• Prepared by the
MUNICIPAL TECHNICAL
ADVISORY SERVICE
THE UNIVERSITY OF TENNESSEE
Wendell H. Russell, Editor

IN COOPERATION WITH THE TENNESSEE MUNICIPAL LEAGUE

FOREWORD

This 1951 Directory of Tennessee Municipal Officials, the seventh issue in the directory series, is published by the Municipal Technical Advisory Service, in cooperation with the Tennessee Municipal League, for distribution to all cities of the state.

Information about the names, titles, and expiration of terms has been compiled from questionnaires sent to all cities. Although every effort has been made to make the entry for each city complete and correct, in some few instances, where questionnaire returns were not received, it was necessary to rely upon latest information available in our files.

A new format has been designed for the directory this year and more information is given for each city in an effort to make the directory more valuable to all who have occasion to use it. Also, following an analysis of municipal election dates which revealed that the largest number of city elections are held early in the month of July, the release date for this and subsequent issues of the directory has been set at August 1 of each year. Comments and suggestions as to how future issues of the directory can be further improved will be appreciated.

To all city recorders and other city officials in Tennessee who have contributed information for this 1951 Directory of Tennessee Municipal Officials, we are deeply grateful. Without the willing and prompt cooperation of these officials, publication of the directory would have been difficult if not impossible.

Gerald W. Shaw, Executive Director
Municipal Technical Advisory Service

August 1951

GUIDE TO USE OF THIS DIRECTORY

After the name of each city is the county name, in parenthesis, in which the city is located. After the county name is a letter showing in which grand division of the state the city is located, East, Middle, or West. The figure shown after the capital letter is the 1950 population for the city. The last entry on the line is the month and year of the next city election.

The 1950 population counts and the election dates were not available for some cities, and for these cities the directory entry will not be complete.

The entries after the names of the city officials in the columns headed "Term" indicate 1) for elected officials the month and year in which their term of office expires and 2) the letter "A" indicates that the official is appointed rather than elected by popular vote.

A key to the abbreviations used for position titles is given below.

ABBREVIATIONS

Acct : Accountant	FM : Fire Marshal
Ald : Alderman	HOff : Health Officer

MTAS CONSULTING SERVICE

As a part of its program to provide technical assistance to city officials, the Municipal Technical Advisory Service at the University of Tennessee furnishes technical, consultative and field services to municipalities in problems relating to fiscal administration, improvements and public works, and in any and all matters relating to municipal government.

MTAS services now available to all cities in Tennessee, upon request, include technical advice and assistance, by qualified consultants, on problems relating to
