, and a maximum of one of ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 485, ANSC 486, or ANSC 489 may be taken to satisfy the STEM elective

requirement); ANTH 110*, ANTH 117*; ASTR 151*, ASTR 152*, ASTR 153*, ASTR 154*, ASTR 217*, ASTR 218*; BAS (any); BCMB (any except BCMB 320); BIOL (any after major requirements are met); BME (any); BSE (221 and above); CBE (any); CE (210 and above); CHEM (any after major requirements are met); CLAS 273; COSC (any); CSM (any); ECE (any); EEB (any); EF (any); EPP (any); ESS 231, ESS 232, ESS 334, ESS 424*, ESS 434, ESS 442, ESS 444, ESS 454, ESS 462*; FDSC 100*, FDSC 110*, FDSC 241, FDSC 341*, FDSC 410, FDSC 415*, FDSC 418, FDSC 419*, FDSC 421, FDSC 428, FDSC 429, FDSC 445; FORS 214, FORS 215, FORS 217, FORS 331, FORS 337, FORS 414; SNR 212, SNR 250*, SNR 313, SNR 315, SNR 320*, SNR 430; GEOG 131*, GEOG 132*, GEOG 137*; GEOL (any); IE (any); MATH (any above 110 after Quantitative Reasoning requirements are met); ME (any); MICR (any); MSE (201 and above); NE (any); NUTR 100*, NUTR 302, NUTR 311, NUTR 314, NUTR 321-NUTR 322; PHYS (any); PLSC 210*, PLSC 250*, PLSC 320, PLSC 330*, PLSC 331, PLSC 410*, PLSC 415*, PLSC 421*, PLSC 434, PLSC 438, PLSC 441, PLSC 442, PLSC 452, PLSC 461; PSYC 301, PSYC 370, PSYC 385*, PSYC 445, PSYC 450, PSYC 459, PSYC 461; PUBH 201*, PUBH 202, PUBH 420; STAT (any); WFS (340 and above). At least 6 hours must be from HCA courses.

Capstone Courses: Select two courses from ANSC 420, ANSC 430, ANSC 431, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486, ANSC 489, or PLSC 435. At least one course must be ANSC 420, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, or ANSC 486.

Chosen from the Volunteer Core list. One course must also be designated as Written Communications (WC).

Any courses not already required for the major.

* Meets Volunteer Core Requirement. Nine hours of Engaged Inquiries electives from at least 2 course prefixes are required.

Rationale*

Changing name of Major to "Animal and Veterinary Science" to better reflect the scope of content. See attached letter from Dept. Head.

Clarified ANSC 120 or ANSC 150* for TERM 1 and TERM 5 Milestones. Many transfer students come in with ANSC 150.

Expanded Footnote 1 to include AGNR/SNR 220* and AREC 324* to allow additional new statistics classes

Financial Impact*

none

Impact on Other Units*

none.

Have you consulted with all programs/departments that will be impacted by this change?*

- ○ Yes
- ○ No
- ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change

- ○ New major name and new CIP code (requires THEC approval)
- ◉ New major name and keeping the same CIP code

CIP Code* 01.0901) Animal Sciences, General.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* Herbert College of Agriculture

Department* Animal Science

Program Name* Animal and Veterinary Science Major, BS in Animal Science - Bioscience Concentration

Degree Type* Bachelor of Science in Animal Science

Program Type* Concentration

Description To remain in the major, students must maintain at least a 2.0 cumulative GPA in ANSC courses by the end of semester three. Students must complete ANSC 100, ANSC 120or ANSC 150* , and ANSC 220 with minimum grades of C, C, and C– respectively to remain in the Animal and Veterinary Science Major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Footnotes

One Quantitative Reasoning Elective* must be AGNR/SNR 220*, AREC 324*, MATH 115* or STAT 201* or STAT 207*. MATH 123* is recommended but not required.
At least eight hours of STEM electives must be upper division (300-400 level) courses or EEB 250 and EEB 251 or BCMB 230. Choose from AGNR 101*, ANSC 260*, ANSC 362, ANSC 420, ANSC 430, ANSC 431, ANSC 461, ANSC 462, ANSC 463, ANSC 464, ANSC 470, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486, ANSC 489, ANSC 493, ANSC 499, or PLSC 435 (after major requirement and Capstone Course requirement has been met, and a maximum of one of ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 485, ANSC 486, or ANSC 489 may be taken to satisfy the STEM elective requirement); ANTH 110*, ANTH 117*; ASTR 151*, ASTR 152*, ASTR 153*, ASTR 154*; BAS (any); BCMB (any except BCMB 320); BIOL (any after major requirements are met); BME (any); BSE (221 and above); CBE (any); CE (210 and above); CHEM (any after major requirements are met); CLAS 273; COSC (any); CSM (any); ECE (any); EEB (any); EF (any); EPP (any); ESS 231, ESS 232, ESS 334, ESS 424*, ESS 434, ESS 442, ESS 444, ESS 454, ESS 462*; FDSC 100*, FDSC 110*, FDSC 241, FDSC 341*, FDSC 410, FDSC 415*, FDSC 418, FDSC 419*, FDSC 421, FDSC 428, FDSC 429, FDSC 445; FORS 214, FORS 215, FORS 217, FORS 331, FORS 337, FORS 414; SNR 212, SNR 250*, SNR 313, SNR 315, SNR 320*; GEOG 131*, GEOG 132*, GEOG 137*; GEOL (any); IE (any); MATH (any above 110 after Quantitative Reasoning requirements are met); ME (any) MICR (any); MSE (201 and above); NE (any); NUTR 100*, NUTR 302, NUTR 311, NUTR 314, NUTR 321-NUTR 322; PHYS (any); PLSC 210*, PLSC 250*, PLSC 320, PLSC 330*, PLSC 331, PLSC 410*, PLSC 415*, PLSC 421*, PLSC 434, PLSC 438, PLSC 441, PLSC 442, PLSC 452, PLSC 461; PSYC 301, PSYC 370, PSYC 385*, PSYC 445, PSYC 450, PSYC 459, PSYC 461; PUBH 201*, PUBH 202, PUBH 420; STAT (any); WFS (340 and above). At least 6 hours must be from HCA courses.
Business and Communications Electives chosen from ACCT 200, ACCT 207; ADVT 250*; ALEC 102*, ALEC 202*, ALEC 210*, ALEC 240*, ALEC 330*, ALEC 340*, ALEC 441, ANSC 361, ANSC 471; AREC 270*, AREC 313 or above; BULW 301; CMST 240* (if not used to satisfy OC); ECON (any course above 201 except 211 if 211 was already used for a requirement); ENGL 295*; FDSC 390; FINC 300; JMED 450*; MARK 300; MGT 201, MGT 300, PHIL 244* and STAT 201*.
Capstone Courses: Select two courses from ANSC 420, ANSC 430, ANSC 431, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486, or ANSC 489. At least one course must be ANSC 420, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486 or PLSC 435.
Chosen from the Volunteer Core list. One course must also be designated as writing intensive (WC).
Any courses not already required for the major.

* Meets Volunteer Core Requirement. Nine hours of Engaged Inquiries electives are required from at least two course prefixes.

Rationale*

Changing name of Major to "Animal and Veterinary Science" to better reflect the scope of content. See attached letter from Dept. Head.

Clarified ANSC 120 or ANSC 150* for TERM 1 and TERM 5 Milestones. Many transfer students come in with ANSC 150.

Expanded Footnote 1 to include AGNR/SNR 220* and AREC 324* to allow additional new statistics classes

Expanded Footnote 3 and Term 3 OC options to include ALEC 210*

Re ANSC150*: The course is still active (we offered it to a full class last Spring), and many of our transfer students come in with ANSC150 equivalent, giving EI credit. ANSC will keep it as a good within-major EI option. If a Transfer student comes in with it, it should complete the intro requirement and set the student up to proceed with ANSC 250.

Financial Impact* none

Impact on Other Units* none

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ◉ New major name and keeping the same CIP code

CIP Code* 01.0901) Animal Sciences, General.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* Herbert College of Agriculture

Department* Animal Science

Program Name* Animal and Veterinary Science Major, BS in Animal Science - Five-Year BS/MS Program

Degree Type* Bachelor of Science in Animal Science

Program Type* Concentration

Description

For qualified students, the Department of Animal Science offers a Five-Year BS/MS accelerated degree program with a BS major in Animal and Veterinary Science and a thesis-based MS major in Animal Science. Central to this program is that a qualified student may take up to nine hours of graduate level courses for their senior undergraduate electives and have them count toward both the BS degree and the MS degree. Students are typically considered for conditional admission to the program during, or immediately following, their third year of undergraduate study at the University of Tennessee, Knoxville. Because the MS program requires that a student write a thesis based on original research, efforts related to developing and starting a research-based project in consultation with a graduate advisory committee (that meets MS committee requirements) is required immediately following their third year of undergraduate studies.

To be considered for conditional admission to the program:

- A student must be a declared Animal and Veterinary Science major with a minimum GPA of 3.4, must have completed at least 15 hours of credit in Animal and Veterinary Science, and must have completed at least 90 hours of the 120 hours of coursework required for the BS degree with a major in Animal and Veterinary Science.
- A student must provide three letters of recommendation and complete a personal interview with individuals comprising the Graduate and Undergraduate Committees in the Department of Animal Science.
- A student must obtain a commitment from an Animal Science graduate research faculty member to serve as his/her graduate mentor-advisor (i.e., major professor) and at least two other graduate research faculty members to serve on his/her graduate advisory committee.

Applicants are required to have completed at least six credit hours from the following Animal and Veterinary Science core courses (i.e., ANSC 320, ANSC 330, ANSC 340, ANSC 380, or their Honors counterparts). The department may consider other relevant factors such as an applicant's work experience and level of maturity before conditionally admitting a student to the BS/MS program. Conditional admission of a student into the Five-Year BS/MS program must be approved by the Department of Animal Science, and the Graduate School. Students will be typically informed of the outcome of their application before the beginning of their fourth year of undergraduate study.

Any graduate course that is to be counted towards both the BS degree and the MS degree must be approved by the student's graduate advisory committee, the departmental Graduate Director, and by the Graduate School. These courses must be identified in consultation with the graduate advisory committee members. The form "Animal Science Conditional Admission Five-Year BS-MS" is available from the Graduate Director and must be completed, signed by the student, the student's graduate advisory committee and the Graduate Director, and the Undergraduate Coordinator before submitting to the Graduate School for approval and processing."

A student that is conditionally admitted to the BS/MS program may complete up to nine credit hours of graduate level coursework during the student's undergraduate study, and apply those nine credit hours to satisfy both the BS degree requirements and the MS degree requirements, provided that these graduate credit hours were approved by both the Department and by the Graduate School. To receive graduate credit for up to the 9 credit hours listed on the Animal Science Conditional Application form and approved by their graduate advisory committee, and others granting approval by signing that form, the student must complete and submit the Senior Requesting Graduate Credit Form to the Graduate School. If courses are to be taken during different semesters, the student will need to submit this form before the start of each relevant semester.

Conditional admission into the BS/MS program does not guarantee acceptance into either the Graduate School or the MS program. Students in the BS/MS program must apply for admission to the Graduate School and to the MS program during their fourth year of undergraduate study, following the same procedures that all other student applicants follow. Students will be fully admitted to the MS program after they have been accepted both by the Graduate School and by the Animal Science MS program. Students will not be eligible for graduate assistantships until they are enrolled as graduate students in the Graduate School.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

One Quantitative Reasoning Elective* must be AGNR/SNR 220*, AREC 324*, MATH 115* or STAT 201* or STAT 207*. MATH 123* is recommended but not required. Science/Technology/Engineering/Mathematics (STEM) Electives. At least 8 hours upper division (300-400 level) or graduate (500-600 level) courses. Chosen from AGNR 101*; ANSC 260*, ANSC 362, ANSC 420, ANSC 430, ANSC 431, ANSC 461, ANSC 462, ANSC 463, ANSC 464, ANSC 470, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486, ANSC 489, or PLSC 435 (after major requirement and Capstone Course requirement has been met, and a maximum of one of ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 485, ANSC 486, or ANSC 489 ANSC 493, ANSC 499, may be taken to satisfy the STEM elective requirement); ANTH 110*, ANTH 117*; ASTR 151*, ASTR 152*, ASTR 153*, ASTR 154*; BAS (any); BCMB (any except BCMB 320); BIOL (any after major requirements are met); BME (any); BSE (221 and above); BSET (any); CBE (any); CE (210 and above); CHEM (any after major requirements are met); CLAS 273; COSC (any); ECE (any); EEB (any); EF (any); EPP (any); ESS 231, ESS 232, ESS 334, ESS 424*, ESS 434, ESS 442, ESS 444, ESS 454, ESS 462*; FDSC 100*, FDSC 110*, FDSC 241, FDSC 341*, FDSC 410, FDSC 415*, FDSC 418, FDSC 419*, FDSC 421, FDSC 428, FDSC 429, FDSC 445; FORS 214, FORS 215, FORS 217, FORS 331, FORS 337, FORS 414; SNR 212, SNR 250*, SNR 313, SNR 315, SNR 320*, SNR 430; GEOG 131*, GEOG 132*, GEOG 137*; GEOL (any); IE (any); MATH (any above 110 after Quantitative Reasoning requirements are met); ME (any) MICR (any); MSE (201 and above); NE (any); NUTR 100*, NUTR 302, NUTR 311, NUTR 314, NUTR 321-NUTR 322; PHYS (any); PLSC 210*, PLSC 250*, PLSC 320, PLSC 330*, PLSC 331, PLSC 410*, PLSC 415*, PLSC 421*, PLSC 434, PLSC 438, PLSC 441, PLSC 442, PLSC 452, PLSC 461; PSYC 370, PSYC 385*, PSYC 445, PSYC 450, PSYC 459, PSYC 461; PUBH 201*, PUBH 202, PUBH 420; STAT (any); WFS (340 and above). At least 6 hours must be from HCA courses. Business and Communications Electives chosen from ACCT 200, ACCT 207; ADVT 250*; ALEC 102*, ALEC 202*, ALEC 210*, ALEC 240*, ALEC 330*, ALEC 340*, ALEC

440*, ALEC 441; ANSC 361; ANSC 471, AREC 212, AREC 270*, AREC 313 or above; BULW 301; CMST 240* (if not used to satisfy OC); ECON (any course above 201); ENGL 295*; FDSC 390; FINC 300; JMED 450*; MARK 300; MGT 300; PHIL 244*, and STAT 201*.

Capstone Courses: Select two courses from ANSC 420, ANSC 430, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486, ANSC 489, and PLSC 435. At least one course must be ANSC 420, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485 or ANSC 486.
Chosen from the Volunteer Core list. One course must also be designated as writing intensive (WC).
Any courses not already required for the major.

*** Meets Volunteer Core Requirement. Nine hours of Engaged Inquiries electives are required from at least two course prefixes.**

Rationale*

Changing name of Major to "Animal and Veterinary Science" to better reflect the scope of content. See attached letter from Dept. Head.

Clarified ANSC 120 or ANSC 150* for TERM 1 and TERM 5 Milestones. Many transfer students come in with ANSC 150.

Expanded Footnote 1 to include AGNR/SNR 220* and AREC 324* to allow additional new statistics classes

Expanded Footnote 3 and Term 3 OC options to include ALEC 210*

Re ANSC150*: The course is still active (we offered it to a full class last Spring), and many of our transfer students come in with ANSC150 equivalent, giving EI credit. ANSC will keep it as a good within-major EI option. If a Transfer student comes in with it, it should complete the intro requirement and set the student up to proceed with ANSC 250.

Financial Impact* none

Impact on Other Units* none

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ◉ New major name and keeping the same CIP code

CIP Code* 01.0901) Animal Sciences, General.

Arts and Sciences Originators Only

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* Herbert College of Agriculture

Department* Animal Science

Program Name* Animal and Veterinary Science Major, BS in Animal Science - Veterinary Science 3+1 Concentration

Degree Type* Bachelor of Science in Animal Science

Program Type* Concentration

Description

Veterinary Science – Stage I is a two-year plan for students seeking to progress to the Veterinary Science-Stage II or Veterinary Science 3+1 concentrations. Students must apply for entry into the Pre-Veterinary Medicine-Stage II or PVM 3+1 concentration after completion of 60 total credit hours with a minimum of 15 credit hours taken at UTK. Students must have a minimum cumulative UTK GPA of 3.0. Courses listed below must be completed with a minimum grade of C (or an S for AP courses):

BIOL 101*-BIOL 102*-BIOL 160* or BIOL 150*-BIOL 159*-BIOL 160*; CHEM 122*-CHEM 123*-CHEM 132*-CHEM 133*; MATH 125* or MATH 132* or MATH 141* or MATH 151*; ANSC 220.

If a student does not meet the above criteria after completion of 60 total credit hours with a minimum of 15 credit hours taken at UTK, the student cannot progress into STAGE II or 3+1 and must meet with their advisor to discuss changing concentrations or majors. A student may only apply once to progress to STAGE II or 3+1. If a Pre-Veterinary Medicine Stage I student receives a C– in ANSC 220, the student cannot progress into STAGE II or 3+1 and must meet with their advisor to discuss changing concentrations or majors. If a student in any concentration receives less than a C– in ANSC 220, they cannot progress in the major. Students must complete ANSC 100, ANSC 120 or ANSC 150* , and ANSC 220 with minimum grades of C, C, and C– respectively to remain in the Animal and Veterinary Science Major.

To remain in the Animal Science Veterinary Science 3+1 concentration, students must maintain a 3.0 cumulative GPA.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

No milestones

Term 7 (Pre-Veterinary Medicine 3+1)

This curriculum meets the requirements for entrance to the UT College of Veterinary Medicine. After the first successful year in the UT College of Veterinary Medicine, obtaining a minimum of 120 hours of college credit, the student will be awarded a Bachelor of Science in Animal Science with a major in Animal Science. Should the student not gain admittance into the UT College of Veterinary Medicine after the junior year, the student will complete the requirements during the senior year for a major in Animal Science with a pre-veterinary concentration.

Total Credit Hours 120

Footnotes

One Quantitative Reasoning Elective must be AGNR/SNR 220*, AREC 234*, MATH 125*, MATH 132*, MATH 141*, or MATH 151*; MATH 115* or STAT 201* is required as a prerequisite for ANSC 340; may be taken to satisfy QR, STEM or (for STAT 201*) Business and Communication Elective requirements.
At least three hours of STEM electives must be from BIOL, EEB, BCMB, or MICRO. Other STEM electives chosen from AGNR 101*, ANSC 260*, ANSC 362, ANSC 420, ANSC 430, ANSC 431, ANSC 461, ANSC 462, ANSC 463, ANSC 464, ANSC 470, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486, ANSC 489, ANSC 493, ANSC 499, or PLSC 435 (after major requirement and Capstone Course requirement has been met, and a maximum of one of ANSC 480, ANSC 481*, ANSC 482, ANSC 483, ANSC 485, ANSC 486, or ANSC 489 may be taken to satisfy the STEM elective requirement); ANTH 110*, ANTH 117*; ASTR 151*, ASTR 152*, ASTR 153*, ASTR 154*; BAS (any); BCMB (any except BCMB 320); BIOL (any after major requirements are met); BME (any); BSE (221 and above); CBE (any); CE (210 and above); CHEM (any after major requirements are met); CLAS 273, COSC (any); CSM (any); ECE (any); EEB (any); EF (any); EPP (any); ESS 231, ESS 232, ESS 334, ESS 424*, ESS 434, ESS 442, ESS 444, ESS 454, ESS 462*; FDSC100, FDSC 110, FDSC 241, FDSC 341*, FDSC 410, FDSC 415*, FDSC 418, FDSC 419*, FDSC 421, FDSC 428, FDSC 429, FDSC 445; FORS 214, FORS 215, FORS 217, FORS 331, FORS 337, FORS 414; SNR 212, SNR 250*, SNR 313, SNR 315, SNR 320*, SNR 430; GEOG 131*, GEOG 132*, GEOG 137*; GEOL (any); IE (any); MATH (any above 110 after Quantitative Reasoning requirements are met); ME (any); MICR (any); MSE (201 and above); NE (any); NUTR 100*, NUTR 302, NUTR 311, NUTR 314, NUTR 321-NUTR 322; PHYS (any); PLSC 210*, PLSC 250*, PLSC 320, PLSC 330*, PLSC 331, PLSC 410*, PLSC 415*, PLSC 421*, PLSC 434, PLSC 438, PLSC 441, PLSC 442, PLSC 452, PLSC 461; PSYC 301, PSYC 370, PSYC 385*, PSYC 445, PSYC 450, PSYC 459, PSYC 461; PUBH 201*, PUBH 202, PUBH 420; STAT (any); WFS (340 and above).
Business and Communications Electives chosen from ACCT 200, ACCT 207; ADVT 250*; ALEC 102*, ALEC 202*, ALEC210, ALEC 240*, ALEC 330*, ALEC 340*, ALEC 440*, ALEC 441; ANSC 361, ANSC 471; AREC 212, AREC 270*, AREC 313 or above; BULW 301; CMST 240* (if not used to satisfy OC); ECON (any course above 201); ENGL 295*; FDSC 390; FINC 300; MARK 300; MGT 201, MGT 300; PHIL 244* and STAT 201*.
Capstone Courses: Select two courses from ANSC 420, ANSC 480*, ANSC 481*, ANSC 482, ANSC 483, ANSC 484, ANSC 485, ANSC 486, and PLSC 435. At least one course must be ANSC 420, ANSC 480, ANSC 481, ANSC 482, ANSC 483, ANSC 484, ANSC 485 or ANSC 486.
Chosen from the Volunteer Core requirements. One course must also be designated as Written Communication (WC).
Any courses not already required for the major.

* Meets Volunteer Core Requirement. Nine hours of Engaged Inquiries (EI) electives are required from two different course prefixes.

Rationale*

Changing name of Major to "Animal and Veterinary Science" to better reflect the scope of content. See attached letter from Dept. Head.

Clarified ANSC 120 or ANSC 150* for TERM 1 and TERM 5 Milestones. Many transfer students come in with ANSC 150.

Expanded Footnote 1 to include AGNR/SNR 220* and AREC 324* to allow additional new statistics classes

Expanded Footnote 3 and Term 3 OC options to include ALEC 210*

Re ANSC150*: The course is still active (we offered it to a full class last Spring), and many of our transfer students come in with ANSC150 equivalent, giving EI credit. ANSC will keep it as a good within-major EI option. If a Transfer student comes in with it, it should complete the intro requirement and set the student up to proceed with ANSC 250.

Financial Impact* none

Impact on Other Units* none

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ◉ New major name and keeping the same CIP code

CIP Code* 01.0901) Animal Sciences, General.

Credit Hours* 1

Course Description This course introduces students to the intersection of agricultural science, environmental sciences, and bioinformatics, emphasizing the importance of data analysis in modern agriculture and ecology. It provides an overview of bioinformatics applications in agriculture, including genomics, proteomics, metabolomics, and big data approaches in ecology and agriculture. Students will be introduced to basic computational tools and databases used in agricultural research.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Course Description This seminar-style course provides undergraduate students with a comprehensive overview of career opportunities in bioinformatics within agriculture and environmental sciences. Students will engage with professionals from academia, industry, and government who will share their career experiences, insights into emerging trends, and the skills necessary to succeed in bioinformatics roles that intersect with agriculture, food production, biotechnology and environmetal health. Students will explore career prospects in research, data science, agricultural genomics, precision farming, plant biotechnology, and environmental monitoring. This course is designed to help students make informed decisions about career paths and prepare them for future professional opportunities in the growing field of bioinformatics within sectors of agriculture and environmental sciences.

Course Description In this course, students will explore core principles of scientific ethics, literacy, and writing. Students will learn the principles of ethical research conduct including data integrity, authorship, and peer review. Simultaneously, students will cultivate the skills necessary to critically evaluate scientific literature across disciplines. Finally, through iterative writing assignments, peer review, and instructor feedback, students will develop clarity, precision, and structure in their scientific writing.

Rationale* BAES 415 changed from a 1-credit course to a 3-credit course and content expanded to include scientific literature savviness and research ethics. We changed BAES 415 from a 1-credit course to a 3-credit course because we realized that students were lacking a course that not only taught them how to write scientifically but also read the scientific literature and operate ethically as scientists.

Impact on Other Units* Application for VC2020-WC status submitted. If approved this course will likely be of increased value to those across many degree programs.

Credit Hours* 3

Course Description This course explores the intersection of machine learning and agriculture, focusing on practical applications of AI technologies in modern farming practices. Students will learn how machine learning algorithms can be applied to various agricultural challenges, including crop prediction, soil analysis, pest detection, yield optimization, and weather adaptation. The course combines theoretical foundations with hands-on projects using real-world agricultural datasets.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Course Description This course introduces students to the integration of agricultural science, big data analytics, and advanced technologies in precision agriculture. It emphasizes the importance of data-driven decision-making in modern farming practices. Students will explore various aspects of precision agriculture, including data collection methods, sensing technologies, machine learning applications, and data management systems. The course covers novel applications of big data in agriculture beyond genomics, such as Internet of Things (IoT) in agriculture, and predictive modeling for crop management.

Course Description This course provides students with the opportunity to apply bioinformatics tools and techniques to address challenges in agriculture and environmental sciences. Students will engage in hands-on projects that integrate biological data analysis, computational modeling, and problem-solving to optimize agricultural productivity and study environmental systems. Through interdisciplinary collaboration and experiential learning, students will develop skills in programming, data visualization, and statistical analysis while exploring real-world applications in areas such as crop improvement, microbial interactions, and ecosystem management. This course prepares students for careers in bioinformatics, agriculture, and environmental research.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Biosystems Engineering and Soil Science

Program Name* Construction Science and Management Major, BS in Construction Science and Management

Degree Type* Bachelor of Science in Construction Science and Management

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisors

Burk, Sain, Smith, Whitman

The Bachelor of Science in Construction Science and Management prepares students for entry into the very broad and diverse range of careers related to construction, including residential, agricultural, commercial, roadway, and excavation construction. Students in this program typically enjoy the outdoors and the sense of accomplishment that comes from seeing a project grow from an idea to a finished product. This field relies on knowledge from engineering, technology, construction, and business, and combines those with important skills related to teamwork and leadership. The program provides a strong background in science and math, adds fundamental concepts from engineering, and provides exposure to relevant technology and techniques such as BIM, land surveying, and estimating. The major focuses on specific technical areas providing the skills required to manage the sophisticated technological systems increasingly essential in today's construction world. Coursework in economics and the management of a small business are also included, along with oral and written communication. This program is designed to be less theoretical, more applied, and focused on the broad range of management opportunities within the construction industry.

Transfer or change of major students seeking admission into the Construction Science and Management degree program must be in good academic standing (2.00 or higher in the UT system). In addition, prior to being admitted to the Construction Science and Management major, a student with 45+ hours must have successfully completed the following or equivalents :

1. MATH 141 or (MATH 131 and MATH 132)
2. CHEM 122 and CHEM 123
3. ENGL 101 and ENGL 102

Proper selection of business-related elective courses in the Construction Science and Management program may meet the coursework requirements for a Minor in Business Administration or for a Minor in Agricultural Business. This business background is supplemented with courses addressing construction-specific issues in accounting, finance, and law. Issues related to green/sustainable construction practices are also covered. Students are encouraged to identify experiences in construction practice such as internships or part time/summer work, which is facilitated through the very active Construction Science Student Club.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Select from the corresponding Volunteer Core list after consultation with an advisor.

A student initially placing into MATH 130 may take either MATH 130 (4 hours) + MATH 141* (4 hours), or MATH 131 (3 hours) + MATH 132* (3 hours) to meet the requirements.

Select from the following list: AREC 212, AREC 270*, AREC 313, AREC 314*, AREC 324*, AREC 331, AREC 342*, AREC 350*, AREC 352*, AREC 444 ;FINC 300, MGT 300, MARK 300. NOTE: Those seeking the seeking the Business Administration Minor must take ACCT 200, ECON 201*, FINC 300, MGT 201, MGT 300, and MARK 300. Those seeking the Agricultural Business Minor must take ACCT 200, AREC 201* or ECON 201*, AREC 212, AREC 342*, and 6 additional hours from any 300-level or 400-level AREC courses.

*** Meets Volunteer Core Requirements.**

Rationale* Ensures that transfers into CSM major can complete the full curriculum in an expected number of semesters. Further, the existing cumulative GPA restriction does not specifically demonstrate minimum technical or writing ability

Financial Impact* May mean a few less transfer students coming in, but if they do not meet this requirement, they are not likely to be successful anyway

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Biosystems Engineering and Soil Science

Program Name* Environmental Science Major, BS in Environmental Science

Degree Type* Bachelor of Science in Environmental Science

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisor

Schaeffer, Mayberry

Many human activities adversely impact soil, water, and environmental quality; and there is a constant need for experts in the technologies required to collect sound information and to provide food, fiber, and shelter in an environmentally-sound manner. The Bachelor of Science in Environmental Science provides students with a strong grounding in basic sciences to prepare them for a broad range of possible careers.

This program provides the main degree program in Environmental Sceince and two concentrations: Soil Science and Conservation Agriculture and Environmental Sustainability. All provide a very strong basis in the natural sciences, as well as applied areas such as ecology, soil sciences, and natural resource policy. Students also build expertise with modern technologies such as geographical information systems, global positioning systems, and computer applications in natural resource management. Graduates are prepared to work in a wide variety of interesting and challenging career paths and to work with a broad variety of other professionals to solve complex problems. Examples of potential careers include soil and environmental specialists and scientists; state and federal regulatory agency work; private consulting in environmental and agricultural areas; and working with non-governmental organizations with interests in agriculture, environment, and natural resources. Students receiving this degree are also very competitive for placement in graduate programs in environmental and agricultural sciences and technology, as well as law school.

The environmental science base program is a blended mix of science and technology that provides a strong, broad background in the natural sciences. The plan of study emphasizes human impacts on the long-term use and productivity of land and water resources. Emphasis is also placed on the tools used in the management of these resources. The curriculum provides a good foundation in the collection and analysis of the information required to characterize resource conservation problems and to make good resource use decisions. Directed technical electives allow the students to concentrate in an area of interest. Students in this program will gain the practical knowledge necessary to compete for career opportunities in government, environmental consulting firms, public health services, environmental research laboratories, and agricultural production, while also gaining the theoretical training necessary for continuing on for advanced degrees in a variety of environmentally related fields.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

ESS 120* Soils and Civilizations
ESS 130 Fundamentals of Environmental Science
ENGL 101* English Composition I
[Right] (or equivalent)
[Before]Select one course:

EEB 433* Plant Ecology
EEB 484 Conservation Biology

Credit Hours 14-15

No milestones

Total Credit Hours 120-121

Footnotes

Chosen from the Volunteer Core list.

Note that some electives have required prerequisites. See individual course descriptions in the catalog for specific information. ACCT 200; AGNR 491, AGNR 497, AGNR 498; ALEC 440*; Animal Science (any course 200 or above); ANTH 415*; Agriculture and Resource Economics (any course 200 or above); Biochemistry and Molecular Biology (any course 200 or above); Biology (any course 200 or above); Biosystems Engineering (any course above 201);Business Analytics and Statistics (any course 200 or above); Chemical and Biomolecular Engineering (any course 200 or above); Chemistry (any course 200 or above); Civil Engineering (any course 200 or above); Computer Science (any course 200 or above); Construction Science and Management (any course 200 or above not required for the major); Ecology and Evolutionary Biology (any course 200 or above); ECON 362; Electrical and Computer Engineering (any course 200 or above); Engineering Fundamentals (any course); Entomology and Plant Pathology (any course); Entrepreneurship (any course); Environmental and Soil Sciences (any course not required for the major, with a limit of 3 hours of ESS 242); Food Science (any course above 201); Forestry (any course 200 or above); Forestry, Wildlife, and Fisheries (any course 200 or above); Geography (any course 131 or above); Geology (any course); Industrial Engineering (any course); Information Management (any course); Information Sciences (any course 200 or above); JMED 451*; Mathematics (any course 200 or above); Mechanical Engineering (any course 200 or above); Microbiology (any course 200 or above); Materials Science and Engineering (any course 200 or above); Nuclear Engineering (any course 200 or above); Outdoor Recreation and Park Management (any course 200 or above); Physics (any course 200 or above); Plant Sciences (any course 200 or above); PUBH 420; SOCI 360*, SOCI 363*, SOCI 465*; Wildlife and Fisheries Science (any course 200 or above).

Must be from a program other than ESS.

*** Meets Volunteer Core Requirements.**

Rationale* The Environmental Science BS in Environmental Science curriculum has been updated to both to make it more distinct from the other two concentrations offered in Environmental Science and to include new options for students who wish to gain experience in the data sciences and AI as they are applied to the environmental sciences.

Financial Impact* None

Impact on Other Units* Impact on other units will be minimal. One course in EEPS is being replaced and one course in BIOL is being added to the curriculum. The enrollment of ES students in these courses has been historically low, so little to no impact is anticipated for other programs. Email correspondence from both programs is attached.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisors

Eash, Mayberry, Yoder

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Minor Requirements

The minor consists of 19 credit hours.

Complete:

ESS 231 Fundamentals of Soil Science
ESS 232 Fundamentals of Soil Science Laboratory
ESS 334 Soil Nutrient Management and Fertilizers
ESS 424* Environmental Stormwater Management

Select 9 hours:

any additional 300-400 level ESS courses

*** Meets Volunteer Core Requirements.**

Rationale* - when ESS210 was switched over to ESS231+232, those were not added here in place of ESS210. This is misleading, because 231+232 is a prerequisite for the other courses on the list

- the CSM courses are already oversubscribed, and are really not appropriate material for this minor, The precursors to the CSM (ESS-AST and ESS-ORV) courses were much more related to ESS material

Financial Impact* Minimal. Does not change the number of classes being taken

Impact on Other Units* very few students get this minor, but this change should result in a slight reduction in the load on CSM classes, which are also in our department

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) CSM 125 or CSM 211; Letter grade of C or better in PHYS161 or PHYS 221* or EF 151*

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Added additional prerequisite option for the very few students who take PHYS161 instead of PHYS221

Impact on Other Units*

May shift a few students between the two PHYS courses. Impact report is uploaded to Files, since I souldn't figure out how to paste it here

The response of the PHYS Dept Head (Dr. Adrian Del Maestro) to my request is below:

Dear Daniel,

Physics acknowledges receipt of your proposal and this change seems very reasonable. If you begin to advise more students to take Phys 161 we kindly ask that you tell us in advance so we can plan accordingly to serve your students more effectively. Phys 161 doesn't see the numbers 221 does and it doesn't have a lab so any major change in enrollment could potentially impact what resources our department would need to apply.

Best,

Adrian.

Credit Hours* 1-3

Course Description This course provides time and credit for participating in intercollegiate construction competitions. The credit hours and syllabus description will vary depending on the specific competition. Broadly speaking, construction competitions require students to use a range of skills valuable in the construction industry, including scheduling, planning, estimating, public speaking, and document preparation. The high-pressure atmosphere of a competition is excellent for allowing students to develop such skills in situations more similar to what they will see in the industry.

Course Description This is a preparatory course for CSM 491 International History of Construction - Field Experience, which must be taken in the Mini-Term session following this course. Together these serve as an integrated Study Abroad program. This course focuses on the academic examination of construction methodologies in the target international location and historical period that will be visited in CSM 491. Students will be expected to develop an analytical understanding of construction techniques, materials, and methods, either focused on a specific historical period or spanning a broad historical range.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability May be repeated. Maximum 2 times.

Credit Restriction

Registration Enforced (RE) Prerequisite(s) CSM 125, CSM 211, CSM 224

Department Enforced (DE) Prerequisite(s) Academic good standing in the Construction Science and Management program

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s)

Registration Permission Consent of instructor

Equivalency

Rationale* Splitting a Study Abroad experience into a regular 2-hr semester class and a 1-hr MiniTerm experience allows for thorough examination of the necessary background during the semester, and a quicker and less expensive Study Abroad experience.

Impact on Other Units* None. All prereqs are internal and does not take the place of another course in the program

Financial Impact* None.

Credit Hours* 3

Course Description This interdisciplinary course explores coffee as a global commodity, scientific phenomenon, and cultural artifact. Through hands-on labs, historical analysis, and economic simulations, students will investigate coffee's journey from Ethiopian highlands to modern cafés, tackling questions of sustainability, equity, and innovation. The course integrates biology, chemistry, ecology, history, economics, and sensory science to provide a holistic understanding of coffee. Students engage with scientific principles, conduct hands-on experiments, and analyze contemporary global issues surrounding coffee production, sustainability, and health. Activities span labs, historical analysis, economic simulation, sensory science, and group projects.

Equivalency

Rationale* Interdisciplinary appeal; combines science, culture, and sustainability; VolCore NS alignment; emphasizes scientific literacy and ecological awareness; enhances EPP's undergraduate offerings without overlap; cross-college relevance.

Impact on Other Units* EPP 124 is distinct from NUTR 272 in scope and pedagogy; attached is an email correspondence between Herbert Associate Dean Stier and Nutrition interim DH Sunil attestiing to this. EPP 124 was crafted within an ad hoc Herbert UG Council subcommittee such that it complements, rather than competes against, the new offering from Food Science, FDSC 160. the EPP 124 syllabus is attached.

Financial Impact* Minimal cost to department: Course uses standard instructional technologies (Canvas, Zoom, Google Docs, Teams). No new faculty required. Potential for external support exists.

2026-2027 UG Revise Course (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Course (Dynamic Changes) form is to be used for changing the course number, subject code, and/or the department where the course is offered.

All other routine revisions to course requirements can be included in this form. Do not submit a duplicate Revise Course proposal while this form is in the submission and approval process.

College* Herbert College of Agriculture

Department (Acalog Hierarchy)* Entomology and Plant Pathology

Subject/Prefix (choose from list)* EPP

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 350

Course Title (max 100 characters)* The World of Fungi: Beneficial, Edible, Medicinal, Hallucinogenic, Pathogenic, Toxic, and Deadly

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description The World of Fungi is a comprehensive exploration of the diverse fungal kingdom and the impact of fungi on human societies, plants, animals, and ecosystems, as well as their economic importance in various industries. The topics covered will broaden student knowledge on the benefits (food, medicines, waste decomposition), challenges (disease, toxins, food safety and security), and opportunities (industrial uses, environmental clean-up) created by fungi. This course will prepare students for higher level courses in biology, plant pathology, and microbiology.

Comments

Registration Restriction(s)

Registration Permission

Equivalency* EPP 250

Rationale* Course number change from 250 to 350 helps fill a paucity of 300-level course offerings in the EPP curriculum. A comparison of content/rigor to existing EPP300-level courses, 313 & 321, shows this course is on an equal level. Analysis of enrollees shows 70% percent of them are juniors and seniors. This change will significantly aid students enrolled in the EPP UG minor to meet the 8-credit hour requirement for 300+-level credits.

Impact on Other Units* None

Impact Report for epp 250.

Credit Hours* 3

Course Description This course explores the intricate world of plant defense mechanisms, from their historical discovery to cutting-edge applications. Students will delve into the molecular and cellular components of plant immune systems, analyzing how plants recognize and respond to pathogens. The course covers the genomic architecture of immunity genes and the evolutionary processes shaping plant-pathogen interactions. By examining traditional and modern disease resistance approaches, students will gain practical insights into crop improvement strategies. This interdisciplinary course equips learners with the knowledge to understand complex immune networks and apply this understanding to enhance agricultural productivity and food security.

Course Description This is an introductory foundation course on AI for all majors with a strong interest in science. It covers basic AI concepts, history, applications, and ethical implications, the core concepts of machine learning, basic algorithms, neural networks, and statistical concepts, and will include very rudimentary computing in Python. It will end with simple case studies of applications in agriculture and natural sciences. The course assumes no previous knowledge beyond basic math and science

Credit Hours* 3

Course Description An exploration of the theory and application of artificial intelligence (AI) for solving problems in agriculture and natural resources. Topics include machine learning, deep learning, and computer vision applied to remote sensing data for natural resource issues potentially including precision agriculture, invasive species mapping, forestry, and wildlife conservation.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction Students may not receive credit for both ESS 450 and ESS 550

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Comments

Registration Restriction(s) Senior standing or consent of instructor

Registration Permission

Equivalency

Rationale* As part of a cluster hire, Dr. Samiappan was directed to teach an undergraduate introduction to AI, and a graduate-level tool course on AI. The former is being taught in Fall 2025 as a Special Problems course.

