PREFACE

Welcome to the seventh annual Fact Book of the University of Tennessee, Knoxville. As with all previous issues, the staff of the Office of Institutional Research is grateful for the assistance we receive from our colleagues who collect and maintain the various University data bases. The amount of effort required to manage the information of the University is not always fully appreciated. Most of the tables and graphs herein identify the source from whom more detailed information may be obtained.

It is our goal with each new edition of the Fact Book to amend its contents so that the information can be more useful to you, the reader. Toward that end, we appreciate and welcome your comments and advice on how this document may be improved to better serve your needs.

**Don Scroggins, Acting Director
Office of Institutional Research**

*Dedicated to the memory of John T. Hemmeter
1924-1996*

Recent Accomplishments at UTK . . .

UTK Among Nation's Best College Buys

For the third consecutive year, UTK was ranked one of the best education values among the nation's major universities. *U.S. News & World Report* ranked UTK the 12th best educational value in the nation for 1996-97. UTK was ranked eighth best educational value in 1995-96, and seventh best in 1994-95. The ranking considered a school's quality rating (academic strengths) divided by tuition, required fees and room and board. *U.S. News* ranked UTK ninth on its list of national universities whose students have the least amount of debt when they leave school. UTK fees are about 25 percent below the national average for four-year public universities.

Nearly \$6 million in **scholarships** were awarded in the fall of 1996, compared with \$4.5 million awarded in the fall of 1992. For the second year, UTK offered Bicentennial Scholarships to any Tennessee high school senior with a 3.75 grade-point average and a score of 31 on the ACT. A total of 124 students accepted the four-year, full-tuition grants for fall 1996. Two hundred twenty-nine **Bicentennial Scholars** were enrolled. UTK awarded 44 **African American Achiever Scholarships**, bringing the total for the full-tuition, four-year grant to 59. UTK enrolled 37 new **National Merit Scholars**, bringing the campus total to 130. Thirty-two new **McWhorter Scholars** enrolled at UTK.

UTK Programs Rank Among U.S. Leaders

UTK graduate programs in law and business were ranked 47th best in their respective fields by *U.S. News & World Report*. The graduate program in advertising was ranked eighth. *U.S. News* ranked the College of Business Administration program No. 32 in the country for 1996. Rankings were based on faculty resources, research activity, test scores, and reputation.

The American College of Trial Lawyers ranked the College of Law No. 1 in the nation in 1996 for excellence in training trial attorneys. Past winners of the ACTL's annual award included Harvard, Yale, New York University, and UCLA.

In spring 1996, the textiles and clothing program in the College of Human Ecology was ranked first among 183 programs in the U.S. by the *Clothing and Textiles Research Journal*. The college has the world's only on-campus, non-woven textile processing laboratory with melt-down and spun-bond lines.

Public Accounting Report called UTK's master of accountancy program the 10th best in the nation in 1996. The undergraduate accounting program ranked No. 20.

The first cooperative master's degree program in information sciences via distance education technology was launched by UTK and the University of Virginia. Using teleconference communications systems, Tennessee students and Virginia students were able to earn an M.S. degree in information sciences without crossing state lines.

UTK Students Are Top Achievers

Freshmen entering UTK in the fall of 1996 ranked among the best prepared ever, based on ACT entrance exam scores. The UTK average equivalent ACT score was 23.9, the highest ever for an entering freshman class. The 1995 average equivalent ACT figure was 23.6. The highest possible ACT score is 36.

The percentage of African American students who graduated from UTK rose from 33 percent in 1984 to 48.7 percent in 1996.

The UT Lady Vols under Coach Pat Summitt defeated the University of Georgia, 83-65, for an unprecedented fourth national women's basketball title. Previous national championships were won in 1987, 1989 and 1991.

A team of three master's of business administration students from UTK won a national competition in a highly competitive field. They placed first in the National Black MBA Association's annual Council for Advancement and Support of Education competition against a field that included 11 business schools rated in the nation's top 20 by *Business Week* magazine.

