Miss Baker phoned that it had not been possible to send any one to accession Judge Jones Tenn. Reports- hoped to get them done to count in July. Said she had a new flash light for Law- to study its working as it had some sort of indicator to show when batteries are weak. Best to turn light on a few minutes every few weeks. If for blackout be sure to direct light downward & use thin blue tissue paper over it. Later Mr. Perrin brought it. Also some more book plates & some paste. (More plates than I hope we shall need for several years) Did not note that book cloth and glue (a very little) came yesterday. Mr. Perrin said he would get some one to help take over binding tomorrow- Carpenters put in window caod in West window of RR- Showed them where leaks had been, Mr. Qualls wanted an "index to Southwestern" Showed him something about using Amer. Dig. & it turned out he wanted only Tenn. Cases. For good measure showed him C. J. on the subject he wanted. Had showed him Michie's digest some days ago- Phoned Mr. Broome 32 NYS(2) was here but he no longer needed it. Finished statement of extra-Univ. users of Law Lib Apr-Je- & sent Miss Baker-

Note from Miss Baker in future not to make purchases last day of June as hard to adjust accounts- ~~I sent her note~~ Also wasn't necessary to use a book a year "We use one for 2 years" she said- I ret'd her note with reply if it made trouble she might ignore the receipt- Listed all the different things the book is used for & that we try to make entries brief- That we note everything we "might need to refer to next week, next month, next year." That we would try to condense more this year. I do not think we should make statements shorter or leave any out but we can stop starting a new page each day.

7 - 9:20

After considerable work on ten. Acts @ appointing trustees asked Mrs. Morris about the typing of these Acts by WPA several years ago. She said there was only 1 cop & Mr. Wicker had edited it for publication when Dean could get it printed. - He did not want it mimeographed kept it in his own file & wouldn't let it go out of office even to Mr. Walker of U.T. Finally she brought it up for me to check over citations- I copied these and found the M. S. included a list of trustees, names & dates of appointment but no citation to Acts- I ~~file~~ copied the dates & filled in citations as many had time for. It included some we did not have and we had some it did not have. Think it probably will be pretty reliable list when the two are all checked together- Miss Baker phoned about Pike & Fisher sent for cat'ing- She couldn't find it had been paid for. Miss Ringo is on vacation-I found note in Daily record (Oct. 30 1941) of phone message of Miss Ringo and date she stated it was OK & would be paid-

Forms- When asked if connected with U. T.- he said No. (and nothing more) "Connected with a Law firm?" He said I am Courtland J.- I said I couldn't remember that he had ~~stock~~ contract etc. & he said he hadn't but just wanted to get name of pub.- of book- So I looked up a Michie price list for good measure. He asked if I knew of any one who would dispose of contract & I said no. & gave him one of our mimeographed statements as to users & mentioned fees.- Miss Baker ~~called~~ phoned to ask about an Insurance directory she found in a box of dups. Left by A. Mounger. I looked it up in the "Gift" folder & found it had been sent Main for cataloging Aug. 1939. But not important- Asked about Mr. coffey's Tenn. Bar Ass'n Prac. Dups.- & she said address them to her. Worked on list of trustees. Yesterday had a phone call from a lady who suggested we ask a student to look up some Miss marriage laws- I reported what dates our laws covered & said she might come & look them up herself ~~but~~ or if she knew a student & asked him herself O. K.- but we couldn't do it for her- She finally added that a lawyer told her to try us- though he wasn't sure whether or not we would-

12:45 - 5:30

E. L. Ogden-

Address to Miss Goetz the results of our work on refs to appointments of U. T. trustees. In our MS list of "Acts relating to U. T." there was a brief list at end giving date year, ??? or Resolution no. and page citation but no other information The last date being 1929. Miss G's original question was could we find information 1929 to date- I answered I'd try, but the whole list should be checked & verified. & if she would send it, I would add what I could. I went to Dean's office to inquire whether the W. P. A. work done some year's ago in copying from the Acts ~~extract~~ the full text of all relating to U. T., was in a shape to give the information, It seemed that the whole had been reduced to laws in force at the time the work was done and that it had a list of trustees with their dates of appointments as found in the Acts. Later I found Dean Witham had in his files a statement of names of trustees ~~th~~ serving 1939-40 with dates of their appointments, whose unexpired terms (if any) they were appointed to fill, and reappointments, if any. With these sources of information, Acts, resolutions etc were verified, those properly belonging in the text of our "List of Acts" were copied.- "A lot of them" and the personal names of those appointed with citations, dates & whatever information was at hand.- Arranged these by date, with guides labeled with citation, and sent them to Miss Goetz saying it was all the information I have at the present, wasn't sure it was complete or accurate but all I could do now- Said I did not know why there were such long gaps but as 1932 Code said trustees were appointed by Gov. for 14 yr. terms & confirmed by senate, but would serve as long as Senate did not act adversely, might account for no confirmations found 1932-41. Said the cards could be used for any kind of list Miss Baker wanted and returned to me when lists finished. I hope there will be no come-back of questions. I student used Lib- coming & going 2 or 3 times- A young man, former night-school U.T. student (not law) asked how books could be borrowed- He is now in business manager's office TVA. Told him to apply through either technical or legal lib. at T.V.A. He said he had studied under Llewellyn- Was interested in "My philosophy of law" on that account- No other reader - Still hot.