Impact on Other Units* ESS450 could provide substantial expertise for upper-division students from other HCA programs interested in developing expertise in these areas

Financial Impact* Being taught by a new faculty member who has been directed to teach these courses

Arts and Sciences Originators Only

Herbert College of Agriculture - Entomology and Plant Pathology - Entomology and Plant Pathology Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Entomology and Plant Pathology

Program Name* Entomology and Plant Pathology Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisor

Moulton

The undergraduate minor in Entomology and Plant Pathology is designed to provide students insight into the crucial role that insects and plant pathogens have in human affairs and the environment. It is available as an elective to all UTK students enrolled in bachelor's degree programs. Students with an interest in entomology, plant pathology, and/or are majoring in fields associated with natural resource management, animal sciences, veterinary medicine, public health, anthropology/forensic science, food and fiber production, agriscience education, biodiversity, and ecology should consider enrolling. Successful completion of this minor area of student will help prepare students for graduate studies in Entomology and Plant Pathology and related fields, or careers in agriscience, environmental science, or biology, such as secondary education, pest control, industry, and Extension.

Requirements

Requirements for a minor in Entomology and Plant Pathology are completion with a grade or C or better in at least 15 credit hours of approved coursework (see below) in addition to the requirements of the student's major degree program. Students intending to minor in Entomology and Plant Pathology are urged to contact the EPP undergraduate coordinator as early in their program as possible. Appropriate course substitutions within the approved coursework will be considered. Successful completion of the minor will be certified by a degree audit by the Registrar's Office during the semester of the student's graduation. The minor will be recognized after graduation on the transcript, but not on the diploma.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Campus: Knoxville

Minor Requirements

Complete 15 or more credit hours from the following courses. At least 8 credit hours must be from 300-level or higher courses.

EPP 123* Chocolate: Bean to Bar
EPP 124 Coffee: Agronomy, Biology, Culture
EPP 135* Eaters of the Dead: Introduction to Forensic Entomology
EPP 201* Ecological and Societal Impacts of Insects and Plant Diseases
EPP 210* Bugs: Bizarre, Beautiful, and Beneficial
EPP 234* Medicines and Drugs from Plants and Microbes
EPP 250 The World of Fungi: Beneficial, Edible, Medicinal, Hallucinogenic, Pathogenic, Toxic, and Deadly
EPP 313 Introductory Plant Pathology
EPP 321 Introductory Entomology
EPP 410 Diseases and Insects of Ornamental Plants
EPP 411 Forest Insects and Diseases
EPP 425* Medical and Veterinary Entomology
EPP 431 Special Topics in Entomology, Plant Pathology, or Bioinformatics
EPP 435 Molecular Plant-Microbe Interactions
EPP 445 Plant Immunity: System and Evolution
EPP 455 Public Health Entomology
EPP 461 Insect Physiology
EPP 465 Insect-Microbe Interactions
EPP 485* Advanced Forensic Entomology
EPP 492 Internship in Entomology, Plant Pathology, or Bioinformatics
EPP 493 Independent Study in Entomology or Plant Pathology
[After]
*** Meets Volunteer Core Requirement.**

Rationale*

Relevant new and existing courses Departmentally approved for the EPP UG Minor are being added to the list of eligible courses. EPP250 proposal to move to EPP350 also in progress, with equivalency in place to ease this transition.

Financial Impact*

None. All courses taught by existing faculty.

Impact on Other Units*

The expanded course list will make attaining the Minor more feasible for enrollees across all academic programs/majors.

Have you consulted with all programs/departments that will be impacted by this change?*

○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Rationale* Introducing the Practical Arboriculture (FORS 205) course at the freshman level provides an early, hands-on opportunity into the field of tree care, ecological stewardship, and applied plant sciences. By making this course available to first-year students and open to all majors we can engage students at a pivotal moment in their academic journey, when they are still exploring interests and forming long-term educational pathways.

Offering the course early allows students to discover an applied, outdoor-focused discipline they may not have previously considered. This can help attract a broader pool of students into arboriculture, forestry, horticulture, and related environmental programs. Early exposure often leads to stronger retention within these disciplines, as students build confidence and develop a sense of purpose through practical, skills-based learning.

In short, offering Practical Arboriculture during freshman year supports student exploration, strengthens recruitment into environmental and plant-based disciplines, and enhances cross-departmental collaboration, all while maintaining minimal disruption to other programs.

Impact on Other Units* N/A

Financial Impact*

This course will not require any additional resources. The course will be taught by an existing faculty member in the Herbert College/School of Natural Resources. This class will be taught by Sharon Jean-Phillipe, with assistance from industry professionals. Proper protective equipment (PPE) along with basic climbing gear is needed for this course and have been provided and will continue to be provided by industry partners.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* While aspects of forest harvesting are mentioned in other courses, there is no course in the forestry major that provides an in-depth, field based, experiential introduction to this topic. This course will be included in fall camp for a number of concentrations in the forestry major and will provide students with applied experience in forest harvesting techniques.

Impact on Other Units* N/A- There is no equivalent exisitng course

Financial Impact* None- This course will not require any additional resources. The course will be taught by Heather Slayton, Tennessee State Forester, who is an adjunct professor in the School of Natural Resources.

Herbert College of Agriculture - Food Science - Food Science Major, BS in Food Science - Five-Year BS/MS Program

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Food Science

Program Name* Food Science Major, BS in Food Science - Five-Year BS/MS Program

Degree Type* Bachelor of Science in Food Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

For qualified students, the Department of Food Science offers a Five-Year BS/MS accelerated degree program with a BS major in Food Science and a thesis-based MS major in Food Science. Central to this program is that a qualified student may take up to nine hours of approved graduate courses for their senior undergraduate electives and have them count toward both the BS degree and the MS degree. Students will be considered for conditional admission to the program by the end of their junior year of undergraduate study at the University of Tennessee, Knoxville. Because the MS program requires that students write a thesis based on their original research, students in the BS/MS program must start working on their research project no later than starting the senior year of undergraduate studies. For each student in the program, a graduate advisory committee composed of a minimum of three faculty members must be established before completion of the BS degree.

To be considered for conditional admission to the program:

- A student must be a declared Food Science major, Science concentration, with a minimum GPA of 3.4, must have completed at least 15 hours of credit in Food Science, and must have completed at least 90 hours of the 120 hours of coursework required for the BS degree with a major in Food Science.
- A student must provide three letters of recommendation and complete a personal interview with individuals comprising the Graduate and Undergraduate Committees in the Department of Food Science.
- A student must obtain a commitment from a Food Science graduate research faculty member to serve as his/her graduate mentor-advisor (i.e., major professor) and at least two other graduate research faculty members to serve on his/her graduate advisory committee.

Applicants are required to have completed FDSC 241 - Food Preservation and Packaging. The Department may consider other relevant factors such as an applicant's work experience and level of maturity before conditionally admitting a student to the BS/MS program. Conditional admission of a student into the Five-Year BS/MS program must be approved by both the Department of Food Science and the Graduate School. Students will be typically informed of the outcome of their application by the end of their junior year of undergraduate study.

Any course taken for graduate credit before satisfying all requirements for the BS degree must be approved by the student's graduate advisory committee, the Graduate Director and the Graduate School. These courses must be identified in advance, in consultation with the undergraduate advisor, and the graduate advisory committee. The form "Food Science Conditional Admission Five-Year BS-MS" is available from the Graduate Director and must be completed and signed by the undergraduate advisor, undergraduate coordinator, and graduate advisory committee at least two months before the end of the junior year. After review by the Department, the form will be signed by the Graduate Director and submitted to the Graduate School for approval and processing.

Conditional admission into the BS/MS program does not guarantee acceptance into either the Graduate School or the MS program. Students in the BS/MS program must apply for admission to the Graduate School and to the MS program during their senior year of undergraduate study for the term immediately following the completion of their undergraduate study following the same procedures that all other student applicants follow. A GRE score must be submitted as part of the application for admission into any graduate program in the Department of Food Science. Students will be fully admitted to the MS program after they have been accepted both by the Graduate School and by the Food Science program. Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

ALEC 440* or FORS 321* or WFS 401* or any Written Communication Elective
Choose from FDSC 101*, FDSC 110*, FDSC 160, FDSC 169, FDSC 210, FDSC 269 FDSC 310, FDSC 442, FDSC 450, FDSC 469, FDSC 470

*** Meets Volunteer Core Requirements.**

Rationale*

Added AGNR 220 and SNR 220 as one of the options for QR stats course

Removed additional GC-US course in Term 4 as FDSC 150 has been designated as GC-US Vol Core starting Fall 2025

Made FDSC 441 a required class in Term 8 as this course will strengthen the food processing background of food science students. This will replace the 3 credit hours of GC-US removed as a requirement since FDSC 150 has been designated as GC-UC starting Fall 2026.

Updated FDSC Elective to reflect new courses (Footnote 10)

10. Choose from FDSC 101* , FDSC 110* , FDSC 160, FDSC 169, FDSC 210 , FDSC 269, FDSC 310 , FDSC 442, FDSC 450, FDSC 469, FDSC 470

Financial Impact*

None

Impact on Other Units*

None

Have you consulted with all programs/departments that will be impacted by this change?*

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The programs in pre-dental, pre-medicine, pre-pharmacy, and pre-veterinary medicine allow students to be awarded a Bachelor of Science in Food Science with a major in food science after three years and the successful completion of the first year (two semesters) in UT-Memphis dental or medical programs or the University of Tennessee College of Veterinary Medicine. The last 30 hours of the three-year curriculum must be taken at the University of Tennessee, Knoxville. A total of 120 hours must be completed by the end of the first year in professional school. No later than December 31 of the student's first year in professional school (s)he should contact the Department of Food Science to check on graduation procedures for this program.

Although a Bachelor of Science degree is not required for admission to the Colleges of Dentistry or Medicine, most of the students accepted into these programs have the baccalaureate degree before admission. Therefore, students are encouraged to plan to complete all requirements for Bachelor of Science degree before enrolling in either of these colleges. A Bachelor of Science degree can be obtained before enrolling in a Doctor of Pharmacy (PharmD) program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Term 8 Milestone Notes

No milestones

Total Credit Hours 120

Footnotes

Mathematics placement depends on high school courses and grades and ACT scores.
Chosen from courses that meet pre-professional requirements for UT-Memphis or UT-Vet School. These may include BCMB 230, BCMB 401, BCMB 402; BIOL 240; CLAS 273; EEB 250 and EEB 251; PHYS 221* and PHYS 222* should be taken for pre-professional programs that require one or both courses. Other courses that may also be selected include FDSC 150*, FDSC 341*, FDSC 390, FDSC 415*, FDSC 430*, FDSC 442, FDSC 445, FDSC 495, FDSC 493 (maximum of 3 hours) or FDSC 499 (maximum 3 hours).
Chosen from the following: FDSC 341*, FDSC 415*, FDSC 430*.
ALEC 421* or ALEC 450S* or AREC 270* or FWF 320* or any Social Science Elective
AGNR 180* or ALEC 150* or ALEC 201 or ALEC 325* or ALEC 330* or ALEC 340* or ALEC 421* or ALEC 450S* or ALEC 485* or AREC 201* or AREC 270* or EPP 123* or ESS 120* or ESS 220* or FDSC 110* or FWF 320* or FWF 420* or PLSC 115* or any Expanded Perspective Elective
ALEC 211* or ALEC 325* or ANSC 185* or any Arts and Humanities Elective
ALEC 210* or ALEC 240* or any Oral Communication Elective
ALEC 440* or FORS 321* or WFS 401* or any Written Communication Elective
Choose from FDSC 101*, FDSC 110*, FDSC160, FDSC 169, FDSC 210, FDSC 269, FDSC 310, FDSC 441, FDSC 442, FDSC 450, FDSC 469, FDSC 470

* Meets Volunteer Core Requirements.

Rationale* Removed additional GC-US course in Term 6 as FDSC 150 has been designated as GC-US Vol Core starting Fall 2025 and replaced it with FDSC Elective

Added Footnote 9 for FDSC Elective

9. Choose from FDSC 101*, FDSC 110*, FDSC160, FDSC 169, FDSC 210, FDSC 269, FDSC 310, FDSC 441, FDSC 442, FDSC 450, FDSC 469, FDSC 470

Notes

Herbert College of Agriculture - Food Science - Food Science Major, BS in Food Science - Pre-Professional Concentration

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Food Science

Program Name* Food Science Major, BS in Food Science - Pre-Professional Concentration

Degree Type* Bachelor of Science in Food Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The programs in pre-dental, pre-medicine, pre-pharmacy, and pre-veterinary medicine allow students to be awarded a Bachelor of Science in Food Science with a major in food science after three years and the successful completion of the first year (two semesters) in UT-Memphis dental or medical programs or the University of Tennessee College of Veterinary Medicine. The last 30 hours of the three-year curriculum must be taken at the University of Tennessee, Knoxville. A total of 120 hours must be completed by the end of the first year in professional school. No later than December 31 of the student's first year in professional school (s)he should contact the Department of Food Science to check on graduation procedures for this program.

Although a Bachelor of Science degree is not required for admission to the Colleges of Dentistry or Medicine, most of the students accepted into these programs have the baccalaureate degree before admission. Therefore, students are encouraged to plan to complete all requirements for Bachelor of Science degree before enrolling in either of these colleges. A Bachelor of Science degree can be obtained before enrolling in a Doctor of Pharmacy (PharmD) program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

[2] Unrestricted Elective **1** *Credit Hours*

ENGL 101* English Composition I
[Right] (or equivalent)
FDSC 100* Science of Food

[After] Other Applied Oral Communication (AOC) Elective **1** *Credit Hours* *

Credit Hours 15

Term 8 Milestone Notes

No milestones

Total Credit Hours 120-122

Footnotes

Mathematics placement depends on high school courses and grades and ACT scores.
Any courses not already required for the major.
Chosen from courses that meet pre-professional requirements for UT-Memphis or UT-Vet School. These may include BCMB 230, BCMB 401, BCMB 402; BIOL 240; CLAS 273; EEB 250 and EEB 251; PHYS 221* and PHYS 222* should be taken for pre-professional programs that require one or both courses. Other courses that may also be selected include FDSC 150*, FDSC 341*, FDSC 390, FDSC 415*, FDSC 430*, FDSC 442, FDSC 445, FDSC 493 or FDSC 495 (maximum of 3 hours).
Chosen from, FDSC 101*, FDSC 110*, FDSC 160, FDSC 169, FDSC 210, FDSC 269, FDSC 310, FDSC 341*, FDSC 390, FDSC 415*, FDSC 430*, FDSC 441, FDSC 442, FDSC 450, FDSC 469, FDSC 470, FDSC 493 (maximum of 3 hours) or FDSC 495 or FDSC 499 (maximum of 3 hours).
Chosen from the following: FDSC 341*, FDSC 415*, FDSC 430*.
ALEC 421* or ALEC 450S* or AREC 270* or FWF 320 or any Social Science Elective
AGNR 180* or ALEC 150* or ALEC 201 or ALEC 325* or ALEC 330* or ALEC 340* or ALEC 421* or ALEC 450S* or ALEC 485* or AREC 201* or AREC 270* or EPP 123* or ESS 120* or ESS 220* or FDSC 110* or FWF 320* or FWF 420* or PLSC 115* or any Expanded Perspective Elective
ALEC 211* or ALEC 325* or ANSC 185* or any Arts and Humanities
ALEC 210* or ALEC 240* or any Oral Communication
ALEC 440* or FORS 321* or WFS 401* or any Written Communication

*** Meets Volunteer Core Requirements.**

Rationale* Removed additional GC-US course in Term 8 as FDSC 150 has been designated as GC-US Vol Core starting Fall 2025 and replaced it with FDSC Elective (from 3 to 6 credits total)

Updated FDSC Elective list to reflect new courses proposed:

4. Chosen from, FDSC 101*, FDSC 110*, FDSC 160, FDSC 169, FDSC 210, FDSC 269, FDSC 310, FDSC 341* , FDSC 390 , FDSC 415* , FDSC 430* , FDSC 441, FDSC 442, FDSC 450, FDSC 469, FDSC 470, FDSC 493 (maximum of 3 hours) or FDSC 495 or FDSC 499 (maximum of 3 hours).

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Footnotes

Mathematics placement depends on high school courses and grades and ACT scores.
Any courses not already required for the major.
Chosen from: AGNR 101*, AGNR 180*, AGNR 480; ALEC 102*, ALEC 150*, ALEC 202*, ALEC 211*, ALEC 240*, ALEC 303*, ALEC 340*, ALEC 440*, ALEC 441, ALEC 485*; AREC 201*, AREC 212; EPP 123*; ESS 110*, ESS 120*, ESS 220*, ESS 326, ESS 434, ESS 462*; FORS 100, FORS 321*, FORS 335, FORS 345, FORS 420; SNR 250*, SNR 320*, SNR 324, SNR 420*; PLSC 115*, PLSC 210*, PLSC 226, PLSC 233, PLSC 250*, PLSC 275, PLSC 280.
Choose from: ASTR 151*, ASTR 152*; BCMB (any); BIOL (any after major requirements are met); HDFS 210*, HDFS 211, HDFS 213, HDFS 240*; CHEM (any after major requirements are met); COSC (any); CSM (any); ECE (any); EEB (any); EF (any); GEOG 131*, GEOG 132*, GEOG 137*; GEOL (any); HTM (any); IE (any); KNS (any above 100-level); MATH (any above MATH 125* after Quantitative Reasoning requirements are met); ME (any); MICR (any except MICR 210*); MSE (MSE 201 and above); NE (any); NUTR (any except NUTR 100*, NUTR 311); PHYS (any except PHYS 221*); PSYC 301, PSYC 370, PSYC 385*, PSYC 445, PSYC 450, PSYC 459, PSYC 461; PUBH 202, PUBH 315, PUBH 401, PUBH 420; STAT (any except STAT 201*.
ALEC 211* or ALEC 325* or ANSC 185* or any Arts and Humanities Elective
ALEC 421* or ALEC 450S* or AREC 270* or FWF 320* or any Social Science Elective
AGNR 180* or ALEC 150* or ALEC 201 or ALEC 325* or ALEC 330* or ALEC 340* or ALEC 421* or ALEC 450S* or ALEC 485* or AREC 201* or AREC 270* or EPP 123* or ESS 120* or ESS 220* or FDSC 110* or FWF 320* or FWF 420* or PLSC 115* or any Expanded Perspective Elective
ALEC 210* or ALEC 240* or any Oral Communication Elective
ALEC 440* or FORS 321* or WFS 401* or any Written Communication Elective
Choose from FDSC 101*, FDSC 110*, FDSC 160, FDSC 169, FDSC 210, FDSC 269, FDSC 310, FDSC 442, FDSC 450, FDSC 469, FDSC 470

*** Meets Volunteer Core Requirements.**

Rationale*

Added AGNR 220 and SNR 220 as one of the options for QR stats course

Removed additional GC-US course in Term 4 as FDSC 150 has been designated as GC-US Vol Core starting Fall 2025

Made FDSC 441 a required class in Term 8 as this course will strengthen the food processing background of food science students. This will replace the 3 credit hours of GC-US removed as a requirement since FDSC 150 has been designated as GC-UC starting Fall 2026.

Updated FDSC Elective to reflect new courses (Footnote 10)

10. Choose from FDSC 101* , FDSC 110* , FDSC 160, FDSC 169, FDSC 210 , FDSC 269, FDSC 310 , FDSC 442, FDSC 450, FDSC 469, FDSC 470

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description An introduction to local foodways in the United States through the lens of community gardens, school gardens, and related organizations in the Knoxville area. An overview of the history, current status of, and future goals for providing equal access to fresh, healthy produce. Topics include local cultivation practices, land access considerations, an examination of regional foodways and food waste, and related "food justice" issues.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement: (GCUS)

Instructional Method* Lab Lecture

Contact Hour Distribution (if more than one instructional method) 2 hour lecture; one 2-hour lab.

- (•) No

Credit Hours* 3

Course Description An introduction to the art and science of grape growing (viticulture) and winemaking (enology). From vineyard to bottle, students will explore the major factors that shape wine style and quality, including how decisions in the vineyard and winery influence the final product. Students will develop a strong understanding of how viticulture and enology come together to create the wines of the world. Perfect for aspiring enthusiasts and future professionals alike, this course serves as an essential primer for further study and a wide range of careers in the global viticulture and wine industry.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary. PLSC 222 (Primary), FDSC 222 (Secondary)

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction Students may not receive credit for both PLSC 222 and FDSC 222

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments Typically offered in fall semester. Qualifying students participate in non-ingestive wine tasting.

Registration Restriction(s) **Registration Permission**

Equivalency

Rationale* Course is designed to meet an emerging area of student interest, and potentially facilitate a minor or certificate program in viticulture and enology

Impact on Other Units* N/A

Financial Impact* Plant sciences and food sciences have both recently hired new faculty members who will co-teach this course. No additional impact.

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Students in the Plant Genetics & Biotechnology concentration have reported a need for greater introductory genetics instruction, which the department currently lacks. Similarly, students in other concentrations and disciplines often take more advanced courses (e.g. PLSC 452, 453), but are unprepared due to lack of sufficient background. BIOL 240 (General Genetics) could meet this need to some extent (and we will allow as a substitution in the major), but plant sciences students (particularly transfers) are often limited by the prerequisites for BIOL 240, and instruction more specific to plant systems would be more appropriate.

Impact on Other Units* N/A

Financial Impact* Limited. Department has recently hired a faculty member (soybean genetics and breeding) with expertise and availability within teaching appointment to teach or co-teach the course.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Plant Sciences

Program Name* Plant Sciences Major, BS in Plant Sciences - Horticulture Science and Production Concentration

Degree Type* Bachelor of Science in Plant Sciences

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The horticulture science and production concentration is designed to provide students with the knowledge and skills needed for production, management and marketing of horticultural and specialty crops. This concentration also prepares students with strong interests in science and/or technology to pursue opportunities in research-related fields, including graduate studies. Careful selection of departmental courses and other electives in consultation with the assigned academic advisor will prepare graduates for the career of their choice. Employment prospects range from managing nursery and greenhouse businesses, to consulting and education, to marketing fruits and vegetables for healthier lifestyles.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Footnotes

Required of freshmen only; requirement is waived for transfer students.
Chosen from the Volunteer Core* list after consultation with an advisor.
PLSC 320 may not be repeated for additional credit.
Chosen from any Plant Sciences courses not already required for the major.
Directed electives are courses that generally support and enhance a student's academic goals. These multidisciplinary courses were chosen to provide students the opportunity to develop basic and advanced skills beyond Plant Sciences core requirements. The Plant Sciences Undergraduate Program Committee periodically reviews this list to identify appropriate courses for each concentration. If students believe that a course not on the list would meet this objective, they may propose this to their academic advisor to review before the start of the semester in which the student wishes to take the course. Additionally, AGRI 1030 taken at a Tennessee Board of Regents community college, or as a part of Statewide dual-credit (SDC) which transfers to UTK as PLSC LD, is acceptable for (3) credit hours in this category. The directed electives category can also be fulfilled by the completion of any minor or a second major/dual degree at the University of Tennessee. Choose Any Herbert College of Agriculture Course 200-level and above not required for major or concentration, excluding VolCore requirements, Any Architecture, Art Museum and Curator Studies, Biology, Biochemistry and Cellular and Molecular Biology, Business Analytics and Statistics, Business Administration, Chemistry, Ecology and Evolutionary Biology, Management, Geography, Geology, Marketing, Microbiology, Physics, or Statistics 200-level and above.
Any courses not already required for the major.
This requirement will be met if a transfer student transfers in any Biology class(es) with lab totaling at least 4 credit hours.
Selected from any of the following designations: Arts and Humanities (AH)*, Applied Arts and Humanities (AAH)*, Global Citizenship - International (GCI)*, Global Citizenship - United States (GCUS)*, or Social Sciences (SS)* (Applied Arts and Humanities (AAH)* (AAH) courses allow students to learn by doing through performances or creative activities).
Menu A: PLSC 410*, PLSC 415*, PLSC 422, PLSC 430, PLSC 433, PLSC 434, PLSC 435, PLSC 455, PLSC 491*
Menu B: PLSC 438, PLSC 443, PLSC 456, PLSC 473; EPP 313, EPP 321, EPP 410, EPP 411.
Menu C: PLSC 423, PLSC 426, PLSC 452, PLSC 453, PLSC 454

* Meets Volunteer Core Requirements.

Rationale* -Corrected formatting issues term 7 (bullet in front of "Select one course...")

-Incorporated existing departmental course PLSC 270 (1 hour professional development course) into curriculum, and reduced unrestricted electives by 1 hour (Term 8).

-Proposed course PLSC 422 added to "menu A" course options (see footnote 7)

Financial Impact* None.

Impact on Other Units* None.

College* Herbert College of Agriculture

Department* Plant Sciences

Program Name* Plant Sciences Major, BS in Plant Sciences - Organic Production Concentration

Degree Type* Bachelor of Science in Plant Sciences

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The organic production concentration is designed to create leaders in the field of organic and sustainable agriculture. Students will gain the knowledge and skills for production and management of organic cropping systems. Employment prospects include owning your own organic farm, consulting, agricultural extension, environmental education, government agencies, international agricultural development, and research in various related research fields. Careful selection of departmental courses and other electives in consultation with the assigned academic advisor will prepare graduates for the career of their choice. This concentration also prepares students with a strong interest in the science of organic crop production for graduate studies (M.S., Ph.D.) in horticulture, agronomy, or related disciplines. Classroom instruction is enhanced by the 90-acre Organic Crops Unit located near the University of Tennessee campus.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Total Credit Hours 120-124

Footnotes

Required of freshmen only; requirement is waived for transfer students.
Chosen from the Volunteer Core* list after consultation with an advisor.
Directed electives are courses that generally support and enhance a student's academic goals. These multidisciplinary courses were chosen to provide students the opportunity to develop basic and advanced skills beyond Plant Sciences core requirements. The Plant Sciences Undergraduate Program Committee periodically reviews this list to identify appropriate courses for each concentration. If students believe that a course not on the list would meet this objective, they may propose this to their academic advisor to review before the start of the semester in which the student wishes to take the course. Additionally, AGRI 1030 taken at a Tennessee Board of Regents community college, or as a part of Statewide dual-credit (SDC) which transfers to UTK as PLSC LD, is acceptable for (3) credit hours in this category. The directed electives category can also be fulfilled by the completion of any minor or a second major/dual degree at the University of Tennessee. Choose Any Herbert College of Agriculture Course 200-level and above not required for major or concentration, excluding VolCore requirements, Any Architecture, Art Museum and Curator Studies, Biology, Biochemistry and Cellular and Molecular Biology, Business Analytics and Statistics, Business Administration, Chemistry, Ecology and Evolutionary Biology, Management, Geography, Geology, Marketing, Microbiology, Physics, or Statistics 200-level and above.
Any Plant Sciences courses not already required for the major.
This requirement will be met if a transfer student transfers in any Biology class(es) with lab totaling at least 4 credit hours.
Selected from any of the following designations: Arts and Humanities*, Applied Arts and Humanities*, Global Citizenship - International*, Global Citizenship - US*, or Social Sciences* (Applied Arts and Humanities* (AAH) courses allow students to learn by doing through performances or creative activities).
Menu A: PLSC 410*, PLSC 415*, PLSC 422, PLSC 430, PLSC 433, PLSC 434, PLSC 435, PLSC 455, PLSC 491*
Menu B: PLSC 438, PLSC 443, PLSC 456, PLSC 473; EPP 313, EPP 321, EPP 410, EPP 411.
Menu C: PLSC 423, PLSC 426, PLSC 452, PLSC 453, PLSC 454

* Meets Volunteer Core Requirements.

Rationale* -Corrected formatting issues term 7 (bullets in front of Unrestricted Electives and Written Communication under "Select one course")

-Proposed course PLSC 422 added to "menu A" course options (see footnote 7)

Financial Impact* None.

Impact on Other Units* None.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Plant Sciences

Program Name* Plant Sciences Major, BS in Plant Sciences - Plant Genetics and Biotechnology Concentration

Degree Type* Bachelor of Science in Plant Sciences

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The plant genetics and biotechnology concentration is designed for students wishing to pursue advanced degrees in plant molecular biology, bioenergy, and biotechnology and/or careers in the plant biotechnology industry. For example, the curriculum will prepare students to be competitive for entrance into MS and PhD degree programs, which in turn, prepare students for life as professional scientists. Alternatively, the plant biotechnology industry and biotechnology-affiliated industries have recurrent demand for competent BS-level scientists. One hallmark of the degree is requirement for students to participate in research directly in an affiliated faculty member's lab or outside internship. This hands-on experience is reported by students to be a highlight of their degree program. A minimum grade point average of 2.25 is required for all plant sciences courses taken in the major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Required of freshmen only; requirement is waived for transfer students.
Chosen from the Volunteer Core list after consultation with an advisor.
Directed electives are courses that generally support and enhance a student's academic goals. These multidisciplinary courses were chosen to provide students the opportunity to develop basic and advanced skills beyond Plant Sciences core requirements. The Plant Sciences Undergraduate Program Committee periodically reviews this list to identify appropriate courses for each concentration. If students believe that a course not on the list would meet this objective, they may propose this to their academic advisor to review before the start of the semester in which the student wishes to take the course. Additionally, AGRI 1030 taken at a Tennessee Board of Regents community college, or as a part of Statewide dual-credit (SDC) which transfers to UTK as PLSC LD, is acceptable for (3) credit hours in this category. The directed electives category can also be fulfilled by the completion of any minor or a second major/dual degree at the University of Tennessee. Choose Any Herbert College of Agriculture Course 200-level and above not required for major or concentration, excluding VolCore requirements, Any Architecture, Art Museum and Curator Studies, Biology, Biochemistry and Cellular and Molecular Biology, Business Analytics and Statistics, Business Administration, Chemistry, Ecology and Evolutionary Biology, Management, Geography, Geology, Marketing, Microbiology, Physics, or Statistics 200-level and above.
This requirement will be met if a transfer student transfers in any Biology class(es) with lab totaling at least 4 credit hours.
Selected from any of the following designations: Arts and Humanities (AH), Applied Arts and Humanities (AAH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS). (Applied Arts and Humanities (AAH) courses allow students to learn by doing through performances or creative activities).
Menu A: PLSC 410*, PLSC 415*, PLSC 422, PLSC 430, PLSC 433, PLSC 434, PLSC 435, PLSC 455, PLSC 491*
Menu B: PLSC 438, PLSC 443, PLSC 456, PLSC 473; EPP 313, EPP 321, EPP 410, EPP 411.
Menu C: PLSC 423, PLSC 426, PLSC 452, PLSC 453, PLSC 454

*** Meets Volunteer Core Requirements.**

Rationale*

Students have reported a need for more genetics (i.e., proposed course PLSC 235) and biotechnology (existing course PLSC 260) content in the curriculum, particularly at the introductory (sophomore) level. Additionally, a need for more hands-on opportunities is addressed by the added option of existing course PLSC 454 (Plant Biotechnology) at the upper level.

Other minor changes include explicitly allowing BIOL 160 as an optional introductory biology (although this was already allowed for internal transfer students) and additional course (proposed PLSC 422 course) to menu A options. Directed electives and VolCore electives rearranged within terms to accomodate other proposed changes.

Financial Impact*

Minimal; minor course adjustments in requirements

Impact on Other Units*

Minor impact to courses BIOL 113, BIOL 160, and BIOL 240. See attached correspondense with BIOL director.

Have you consulted with all programs/departments that will be impacted by this change?*

Department* Plant Sciences

Program Name* Plant Sciences Major, BS in Plant Sciences - Public Horticulture Concentration

Degree Type* Bachelor of Science in Plant Sciences

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The public horticulture concentration is intended for students interested in professional careers that promote horticulture and emphasize people, their education, and their enjoyment of plants. Such careers include director of a botanical garden or park; city or urban horticulturist; extension agent, teacher, educational director, or program coordinator; professional garden writer/editor or publication manager; horticulture therapist; public garden curator; and plant collections manager. Technical electives allow students to concentrate in specialties of their interest while encouraging the development of strong communication skills. Students are encouraged to earn a minor degree in a supportive field such as education, communications, or journalism, or earn a Non-Profit Management Certificate. A minimum grade point average of 2.25 is required for all plant sciences courses taken in the major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Description

The landscape is a life-sustaining ecosystem shared by all that inhabit the earth. It is the cities and towns where we live and work, the parks and gardens where we play, the fields that nourish our bodies and supply our economies, and the wilderness that restores us. Pressures from a growing population and a changing climate mandate that we look beyond the aesthetic potential of the designed landscape so as to engage it as a territory of experience, activity and interpretation, and a strategy through which contemporary challenges facing regions, cities and the people that inhabit them - access to healthy food and clean water, environmental degradation, public health - are addressed. The Sustainable Landscape Design Concentration positions students for careers through which they impact the way in which we live, work and play and shape the health of our environment through the applied arts and sciences of the designed landscape. Studies include plant materials, design development and communication, construction methods, environmental science, and ecological systems. Through strategic advising, students will be positioned for careers as design/build entrepreneurs, specialized consultants to professional design teams, or for advanced placement in UT's School of Landscape Architecture.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Total Credit Hours 120-121

Footnotes

Required of freshmen only; requirement is waived for transfer students.
Chosen from the Volunteer Core list after consultation with an advisor.
Directed electives are courses that generally support and enhance a student's academic goals. These multidisciplinary courses were chosen to provide students the opportunity to develop basic and advanced skills beyond Plant Sciences core requirements. The Plant Sciences Undergraduate Program Committee periodically reviews this list to identify appropriate courses for each concentration. If students believe that a course not on the list would meet this objective, they may propose this to their academic advisor to review before the start of the semester in which the student wishes to take the course. Additionally, AGRI 1030 taken at a Tennessee Board of Regents community college, or as a part of Statewide dual-credit (SDC) which transfers to UTK as PLSC LD, is acceptable for (3) credit hours in this category. The directed electives category can also be fulfilled by the completion of any minor or a second major/dual degree at the University of Tennessee. Choose Any Herbert College of Agriculture Course 200-level and above not required for major or concentration, excluding VolCore requirements, Any Architecture, Art Museum and Curator Studies, Biology, Biochemistry and Cellular and Molecular Biology, Business Analytics and Statistics, Business Administration, Chemistry, Ecology and Evolutionary Biology, Management, Geography, Geology, Marketing, Microbiology, Physics, or Statistics 200-level and above.
Any Plant Sciences courses not already required for the major.
This requirement will be met if a transfer student transfers in any Biology class(es) with lab totaling at least 4 credit hours.
Selected from any of the following designations: Arts and Humanities (AH), Applied Arts and Humanities (AAH), Global Citizenship - International (GCI), Global Citizenship - United States (GCUS), or Social Sciences (SS). (Applied Arts and Humanities (AAH) courses allow students to learn by doing through performances or creative activities).
Menu A: PLSC 410*, PLSC 415*, PLSC 422, PLSC 430, PLSC 433, PLSC 434, PLSC 435, PLSC 455, PLSC 491*
Menu B: PLSC 438, PLSC 443, PLSC 456, PLSC 473; EPP 313, EPP 321, EPP 410, EPP 411.
Menu C: PLSC 423, PLSC 426, PLSC 452, PLSC 453, PLSC 454

*** Meets Volunteer Core Requirements.**

Rationale*

- Corrected formatting issues term 8 (bullets in front of "Select one course from Menu B." and "Select additional course from Menu B or C.")
- Proposed course PLSC 422 added to "menu A" course options (see footnote 7)

Financial Impact* None

Impact on Other Units* None

Herbert College of Agriculture - Plant Sciences - Plant Sciences Major, BS in Plant Sciences - Turfgrass Science and Management Concentration

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* Plant Sciences

Program Name* Plant Sciences Major, BS in Plant Sciences - Turfgrass Science and Management Concentration

Degree Type* Bachelor of Science in Plant Sciences

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The turfgrass science and management concentration is designed for the student desiring to pursue professions that include growing and managing turfgrasses used for golf courses, parks, athletic fields, sports complexes, and residential and commercial lawns. This concentration also prepares students for graduate studies in turfgrass science. Students are encouraged to earn a minor degree in a supportive field such as agricultural economics or environmental and soil sciences. Careful selection of departmental courses and other electives in consultation with the assigned academic advisor will prepare graduates for the career of their choice. A minimum grade point average of 2.25 is required for all plant sciences courses taken in the major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Herbert College of Agriculture - SNR - 325S

2026-2027 UG Revise Course

General Catalog Information

College* Herbert College of Agriculture

Department (Acalog Hierarchy)* School of Natural Resources

Subject/Prefix (choose from list)* SNR

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 325S

Course Title (max 100 characters)* Wildlife Botany

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Introduction to interactions between plants and wildlife, including species of conservation concern. Emphasis is on plant species that comprise east Tennessee's primary wildlife habitats, and the utility of vegetation data in management. Students will be required to participate in at least one day-long field trip.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method) 2 hour lecture and 1 hour lab.

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) BIOL 114* or BIOL 150* or FORS 214.

Herbert College of Agriculture - School of Natural Resources - Forest Management and Operations Certificate

2026-2027 UG Add Program

General Catalog Information

College* Herbert College of Agriculture

Department* School of Natural Resources

Program Name* Forest Management and Operations Certificate

Learning Outcomes

1. Working knowledge of identification and silvics of tree species in the eastern United States.
2. Ability to conduct stand and forest assessments for forest conditions and a range of ecosystem services (e.g., timber and carbon volumes, forest health, recreation values).
3. Working knowledge of the silvicultural techniques necessary to achieve a variety of landowner objectives and the means by which these objectives can be met including forest harvesting and operations, financial analysis, and forest planning techniques.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

Campus code*

- [ ] Knoxville Campus
- [x] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Forest Management and Operations Certificate is intended for working professionals and undergraduate students interested in enhancing their knowledge and skills into their current practice and skills. Students can complete the certificate in four semesters. The certificate is available to individuals who are enrolled solely in the certificate program or 2) a current student at an outside accredited 4-year post-secondary institution.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

Undergraduate Certificate Type: Add-On, Stand-Alone

Credit Hours Required

12 credit hours

Admissions Standards/Procedures

Students seeking admission to the Undergraduate Certificate must meet the admissions standards established by the Undergraduate Council.

Required Courses

SNR 212 Dendrology and Silvics of North American Trees
SNR 312 Principles of Silviculture
FORS 329 Forest Resource Inventory
FORS 420 Forest Resource Management
[After]
[Before]Courses must be taken in the following order: SNR 212, SNR 312, FORS 329, FORS 420.

[After]
[Before]No grades below C are acceptable for students wishing to receive this certificate. In such cases, students must repeat courses and earn a grade of C or better prior to the awarding of the certificate from the University of Tennessee.

Rationale* Many state and federal agencies, such as the Tennessee Division of Forestry (TDF) and the Natural Resource Conservation Service (NRCS), lack training opportunities for natural resource professionals who may not have forest management expertise. This certificate would provide such a training opportunity, allowing career advancement for those that pursue it. Additionally, other natural resource professionals may benefit from the training to assist in their job responsibilities or managing their forest land.

Financial Impact* None, all courses are taugt within the proposing unit

Impact on Other Units* None, all courses are taught within the proposing unit

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

CIP Code * 03.0501

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

If approved, will this need THEC approval?* ○ Yes ◉ No

Per Institutional Effectiveness, does this proposal require SACSCOC action?* ○ Yes ◉ No

Vol Core Requirements

This section is required to be completed for proposals that are creating a new major or concentration program. Proposals that are creating a new certificate or minor program should leave this section blank.