21st Century Campaign Climbs To New Heights

As of the end of 1996, the University of Tennessee 21st Century Campaign received donations or pledges of \$280 million toward its \$308 million goal. The campaign began in October 1994. Funds from the campaign go to scholarships, faculty enrichment, research and academic resources at all UT campuses and units. UTK received more than \$154 million toward its goal of \$175 million.

In the area of private giving, UT passed the \$50 million mark in 1996 for the first time. UT received a total of \$55,838,440 in private gifts for the fiscal year that ended in June, 1996. Also, a record 52,075 alumni and friends made gifts of more than \$13 million to UT's Annual Giving Program. UT leads the South in the number of donors.

UT Teams Up With Businesses and Industries

UT, the Saturn Corporation and the Environmental Protection Agency announced a two-year study to produce more environmentally friendly cars. UT's Center for Clean Products and Clean Technologies directed the \$750,000 project.

Sun Microsystems Computer Company and UTK became partners in creating a campus SunSite and a center for the development of Java computer language. In 1996, there were only four campus SunSites in the nation.

Neyland Stadium Is Nation's Largest

What began 75 years ago with a stretch of dirt and a few steel beams became in 1996 the largest on-campus stadium in the U.S., seating 102,544 fans. The Neyland Stadium expansion entailed enclosing the upper deck of the north end zone which added approximately 10,600 new seats.

INSTITUTIONAL

First Founders' Day Medal Awarded . . .

Former U.S. Senator Howard Baker (center) received UT's first Founders' Day Medal at Charter Day celebrations on September 10, 1996. Making the presentation are University Historian Dr. Milton Klein (left) and Chancellor William Snyder. Baker, who retired from the Senate in 1984 after serving three terms, said, "There is something special about attending a large, public university like this one. It helps shape young minds and spirits. UT and my experience here were a contributing part of my life. It still is." Baker was President Reagan's chief of staff in 1987-88.

RECENT HIGHLIGHTS: The 1996 *U.S. News and World Report* ranked UTC third in the "Best Value" category among over 500 regional universities in the South. The UTC School of Engineering ranked first in the South and eighth in the nation among state institutions that do not grant Ph.Ds. In 1997 UTC plans to offer an M.S. degree in environmental sciences to develop professionals in ecology and bolster Chattanooga's claim to the title "Environmental City." A Teaching Resource Center has been established at UTC to assist faculty in building their teaching skills. UTC has raised more than \$22 million in the 21st Century Campaign and expects to exceed \$25 million before the drive ends in 1998. UTC's new Institute for Women as Entrepreneurs offers free counseling to women in all stages of business development. In a first for the school, UTC hosted 350 mathematicians from the U.S. and abroad during the Southeastern Section of the American Mathematical Society.

For more information about UTC, contact Richard R. Gruetzemacher, Dir., Office of Planning, Evaluation and Institutional Research, UT-Chattanooga, 262 Hooper Hall, Chattanooga, TN 37403 Phone: 423/755-4007 Fax: 423/785-2216

RECENT HIGHLIGHTS: UT-Martin has been part of the University of Tennessee System since 1927. During the 1995-96 academic year, the campus graduation rate was at its highest level ever. Also, with those programs receiving accreditation during 1995-96, all UT-Martin programs capable of being accredited have been accredited. UT-Martin has a new Bachelor of Science in Engineering degree following approval by the University of Tennessee Board of Trustees and the Tennessee Higher Education Commission. Crisp Hall, dedicated in memory of Harry Crisp, Sr., now houses the UT-Martin Computer Center and the Department of Public Safety.

RECENT HIGHLIGHTS: Peter C. Doherty, Ph.D., professor of pediatrics and pathology and chair of the Immunology Department at St. Jude Children's Research Hospital, was named co-winner of the 1996 Nobel Prize for Medicine. The College of Medicine leads Tennessee and is third in the Southeast -- ahead of the University of Miami, North Carolina, Vanderbilt, Meharry and ETSU--with 31% of its graduates choosing primary care. Five Memphis faculty members were ranked among the Best Doctors in America in the March 1996 issue of *American Health Magazine*. *The Scientist* listed the medical faculty seventh among southern universities and 36th nationally in the number of times their published works were cited by other researchers. Pharmacy has ranked among the best in the nation for the fourth consecutive year by *U.S. News & World Report*. The Campbell Clinic Department of Orthopaedic surgery was ranked among the best in the nation. Students in eight collegiate licensure categories scored a pass rate of 95% or above on licensure exams. Urology received a \$1 million gift from the J.R. Hyde III Family Foundation for prostate research, and a \$1.75 million grant from the Assisi Foundation. The state's first School of Biomedical Engineering was established with UT Memphis and the University of Memphis creating the state's first joint degree in biomedical engineering.

