FOREWORD

This 1981-82 Directory of Tennessee Municipal Officials is the 37th issue of the directory series. It is compiled from information submitted by the state's 334 municipal governments. Every effort has been made to make the entries current, complete and correct, but for cities that did not return data, it was necessary to rely upon the latest information available in our files.

To all city recorders and other officials who have contributed information, we are grateful. Without the cooperation of these officials, publication of the directory would not be possible.

Copies of the directory are available on a complimentary basis to officials of all Tennessee municipalities and counties, to agencies of Tennessee state government, and to public libraries. Others wishing to obtain the directory may do so on a prepaid basis. The directory is updated monthly through Tennessee Town & City magazine, official publication of the Tennessee Municipal League, 226 Capitol Boulevard, Room 317, Nashville, Tennessee 37219.

Comments and suggestions regarding the directory's use and improvement are welcomed.

GUIDE TO USE OF THIS DIRECTORY

After the name of each city is the county, in parentheses, in which the city is located. Next is a letter showing in which grand division of the state the city is located, East, Middle, or West. The figure following this letter is the population (see second paragraph, this page). Next is the date of the next election; for example, "Elec. 5/81" means the next election will be in May 1981. The last entry on this line is the area code and telephone number of the city hall or office. If there is no city hall or office, the number is for an official's home or place of business. On the second line is the time and place of the meetings of the governing body and the zip code. On the third line is any closing of city offices (other than the usual Sunday and holidays). This information was not obtainable for some cities and some cities do not have a city office.

Population data are presented on the following two pages; one in alphabetical order and on the other in descending order according to population. These population figures are as of July 1, 1981, as certified by the Tennessee State Planning Office. The next page lists cities by counties under the three grand divisions of the state.

GUIDE TO USE OF THIS DIRECTORY

After the name of each city is the county, in parentheses, in which the city is located. Next is a letter showing in which grand division of the state the city is located, East, Middle, or West. The figure following this letter is the population (see second paragraph, this page). Next is the date of the next election; for example, "Elec. 5/81" means the next election will be in May 1981. The last entry on this line is the area code and telephone number of the city hall or office. If there is no city hall or office, the number is for an official's home or place of business. On the second line is the time and place of the meetings of the governing body and the zip code. On the third line is any closing of city offices (other than the usual Sunday and holidays). This information was not obtainable for some cities and some cities do not have a city office.

Population data are presented on the following two pages; one in alphabetical order and on the other in descending order according to population. These population figures are as of July 1, 1981, as certified by the Tennessee State Planning Office. The next page lists cities by counties under the three grand divisions of the state.