Mr. Blackard would like books on ~~leg.~~ Drafting of statutes left on table showed him an article on A.B.A. Jour. May 1941, quoting from Minn Statutes Revisors' Off. 1941 report which has a "manual of drafting im it" Mr. B. thought it would be a good thing to have; preferred having Lib- write rather than himself. Did so- Also agreed it would be well to keep a list of articles now on table- for future use. Campus mail brought Pike & Fischer's Admin. Law - & 1942 pock. Sup to Hughes Fed. Proc. He suggested I check up also the Bib in Pound's Appellate procedure. When I saw about 16 pages of refs- I suggested Mr. Wicker write Judge Anderson calling attention to this work, pub. & price.- & say Law Lib had most of the Law reviews referred to but few of the state bar ass'n proc.- that he might get these from the organizations publishing them & if he wanted to borrow from us better have the request come from the State Law Lib. at Jackson to U. T. Lib- as that would imply assurance the book was not locally available & would facilitate handling through regular interlibrary loan service. Lawson McGhee phoned to borrow Holmes-Common law- tried to mend torn cover but it was called for before dry- hope will be OK- Wrote Main Lib. (Loan & Ref Dept) of Mr. Koger's (see Jy 28) probable call- Found after he left that Main Lib. has a vol. of 1791 NC laws that may contain it but a number of pages missing & told what Mr. K saw here so he won't be given the same again. Ross Stuart again, asked about authorizing S. Boaz. to work here. Gave him information, also a circular as to use of Lib. by extra-univ. users. He pleased me by saying our Lib. was more satisfactory than Chattanooga bar lib or than Tenn. Supreme Ct. Lib. in Nashville- better in arrangement & content. Said both were weak in treatises- Showed a few more Lib. ways to A. B. Long, here 1-2. Told him nothing required of him at night except supervision of the reading room. Answered a letter of J. Mora, 2dhand book dealer, Dallas Texas that I knew of no set of Higgens Tenn. Rpts for sale or exchange here that A. Neal, Nashville (see Daily Rec. 1942 Feb. 28) said 6-8 could be bt. from Marshall & Bruce. & if I remembered correctly he had v.1-5 for sale. Referred his letter to T. R. R. for eply to his inquiry about advt exchange. Made out Ross Stuart's record for use of Lib. Did not note date of receipt but presume notice will be sent by Mr. Hess. Miss Baker will send a cop. of new U. T. Register for Law Lib. The College has only Dean's copy. Answered F. A. as to Uniform crime Report. that we have v. 1-12 & dups. Miss BAKER will sned a copy. of Mr. Hess' letter as to Ross Stuart's fee. Judge Jones' set Tenn Rpts acc'd by Miss Apperson & Mrs. Allison from Main & marked copy 5- Dean Witham's cop. changed from cop.5 to cop 10

A. meeting & not too busy so got his attention on subject of 4 Brooklyn L. Rev. charged to him Nov. 1941- I had found titles of principal articles listed in CCH Legal Period. (but Mrs. Wicker said it was Mr. Wicker who had given directions for wrapping & mailing it) Anyway that is where it went.

E. L. Ogden-

Dean Witham asked if we could send 12 Va Law Rev- to Mr. Tipton of ~~State~~ State Atty Gen'l's Off. Nashville who wrote he couldn't get it in Nashville & wanted it for some legal matters affecting the Univ. at Memphis. Took the opportunity of saying that I thought all such loans should be made through the Lib. and that any loan of Lib. books made by any fac. member, Lib. should be notified first. He agreed & I said I'd remind him with a memo when school opens- I sent the vol wanted to Main Lib. (Miss Jordon, acting in Miss Goehring's absence) and asked to have letter returned for Dean Witham. Told Dean Witham that if Mr. Van Deventro comes, he could say Lib. will accept anything he wants to give us- if he is willing for us to use for exchange anything we do not need ourselves for the library. This is a fitting opportunity to review summer's work while HHT has been away- Mr. Long accepted the job as student ass't with the understanding that he isn't physically equal to heavy work- lifting or carrying & Dean W. stipulated he should have some time for study. So I told him at night nothing would be required of him except supervision of the reading room & attention to the wants of readers- As regular jobs, gave him care of advance sheets of reporters etc + Fed. reporter shelving of current periodicals, filing loose leaf material (wasn't much) and collating (wasn't much), as odd jobs he rules and labeled Daily Record books, periodical cards, wrapped or boxed periodical files to go in B- etc. Overlapping time was only one hour-twice a week so I hadn't much chance to show or teach details or check on mistakes. Miss Simonton is alert, observant, very quick at learning but was here so little that most of her time had to go in reading "Helpful Hints" "Guide to Lib" and elements of legal biblio. She did expand the Official List into an additional box and put in new guides, and made portrait slips for Caldwell's Apperson's one appearance did same for cat. She brought Mrs. Allison with her and they acc'd Judge Jones' set of Tenn. Rpts and the Tenn vols in other fac. offices. The shelf cds haven't been sent ~~Main~~ Law Lib. yet, so the count of vols. added has to wait to be filled in Beside current work and matters turning up from day to day, I managed only to take a thorough inventory of periodicals in B. & RR-3-4b, shift periodicals in RR. to make room for vols. at bindery, giving superficial cleaning as I went along, all. I think recorded in this book from day to day. Didn't touch mending nor shifting in stacks. A. M. Fowler, of Loudon, used Lib. Sent Main cash for Aug. Ret'd to Main, temple. Notable Men, borrowed recently