Notes

Herbert College of Agriculture - School of Natural Resources - Forestry Major, BS in Forestry - Forest Resources Management Concentration

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Herbert College of Agriculture

Department* School of Natural Resources

Program Name* Forestry Major, BS in Forestry - Forest Resources Management Concentration

Degree Type* Bachelor of Science in Forestry

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The profession of forestry is the science, the art, and the practice of managing and using for human benefit the natural resources that occur on and in association with forest lands. Benefits are derived from the multiple resources of the forest – wood, water, wildlife, recreation, forage, and environmental amenities. Foresters are managers of these resources. Thus, our principal instructional objective is to provide the broad education needed to deal effectively with the complex of forest resources.

The Forest Resources Management concentration provides an opportunity to obtain an education related to the management of the broad spectrum of wildland resources. In addition to the core of required courses, there are about 6 elective credit hours for broad studies or specialized training in one or more areas of forestry. These areas and examples of related fields of study are forest biology including plant physiology and morphology, ecology, genetics, tree nutrition, forest soils; forest business management including economics, accounting, finance, marketing, management science; forest economics including economics, business administration, social science; forest inventory including mathematics, statistics, computer science; wildland recreation including natural and social sciences; and wildlife management including ecology and botany.

The university has over 21,000 acres of forest land available for teaching, research, and demonstration. The Tennessee Valley Authority, Great Smoky Mountains National Park, and Cherokee National Forest provide additional land and facilities available to the teaching program. Contained within these areas is a wide variety of tree species and forest types ranging from elements of the boreal forest to southern pines and hardwoods.

Lumber, pulp and paper, and other wood-using industries cooperate in conducting tours and demonstrating industrial processes.

To remain in the Forest Resources Management concentration, students must maintain a 2.5 cumulative GPA; a 2.5 major GPA, starting in Term 4; and earn no less than a C grade in SNR 212. If a student does not meet the aforementioned criteria, the student will be removed from the Forest Resources Management concentration, and the student must meet with their advisor to identify an alternative major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The profession of forestry is the science, the art, and the practice of managing and using for human benefit the natural resources that occur on and in association with forest lands. Benefits are derived from the multiple resources of the forest – wood, water, wildlife, recreation, forage, and environmental amenities. Foresters are managers of these resources. Thus, our principal instructional objective is to provide the broad education needed to deal effectively with the complex of forest resources.

The Restoration and Conservation Science concentration is an interdisciplinary program emphasizing forestry, ecology, soil and waters, and wildlife. In addition to the general education courses, the Restoration and Conservation Science concentration includes core courses in the traditional forestry discipline. The curriculum is designed to prepare graduates who can evaluate terrestrial ecosystems and plan for the conservation of healthy ecosystems, the improvement of degraded ones, and the reclamation or restoration of severely disturbed land. Students may choose from a broad range of technical courses, or may choose to focus their program on a particular aspect of restoring or conserving ecosystems such as wildlife habitat, watersheds, ecosystem construction, or ecology and biodiversity.

Students prepare for professional positions in the planning, development, and implementation of projects to maintain, improve, or restore ecosystem function and health on private and public lands. Foresters work closely with the public and private sector, so the development of excellent personnel management and communication skills is encouraged. In addition to the completion of courses, students are required to complete a six to ten week professional internship experience to address specific learning objectives established by the instructor and field supervisor.

To remain in the Restoration and Conservation Science concentration, students must maintain a 2.5 cumulative GPA; a 2.5 major GPA, starting in Term 4; and earn no less than a C grade in SNR 212. If a student does not meet the aforementioned criteria, the student will be removed from the Restoration and Conservation Science concentration, and the student must meet with their advisor to identify an alternative major.

Department* School of Natural Resources

Program Name* Wildlife and Fisheries Science Major, BS in Wildlife and Fisheries Science - Fisheries Management Concentration

Degree Type* Bachelor of Science in Wildlife and Fisheries Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Fisheries management is the science and art of maintaining populations of fish at levels consistent with the best interests of wild species and of the public. Management goals may be aesthetic, economic, or ecological. Success depends upon fisheries biologists providing assistance; scholarly application of scientific information and methods to these goals; ecological perspective; and execution of programs to maintain past successes, to prevent repetition of past failures, and to prepare for future needs.

To remain in the Fisheries Science Management concentration, students must maintain a 2.5 cumulative GPA; 2.5 major GPA, starting in Term 4; and earn no less than a B grade in SNR 250* and no less than a C grade in SNR 212. If a student does not meet the aforementioned criteria, the student will be removed from the Wildlife and Fisheries Science major, and the student must meet with their advisor to identify an alternative major. Courses to be counted towards the major GPA are all 300-level and above courses in FORS, ORPM, SNR, and WFS.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Course Description This course will cover the theory and application of sample design, analysis, and interpretation of freshwater fisheries data. The course will provide students with the skills and knowledge to understand, evaluate, analyze, and interpret contemporary fisheries data. Topics will include fisheries management study design, recruitment, mortality, age and growth, abundance, biomass and production, size structure, bioenergetics, and development of management plans.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* Admissions Standards and Procedures

Degree Type* Bachelor of Science

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description Applicants for admission to the program must complete the required prerequisites and pre-major core courses with a 2.5 GPA or higher.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Prerequisites (18 credit hours)

Students must complete all courses from this list with a 2.5 GPA or higher for admission to the major. For students planning on graduate study, a 3.0 GPA or higher is recommended. For students pursuing the 4+1 option with the Masters of Public Administration (MPA) or Masters of Public Policy (MPP) a 3.4 GPA or higher is required. Where available, students in University Honors should enroll in the honors version of the prerequisite course.

HBS 101* Solving Public Problems
IAC 101* Engaging Civically
[After]

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* American Civics Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Institute of American Civics, located within the Howard H. Baker Jr. School of Public Policy and Public Affairs, offers a minor in American Civics that is open to students pursuing any major. The minor is intended to promote understanding of American institutions and American political thought, as well as the need for civic engagement and civil discourse in the public life of American constitutional democracy

Admission is competitive and will be based on student applications that demonstrate academic aptitude, interest in public policy and engagement outside the classroom. An admissions committee will make selections based on overall student promise and the potential for synergies across students in the cohort. Further information on the admission process and timetable are available on the Baker School website (http://bakerschool.utk.edu).

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Admission Standards and Procedures

The American Civics minor includes 3 credit hours of prerequisite courses from the (IAC 101*), 15 credit hours of required courses (IAC 102*, IAC 201*, IAC 412, and two upper division IAC 3 credit courses, selected by the student). Other courses to complete the minor may be accepted upon approval by the Director of Undergraduate Studies.

Students must complete all courses with a 2.5 GPA or higher for the American Civics minor. For students planning on advanced study a 3.0 GPA or higher is recommended. For students pursuing the 4+1 option with the Masters of Public Administration (MPA) or Masters of Public Policy (MPP) a 3.4 GPA or higher is required.

Prerequisites (3 credit hours)

IAC 101* Engaging Civically

Required Courses (15 credit hours)

IAC 102* Visions of America
IAC 201* Construction and Reconstruction of the American Republic
IAC 412 Philosophical Origins of American Ideologies
[After]
[Before]Select two courses:
IAC 302 American Legal System
IAC 303 Legal Research and Writing
IAC 305 Democracy in America
IAC 311 Might and Right Among Nations
IAC 313 War and Peace
IAC 401 The Art of the Possible
IAC 404 Crime, Law, and Justice
IAC 405 Civil Law and Justice
IAC 406 Constitutional Interpretation
IAC 413 The Military in American Democracy
IAC 493 Independent Study
IAC 494 Internship
IAC 495 Special Topics in American Civics
[After]

***Satisfies Volunteer Core Requirements**

Rationale* Add IAC 305 Democracy in America to the list of approved electives for the American Civics Minor. It is already a required course for the Institute of American Civics Tocqueville Scholars program, so this revision will better align the American Civics Minor with the Tocqueville Scholars program.

Financial Impact* None

Notes

Howard H. Baker Jr. School of Public Policy and Public Affairs - Howard H. Baker Jr. School of Public Policy and Public Affairs - Civic and Constitutional Thought Major, BA

2026-2027 UG Add Program

General Catalog Information

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* Civic and Constitutional Thought Major, BA

Learning Outcomes

1) Civic knowledge: This program fosters understanding of the rights and responsibilities of citizenship, as well as the principles, philosophies, and institutions of democratic constitutionalism in America.

2) Intellectual pluralism and viewpoint diversity: Each course is expected to expose students to a rich variety of viewpoints in order to encourage broader knowledge as well as intellectual humility, curiosity, and courage.

4) Civil and effective written and oral discourse: The curriculum is designed to develop and encourage students to acquire habits of civil discourse as well as skills of effective communication, both oral and written.

5) Strong capacities of civic reasoning and analysis: Graduates will have developed the ability to engage in effective, logically-sound civic reasoning and analysis. They will be aware of the uses and abuses of rhetoric, and will recognize analytical fallacies when they appear.

6) Career preparation: Through the first five goals, students will obtain strong preparation for careers in law, government, politics, social sciences, education, management, communications, and related fields. Graduates will have both the substantive knowledge and the analytical and communication skills to succeed in those fields. In addition, students will take HBS 102 for professional development in their sophomore year and will have to complete a no-credit professional development practicum (IAC 489) before graduation.

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Bachelor of Arts in Civic and Constitutional Thought (BA) will provide an accessible and interdisciplinary intercollegiate opportunity for undergraduate students to receive a wide-ranging education in America's philosophical, historical, political, and economic systems.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Admissions Standards and Procedures

Applicants for admission to the program must complete the required prerequisites (IAC 101*, HBS 101*, POLS 101* / POLS 107*, STAT 201* / STAT 207*, ECON 211* / ECON 217*, and ECON 213* / ECON 218*) and pre-major core courses (HBS 102, HBS 201, and IAC 301) with a 2.5 GPA or higher.

Prerequisites (25 credit hours)

Students must complete all courses from this list with a 2.5 GPA or higher for admission to the major. For students planning on graduate study, a 3.0 GPA or higher is recommended. Where available, students in University Honors should enroll in the honors version of the prerequisite course.

IAC 101* Engaging Civically
HBS 101* Solving Public Problems
[Before] Select one course:
POLS 101* United States Government and Politics

Footnotes

Chosen from the Volunteer Core* list.

Students should select courses based on concentration. Some courses may be included in multiple concentrations. Some courses may have prerequisites or be prerequisites for other courses in the concentration. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Any course may be substituted by permission from the Director of Undergraduate Studies.

Students should ensure all Volunteer Core Requirements have been met before taking unrestricted electives.

* Meets Volunteer Core Requirements.

Concentrations

Students must complete one of the following concentrations with a 2.5 GPA or higher. For students planning on advanced study a 3.0 GPA or higher is recommended. *Other courses to complete a concentration may be accepted upon approval by the Director of Undergraduate Studies.*

Some courses may have additional prerequisites. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Students may choose to take multiple concentrations. Where available, students in University Honors should enroll in the honors version of the concentration course.

Constitutionalism and Law Concentration

For the Constitutionalism and Law Concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher. Students must take IAC 302 and IAC 406, plus any other two below. Completion of the BSPAf Law and Policy Concentration will count as completion of the BACCT Constitutionalism and Law Concentration for double majors.

IAC 302 American Legal System
IAC 303 Legal Research and Writing

IAC 404 Crime, Law, and Justice
IAC 405 Civil Law and Justice
IAC 441 Politics, Law, and Moral Character
IAC 442 Religion, Liberty, and the Law
IAC 493 Independent Study
IAC 495 Special Topics in American Civics

Civic Thought Concentration

For the Civic Thought concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher. Students must take IAC 305 and IAC 412, plus any other two courses below. IAC 301 is available as a concentration course only for students from outside the Baker School.

IAC 301 Acting Democratically
IAC 311 Might and Right Among Nations
IAC 313 War and Peace
IAC 335 Cases of American Public Leadership
IAC 412 Philosophical Origins of American Ideologies
IAC 413 The Military in American Democracy
IAC 414 Roots of American Public Policy
IAC 421 Modernization and Its Discontents
IAC 441 Politics, Law, and Moral Character
IAC 442 Religion, Liberty, and the Law
IAC 493 Independent Study
IAC 495 Special Topics in American Civics
IAC 305 Democracy in America

General Concentration

For the General concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher. Students must take IAC 305 and IAC 406, plus any other two courses below.

IAC 301 Acting Democratically
IAC 302 American Legal System
IAC 303 Legal Research and Writing
IAC 311 Might and Right Among Nations
IAC 313 War and Peace
IAC 335 Cases of American Public Leadership
IAC 404 Crime, Law, and Justice
IAC 405 Civil Law and Justice
IAC 412 Philosophical Origins of American Ideologies
IAC 413 The Military in American Democracy
IAC 414 Roots of American Public Policy
IAC 421 Modernization and Its Discontents
IAC 441 Politics, Law, and Moral Character
IAC 442 Religion, Liberty, and the Law
IAC 493 Independent Study
IAC 495 Special Topics in American Civics
IAC 305 Democracy in America
IAC 406 Constitutional Interpretation

Rationale*

The BA will prepare students for effective citizenship and a future in law, education, government, or public-facing roles in both the private and non-profit sectors. The program is designed to cultivate civic literacy, ethical leadership, civil discourse, and advanced analytical skills, all of which are essential for today's global workforce. It has also been designed to provide the foundation necessary for students seeking to matriculate to highly competitive law schools and graduate programs, which require evidence of rigorous coursework and advanced abilities in research, writing, and problem-solving.

Financial Impact*

One course from Political Science (POLS 101), one Statistics course (STAT 201), and two Economics courses (ECON 211/213) are required pre-core/prerequisite courses for CCT, as they are for Public Affairs. Specific courses from MATH, DATA, PHIL, POLS, CMST, and JMED are either required or recommended to fulfill VolCore requirements, most of which are currently on the VolCore list for Public Affairs. Since we anticipate that our number of majors will be limited (around 50 per cohort) and that many of our majors will be second majors with BSPAf, we also anticipate financial impacts on those units will be limited. Majors from outside the Baker School are exempted from pre-core and CCT Vol Core requirements. All other classes are IAC or HBS.

Impact on Other Units*

POLS

STAT

ECON

MATH

DATA

PHIL

CMST

JMED

Howard H. Baker Jr. School of Public Policy and Public Affairs - Howard H. Baker Jr. School of Public Policy and Public Affairs - Civic and Constitutional Thought Major, BA - Civic Thought Concentration

2026-2027 UG Add Program

General Catalog Information

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* Civic and Constitutional Thought Major, BA - Civic Thought Concentration

Learning Outcomes

1) Civic knowledge: This program fosters understanding of the rights and responsibilities of citizenship, as well as the principles, philosophies, and institutions of democratic constitutionalism in America.

2) Intellectual pluralism and viewpoint diversity: Each course is expected to expose students to a rich variety of viewpoints in order to encourage broader knowledge as well as intellectual humility, curiosity, and courage.

4) Civil and effective written and oral discourse: The curriculum is designed to develop and encourage students to acquire habits of civil discourse as well as skills of effective communication, both oral and written.

5) Strong capacities of civic reasoning and analysis: Graduates will have developed the ability to engage in effective, logically-sound civic reasoning and analysis. They will be aware of the uses and abuses of rhetoric, and will recognize analytical fallacies when they appear.

6) Career preparation: Through the first five goals, students will obtain strong preparation for careers in law, government, politics, social sciences, education, management, communications, and related fields. Graduates will have both the substantive knowledge and the analytical and communication skills to succeed in those fields. In addition, students will take HBS 102 for professional development in their sophomore year and will have to complete a no-credit professional development practicum (IAC 489) before graduation.

Footnotes

Chosen from the Volunteer Core* list.
Students should select courses based on concentration. Some courses may be included in multiple concentrations. Some courses may have prerequisites or be prerequisites for other courses in the concentration. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Any course may be substituted by permission from the Director of Undergraduate Studies.
Students should ensure all Volunteer Core Requirements have been met before taking unrestricted electives.

* Meets Volunteer Core Requirements.

Concentrations

Students must complete one of the following concentrations with a 2.5 GPA or higher. For students planning on advanced study a 3.0 GPA or higher is recommended. *Other courses to complete a concentration may be accepted upon approval by the Director of Undergraduate Studies.*

Some courses may have additional prerequisites. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Students may choose to take multiple concentrations. Where available, students in University Honors should enroll in the honors version of the concentration course.

Available concentrations include:

Civic Thought
Constitutionalism and Law
General

Rationale* The BA will prepare students for effective citizenship and a future in law, education, government, or public-facing roles in both the private and non-profit sectors. The program is designed to cultivate civic literacy, ethical leadership, civil discourse, and advanced analytical skills, all of which are essential for today's global workforce. It has also been designed to provide the foundation necessary for students seeking to matriculate to highly competitive law schools and graduate programs, which require evidence of rigorous coursework and advanced abilities in research, writing, and problem-solving.

Financial Impact* One course from Political Science (POLS 101), one Statistics course (STAT 201), and two Economics courses (ECON 211/213) are required pre-core/prerequisite courses for CCT, as they are for Public Affairs. Specific courses from MATH, DATA, PHIL, POLS, CMST, and JMED are either required or recommended to fulfill VolCore requirements, most of which are currently on the VolCore list for Public Affairs. Since we anticipate that our number of majors will be limited (around 50 per cohort) and that many of our majors will be second majors with BSPAf, we also anticipate financial impacts on those units will be limited. Majors from outside the Baker School are exempted from pre-core and CCT Vol Core requirements. All other classes are IAC or HBS.

Notes

Howard H. Baker Jr. School of Public Policy and Public Affairs - Howard H. Baker Jr. School of Public Policy and Public Affairs - Civic and Constitutional Thought Major, BA - Constitutionalism and Law Concentration

2026-2027 UG Add Program

General Catalog Information

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* Civic and Constitutional Thought Major, BA - Constitutionalism and Law Concentration

Learning Outcomes

1) Civic knowledge: This program fosters understanding of the rights and responsibilities of citizenship, as well as the principles, philosophies, and institutions of democratic constitutionalism in America.

2) Intellectual pluralism and viewpoint diversity: Each course is expected to expose students to a rich variety of viewpoints in order to encourage broader knowledge as well as intellectual humility, curiosity, and courage.

4) Civil and effective written and oral discourse: The curriculum is designed to develop and encourage students to acquire habits of civil discourse as well as skills of effective communication, both oral and written.

5) Strong capacities of civic reasoning and analysis: Graduates will have developed the ability to engage in effective, logically-sound civic reasoning and analysis. They will be aware of the uses and abuses of rhetoric, and will recognize analytical fallacies when they appear.

6) Career preparation: Through the first five goals, students will obtain strong preparation for careers in law, government, politics, social sciences, education, management, communications, and related fields. Graduates will have both the substantive knowledge and the analytical and communication skills to succeed in those fields. In addition, students will take HBS 102 for professional development in their sophomore year and will have to complete a no-credit professional development practicum (IAC 489) before graduation.

Degree Type* Bachelor of Arts

Program Type* Concentration

Campus code*

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Bachelor of Arts in Civic and Constitutional Thought (BA) will provide an accessible and interdisciplinary intercollegiate opportunity for undergraduate students to receive a wide-ranging education in America's philosophical, historical, political, and economic systems.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Admissions Standards and Procedures

Applicants for admission to the program must complete the required prerequisites (IAC 101*, HBS 101*, POLS 101* / POLS 107*, STAT 201* / STAT 207*, ECON 211* / ECON 217*, and ECON 213* / ECON 218*) and pre-major core courses (HBS 102, HBS 201, IAC 301) with a 2.5 GPA or higher.

Prerequisites (25 credit hours)

Students must complete all courses from this list with a 2.5 GPA or higher for admission to the major. For students planning on graduate study, a 3.0 GPA or higher is recommended. Where available, students in University Honors should enroll in the honors version of the prerequisite course.

IAC 101* Engaging Civically
HBS 101* Solving Public Problems
HBS 201 Leading Effectively
IAC 301 Acting Democratically
HBS 102 Professional Development Seminar
[Before]Select one course:
POLS 101* United States Government and Politics
POLS 107* Honors: United States Government and Politics
[Before]Select one course:
ECON 211* Principles of Microeconomics
ECON 217* Honors: Principles of Microeconomics
[Before]Select one course:
ECON 213* Principles of Macroeconomics
ECON 218* Honors: Principles of Macroeconomics
[Before]Select one course:
STAT 201* Introduction to Statistics
STAT 207* Honors: Introduction to Statistics

Core Courses (18 credit hours)

Students must complete all courses from this list with a 2.5 GPA or higher. For students planning on graduate study, a 3.0 GPA or higher is recommended.

IAC 102* Visions of America
IAC 201* Construction and Reconstruction of the American Republic
IAC 203* Constitutional Foundations
IAC 310 Athens to the Enlightenment: Western Origins of American Civic Life
IAC 312 Civic Reasoning and Rhetoric
IAC 321* American Political Economy and Citizenship

Concentration (12 credit hours)

For the Constitutionalism and Law Concentration, students must complete a 12 credit hour concentration with a 2.5 GPA or higher. For students planning on advanced study a 3.0 GPA or higher is recommended. Students must take IAC 302 and IAC 406, plus any two of the remaining courses. IAC 493 and IAC 495 require program approval. Students double majoring in Public Affairs may satisfy this concentration requirement by completing the Law and Policy Concentration of the BSPAf.

[Before]Required for the concentration:

IAC 302 American Legal System
IAC 406 Constitutional Interpretation
[Before]Select any two:

IAC 303 Legal Research and Writing
IAC 404 Crime, Law, and Justice
IAC 405 Civil Law and Justice
IAC 441 Politics, Law, and Moral Character
IAC 442 Religion, Liberty, and the Law
IAC 493 Independent Study
IAC 495 Special Topics in American Civics

Professional Development (0 credit hour requirement)

Students must complete a 0 credit hour Professional Development Practicum check-off.

IAC 489 Professional Development Practicum

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Howard H. Baker Jr. School of Public Policy and Public Affairs - Howard H. Baker Jr. School of Public Policy and Public Affairs - Civic and Constitutional Thought Major, BA - General Concentration

2026-2027 UG Add Program

General Catalog Information

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* Civic and Constitutional Thought Major, BA - General Concentration

Learning Outcomes

1) Civic knowledge: This program fosters understanding of the rights and responsibilities of citizenship, as well as the principles, philosophies, and institutions of democratic constitutionalism in America.

2) Intellectual pluralism and viewpoint diversity: Each course is expected to expose students to a rich variety of viewpoints in order to encourage broader knowledge as well as intellectual humility, curiosity, and courage.

4) Civil and effective written and oral discourse: The curriculum is designed to develop and encourage students to acquire habits of civil discourse as well as skills of effective communication, both oral and written.

5) Strong capacities of civic reasoning and analysis: Graduates will have developed the ability to engage in effective, logically-sound civic reasoning and analysis. They will be aware of the uses and abuses of rhetoric, and will recognize analytical fallacies when they appear.

6) Career preparation: Through the first five goals, students will obtain strong preparation for careers in law, government, politics, social sciences, education, management, communications, and related fields. Graduates will have both the substantive knowledge and the analytical and communication skills to succeed in those fields. In addition, students will take HBS 102 for professional development in their sophomore year and will have to complete a no-credit professional development practicum (IAC 489) before graduation.

Degree Type* Bachelor of Arts

Program Type* Concentration

Campus code*
- [x] Knoxville Campus
- [ ] Distance Ed
- [ ] Nashville Campus
- [ ] UTSI

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Bachelor of Arts in Civic and Constitutional Thought (BA) will provide an accessible and interdisciplinary intercollegiate opportunity for undergraduate students to receive a wide-ranging education in America's philosophical, historical, political, and economic systems.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Admissions Standards and Procedures

Applicants for admission to the program must complete the required prerequisites (IAC 101*, HBS 101*, POLS 101* / POLS 107*, STAT 201* / STAT 207*, ECON 211* / ECON 217*, and ECON 213* / ECON 218*) and pre-major core courses (HBS 102, HBS 201, IAC 203*, IAC 301) with a 2.5 GPA or higher.

Prerequisites (25 credit hours)

Students must complete all courses from this list with a 2.5 GPA or higher for admission to the major. For students planning on graduate study, a 3.0 GPA or higher is recommended. Where available, students in University Honors should enroll in the honors version of the prerequisite course.

IAC 101* Engaging Civically
HBS 101* Solving Public Problems
HBS 201 Leading Effectively
IAC 301 Acting Democratically
HBS 102 Professional Development Seminar
[Before]Select one course:
POLS 101* United States Government and Politics
POLS 107* Honors: United States Government and Politics
[Before]Select one course:
ECON 211* Principles of Microeconomics
ECON 217* Honors: Principles of Microeconomics
[Before]Select one course:
ECON 213* Principles of Macroeconomics
ECON 218* Honors: Principles of Macroeconomics
[Before]Select one course:
STAT 201* Introduction to Statistics
STAT 207* Honors: Introduction to Statistics

Core Courses (18 credit hours)

Students must complete all courses from this list with a 2.5 GPA or higher. For students planning on graduate study, a 3.0 GPA or higher is recommended.

IAC 102* Visions of America
IAC 203* Constitutional Foundations
IAC 201* Construction and Reconstruction of the American Republic
IAC 310 Athens to the Enlightenment: Western Origins of American Civic Life
IAC 312 Civic Reasoning and Rhetoric
IAC 321* American Political Economy and Citizenship

Concentration (12 credit hours)

For the General Concentration, students must complete a 12 credit hour concentration with a 2.5 GPA or higher. For students planning on advanced study a 3.0 GPA or higher is recommended. Students must take IAC 305 and IAC 406, plus any two of the remaining courses. IAC 493 and IAC 495 require program approval.

[Before]Required for concentration:

IAC 305 Democracy in America
IAC 406 Constitutional Interpretation
[Before]Select two courses for concentration:

IAC 302 American Legal System
IAC 303 Legal Research and Writing
IAC 311 Might and Right Among Nations
IAC 313 War and Peace
IAC 335 Cases of American Public Leadership
IAC 404 Crime, Law, and Justice
IAC 412 Philosophical Origins of American Ideologies
IAC 413 The Military in American Democracy
IAC 414 Roots of American Public Policy
IAC 421 Modernization and Its Discontents
IAC 441 Politics, Law, and Moral Character
IAC 442 Religion, Liberty, and the Law
IAC 493 Independent Study
IAC 495 Special Topics in American Civics

Professional Development (0 credit hour minimum)

Students must complete a 0 credit hour Professional Development Practicum check-off.

IAC 489 Professional Development Practicum

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Chosen from the Volunteer Core* list.
Students should select courses based on concentration. Some courses may be included in multiple concentrations. Some courses may have prerequisites or be prerequisites for other courses in the concentration. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Any course may be substituted by permission from the Director of Undergraduate Studies.
Students should ensure all Volunteer Core Requirements have been met before taking unrestricted electives.

*** Meets Volunteer Core Requirements.**

Concentrations

Students must complete one of the following concentrations with a 2.5 GPA or higher. For students planning on advanced study a 3.0 GPA or higher is recommended. ***Other courses to complete a concentration may be accepted upon approval by the Director of Undergraduate Studies.***

Some courses may have additional prerequisites. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Students may choose to take multiple concentrations. Where available, students in University Honors should enroll in the honors version of the concentration course.

Available concentrations include:

Civic Thought
Constitutionalism and Law
General

Rationale* The BA will prepare students for effective citizenship and a future in law, education, government, or public-facing roles in both the private and non-profit sectors. The program is designed to cultivate civic literacy, ethical leadership, civil discourse, and advanced analytical skills, all of which are essential for today's global workforce. It has also been designed to provide the foundation necessary for students seeking to matriculate to highly competitive law schools and graduate programs, which require evidence of rigorous coursework and advanced abilities in research, writing, and problem-solving.

Financial Impact* One course from Political Science (POLS 101), one Statistics course (STAT 201), and two Economics courses (ECON 211/213) are required pre-core/prerequisite courses for CCT, as they are for Public Affairs. Specific courses from MATH, DATA, PHIL, POLS, CMST, and JMED are either required or recommended to fulfill VolCore requirements, most of which are currently on the VolCore list for Public Affairs. Since we anticipate that our number of majors will be limited (around 50 per cohort) and that many of our majors will be second majors with BSPAf, we also anticipate financial impacts on those units will be limited. Majors from outside the Baker School are exempted from pre-core and CCT Vol Core requirements. All other classes are IAC or HBS.

Impact on Other Units* POLS

STAT

ECON

MATH

DATA

PHIL

CMST

JMED

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Footnotes

Chosen from the Volunteer Core* list.
Students should select courses based on concentration. Some courses may be included in multiple concentrations. Some courses may have prerequisites or be prerequisites for other courses in the concentration. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Any course may be substituted by permission from the Director of Undergraduate Studies.
Students should ensure all Volunteer Core Requirements have been met before taking unrestricted electives.

* Meets Volunteer Core Requirements.

Concentrations

Students must complete one of the following concentrations with a 2.5 GPA or higher. For students planning on advanced study a 3.0 GPA or higher is recommended. For students pursuing the 4+1 option with the Masters of Public Administration (MPA) or Masters of Public Policy (MPP) a 3.4 GPA or higher is required. *Other courses to complete a concentration may be accepted upon approval by the Director of Undergraduate Studies.*

Some courses may have additional prerequisites. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Students may choose to take multiple concentrations. Where available, students in University Honors should enroll in the honors version of the concentration course.

Agricultural Policy

For the Agricultural Policy concentration, students must complete 12 credit hours listed below with a 2.5 GPA. Students are also recommended to take an additional 3 credits (AREC 212) related to this concentration.

AREC 313 Agricultural Law
AREC 331 Agricultural Commodity Policy
AREC 332* Food Policy
AREC 350* The Food and Agricultural Marketing System
[Before]Recommended Unrestricted Elective
AREC 212 Introduction to Agribusiness Management

Economic and Community Development Concentration

For the Economic & Community Development concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher.

ECON 311 Intermediate Microeconomics
[Right] *(prerequisite for ECON 471, ECON 472)*
ECON 471 Public Finance: Expenditure Analysis
ECON 472 Public Finance: Taxation and Fiscal Federalism
HBS 461 Tools for Economic Development

Energy Policy Concentration

For the Energy Policy concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher.

ECON 362 Environmental and Natural Resource Policy
GEOG 346 Energy, Governance, and Sustainability
HBS 424 Energy Markets and Economics
HBS 443 Energy Transitions

Environmental Policy Concentration

For the Environmental Policy concentration, students must complete 12 credit hours listed below with a 2.5 GPA. Students are also recommended to take an additional 3 credit hours (GEOG 206 or GEOL 206), which are Vol Core, Engaged Inquiry courses related to this concentration.

AREC 314* Environmental Law
AREC 470 Policy Analysis for Environmental and Natural Resource Management
ECON 362 Environmental and Natural Resource Policy
GEOG 443 Urban Ecology
[Before]Recommended unrestricted elective, select one course:
GEOG 206* Sustainability Principles and Practices
EEPS 206* Sustainability Principles and Practices

Government Relations Concentration

For the Government Relations concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher. Students will also need to take an additional 3 credit hours (CMST 201/207*), which is a Vol Core, Engaged Inquiry course and a required prerequiste to CMST 342.

CMST 342 Survey of Organizational Communication
[Right] ***(prerequisite to CMST 449)***
CMST 449 Political Persuasion
JMED 366 Media and Democracy
PBRL 430 Crisis Communication
[Before]Recommended unrestricted elective, select one course:
CMST 201* Introduction to Communication Studies
CMST 207* Honors: Introduction to Communication Studies

Health Policy Concentration

For the Health Policy concentration, students must complete 12 credit hours listed below with a 2.5 GPA. Students are also recommended to take an additional 3 credit hours (PUBH 201*), which is Vol Core, Engaged Inquiry course related to this concentration.

ECON 311 Intermediate Microeconomics
[Before]*(prerequisite for ECON 436)*
ECON 436 Economics of Health and Health Care
PUBH 400 Comparative Healthcare Systems
PUBH 420 Environmental Public Health
[Before]Recommended unrestricted elective:
PUBH 201* Introduction to Public Health

Law and Policy Concentration

For the Law and Policy concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher.

IAC 302 American Legal System
IAC 406 Constitutional Interpretation
[Before]Choose two courses:

IAC 303 Legal Research and Writing
IAC 404 Crime, Law, and Justice
IAC 405 Civil Law and Justice

National Security Concentration

For the National Security concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher.

POLS 366 United States Foreign Policy Process
HBS 452 U.S. National Security
HBS 462 Indo-Pacific Security
[Before]Select one course:

HBS 459 Hybrid Warfare and Emerging Technologies
HBS 456 Nuclear Policy and Deterrence

Nuclear Security and Strategy

For the Nuclear Security and Strategy concentration, students must complete 12 credit hours listed below with a 2.5 GPA.

HBS 452 U.S. National Security
HBS 454 Nuclear Security
HBS 455 Nuclear Weapons
HBS 456 Nuclear Policy and Deterrence

Policy Analytics Concentration

For the Policy Analytics concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher. Students are also recommended to take an additional math course beyond the 6 credit Vol Core otherwise listed in the uTrack Requirements.

ECON 311 Intermediate Microeconomics
[Right] ***(prerequisite to ECON 381)***
ECON 381 Introduction to Econometrics
HBS 481 Policy Lab I
[Right] ***(offered in fall semester only)***
HBS 482 Policy Lab II
[Right] ***(offered in spring semester only)***
[Before]Recommended unrestricted elective, select one course:
MATH 125* Basic Calculus
MATH 141* Calculus I
MATH 147* Honors: Calculus I
MATH 142* Calculus II
MATH 148* Honors: Calculus II

Political Communication Concentration

For the Political Communication concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher. Students will also need to take an additional 3 credit hours (CMST 201/207*), which is a Vol Core, Engaged Inquiry course and a required prerequisite for CMST 342.

CMST 342 Survey of Organizational Communication
[Right] ***(prerequisite to CMST 449)***
CMST 449 Political Persuasion
JMED 200* Multimedia Writing
PBRL 400 Ethical and Legal Issues in Public Relations
[Before]Recommended unrestricted elective, select one course:
CMST 201* Introduction to Communication Studies
CMST 207* Honors: Introduction to Communication Studies

Pre-Professional Law Concentration

The Pre-Professional Law Concentration is restricted to students who are participating in the 3 + 3 program allowing them to complete their Baker School Bachelor of Science in Public Affairs (BSPAf) undergraduate degree and College Law Juris Doctor degree in six years. In addition to the Pre-Professional Law Concentration, students must be enrolled

in one of the BSPAf concentrations. They will complete all undergraduate degree requirements except for total upper-level credit hours and total credit hours by the end of their third year. In their fourth year, students will take the standard 1L curriculum. Up to 28 credit hours earned towards their law degree will also count toward their undergraduate degree, which will officially be conferred at the end of the fourth year. Students in the undergraduate program are not guaranteed admission to UT Law.

HBS 202 The Legal Profession

Public Management Concentration

For the Public Management concentration, students must complete 12 credit hours listed below with a 2.5 GPA or higher. Students will also need to take an additional 3 credit hours (MGT 201), which is a required prerequiste for FINC 300.

HBS 434 Public Organization, Theory, and Behavior
HBS 435 Leading Across Difference
[Before]Select one course:

FINC 300 Fundamentals of Finance
FINC 306 Financial Management
[Before]Select one course:
ACCT 200 Foundations of Accounting
[Right] ***(prerequisite to FINC 300)***

ACCT 203 Introduction to Financial Accounting
[Right] ***(pre-requisite to FINC 306)***

ACCT 207 Honors: Foundations of Accounting
[Right] ***(prerequisite to FINC 300)***

[Before]Recommended unrestricted elective:
MGT 201 Introduction to Business Management for Non-Majors
[Right] ***(prerequisite to FINC 300)***

Public Affairs Major – Five-Year Bachelor/Master Program

The Baker School offers a five-year bachelor and master program for qualified students. Students may apply for admission to the Master of Public Administration (MPA) or Master of Public Policy (MPP) degrees as part of the accelerated program. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their master's degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the bachelor's degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 90 hours of required coursework with a minimum overall GPA of 3.4 in required coursework.
Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. Students must submit the form titled "Baker School Admission for MPA/MPP Accelerated Program" form and have it approved by their undergraduate advisor, the Baker School's Director of Graduate Studies, and the Graduate School.
All courses taken for graduate credit must be approved by the Baker School's Director of Graduate Studies. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.
Students admitted to the program must also follow the normal procedure for admission to the Graduate School.
Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* The faculty approved minor changes to our professional development requirement to make add HBS 102 - Professional Development Seminar to be required for all majors as well as to add HBS 202 as an option to fulfill the professional development requirement. HBS 202 is for students in the new Baker School pre-professional law concentration.

Changes also reflect modifications to four concentrations (each with its own MC Curriculum proposal). Rationale and impact for each are covered in their respective proposals.

- BSPAf, National Security Concentration
- BSPAf, Nuclear Policy Concentration
- BSPAf, Public Management Concentration
- BSPAf, Law and Policy Concentration

Finally, we have added the Pre-Professional Law Concentration, which also has its own proposal.

Financial Impact* None, changes to the BSPAf are only with respect to the professional development requirements.

Impact on Other Units* None, changes to the BSPAf are only with respect to the professional development requirements.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?
☐ Arts and Humanities
☐ Natural Sciences
☐ Social Sciences

ADMINISTRATIVE USE ONLY

Impact Level
☑ Low
☐ Mid
☐ High

ACALOG Program OID 36296

ACALOG Program Status ◉ Active-Visible ○ Inactive-Hidden

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* Public Affairs Major, BS in Public Affairs - Law and Policy Concentration

Degree Type* Bachelor of Science in Public Affairs

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Bachelors of Science in Public Affairs (BSPAF) is a degree program designed to prepare students to be part of the solution through professional careers or advanced study in public administration, public policy, data analytics, or political communication. The program aspires to produce graduates who are literate in the field of public affairs and possess the foundational skills to pursue careers as effective public servants and creative problem solvers. Beyond prerequisites, the major consists of 45 hours, which includes 30 hours of core courses, 12 hours in a concentration, and a minimum of 3 hours in professional development.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Admissions Standards and Procedures

Applicants for admission to the program must complete the required prerequisites and pre-major core courses with a 2.5 GPA or higher.

Prerequisites (18 credit hours)

Students must complete all courses from this list with a 2.5 GPA or higher for admission to the major. For students planning on graduate study, a 3.0 GPA or higher is recommended. For students pursuing the 4+1 option with the Masters of Public Administration (MPA) or Masters of Public Policy (MPP) a 3.4 GPA or higher is required. Where available, students in University Honors should enroll in the honors version of the prerequisite course.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Political Communication Concentration

Public Management Concentration

Public Affairs Major – Five-Year Bachelor/Master Program

The Baker School offers a five-year bachelor and master program for qualified students. Students may apply for admission to the Master of Public Administration (MPA) or Master of Public Policy (MPP) degrees as part of the accelerated program. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their master's degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the bachelor's degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 90 hours of required coursework with a minimum overall GPA of 3.4 in required coursework.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. Students must submit the form titled "Baker School Admission for MPA/MPP Accelerated Program" form and have it approved by their undergraduate advisor, the Baker School's Director of Graduate Studies, and the Graduate School.

All courses taken for graduate credit must be approved by the Baker School's Director of Graduate Studies. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale*	The faculty wanted to give students flexibility given the growing number of faculty who can teach courses in the area.
Financial Impact*	None. All changes are to the concentration courses and involve only Baker School (IAC) courses
Impact on Other Units*	None. All changes are to the concentration courses and involve only Baker School (IAC) courses

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* Public Affairs Major, BS in Public Affairs - National Security Concentration

Degree Type* Bachelor of Science in Public Affairs

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Bachelors of Science in Public Affairs (BSPAF) is a degree program designed to prepare students to be part of the solution through professional careers or advanced study in public administration, public policy, data analytics, or political communication. The program aspires to produce graduates who are literate in the field of public affairs and possess the foundational skills to pursue careers as effective public servants and creative problem solvers. Beyond prerequisites, the major consists of 45 hours, which includes 30 hours of core courses, 12 hours in a concentration, and a minimum of 3 hours in professional development.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Requirements*

Admissions Standards and Procedures

Applicants for admission to the program must complete the required prerequisites and pre-major core courses with a 2.5 GPA or higher.

