RE: March 8th Meeting of Commission on Blacks

I believe the following items should be included on the agenda for that meeting:

1. Followup of the discussion with the people from Veterinary Medicine, especially concerning their apparent lack of interest and/or knowledge of Affirmative Action.
2. The power and influence of the Affirmative Action Officers. In more general terms, ways that the Affirmative Action Plan is being implemented and enforced.
3. The damage that has been done to the Knoxville Black Community by the apparent disinterest in recruiting black athletes from the East Knoxville area.
4. I would leave it to the discretion of the sub-committee and yourself whether there should be a followup of the items discussed with the people from the College of Agriculture.