Continuing statement about Mr. Van Deventer's gift. Mr. Davis said both the box + package were brought to law collge by campus mail - not by Mr. Perrin, but by the "other man" Wrote Miss Ringo a statement of the affair after re-reading the correspondence and Daily Record entries concerning them Mr. H. Van Deventer, had gone back to Washington + Mr. Fay knew nothing of the business except that he was to call for the few books in the box not of legal interest. A vol of C.J. (v.69) in original package, was left at Law Lib - probably not meant for us so set it aside till we find out. Apparently Mr. Horace V. did nothing about the earlier A.B.A. vols which his letter said were stored in his attic on Temple Ave. and which might have had some numbers that were not duplicates. Did some mending last night + this P.M. - No readers this P.M. Steady rain. Stoker still under repair + no fire.

No fire. Then. not quite 60. Spoke to Dean about closing tomorrow night on account of blackout. He said that the building should be closed at 8.20, but that he wanted library kept open until then as he wishes students to get in the habit of using library at night! Sent notice to Miss Baker, as she had told me just what to do over here during blackout when I met her, unofficially, yesterday (main keeps open but extinguishes lights + she expects us to do same.) Quite a large number of 1<sup>st</sup> yr. students in lib. this a.m. Len Broughton for father, contract, and Myron Ely for father L. C. Ely used library.

12:45 - 5:30

E. L. Ogden

About a dozen students, and Judge Burnett. About 4 phoned Dean Witham that I proposed to close library tonight as it is too cold for any one to stay. He said OK but he'd try to get something done about that tomorrow. I announced closing to students who happened to be in room at the time + posted notices. Fairly comfortable in the sunshine this P.M.

Dean expects stoker to be put up this forenoon and fire started by afternoon. Not quite as cold as yesterday - G1. Judge Williams of Johnson City visited library + also had interview with Mr. Wicker. Stocker installed at 11.30.

12:45 - 5:30

E. L. Ogden

Yesterday afternoon A. B. Long asked permission to take case note writers around the lib. and show them how to look up cases + where books are they will be expected to use - about a dozen students went around with him taking his instructions. Only one reader in the lib who did not join the group + he didn't seem to mind. Seemed a good idea. Spoke to Dean Witham about the box that didn't belong here\*. He told Mrs. Morris to phone Mr. Kirkman and tell him to send for it + told her to write Mr. Horace Van Deventer and ask if there was only 1 box of his to come to us. Temperature comfortable again, but fewer readers than yesterday. Mended + looked up data on extra - new users of lib., July + Aug. \*also told her Perrim when he came with campus mail. He said the big truck would have to get it.

Finished getting data for extra Univ. users of Lib. July-Aug-Sep. – Robinson' Justice in Grey. ret'd by Judge Green, started on circ. to faculty. Judges McAmis + Burnett took occasion to express appreciation of quiet offices given over to their use – Said Judge B, impossible to concentrate in court house where visitors constantly wanted letters “to whom it may concern” + other interruptions. Mr. Blackard, to whom they were talking said he often found Lib. better to work in than his own office – as those who used Lib. did so for serious work. To my inquiry as to whether the judges found the Lib. and its service satisfactory, they said yes. Helped Judge McAmis look for cases on revocation of wills – counted Ref. – general – Mr. H. Van Deventer phoned – 12 – 12:30 (about) more.

12.45 – 5.30

Bar Journals but Mr. Christopher Van Deventer will call for A.B.A. reports + 69 CJ. To take back to Edeleuws to go with other vols of sets. Mr. V. returning to Wash. now but will be back later and look up earlier A.B.A. journals for Law Col. + perhaps early text books –

I tied it up with the others Mr. L Van Deventer is to call for. Note from Miss Ringo said Mr. Ficken, a new prof. was owner fo the box marked “Brown Univ. Store Room” + he had probably claimed it. Mr. Wicker asked if Lib. tables could be used to assemble copies of instructions to writers of case notes for Tenn Law Rev. just rec'd from mimeograph. A. B. Long + Harris, worked on them assembling + stapling sets. Didnt finish. Mr. W. said so many things on table down stairs there wasnt room enough for several to work at it. Should have been signed by an individual who has right by contract knew it was OK to recognize Mr. Carty but wanted Dean's approval as form of signature is wholly irregular. He said let it go. Perhaps would be well to get Mr. C. to take letter back + get some other signature as he can't sign cards by firm name. Sent Miss B. letter from Lib'n Dept. Justice asking if she thought it worth while borrowing a copy to type, suggested we might borrow Chatta cop. to look at. Sent with letter 35 LLJ no. 4 containing rev. + mimeographed cop. of Dept. "Ref. general" finding dates of Pres. Roosevelt's terms of office amendment to Constitution changing date of beginning of terms of congressmen and opening Cong in Jan. instead of Dec. It seems this has something to do with the no. of trustees of U.S!! The general situation being that the no. of trustees is related to the no. of representatives in Cong. and when the latter no is reduced does a trustee, previously appointed have to go out? Relationship of the two items being not clear to me but said to exist. Looked up for Dean Witham's office.