Prerequisites (18 credit hours)

Students must complete all courses from this list with a 2.5 GPA or higher for admission to the major. For students planning on graduate study, a 3.0 GPA or higher is recommended. For students pursuing the 4+1 option with the Masters of Public Administration (MPA) or Masters of Public Policy (MPP) a 3.4 GPA or higher is required. Where available, students in University Honors should enroll in the honors version of the prerequisite course.

Footnotes

Chosen from the Volunteer Core list.

Students in the Howard Baker School (HBS) Living Learning Community (LLC) must enroll in the Baker School FYS 101 section.

Students should select courses based on concentration. Some courses may be included in multiple concentrations. Some courses may have prerequisites or be prerequisites for other courses in the concentration. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Any course may be substituted by permission from the Director of Undergraduate Studies.

Students should ensure all Volunteer Core Requirements have been met before taking unrestricted electives.

* Meets Volunteer Core Requirement.

Concentrations available under Public Affairs Major, BS in Public Affairs

Students must complete one concentration with a 2.5 GPA or higher. Students may choose to take multiple concentrations. For students planning on advanced study a 3.0 GPA or higher is recommended. For students pursuing the 4+1 option with the Masters of Public Administration (MPA) or Masters of Public Policy (MPP) a 3.4 GPA or higher is required. Other courses to complete a concentration may be accepted upon approval by the Director of Undergraduate Studies.

Some courses may have additional prerequisites. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Where available, students in University Honors should enroll in the honors version of the concentration course.

Concentrations are available:

Agricultural Policy Concentration

Economic & Community Development Concentration

Energy Policy Concentration

Environmental Policy Concentration

Government Relations Concentration

Health Policy Concentration

Law and Policy Concentration

National Security Concentration

Nuclear Policy Concentration

Policy Analytics Concentration

Political Communication Concentration

Public Management Concentration

Public Affairs Major – Five-Year Bachelor/Master Program

The Baker School offers a five-year bachelor and master program for qualified students. Students may apply for admission to the Master of Public Administration (MPA) or Master of Public Policy (MPP) degrees as part of the accelerated program. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their master's degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the bachelor's degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 90 hours of required coursework with a minimum overall GPA of 3.4 in required coursework.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. Students must submit the form titled "Baker School Admission for MPA/MPP Accelerated Program" form and have it approved by their undergraduate advisor, the Baker School's Director of Graduate Studies, and the Graduate School.

All courses taken for graduate credit must be approved by the Baker School's Director of Graduate Studies. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* The concentration courses have been changed to better align with the concentration's focus on national security institutions and issues. The concentration includes one new course, moves one course from required to being an option, and adds an existing course on nuclear deterrence in order to give students a more well-rounded set of concentration courses than the previous list provided.

Financial Impact* none, changes to the concentration are only dealing with courses internal to the Baker School.

Impact on Other Units* none, changes to the concentration are only dealing with courses internal to the Baker School.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* Howard H. Baker Jr. School of Public Policy and Public Affairs

Department* Howard H. Baker Jr. School of Public Policy and Public Affairs

Program Name* Public Affairs Major, BS in Public Affairs - Nuclear Security and Strategy Concentration

Degree Type* Bachelor of Science in Public Affairs

Program Type* Concentration

Description The Bachelors of Science in Public Affairs (BSPAF) is a degree program designed to prepare students to be part of the solution through professional careers or advanced study in public administration, public policy, data analytics, or political communication. The program aspires to produce graduates who are literate in the field of public affairs and possess the foundational skills to pursue careers as effective public servants and creative problem solvers. Beyond prerequisites, the major consists of 45 hours, which includes 30 hours of core courses, 12 hours in a concentration, and a minimum of 3 hours in professional development.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Footnotes

Chosen from the Volunteer Core list.

Students should select courses based on concentration. Some courses may be included in multiple concentrations. Some courses may have prerequisites or be prerequisites for other courses in the concentration. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Any course may be substituted by permission from the Director of Undergraduate Studies.

Students should ensure all Volunteer Core Requirements have been met before taking unrestricted electives.

* Meets Volunteer Core Requirement.

Concentrations available under Public Affairs Major, BS in Public Affairs

Students must complete one concentration with a 2.5 GPA or higher. Students may choose to take multiple concentrations. For students planning on advanced study a 3.0 GPA or higher is recommended. For students pursuing the 4+1 option with the Masters of Public Administration (MPA) or Masters of Public Policy (MPP) a 3.4 GPA or higher is required. Other courses to complete a concentration may be accepted upon approval by the Director of Undergraduate Studies.

Some courses may have additional prerequisites. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Where available, students in University Honors should enroll in the honors version of the concentration course.

Concentrations are available:

Agricultural Policy Concentration

Economic & Community Development Concentration

Energy Policy Concentration

Environmental Policy Concentration

Government Relations Concentration

Health Policy Concentration

Law and Policy Concentration

National Security Concentration

Nuclear Policy Concentration

Policy Analytics Concentration

Political Communication Concentration

Public Management Concentration

Public Affairs Major – Five-Year Bachelor/Master Program

The Baker School offers a five-year bachelor and master program for qualified students. Students may apply for admission to the Master of Public Administration (MPA) or Master of Public Policy (MPP) degrees as part of the accelerated program. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their master's degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the bachelor's degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 90 hours of required coursework with a minimum overall GPA of 3.4 in required coursework.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. Students must submit the form titled "Baker School Admission for MPA/MPP Accelerated Program" form and have it approved by their undergraduate advisor, the Baker School's Director of Graduate Studies, and the Graduate School.

All courses taken for graduate credit must be approved by the Baker School's Director of Graduate Studies. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* In order to better distinguish between issues related to nuclear energy policy and nuclear security, we seek to rename the concentration to better align with its content. This will also allow students to better understand and signal if they are combining this particular concentration with other programs, such as our Energy Policy concentration.

Financial Impact* None, name change only

Impact on Other Units* None, name change only

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Bachelors of Science in Public Affairs (BSPAF) is a degree program designed to prepare students to be part of the solution through professional careers or advanced study in public administration, public policy, data analytics, or political communication. The program aspires to produce graduates who are literate in the field of public affairs and possess the foundational skills to pursue careers as effective public servants and creative problem solvers. Beyond prerequisites, the major consists of 45 hours, which includes 30 hours of core courses, 12 hours in a concentration, and a minimum of 3 hours in professional development.

The Pre-Professional Law Concentration is restricted to students who are participating in the 3 + 3 program allowing them to complete their Baker School Bachelor of Science in Public Affairs (BSPAf) undergraduate degree and College Law Juris Doctor degree in six years. In addition to the Pre-Professional Law Concentration, students must be enrolled in one of the BSPAf concentrations. They will complete all undergraduate degree requirements except for total upper-level credit hours and total credit hours by the end of their third year. In their fourth year, students will take the standard 1L curriculum. Up to 28 credit hours earned towards their law degree will also count toward their undergraduate degree, which will officially be conferred at the end of the fourth year. Students in the undergraduate program are not guaranteed admission to UT Law.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, see the Curricular Submission Guide.

Campus Code **options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI**

Certificate Type **options should be entered from the following list: Add-On, Stand-Alone**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Energy Policy Concentration

Environmental Policy Concentration

Government Relations Concentration

Health Policy Concentration

Law and Policy Concentration

National Security Concentration

Nuclear Policy Concentration

Policy Analytics Concentration

Political Communication Concentration

Public Management Concentration

Rationale* The proposed concentration is intended to provide students an accelerated path to complete their undergraduate degree and begin law school. Many students begin college with significant credits from AP or dual enrollment programs, while others have clear goals and plans that include law school from the time they enroll as undergrads. Many students enrolling in the BSPAf major are interested in law school. This concentration, paired with the other concentrations already in the BSPAf major, will provide them with all of the required coursework they would recieve in the major while streamlining their experience. The curricular path includes all of the same requirements as the full major (including Vol Core and concentration courses) while saving their remaining elective credits to be covered by their first year of law school.

The expected demand for the program is between 5 - 10 students per year. We believe many students will be interested in the program, but the accelerated timeline will be challenging to complete. Our office of student success will be working closely with students in the program to advise them on the curriculum, professional development, and the law school application process. If students admitted into the program ultimately decide not to attend law school or are not able to earn admission to UT's Winston College of Law, they will still be on track to complete their BSPAf degree.

Financial Impact* The primary impact is on the Winston College of Law, who will earn the tuition dollars for the courses they deliver. Those tuition dollars will therefore not go to any of the units from which the 28 credits would have otherwise been taken. These credits are electives, so the impact is diffuse across the colleges who offer undergraduate courses open to Baker School students.

Impact on Other Units* The concentration will not impact other units as it does not add any additional requirements, and students will need to be enrolled in another one of the BSPAf concentrations already approved and part of the current catalog.

To facilitate the accelerated timeline, we identified two classes for VolCore that we recommend students to take. Acknowledgement of the inclusion of these courses is attached.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

[4] **Total Unrestricted Electives:** 18 *Credit Hours*

[4] **Total Upper Division Electives:** 3 *Credit Hours*

Footnotes

Chosen from the Volunteer Core list.

Students in the Howard Baker School (HBS) Living Learning Community (LLC) must enroll in the Baker School FYS 101 section.

Students should select courses based on concentration. Some courses may be included in multiple concentrations. Some courses may have prerequisites or be prerequisites for other courses in the concentration. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Any course may be substituted by permission from the Director of Undergraduate Studies.

Students should ensure all Volunteer Core Requirements have been met before taking unrestricted electives.

* Meets Volunteer Core Requirement.

Concentrations available under Public Affairs Major, BS in Public Affairs

Students must complete one concentration with a 2.5 GPA or higher. Students may choose to take multiple concentrations. For students planning on advanced study a 3.0 GPA or higher is recommended. For students pursuing the 4+1 option with the Masters of Public Administration (MPA) or Masters of Public Policy (MPP) a 3.4 GPA or higher is required. Other courses to complete a concentration may be accepted upon approval by the Director of Undergraduate Studies.

Some courses may have additional prerequisites. Students are encouraged to meet with advising staff to ensure they have all the required coursework to successfully complete the identified concentration. Where available, students in University Honors should enroll in the honors version of the concentration course.

Concentrations are available:

Agricultural Policy Concentration

Economic & Community Development Concentration

Energy Policy Concentration

Environmental Policy Concentration

Government Relations Concentration

Health Policy Concentration

Law and Policy Concentration

National Security Concentration

Nuclear Policy Concentration

Policy Analytics Concentration

Political Communication Concentration

Public Management Concentration

Public Affairs Major – Five-Year Bachelor/Master Program

The Baker School offers a five-year bachelor and master program for qualified students. Students may apply for admission to the Master of Public Administration (MPA) or Master

of Public Policy (MPP) degrees as part of the accelerated program. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their master's degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the bachelor's degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 90 hours of required coursework with a minimum overall GPA of 3.4 in required coursework.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. Students must submit the form titled "Baker School Admission for MPA/MPP Accelerated Program" form and have it approved by their undergraduate advisor, the Baker School's Director of Graduate Studies, and the Graduate School.

All courses taken for graduate credit must be approved by the Baker School's Director of Graduate Studies. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale*

Description: Add ACCT 203 and FIN 300 as options for the Public Management Concentration

Justification: Students in the Haslam College of Business who either transfer or seek a double major are required to take FINC 306 instead of FINC 300 and ACCT 203 instead of ACCT 200. The content is nearly identical, and enrollment is restricted to Haslam College majors. Baker School (only) students will continue to take FINC 300 and ACCT 200/207.

2. Click on Save (this will ensure that original content is saved).

3. After you have completed all required fields, marked with an asterisk, Validate and Launch this proposal.

4. Make edits to the text in the field below. Be sure to format the content exactly as it will appear online.

5. After you have completed all edits to the text, proceed to approve the proposal in the decisions tab on the right.

***If content in the catalog is being updated that is informational only, be sure to follow the five-step instructions above to ensure that accurate markup changes are visible. Contact the undergraduate CCM Team prior to submitting form to ensure that the content changes do not require approval. In addition, an attached Word document showing the changes is recommended (the content of the attachment must match the content that is included in the Information field below).**

Information*

The Catalog and Curriculum team will revise the following shared cores in MC Curriculum that exist on all academic programs in the Catalog based on the "campus" in which programs will be delivered. This will result in uniform language displayed on all academic programs that are offered via distance education.

The Registrar's team will update existing academic programs with these shared cores and these cores will be used in any future academic program submissions (program modifications or new program proposals) offered in these modalities beginning with the 2026-2027 Undergraduate Catalog.

For programs that are only offered via distance education, the shared core will be as follows:
Campus: Distance Education

For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

For programs that are offered both on-campus and via distance education, the shared core will be as follows:
Campus: Knoxville, Distance Education
For additional information regarding distance education programs, including Admissions Requirements, visit https://volsonline.utk.edu/

Not every course is offered each term or available in all modalities. Students should review their degree audit regularly and work closely with their academic advisor to plan their courses and ensure timely progress toward degree completion based on course availability in their declared modality.

Rationale

The Registrar team sought out input from Arts and Sciences (Dean's Office, Curriculum Coordinator, Advising Office) and Digital Learning on the uniform language to display in the Catalog whenever a program is offered via distance education. The intent is to make sure programs have clean and consistent language regarding the Admissions requirements for online programs and the availability of online course offerings.

After collaboration and editing, we all agreed on the language submitted in this proposal.

The shared core for Distance Education is already in use, but we all agreed it would be best to send this informational item through governance for transparency and awareness.

Course Description A comprehensive study of the recording industry from its 18th-century origins to the present. The course examines the evolution of recording technologies-from analog formats to the digital era and the rise of streaming services-along with the recent revival of vinyl and cassette media. Additional topics include the growth of record labels and music publishers, the shaping of copyright policies and business models, the role of radio broadcasting and live performance, distribution systems, and the cultural significance of recorded music.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

Crosslisting

Notes

Natalie L. Haslam College of Music - MUCO - 400

2026-2027 UG Revise Course

General Catalog Information

College* Natalie L. Haslam College of Music

Department (Acalog Hierarchy)* Natalie L. Haslam College of Music

Subject/Prefix (choose from list)* MUCO

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 400

Course Title (max 100 characters)* Graduate Musicology Review

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 0-3

Course Description Explores traditions of western art music as cultural practices, interweaving discussion of major disciplinary debates within subfields of music studies. Includes study of sounding, formal and technical properties of music, their social and cultural meanings, and investigations of their historical contexts. Primarily intended as a review for graduate students.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction Satisfactory/No credit only

Repeatability

Credit Restriction Does not count toward graduate credit.

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s) MUCO 110* or MUCO 115* or MUCO 120* or MUCO 125*

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments Recommended as a review course for graduate students.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* 1. Course does not count for graduate credit: S/NC grading seems more appropriate that letter grades and mirrors the diagnostic exam's scoring. 2. 0 to 3 credits allows flexibility for different categories of students: online students in the new MM Music Ed Online degree are likely to be paying their own way and it will assist them to not have to pay additional tuition to enroll for the course at 0 credit. But some students, like GTAs who are residential students might need the 3 credits for full time enrollment.

Credit Hours* 3

Course Description Considers histories and frameworks within ethnomusicology and its relationships to allied fields including folklore and anthropology. Explores ethnomusicology's intersections with studies of folk, ethnic, world, traditional, and popular musics. Includes instruction in ethnographic methods and opportunity to conduct ethnographic research.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Equivalency

Rationale* This number will create a 400-level corollary to an existing 500-level course. 400-500 corollary courses will be offered simultaneously, with appropriately differentiated requirements for 500 level students (as is currently done in Music Theory, for example). Having a differentiated number for this course will also enable us to apply for VolCore designations at the 400-level. We are aiming to offer distinctive 400-level courses to support new proposal for undergraduate musicology core for music majors, and to continue to support the existing Music & Culture/Musicology majors and minors.

Impact on Other Units* None.

Financial Impact* None.

Equivalency

Rationale* Change the title of the course to broaden its content. Keyboard Harmony implies a more narrow scope centered around harmonization. We would like the course to cover additional keyboard skills such as sight-reading, transposition, and piano technique (scales, arpeggios, etc.). We believe students will benefit from a broader set of skills and improve their overall piano proficiency.

Comments Students with some prior knowledge of drumset should contact the instructor prior to registration. They may be able to test into this class without MUPR 110.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Provides beginner-to-intermediate skill development in drumset performance while broadening stylistic range. Serves as both a continuation of Drumset I and an entry point for students with some prior experience. Creates clear scaffolding toward more creative and improvisational work in later study.

We have entered the Instruction Method that best fits this proposal but are seeking for the Instruction Method to be: Group Musical Instruction to match similar courses that we offer. This option is not currently available in MC Curriculum.

Impact on Other Units* Positive impact on curriculum. Complements forthcoming online Music Business degree with relevant performance course; provides an entry point to drumset for our percussion majors who have no experience; and attracts a broad student population to our courses across the univeristy. No duplication with existing courses.

Financial Impact* Minimal. Delivered using existing online resources and video assessment tools.

Course Description Beginner-to-intermediate drumset study emphasizing stylistic influence, transcription, and creative application. Students explore grooves and performance approaches from a variety of genres and apply them through short solo studies and creative exercises. Improvisation is introduced in guided steps, encouraging students to begin shaping their own musical voice. This course serves as both a continuation of Drumset II and an entry point for students with prior experience.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lab, Lecture

Contact Hour Distribution (if more than one instructional method) 1/2 hour lab; 1/2 hour lecture

Grading Restriction ABC/No Credit

Credit Restriction

Registration Enforced (RE) Prerequisite(s) MUPR 111

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments Students with some prior knowledge of drumset should contact the instructor prior to registration. They may be able to test into this class without MUPR 110 or 111.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Provides the third step in a scaffolded sequence of drumset study. Balances accessibility for students with varied levels of experience while introducing transcription and improvisation as creative tools. Strengthens the online Music Business degree by offering an attractive, contemporary performance option that develops both technical and creative skills.

We have entered the Instruction Method that best fits this proposal but are seeking for the Instruction Method to be: Group Musical Instruction to match similar courses that we offer. This option is not currently available in MC Curriculum.

Impact on Other Units* Positive curricular impact by expanding modern, accessible performance options. Complements applied percussion and Music Business coursework without overlapping with existing areas.

Financial Impact* Minimal. Delivered using existing faculty expertise and online platforms (Canvas, video submissions, peer review). No additional resources required.

Arts and Sciences Originators Only

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Provides an accessible survey of drumming in popular music, emphasizing groove, style, and cultural impact across genres. Designed as an easy entry point for majors and non-majors, the course broadens participation in music study and complements existing offerings without duplication.

Impact on Other Units* Positive impact by expanding popular music offerings within the College of Music. Complements current courses without overlap. Expected to attract broad enrollment from majors and non-majors.

Financial Impact* Minimal. Course is fully online and requires no additional faculty, equipment, or facilities beyond existing resources.

Arts and Sciences Originators Only

Recommended Background

Comments Recommended as a review course for graduate students.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* 1) Change credit designation from 3 to 0-3 credits. This change allows flexibility for different categories of students: online students in the new MM Music Ed Online degree are likely to be paying their own way and it will assist them to not have to pay additional tuition to enroll for the course at 0 credit. But some students, like GTAs who are residential students might need the 3 credits for full time enrollment. 2) Course does not count for graduate credit: S/NC grading seems more appropriate than letter grades and mirrors the diagnostic exam's scoring.

Impact on Other Units* N/

Impact Report for MUTH 400

There are no results for this report.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

For Music Ensembles, MUEN 309*, MUEN 312*, MUEN 330*, MUEN 340*, MUEN 350*, MUEN 352*, MUEN 353*, MUEN 370*, MUEN 380*, MUEN 383*, and MUEN 389* count towards Applied Arts and Humanities (AAH) credits.

Ensemble requirements:

Brass major: select 4 hours from MUEN 303*, MUEN 304, MUEN 306, MUEN 309*, MUEN 313, MUEN 314, MUEN 315, MUEN 330*, MUEN 350*, MUEN 352*, MUEN 353*, MUEN 370*, MUEN 383*, MUEN 389*.

Composition major: any MUEN course.

Piano/Organ major: (a) select 2-4 hours from MUEN 330*, MUEN 380*, MUEN 383*, MUEN 389*, and/or (b) select 1-2 hours from MUEN 399.

String major: 4 hours of MUEN 370*.

Voice major: (a) select 2-4 hours from MUEN 330*, MUEN 380*, MUEN 383*, MUEN 389*, and/or (b) 1-2 hours of MUEN 340*.

Woodwind major: select 4 hours from MUEN 303*, MUEN 304, MUEN 350*, MUEN 352*, MUEN 353*, MUEN 370*.

Percussion major: select 4 hours from MUEN 303*, MUEN 304, MUEN 309*, MUEN 311, MUEN 350*, MUEN 352*, MUEN 353*, MUEN 370*.

Select 0-3 hours from the following: MUCO 493, MUIN 493, MUSC 301, MUSC 411, MUSC 493, MUTH 493.
The BA in Applied Music has a flexible design to encourage curricular exploration. Students will engage in secondary areas of interst such as second major, a minor, or study abroad in the Fourth Year of this showcase.
See Natalie L. Haslam College of Music Discovery Module Requirement
Selected from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491

* Meets Volunteer Core Requirement.

Rationale* *Provides many more possibilities for students to build their own track and to follow their own interests. Adds MUCO 380 to term 6 and places 3 elective credits in the place of one of the Musicology courses in term 3 to promote student success.
*MUCO 215 will be less overwhelming to contemporary students than the current MUCO 210–220 sequence in terms of information, level of detail, and memorization, because it will have more of a case study approach with less breadth and more depth.
*This proposal will free students to take a 400 level elective in musicology, and give them more choices to follow a topic they are interested in.
*This proposal will ultimately give students more scheduling options because they won't be locked into the MUCO 210 and MUCO 220 time slots over the course of two semesters.

Financial Impact* N/A

Impact on Other Units* N/A

Natalie L. Haslam College of Music - Natalie L. Haslam College of Music - Music Major, BA - Journalism and Media Concentration

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

Program Name* Music Major, BA - Journalism and Media Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

[1] Performance Elective 1 *Credit Hours*
Any MUCO 100-level 3 *Credit Hours* *

ENGL 101* English Composition I
[Right] (or equivalent)

Footnotes

Select from any MUEN credits, any MUPF credits, MUSC 101, MUSC 111*, MUSC 112*, MUSC 113*, and MUVC 110. Students taking MUPF must be accepted into a studio through an audition. MUPF and MUSC 101 courses are not guaranteed in every applied area.

Important note: students can also use Performance Elective credits to fulfill many Volunteer Core requirements. Please meet with your advisor to help select Volunteer Core courses as needed.

Selected from the following lists. Must take 3 hours from List A, 3 hours from List B, and 6 additional hours from either list.

List A:

Any additional 200-400 level MUCO

Any MUTC

MUTH 110, MUTH 120, MUTH 210*, MUTH 220* or any 300- or 400- level

MUJZ 110

MUJZ 411*

MUBS 103

List B:

MUJZ 130, MUJZ 140 , MUJZ 210 , MUJZ 220

MUTH 130, MUTH 140,MUTH 230, MUTH 240

MUVC 110

MUSC 101 (not guaranteed in every applied area every semester)

MUSC 111*, MUSC 112*, MUSC 113*

any MUEN

any MUKB

any MUPF (students must be accepted into a studio through audition)

Important note: students can also use List A or List B elective credits to fulfill many Volunteer Core requirements. Please meet with your advisor to help select Volunteer Core courses as needed.
See Natalie L. Haslam College of Music Discovery Module Requirement.
* Meets Volunteer Core Requirement.

Rationale* Adds new course MUBS 103 as an option for the program. Corrects catalog error in term 7 (hours did not previously add up), and reflects revision needed to accommodate changes to courses from other departments (BULW 301 changes to BULW 305/3 hours, INMT 242 changes to 2 hours). Moves ACCT 200 from term 1 to term 4 per advice from the College of Business; shifts 100-level MUCO to term 1 to meet minimum credit hours for the term.

Financial Impact* N/A

Impact on Other Units* N/A

Footnotes

Completion of appropriate sequence through one of: ARAB 222*; ASL 212*; ASST 262; CHIN 232*; FREN 212*, FREN 218* (honors), FREN 223* (intensive); GERM 212*, GERM 223 (intensive); CLAS 264* (Greek), CLAS 252* (Latin); HEBR 242*; ITAL 212*; JAPA 252*; PORT 212*; REST 222* (Biblical Hebrew); RUSS 202*; SPAN 212*, SPAN 218* (honors), SPAN 223* (intensive).

Students with previous language experience may demonstrate competence via a departmental placement or proficiency examination, or by AP or CLEP credit.

Students whose native language is not English may satisfy the requirement with ENGL 131* AND ENGL 132*, plus any two of the following courses: AFST 225*, AFST 226*, AFST 233*; CLAS 253*; ENGL 201*, ENGL 202, ENGL 206*, ENGL 207*, ENGL 208, ENGL 209*, ENGL 221*, ENGL 222, ENGL 225*, ENGL 226*, ENGL 231*, ENGL 232*, ENGL 233*, ENGL 237*, ENGL 238*, ENGL 247*, ENGL 248*, ENGL 251*, ENGL 252*, ENGL 253*, ENGL 254*, ENGL 258*; ITAL 401*; JAPA 313, JAPA 314; JST 312*; LAC 315; MRST 261, MRST 262, MRST 401*; PORT 315; REST 312*; RUSS 221*, RUSS 222*; WLC 300*.
Select from AFST 201*, AFST 202*, AFST 225*, AFST 226*, AFST 235*, AFST 236*, AGNR 180*; AGNR 480; AGNR 491, AFST 335*, AFST 336*; CLAS 384*; ENGL 225*, ENGL 226*, ENGL 335*, ENGL 336*; GEOG 320*, GEOG 372*, GEOG 374*, GEOG 375*, GEOG 445*; GLBS 250*; HILA 255*, HILA 256*; HIME 366*, HIME 369*; LAC 430*, LAC 456*; PUBH 201*; REST 101*, REST 222*, REST 232*, REST 280*, REST 320*; SOCI 260*, SOCI 344*, SOCI 345*, SOCI 350*, SOCI 353*, SOCI 360*, SOCI 453*, SOCI 456*, SOCI 465*; SOWK 200*, SOWK 250*.
Select from MUEN 303* (Small Jazz), MUEN 304 (Jazz), MUEN 311 (African Diasporic Percussion), MUEN 312* (Balinese Gamelan); MUEN 316 (Electro Acoustic), MUEN 322 (Gospel Choir); MUEN 323 (UT Appalachian Strings); MUEN 326 (R&B)
Select from MUEN 303*, MUEN 310, MUEN 311, MUEN 312*, MUEN 315, MUEN 316, MUEN 320, MUEN 322, MUEN 323, MUEN 326, MUEN 330*, MUEN 340*, MUEN 350*, MUEN 352*, MUEN 353*, MUEN 370*, MUEN 380*, MUEN 383*, MUEN 389*
Students may satisfy the Connections requirement in one of four ways:

Completion of nine credit hours of study abroad coursework or six credit hours of study abroad coursework and completing one additional upper level course from the approved Global Citizenship-International (GCI) list. These hours may, if appropriate, be applied to non-Connections degree requirements.
Completion of a minor, a second concentration, or a second major. The minor or second major may be in the College of Music or in another college.
Completion of nine credit hours drawn from a Connections Package. The nine credit hours must be drawn from at least two different departments. Three of the nine credit hours may be applied toward a student's major requirements. Connections Packages are topically oriented collections of upper-division courses that have been designed by faculty to focus students' attention on questions that have substantial multidisciplinary character.
Completion of all Air Force or Army ROTC program requirements.

* Meets Volunteer Core Requirement.

Rationale* Integrates proposed revision to MUCO core sequence; updates upper-level MUCO electives based on new proposed course numbers; and makes several other updates to reflect current offerings.

Financial Impact* N/A

Impact on Other Units* A few courses from AGNR added as options for interdisciplinary elective. Approval from AGNR is attached.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

* Meets Volunteer Core Requirement.

Rationale* *Provides many more possibilities for students to build their own track and to follow their own interests
*MUCO 215 will be less overwhelming to contemporary students than the current MUCO 210–220 sequence in terms of information, level of detail, and memorization, because it will have more of a case study approach with less breadth and more depth.
*This proposal will free students to take a 400 level elective in musicology, and give them more choices to follow a topic they are interested in.
*This proposal will ultimately give students more scheduling options because they won't be locked into the MUCO 210 and MUCO 220 time slots over the course of two semesters.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Select from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491

* Meets Volunteer Core Requirements.

Rationale* •Showcases now reflect that the degree programs can be completed in eight semesters of study. Existing showcases in the 2025-2026 catalog indicate the music education traditional options are nine semester courses-of-study. This does not reflect the fact that many, if not most, students are able to complete the degree in eight semesters (four years). Additionally, this error may impact prospective students who may erroneously believe that the degree options can not be completed in a typical undergraduate time frame. Specific revisions include:
•Removal of GCUS (Global Citizenship - United States) and EI (Engaged Inquiries) VolCore electives as these VolCore requirements are now met in major (EI through MUED 340, MUCO 380, and MUTH 210)(GCUS through MUCO 111 or 115 who either presently have GCUS designations or are proposed to).
•Removal of EDPY 210, Psychoeducational Issues in Human Development, from all degree options. This course is not a teacher licensure requirement (confirmed with Office of Professional Licensure) and we would prefer to offer a course that is based in our discipline.
•Addition of MUED 110, Introduction to Music Education. We are proposing this course to take the place of EDPY 210 and to offer a way for music education students in NLHCOM to build their understandings of music teaching and learning in a course that aligns with their disciplinary focus. We are proposing this course to also have the SS VolCore designation as EDPY 210 had previously.
•Addition of discovery modules to all music education degree traditional options. The removal of the EI and GCUS courses provide space for music education degree programs to now include the six credits of these modules.

•VolCore proposal to add MUCO 380 under WC is in progress.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Program Type* Concentration

Description

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Completion of at least 42 upper-division (300-400 level) hours

Total Credit Hours 121

Footnotes

Ensemble requirement of 8 credits to be divided as follows: 4 credits of MUEN 370*, 4 credits of MUEN 304

Selected from MUCO 110*, MUCO 115*, MUCO 120*, or MUCO 125*

See Volunteer Core* list.

Teacher licensure requires a fifth-year graduate internship or one semester of student teaching.

* Meets Volunteer Core Requirements.

Rationale* This major was first made available in 2018 and to this point has not enrolled any students or generated any conferred degrees. We believe there are ample opportunities remaining for string music education students to pursue a degree at UTK and removing these two programs is needed since there has not been demand for them since they were developed.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Footnotes

Selected from MUCO 110*, MUCO 115*, MUCO 120*, or MUCO 125*
See Volunteer Core list.
Selected from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491

Teacher licensure requires a fifth-year graduate internship.

* Meets Volunteer Core Requirements.

Rationale* *Provides many more possibilities for students to build their own track and to follow their own interests
*MUCO 215 will be less overwhelming to contemporary students than the current MUCO 210–220 sequence in terms of information, level of detail, and memorization, because it will have more of a case study approach with less breadth and more depth.
*This proposal will free students to take a 400 level elective in musicology, and give them more choices to follow a topic they are interested in.
*This proposal will ultimately give students more scheduling options because they won't be locked into the MUCO 210 and MUCO 220 time slots over the course of two semesters.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

Program Name* Music Major, BM - Music Education Concentration - Vocal General/Keyboard Emphasis Traditional Track

Degree Type* Bachelor of Music

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

See Volunteer Core list.
Selected from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491.

* Meets Volunteer Core Requirement.

Rationale*
•Showcase now reflects that the degree programs can be completed in eight semesters of study. Existing showcases in the 2025-2026 catalog indicate the music education traditional options are nine semester courses-of-study. This does not reflect the fact that many, if not most, students are able to complete the degree in eight semesters (four years). Additionally, this error may impact prospective students who may erroneously believe that the degree options can not be completed in a typical undergraduate time frame. Specific revisions include:
•Removal of GCUS (Global Citizenship - United States) and EI (Engaged Inquiries) VolCore electives as these VolCore requirements are now met in major (EI through MUED 340, MUCO 380, and MUTH 210)(GCUS through MUCO 111 or 115 who either presently have GCUS designations or are proposed to).
•Removal of EDPY 210, Psychoeducational Issues in Human Development, from all degree options. This course is not a teacher licensure requirement (confirmed with Office of Professional Licensure) and we would prefer to offer a course that is based in our discipline.
•Addition of MUED 110, Introduction to Music Education. We are proposing this course to take the place of EDPY 210 and to offer a way for music education students in NLHCOM to build their understandings of music teaching and learning in a course that aligns with their disciplinary focus. We are proposing this course to also have the SS VolCore designation as EDPY 210 had previously.
•Addition of discovery modules to all music education degree traditional options. The removal of the EI and GCUS courses provide space for music education degree programs to now include the six credits of these modules.

•Term and program credit totals now reflect courses with variable credit hour options.

Financial Impact* N/A

Impact on Other Units* N/A

Footnotes

Selected from MUCO 110*, MUCO 115*, MUCO 120*, or MUCO 125*
See Volunteer Core list.
Selected from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491

Teacher licensure requires a fifth-year graduate internship.

* Meets Volunteer Core Requirements.

Rationale* *Provides many more possibilities for students to build their own track and to follow their own interests
*MUCO 215 will be less overwhelming to contemporary students than the current MUCO 210–220 sequence in terms of information, level of detail, and memorization, because it will have more of a case study approach with less breadth and more depth.
*This proposal will free students to take a 400 level elective in musicology, and give them more choices to follow a topic they are interested in.
*This proposal will ultimately give students more scheduling options because they won't be locked into the MUCO 210 and MUCO 220 time slots over the course of two semesters.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

Program Name* Music Major, BM - Music Education Concentration - Vocal General/Vocal Emphasis Traditional Track

Degree Type* Bachelor of Music

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Selected from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491.

* Meets Volunteer Core Requirements.

Rationale* •Showcase now reflects that the degree program can be completed in eight semesters of study. Existing showcases in the 2025-2026 catalog indicate the music education traditional options are nine semester courses-of-study. This does not reflect the fact that many, if not most, students are able to complete the degree in eight semesters (four years). Additionally, this error may impact prospective students who may erroneously believe that the degree options can not be completed in a typical undergraduate time frame. Specific revisions include:
•Removal of GCUS (Global Citizenship - United States) and EI (Engaged Inquiries) VolCore electives as these VolCore requirements are now met in major (EI through MUED 340 and MUTH 210)(GCUS through MUCO 111 or 115 who either presently have GCUS designations or are proposed to).
•Removal of EDPY 210, Psychoeducational Issues in Human Development, from all degree options. This course is not a teacher licensure requirement (confirmed with Office of Professional Licensure) and we would prefer to offer a course that is based in our discipline.
•Addition of MUED 110, Introduction to Music Education. We are proposing this course to take the place of EDPY 210 and to offer a way for music education students in NLHCOM to build their understandings of music teaching and learning in a course that aligns with their disciplinary focus. We are proposing this course to also have the SS VolCore designation as EDPY 210 had previously.
•Addition of discovery modules to all music education degree traditional options. The removal of the EI and GCUS courses provide space for music education degree programs to now include the six credits of these modules.
•Vocal/General/Vocal Option: Removal of MUED 250, Functional Piano for Teachers I. Prior offerings of this course have included some piano instruction, but primarily more engagement around secondary general music practices. The title and catalog description of this course then has not matched the content that has been taught and that the area would like to be part of the degree program.
•Vocal/General/Vocal Option: Addition of MUED 420, Middle School and Junior High Methods. This course is offered in the instrumental tracks presently. In this degree option, we propose a version of the course aligned with teaching vocal and general music methods for applications in middle school contexts. This would be similar to the format for MUED 430, Music Methods for High School, where the course is offered in both the vocal and instrumental degree options and a version of the course specific to the musical context is offered.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

Program Name* Music Major, BM - Music Education Concentration - Woodwind/Brass/Percussion Emphasis Traditional Track

Degree Type* Bachelor of Music

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Completion of at least 42 upper-division (300-400 level) hours

Total Credit Hours 131

Footnotes

Ensemble requirement of 7 credits to be divided as follows: 5 credits of MUEN 350*, MUEN 352*, or MUEN 353*, 2 credits of MUEN 350*, MUEN 352*, MUEN 353*, or MUEN 370*; MUEN 330*, MUEN 380*, MUEN 383*, MUEN 389*
See Volunteer Core list.
Selected from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491.

* Meets Volunteer Core Requirements.

Rationale* •Showcase now reflects that the degree programs can be completed in eight semesters of study. Existing showcases in the 2025-2026 catalog indicate the music education traditional options are nine semester courses-of-study. This does not reflect the fact that many, if not most, students are able to complete the degree in eight semesters (four years). Additionally, this error may impact prospective students who may erroneously believe that the degree options can not be completed in a typical undergraduate time frame. Specific revisions include:
•Removal of GCUS (Global Citizenship - United States) and EI (Engaged Inquiries) VolCore electives as these VolCore requirements are now met in major (EI through MUED 340, MUCO 380, and MUTH 210)(GCUS through MUCO 111 or 115 who either presently have GCUS designations or are proposed to).
•Removal of EDPY 210, Psychoeducational Issues in Human Development, from all degree options. This course is not a teacher licensure requirement (confirmed with Office of Professional Licensure) and we would prefer to offer a course that is based in our discipline.
•Addition of MUED 110, Introduction to Music Education. We are proposing this course to take the place of EDPY 210 and to offer a way for music education students in NLHCOM to build their understandings of music teaching and learning in a course that aligns with their disciplinary focus. We are proposing this course to also have the SS VolCore designation as EDPY 210 had previously.
•Addition of discovery modules to all music education degree traditional options. The removal of the EI and GCUS courses provide space for music education degree programs to now include the six credits of these modules.
•Revision of the MUCO core sequence: Provides many more possibilities for students to build their own track and to follow their own interests
*MUCO 215 will be less overwhelming to contemporary students than the current MUCO 210–220 sequence in terms of information, level of detail, and memorization, because it will have more of a case study approach with less breadth and more depth.
*This proposal will free students to take a 400 level elective in musicology, and give them more choices to follow a topic they are interested in.
*This proposal will ultimately give students more scheduling options because they won't be locked into the MUCO 210 and MUCO 220 time slots over the course of two semesters.

Financial Impact* N/A

Impact on Other Units* CEHHS has been notified regarding removing EDPY 210 from this curriculum. Please see the attached correspondence with CEHHS.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

Footnotes

Ensemble requirement of 7 credits to be divided as follows: 4 credits of MUEN 350*, MUEN 352*, or MUEN 353*, 3 credits of MUEN 304
See Volunteer Core list.
Selected from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491.

* Meets Volunteer Core Requirements.

Rationale*

- Showcase now reflects that the degree programs can be completed in eight semesters of study. Existing showcases in the 2025-2026 catalog indicate the music education traditional options are nine semester courses-of-study. This does not reflect the fact that many, if not most, students are able to complete the degree in eight semesters (four years). Additionally, this error may impact prospective students who may erroneously believe that the degree options can not be completed in a typical undergraduate time frame. Specific revisions include:
- Removal of GCUS (Global Citizenship - United States) and EI (Engaged Inquiries) VolCore electives as these VolCore requirements are now met in major (EI through MUED 340 and MUTH 210)(GCUS through MUCO 111 or 115 who either presently have GCUS designations or are proposed to).
- Removal of EDPY 210, Psychoeducational Issues in Human Development, from all degree options. This course is not a teacher licensure requirement (confirmed with Office of Professional Licensure) and we would prefer to offer a course that is based in our discipline.
- Addition of MUED 110, Introduction to Music Education. We are proposing this course to take the place of EDPY 210 and to offer a way for music education students in NLHCOM to build their understandings of music teaching and learning in a course that aligns with their disciplinary focus. We are proposing this course to also have the SS VolCore designation as EDPY 210 had previously.
- Addition of discovery modules to all music education degree traditional options. The removal of the EI and GCUS courses provide space for music education degree programs to now include the six credits of these modules.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

See Natalie L. Haslam College of Music Discovery Module Requirement.

