The M.F.A. program at the University of Tennessee was initiated in 1964. This year the Department of Art is graduating five students from this program. The department is proud to present the fifth series of M.F.A. Thesis Exhibits to be shown in the Ewing Gallery of our Art and Architecture Building. These exhibits are the culmination of three years of intensive study by each student, and demonstrates what we feel is an attitude among all the disciplines that encourages personal aesthetic exploration and individual stylistic approach.

This catalogue came about at the initiative of the graduating students and our Gallery Director, Sam Yates, and is intended as a final documentation of their achievements. On behalf of the faculty, I would like to congratulate these students for their initiative and growth and for the diversity and quality of their accomplishments. We feel that they will continue to be productive artists.