Added a par. to Mr. K. saying I had hoped to hear more about librarians' proposed visit and suggested she plan to visit JVA + State Lib. also while here Miss Baker phoned, as she had done once before for possible help in identifying an old ledger (1846) which had prescriptions (dated 1874) pasted in it over the original entries. Had a visit from Mr. Earnest Deckerman who said he was the one Lawson McGhee has borrowed Homes Common Law for + he had dropped that book once + injured the binding. He had bought a new one for himself and came to ofer to give us the new one in exchange for ours. The old one was really not much hurt and we had used it since 1923 so I said thank you just the same but you keep you new one. He stayed quite a while asking first for non-technical book on evidence, or articles re - and then watned to find something on Bractou. I showed him V.2 of Holdworth + he seemed pleased and would read it later. sat down with a pile of books, my guesses as to the kind of "evidence" he wanted, + spent the evening. Will probably be back again. Wrote the Cat Dept again for Law book statistics Aug + Sep. + inquired for some things sent for cataloging some time ago but not ret'd. One student reader (girl) and 1 phone call to ask if Berle Modern Corp. was on our reserve. Said it was available + then found a mud-dauber insect that built a nest on top, (a very little one) sticing pages together so I had to scrape it of. No permanent marks left. Mr. D. is reading about law because he is interested. Read Blackstone + liked it. Asked what was the present state of the common law - was it disappearing in the face of so much statute law? Spoke to Dean Witham about Armistice day closing. U.T. offices read close 10-12 but would it be all right for Lib. to close later He said OK put it 10-1. Students say they “think” there will be moot court tomorrow so asked Ciordia + Shumaker to tell Trent + Bozeman so they will not expect to prepare moot court case at last minute. Posted notices. Campus mail. Think I finished changing shelf + cat. cards for all pubs. listed in Daily Record accessions July 41 – June 42. Brought shellac from home + finished backs of 17v. I had to label in white ink (Atty gen Ctte on admin. proc. Monographs.)

I suggested it would be well hereafter to ask for TVA loans through Miss King or get Miss K. to phone beforehand that she (ie Mrs. C) would call for the book. Mrs. C did not seem aware this vol. would be wanted for class work. That may have been a coincidence. Mended.

Chatta. Bar Ass'n Lib'n did not come. Miss Baker did. She asked whether Law Lib could help with some indexing of county records, an unfinished job inherited from WPA. I said I couldnt but perhaps HHT could if it wasn't wanted to any particular time + could be worked on now + then in intervals of other jobs. She said that was the kind of job it was. That county records has been copied on typed sheets with page nos in parenthesis where pages of the original began, that indexing had covered only personal names and place names + the job would be to write a separate slips for every such name and put on the page no – She said would it be better to send some one here to show HHT what was wanted or to have her go to main Lib to see. I said better ask HHT but that I thought better send some one rather than have HHT take her free time to go to Main Lib. She said staff bulletin about Xmas holidays was on the way. (It came later by Campus mail) I said as for the indexing, we might give it a trial + see if time could be spared for it. Spent a good part of the evening experimenting with method of blacking out conference room window. Miss B. said something about cutting down paper for slips so I asked whether stiff backs of discarded pocket supplements could be cut by machine to make charge cards. She took some to see. N.B. Morrell used Lib. Mrs. Morris sent up 6 more cops of 1942 Williams. Tenn. Code. 1942 pocket sup. Wrote Miss Ringo to let me know where they could be filed. N.B. – cards returned rather roughly cut + not exact sizes – Results unsatisfactory.

Student from Hill came for material for a report on unmarried parents. Lent her a vol. of family law + told her to look up the subj. at Main Lib. in Encycl. M. L. Kupfer (for RR. Kramer, fee) used Lib. Students: Hobb all morning; Long (not A.B.) about 2 hrs; Ciordia, to get reserved books. Decided tables where case note workers left books "for further use" were too cluttered. So wrote citation on all slips used as book marks, kept slips in order in which books stood and put them, with any other papers found, in envelope marked with owner's name. Envelopes are on table back of desk. Mr. Wicker said Wynn + Turnblajer had turned in their work so their books need not be kept on tables. Mr. Ciordia said he might bring back the books he has out and take out others. I did not tell him there might be only 1 cop. + that to stay in Lib – He seemed in a hurry