Selected from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491.

* Meets Volunteer Core Requirement.

Rationale* *Provides many more possibilities for students to build their own track and to follow their own interests
*MUCO 215 will be less overwhelming to contemporary students than the current MUCO 210–220 sequence in terms of information, level of detail, and memorization, because it will have more of a case study approach with less breadth and more depth.
*This proposal will free students to take a 400 level elective in musicology, and give them more choices to follow a topic they are interested in.
*This proposal will ultimately give students more scheduling options because they won't be locked into the MUCO 210 and MUCO 220 time slots over the course of two semesters.

Financial Impact* N/A

Impact on Other Units* N/A

Footnotes

Choose from MUEN 330*, MUEN 350*, MUEN 352*, MUEN 353*, MUEN 370*, MUEN 380*, MUEN 383*, or MUEN 389*.
Select one from MUTH 305*, MUTH 430, MUTH 450, and MUTH 451.
See Natalie L. Haslam College of Music Discovery Module Requirement.
Choose from MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422, MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491

* Meets Volunteer Core Requirements.

Rationale* The keyboard area faculty, Natalie L. Haslam College of Music Curriculum and Academic Policy Committee, and Natalie L. Haslam College of Music faculty approves reducing the Accompanying (MUEN399) requirement from 6 semesters to 4 semesters. This adjustment aligns the program with similar piano programs at peer institutions. It also provides students in their senior year with the opportunity to focus on their recital, prepare for graduate school auditions, or enroll in other music ensemble courses.

This revision also includes changing the total number of credits required for graduation to 120 by adding a standard 3-hour requirement to the variable MUPF courses and making a couple of minor adjustments to the elective requirements. This adjustment to a 120 credit hour total aligns this program with our other BM performance programs.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Program Type* Concentration

Description

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

Program Name* Music Major, BM - Strings Concentration

Degree Type* Bachelor of Music

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Three credit hours to be selected from MUTH 305*, MUTC 450, MUTH 451.
See Natalie L. Haslam College of Music Discovery Module Requirement.
Three credit hours to be selected from: MUCO 330, MUCO 410, MUCO 411, MUCO 412, MUCO 413, MUCO 416, MUCO 421, MUCO 422 MUCO 440, MUCO 441, MUCO 442, MUCO 443, MUCO 451, MUCO 452, MUCO 453, MUCO 454, MUCO 491

* Meets Volunteer Core Requirement.

Rationale* *Provides many more possibilities for students to build their own track and to follow their own interests
*MUCO 215 will be less overwhelming to contemporary students than the current MUCO 210–220 sequence in terms of information, level of detail, and memorization, because it will have more of a case study approach with less breadth and more depth.
*This proposal will free students to take a 400 level elective in musicology, and give them more choices to follow a topic they are interested in.
*This proposal will ultimately give students more scheduling options because they won't be locked into the MUCO 210 and MUCO 220 time slots over the course of two semesters.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

Program Name* Music Major, BM - Studio Music and Jazz Concentration

Degree Type* Bachelor of Music

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

*** Meets Volunteer Core Requirement.**

Rationale*
*Provides many more possibilities for students to build their own track and to follow their own interests
*MUCO 215 will be less overwhelming to contemporary students than the current MUCO 210–220 sequence in terms of information, level of detail, and memorization, because it will have more of a case study approach with less breadth and more depth.
*This proposal will free students to take a 400 level elective in musicology, and give them more choices to follow a topic they are interested in.
*This proposal will ultimately give students more scheduling options because they won't be locked into the MUCO 210 and MUCO 220 time slots over the course of two semesters.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- Changing the name of a program (major, concentration, minor, or certificate)
- Changing the department where the program is offered
- Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)
- Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)
- Adding or removing a certificate type (Add-On, Stand Alone)

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Natalie L. Haslam College of Music

Department* Natalie L. Haslam College of Music

Program Name* Music Minor - Music and Culture

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The minor concentration in music and culture consists of at least **15 hours** in courses numbered 200 and above.

Prerequisites

Any 100-level MUCO course, 3 *credit* hours

Required Courses

A. Select one course (3 credit hours)

MUCO 215 Sounding Stories: Case Studies in Western Music & Culture
MUCO 290* Soundscapes: Exploring Music in a Changing World

B. Select 9 hours

MUCO 330* Music, Gender, and Sexuality
MUCO 380* Music in World Cultures
MUCO 410 Special Topics in Musicology
MUCO 411* Music of Appalachia
MUCO 412 Gender, Performance Art, and the Avant Garde
MUCO 413* Music and the African Diaspora
MUCO 416* Global Soundtracks
MUCO 421 Music of Bali, Indonesia
MUCO 422 Global Currents in Music Festivals
MUCO 440 Medieval & Renaissance Music
MUCO 441 Opera in Social Contexts
MUCO 442 Music of the Baroque Era
MUCO 443 Twentieth-Century Music
MUCO 451 Music & Technoculture
MUCO 452 Ethnomusicology: Histories & Frameworks
MUCO 453 Music, Ethnography and the South
MUCO 454 Music, Soundscapes, and the Environment
MUCO 491 Global Experiences in Musicology

C. Ensemble Electives (3 credit hours)

- 1 *credit* from: MUEN 312*, Balinese Gamelan, 1 credit hour

- And, an additional two credits from any 300-level MUEN course

***Satisfies Volunteer Core Requirements**

Rationale* Updates MUCO courses to reflect new numbers and current offerings, with several additional changes to simply the minor and parallel the major.

Financial Impact* N/A

Impact on Other Units* N/A

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Program Type* Non-Degree

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Discovery Modules

Some programs in the College of Music include a Discovery Module requirement. This offers a compact approach to discovering new passions, interests, or literacies through connected curricular themes. Students in programs with this requirement may satisfy it in one of four ways:

1. Complete a six-credit Discovery Module
2. Completion of six credit hours of study abroad coursework + one GCI course. The GCI course is in addition to their Vol Core requirement.
3. Completion of a minor, a second concentration, certificate program, or a second major. The minor or second major may be in the College of Music or in another college.
4. Completion of all Air Force or Army ROTC program requirements.

Discovery Module courses may not overlap with other program of study requirements.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

THEA 265* Introduction to Design and Production: Lighting, Sound, and Media

Rationale* We propose adding MUKB 415 (Introduction to Piano Technology) to the Natalie L. Haslam College of Music Discovery Module under Enterprise Essentials. The skills taught in this course would be beneficial to a possible vocation in piano technology.

We are also removing HIEU 364 from the Music, Politics, and Society module as this course is being dropped by the department.

Financial Impact* N/A

Impact on Other Units* N/A

New Subject Code: Applied Engineering (APPE)

UG New Prefix/Subject Code

General Catalog Information

College* Tickle College of Engineering

Department* Applied Engineering and Technology

Title of Proposal* New Subject Code: Applied Engineering (APPE)

Instructions for Subject Changes

Changing a subject code requires full approval. ***New subject codes will be temporarily available in Curriculog before full approval, and will only be permanently available after full approval.***

A new subject code must be verified for use before it can be used for new courses. This is done by completing the New Prefix/Subject Code form. The Curriculum and Catalog Management team (CCM) will research the availability of subject codes, suggest alternatives if necessary, and create a new subject code in the system for use on course forms.
Fill out Drop Course forms for courses that will no longer be active under either subject code.
Fill out Add Course forms for new courses to be active under the new subject code.
Fill out Revise Course forms to revise courses impacted by prefix changes/showing the old prefix if it was replaced by a new prefix through an equivalency.
Fill out Revise Course (Dynamic Changes) forms *and* include equivalent courses listed in this form's equivalency table.
If the course that is being dropped carries a Vol Core designation, the department must notify the Vol Core Committee asking that the equivalent course carry the same designation.
If the old course had attached fees, then the fees for the new course will need to be approved by the Office of Budget and Finance. Please contact the Bursar's Office with any questions about these fees. *Approval of fees is not automatic.*
If cross-listed courses are included, all departments affected by the change must be informed so they may update their own courses.

Rationale The University of Tennessee Board of Trustees and the Tennessee Higher Education Commission approved the establishment of a new Department of Applied Engineering and Technology (AET), effective July 1, 2024. This department emphasizes hands-on learning and practical problem-solving skills.

The Dean of TCE, the Department Head and faculty of AET have decided to rename the existing department. The new name, effective July 1, 2026, will be the Department of Applied Engineering. This change more accurately reflects the department's focus, aligns with ABET-EAC accreditation standards, and maintains the same level of rigor and credit hours for Math, Science, and Engineering disciplines as other traditional engineering departments. Additionally, it will help avoid confusion and clearly distinguish the Applied Engineering program from Engineering Technology programs, ensuring that students, faculty, and external stakeholders understand the specific focus and outcomes of the program.

Impact on other Units No impact on other units.

Changing a subject code requires full approval. ***New subject codes will be temporarily available in Curriculog before full approval, and will only be permanently available after full approval.***

A new subject code must be verified for use before it can be used for new courses. This is done by completing the New Prefix/Subject Code form. The Curriculum and Catalog Management team (CCM) will research the availability of subject codes, suggest alternatives if necessary, and create a new subject code in the system for use on course forms.
Fill out Drop Course forms for courses that will no longer be active under either subject code.
Fill out Add Course forms for new courses to be active under the new subject code.
Fill out Revise Course forms to revise courses impacted by prefix changes/showing the old prefix if it was replaced by a new prefix through an equivalency.
Fill out Revise Course (Dynamic Changes) forms *and* include equivalent courses listed in this form's equivalency table.
If the course that is being dropped carries a Vol Core designation, the department must notify the Vol Core Committee asking that the equivalent course carry the same designation.
If the old course had attached fees, then the fees for the new course will need to be approved by the Office of Budget and Finance. Please contact the Bursar's Office with any questions about these fees. *Approval of fees is not automatic.*
If cross-listed courses are included, all departments affected by the change must be informed so they may update their own courses.

New Prefix/Subject Code* MEDS

Full name of New Prefix/Subject Code* Medical Science

Equivalency Table* No existing courses.

Rationale This is a new subject code for courses that will be developed as part of an interdisciplinary Medical Science program.

Impact on other Units None.

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?

Instructions for Subject Changes

Changing a subject code requires full approval. *New subject codes will be temporarily available in Curriculog before full approval, and will only be permanently available after full approval.*

A new subject code must be verified for use before it can be used for new courses. This is done by completing the New Prefix/Subject Code form. The Curriculum and Catalog Management team (CCM) will research the availability of subject codes, suggest alternatives if necessary, and create a new subject code in the system for use on course forms.
Fill out Drop Course forms for courses that will no longer be active under either subject code.
Fill out Add Course forms for new courses to be active under the new subject code.
Fill out Revise Course forms to revise courses impacted by prefix changes/showing the old prefix if it was replaced by a new prefix through an equivalency.
Fill out Revise Course (Dynamic Changes) forms *and* include equivalent courses listed in this form's equivalency table.
If the course that is being dropped carries a Vol Core designation, the department must notify the Vol Core Committee asking that the equivalent course carry the same designation.
If the old course had attached fees, then the fees for the new course will need to be approved by the Office of Budget and Finance. Please contact the Bursar's Office with any questions about these fees. *Approval of fees is not automatic.*
If cross-listed courses are included, all departments affected by the change must be informed so they may update their own courses.

New Prefix/Subject Code* VIS

Full name of New Prefix/Subject Code* Visual and Interactive Storytelling

Equivalency Table* None; prefix doesn't exist.

Rationale Creating a new prefix to develop courses for our IDP, Visual and Interactive Storytelling Concentration launched in fall 2025.

Impact on other Units None

Arts and Sciences Originators Only

Which CAS Committee(s) will be involved in this proposal?
- [x] Arts and Humanities
- [x] Natural Sciences

General Catalog Information

College* Tickle College of Engineering

Department (Acalog Hierarchy)* Mechanical and Aerospace Engineering

Subject/Prefix (choose from list)* AE

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 347

Course Title (max 100 characters)* Honors: Fluid Mechanics

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description Honors version of AE 341. Students will attend AE 341 classes with supplementary assignments.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) ME 231 with a grade of C or better and MATH 241 or MATH 247 with a grade of C or better.

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s) Aerospace, biomedical, mechanical, or biosystems engineering major. Students in any honors program.

Registration Permission

Equivalency

Rationale* Clarifying that honors section of MATH 241 is valid prerequisite.

Course Description

This course introduces engineering students to industrial manufacturing operations and practices. Students learn the fundamental processes that serve as the foundation for their four-year program.

The course covers blueprint reading, measurement and design, additive and subtractive manufacturing, composites, casting and forging, injection molding, and automation. Students gain hands-on experience with manufacturing methods and understand how processes work together in production environments.

This course builds essential knowledge for advanced coursework and prepares students for manufacturing careers.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

Credit Hours* 3

Course Description This course introduces engineering students to Computer Aided Design programs and the design process. Students learn CAD fundamentals including model creation, assemblies, drawings, and project scope techniques. Students work on real-world components and challenges to develop their design and manufacturing skills.

The course covers isometric drawing designs and tolerances, CAD model creation, dimensioning and parameterization, assembly models and animations, project scope and applications, material selection and mass analysis, derived versus customer requirements, and design project presentations. Students gain practical experience with industry-standard CAD software and understand how design decisions impact manufacturing processes.

This course builds foundational design skills for advanced coursework and prepares students for engineering careers in design and manufacturing.

Credit Hours* 3

Course Description This course introduces engineering students to static and dynamic mechanics through scalar and vector approaches. Students learn to analyze external forces in mechanical systems including point masses, rigid bodies, and simple mechanisms. Students apply course concepts to real-world situations and problems such as mechanisms, bolt patterns, and robotic arms.

The course covers scalar and vector analysis of forces and moments, calculation of properties for planar sections and masses, work and energy concepts in dynamic systems, engineering problem solving, and documentation of engineering calculations. Students develop analytical skills and gain experience solving practical engineering problems using fundamental mechanics principles.

This course builds essential mechanics knowledge for advanced coursework and prepares students for engineering careers requiring force and motion analysis.

Credit Hours* 3

Course Description This course introduces engineering students to stress, strain, and deformation of materials and their application in designing parts and systems. Students develop understanding of fundamental concepts including force, reaction force, stress, strain, and deformation in solid materials under different loading conditions.

The course covers drawing free body diagrams and understanding equilibrium conditions of solid objects under various loads, calculating and analyzing normal and shear stress and strain in materials under axial, torsional, and bending loads, and introduction to solution methods for complex mechanics problems such as finite element analysis. Students develop critical thinking skills and apply mechanics principles to real engineering design problems. Students will be expected to perform experimental studies on materials to determine comparison to theoretical approximations.

This course builds essential materials knowledge for advanced coursework and prepares students for engineering careers requiring structural analysis and design.

Course Description This course introduces engineering students to Computer Aided Manufacturing programs and Computer Numerically Controlled machines. Students learn to program and operate different levels of machinery while understanding conceptual, design, and theoretical elements of manufacturing processes.

The course covers 3-axis milling, turning operations, 2-D manufacturing processes, manufacturing scopes and budgets, vibrations and frequency response functions, and production planning and rationale. Students gain hands-on experience with CNC equipment and develop skills in manufacturing programming, machining operations, and production management.

This course builds essential manufacturing knowledge and prepares students for engineering careers requiring CNC programming and manufacturing operations.

Rationale* This is a new course in our new department. "The Network is the Computer" was a battle cry of high-tech industry in the 1990s and it has never been more true than today. Almost all applications and services that run on computers require some kinds of connectivity, either WiFi, Bluetooth, network access and network services such as Time Protocol, name resolution and use common services and protocols. Students need to understand and build small labs to demonstrate knowledge of these solutions.

i have spoken to the Computer Science Undergraduate committee and they have expressed an interest in this class, as an "introduction" to networking and as a compliment to their program but have not taken official action at this time.

So, i've done my homework on this need and I feel that this class will be an excellent addition to the College of Engineering.

Credit Hours* 3

Course Description

Topics covered in this course include discrete sets, command line and graphical debugging, deductive logic, problem-solving, logic and proofs, induction, recursion, and relations.

Analytical and Logical based strategies for solving larger system failures, management plans, debugging, system logging analysis and root cause analysis.

We intend that students will develop a sense of curiousity from this course, the ability to find system failures and a methodology they can apply to problem solving in their world.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture Lab

Contact Hour Distribution (if more than one instructional method) 2 hours lecture, 1 hour of Lab

Course Description

This course introduces engineering students to metrology, the study of measurements, expanding on prior design coursework. Students learn industry practices and standards using both physical and digital measurement techniques based on current manufacturing requirements.

The course covers Geometric Design and Tolerancing, tolerance dimensioning, CMM probing using Zeiss Calipso, surface profilometer operation, 3D structured light scanning, ISO GUM and measurement uncertainty, and industrial gaging and measurement practices. Students gain hands-on experience with precision measurement equipment and develop skills in quality control and dimensional analysis.

This course builds essential metrology knowledge for advanced coursework and prepares students for engineering careers requiring precision measurement and quality assurance.

Course Description

This course introduces engineering students to electrical signal processing and electrical circuit systems. Students learn industrial electrical manufacturing standards and data acquisition for real-time signals using both physical and digital measurement techniques based on industry practices and standards.

The course covers PCB board design and implementation, analog and digital data acquisition, circuit design and theory, signal processing fundamentals, Internet of Things implementation, and programmable logic controllers using Rockwell Automation Studio 5000. Students gain hands-on experience with industry-standard tools and develop skills in electrical system design and signal analysis.

This course builds essential electrical knowledge for advanced coursework and prepares students for engineering careers requiring electrical circuit design and signal processing.

Course Description

This course introduces engineering students to applied control systems with emphasis on root locus analysis and efficiency tuning of electric motors and mobile systems. Students learn control theory fundamentals and apply them to real-world motor control and mobile platform applications through extensive laboratory work and hands-on projects.

The course covers root locus design methods, control system stability analysis, electric motor control and tuning techniques, mobile system dynamics and control, efficiency optimization strategies, and performance evaluation of controlled systems. Students gain hands-on experience with control system design software, work directly with electric motors and drive systems, implement control algorithms on mobile platforms, and conduct real-time system tuning and performance optimization using industry-standard equipment and measurement tools.

This course builds essential control systems knowledge and prepares students for engineering careers requiring motor control and mobile system design.

Course Description

This course introduces engineering students to industrial automation and robotics, expanding on prior design and electrical coursework. Students learn industry-based software and hardware applications through hands-on laboratory components based on current industry practices and standards.

The course covers PLC programming and hardware setup using Rockwell Automation Studio 5000, motor driven applications and assembly lines, industrial robotics cell setup and programming using KUKA PRC and Rhino Grasshopper, industrial safety standards and programming, sensor implementation and system integration, and project team deliverables with implementation of electromechanical systems. Students gain practical experience with automation equipment and develop skills in robotic programming and system integration.

This course builds advanced automation knowledge and prepares students for engineering careers requiring robotics and industrial automation expertise.

2026-2027 UG Revise Course (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Course (Dynamic Changes) form is to be used for changing the course number, subject code, and/or the department where the course is offered.

All other routine revisions to course requirements can be included in this form. Do not submit a duplicate Revise Course proposal while this form is in the submission and approval process.

College* Tickle College of Engineering

Department (Acalog Hierarchy)* Applied Engineering and Technology

Subject/Prefix (choose from list)* APPE

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 331

Course Title (max 100 characters)* Introduction to Cloud Computing

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ◉ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description This course provides an introduction to cloud computing concepts, architectures, and services for students. Topics include cloud service models (IaaS, PaaS, SaaS), deployment models (public, private, hybrid), virtualization, scalability, and resource management. Students will gain hands-on experience with major cloud platforms, learning to design, deploy, and manage applications in the cloud. Emphasis is placed on integrating cloud services into software engineering workflows, including best practices for security, cost optimization, and performance. By the end of the course, students will be equipped to leverage cloud technologies effectively in real-world software development projects

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lab, Lecture

Contact Hour Distribution (if more than one instructional method) 2 hours lecture and 2 hour lab

Course Description

This capstone course provides engineering students with a comprehensive project experience that integrates all Applied Engineering Manufacturing coursework. Students work in teams on simulated industrial solutions and develop physical prototypes, simulated responses, and industrial documentation while maintaining professional standards for project deliverables and scope management.

The course covers system manufacturing and programming, industrial robotic cell setup and programming, industrial safety programming with sensor implementation and cell manufacturing, project scope management and deliverable updates, and project team deliverables with economic analysis. Students gain experience managing complex engineering projects from concept to completion while working with industry sponsors and following professional engineering practices.

This capstone course demonstrates mastery of manufacturing knowledge and prepares students for engineering careers requiring project management and integrated manufacturing solutions.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

Course Description This course introduces engineering students to the manufacturing and application of mechanical systems. Students focus on designing mechanical systems with real-time physics-based applications and learn to analyze system performance under operating conditions.

The course covers design and manufacturing of gears, motor shafts, tie rods, and other mechanical systems, fatigue and FEA analysis on components, time and frequency domain analysis of mechanical systems, motor and automation laboratory work, and digital twin modeling and data collection. Students gain practical experience with mechanical design software and develop skills in system analysis and performance optimization.

This course builds advanced mechanical systems knowledge and prepares students for engineering careers requiring mechanical design and analysis.

Course Description This course explores advanced concepts, architectures, and practices in modern cloud computing. Students examine distributed systems at scale, multi-cloud and hybrid deployments, serverless architectures, container orchestration, cloud-native application design, and emerging technologies such as edge computing and AI-driven cloud services. Emphasis is placed on scalability, reliability, performance optimization, cost efficiency, and security in enterprise cloud environments. Through case studies and hands-on projects, students will apply advanced tools and frameworks to design, deploy, and manage complex cloud-based systems.

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 462

Course Title (max 100 characters)* Turbines and Photovoltaics Laboratory

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ◉ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description Renewable energy production via fluid turbines and solar conversion. Material considerations, production variability, integration with energy storage, and integration with grid-based power distribution. Microgrids and conventional grid influences on generation-storage technologies.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lab, Lecture

Contact Hour Distribution (if more than one instructional method) 2 hours lecture, 2 hours lab

Registration Restriction(s)

Registration Permission

Equivalency* APPE 490 replaces EF 463, previously ECE 463.

Rationale* This undergraduate course was previously ECE 463 under EECS, was transferred to EF 463, and now being transferred to course APPE 490.

Course content justify's new oversight of APPE since almost 90% of the course materials are directly in the field of Fire Protection Engineering (FPE), which concerns NFPA, ICC, DOE, NRC, ISO, ASTM, ASHRAE, and related fire codes and standards.

APPE 463 will be under oversight of the FPE program, which presently has the Graduate Certificate in Fire Protection Engineering.

Prefix name is changed from EF to APPE.to reflect this new department ownership.

ISE Department will be notified of the course numbering change to APPE 490 since it is a course requirement for their Minor in Data Center Management.

Impact on Other Units* None.

Impact Report for EF 463.

Tickle College of Engineering - Applied Engineering and Technology - Applied Engineering Major, BS in Engineering - Manufacturing Engineering Concentration

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* Tickle College of Engineering

Department* Applied Engineering and Technology

Program Name* Applied Engineering Major, BS in Engineering - Manufacturing Engineering Concentration

Degree Type* Bachelor of Science in Engineering

Program Type* Concentration

Description The BS in Engineering program is structured to address the dynamic needs of modern industries in TN, offering four concentrations in manufacturing, aerospace, energy conversion and storage, and computer science. This program, which consists of over 120 credit hours, includes Vol Core requirements, engineering fundamental courses, soft skills, project-based practicum courses, and engineering courses emphasizing hands-on training to attain learning outcomes. Designed to be more accessible and practical, the curriculum reduces the traditional calculus requirement, opting instead to build calculus competency through project work, simulations, experimentation, and practice. This innovative approach ensures that students acquire essential mathematical skills in a context that directly relates to engineering applications. The program will be delivered face-to-face to provide students with the essential hands-on training necessary for applied engineering.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Timing of Co-op can be changed to accommodate schedule. AET will offer "in-house" co-ops for those unable to find external co-ops.
This track can earn the Reliability and Maintainability Engineering Minor with STAT 251, IE 300, IE 340, ME 483, and ME 484
Technical electives must be 300-level or above courses within APPE, ME, AE, BME, MSE, IE, or EF departments.
Material science elective must be either MSE 340, MSE 360, or MSE 390.

* Meets Volunteer Core Requirements.

Rationale* Courses are changing to reflect the current APPE developments and changes in ciriculum based on new faculty and department chair.

As for the name change, We are changing from "Manufacturing" to "Manufacturing Engineering" to incorporate Engineering into the concentration similar to Software and Aerospace Engineering concentration name changes.

Financial Impact* No Impact

Impact on Other Units: N/A

2026-2027 UG Revise Program (Dynamic Changes)

General Catalog Information

Important Note:

This Revise Program (Dynamic Changes) form is to be used for the following revisions:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**
- **The catalog and curriculum team may recommend the use of this form instead of the regular Revise Program form for other impactful THEC and/or coding changes.**

All other routine revisions to program requirements can be included in this form. Do not submit a duplicate Revise Program proposal while this form is in the submission and approval process.

College* Tickle College of Engineering

Department* Applied Engineering and Technology

Program Name* Applied Engineering Major, BS in Engineering - Software Engineering and Infrastructure Concentration

Degree Type* Bachelor of Science in Engineering

Program Type* Concentration

Description The BS in Engineering program is structured to address the dynamic needs of modern industries in TN, offering four concentrations in manufacturing, aerospace, energy conversion and storage, and software engineering. This program, which consists of over 120+ credit hours, includes Vol Core requirements, engineering fundamental courses, soft skills, project-based practicum courses, and engineering courses emphasizing hands-on training to attain learning outcomes. Designed to be more accessible and practical, the curriculum maintains the traditional engineering calculus requirements, and enhances student applied math competency through project work, simulations, experimentation, and practice. This innovative approach ensures that students acquire essential skills in a context that directly relates to engineering applications. The program will be delivered face-to-face to provide students with the essential hands-on training necessary for applied engineering.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To edit modality, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "campus code" shared core to replace the existing "campus code" shared core.**

Certificate Type **To edit certificate type, open the "View Curriculum Schema" tab below in the Requirements field. Import the desired "certificate type" shared core to replace the existing "certificate type" shared core.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

In addition to program requirement revisions, indicate all dynamic changes made in this proposal:*

- [x] Program Name
- [ ] Department
- [ ] Add or remove an embedded program (i.e. concentration, honors, 5-year)
- [ ] Modality (campus code)
- [ ] Certificate Type
- [ ] Other (include in Rationale)

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

Social Sciences (SS) Elective 3 *Credit Hours* *

COSC 101 Introduction to Programming
ENGL 101* English Composition I
[Right] (or equivalent)
MATH 141* Calculus I
[Right] (or equivalent)

EF 151* Physics for Engineers I

Credit Hours 17

Term 1 Milestone Notes

One course from:

Arts and Humanities (AH) Elective 3 *Credit Hours* *
Global Citizenship - International (GCI) Elective 3 *Credit Hours* *
Global Citizenship - United States (GCUS) Elective 3 *Credit Hours* *
Social Sciences (SS) Elective 3 *Credit Hours* *

Term 2

Arts and Humanities (AH) Elective 3 *Credit Hours* *

COSC 103 Introduction to Computer Science
COSC 104 Introduction to Computer Science Laboratory
ENGL 102* English Composition II
[Right] (or equivalent)
MATH 142* Calculus II
[Right] (or equivalent)

EF 152* Physics for Engineers II

Term 8 Milestone Notes

No milestones

Total Credit Hours 126

Footnotes

ACS Electives:
BAS 320 – Regression Modeling (3)

BAS 474 – Data Mining and Business Analytics (3)

BAS 475 – Applied Time Series and Forecasting (3)

BAS 476 – Data Engineering and Visualization (3)

BCMB 422* – Computational Biology and Bioinformatics (3)

BCMB 424 – Programming for Statistical and Graphical Analysis of Biological Data (3)

COSC 420 – Biologically-Inspired Computation (3)

COSC 445 – Fundamentals of Digital Archelogy (3)

COSC 452 – Computer Graphics (3)

COSC 466 - Software Security (3)

COSC 469 – Human Factors in Cybersecurity (3)

COSC 483 – Applied Cryptography (3)

IE 465 - Applied Data Science

INSC 311 – User Centered Design (3)

INSC 380* – Information Management in Organizations (3) [VolCore AOC]

INSC 430 – Foundations of User Experience (3)

INSC 435 – Usability Testing and Methods (3)

INSC 436 – Analytics and Metrics for User Experience (3)

INSC 439 – Interfaces and Interaction Design (3)

INSC 384 - Database Design (3)

INSC 484 – Database Applications (3) [INSC 384 is required for program and COSC 202 should count for INSC 260 Pre-req]

INSC 489 – Information Visualization (3) [COSC 202 should count for INSC 260 Pre-req]

GEOG 311 – Geovisualization and Geographic Information Science (3)

GEOG 411 – Intermediate Geographic Information Science (3)

GEOG 414 – Spatial Data Management (3)

GEOG 422 – Geographic Sofware Design (3)

TCHE 353 - Co-Op Experience in Engineering

* Meets Volunteer Core Requirements.

Rationale* This is the launch of the new concentration called Software Engineering in the new Applied Engineering Department.

Additional rationale provided from the college for THEC reporting:
In order to have the entire program be accredited by ABET/EAC - it should be changed to "**Software Engineering**". If it remains **"Applied Computer Science"** it would have be ABET/CAC accredited like Computer Science. The name change allows EAC level accreditation.

Financial Impact* none

Impact on Other Units* no changes outside of TCE, so there is no impact

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

For new majors: indicate the type of change
- ○ New major name and new CIP code (requires THEC approval)
- ○ New major name and keeping the same CIP code

CIP Code* 09.14.0103.00

Arts and Sciences Originators Only

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Biomedical Engineering

Program Name* Biomedical Engineering Major, BS in Biomedical Engineering

Degree Type* Bachelor of Science in Biomedical Engineering

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The biomedical engineering curriculum integrates selected engineering sciences and design methods with life science coursework. The program prepares students for careers in a variety of health care related professions including work for medical device manufacturers and regulatory governmental agencies. The course content of the biomedical engineering curriculum complements the departmental strengths in mechanical engineering and includes a comprehensive coverage of engineering materials and biomechanics applications. Elective courses are available to allow students to specialize their curriculum to areas of particular current interest in the marketplace such as cellular and tissue engineering applications. The biomedical engineering program also allows students to take medical school admission requirements with an appropriate selection of technical electives.

PROGRESSION POLICIES AND REQUIREMENTS

Progression

The first two years of the curriculum are considered to be lower-division and the two remaining years upper-division. Students must apply for progression to departmental upper-division courses, which depends on academic performance. Factors considered include overall grade point average, performance in selected lower-division courses and evidence of orderly progression through the prescribed curriculum.

Full Status

A lower-division student may apply for progression to upper-division after completing EF 152* or EF 158*, or CHEM 122* and CHEM 123* or CHEM 128*, MATH 231, ME 202, ME 231, and ME 321, with a grade of C or better in each, and an overall GPA of at least 2.4 in these courses. Students who have not satisfied the requirements for full status will be dropped from departmental class rolls in upper-division courses.

Provisional Status

Students who have completed EF 152* or EF 158*, CHEM 122* and CHEM 123* or CHEM 128*, MATH 231, ME 202, ME 231 and ME 321, with a grade of C or better and have a GPA between 2.0 and 2.4 in these courses may apply for provisional status. The granting of provisional status is based on the availability of space in departmental programs after full status students have been accommodated. Provisional status students are required to demonstrate their ability to perform satisfactorily in upper-division by attaining a minimum GPA of 2.0 in the first 12 hours of 300-level required engineering courses. Award of upper-division full status is dependent upon this performance. Students with a UTK GPA less than 2.0 will not be admitted to upper-division. Students who have not progressed to upper-division will be dropped from departmental class rolls in upper-division courses.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Credit Hours 15

Term 8 Milestone Notes

No milestones

Total Credit Hours 128-129

Footnotes

Choose any course from the Volunteer Core list.
Technical Elective: Must be preapproved based on selected Track (see footnote 5 below).
Biomedical Engineering Elective: Restricted to any 300-500 biomedical engineering course not required for the degree.
There are (4) Tracks in the BME Undergraduate Program: (1) Diagnostics, (2) Medical Device Design, (3) Therapeutics, and (4) Pre-Med. The technical or biomedical engineering elective courses for each Track are:

Diagnostics Track

[Before] Nine hours from:
BME 494 Special Project in Biomedical Engineering
BME 480 Computational Cell Biology
MATH 405* Models in Biology
[After]
MATH 300 Introduction to Abstract Mathematics
[Right] or
MATH 307 Honors: Introduction to Abstract Mathematics
[After] and
MATH 323 Probability and Statistics
[After] and
ECE 472 Introduction to Digital Image Processing
[After]
ECE 315 Signals and Systems I
[Right] and
ECE 316 Signals and Systems II
[Right] and
ECE 415 Automatic Control Systems
[After]
ECE 202 Circuits II
[Right] and
ECE 335 Electronic Devices
[After]
BIOL 159* Skills of Biological Investigation
[Right] and
BCMB 415 Foundations in Neurobiology
[Right] and
BCMB 416 Neurobiology Laboratory

Medical Device Design Track

[Before] Nine hours from:
BME 494 Special Project in Biomedical Engineering
ME 331 Thermodynamics
ME 405 Mechatronics
ME 451 Control Systems
ME 457 Engineering Entrepreneurship
[After]
BIOL 159* Skills of Biological Investigation
[Right] and
BCMB 415 Foundations in Neurobiology
[Right] and
BCMB 416 Neurobiology Laboratory
[After]
ECE 202 Circuits II
[Right] and
ECE 335 Electronic Devices
[After]
MSE 201 Introduction to Materials Science and Engineering
[Right] or
MSE 207 Honors: Introduction to Materials Science and Engineering
[After] and
ME 366 Computer Aided Engineering and Manufacturing
[After]
[Before] ME 366 - Computer Aided Engineering and Manufacturing **3** *Credit Hours* **and**

ME 469 Principles of Additive Manufacturing
[After]
[Before] ME 366 - Computer Aided Engineering and Manufacturing **3** *Credit Hours* **and**

ME 470 Computer Aided Design

Therapeutics Track:

[Before] Nine hours from:
BCMB 461 Cancer Biology
BME 405 Introduction to Drug Delivery
BME 409 Cell and Tissue Engineering
BME 486 Cell and Tissue-Biomaterials Interaction
BME 494 Special Project in Biomedical Engineering
MICR 330 Immunology
[After]
BCMB 401 Biochemistry I
[Right] and
[After] CHEM 260 - Foundations of Organic Chemistry **3** *Credit Hours* **and**

CHEM 360 - In-depth Organic Chemistry **3** *Credit Hours*

BIOL 159* Skills of Biological Investigation
[Right] and
BCMB 415 Foundations in Neurobiology
[Right] and
BCMB 416 Neurobiology Laboratory
[After]
CHEM 260 Foundations of Organic Chemistry
[Right] or
CHEM 268 Honors: Foundations of Organic Chemistry
[After] and
CHEM 360 In-depth Organic Chemistry
[Right] or
CHEM 368 Honors: In-depth Organic Chemistry
[After] and
CHEM 359 In-depth Organic Chemistry Laboratory
[After]
NE 433 Principles of Health Physics
[Right] and
NE 490 Radiation Biology
[After]

Pre-Med Track

BME 494 Special Project in Biomedical Engineering
[After]
BIOL 150* Organismal and Ecological Biology
[Right] and
BIOL 159* Skills of Biological Investigation
[After]
CHEM 260 Foundations of Organic Chemistry
[After] or
CHEM 268 Honors: Foundations of Organic Chemistry
[Right] and
CHEM 269 Foundations of Organic Chemistry Laboratory
[Right] and
CHEM 359 In-depth Organic Chemistry Laboratory
[Right] and
CHEM 360 In-depth Organic Chemistry
[After] or
CHEM 368 Honors: In-depth Organic Chemistry
[Right] and
BIOL 240 General Genetics
[After]
BCMB 401 Biochemistry I

[After] CHEM 260 - Foundations of Organic Chemistry **3** *Credit Hours*

CHEM 360 - In-depth Organic Chemistry **3** *Credit Hours*

[After]

*** Meets Volunteer Core Requirements.**

Biomedical Engineering Major – Honors Concentration

In addition to satisfying the requirements for the biomedical engineering major, candidates for the honors concentration must also complete the following requirements.

Maintain an overall GPA of 3.4.

Four 100- or 200-level honors courses* (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 207).

Complete two upper-division honors courses in biomedical engineering (BME 367, BME 477).

Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

*	**While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.**

Biomedical Engineering Major – Five-Year BS/MS Program

The department offers a Five-Year BS-MS program for qualified students. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 64 hours of required course work while full admission is granted after completing 96 hours of required course work with a minimum overall GPA of 3.4 in required course work.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. All courses taken for graduate credit must be approved by the departmental chair of the program. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit. Students admitted to the program must also follow the normal procedure for admission to the Graduate School.

Admission of students into this program must be approved by the department and the Graduate School.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

*** Meets Volunteer Core Requirements.**

Rationale*

Change 1 - BME 450 has been approved as a Vol Core Oral Communication elective. The generic OC Elective requirement can therefore be removed as it no longer satisfies any degree requirement.

Change 2 - Students who take organic chemistry in place of a BME elective may be at risk of not meeting the minimum engineering credits required by ABET. The option to take organic chemistry as a BME elective has been removed.

Financial Impact*

Change 1 - Minor to any one unit since OC electives are taught among many units.

Change 2 - None. Students may still take organic chemistry as a technical elective.

Impact on Other Units*

Change 1 - Minor to any one unit since OC electives are taught among many units.

Change 2 - None. Students may still take organic chemistry as a technical elective.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ◉ No ○ No Impact

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Last year we approved a new and more flexible curriculum structure that reduces three CBE core courses from 4 to 3 credit hours and incorporates more technical electives. Most students following this new catalog will take CBE 240 for the first time in Fall 2026, so it is time to reduce the credit hours. Course learning objective details have been adjusted for this and the follow-on course CBE 340 for next year, but the description will not change.

Course Description This course serves as a comprehensive review of the major topics in preparation for the Fundamentals of Engineering Exam for Chemical Engineers. Major topics covered include probability, chemistry, biology, material and energy balances, thermodynamics, fluid mechanics, heat and mass transfer, separation technologies (including solids handling), reaction engineering, process control, process economics, health and safety, and engineering ethics. The focus of the course lies in reviewing content through in-class problems and test taking strategies to support preparing for the FE Exam.

Statement about Crosslistings:

Course Description Develop approaches to solve industrial problems using principles of chemical engineering. Topics will include process modeling, debottlenecking/expansion studies, industrial equipment, inherently safer design, and presentation of technical information to various audiences in the professional environment. The course uses a mixture of traditional lectures and problem-based learning formats. This is an excellent course to complement the senior design capstone course for those looking to pursue an industrial career path.

Statement about Crosslistings:

Credit Hours* 3

Course Description This course will offer a broad overview of the principles of rheology and how they can be applied to characterize the mechanical properties and microstructure of soft materials. The term "soft materials" encompasses all materials which can easily be deformed, including polymers, emulsions, foams, gels, and biological fluids and tissues. Students will become familiar with the peculiar flow characteristics of non-Newtonian fluids and learn how to interpret and design rheological experiments to analyze different types of soft materials. Prior knowledge of polymers or rheology is not required and participants from any discipline are welcome, although a background in differential equations and organic chemistry will be helpful.