Total UTSI Library Collection
(book and non-book items): 260,643

RECENT HIGHLIGHTS: In the past three years, five of 54 new NASA astronauts have been UTSI graduates. Harvard Professor Emeritus I. Bernard delivered the inaugural Thomas Jefferson Lecture. The chair of excellence in computational mechanics has been funded and a search for candidates is underway. Aviation Systems personnel designed and built a lightning array for a helipad at the Summer Olympics in Atlanta. The first Thomas Jefferson Fellowship was awarded to Andy Jones, Tennessee Tech graduate. Judy Edwards, a national Graduate Engineering Program for Minorities Fellow (Ph.D./computer science) entered UTSI. Robert Herron, a doctoral student in metallurgical engineering, became the first industrial intern to work with Worth Inc. Jim Uselton, president of Sverdrup Corporation, and Dr. Ed Kraft, group vice president for enterprise development at Micro Craft, were selected as UTSI Distinguished Alumni. Dr. Dinesh Mehta co-authored a computer science textbook that is now used by 30 universities and has been translated into four languages. Almost \$1.4 million has been pledged for the 21st Century Campaign.

STUDENTS

Fans pay homage to UTK Olympians . . .

Carrying an Olympic torch, Lady Vols Basketball Coach Pat Summitt (left) leads a procession of UTK Olympic athletes into Neyland Stadium where they were honored during halftime. Eleven present and former UTK Knoxville students participated in the Summer Olympic Games of 1996. UT Olympians won two gold medals and two silver medals in swimming and two bronze medals in baseball. Two former Lady Vols won gold medals in basketball.

FACULTY AND STAFF

Reaching for the stars . . .

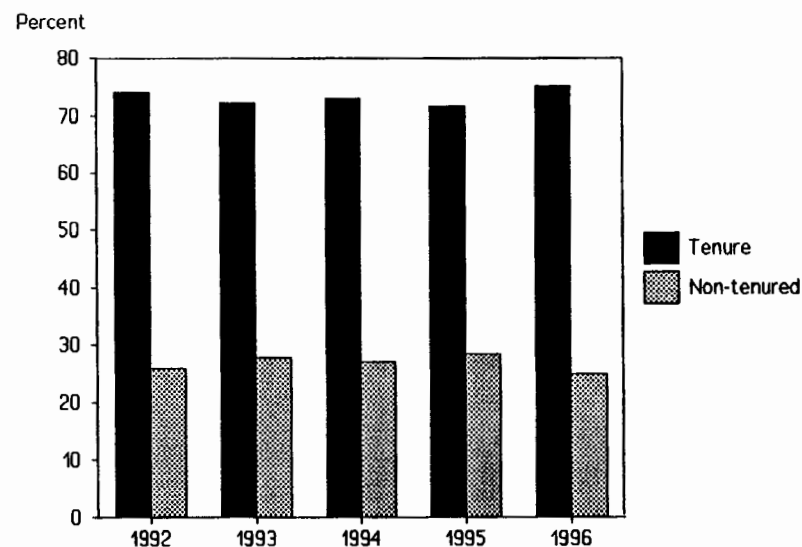

Dr. Harry Y. McSween, professor and head, Department of Biological Sciences, testified before a Congressional subcommittee in September, 1996, regarding the importance of sending a spacecraft to Mars to retrieve rock samples. A NASA team said earlier that it had found evidence of past life on Mars through studies of Martian meteorites. "The question of life on Mars is still open and will require new data and new samples to answer," McSween said. "The NASA work provides a strong motivation for spacecraft missions to Mars, involving thorough reconnaissance, careful selection of landing sites and sample-return missions," McSween told the U.S. Senate Subcommittee on Science, Technology and Space.