Ogden returned some of the codes - will return others when copying is done - has to be perfect to the last comma + one of the typists is given to leave things out and have to do it over. M. L. O. found the Main Lib. has a cop. of "Social welfare laws of all states" with 1940 sup. which was helpful. In A.M., Mr. Hobb Ms. Kinton, Mr. Shell; 2 books returned by Mr. Long (not A. B.) due Dec. 28, charged him 5¢ a day for each (70¢) as Miss Baker once said that was what, was done at Main in holidays. Mr. L. said first he had been sick, then that his parents were away + his grandmother was sick - + he had no way of getting them back. I told him he should have notified us the day the books were due. He paid fine without protest or hesitation. Mr. Boaz + R. Stair used Lib. in A.M., Mr. Byrne in P.M. Mr. Boaz said Mr. Stuart wanted to know when his fee expired. I told him Feb. 4 and made a note on cal. (Feb. 1) to notify Mr. S. by phone or by post card. - Also told Mr. Byrne that Mr. Kramer's fee expired Dec. 31 - + Lib. would notify him by mail. Tried to help Mr. Byrne find what he wanted on Eminent Domain, and looked up refs. For Mr. Wicker for "fillers" - next no. of T.L.R. Got out again books Harris + McVeigh had left on tables (80v. in all) + put back book marks in them McV. Ret'd books but did not work on his case note. Phoned St John's Church office about Hays - City lawyer which is charged to Mr. Edmundson who said Mr. Beasley was reading it. Mrs. Watkins took message and reported later that he hadnt any book from any Edmundson. Just after locking up at 4 Mr. O.L. White (contract) came + I let him in for a short time.

Mr. Ross Stuart (fee) and S. Boaz used Lib. also Mr. Allred, from W.J. Farm. Campus mail. – Asked Dean Witham what was best way to handle the situation where students didnt mind paying fines + kept reserved books out longer than they should, preventing others from having them – especially at exam times. He said he didnt think penalty was a good way + responded by handing out his cop. of Brown on personal prob. And the Lib. cop. of Madden he had been using, so that pressure for thos two would be eased somewhat. He did not seem included to address the student himself on the subject. I suppose we shall just have to emphasize when books are taken that they must be brought back on time whether there is anything else for student to do in the building or not. and if wilfully neglectful, I'll try the Dean again. Filed cat. Cards. Few in Lib. at night counting Mr. Carne's girl friend. – all were restless than usual + more inclined to conversation.

12:45 - 5:30

E. L. Ogden

Mrs. Morris asked to have list of periodicals made up for which TLR charges Lib. subscription price. checked titles on old list for charges in pub. + subscription price. - As there are several changes in pub. this year thought they should be compared with most recent nos rec'd as well as with data in Index to Legal periodicals. Did not quite finish. Main Lib called up to say Judge Green had called there to ask for a vol of Fed. Cases I called Judge Green's off. to get the citations verified. (case 1894) + say the vol is here. - The girl said he wouldnt be in his office till tomorrow + she didnt know the citation. She said he would call tomorrow + that he didnt want the book right away, but would want it in a few days - + wanted to use it only for a short time. Reminded a group of students at lawyer's table that they were not supposed to take it for granted they could assemble there when they please. but should ask permission I think its usually OK for them to go but when they do, should give a reason why RR on conf. room wont do.

N. B. Morrell (contract) used Lib. Judge Green phoned. Said he had been told that v.1 of Fed. Cases had a history of Tenn. District Fed. Ct. – wanted for an article. – I looked (too hastily) and told him I found no history as such but that a foot note gave some dates + read him the foot note – he seemed vague – but supposed that was what was meant – and said as he isn't using his car could we get some one to copy it for him + send him copy in next few days. He would be willing to pay – I said not enough of this one note to pay for. Then I looked further in the same vol + suspected Judge G. wanted information about the court after it was abolished as "Tenn" district and became a part of the Dist. including other courts. Asked Mr. W. who said he did not know what Judge G. wants but any copying could be done by his N.Y.A. helper who comes once or twice a week – to finish list of periodicals, check prices + make changes needed to add to a total of \$100.00 Read law college notes in Dec. no. of Amer. Should have noted yesterday that the N.Y.A. typist did copy for Judge Green from 1 Fed. Cas. I mailed it to him this A.M. Dean Witham wanted in a hurry estimate of value of sets offered by an Ark. Law School. - most states up to reporters, some miscellaneous texts.

Dean said it would do to make a guess - but I looked up prices in 2d hand lists as far as I could + made rough estimates for some, mere guesses for others. Mrs. Morris used adding machine for totals - consider it a badly done job on my part as I have no experience in dealing with values of books. A civil service exam (fed.) was held in building for lawyers + two of them used Lib. some while they visited.

A young woman looking up Tenn. cold storage law needed considerable help in tracing one passes in 1919., still in Shannon's code in 1926 sup., but vanished, without substitute between that + code 1932. - I checked in all the ways I could think of, tables in Michies + William's Code, Sheperd te - + asked Mr. Wicker who said probably eliminated by the 1932 code commission + anyway not in force if not in that code. Counted it part of yesterday's "general" so did not count it again. Took off RR - 5 some books for courses not being given 2d term and brought from B come for new courses. He had seen v. 1-3 at Main Lib, having been referred there by Lawson McGhee. We lack v. 4-27 so I phoned court house + TVA. Miss King away + person answering phone said they has a full set - I asked if all right for Mr. K to use it there - She said she didn't know - Did Miss King allow others to use it? E. L. Ogden

Forgot yesterday afternoon to note that the same TVA man came to consult legal directories. Today continued to search for data on Va - Tenn. boundary question wanted by Mr. Koger Did not find just what he wanted but there was enough to keep him busy making notes all afternoon. Miss Baker came to discuss what to do with Fed. Reg. - Together we checked on some data to see if Code really superceeded the Register. Found it kept referring back so apparently the Register will be (or may be) asked for after Code suppl is pub. I advised keeping indexes separate from the vols they cover + pointed out the advantage of having the vols as small as could be afforded - so as to be easier to handle. She decided to have them put together eith acco - fasteners if these can still be had. Answered Ms. Evans inquiry as to accession nos. Rec'd note from Miss Baker as to Lib. count of Law Lib. books June 30, 1942. - Amounts to one more than I had estimated.