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* CE262 is changed from a prerequisite to a corequisite. This change provides students flexibility to take concentration labs slightly earlier. Beneficial outcomes include 1) to help students be better prepared for senior design (if they had taken the design elective in their concentration); and 2) to also help the advisors to ensure that transfer students are able to have a full schedule.

Tickle College of Engineering - COSC - 102

2026-2027 UG Drop/Archive Course

General Catalog Information

College* Tickle College of Engineering

Department (Acalog Hierarchy)* Electrical Engineering and Computer Science

Subject/Prefix (choose from list)* COSC

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 102

Course Title (max 100 characters)* Introduction to Computer Science

Credit Hours* 4

Change course status from active to:* Dropped / Archived

Course Description Modular programming in an object-oriented programming language, including string and vector manipulation, file I/O, bit operators, Boolean algebra, pointers, simple sorting and binary search, plus introductions to recursion and templates.

Satisfies Volunteer Core Requirement:

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency Newly added courses COSC 103 and COSC 104, as RE co-requisite to each other, will be equivalent to the archived COSC 102.

Rationale* The purpose is to split the lecture and lab of the 4-credit-hour course COSC 102 into two courses: 3-credit-hour course COSC 103 for lecture and 1-credit-hour course COSC 104 for lab. The distribution of the present 4 credit hours of COSC102 is 3 hours lecture and 1 lab. The new courses to be added, courses COSC 103 and COSC 104, are RE co-requisite to each other.

Impact on Other Units*

Tickle College of Engineering - COSC - 303

2026-2027 UG Add Course

General Catalog Information

College* Tickle College of Engineering

Department (Acalog Hierarchy)* Electrical Engineering and Computer Science

Subject/Prefix (choose from list)* COSC

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 303

Course Title (max 100 characters)* Algorithms

Experience Learning Designation
- ( ) N (Internship)
- ( ) R (Research)
- ( ) S (Service Learning)

For N/R/S base courses, should this course be:
- ( ) Active
- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 3

Course Description Design, analysis, and implementation of fundamental data structures and algorithms including list and tree-based sorting, graph algorithms and dynamic programming.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) COSC 202 with a grade of C or better.

Variable Title?*
- Yes
- No

Credit Hours* 3

Course Description Special project in area of student's primary interest. Directed by a faculty advisor. Intended for students with a specific project to pursue in conjunction with a faculty member. Project may be from a department other than computer science, in which case a faculty member from the appropriate department will help oversee the project.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Research

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability May be repeated. Maximum 6 hours.

Credit Restriction Maximum of 6 hours may be applied toward the major between this course and COSC 493 - Independent Study

Registration Enforced (RE) Prerequisite(s)

Tickle College of Engineering - Civil and Environmental Engineering - Environmental Engineering Major, BS in Environmental Engineering

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Civil and Environmental Engineering

Program Name* Environmental Engineering Major, BS in Environmental Engineering

Degree Type* Bachelor of Science in Environmental Engineering

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Progression Policies and Requirements

First Year students are required to be advised every semester. Students are required to maintain a cumulative grade point of at least 2.0 in all engineering courses taken at the University of Tennessee, Knoxville, used to satisfy the graduation requirements. No more than four credit hours of civil and environmental engineering courses in which a C– or lower is the highest grade earned may be counted toward graduation.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

EF 105 Computer Methods in Engineering Problem Solving
ENGL 101* English Composition I
[After]
[Right] (or equivalent)
[Before]Choose separate lecture and lab or honors lecture/lab combined:

ENVE 458 Honors: Solid and Hazardous Waste Management

Credit Hours 16

Term 8 Milestone Notes

No milestones

Total Credit Hours 127-129

Footnotes

ENGL 118* – Students receiving a passing grade below B in ENGL 118* will complete the English Composition requirement by taking ENGL 102*. Students receiving a grade of B or above will complete their freshman English requirements by choosing ENGL 102*, a sophomore-level course in the English Department, or ENGL 355*.
Must be approved by the Department. Please see the CEE website for a pre-approved list of courses.

Environmental Engineering Major – Honors Concentration

In addition to satisfying the requirements for the environmental engineering major, candidates for the honors environmental engineering concentration must also complete the following requirements:

Maintain a 3.4 cumulative GPA.
Four 100- or 200-level honors courses (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 117 - Honors: Materials Chemistry or MSE 207).**
Complete two upper-division honors courses in environmental engineering (ENVE 458, ENVE 477, ENVE 487, ENVE 497, ENVE 498).
Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

****While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.**

Environmental Engineering Major – Five-Year BS/MS Program

The department offers a Five-Year BS/MS program with a BS (major in environmental engineering) and MS (major in civil engineering or environmental engineering) for qualified students. The primary component of the program is that qualified students may take up to 6 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. Significant components of the program are:

Students must have an overall GPA of 3.4 in required coursework. Conditional admission to the five-year program may be granted after completion of 65 hours of required coursework, while full admission may be granted after the completion of 96 hours of required coursework with a minimum GPA of 3.4.

Admission must be approved by the department and the Graduate School.

Students must at least be conditionally admitted to the program prior to taking courses that receive credit for both the BS and MS degrees. All courses taken for graduate credit must be approved by the graduate program director. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit. Students admitted to the program must also follow the normal procedure for admission to the Graduate School.

Students will not be eligible for assistantships until they are enrolled as graduate-level students in the Graduate School.

*** Meets Volunteer Core Requirement. All electives must be pre-approved by the advisor and the department head.**

Rationale* EF 305 is a required course in the Department of Civil and Environmental Engineering (CEE) Environmental Engineering BS curriculum. This course has been taught by CEE faculty members and is expected to continue into the future. In order to provide the ability to directly manage the class schedule by CEE faculty and respond to student needs directly, the administration of this course will be changed to CEE. To accomplish this, the following steps will be taken: 1) a new course ENVE 315 will be created with the same course name and content; 2) EF 305 will be changed to EF 315; 3) ENVE 315 will cross list with EF 315.

Accordingly, EF 305 will be removed from the Environmental Engineering BS curriculum courses and replaced with ENVE 315. In the schema, ENVE 315 is added to Term 4 while EF 305 is removed from Term 4.

Financial Impact* None

Impact on Other Units* None

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* Need to drop the co-requisites as the course can be taken in the first or second semester and not just the second semester. There needs to be flexibility in semester, due to space/instructor limitations, to ensure all students can take the course within the course of their first year.

Impact on Other Units* This should not impact other units or course progression for students.

Registration Restriction(s)

Registration Permission

Equivalency* EF 305

Rationale* This is a college-wide course currently administered by Engineering Fundamentals. It is also a required course in the ENVE curriculum and for the Engineering Sustainability minor. To date, the course has been taught by CEE faculty members and is expected to continue into the future. Changing the administration of this course to CEE would provide the ability to directly manage the class schedule by CEE faculty and respond to student needs directly. To accomplish this, the following steps will be taken: 1) a new course ENVE 315 will be created with the same course name and content; 2) EF 305 will be changed to EF 315; 3) ENVE 315 will cross list with EF 315.

Impact on Other Units*

Impact Report for EF 305.

Source: WORKING 2026-2027 Undergraduate Catalog	
Registration Restriction(s):	EF 305 - Engineering Approaches to Sustainability
Programs	Applied Engineering Major, BS in Engineering - Energy Conversion and Storage Concentration
	Energy Policy for Engineers Certificate
	Engineering for Sustainability Minor
	Environmental Engineering Major, BS in Environmental Engineering
	Industrial Engineering Major, BS in Industrial Engineering
	Materials Science and Engineering Major, BS in Materials Science and Engineering - Materials for Sustainable Energy Concentration

No impact on teaching load at CEE or EF. No impact on students. ENVE315 will be added as a new course with the same course structure as EF305. EF305 will be re-numbered as EF315. ENVE 315 will serve as the primary course and cross list EF 315. For the Engineering Sustainability minor, the original listing of EF 305 will be changed to "ENVE 315 or EF 315".

Financial Impact* None

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Electrical Engineering and Computer Science

Program Name* Computer Engineering Major, BS in Computer Engineering

Degree Type* Bachelor of Science in Computer Engineering

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students may choose from a wide spectrum of courses covering various aspects of computer engineering, computer science, electrical engineering, and related fields.

Progression Policies and Requirements

The department requires at least a C in every computer engineering, computer science, electrical engineering, and mathematics course used for the undergraduate degrees.

Progression of departmental undergraduate students to the upper-division programs of the department is competitive and is based on the space available in the department. Factors considered in the decision include overall grade point average, grades earned in courses required in the lower-division curricula of the department and Tickle College of Engineering, and seriousness of purpose and interest in departmental programs as exemplified by regular and orderly progress through the prescribed curriculum without abuse of withdrawal and course repeat privileges.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Beginning students who have had high school computer science and/or who have had significant programming experience (e.g. summer institute study, special research projects, home laboratory) are invited to apply during the summer to the head of the department for permission to take a proficiency examination for COSC 101 - Introduction to Programming. If a satisfactory grade is made on the examination, credit will be allowed for COSC 101. The Department of Electrical Engineering and Computer Science also gives credit in COSC 101 to students who receive a score of 3 or better on the Computer Science Advanced Placement A Examination.
Chosen from the Volunteer Core list. Students should try to select courses that satisfy approved areas and Engaged Inquiries category. Students must have a minimum of 9 credit hours in at least two subject areas for Engaged Inquiries.
Among the computer engineering core electives, you must choose two courses from within the following list: COSC 325, COSC 340, COSC 361, COSC 366, ECE 362, ECE 433, ECE 453, ECE 455. Other courses not currently listed may count as core electives only with departmental approval.

Choose 9 credit hours of computer engineering senior electives with advisor's consent. Acceptable computer engineering senior electives are ECE 4xx and COSC 4xx courses that are not otherwise required, with the exception of COSC 422, which is not allowed. 500-level courses are mentioned here as suggestions to students admitted into the Five-Year BS/MS program. Up to three COSC 5XX or ECE 5XX courses may count as computer engineering core and/or senior electives.

* Meets Volunteer Core Requirements.

Computer Engineering - Honors Concentration

In addition to satisfying the requirements for the electrical engineering, computer engineering, or computer science major, candidates for the honors concentration must also complete the following requirements.

Maintain an overall GPA of 3.4.

Four 100- or 200-level honors courses* (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 117 - Honors: Materials Chemistry or Materials Science and Engineering 207).

Two upper-division honors courses in computer science or electrical and computer engineering (COSC 307, COSC 317, COSC 367, COSC 377, COSC 427 or ECE 317, ECE 347, ECE 357*, ECE 358, ECE 417, ECE 427, ECE 477, ECE 478, ECE 487).

Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

*	While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.

Computer Engineering Major - Five-Year BS/MS Program

The department offers a Five-Year BS-MS program for qualified students. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 64 hours of required coursework while full admission is granted after completing 96 hours of required coursework with a minimum overall GPA of 3.4.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. All courses taken for graduate credit must be approved by the departmental chair of the program. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School. Admission of students into this program must be approved by the department and the Graduate School.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* ENGL 360 is added to meet VolCore WC. Added for all majors in EECS, this will better align how WC is satisfied across majors.

ECE 395 is concommitantly removed as a required course (for all EECS majors).

COSC 302/307 is now just algorithms per recent catalog update. For computer engineering, data structure is commonly required while algorithms can be made optional.

In Term 8, the bullet "If necessary, Engaged Inquiries Elective 0-3 Credit Hours ..." is removed because it will never be necessary as EI is satisfied by required course ECE 351/357.

Financial Impact* No impact.

Impact on Other Units* English: increased number of students taking ENGL 360.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Electrical Engineering and Computer Science

Program Name* Computer Science Major, BS in Computer Science

Degree Type* Bachelor of Science in Computer Science

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students may choose from a wide spectrum of courses covering various aspects of computer science, computer engineering, and related fields. Students must meet the design, depth, and breadth requirements in the department in their selection of these courses. Students are encouraged to discuss an appropriate program with their advisors.

Progression Policies and Requirements

The department requires at least a C in every computer engineering, computer science, electrical engineering, and mathematics course used for the undergraduate degrees.

Progression of departmental undergraduate students to the upper-division programs of the department is competitive and is based on the space available in the department. Factors considered in the decision include overall grade point average, grades earned in courses required in the lower-division curricula of the department and Tickle College of Engineering, and seriousness of purpose and interest in departmental programs as exemplified by regular and orderly progress through the prescribed curriculum without abuse of withdrawal and course repeat privileges.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Total Credit Hours 120-122

Footnotes

Beginning students who have had high school computer science and/or who have had significant programming experience (e.g. summer institute study, special research projects, home laboratory) should apply during the summer to the head of the department for permission to take a proficiency examination for COSC 101 - Introduction to Programming, Introduction to Computer Science. If a satisfactory grade is made on the examination, credit will be allowed for COSC 101 allowing students to take COSC 102 their first term as a freshman. The Department of Electrical Engineering and Computer Science also gives credit in COSC 101 to students who receive a score of 3 or better on the Computer Science Advanced Placement A Examination. For students who lack this experience, they should take COSC 101 their first term, pushing back courses indicated with this footnote by one semester.

Chosen from Volunteer Core list. Students should try to select courses that satisfy approved areas and Engaged Inquiries category. Students must have a minimum of 9 credit hours in at least two subject areas for Engaged Inquiries.

Acceptable electives include any 3XX or 4XX COSC or ECE course not already used for completion of degree requirements, MATH 231, MATH 241, MATH 371, MATH 471, MATH 472. Up to three COSC 5XX or ECE 5XX courses may count as upper-division elections. COSC 422 does not count as an acceptable elective.

* Meets Volunteer Core Requirements.

Computer Science Major - Honors Concentration

In addition to satisfying the requirements for the electrical engineering, computer engineering, or computer science major, candidates for the honors concentration must also complete the following requirements.

Maintain an overall GPA of 3.4.

Four 100- or 200-level honors courses* (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 117 - Honors: Materials Chemistry or MSE 207).

Two upper-division honors courses in computer science or electrical and computer engineering (COSC 307, COSC 317, COSC 367, COSC 377, COSC 427 or ECE 317, ECE 347, ECE 357*, ECE 358, ECE 417, ECE 427, ECE 477, ECE 478, ECE 487).

Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

*	While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.

Computer Science Major - Five-Year BS/MS Program

The department offers a Five-Year BS-MS program for qualified students. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 64 hours of required coursework while full admission is granted after completing 96 hours of required coursework with a minimum overall GPA of 3.4.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. All courses taken for graduate credit must be approved by the departmental chair of the program. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School. Admission of students into this program must be approved by the department and the Graduate School.

Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* Remove ECE 395 from Required Course: VolCore WC requirement has now been better satisfied by ENGL 360 as a required course.

Term 5 change - COSC 360 from "Select two courses" to required and concomitantly, "Select two courses" updated to "Select one course": COSC 366 is required to satisfy the Criteria 5 (Curriculum) requirement for CAC accreditation - Principles and practices of security and privacy in computing.

Financial Impact* No impact.

Impact on Other Units* No impact.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

College* Tickle College of Engineering

Department* Electrical Engineering and Computer Science

Program Name* Electrical Engineering Major, BS in Electrical Engineering

Degree Type* Bachelor of Science in Electrical Engineering

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students in the senior year may choose from a wide spectrum of courses covering all aspects of electrical and computer engineering. Students must meet the design, depth, and breadth requirements of the department in their selection of these courses. The design requirement is met through a major engineering design experience in ECE 402**, Senior Design, and through the design process being integrated into specified courses throughout the program. Students are encouraged to discuss an appropriate senior program with their advisors.

Progression Policies and Requirements

The department requires at least a C in every computer engineering, computer science, electrical engineering, and mathematics course used for the undergraduate degrees.

Progression of departmental undergraduate students to the upper-division programs of the department is competitive and is based on the space available in the department. Factors considered in the decision include overall grade point average, grades earned in courses required in the lower-division curricula of the department and Tickle College of Engineering, and seriousness of purpose and interest in departmental programs as exemplified by regular and orderly progress through the prescribed curriculum without abuse of withdrawal and course repeat privileges.

Students who take ECE 202 will be evaluated during the semester they are registered for it. Transfer students for whom ECE 202 transfer credit is given may take 9 semester hours in departmental courses before progression evaluation. All students, whether or not they transfer in, who are not accepted into the upper-division program of the department will be put in either a temporary probationary status or a non-progressed status and will not be permitted to register for any upper-division courses within the department.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Footnotes

Beginning students who have had high school computer science and/or who have had significant programming experience (e.g. summer institute study, special research projects, home laboratory) are invited to apply during the summer to the head of the department for permission to take a proficiency examination for COSC 101 - Introduction to Programming. If a satisfactory grade is made on the examination, credit will be allowed for COSC 101. The Department of Electrical Engineering and Computer Science also gives credit in COSC 101 to students who receive a score of 5 or better on the Computer Science Advanced Placement A Examination.
Chosen from Volunteer Core list. Students should try to select courses that satisfy approved areas and Engaged Inquiries category. Students must have a minimum of 9 credit hours in at least two subject areas for Engaged Inquiries.

Choose 12 credit hours of Electrical Engineering senior electives with advisor's consent. Up to three COSC 5XX or ECE 5XX courses may count as upper-division electives. Acceptable electrical engineering senior electives are ECE 4xx courses that are not otherwise required.

Technical electives chosen from CHEM 132* and CHEM 133* or CHEM 138*; COSC 311, MATH 307 or MATH 407; COSC 370 or COSC 377; COSC 325; COSC 422; ECE 256, ECE 351*, ECE 356 or ECE 358, ECE [illegible], IE 425, IE 430, MSE 321, ME 321, ME 331, ME 363, ME 367; MSE 201 or MSE 207, MSE 410, MSE 460; NE301, NE 303, ECE 302, NE 342 or NE 347; PHYS 252.*

* Meets Volunteer Core Requirements.

Electrical Engineering - Honors Concentration

In addition to satisfying the requirements for the electrical engineering, computer engineering, or computer science major, candidates for the honors concentration must also complete the following requirements.

Maintain an overall GPA of 3.4.

Four 100- or 200-level honors courses* (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 117 - Honors: Materials Chemistry or MSE 207).

Two upper-division honors courses in computer science or electrical and computer engineering (COSC 307, COSC 317, COSC 367, COSC 377, COSC 427 or ECE 317, ECE 347, ECE 357*, ECE 358, ECE 417, ECE 427, ECE 477, ECE 478, ECE 487).

Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

*	While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.

Electrical Engineering Major - Five-Year BS/MS Program

The department offers a Five-Year BS-MS program for qualified students. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 64 hours of required coursework while full admission is granted after completing 96 hours of required coursework with a minimum overall GPA of 3.4.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. All courses taken for graduate credit must be approved by the departmental chair of the program. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School. Admission of students into this program must be approved by the department and the Graduate School. Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* Adding ENGL 360: With CS already requiring ENGL 360 for VolCore WC, this will better align how WC is satisfied across majors.

Remove ECE 395 from Required Course: VolCore WC requirement will now be better satisfied by adding ENGL 360 as a required course (see above).

Term 8 foot note 4 change - "CHEM 132 OR CHEM 133" to "CHEM 132 AND CHEM 133": Correct a typo found by the registrar - CHEM 133 is lab for 132.

Term 8 foot note 4 change - "PHYS 250" to "PHYS 252": In accordance with Physics curriculum change.

Financial Impact* No impact.

Impact on Other Units* Adding ENGL 360 as a required course will increase the number of students taking thing course.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

Notes

Tickle College of Engineering - Electrical Engineering and Computer Science - Electrical Engineering Major, BS in Electrical Engineering - Power and Energy Systems Concentration

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Electrical Engineering and Computer Science

Program Name* Electrical Engineering Major, BS in Electrical Engineering - Power and Energy Systems Concentration

Degree Type* Bachelor of Science in Electrical Engineering

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The department offers a concentration for undergraduates who are interested in the fields of power system and power electronics. This concentration pulls together currently-offered courses to provide students with an in-depth focus towards control systems, operations, planning, system components, power electronics, and circuits.

Progression Policies and Requirements

The department requires at least a C in every computer engineering, computer science, electrical engineering, and mathematics course used for the undergraduate degrees.

Progression of departmental undergraduate students to the upper-division programs of the department is competitive and is based on the space available in the department. Factors considered in the decision include overall grade point average, grades earned in courses required in the lower-division curricula of the department and Tickle College of Engineering, and seriousness of purpose and interest in departmental programs as exemplified by regular and orderly progress through the prescribed curriculum without abuse of withdrawal and course repeat privileges.

Students who take ECE 202 will be evaluated during the semester they are registered for it. Transfer students for whom ECE 202 transfer credit is given may take 9 semester hours in departmental courses before progression evaluation. All students, whether or not they transfer in, who are not accepted into the upper-division program of the department will be put in either a temporary probationary status or a non-progressed status and will not be permitted to register for any upper-division courses within the department.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

[Left] 1
COSC 101 Introduction to Programming
ENGL 101* English Composition I
[After]
[Right] (or equivalent)
[Before]Select one course:
EF 142* Introduction to Physics and Modeling for Engineers II
EF 151* Physics for Engineers I
EF 157* Honors: Physics for Engineers I
[After]
[Before]Select one course:
MATH 132* Calculus 1B Infused with Precalculus
MATH 141* Calculus I
MATH 147* Honors: Calculus I

Credit Hours 13-14

Term 1 Milestone Notes

[Before]One course from:
MATH 130 Precalculus I
MATH 131 Calculus 1A Infused with Precalculus
[After] higher MATH course

[After] Arts and Humanities (AH) Elective **3** *Credit Hours* *

Global Citizenship - United States (GCUS) Elective **3** *Credit Hours* *

Global Citizenship - International (GCI) Elective **3** *Credit Hours* *

Social Sciences (SS) Elective **3** *Credit Hours* *

Term 2

COSC 102 Introduction to Computer Science
ENGL 102* English Composition II
[After]
[Right] (or equivalent)
[Before]Select one course:
EF 152* Physics for Engineers II
EF 158* Honors: Physics for Engineers II
[After]
[Before]Select one course:
MATH 142* Calculus II
MATH 148* Honors: Calculus II

Credit Hours 15

Term 2 Milestone Notes

[Before]One course from:
MATH 130 Precalculus I
MATH 131 Calculus 1A Infused with Precalculus
[After] higher MATH course

Term 3

ECE 201 Circuits I
ECE 255 Introduction to Digital Logic Design
PHYS 231* Fundamentals of Physics: Electricity and Magnetism
[After]
[Before]Choose separate lecture and lab or honors lecture/lab combined:
CHEM 122* General Chemistry I
[Right] and
CHEM 123* General Chemistry I Laboratory
[After] or
CHEM 128* Honors: General Chemistry I
[After]
[Before]Select one course:
MATH 231 Differential Equations I
MATH 237 Honors: Differential Equations I

Credit Hours 16

Term 3 Milestone Notes

[Before]Complete both courses:
EF 141* Introduction to Physics and Modeling for Engineers I
[Right] and
EF 142* Introduction to Physics and Modeling for Engineers II
[After] or
[Before]One course from:
EF 151* Physics for Engineers I
EF 157* Honors: Physics for Engineers I
PHYS 135* Introduction to Physics for Physical Science and Mathematics Majors I
PHYS 137* Honors: Fundamentals of Physics for Physics Majors I

Term 4

ECE 202 Circuits II
PHYS 251 Fundamentals of Physics: Waves, Optics, and the Breakdown of Classical Physics
[After]
[Before]Select one course:
ECE 313 Probability and Random Variables
ECE 317 Honors: Probability and Random Variables
[After]
[Before]Select one course:
MATH 241 Calculus III
MATH 247 Honors: Calculus III
[After]
[Before]Select one course:
MATH 251 Matrix Algebra I
MATH 257 Honors: Matrix Algebra I

Credit Hours 17

Term 4 Milestone Notes

[Before]One course from:
EF 152* Physics for Engineers II
EF 158* Honors: Physics for Engineers II
PHYS 136* Introduction to Physics for Physical Science and Mathematics Majors II
PHYS 138* Honors: Fundamentals of Physics for Physics Majors II

Term 5

[2] Expanded Perspectives Elective 3 *Credit Hours* *

ECE 315 Signals and Systems I
ECE 325 Electric Energy System Components
ECE 335 Electronic Devices
ENGL 360 Technical and Professional Writing
[Before]Select one course:
ECE 341 Fields
ECE 347 Honors: Fields

Credit Hours 18

Term 5 Milestone Notes

[Before]One course from:
CBE 201 Material and Energy Balances
COSC 101 Introduction to Programming
COSC 102 Introduction to Computer Science
COSC 111* Computational Thinking and the Art of Programming
ME 202 Engineering Mechanics
MSE 201 Introduction to Materials Science and Engineering

Term 6

[2] Arts and Humanities (AH) Elective 3 *Credit Hours* *

[2] Social Sciences (SS) Elective 3 *Credit Hours* *

ECE 316 Signals and Systems II
ECE 336 Electronic Circuits
ECE 342 Fundamentals of Communications

Credit Hours 15

Term 6 Milestone Notes

No milestones

Term 7

[2] Expanded Perspectives Elective 3 *Credit Hours* *

[2] Global Citizenship - United States (GCUS) Elective 3 *Credit Hours* *

[3] Power and Energy Systems Elective 3 *Credit Hours*

[3] Electrical Engineering Senior Electives 6 *Credit Hours*

ECE 401* Senior Design Theory

Credit Hours 17

Term 7 Milestone Notes

No milestones

Term 8

[2] Global Citizenship - International (GCI) Elective 3 *Credit Hours* *

If necessary, [2] Engaged Inquiries (EI) Elective (Note student may try to choose courses from Expanded Perspectives or Electives that also meet Engaged Inquiries (EI))* 0-3 *Credit Hours* *

[6] Economic, Entrepreneurship, and Innovation Elective 3 *Credit Hours*

[3] Power and Energy Systems Elective 3 *Credit Hours*

[4] Technical Elective 3 *Credit Hours*

ECE 402* Senior Design Practicum
ECE 496 Power and Energy Systems Seminar

Credit Hours 16-19

Term 8 Milestone Notes

No milestones

Total Credit Hours 126-129

Footnotes

Beginning students who have had high school computer science and/or who have had significant programming experience (e.g. summer institute study, special research projects, home laboratory) are invited to apply during the summer to the head of the department for permission to take a proficiency examination for COSC 101 - Introduction to Programming. If a satisfactory grade is made on the examination, credit will be allowed for COSC 101. The Department of Electrical Engineering and Computer Science also

department for permission to take a proficiency examination for COSC 101 - Introduction to Programming. If a satisfactory grade is made on the examination, credit will be allowed for COSC 101. The Department of Electrical Engineering and Computer Science also gives credit in COSC 101 to students who receive a score of 5 or better on the Computer Science Advanced Placement A Examination.

Chosen from Volunteer Core list. Students should try to select courses that satisfy approved ACE and Engaged Inquiries (EI) category. Students must have a minimum of 9 credit hours in at least two subjects from the Engaged Inquiries (EI).
Select two courses (6 hours) from: ECE 415, ECE 421, ECE 422, ECE 481, ECE 482, ECE 521, ECE 522, ECE 523, ECE 525.
Technical electives chosen from CHEM 132* and CHEM 133* or CHEM 138*; COSC 311 or MATH 300 or MATH 307; COSC 370 or COSC 377, COSC 422 , COSC 325; ECE 256, ECE 351*, ECE 362; IES 203, IES 303; IE 405; ME 231, ME 321, ME 331 ; MSE 201 or MSE 207, MSE 410, MSE 460; NE 301, ECE 302, NE 303, NE 342 or NE 347; PHYS 252*.
Choose 6 credit hours of electrical engineering senior electives with advisor's consent. Up to two (2) COSC 5XX or ECE 5XX courses may count as upper-division electives. Acceptable senior electives are ECE 4xx courses that are not otherwise required.
Economic, Entrepreneurship, and Innovation Elective chosen from IE 405, IE 457 (or ME 457), IE 518, IE 557 (or ME 519), MGT 552, or MGT 560.

* Meets Volunteer Core Requirements.

Electrical Engineering – Power and Energy Systems – Honors Concentration

In addition to satisfying the requirements for the electrical engineering, computer engineering, or computer science major, candidates for the honors concentration must also complete the following requirements.

Maintain an overall GPA of 3.4.

Four 100- or 200-level honors courses* (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 117 - Honors: Materials Chemistry or Materials Science and Engineering 207).

Two upper-division honors courses in computer science or electrical and computer engineering (COSC 307, COSC 317, COSC 367, COSC 377, COSC 427 or ECE 317, ECE 347, ECE 357*, ECE 358, ECE 417, ECE 427, ECE 477, ECE 478, ECE 487).

Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

*	While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.

Electrical Engineering – Power and Energy Systems Concentration – Five-Year BS/MS Program

The department offers a Five-Year BS-MS program for qualified students. The primary component of the program is that qualified students may take up to 9 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. Significant components of the program are:

Students must have an overall GPA of at least 3.4 to be admitted to the program. Conditional admission may be granted after completing 64 hours of required coursework while full admission is granted after completing 96 hours of required coursework with a minimum overall GPA of 3.4.

Students must at least have conditional admission before taking graduate courses for both their bachelor's and master's degrees. All courses taken for graduate credit must be approved by the departmental chair of the program. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School. Admission of students into this program must be approved by the department and the Graduate School. Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* Adding ENGL 360: With CS already requiring ENGL 360 for VolCore WC, this will better align how WC is satisfied across majors.

Remove ECE 395 from Required Course: VolCore WC requirement will now be better satisfied by adding ENGL 360 as a required course (see above).

Term 8 foot note 4 change: Correct a typo found by the registrar. "CHEM 132 OR CHEM 133" is changed to "CHEM 132 AND CHEM 133" because CHEM 133 is lab for 132.

Term 8 foot note 4 change - "PHYS 250" to "PHYS 252": In accordance with Physics curriculum change.

Financial Impact* No impact.

Impact on Other Units* Adding ENGL 360 as a required course will increase the number of students taking thing course.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Engineering Leadership and Entrepreneurship certificate program at the Tickle College of Engineering is designed to prepare engineers for leadership roles in entrepreneurial ventures and innovative industries. This 9-credit interdisciplinary program focuses on equipping students with both technical and business acumen, empowering them to lead technology-based startups, manage product development, and foster innovation within existing companies. Through a combination of engineering, leadership, and business courses, students will learn how to identify market opportunities, develop business strategies, and lead teams that turn innovative ideas into viable products and services.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Description The Engineering Leadership and Project Management certificate program at the Tickle College of Engineering is designed to provide engineers with the leadership, organizational, and technical skills required to lead complex projects from inception to completion. This 9-credit program integrates key project management principles with engineering leadership, preparing students to effectively manage teams, resources, and timelines in both technical and cross-functional environments. The curriculum emphasizes the application of project management tools and methodologies, as well as the development of strategic leadership skills that enable engineers to oversee projects, mitigate risks, and ensure successful outcomes in a variety of industries.

Notes

General Catalog Information

College* Tickle College of Engineering

Department (Acalog Hierarchy)* Industrial and Systems Engineering

Subject/Prefix (choose from list)* IE

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 417

Course Title (max 100 characters)* Honors: Introduction to Lean Systems

Experience Learning Designation
- ○ N (Internship)
- ○ R (Research)
- ○ S (Service Learning)

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description Introduces an engineering-based framework to implement process and system improvements within both the manufacturing and service enterprises. The students will be introduced to the basic concepts of lean systems including facility design and six sigma. The focus of the course will be to enable students to design complex processes and systems based on the physical system and the associated information system. Activities will include case studies, industry based projects, and the preparation of engineering reports.

Students will attend IE 427 classes with supplementary assignments and/or class meetings.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s) IE 406 or IE 408

Department Enforced (DE) Corequisite(s)

Recommended Background IE 350, IE 401 (or IE 407), and completion of an introductory course in probability and statistics.

Comments

Registration Restriction(s)

Registration Permission

Equivalency IE 427

Rationale* Students receive coursework beyond IE 427 Introduction to Lean Systems that provide additional knowledge and experience in a topic sought after by employers. Students are required to complete the SME (Society of Manufacturing Engineers) Lean Bronze Certification (LBC) exam at the end of the semester. These types of certifications validate the knowledge sought after by employers.

Impact on Other Units* None. The course will be taught concurrently by same IE 427 instructor, with additional assignments provided for the IE 417 students.

Financial Impact* None. The course will be taught concurrently by same IE 427 instructor, with additional assignments provided for the IE 417 students.

Credit Hours* 3

Course Description The course will be conducted over three weeks in Nagoya and Tokyo, Japan with easy access to both city and industrial zones. The course will focus on lean manufacturing principles, historical figures in lean and quality, and cutting-edge technologies, while immersing students in Japanese culture. The course interweaves classroom lectures, visits to leading companies, historical sites and museums related to lean and quality, and opportunities to explore the philosophy of continuous improvement. The topics and learnings are applicable for all of the College of Engineering disciplines.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Industrial and Systems Engineering

Program Name* Industrial Engineering Major, BS in Industrial Engineering

Degree Type* Bachelor of Science in Industrial Engineering

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Progression Policies and Requirements

Progression of students to departmental upper-division courses is competitive. Factors considered include overall grade point average, performance in selected lower-division courses and evidence of satisfactory and orderly progress through the prescribed curriculum.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Footnotes

Chosen from Volunteer Core list.
Chosen from APPE 101, APPE 201, APPE 203, APPE 205, APPE 206, COSC 102; CBE 250; ECE 301; EF 305 ; EF 230, or EF 237; ME 202, ME 231, ME 331; MSE 201 or MSE 207.
Chosen from IE 303, IE 423, IE 430, IE 444, IE 452, IE 457, IE 465, IE 483, IE 484, IE 491, IE 493, IE 494, IE 495, The same course may not be used to count for both the IE technical elective and the IE elective.
Chosen from COAD 430*; ECE 255, EF 463; ECON 311, ECON 313, ECON 322, ECON 331, ECON 333, ECON 351; 3 hours of EF 333, IES 303, IES 400, IES 403, IE 350, or IE 450; ENT 350, ENT 415, ENT 425, ENT 451, ENT 460, ENT 492; FINC 300; IE 423, IE 430, IE 444, IE 452, IE 457, IE 465, IE 483, IE 484, IE 493, IE 494, IE 495; MARK 300; MGT 300; MSE 302, MSE 340 or MSE 347, MSE 360 or MSE 367, MSE 390 or MSE 397, MSE 405; ME 321, ME 365, ME 366, ME 367; NE 301, NE 302, NE 342 or NE 347. Some courses may require a prerequisite or corequisite that is not part of the IE program.

* Meets Volunteer Core Requirements.

Industrial Engineering Major – Honors Concentration

In addition to satisfying the requirements for the industrial engineering major, candidates for the honors industrial engineering concentration must also complete the following requirements.

Maintain an overall GPA of 3.4.

Four 100- or 200-level honors courses* (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 207).

Two upper-division honors courses in industrial engineering (IE 317, IE 407, IE 408, IE 417, IE 428).

Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

*	While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.

Industrial Engineering Major – Five-Year BS/MS Program

The department offers a Five-Year BS-MS program with a major in industrial engineering for qualified students. The primary component of the program is a qualified student may take up to 9 hours of approved graduate courses for their senior undergraduate courses and have them count toward both the bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. The student may also take an additional 9 credit of courses, while working towards their bachelor's, which will count only for the master's degree. Qualifications for admission to the program are:

- The student must have an earned minimum cumulative GPA of at least 3.4 to be considered for admission to the program. Conditional admission may be granted the student after completing 65 hours of the required coursework.
- Conditional admission must be obtained before taking a graduate course that is to be used to satisfy the requirements of both the bachelor's and master's degrees. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit. Students admitted to the program must also follow the normal procedure for admission to the Graduate School.
- Full admission may be granted after completing 96 hours of required coursework and with a minimum cumulative GPA of 3.4 in the required coursework.
- Conditional and full admission of a student into this program must be approved by the Department of Industrial and Systems Engineering, the Tickle College of Engineering, and the Graduate School.
- Full admission must be obtained before taking a graduate course that is to be used to satisfy the requirements only for the master's degree. These courses must be identified in advance, with the proposed master's advisor or the Industrial Engineering Graduate Program Coordinator.
- Any course taken for graduate credit prior to satisfying all requirements for the bachelor's degree in industrial engineering must be approved by the department head or designee and the Graduate School.
- A student will not be eligible for a graduate assistantship until the student is enrolled as a graduate-level student in the Graduate School, has satisfied all of the requirements for the bachelor's degree, or the student is in the final semester of the bachelor's degree and has completed all undergraduate industrial engineering coursework.

* Meets Volunteer Core Requirements.

Rationale* Changes only made to add IE 417 Honors: Introduction to Lean Systems to the Honors Concentration, as well as to the Footnotes for electives. For Engineering Science Electives (# 2), removed DATA courses as they no longer satisfy engineering core content, and added APPE courses from the new Applied Engineering content. For IE Elective (# 3), remove IE 130 and added IE 301 and IE 491. For IE Technical Elecive (# 4), added NE 301 and NE 302, IES 303 and IES 400, and removed DATA courses as they no longer satisfy 300- and 400-level courses.

Financial Impact* None. Only changes were to footnotes.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Tickle College of Engineering - Interdepartmental (TCE) - Engineering Entrepreneurship Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Interdepartmental (TCE)

Program Name* Engineering Entrepreneurship Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description Come for a degree . . . leave with a company! The Engineering Entrepreneurship Minor provides students with exposure to the broad range of skills required to succeed in a technologically-based entrepreneurial endeavor including introduction to engineering entrepreneurs for mentoring, analysis of technology trends, fundamentals of intellectual property protection, ethics in business, practice in key communications skills, understanding of the due diligence process, exposure to proposal writing and management skills and involvement in basic elements of starting a company. Sixteen hours of coursework are required as listed below.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The minor consists of 15 hours.

Required courses (9 semester hours) for the minor:

IES 400 Technology Commercialization
IES 316 Engineering Leadership: From Concept to Execution
[After]
IE 457 Engineering Entrepreneurship
[After] or
ME 457 Engineering Entrepreneurship
[After] or
NE 457 Engineering Entrepreneurship
[After] or
CBE 457 Introduction to Engineering Entrepreneurship
[After] or
MSE 457 Introduction to Engineering Entrepreneurship

Add these elective courses to the current listing (6 hours total)

IE 405 Engineering Economic Analysis
IE 452 Project Planning and Organizational Management
ENT 462 Innovation and Creativity
ENT 464 Corporate Entrepreneurship
ENT 470 Managing an Entrepreneurial Start-up
ENT 485 Funding Strategies for Entrepreneurs

Note:

This course combination simultaneously satisfies the requirements for an Engineering Entrepreneurship Minor and the University Entrepreneurship Minor. Students may not minor in both Entrepreneurship and Engineering Entrepreneurship.

*** Meets Volunteer Core Requirements.**

Rationale* Added and removed courses to Engineering Entrepreneurship minor better reflects the body of knowledge need for this minor.

Financial Impact* None.

Impact on Other Units* Acknowledgement received from Haslam ENT department, as well as impacted TCE departments - MAE, MSE, CBE, NE, ISE and EF (IES).

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ○ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

College* Tickle College of Engineering

Department* Interdepartmental (TCE)

Program Name* Engineering for Sustainability Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Tickle College of Engineering offers a multidisciplinary minor in engineering for sustainability. Students earning this minor will develop a broad knowledgebase in the fundamentals of social, economic, and environmental dimensions of sustainability, the engineering tools for sustainability analysis, and the specific domain applications of engineering and technology to confront our sustainability challenges. This minor will provide students a credential assuring they are fluent in broad sustainability concepts and are technically proficient with engineering tools and technologies in their areas of interest. The minor includes four elective technical proficiency tracks: (1) Agricultural and Ecological Resources, (2) Energy and Greenhouse Gas Emissions, (3) Earth systems: Air, Water, Soil, and (4) Infrastructure and Industry. Note that some of the courses may have prerequisites.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Minor Requirements:

The minor consists of 18 hours. Some courses can satisfy a requirement for a major. This minor is open to students enrolled in the Tickle College of Engineering and Biosystems Engineering majors.