UTK teams up with Knox County Libraries . . .

An agreement signed in March, 1996 formalized a long-standing informal relationship between the UTK Libraries and the Knox County Public Library System. The two library systems will undertake joint projects of mutual benefit such as internships, workshops, cooperative collection development, and technology development. Signing the agreement are (l-r): Patricia Watson, Knox County library director; Paula Kaufman, dean of UTK Libraries; Chancellor William Snyder; and Charles Davenport, president, Knox County Public Library Board of Trustees.

Institute for Public Service honors Kessels . . .

Dwight Kessel, chair of the UT Development Council, and his wife Gloria were honored by the Institute for Public Service in February, 1996. The Kessels made generous campaign commitments to the UTK College of Engineering which will fund professorships, a fellowship, and other funds for areas of special needs. The gift to IPS will provide special resources for efforts to assist Tennessee's county governments. Flanking Kessel are UT President Joseph Johnson and Sammie Lynn Puett, vice president for Public Service.

Volunteer of the Year . . .

Paul Miles, chair of the UTK Libraries portion of the 21st Century Campaign, received the 1996 Volunteer of the Year Award. Miles, a financial advisor with American Express Financial Advisors, helped the Libraries exceed their \$5 million goal by personally making more than 140 visits and phone calls. Shown with Miles (center) are (l-r): UT President Joseph Johnson; Gerald Daves, chairman, UTK Chancellor's Associates; Mrs. Marion Miles; and UTK Chancellor William Snyder.

NOTES: Tennessee Tomorrow Campaign began during 1977-78 and was completed during 1979-80.

Institute of Agriculture and UT Space Institute are no longer included in totals for UTK after Fiscal 1986. Separate figures are available from the Development Office for these units.

21st Century Campaign began during 1992-93.

FACILITIES

Bigger, better facilities at UTK . . .

Neyland Stadium celebrated its 75th birthday and its new distinction as the nation's largest on-campus stadium, seating 102,544 fans. The stadium expansion, which added 10,000 seats, entailed enclosing the upper deck of the north end zone.

Finishing touches are being added to the new **College of Law Building** which boasts two rotundas and 80,000 square feet of space. Located at 1505 West Cumberland Avenue adjacent to the older building, the new structure was slated for occupancy during Spring Semester, 1997.

OUTCOMES

UTK salutes new graduates . . .

Confetti rains down on UTK students at graduation ceremonies. From July, 1995 through June, 1996, UTK awarded 5,367 degrees: 3,336 bachelor's degrees, 1,545 master's degrees, 12 education specialist degrees, 281 Ph.D.s, 142 J.D. degrees, and 51 D.V.M. degrees.

. . . and recognizes outstanding alumna

Ann Tanner Taylor, UTK alumna and journalist for National Public Radio, was named the recipient of the Notable UTK Woman Award at Charter Day celebrations on September 10, 1996. Taylor began her newscasting career in Knoxville and moved on to Washington, D.C., where she covered major news events. A 15-year association with NBC News in New York earned Taylor the Gabriel Certificate of Merit for her series highlighting positive stories in the news, and in 1979 an American Women in Radio and Television commendation for "The Woman's Program." Since 1989 Taylor has reported for NPR's "All Things Considered." A permanent Notable UTK Women plaque is displayed in the University Center. The award is sponsored by the UTK Commission for Women.