Rec'd from Main Lib. a dup. cop. of Tenn. Univ mag. – v.10 no.8 May 1887 contaning an article by E. J. Sanford giving acts relating to appointment of Trustees U.T. + its predecessors. 1794 – Apr 1897. Was glad to have it to check our list with. It contained only 2 entries, we had no note of, both from vols we do not have. Also gives a list compiled from Whites Early list of U.T. (I redent and no cop. of this can now be found in U.T.) giving names of trustees not appearing in Acts, and gives data from Board of Trustees reports says private acts of of the earlier revision should be examined and House + Senate Journals. In conclusion he acknowledges use of T.D. Morris MS compliation of Statutes relating to hist. of UT. Now why werent we told about this M.S. when we were asked to compile a list like it! (Learned Pates that J.D.M said our list letter, so discarded his.) Phoned Main Lib to say Dean Witham wants to know whether Reports of War Labor Board have been pub. and if so, whether they can be deposited in Law. Lib. Later, I concluded that what he wanted was in the CCH Loose leaf. –

Not worth sending cash No fines and only 1¢ ink. Made room in RT for new ed. of Sutherland Stat. Law – left old ed also, as it has table cases + new one doesnt.

U.S. Supreme Ct reports + examining our set of U.S. L. ed. as to condition of binding, v.1-60. Wrote Miss Bergen as to vols of Tenn Rpts cop. 6 just rec'd being accessioned when other vols of some cop were not (corrected this statement afterward) also told her that it seemed better in future to build up cop 10 before cop.6 - that when Judge Jones' full set was acc'nd, they wanted it to be called cop. 5 + so changed cop. 5 (Dean's cop) to cop. 10 - I thought Dean wouldnt mind not having these particular vols but hoped Main could give his set priority in future.

I said no – so he moved + came to desk to protest that others did it. He seemed satisfied when I explained that his being there put temptations in the way of the others. Looked up schedules for substitute 1941+1942. In 1941 Lib was open Aug 1 – 9 : 8-12, 1:-5, Sat 8-12, Aug 11-20 9-12 1-5 7-9:20 In 1942: Aug 1 -20 (noon) was open 7 - 9:20 all through + 8 – 12:30 on Sat. 1 Dean Witham having a panel meeting in his office, goes Again Friday. Exams Dean said will be Aug 18, 19, Wed + Thurs. and there are no grads. Miss Baker asked about night opening - I said didnt know whether it would be wanted those days or not. She said let her know if I found out by Thurs. She goes Thurs. P.M. - gets back about Sep. 1. - that will be short handed then - some away + some at Arg. Eug Libr. I said maybe we could shorten day time hours - or manage someway. Mr. McIntyre + Caldwell said students had been talking some about wanting Lib. open at night for exams. Told them to make up their minds and ask the Dean if they couldnt get along without it. They were the only student readers. A TVA man came. Yesterday another visiting librarian, accompanied by deans + Mr. Wicker. (Mr. W. told me afterward he though he was Ass't librarian, U.S. Dept Agr.) In course of comments by him + Dean W. some ref. as made to U.S.D.A Solicitor's off. – I said that sounded like home + he knew Miss Barnett, Miss Hawks, Miss Lacy (all retired) and Miss Feldkamp (still there) He was introduced to me as "Mr. Jesse" (spelling?) Mr. Hobbs doesnt want to be in Lib. over noon hour. I think we can arrange to close Lib. at noon next week. Got some information from Judge Jones about Fetter pub. co reprint of Tenn. reports. Sent Miss Bryan corrected information about U.S. App. aud C.C.A sets – think I told her wrong over phone yesterday. Asked D. Harris to send envelopes for campus correspondence. Some of the Van Deventer books received turned out to be dups of those we already had. – In working occasional mornings at the Main Lib., I had been sorting out those that were dups. from those to be cat'd for us but before I had finished, I found that Mr. Wells had been asked to bring some up to cat. room, and he had taken some I hadn't looked over. I said nothing about it then, supposing catalogers had been informed we wanted no dups, but evidently they hadnt. – Not many dups have come + hope this is all – Reported statistics to Main Lib. Miss King phoned making further inquiry as to Ky election laws – same question asked Tues. by Lawson McGhee which had been passed on to TVA. After some search discovered the item under question was stated in one way in 1934 statutes so concluded it must have been changed in 1936 session which we haven't "ref-gen". Lawson McGhee called too, later, I asked if the inquiry question came from out of town. Rec'd manila envelope supply for campus correspondence. Miss Goelring phoned that Miss Turner's pay for Aug would be ready for her next week if she wanted it. Mr. Ambrose used Lib. for S.F. Fowler. Mr. Wicker brought Judge Green's MS for four more judges + wanted dates checked. Called it "search." I was asked also to read the M.S. and make suggestion for editorial improvement. Did so for 3 of them. – did not finish 4<sup>th</sup>. Mr. Orr finished framing pictures of Knox Co. bench and bar, 1900 – He also reported some old wiring of lights in basement had caused short – circuit – but only what he could remedy. I advised reporting it to Mr. Kirkman + Mr. Wicker who was present said Pres. Hoskins recently stated he expected this building to catch fire some day from old wiring which had been the cause of recent fires in other U.T. buildings.