Engineering for Sustainability Foundation

ESS 110* Energy for the World
ESS 462* Environmental Climatology
GEOG 346 Energy, Governance, and Sustainability
GEOG 434 Climatology
GEOG 453 Extreme Weather Climatology
EEPS 456 Global Climate Change
[After]
EEPS 558 Global Climate Change

ME 472 Sustainable Energy Engineering
ME 476 Fuel Cell Engines
ME 480 Introduction to Hybrid Electric Vehicles
MSE 455 Materials for Energy
MSE 460 Solar Photovoltaics
NE 340 Materials Science and Engineering Mechanics for Nuclear Materials
NE 404 Nuclear Fuel Cycle

Technical Track 3: Earth Systems – Air, Water, and Soil

BSE 426 Design Hydrology and Monitoring for Agricultural, Low Impact Development (LID), and other Ecological Systems
ENVE 381 Environmental Engineering I
ENVE 391 Water Resources I
ENVE 458 Honors: Solid and Hazardous Waste Management
ENVE 474 Air Pollution and Control
[After] ENVE 511 Environmental Chemistry

ENVE 512 Environmental Transport and Kinetics

ENVE 513 Environmental Microbiology

ENVE 516 Watershed Monitoring and Assessment

ENVE 526 Ecological Engineering for Stream Rehabilitation

ENVE 527 Stream Restoration Design

ENVE 530 Urban Hydrology and Stormwater Engineering

ENVE 533 Green Infrastructure Design

ENVE 577 Air Pollution Climatology

ESS 424* Environmental Stormwater Management
ESS 434 Environmental Soil Chemistry
GEOG 131* Weather, Climate, and Climate Change
EEPS 454 Environmental Restoration
EEPS 466 Water and Air Pollution
[After]
EEPS 564 Water Sustainability and Climate

EEPS 554 Environmental Restoration

Technical Track 4: Infrastructure and Urban Systems

Technical Track 4: Infrastructure and Industry

ARCH 101 Introduction to Architecture
[After] CBE 586 Sustainable Engineering, Design, and Analysis

CE 311 Smart Infrastructure and Sustainability Engineering
[After] CE 548 Sustainable Transportation

CE 554 Public Transit Planning and Operation

CE 557 Transportation Policy and Economics

CE 681 Rating and Analysis of Sustainable Infrastructure Systems

IE 430 Supply Chain Engineering
[After] IE 522 Optimization Methods in Industrial Engineering

IE 531 Systems Thinking and Modeling

IE 565 Applied Data Science

IE 566 Optimization for Big Data

NE 340 Materials Science and Engineering Mechanics for Nuclear Materials
NE 342 Nuclear Thermal Hydraulics
[After]

*** Meets Volunteer Core Requirements.**

Rationale* Three courses listed in the catalog showcase are still using the subject code **GEOL** instead of **EEPS**. These courses are GEOL 558, 564, and 554. The schema will be updated to reflect **EEPS** for each.

Additionally, **EF 305** will be removed from the curriculum courses and replaced with **EF 315**, with **ENVE 315** added as well. In the schema, the requirement will be updated to:

"EF 315 *or* ENVE 315."

Financial Impact* N/A

Impact on Other Units* N/A

Tickle College of Engineering - Interdepartmental (TCE) - Heath Integrated Business & Engineering Program Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Interdepartmental (TCE)

Program Name* Heath Integrated Business & Engineering Program Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description This minor is available to undergraduate students from the Tickle College of Engineering and Haslam College of Business. The students will be selected in their freshman year through an application process by appropriate committees in the two colleges. The students will be advised by their college's advisors and will register in courses designed for this program in their sophomore through senior years. The minor will also provide common learning experiences to the students through extracurricular activities and projects specifically designed for the program.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements:

The minor consists of 18 credit hours, some of which coincide with elective requirements by both Tickle College of Engineering & Haslam College of Business.

Complete:

BUAD 200 Integrity: Becoming an Ethical Leader and Effective Communicator
BUAD 300* Insight: Becoming Personally and Professionally Aware as a Leader
BUAD 405 Impact: Becoming a Leader Who Makes a Positive Difference
IES 203 Interdisciplinary Problem Solving
IES 303 Creating Synergies in Business and Engineering Collaborations
IES 437* Honors: Interdisciplinary Senior Design I
IES 438* Honors: Interdisciplinary Senior Design II
MGT 380 Project Management
[After]

*** Meets Volunteer Core Requirements.**

Rationale* Replacing ENT 350 with MGT 380 for the Heath IBEP curriculum. The course will be required for all Heath IBEP business and engineering students.

Project management skills and exposure are highly valued in industry. It's highly advantageous for Heath IBEP graduates to have a foundational understanding of project management processes, practices, tools, and practical experience. Those skills are a differentiator compared with their peers as Heath IBEP graduation begin their post-collegiate career.

Engineering and business students in the Heath Integrated Business and Engineering Program will take the course as a cohort, unlike ENT 350 which is only required for engineering students. This facilitates a common cross-functional understanding of project management acumen, mindset, practices, tools, and techniques.

Financial Impact* None. The course is taught by Haslam and simply replaces a current course in the program curriculum.

Impact on Other Units* Making the course required for engineering and business students, taken as a cohort, may require creation of an additional section of MGT 380. The Undergraduate Business Fee generated would cover an overload assignment if needed.

Have you consulted with all programs/departments that will be impacted by this change?* (•) Yes ( ) No ( ) No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank. Yes. The course prepares students for Certified Associate in Project Management (CAPM) certification from the Project Management Institute (PMI)..

College* Tickle College of Engineering

Department* Interdepartmental (TCE)

Program Name* Honors Engineering Leadership Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Advisor

K. Kit

A coursework and experiential program is offered by the Tickle College of Engineering leading to a minor in Honors Engineering Leadership. The objective of the Honors Engineering Leadership Minor is to help engineering students learn leadership, interpersonal, and communication skills necessary to apply their technical skills in real life situations. The elements of the minor program are entrepreneurial basics, leadership and communication skill development, organizational and social psychology, service learning, and a capstone leadership experience. This minor is restricted to Tickle College of Engineering students (including Biosystems Engineering majors) in the Chancellor's Honors Program or the Haslam Scholars Program. Students not in one of these university honors programs but admitted to an engineering honors concentration are also eligible.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Minor Requirements

The minor requires 18 hours plus non-credit capstone service and leadership activities.

Select one course:

Leadership Foundations

EF 337 Honors: Leadership Skills
EF 316 Engineering Leadership: From Concept to Execution

Select one course:

ENT 350 Introduction to Entrepreneurship
HBS 303 National Challenges
HBS 304 State and Local Challenges
IE 452 Project Planning and Organizational Management
IE 457 Engineering Entrepreneurship

Select one course:

COAD 430 Design Thinking and Innovation
ENT 425 Entrepreneurial Marketing
ENT 470 Managing an Entrepreneurial Start-Up
ENT 485 Funding Strategies for Entrepreneurs
HBS 424 Energy Markets and Economics
HBS 434 Public Organization, Theory, and Behavior
HBS 452 U.S. National Security
HBS 461 Tools for Economic Development
IE 405 Engineering Economic Analysis
IE 430 Supply Chain Engineering

Select one course:

CMST 442 Organizational Communication Processes
ENT 410S Leadership in Nonprofits and Social Entrepreneurship
ENT 451 New Venture Planning
ENT 460 Leading Innovation and Change
PSYC 440 Industrial and Organizational Psychology

Leadership Capstone:

LEAD 350 must be taken twice for a total of 2 credit hours. The first ime LEAD 350 is taken, LEAD 349 is a corequisite.

LEAD 349 Leadership Learning Through Practice
LEAD 350 Coached Leadership Practicum
[After] *Satisfies Volunteer Core Requirements

Rationale* The minor is being updated to remove some courses no longert offered and add courses that have been recently been added to the catalog. These changes also align the minor with three leadership certificates offered in the Tickle College of Engineering. Students who initially pursue one of the certificates could switch to pursuing the minor instead and vice versa.

Financial Impact* We expect the number of students in the program to be small (<10 per graduating class) so the impact on other units will be small. I talked to Brandon Kliewer in Educational Leadership and Policy Studies which offers the LEAD 349 and 350 courses which will be the most affected. He indicated that this number would not pose a problem for them and that they would gladly welcome engineering students into these courses.

Impact on Other Units* Communication Studies (CMST)
College of Architecture and Design Interdepartmental (COAD)
Engineering Fundamentals (EF)
Management and Entrepreneurship (ENT)
Howard Baker School (HBS)
Industrial Engineering (IE)
Educational Leadership and Policy Studies (LEAD)
Psychology (PSYC)

New courses added are from ENT, HBS, ARCH, and LEAD. I have feedback from all four indicating that they support adding these courses to this minor. See files.

Have you consulted with all programs/departments that will be

Have you consulted with all programs/departments that will be impacted by this change?* ◉ Yes ○ No ○ No Impact

Department (Acalog Hierarchy)* Engineering Fundamentals Program

Subject/Prefix (choose from list)* LEEP

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 316

Course Title (max 100 characters)* Engineering Leadership: From Concept to Execution

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description Engineering Leadership: From Concept to Execution introduces engineering students to the concepts, theory, and practice of engineering leadership. Topics include emotional intelligence, communication, decision-making, conflict management, and team dynamics. Through a combination of theory, practical exercises, personal reflection, and real-world case studies, students will gain valuable insights into leadership principles and their application engineering contexts.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process.

Satisfies Volunteer Core Requirement:

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction Students may not receive credit for EF 316 and MGT 331.

Registration Enforced (RE) Prerequisite(s) ENGL 102*, ENGL 112*, ENGL 132*, or ENGL 298*

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background Engineering, Computer Science, and STEM majors; minimum student level – sophomore.

Comments

Registration Restriction(s) minimum student level – sophomore.

Registration Permission

Equivalency* EF 316 will become LEEP 316

Rationale* A new prefix has been established for courses in the Leadership in Engineering and Entrepreneurship Program and given the LEEP prefix.

Impact on Other Units* None

College* Tickle College of Engineering

Department (Acalog Hierarchy)* Mechanical and Aerospace Engineering

Subject/Prefix (choose from list)* ME

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 453

Course Title (max 100 characters)* Nature-Inspired Surfaces

Experience Learning Designation
- ○ N (Internship)
- ○ R (Research)
- ○ S (Service Learning)

For N/R/S base courses, should this course be:
- ○ Active
- ○ Archived
- ○ N/A

Variable Title?*
- ○ Yes
- ◉ No

Credit Hours* 3

Course Description Will introduce a wide variety of nature-inspired functional surfaces. The unique surfaces of different biological species such as lotus leaves, spring tails, sharks, water striders, and pitcher plant leaves will be discussed. The surface functionalities of these biological species will be analyzed by examining the detailed roles of surface texture and surface composition. We will discuss how the nature-inspired principles can be used to design functional surfaces for various applications such as self-cleaning fabrics, anti-icing and de-icing coatings, water harvesting, and drag reduction.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

Instructional Method* Lecture

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Department (Acalog Hierarchy)* Mechanical and Aerospace Engineering

Subject/Prefix (choose from list)* ME

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 457

Course Title (max 100 characters)* Engineering Entrepreneurship

For N/R/S base courses, should this course be:
- Active
- Archived
- N/A

Variable Title?*
- Yes
- No

Credit Hours* 3

Course Description Engineers design and build products and systems. The course will evolve these basic engineering objectives to go-to-market concepts and constructs of entrepreneurship. Engineering entrepreneurs protect the intellectual property of their designs, while focusing on value creation. The course explores the entrepreneurial mindset, opportunity recognition, business models, market research, ethical and legal foundations, capital sources, business presentations, and determining financial feasibility of an engineering startup venture.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all existing and/or new courses in this crosslisting relationship and note whether primary or secondary ME 457 (Primary), IE 457 (Secondary), CBE 457 (Secondary), MSE 457 (Secondary), NE 457 (Secondary)

Credit Hours* 2

Course Description Introduction to topics and issues in nuclear engineering, with scientific and technical topics interspersed with discussions about policy, lifelong learning and professional responsibility/ethics. This course combines traditional lectures and class dialogue. Students will learn the fundamentals of radiation, nuclear chemistry, and physics that are needed to understand concepts of nuclear reactions, including fission and fusion. Introduces the concepts of nuclear reactor theory and analysis needed to understand nuclear power engineering. Class discussions on the technical and policy aspects associated with nuclear (non) proliferation and the nuclear fuel cycle, most specifically involving the management of spent nuclear fuel. Introduces the application of nuclear radiation with matter in terms of understanding concepts of radiation protection, radiation detection, and health physics.

Tickle College of Engineering - Nuclear Engineering - Nuclear Decommissioning and Environmental Management (NDandEM) Minor

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Nuclear Engineering

Program Name* Nuclear Decommissioning and Environmental Management (NDandEM) Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description A coursework program leading to a minor in nuclear decommissioning and environmental management is offered by the Nuclear Engineering and Civil and Environmental Engineering Departments. Students must file their intent to complete the minor with the Department of Nuclear Engineering prior to graduation. The program is administered through the Nuclear Engineering Department. The grade in each of the courses used to fulfill minor requirements must be at least a C. Students should consult with their advisor for the appropriate elective courses in their major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Minor Requirements:

The minor consists of 15 hours.

Complete:

CE 340 Construction Engineering and Management I
NE 404 Nuclear Fuel Cycle
[After] or
NE 447 Honors: Nuclear Fuel Cycle
NE 433 Principles of Health Physics
[After] or
NE 233 Introduction to Radiological Engineering

Select two courses:

CE 441 Construction Engineering and Management II
[After] CE 581 - Construction Estimating[1] **or**

CE 582 - Construction Scheduling[1]

NE 406 Radiation Shielding
[After] or
NE 467 Honors: Radiation Shielding
[After]

NE 542 Management of Radioactive Materials[1]

NE 552 Radiological Assessment and Dosimetry[1]

CE 485 Principles of Hydrogeology
CE 495 Hydrology
[Before]or
ENVE 495 Hydrology
CE 381 Environmental Engineering I
[Before]or
ENVE 381 Environmental Engineering I
NE 416 Introduction to Radiochemistry Lab
[After] OR

NE 516 Introduction to Radiochemistry Lab[1]

ENVE 511 Environmental Chemistry[1]

Footnotes:

[1] **Students who choose to take any of the 500-level courses should consult with their advisor to determine whether these courses will be applied as undergraduate or graduate credits.**

Rationale* The "or" following ENVE 381 was incorrectly placed, so it was moved to denote NE 416 or NE 516 as it should be. Also removed bulleted entries for NE 516 and ENVE 511 and listed them as regular courses.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

PROGRESSION POLICIES AND REQUIREMENTS

Progression

The first two years of the curriculum are considered to be lower-division and the two remaining years upper-division. Students must apply for progression to departmental upper-division courses, which depends on academic performance. Factors considered include overall grade point average, performance in selected lower-division courses and evidence of orderly progression through the prescribed curriculum.

Full Status

A lower-division student may apply for progression to upper-division after completing CHEM 122*; and CHEM 123* or CHEM 128*; MATH 132* or MATH 141* or MATH 147*, MATH 142* or MATH 148*, MATH 231 or MATH 237; EF 151* or EF 157*, EF 152* or EF 158*; PHYS 231*; and NE 200 with a grade of C or better in each, and an overall GPA of at least 2.5.

Provisional Status

Students who have completed CHEM 122* and CHEM 123* or CHEM 128*; MATH 132* or MATH 141* or MATH 147*, MATH 142* or MATH 148*, MATH 231 or MATH 237; EF 151* or EF 157*, EF 152* or EF 158*; PHYS 231*; and NE 200 with a grade of C or better and have an overall GPA between 2.0 and 2.5 may apply for provisional status.

Students who have earned a grade less than C in only one of the required courses: CHEM 122* and CHEM 123* or CHEM 128*; MATH 132* or MATH 141* or MATH 147*, MATH 142* or MATH 148*, MATH 231 or MATH 237; EF 151* or EF 157*, EF 152* or EF 158*; PHYS 231*; and NE 200 and have an overall GPA above 2.5 may apply for provisional status. Students must retake the course for which the grade of below C is the highest grade at the next available opportunity and earn a grade of C or better.

The granting of provisional status is based on the availability of space in departmental programs after full status students have been accommodated. Provisional status students are required to demonstrate their ability to perform satisfactorily in upper-division by attaining a minimum GPA of 2.5 in the first 6 hours of required upper division nuclear engineering courses. Award of upper-division full status is dependent upon this performance and completion of all courses identified as progression requirements with a C or better. Students who have not progressed to upper-division will be dropped from departmental courses.

Nuclear Engineering Graduation Requirements

Students are strongly recommended to meet with their advisor every semester. Students are required to maintain a cumulative grade point of at least 2.5 in all nuclear engineering courses taken at the University of Tennessee, Knoxville, used to satisfy the graduation requirements, including required courses and technical electives. No more than four credit hours of required nuclear engineering courses in which a C- or lower is the highest grade earned may be counted toward graduation. Students are required to maintain an overall GPA of 2.5. This is in addition to the university's graduation requirements.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

ENGL 101* English Composition I

Term 8 Milestone Notes

No milestones

Total Credit Hours 125

Footnotes

Chosen from the Volunteer Core list. Students should try to select at least one course that satisfies approved areas and the Written Communication category.

Technical electives are selected from upper-division mathematics, chemistry, physics, and engineering courses and must be preapproved by the department. Courses in Nuclear Engineering, other than 500, 502 and 598, may also be used as technical electives.

Department electives are chosen from NE 3xx and 4xx courses not otherwise required for the major. 500-level courses in Nuclear Engineering, other than 500, 502 and 598, may also be used as department electives.

* Meets Volunteer Core Requirements.

Nuclear Engineering Major - Honors Program

In addition to satisfying the requirements described for the nuclear engineering major, candidates for the honors program in nuclear engineering must also complete the following requirements.

Maintain an overall GPA of 3.4.

Four 100- or 200-level honors courses** (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 207).

Complete two upper-division honors courses in nuclear engineering (NE 347, NE 357, NE 367, NE 427, NE 447, or NE 467).

Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

*	Meets Volunteer Core Requirements.
**	While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.

Nuclear Engineering Major - Five-Year BS/MS Program

The department offers a Five-Year BS-MS program with a BS (major in nuclear engineering) and an MS (major in nuclear engineering) for qualified students. The primary component of the program is that qualified students may take up to 6 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. Significant components of the program are:

Students must have an overall GPA of 3.4 in required coursework. Conditional admission to the five-year program may be granted after completion of 63 hours of required coursework, while full admission may be granted after the completion of 93 hours of required coursework with a minimum overall GPA of 3.4.

Students must at least be conditionally admitted to the program prior to taking graduate courses for both their bachelor's and master's degrees. All courses taken for graduate credit must be approved by the director of graduate studies. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School. Admission of students into this program must be approved by the department and the Graduate School. Students will not be eligible for assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* **Rationale:** Update of progression requirements will better prepare students for upper-division coursework and will give transparency to flexibility in the requirements that has been previously available but was not written down. Update in the graduation requirements will align students with employment expectations shared with us by our Board of Advisors and gained through student exit interviews and feedback on job search.

Financial Impact* **Students affected:** Reviewing graduation data from the last several years (154 graduated BS students), the updated requirements would affect only 6 students.

Impact on Other Units* None.

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

Can this program lead to professional licensure? If yes, what type(s)? If no, leave this field blank.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* Tickle College of Engineering

Department* Nuclear Engineering

Program Name* Nuclear Engineering Major, BS in Nuclear Engineering - Radiological Engineering Concentration

Degree Type* Bachelor of Science in Nuclear Engineering

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

PROGRESSION POLICIES AND REQUIREMENTS

Progression

The first two years of the curriculum are considered to be lower-division and the two remaining years upper-division. Students must apply for progression to departmental upper-division courses, which depends on academic performance. Factors considered include overall grade point average, performance in selected lower-division courses and evidence of orderly progression through the prescribed curriculum.

Full Status

A lower-division student may apply for progression to upper-division after completing CHEM 122*; and CHEM 123* or CHEM 128*; MATH 132* or MATH 141* or MATH 147*; MATH 142* or MATH 148*; MATH 231 or MATH 237; EF 151* or EF 157*; EF 152* or EF 158*; PHYS 231*; NE 200 and NE 215 with a grade of C or better in each, and an overall GPA of at least 2.5.

Provisional Status

Students who have completed CHEM 122*; and CHEM 123* or CHEM 128*; MATH 132* or MATH 141* or MATH 147*; MATH 142* or MATH 148*; MATH 231 or MATH 237; EF 151* or EF 157*; EF 152* or EF 158*; PHYS 231*; NE 200 and NE 215 with a grade of C or better and have an overall GPA between 2.0 and 2.5 may apply for provisional status.

Students who have earned a grade less than C in only one of the required courses: CHEM 122*; and CHEM 123* or CHEM 128*; MATH 132* or MATH 141* or MATH 147*; MATH 142* or MATH 148*; MATH 231 or MATH 237; EF 151* or EF 157*; EF 152* or EF 158*; PHYS 231*; NE 200 and NE 215 and have an overall GPA above 2.5 may apply for provisional status. Students must retake the course for which the grade of below C is the highest grade at the next available opportunity and earn a grade of C or better.

The granting of provisional status is based on the availability of space in departmental programs after full status students have been accommodated. Provisional status students are required to demonstrate their ability to perform satisfactorily in upper-division by attaining a minimum GPA of 2.5 in the first 6 hours of required upper division nuclear engineering courses. Award of upper-division full status is dependent upon this performance and completion of all courses identified as progression requirements with a C or better. Students who have not progressed to upper-division will be dropped from departmental courses.

Nuclear Engineering Graduation Requirements

Students are strongly recommended to meet with their advisor every semester. Students are required to maintain a cumulative grade point of at least 2.5 in all nuclear engineering courses taken at the University of Tennessee, Knoxville, used to satisfy the graduation requirements, including required courses and technical electives. No more than four credit hours of required nuclear engineering courses in which a C- or lower is the highest grade earned may be counted toward graduation. Students are required to maintain an overall GPA of 2.5. This is in addition to the university's graduation requirements.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code **To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.**

Certificate Type **To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.**

Credit Hours **120 credit hours is the minimum for majors and concentrations.**

Requirements **List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.**

Campus: Knoxville

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Term 1

Total Credit Hours 125-126

Footnotes

Chosen from the Volunteer Core* list. Students should try to select at least one course that satisfies approved areas and the Written Communication category.
Technical electives are selected from upper-division mathematics, chemistry, physics, and engineering courses and must be preapproved by the department. Courses in Nuclear Engineering, other than NE 500, NE 502 and NE 598, may also be used as technical electives.
Department electives are chosen from NE 3xx and 4xx courses not otherwise required for the major. 500-level courses in Nuclear Engineering, other than 500, 502 and 598, may also be used as department electives.

* Meets Volunteer Core Requirements.

Nuclear Engineering Major - Radiological Engineering Concentration - Honors Program

In addition to satisfying the requirements described for the nuclear engineering major, candidates for the honors program in nuclear engineering must also complete the following requirements.

Maintain an overall GPA of 3.4.
Four 100- or 200-level honors courses** (14 hours minimum, at least two courses must be from Materials Science and Engineering, Engineering Fundamentals, Physics, Math, Chemistry, Biology, Statistics, or MSE 207).
Complete two upper-division honors courses in nuclear engineering (NE 347, NE 357, NE 367, NE 427, NE 447, or NE 467).
Satisfy the Breadth Requirements for the Cook Grand Challenge Honors Program.

*	Meets Volunteer Core Requirements.
**	While most students fulfill this requirement with 100- and 200-level courses, students may substitute upper level courses on approval of the Honors faculty.

Nuclear Engineering Major - Radiological Engineering Concentration - Five-Year BS/MS Program

The department offers a Five-Year BS/MS program with a BS (major in nuclear engineering) and an MS (major in nuclear engineering) for qualified students. The primary component of the program is that qualified students may take up to 6 hours of approved graduate courses for their senior undergraduate electives and have them count toward both their bachelor's and master's degrees at the University of Tennessee. This program is designed for students attending the University of Tennessee for their Master of Science degree because other universities may not accept these courses for graduate credit since they were used to satisfy requirements for the Bachelor of Science degree. Significant components of the program are:

Students must have an overall GPA of 3.4 in required coursework. Conditional admission to the five-year program may be granted after completion of 63 hours of required coursework, while full admission may be granted after the completion of 93 hours of required coursework with a minimum overall GPA of 3.4.

Students must at least be conditionally admitted to the program prior to taking graduate courses for both their bachelor's and master's degrees. All courses taken for graduate credit must be approved by the director of graduate studies. Students admitted to the program must request permission from the Graduate School to take approved courses for graduate credit.

Students admitted to the program must also follow the normal procedure for admission to the Graduate School. Admission of students into this program must be approved by the department and the Graduate School. Students will not be eligible for assistantships until they are enrolled as graduate-level students in the Graduate School.

Rationale* Update of progression requirements will better prepare students for upper-division coursework and will give transparency to flexibility in the requirements that has been previously available but was not written down. Update in the graduation requirements will align students with employment expectations shared with us by our Board of Advisors and gained through student exit interviews and feedback on job search.

Additional thermodynamics option available to students in term 4 to meet the learning needs for radiological students.

Update of courses in terms 4/5/6/7 to reflect actual and planned course offerings.

NE 403 is being reviewed for WC VolCore credit, but we've not added an asterisk at this point until it is approved.

Financial Impact* None.

Impact on Other Units* PHYS 321 added as an elective. Email from Physics department head included.

College* Tickle College of Engineering

Department* Nuclear Engineering

Program Name* Nuclear Safety Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The UT Department of Nuclear Engineering is developing a Center of Excellence in Nuclear Safety. At the Bachelor of Science Nuclear Engineering level, this includes a minor in Nuclear Safety. Students must file their intent to complete the minor with the Department of Nuclear Engineering prior to graduation. The program is administered through the Nuclear Engineering Department. The grade in each of the courses used to fulfill minor requirements must be at least a C. Students should consult with their advisor for the appropriate elective courses in their major.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Minor Requirements:

The minor consists of 16 credit hours, including the following 13 credits of core requirements:

Complete:

NE 360 Reactor Systems and Safety
[After]
NE 402 Nuclear Engineering Laboratory
[Right] or
NE 403 Nuclear and Radiological Engineering Laboratory
[Right] or
NE 427 Honors: Nuclear Research Reactor Laboratory
[After]
NE 485 Process System Reliability and Safety
[Right] or
[After] NE 5851 - Process Systems Reliability and Safety **3 Credit Hours**

NE 486 Nuclear Licensing
[Before]or

[After] NE 5861 - Nuclear Licensing **3 Credit Hours**

Choose one elective (3 hours):

NE 421 Introduction to Nuclear Criticality Safety
NE 483 Introduction to Reliability Engineering
[After] NE 584 - Introduction to Fire Protection Engineering1**3 Credit Hours**

[After] 1Students who choose to take any of the 500-level courses should consult with their advisor to determine whether these courses will be applied as undergraduate or graduate credits.

Rationale* NE 401 & NE 402 sequence is being replaced by NE 403. NE 402 left as an option for now to comply with VolCore requirements.

Financial Impact* None

Impact on Other Units* None

Have you consulted with all programs/departments that will be impacted by this change?* ○ Yes ○ No ◉ No Impact

The Department of Nutrition and Public Health Sciences is committed to advancing education, training, research, and community engagement that promote the health and well-being of all individuals, families, and populations. The department prepares students to become innovative and effective professionals, scholars, and educators who apply a range of scientific, behavioral, and policy approaches to address complex nutrition and public health challenges.

Grounded in the foundational sciences of nutrition, epidemiology, and the social and behavioral determinants of health, the department embraces a socio-ecological perspective that recognizes the interdependence of biomedical, environmental, behavioral, organizational, and societal factors in shaping health. Central to our mission is to improve health outcomes for all people through evidence-based practice, interdisciplinary collaboration, and leadership in nutrition and public health sciences.

Rationale* Nutrition and Public Health are merging into a new Department of Nutrition and Public Health Sciences (NPHS) starting in the 2026 catalog.

Academic programs in the Department of Plant Sciences span the art, science, and technology of plant use in society. Students receive preparation for careers in plant science within six concentrations: landscape design, plant genetics and biotechnology, horticulture science and production, organic production, public horticulture, and turfgrass science and management.

Upon entering the department, each student is assigned a faculty advisor for guidance in selection of career specialties and elective courses. The curriculum builds upon the University General Education Requirement (Volunteer Core) with core courses in plant sciences and adds a set of required departmental courses specific to each concentration. Students are able to customize their program by selecting electives. Students in all concentrations are trained to work knowledgeably in general plant culture. Students are encouraged to earn a minor in a supportive field to further enhance their academic training and professional competitiveness. While firmly grounding students in the knowledge and skills of the plant sciences and arts, our curricula emphasize critical thinking and creative activity. Our students also gain the theoretical education necessary for continuing on for advanced degrees in plant-related fields.

Students should declare a concentration early in their undergraduate program and strictly follow the curriculum described for the concentration. Students who transfer into plant sciences from other colleges or programs must meet the same requirements as those entering the department as freshman. A minimum grade point average of 2.50 is required for all plant sciences courses.

The department utilizes a set of core courses for all concentrations as follows:

Plant Sciences Department Required Core Courses	Credit Hours
PLSC 210*	3
PLSC 320 or PLSC 321	3
(Menu A) PLSC 410* or PLSC 415* or PLSC 422 or PLSC 430 or PLSC 433 or PLSC 434 or PLSC 435 or PLSC 455 or PLSC 491	3
PLSC 330*	3
ESS 231 and ESS 232	4
PLSC 333*	3
(Menu B) PLSC 438 or PLSC 443 or PLSC 456 or PLSC 473; or EPP 313 or EPP 321 or EPP 410 or EPP 411	3
(Menu B) or (Menu C) PLSC 423 or PLSC 426 or PLSC 452 or PLSC 453 or PLSC 454	3
PLSC 492* or PLSC 499	3

Internship or undergraduate research participation is required for each concentration. Full-time summer internships are available at selected local, regional, and national companies or institutions. Part-time summer or semester internships and research experiences are available from the Department of Plant Sciences, other university departments and laboratories, and local commercial firms.

Our graduates find employment in a wide variety of professions, working for others or within their own businesses. Graduates of the sustainable landscape design concentration design residential and commercial landscapes, select proper woody and herbaceous plant materials for specific sites, restore native landscapes, specify specialty components for landscapes construction (irrigation, lighting, and water features), prepare materials lists and cost estimates for landscape installations, and manage landscape crews. Plant genetics and biotechnology students are well-suited to directly enter the biotechnology research industry or enter graduate school. Students gain a firm understanding of the importance of plants in the world as well as the knowledge and tools to manipulate their genetics and biology. Our horticulture science and production students choose a variety of careers including production horticulturist, nursery and greenhouse managers, consultants, sales representatives, vegetable growers, orchardists, teachers, winery owners, research, and extension agents. The organic production concentration is offered to those interested in owning or managing organic farms, working with agricultural extension or governmental and non-governmental organizations, joining the Peace Corps or other international agricultural development efforts, consulting, pursuing a graduate education in agronomy or horticulture, or working in other areas of the growing organic foods and agricultural products industry. The public horticulture concentration prepares students for careers in botanic gardens, zoos, and national parks; professional writing, television, and radio; urban forestry; teaching; and municipal and university horticulture. These students graduate with an acute understanding of people-plant interactions and the important role plants play in society. The turfgrass science and management program combines the study of grasses, soils, water, and pests. Graduates have career opportunities in the industries involved with lawn management, athletic fields, golf courses, sales, and park and grounds maintenance.

* Meets Volunteer Core Requirements.

Return to: Herbert College of Agriculture

Rationale* Updating faculty lists as well as correcting listing of departmental "core" courses to match current curriculum. Minor additional edits to text. (Note: I could not correct the spacing on the faculty list).

Please also apply faculty listing changes to the graduate catalog, if possible.

Requested Content Changes for Catalog

GENERAL REQUIREMENTS FOR A BACHELOR?S DEGREE

The general requirements for a bachelor's degree for students graduating using earlier Undergraduate Catalogs can be found in those Catalogs. The University of Tennessee, Knoxville, requires a minimum of 120 credit hours to earn a bachelor?s degree. Students choosing to pursue two degrees simultaneously must complete at least 30 hours in addition to the total hours required for one bachelor?s degree. These additional hours apply only to those seeking a second degree and not to students who simultaneously pursue a second major, concentration, or minor.

To receive a bachelor?s degree, a student must satisfactorily complete all requirements for the curriculum for which the student is enrolled. These requirements are described in the portion of this Catalog devoted to the college or school offering the curriculum. A student must also satisfactorily complete the Volunteer Core requirements, which are described in the Volunteer Core section of this Catalog.

As an undergraduate student prepares to graduate, their completed coursework will be compared with the curricular and Volunteer Core requirements listed in the student?s graduation Catalog. Ordinarily, this will be the student?s entry Catalog, which is the Catalog associated with the catalog year corresponding to the student?s entry into UTK as a degree-seeking student. (A catalog year is defined as the list of semesters and terms associated with a given edition of the Undergraduate Catalog, beginning with Fall semester and ending with Summer term. For example, the 2022-2023 catalog year consists of the following terms: Fall 2022, Winter Mini-Term 2023, Spring 2023, Mini-Term 2023, Summer 2023). A student may choose a graduation Catalog that is more recent than the student?s entry Catalog. The following regulations apply to the choice of graduation Catalog (regardless of whether the graduation Catalog is or is not the entry Catalog):

- The graduation Catalog must correspond to the catalog year at the time of graduation or to one of the preceding five catalog years. For example, a student graduating in Fall 2022, Spring 2023, or Summer 2023 may graduate under the requirements of one of the six Catalogs corresponding to catalog years 2017-2018 through 2022-2023, but may not graduate under the requirements of any Catalog prior to catalog year 2017-2018. Any exception to this regulation must be approved by the Office of the University Registrar after consultation with the Dean of the college in which the student is enrolled.
- The student must have been enrolled in UTK coursework as a degree-seeking student during the catalog year corresponding to the graduation Catalog. For example, a student choosing the 2022-2023 Catalog as their graduation Catalog must have been enrolled in UTK coursework as a degree-seeking student during Fall 2022, Winter Mini-Term 2023, Spring 2023, Mini-Term 2023, or Summer 2023. Exceptions to this regulation are as follows:
  - An undergraduate student who completes an Associate of Arts, Associate of Science, Associate of Fine Arts, or Associate of Science in Teaching degree at a Tennessee community college and subsequently enrolls as a degree-seeking student at UTK is allowed to choose a graduation Catalog corresponding to any catalog year associated with the student?s period of enrollment at the community college.
  - An undergraduate student who participates in the Volunteer Bridge program and subsequently enrolls at UTK is allowed to choose a graduation Catalog corresponding to the catalog year associated with the student?s period of enrollment in the Bridge Program at Pellissippi State Community College.

Curricular requirements and Volunteer Core requirements may change from one catalog year to the next. Students should note the ?Purpose of the Catalog? section listed on the Catalog home page.

If a course appears in a student?s entry Catalog or graduation Catalog, but the course is discontinued in future Catalogs, the University is under no obligation to offer the course after it has been discontinued.

For a student attempting to complete multiple simultaneous degrees, attempting to complete multiple simultaneous majors or concentrations, or attempting to complete one or more minors in addition to a major, a single graduation Catalog must be used to establish curricular requirements for all components of the program (degrees, majors, and minors) sought by the student.

Any adjustments to published curricular requirements for a student must be approved, through the college petition process, by the college in which the student?s academic program is located. Any adjustments to published Volunteer Core requirements for a student must be approved by the Volunteer Core Committee through the Volunteer Core petition process. Students should work with their academic advisor on any such potential petition requests. Approved petitions will be recorded for students by both their home college and the Office of the University Registrar.

To receive a bachelor?s degree, a student must also complete all of the requirements listed below.

- Achieve a grade point average of at least 2.0 on all work attempted at the University of Tennessee, Knoxville. Incompletes and Not Reported grades must have a letter grade prior to graduation.
- Complete a minimum of 120 total credit hours.
- Complete a minimum of 30 credit hours of upper-division (300-level and above) coursework. Colleges or academic programs may require additional upper-division credit hours, including upper-division coursework completed in the major.
- Complete at least 15 of the final 30 credit hours in residence at the University of Tennessee, Knoxville. In residence credit includes coursework offered by the University through standard instruction, hybrid, or online delivery modes. Courses completed at other institutions may not be used to meet any portion of this 15-credit in residence requirement. Exceptions require dean (or designee) approval of the college in which the student is enrolled.
- Comply with the Southern Association of College and Schools Commission on Colleges (SACSCOC) requirement that students must complete 25 percent of the credit hours required for the bachelor's degree at the University of Tennessee, Knoxville. This credit includes coursework offered by the University through standard instruction, hybrid, or online delivery modes.
- Comply with the state law that one unit of American history at the high school level or 6 semester hours of collegiate work be satisfactorily completed. This requirement is effective for those graduating July 1, 1978, and thereafter. It may be satisfied by completing HIUS 221*-HIUS 222* (or HIUS 227*-HIUS 228*). A student may elect to substitute three hours of Tennessee history either for HIUS 221* (or HIUS 227*) or for HIUS 222* (or HIUS 228*). Students should consult the catalog of enrollment to determine how the six credit hours for fulfillment of this requirement is to be included in individual curricula.
- Satisfy all financial obligations (fees or fines) owed to the university.
- File a graduation application with the Office of the University Registrar. Application deadlines for each term are on the web (https://registrar.utk.edu/). To apply for graduation, go to the MyUTK portal under the self-service section.
- Comply with the Tennessee Higher Education Commission requirements (Senior General Education Test and Senior Major Field Assessment Test).

Colleges, schools, and academic programs may establish additional grade point average, residency, or upper-division requirements for specific degrees or majors. Students are responsible for complying with all college- and program-level policies in addition to the University-wide requirements listed above. Students are advised to consult the appropriate section of this catalog for any further degree requirements. Each program presented by the candidate for a bachelor?s degree is reviewed and approved for meeting the degree requirements by the Office of the University Registrar. Grades cannot be changed for courses within a degree that has been awarded.

Students who wish to participate in their graduating class commencement ceremony will need to place a cap and gown order with the VolShop in the Student Union. Orders placed after the deadline date established by the VolShop will be subject to a late fee.

A student?s name, the degree awarded, and primary major are included on the diploma. Any additional majors, concentrations, and minors only appear on a student?s academic transcript.

Rationale **Modernizing Residency and Upper-Division Requirements for Bachelor's Degrees**

NOTE: This rationale was submitted with the original proposal. Two friendly amendments were approved at UG Policy Committee (making the proposal apply based on Catalog year; adjusting the minimum credits at the upper-division level from 36 to 30). The rationale has not been adjusted other than to add this note.

Purpose

This document outlines recommended revisions to the University's requirements for an undergraduate degree regarding residency and upper-division credit requirements to align our policies with those of peer R1 public flagship institutions, support transfer mobility, and improve flexibility for students. The recommendations preserve all regional accreditation requirements, including the requirement that at least 25% of degree hours be completed at the degree-granting institution.

The reports of recent task forces - most prominently the Transfer Task Force of 2025 and the Institutional Processes Task Force of 2024 - recommended revisions to parts of the degree requirements to meet the current national landscape in this area.

Background and Motivation

The reports of recent task forces - most prominently the Transfer Task Force of 2025 and the Institutional Processes Task Force of 2024 - recommended revisions to parts of the degree requirements to meet the current national landscape in this area. The University's current catalog includes two requirements that have become increasingly out of step with national practice:

1. A requirement that students complete 60 hours at an accredited senior college, and
2. A rigid "last 30 hours in residence" rule, with only narrowly defined exceptions.

