Report prepared by SSC Myers

Analysis and summary of report - Sharron Hodson - Fitzgerald

The list of faculty and student enrollment seemed complete. Refer to tables I & II It was noticed that there is a decrease in enrollment average black males and a considerable increase in enrollment among white females. It was noticed that Except for "80-81" where there was a considerable increase in all genders and race.

There is limited information concerning rank, only those that are commissioned (those promoted beyond a sergeant.) appeared. My question is are there any Enlisted persons or are all persons entering the ROTC program considered an "Enlisted" person.

There was no information concerning how many completed the ROTC Program requirement. My question how many student/graduate other than those that are commissioned continue in the military; how many leave for other occupations? It was noted that of the 13 Black student that were commissioned twelve are still in active duty and one has been discharged. Discrepancy of the data.

Recommendations:

Besides answering some of the above questions, to avoid the use of many abbreviations, to help in an identification of ranks. Also need more classification of term discharged/disenrolled.
Define scholarship vs. stipend