About half of afternoon hunted for biog. data on Judge J.J. Gore to verify dates + names in Judge Green's paper. Found nothing. Called it General Ref. Returned Judge G's MS to Mr. Wicker with 17 ABA Jour. to take to Judge Green or not for Fowler's paper on E.T. Sanford. Mr. Wicker attends a meeting of Lib. ctte tomorrow, had some data on Law College subscriptions + their cost from Miss Ringo. I gave him a list of periodicals paid for by Lib. to T.L.R. – and a partial list of pocket supplements, - as many as I could locate hastily, so he could see whether Miss Ringo's list covered all. He thinks Law College Book found of \$1500.00 this year will not cover the whole list. Dean Witham has asked National Labor reporter be ordered – Nothing so far rec'd gives full decisions + arguments of War Labor Board cases. C.C.H. Labor cases v.6 came by mail to Law Lib. – put it in campus mail for main. Sent Tracy Hints on law suit + McCarthy's Law office. Management to Main Lib. to be put on "Reserve" this term, Mr. Wicker + Dean Witham consenting. Dean Witham turned over to Lib. a pile of War Labor Bd. Releases, to be sorted + useful parts kept. Judge McAnis used Lib. Worked on Temple bibl.

12:45 – 5:30 E. L. Ogden  
Campus mail. Asked Mr. Wicker if any use to look up advts of new books. He said yes – that committee had agreed Law might have \$500 out of general library fund in addition to the \$1000 specified in the budget for Law + that Dean Smith is asking the Trustees for an additional appropriation for the library because enrollment is larger than expected, and that some share of that would come to Law if the request is approved. Dean Witham had letter from pub. of National Labor reporter saying the annual subscr. Is \$75.00 (or thereabouts) subsc. to War labor reports (giving full text instead of summaries of Nat'l War Labor Bd. Decisions) would be \$117.00 a yr I told Dean that as it was needed in his work for the Board, that full reports should be sent him free, if pub., and should be paid for by the Board if not officially available. Mr. Wicker saw the letter while we were talking about budget and was empahitic that it couldnt be afforded this year. Made some notes about possible reduction of subscriptions to up-keep services but am afraid the ones we need least are paid for to T.L.R. who needs the money. So practically no progress made.

Asked Mr. Wicker if he thought it necessary to continue subscriptions to loose leaf like + Fischer and Prentice Hall Trust Service. He said probably not. I wrote Miss Ringo to find out annual cost of their up keep. Sorted adot. Circs. Mr. Wicker would like passages appropriate for fillers (TLR) called to his attention.

Judge Burnett and Mr. John Ayers (contract) used Lib. A long call from Mr. Jesse He wants to have meetings – weekly to start with, of Lib dept. heads and bureau librarians or exchange of information + wanted to know what hours available. He suggested Friday afternoon, but would have to find out when others (Eng'ing + Agr.) could come. I said (perhaps rashly) that HHT + I would arrange our schedules to fit. That was when I thought he meant only one meeting, to start – but I did not take it back when I learned the meetings were to be frequent. He asked about the number of hours we each worked + how it came about. I gave him some facts about the combination of the two libraries in 1931 + said as well as I could remember our schedules were settled at Miss Heiskell's death and hadn't been changed since. Took occasion to call attention to the fact that HHT ought to have leave with pay. Showed him "Guide to Lib." in case he wanted to know more details. He said be sure to ask Miss Turner to come in to see him next time she was at the Lib. but not to come on purpose. He was sorry he hadn't met her.

Reported to Miss King that I could not find the text, but they were mentioned in Halsbury's Hist. Eng. Law + Halsbury's Laws of England - the laws wanted were subsequently repealed. She will ask Mr. Pope if he wants to see these and if so I agreed to lend them Dusted current periodicals. Mr. Orr will report broken window card - opposite card cat. Yesterday answered R. Ringo's note as to social research, it is on TLR mailing list and we will send for missing nos. when Main tells us what is wanted. - Mrs. M. has the list, when I asked her about this she said briefly, I dont know. I added How am I to find it? + then she got out the list, saying that Mr. Wicker had cut out some names with out consulting anyone. He had referred me to her saying Dean W. had cut out some without consulting anyone. Seems to be some irritation there perhaps too many fingers in the pie. Suggested that if Main could spare a stamp "Law" such as used on book plates, this could be used here along with old stamp. Dean Witham has rec'd U.T. Register 1943/44. No other cop. rec'd in Law Lib. If no other cop. comes soon told Mrs. Morris I'd ask one from Main Lib as our generally comes from there. Yesterday made out list of books approved for order at Fac. meeting + gave it to Mrs. Morris. Wrote note to Miss Ringo as to certain items on the list. Dean Witham asked comment on a letter from Mr. Broadway asking cooperation in a project collecting information from local bar ass'n grievance cttes, Got more information this A.M. about the ctte. Broadway project. Discusses its nature with Dean Witham and the amount of work involved. He had Mrs. Morris show me a MS report of am Ass'n Amer. Law Schools Ctte of which Dean W. is chairman( Ctte on cooperation with Bench + Bar) which authorized Mr. Broadway to do this work. He didnt suggest any help from Law College - + suggested I consult Mr. Jesse - which he agreed to (shall I say welcomed?) So I copied one extract from the typed MS report, dated Sep. '43 and is to be presented at the Dec. meeting (if any) of the Ass'n. Dean said the Ass'n had made Mr. B. a small grant for this work. So I wrote a memo for Mr. Jesse giving all the information I had about the project and the situation of the law Lib. Kept a copy of my memo to file here. Will take memo and Mr. Broadway's letter to Mr. Jesse when I go to meeting of Dept heads this P.M. N.B Morrell used Lib (contract) also mr. Webster (for J. Carr, contract).