Peer benchmarking shows that many R1 public flagships have shifted toward:

- A minimum number of upper-division (300–400 level) credit hours (typically 30–45),
- A residency floor tied to accreditation (typically 25% of degree hours) rather than a fixed 60-hour senior-college rule, and
- A more flexible "final hours" requirement, allowing students to complete part of their final coursework through transfer work, institutional partners, approved study abroad, etc.

The recommended updates will bring the University into alignment with major peers while maintaining the intent of the existing policies.

Anticipated Benefits

- Improved transfer-student access and progress toward degree, reducing unnecessary loss of credits.
- Greater flexibility for study abroad, co-ops, capstone internships, and system-campus partnerships.
- Alignment with peer R1 flagships, making the University more competitive and consistent with national norms.
- Clearer, easier-to-audit requirements, benefiting students, advisors, and degree certification.
- Preserved academic integrity, with strong upper-division and residency protections consistent with accreditation.

Benchmark Summary (Peer Practices)

A review of residency and upper-division requirements at several R1 public flagship institutions shows common patterns:

- Upper-Division Requirement: Most require 30–45 upper-division credit hours, with many clustering at 36–39 hours (e.g., University of Texas at Austin, Ohio State University).
- Institutional Residency Requirement: Institutions typically require either 25% of degree hours in residence (e.g., University of Florida, University of Wisconsin–Madison) or 30–60 total in-residence credits depending on the campus structure (e.g., Michigan, UT Austin).
- Final Hours Requirement: Many institutions use a flexible version of the senior residency rule, such as:
    - 24 of the last 30 hours in residence (UNC–Chapel Hill),
    - 30 of the last 60 hours in residence (University of Michigan),
    - 35 of the last 45 hours in residence (UCLA), or
    - A last-30 rule with limited exceptions (UT Austin; University of Illinois in some colleges).

Across peers, an emerging trend is to preserve a final-hours safeguard while allowing transfer credit, study abroad, internships, and system-campus work with appropriate approvals.

Recommended Updates

1. Replace the "60 Hours at a Senior College" Requirement

Retire the fixed 60-hour rule and adopt an upper-division credit requirement consistent with peer practices.

Recommendation: Require a minimum of 36 upper-division (300–400 level) credit hours, with colleges or programs empowered to require more as appropriate for their disciplines.

Rationale: This assures the academic depth expected of a bachelor's degree while providing a clearer, more modern standard for transfer students and degree audits. Our current policy has resulted in students simply taking lower-level elective courses when they fall short of the required 60-hours needed for degree conferral.

2. Maintain the Clear Statement Regarding the Accreditation-Driven Residency Minimum

Continue to keep this language in the section *(additions in italics)*:

Comply with the Southern Association of Colleges and Schools *Commission on Colleges (SACSCOC)* requirement that students complete 25 percent of the credit hours required for the bachelor's degree at the University of Tennessee, Knoxville.

Rationale: This provides a clear, accreditation-aligned standard used by most R1 peers and meets accreditation standards of SACSCOC.

3. Modernize the "Last 30 Hours" Rule

Replace the rigid last-30 policy with a more flexible model that preserves academic integrity while supporting student mobility.

Recommendation: Require at least 15 of the final 30 credit hours to be completed in residence.

Exceptions for broader academic opportunities (e.g., institutional partner courses, international programs, external internships, national laboratories, or system-shared courses) should continue to be granted with dean-level approval but could also be accommodated by the flexibility by allowing up to 15 of the final 30 credits from outside of UTK.

Rationale: This structure mirrors the flexible senior residency models used at UNC-Chapel Hill, UCLA, Michigan, and others, reducing barriers to high-impact student experiences without compromising degree integrity.

The attached supplemental document to this proposal was presented to and supported by the UG Associate Dean group. It includes a chart with peer benchmarking information.

Requested Content Changes for Catalog

Text in Bold remove and text Underlined add.

Basic military placement credit may be given to eligible students on the basis of previous honorable active duty service. For more information, please provide a copy of your DD214 to the Office of Undergraduate Admissions Transfer Center in 320 Student Services Building, Monday through Friday**, or visit the website** **https://registrar.utk.edu/for-transfer-students/transfer-credit-policies-and-procedures/transfer-credit-military/**.

See the Academic Policies and Procedures section on "Military Credit" of this catalog for additional information.

Rationale* Feedback received from the summer 2025 Veterans Affairs (VA) audit requires the institution to have processes in place to require any active duty or prior military service who are utilizing VA Education Benefits to submit their Joint Services Transcript (JST). In order to maintain this process edits need to be made to sections of the catalog that reference military credit.

Requested Content Changes for Catalog

Remove text in bold and replace with text underlined:

Based on the number of months of active duty military service, students may be eligible to receive three to twelve hours of academic credit from the departments of Physical Education and Military Science and Leadership. Students should submit a copy of their DD214 to the Office of Undergraduate Admissions Transfer Center so that the number of months of active duty may be determined. Upon review, students may receive credit, as appropriate, for MLSL 101 (2), MLSL 102 (2), MLSL 202 (3), and PYED LD (5). Credit is not awarded if the student already has credit for MLSL 101, MLSL 102, or MLSL 202 through transfer credit or through UT registration.

In addition to the credit described above, academic credit can be awarded for credit earned at military service schools. To receive course credits, students should provide to the Office of Undergraduate Admissions an official transcript from the Community College of the Air Force or their Joint Services Transcript (JST). Credit is awarded following the American Council on Education (ACE) credit recommendation guidelines for military course completions.

Matriculated students with active duty or prior military service who are utilizing VA Education Benefits are required to submit their military transcripts. These transcripts can be requested via the Joint Services Transcript (JST) portal or the Community College of the Air Force (CCAF). Failure to provide these transcripts will result in a registration hold.

Students with active duty or prior military service may be eligible to receive between three and twelve hours of academic credit from the Department of Military Science and Leadership and the Physical Education Activity program. Eligibility is based on the number of months of active duty service. To initiate the review process, students must submit a copy of the DD214 to the Office of Undergraduate Admission Transfer Center. Upon evaluation, credit may be awarded for MLSL 101 (2), MLSL 102 (2), MLSL 202 (3), and PYED LD (5), provided the student has not already received credit through transfer or UT registration.

Additional academic credit may be granted for credit completed at military service schools. Students must submit an official transcript from the CCAF and or JST to the Office of Undergraduate Admissions Transfer Center. Credit is awarded following the American Council on Education (ACE) credit recommendation guidelines for military course completions.

Rationale* Feedback received from the summer 2025 Veterans Affairs (VA) audit requires the institution to have processes in place to require any active duty or prior military service who are utlizing VA Education Benefits to submit their Joing Services Transcript (JST). In order to maintain this process edits need to be made to sections of the catalog that reference military credit.

Requested Content Changes for Catalog

Accelerated Combined Bachelor's/Master's and Bachelor's/Professional Degree Programs

The University of Tennessee, Knoxville, offers accelerated combined bachelor's/master's and bachelor's/professional degree programs in selected areas of study. These programs are designed for, and limited to, students with exceptional undergraduate academic performance in their major field of study.

Participation in an accelerated combined program must be approved by the faculty of the department offering the undergraduate program and by the appropriate academic administrative unit of the graduate or professional program.

Accelerated Combined Bachelor's/Master's Degree Programs

Students pursuing an accelerated combined bachelor's/master's program may enroll in a limited number of graduate-level courses (400- or 500-level) during the final undergraduate year and apply those courses toward requirements in the bachelor's degree program.

The number of graduate credit hours that may be applied toward undergraduate degree requirements is determined by the faculty offering the program, but may not exceed nine (9) credit hours. Students participating in an accelerated combined bachelor's/master's program must adhere to the policies governing "Seniors Eligible for Graduate Credit."

Students must have an overall cumulative GPA of at least 3.30 in the term prior to enrollment in coursework that will apply to the master's degree. Individual departments may require more rigorous standards.

Accelerated Combined Bachelor's/Professional Degree Programs

Students pursuing an accelerated combined bachelor's/professional degree program must complete a minimum of ninety (90) undergraduate credit hours prior to enrollment in professional-level coursework.

Up to thirty (30) credit hours of professional-level coursework may be applied toward meeting remaining undergraduate degree requirements, provided the student has been admitted to the professional degree program and the coursework is approved by the undergraduate program as applicable to the bachelor's degree requirements. In all cases, at least ninety (90) credit hours must be completed at the undergraduate level.

The bachelor's degree will be awarded upon successful completion of all undergraduate degree requirements, including approved professional-level coursework. Under no circumstances may more than thirty (30) credit hours of professional-level coursework be applied toward undergraduate degree requirements.

Each accelerated combined bachelor's/professional degree program has distinct eligibility criteria and curricular requirements, which are published in the program description in the Catalog.

Rationale* While the University already offers several programs in which three years of undergraduate coursework are combined with a full year of professional-school coursework to satisfy bachelor's degree requirements, the current Catalog language does not explicitly account for this structure. This proposal updates the Catalog to formally recognize these scenarios, aligning policy with existing institutional practice and established national best practices.

The proposal does not change the underlying policy governing combined bachelor's/master's programs. Instead, it clarifies existing language and provides academic programs with appropriate flexibility to determine how approved graduate-level coursework may be applied toward fulfillment of undergraduate degree requirements.

Examples of existing programs that combine undergraduate and professional credits include: BS in Animal Science: Animal Science Major, Veterinary Science 3+1 Concentration; BS: Pre-Professional Programs Major, Pre-Law Concentration. Additional programs are being proposed this year out of the Baker School and Herbert College of Agriculture.

Requested Content Changes for Catalog

Remove text in Bold, add text that is Underlined.

Undergraduate Admissions recommends that all transfer applicants **that** who are active or former military send in Joint Service Transcripts (JST), DD214, or any other record of service to be considered in the holistic review process if necessary.

Rationale* Feedback received from the summer 2025 Veterans Affairs (VA) audit requires the institution to have processes in place to require any active duty or prior military service who are utilizing VA Education Benefits to submit their Joint Services Transcript (JST). In order to maintain this process edits need to be made to sections of the catalog that reference military credit.

http://baker.utk.edu/

The Howard H. Baker Jr. School of Public Policy and Public Affairs (Baker School) aims to graduate skilled public problem solvers, grounded in the legacy of Howard H. Baker, Jr. and prepared to take leadership roles in their communities.

Admissions

Freshmen are admitted directly to the Baker School in the first year. Admission to the university is highly competitive.

Undergraduate students admitted into the Baker School must maintain a minimum 2.50 cumulative grade point average (GPA). All Baker School courses, including prerequisite and major courses, must be completed with a grade of "C" or better for all Baker School academic programs. Academic programs include majors, minors, and certificates.

Internal and External Transfer Admissions

Students who are not directly admitted to the Baker School, or those who are transferring from other educational institutions, can apply for admission at any point. Transfer students must meet the admission and academic requirements of the Baker School.

Every attempt will be made to give maximum credit for courses taken elsewhere and transferred to the Baker School. After receiving the evaluation of transfer credits by the Office of Undergraduate Admissions Transfer Center, the Baker School's Office of Student Services will conduct additional evaluations of transfer credits.

Curriculum

Baker School's academic programs consist of majors, minors, and certificates.

Bachelor of Science in Public Affairs

The Bachelor of Science in Public Affairs (BSPAF) is a degree program designed to teach students the art and science of public problem-solving. The Public Affairs degree prepares students for careers in public service, civic-minded organizations, and various policy fields, including law, energy, environment, national security, nuclear policy, and economic and community development.

For the Bachelor of Science, Public Affairs Major, the curriculum is divided into five components: general education (Volunteer Core), prerequisites, major core courses, concentration courses, and professional development. The remaining credit hours to meet the University's 120-credit-hour degree requirement can be satisfied through elective courses or the addition of dual majors, minors, or certificates.

- **General Education Courses** (38 credit hours) that constitute the Volunteer Core focus on all aspects of human endeavor including written and oral communications; mathematics; social, behavioral, and natural sciences; humanities; global citizenship; ethics; and the arts.
- **Prerequisite Courses** (18 credit hours) are intended to be taken during the student's first and second year. These courses focus on foundational knowledge of the legal, economic, political, and historical foundations of American democracy and public policy. All courses must be completed with a C or better.
- **Major Core Courses** (30 credit hours) focus on the communication, analytic, leadership, and negotiating skills needed to be effective public servants. All courses must be completed with a C or better.
- **Concentration Courses** (12 credit hours) provide an opportunity to explore areas of interest by opening pathways to the wealth of campus, stakeholder, and alumni expertise. All courses must be completed with a C or better.
- **Professional Development Courses** (3 credit hours minimum) provide an opportunity to put knowledge, skills, and experiences into practice in meaningful real-world settings. All courses must be completed with a C or better.

Bachelor of Arts in Civic and Constitutional Thought

The Bachelor of Arts in Civic and Constitutional Thought (BACCT) will provide an accessible and interdisciplinary intercollegiate opportunity for undergraduate students to receive a wide-ranging education in America's philosophical, historical, political, and economic systems. The BA will prepare students for effective citizenship and a future in law, education, government, or public-facing roles in both the private and non-profit sectors. The program is designed to cultivate civic literacy, ethical leadership, civil discourse, and advanced analytical skills, all of which are essential for today's global workforce.

- **General Education Courses** (38 credit hours) that constitute the Volunteer Core focus on all aspects of human endeavor including written and oral communications; mathematics; social, behavioral, and natural sciences; humanities; global citizenship; ethics; and the arts.
- **Prerequisite Courses** (25 credit hours) are intended to be taken during the student's first and second year. These courses focus on foundational knowledge of the legal, economic, political, and historical foundations of American democracy and civic life. All courses must be completed with a C or better.
- **Major Core Courses** (18 credit hours) are centered on fulfilling the program's learning objectives related to fostering civic knowledge, intellectual pluralism and viewpoint diversity, civil and effective written and oral discourse, civic reasoning and analysis, and career preparation All courses must be completed with a C or better.
- **Concentration Courses** (12 credit hours) allow students to focus on Civic Thought or Constitutionalism and Law. Students may elect to take the "General" concentration, combining elements of Civic Thought and Constitutionalism and Law. All courses must be completed with a C or better.
- **Professional Development Courses** (0 credit hours minimum) provide an opportunity to put knowledge, skills, and experiences into practice in meaningful real-world settings. Students must complete a 0 credit hour Professional Development Practicum check-off.

The BA in CCT as a Second Major

Students who satisfy the requirements of a degree in a unit other than the Baker School may also complete the Civic and Constitutional Thought major in the Howard H. Baker Jr. School of Public Policy and Public Affairs with the approval of the degree-granting unit. Students with a primary major outside of the Baker School need to complete only the major core courses and concentration courses, not the prerequisite courses or recommended VolCore courses.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. To remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Probation, Dismissal, and Readmission

Any student admitted to the Baker School whose cumulative GPA drops below 2.50 or they do not meet their uTrack milestone requirements will be considered off-track. Off track students will be required to meet with a Baker School academic advisor and develop a plan to return to on-track status.

Students who remain off-track for two consecutive terms will be at risk of being dismissed from the Baker School. Students may appeal a Baker School dismissal and request a review of their case from the Baker School's Director of Undergraduate Studies.

Students may be readmitted to the Baker School once they reach a 2.50 cumulative GPA. Students seeking readmission must meet with a Baker School academic advisor to discuss the appropriate course of action.

Students who have been dismissed from the University can be readmitted to the Baker School once they reach a 2.50 cumulative GPA and meet with a Baker School academic advisor.

Residency Requirement for Major Coursework

Students are required to take 75 percent of courses for the completion of Baker School academic programs at the University of Tennessee. For the BSPAf major, this requirement includes the core, concentration, and professional development coursework amounting to 34 of the 45 credit hours. For the CCT major, this requirement includes the core, concentration, and professional development coursework amounting to 23 of the 30 credit hours.

Where to Begin: Student Success

The Baker School's Office of Student Success maintains a full-time staff that answers students' questions concerning majors, curriculum, and elective options. Student advising is achieved through professional advisors and faculty mentors when students are admitted to a major. While University policy requires students to have one mandatory academic planning session per year, students in the Baker School must be advised every semester before declaring a concentration. Following the major file review process (typically at the end of the fourth term), students will be advised only once per academic year. These advising appointments are required to lift advising holds. All students at the University should carefully review the prescribed curricula of the respective degree-granting units and choose courses according to their college preference. The student, not the advisor, is responsible for educational planning, selecting courses, meeting course prerequisites, and adhering to policies and procedures.

In addition to advising, the Student Success Office provides individual and group educational program planning, student data and enrollment information management, recruitment and retention, administration of the undergraduate scholarship program, and career counseling.

Enrichment Opportunities

Scholarships

A limited number of scholarships are available for highly qualified students. General selection criteria for scholarships include academic merit, financial need, and public service activity. Students must be in good academic standing to be considered for a scholarship. Particular scholarships may have additional requirements to be eligible and competitive.

For entering freshmen, students must complete the Entering Freshman Academic Scholarship Application, which can be obtained from UT's Office of Financial Aid and Scholarships, Hodges Library Ground Floor or online at https://onestop.utk.edu/financial-aid/, and submit it by the date printed on the application, with the following items.

- A current high school transcript and a current college transcript, if the student is a transfer student.
- ACT or SAT scores.

International Programs and Study Abroad

International Programs and Study Abroad

Several opportunities for study abroad are available to Baker School students, such as group programs (summer and short-term) organized by the School, as well as other University and non-university programs that operate on a full semester or academic year basis, summer study, international internships; and individualized programs. Students planning foreign study should meet with an advisor to discuss curricular issues.

Off-Campus Study

Recognizing that learning is not restricted to formal classroom situations, students may earn credit towards graduation for approved off-campus study. It may include certain types of work experiences or community involvement. Such study may be undertaken only with prior approval of the Baker School.

Student Engagement

The Baker School provides students with educational and service opportunities outside the classroom. Every week, Baker students receive an electronic newsletter outlining all the upcoming events and activities to help them engage and make the most of their college experience. For more information about student engagement programming, please visit https://baker.utk.edu/student-engagement/

Institute of American Civics

The School also houses the Institute of American Civics, funded by the Tennessee General Assembly, which is dedicated to delivering educational programming on the rights, roles, and responsibilities of citizenship; building foundational knowledge on the history of democratic thought and public service leadership; and empowering effective public problem-solving through instruction in thinking analytically, communicating clearly, and negotiating effectively. The Institute currently offers a major in Civic and Constitutional Thought, a minor in American Civics, and certificates in American Civics and Constitutional Studies.

Research Centers

The Center for National Security and Foreign Affairs (NSFA) is a research center that provides critical insights on national and international security challenges and foreign policy solutions through policy-relevant research, education, and engagement with a global perspective.

The Center for Energy, Transportation, and Environmental Policy (CETEP) is an interdisciplinary network of scholars and partners that extends across the University of Tennessee, to every level of government, the nonprofit sector, Oak Ridge National Laboratory, Tennessee Valley Authority (TVA), and industry representatives.

Requested Content Changes for Catalog

Curriculum

The curriculum coursework is divided into four components ? general education, pre-business core, business core, and major.

General education focuses on all aspects of human endeavor ? written and oral communications; mathematics; social, behavioral, and natural sciences; humanities; global citizenship; and the arts. General education courses span the student?s entire academic career.

The pre-business core courses are taken during the student?s first and second year. The pre-business core provides students with the fundamentals of business education, introducing the tools, the environment, and the functions of contemporary business practices.

Building on the pre-business core foundation, the business core consists of integrated contemporary business management modules in supply chain management, demand management, lean operations, and information management; a discipline-specific course in financial management; coursework on ethics and legal issues, and a capstone experience integrating business strategy with a business simulation. Students must earn a minimum grade of C in the capstone, BUAD 453* (Honors BUAD 457*). As business management perspectives change, the topics in the business core will, by design, adapt.

Simultaneously, students are completing the coursework (30 hours) required by their chosen major. The Haslam College of Business offers eight primary majors ? accounting, business analytics, economics, finance, human resource management, management, marketing, and supply chain management. Additionally, approved students may pursue International Business as a secondary major (with one of the previously listed eight majors as primary). Within the 30 hours of their primary major, students may study two areas of emphasis ? their major with a collateral or their major with a concentration. With a collateral, students complete 21 hours in their major and 9 hours in their collateral area. With a concentration, students complete 18 hours in their major and 12 hours in their concentration area. A minimum grade of C must be earned in every course counted toward the major, including major, collateral, or concentration courses.

Upon the completion of this curriculum, students are awarded a Bachelor of Science in Business Administration.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Residency Requirement for Major Coursework

Haslam College of Business students are required to take 24 of the 30 major hours (75 percent) in residence at the University of Tennessee. This 30-hour major requirement includes all major, collateral, and/or concentration coursework.

Optional Second Major

Haslam College of Business students who wish to pursue an optional second major within the Haslam College of Business must apply for consideration with internal and external transfer students. Admission is competitive and based on departmental capacity.

Haslam College of Business students who wish to pursue optional second majors in the College of Arts and Sciences or the College of Emerging and Collaborative Studies may do so by completing all curricular requirements for the Haslam College of Business and only the major requirements outlined by the College of Arts and Sciences department or the College of Emerging and Collaborative Studies.

In either instance, the optional multiple majors (or second major) may be listed on the student?s transcript. Students should understand that meeting the requirements of second majors may lengthen their academic programs and they should consult with advisors in both areas.

Limit on Declared Majors

Within the Haslam College of Business, a student may declare a primary major and a secondary major but may not pursue more than two majors simultaneously. This restriction is in place to ensure academic focus, timely degree completion, and effective use of institutional resources.

Where to Begin: The HUB (Haslam Undergraduate Business)

Undergraduate Programs Office

The mission of the Undergraduate Programs Office is to provide comprehensive academic and educational program planning that promotes integrity and responsibility. The Undergraduate Programs Office, 342 Haslam Business Building, maintains a full-time staff of academic advisors to answer students? questions concerning majors, curriculum, and elective options. Student advising is achieved through these professional advisors and through faculty mentors when students are admitted to a major.

In addition to advising, the Undergraduate Programs Office provides individual and group educational program planning, management of student data and enrollment information for the college, recruitment and retention, administration of the undergraduate scholarship program, coordination of progression procedures to business majors, and career counseling.

Honors and Signature Programs

Smith Global Leadership Scholars Honors Program

The Smith Global Leadership Scholars (GLS) Program is the premier, three-year honors program offered by the Haslam College of Business. The Smith GLS honors program is designed for high potential students ready to turn their leadership ambition into global impact. This honors program consists of an innovative curriculum that includes specified honors classes, seminars in leadership training, international experiences, and extracurricular activities including community service. Taught by a cadre of designated honors faculty and invited guest lecturers, the program promotes the development of human centered leadership, creative problem-solving, and personal and professional growth and responsibility. Through a highly competitive application process, students can be admitted at the end of their first year. Accepted students will be admitted to the major of their choice and will pursue a concentration or collateral in international business. In their sophomore year, students will spend a semester abroad in London completing coursework with a six-week internship experience. Selected students receive one of the college?s highest scholarship packages.

For questions about this honors program, contact: https://haslam.utk.edu/undergraduate/smith-global-leadership-scholars/

Heath Integrated Business and Engineering Program

This program is available to undergraduate students from the Haslam College of Business and Tickle College of Engineering. The students will be selected in their freshman year through an application process by appropriate committees in the two colleges. The students will be advised by a joint faculty committee and will register in courses designed for this program in their sophomore through senior years. The program will also provide common learning experience to the students through extracurricular activities and projects specifically designed for this program.

For questions about this program, contact: integrate@utk.edu.

Haslam College of Business (HCB) Business Fellows Honors Program

The HCB Business Fellows Honors Program is the college's foundational business honors program for motivated students seeking a strong academic base and a vibrant community in the Haslam College of Business. The program includes an application process, provides honors courses focused on building business acumen, applied learning with guest speakers and site visits, leadership development in a supportive academic community, and both curricular and co-curricular activities for student engagement.

The HCB Business Fellows Honors Program prepares students to be innovative leaders in the competitive business climate by blending classroom learning and real-world experience.

For questions about the program, contact: https://haslam.utk.edu/undergraduate/business-fellows/

Rationale Revisions were necessary based on increasing all major programs by 3 credit hours to 30 total hours. This change also impacted our residency requirement for major coursework (increased from 21 to 24 hours). The chart with collateral and concentration options was removed given that the programs are all listed at the bottom of the main college page. Additionally, our college has a new agreement with CECS that allows our students to pursue one of their programs as a secondary major rather than a second degree. We also are limiting the number of majors students can have in our college (a primary and secondary major) to ensure academic focus, timely degree completion, and effective use of institutional resources. Outdated language about our advising policy was removed, as we now follow the university's advising model. Descriptions for our honors and signature programs were updated to better reflect the mission of each program and contact information.

Requested Content Changes for Catalog

Admissions

Students who meet standard UTK admission criteria are eligible for admission into the College of Emerging and Collaborative Studies.

uTrack

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Policy on Optional Secondary Major or Dual Degree

At CECS, we encourage students to explore transdisciplinary opportunities that align with their interests and career goals. Adding a secondary major or second degree program can broaden knowledge, strengthen skills sets, and make students more competitive in the job market.

1. Eligibility and Application

- Students enrolled in a CECS primary major may add a secondary major in the College of Arts & Sciences or other colleges that allow secondary majors.
- Students enrolled in a Haslam College of Business major may add an optional secondary major in the College of Emerging and Collaborative Studies.
- Students may pursue two degrees concurrently. Admission to competitive programs, such as those in the Haslam College of Business or the Tickle College of Engineering, requires formal application and acceptance.
- Students must declare their intent to pursue a second major or second degree with their academic advisor.

2. Degree Requirements

Second Major

- CECS majors who pursue a secondary major in the College of Arts and Sciences must complete all CECS degree requirements in addition to the requirements for the second major. Secondary majors in the College of Arts and Sciences are exempt from completing Arts and Sciences Foundations, Perspectives, and Connections requirements; only the major-specific requirements apply.
- A minimum of 18 distinct credit hours must separate the CECS primary major from the secondary major in the College of Arts & Sciences.
- Students in the Haslam College of Business may pursue an optional secondary major in CECS and must follow all degree requirements for the Haslam College of Business. CECS secondary majors must complete all CECS major core courses and may fulfill all or partial requirements for their Transdisciplinary Options (TOPS) with their primary degree requirements.

Dual Degree

- Students must meet all requirements for both degrees.
- Students must complete at least 30 additional semester hours beyond the total required for the first bachelor's degree.
- Students are required to complete only one set of Volunteer Core requirements.
- Dual Degree majors in CECS may fulfill all or partial requirements for their Transdisciplinary Options (TOPS) with their dual degree requirements.

3. Advising and Academic Planning

- Pursuing a secondary major or dual degree may extend time to graduation. Students are strongly encouraged to consult advisors in both colleges to develop a comprehensive academic plan.

4. Transcript and Graduation

- Optional second majors will be recorded on the student's transcript.
- Optional dual degrees will be issued on two separate transcripts.
- All majors and degrees must be declared at the time of application for graduation.

Advising

The College of Emerging and Collaborative Studies offers academic program planning and related services to students enrolled in a CECS major, minor, or certificate program. The advising staff is prepared to address student concerns and answer questions regarding academic planning, progression through programs, course petitions, uTrack milestones, and support student success by connecting students with other campus support services when necessary. The advising office is in Suite 106 in the Claxton Education Building.

Rationale* CECS is updating the college catalog page to provide information about optional secondary majors and dual degrees for CECS students.

Requested Content Changes for Catalog

Change of Major or Transfer Students

Students currently enrolled at the University of Tennessee in another college/major may apply for an open seat in the nursing program. Students will be selected on the basis of the following criteria:

- A minimum cumulative GPA of 3.2 is required (note: meeting this does not guarantee acceptance).
- Completion of Human Anatomy and Human Physiology. This applies to both the didactic and lab portion. Anatomy and Physiology courses must be equivalent to EEB 250/251 and BCMB 230.
    - These courses must be completed no later than the Fall term to be ready for a Spring start. Admission will not be offered to students completing these courses in a mini-winter term.
    - For year-long Anatomy & Physiology courses (e.g., "Anatomy & Physiology I" and "Anatomy & Physiology II"), both must be completed to meet requirements. These cannot be mixed with standalone "Anatomy" or "Physiology" courses (e.g., "Anatomy & Physiology I" + "BCMB 230 Physiology" does NOT qualify). Use the transfer equivalency guide to check how your courses transfer.
        - **Note:** Some courses will only transfer if the full sequence is completed (e.g., "Anatomy & Physiology I" and "II").
- Only one of the following courses can be outstanding and taken in the term of admission: Microbiology or Human Development. Micro must be equivalent to MICR 210 or BIOL 220/229 and Human Dev must be equivalent to HDFS 210 or CFS 210 or PSYC 300.
- 44 credit hours of VolCore (general education) courses must be completed. Of these 44 credits, students may have up to 2 outstanding VolCore courses that they take during the Spring term before entering upper division coursework. For guidance, please see the BSN catalog page. From this page, students must complete all requirements for Terms 1, 2, and 3 prior to admission. For credit transferring from other institutions, please check UTK's transfer equivalency guide.
- Students graduating after July 1, 1978, must have completed one unit of American history in high school or 6 semester hours of collegiate American history, as required by Tennessee law. UT's History 221-222 courses fulfill this requirement if not completed in high school.
- Virtual interview with UTMC (Scholar's pathway)
- Availability of space

The admissions process is highly selective, with more qualified applicants than spaces available. In recent years, the number and competitiveness of applicants have increased dramatically; therefore, students are encouraged to continue to progress in their current major while completing prerequisite courses.

If a student is selected for admission but then fails to meet progression requirements, the student will be released from the nursing program but may be eligible to reapply the following year.

Accelerated Track Admission

Students will be selected on the basis of the following criteria:

- Completion of a non-nursing baccalaureate or higher degree
- A minimum overall cumulative GPA of 3.0 is required (note: meeting this does not guarantee acceptance).
- Completion of the following pre-requisite courses with a minimum grade of C or higher: Human Anatomy, Human Physiology, Human Development, and Microbiology. This applies to both didactic and lab where applicable. Please see the Prerequisite Requirements for specific course equivalency details.
    - Anatomy and Physiology can be a combined class, but 2 semesters will be required (8 credit hours total both with labs).
- Students graduating after July 1, 1978, must have completed one unit of American history in high school or 6 semester hours of collegiate American history, as required by Tennessee law. UT's History 221-222 courses fulfill this requirement if not completed in high school.
- Availability of space.

The admission process is highly selective, with more qualified applicants than spaces available. If a student is selected for admission but then fails to successfully complete all required prerequisites with a grade of C or better prior to beginning the nursing sequence, the student will not progress into the accelerated BSN program.

Readmission

Students enrolled in upper-division nursing courses who left in good standing may be readmitted to the nursing major. A *Reinstatement* form must be submitted to the College of Nursing Student Services Office by designated deadlines. Dismissed students may not continue in the nursing program. Policies and procedures regarding academic dismissal and readmission are found in the *College of Nursing Undergraduate Student Handbook*.

Students who were enrolled in lower-division nursing courses when they left the University in good standing will be eligible for readmission into the nursing major. Dismissed lower-division students may no longer pursue a major in the College of Nursing.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Progression Policies and Procedures

1. If a student is selected for admission but then fails to meet progression requirements, the student will be released from the nursing program but may be eligible to reapply.
2. Prior to the start of upper division 300 level courses, students must successfully complete a criminal background check, drug screen, and specific health requirements.
3. Students in the RN to BSN Track must be licensed to practice in the state of residence and/or employment prior to enrollment in clinical courses.

Rationale* To provide update information and/or clarity.

Requested Content Changes for Catalog

Selection is highly competitive and based primarily on academic achievement at the high school level and scores on the ACT and/or SAT, as well as interest in and commitment to nursing. Students admitted into the College of Nursing must (1) successfully complete all required courses in the freshman and sophomore curriculum by the end of the spring term prior to the fall of junior year (2) earn a minimum of 3.20 cumulative grade point average (GPA) at the end of the spring term of sophomore year (3) earn a minimum grade of "C" or better in the following courses: anatomy, physiology, human development, microbiology (4) earn a minimum grade of "C" or better in all nursing courses (5) maintain the proper sequencing each semester to progress into the upper division clinicals as outlined in your academic plan.

Rationale* Update to provide additional details regarding the process.

Requested Content Changes for Catalog

Please refer to the BSN Handbook [AB1]

1. The minimum acceptable grade for all nursing courses in the curriculum is a C.
2. Satisfactory/No Credit grading option is not permitted to meet degree requirements in nursing unless that is the only way the course is offered.
3. No nursing course may be repeated more than once.
4. Any student who receives a grade of C–, D, F, or NC for more than one nursing course will be required to withdraw from the program even if the previous course for which C–, D or F was awarded has been repeated with a grade of C or better.
5. If a student receives an Incomplete (I) in a nursing course, the (I) must be removed prior to enrolling in any course for which the uncompleted course is a prerequisite.

Rationale* To provide clarity and correct typos

Website

https://honors.utk.edu/

University Honors is a scholarly community comprised of accomplished, action-oriented, high-potential students representing a wide range of academic disciplines, as well as the dedicated Honors faculty and staff who challenge and support them. The curriculum focuses on interdisciplinary breadth, innovative complex problem-solving, and leadership to complement the depth of learning provided in students? academic disciplines. University Honors creates and nurtures a community of students eager to learn, lead, and make a positive difference on campus, in Tennessee, and beyond.

University Honors offers two programs: the Chancellor?s Honors Program and Haslam Leadership Scholars. Each program has its own eligibility requirements, program goals, and academic curriculum (see Academic Program links below).

University Honors students are encouraged to participate in one or more of the University of Tennessee?s many specialized departmental honors concentrations or college honor programs. They are also encouraged and supported to deepen their honors experience by participating fully in campus life, serving the community, and pursuing experiential learning opportunities, such as internships, research, service learning, and global experiences.

Eligibility and Admission

Chancellor?s Honors: First-year applicants with superior academic and extracurricular credentials are invited to apply to the Chancellor?s Honors Program. Qualified transfer students with less than or equal to one year of credit can apply for membership. Transfer students with more than one year of academic credit are encouraged to enroll in departmental honors concentrations or college honor programs.

Haslam Leadership Scholars: Only first-year applicants are eligible to apply to Haslam Leadership Scholars. Highly accomplished students with a demonstrated commitment to leadership, service, and civic engagement who aspire to leverage their leadership to enrich the lives of people and communities across Tennessee and beyond are strongly encouraged to apply.

Prospective first-year applicants must apply to the University of Tennessee by the early action deadline (typically November 1st) and to University Honors by approximately November 20th. Transfer students must apply to University Honors by July 1st.

Currently, distance education students are not eligible for the University Honors program.

For precise dates and more information about admissions, please access: https://studentsuccess.utk.edu/honors/how-to-apply/

University Honors students are expected to make timely progress toward honors graduation while maintaining a cumulative GPA of 3.5 or higher. Students not meeting expectations must complete supplemental academic coaching with University Honors coaches.

Benefits

Students in the University Honors enjoy scholarships and various privileges designed to facilitate their growth, engagement, and achievement. They are granted priority registration, advanced library privileges, and specialized honors coaching to ensure access to the coursework and resources an ambitious curriculum demands. University Honors students can access exclusive study spaces, engagement opportunities, graduate and professional school preparation, competitive honors grants, and residence in the University Honors Living and Learning Community.

- ( ) Archived
- ( ) N/A

Variable Title?*
- ( ) Yes
- (•) No

Credit Hours* 1

Course Description The Haslam Leadership Internship Course provides hands-on experience through internships across Tennessee, helping students build in-demand skills aligned with the NACE Career Readiness Competencies. Through guided reflection and professional development, students gain experience, strengthen workplace skills, and learn to tell their story with confidence. The course connects academic learning with real-world application through career-ready experiences. Students will complete the course empowered to pursue their personal, academic, and career goals with clarity and purpose.

Statement about Crosslistings:

This section is only for adding a new crosslisting or revising an existing crosslisting. Submit additional proposals to all courses in the crosslisting as needed. Crosslisted courses must be at the same level (100 and 100, etc.). See the Curricular Submission Guide for details.

List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please submit through the Vol Core approval process. If this new course is a secondary course or an equivalent course to an already existing Vol Core approved course, the Vol Core committee must be informed.

2026-2027 UG Revise Program

General Catalog Information

Important Note:

This Revise Program form is to be used for routine maintenance and revisions to program requirements.

To make non-routine program changes, use the Revise Program (Dynamic Changes) form. Non-routine program changes include changes that impact THEC approval/reporting and/or require coding changes:

- **Changing the name of a program (major, concentration, minor, or certificate)**
- **Changing the department where the program is offered**
- **Adding or removing a program that is embedded on the same program page (i.e. concentrations, honors, 5-year)**
- **Adding or removing a modality (campus code) offering of this program (i.e. Knoxville, Distance Education, etc.)**
- **Adding or removing a certificate type (Add-On, Stand Alone)**

If any of the changes described above are seen in this form, the catalog and curriculum team will reject the proposal and recommend that the changes are submitted on the Revise Program (Dynamic Changes) form.

College* University Honors

Department* University Honors

Program Name* Haslam Leadership Scholars Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description The Haslam Leadership Scholars Minor is designed to deliver key knowledge, skills, experiences, and dispositions needed for students to develop their capacity as leaders to address complex issues in Tennessee and beyond.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below. For additional information, please see the Curricular Submission Guide.

Campus Code To view modality, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to modality, use the Revise Program (Dynamic Changes) form.

Certificate Type To view certificate type, open the "View Curriculum Schema" tab below in the Requirements field. To make changes to certificate type, use the Revise Program (Dynamic Changes) form.

Credit Hours 120 credit hours is the minimum for majors and concentrations.

Requirements List the required courses using the "View Curriculum Courses" tab; add the listed courses and all program text and requirements into cores in the "View Curriculum Schema" tab. Existing courses MUST be imported. Do not use the Add Course button unless the course is not yet available for import.

Requirements*

Campus: Knoxville

Eligibility

The Haslam Leadership Scholars minor is reserved for students in Haslam Leadership Scholars (HALS). Admission to HALS is available only to entering first-year students. Highly accomplished students with demonstrated commitment to leadership, service, and civic engagement and who aspire to leverage their leadership to enrich the lives of the people and communities across the state of Tennessee and beyond are strongly encouraged to apply.

Curricular Requirements

Leadership Series

Four-course sequence to build knowledge and skills in leadership practice.

HALS 207 Foundations of Leadership I
HALS 208 Foundations of Leadership II
HALS 307 Inclusive Leadership
HALS 308 Conflict Resolution

Experiential Learning

Three-course cluster that provide experiences designed to foster leadership capacity and life-career readiness.

HALS 107 Haslam Leadership Scholars Professional Development
HALS 297 Haslam Leadership Education Abroad
HALS 391 Haslam Leadership Internship

Communication Enhancement

ENGL 298 or honors Written Communication (WC) (3 credit hours)
Honors Oral Communication (OC) or Applied Oral Communication (AOC) (3 credit hours)

Capstone Series

(Accumulate 6 credit hours from the checklist below)

HALS 397 Haslam Leadership Group Capstone
[After] AND

[After] Approved college or departmental capstone (variable credit hours)

[After] OR
HALS 497 Honors Capstone

Total Credit Hours - 18

Rationale* Parallel the CHP requirements and rationale about the value of ENGL 298, in addition to WC.

Also, parallel order for capstone listing to prioritize departmental and college capstones.

Financial Impact* none

Impact on Other Units* Boost to ENGL 298. We have consulted the chair on enrollment possibilities.

Have you consulted with all programs/departments that will be ○ Yes ○ No ◉ No Impact

impacted by this change?*

Can this program lead to professional licensure in [illegible]? If no, leave this field blank.

Arts and Sciences Originators Only