RESEARCH

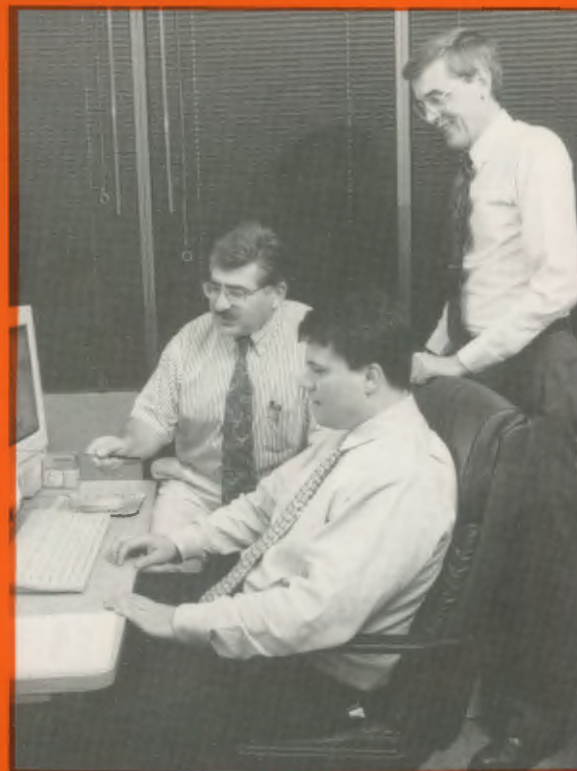

Delving into the unknown . . .

Was a comet or meteorite to blame for the 1908 blast over Siberia that exploded with the force of 1,000 Hiroshima bombs, incinerating herds of reindeer and charring hundreds of square miles? Dr. Evans Lyne (right), assistant professor of Mechanical Engineering, and graduate student Richard Fought

were cited in *Discover Magazine* (September, 1996) regarding their own theory. Russian scientists attribute the explosion to a comet, although most American researchers contend that a comet would have disintegrated too high in the Earth's atmosphere to have caused so much damage. The UT researchers found that previous studies had over-estimated how much of an object would burn away in Earth's atmosphere and that more of the object could get closer to Earth before pressure tore it apart. Lyne said a comet coming in at a steep enough angle could have exploded low enough to

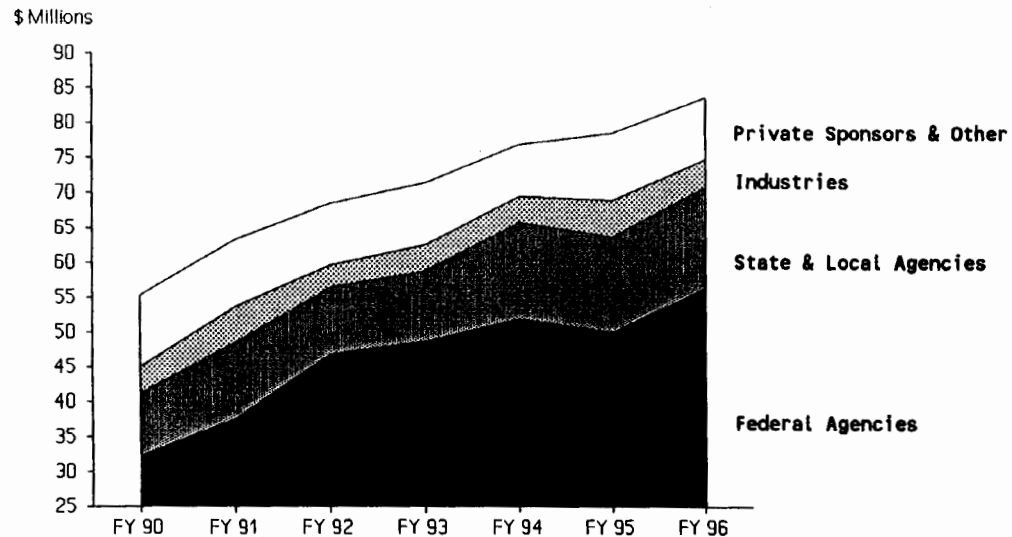

have caused the widespread damage. Lyne said the research helps scientists understand how much damage a meteorite or comet could cause if one hit Earth. "We need to better understand the physics of objects' entry into the atmosphere to fully appreciate the risk they actually pose -- how large they must be to penetrate the atmosphere," Lyne said.

. . . finding solutions

A team of researchers from the UTK College of Business Administration won an international competition on research in applied econometrics, the application of statistical methods and measurement to economics. The competition required teams to forecast U.S. and Dutch food consumption. Selected first among 28 international teams were: Dr. Hamparsum Bozdogan (seated, background), Dr. Peter Bearse (seated, foreground), and Dr. Alan Schlottmann.