Library periodicals circulated to them notify Miss Ringo. Those mentioned are Lib. Jour., College and Research Lib., Lib. quarterly, Special libraries. - Say which. Discussed whether permissible to read in Library time. Left to discretion of individual, as far as Mr. Jesse is concerned, OK if it doesnt interefere with proper service. Engineering Lib may have to be open nights if the new engineers are not assigned to study periods then. Miss Berger told of meeting attended in Nashville to exchange ideas on ways of simplifying cataloging. Looked up 1941 Code of Fed. Regulations title 46-50. Rec'd as a doc., Cat card stated only 1941, without specifying titles; Miss Bergen said not in cat room awaiting cat'ng. Didnt look at shelf list. Looked a Fed. At Main Lib. meeting 4 - 5 PM. Miss Goehring announced due date for books is set Dec. 17. (I think Law better hold to Dec 16.) Miss Ringo announced Lib. staff meeting for evening of Dec. 17 to prepare for xmas family - not yet selected. Place of meeting not yet selected. Miss Bergen said certain new bibliographical pubs. are in cat. room temporarily for staff to see before they go to shelves; circ. of library periodicals not yet started. - will send Law all till we decide. Mr. Jesse announced Miss Jordan + Miss Karsten (?) both gone to better paid jobs. Their places filled temporarily by clerical, not professional, help, but when opportunity serves, will be filled professionally. Present new ones are Mrs. Miles and Mrs. Kirkland, wives of recent fac. members in service. Mrs. Kirkland will check periodicals (to be moved from downstairs to vestibule behind loan desk) and Jan. 1 a Miss Aikeu (clerical) comes to do binding. Both Mrs. K + Miss A will work under Miss Ringo. Mr. Jesse said xmas vacations are to be 4 days each in addition to Dec. 23, 24, 25 where he says all buildings will be closed. But Miss Baker says Army Engineer students are to have xmas day only, and she wants to be away 23+24 too. Substitution will be difficult because staff is short handed. - There were various offers of substitution + Mr. J said he + Miss Goehring would work out a schedule. They discussed the possibility of branch libs getting extra cards for books on their subjects kept at mian - difficulties are houring to make special orders for cards wanted + perhaps too much work for and expense for the advantage gained. Next meeting to be Jan 7 unless otherwise notified. After the meeting I told Mr. Jesse I would make out a schedule for our vacations at Law - that I knew we had more available time for substitutions than others but I had counted on having some time with both of us here when I could shift books. Miss Goehring said a Wis. lady Mrs. Stoll (?) had asked about using Lib on her thesis for Univ. Wis. + she would want to use Law Lib.

Some one, not Legal division I think, TVA called up at noon to ask about Marriage laws of Ohio, and I suggested she come here, and we would help her to find what she wanted. She was very reluctant to take this trouble and suggested I investigate and report to her from various scences - but I still advised her to come herself, and said staff would be glad to assist her. The odd thing is that she was disinclined to state that she was from TVA. I had to pin her down - ! Worked on Temple bibl.

Read Daily Record entries Jan - Aug 19, 1937 to get notes of books lost. Takes too long to justify doing it for years for which we have data.

Lib. closed Dec. 23 – 26 inclusive (all U.T. bldgs. Closed these dates) Campus mail. Mr. Hobbs + Mr. Reed in A.M., Judge Jones, Mr. Wicker, Mr. Blackard in Lib. once or more; No one in Dean off. all day so telephone active. Question of spelling of subpoena recurred – this time it was Dr. Greene who called – It seems the McFarland MS spelled it without the o consistently throughout the MS (almost 30 times) Mr. Wicker said he recalled having seen this spelling used – he found it given in a Frank + Wagnall's dic. 1924 or there about. and thought the author must have used it on purpose + it was allowable to print it so. Dr. Greene had been checking citations + found mistakes. He may come over to check citations to cases. Mr. Wicker had had his cop. of the MS printed and proof sent to author who asked for it – and wanted a "preprint" not wating for Law Rev. no which will be pub. in Feb. Continued and finished looking over Fed. Reg. Jan 42 – Mar 43 for Main Lib. to bind.
