Leadership and Elected Members present: Chair Jamie Coble, Past Chair Ken Baker (by proxy Jamie Coble), Vice Chair Dawn Coleman, Brian Ambroziak (by proxy Katherine Ambroziak), Justin Arft (by proxy Dawn Coleman), Doug Ayres, Richard Bennett, Quinten Bernhold, Mari Beth Coleman, Jochen Denzler, Manolis Doxastakis, DeLisa Hawkes, Terry Higgins, Will Jennings, Yingkui Li, Ashley Pennell, Jennifer Richards, Jon Ring (by proxy John Scheb), Kimberly Roberts, Craig Ruff (by proxy George Drinnon), Alex Scott, Brittany Shelton, Kimberly Sims (by proxy George Drinnon), Vandana Singh, Jason Strickling, Anna Szynkiewicz, Jonathan Walton, Josh Weinhandl, and Nick Zhou (by proxy Richard Bennett)

Ex-Officio Members present: Patrick Akos, Katherine Ambroziak, George Drinnon, Lars Dzikus, Ozlem Kilic, Julie Longmire, Brendan McConville, Ferlin McGaskey, Robert Mindrup, Phillip Moore, John Scheb, and Michelle Violanti

ROTC Units Member: Mike Ecklund

Student Members present: none

Others present: Laura Brown, Katie Cahill, Alison Connor, Ross D’Aveni, Brian Francis, Betsy Gullett, Jake Haramule, Travis Holsapple, Jonathan Hughes, Claire Mayo, Shanna Pendergrast, Alysa Schoenfeld, Lisa Slaton, Molly Sullivan, and Merrill Walker

Welcome and Call to order: The meeting was called to order by Jamie Coble, Chair, when quorum was determined at 2:30 pm.

Committee Reports and Approvals:

Academic Policy Committee
The Academic Policy Committee presented minutes from their January 31, 2024, meeting. One low impact Content and Text Change proposal was approved – “Add Information on Academic Appeals”. This proposal adds information to the catalog Academic Policies and Procedures page to address retroactive withdrawal appeals and dismissal appeals. The proposal was approved.

Curriculum Committee
The Curriculum Committee presented minutes from their February 6, 2024, meeting. The Committee presented proposals from most of the colleges and other academic units. A small number of friendly amendments were made to the proposals, which are shown in the appropriate Curriculog proposals. Two proposals were withdrawn by the College of Architecture and Design. Ten new subject codes were approved: DH, EMER, GAME, HDFS, IEC, JMED, LARN, ORPM, STHS, and SUST. All proposals were approved.
Volunteer Core Committee
The Committee presented minutes from their January 31, 2024, meeting. There were 97 courses approved to be added to Vol Core and 4 courses approved that had changes. All proposals were approved.

Informational Items:

Three of the four informational items on the agenda were presented.

1. Advanced Placement (AP Exam) Credit
2. Process to Handle Corrections to meet Urgent SACSCOC and Vol Core Requirements
3. Reactivate the Department Page for Africana Studies

Adjournment: Jamie Coble adjourned the meeting at 2:54 pm.

Approval of minutes: These minutes were certified correct via email on February 23, 2024.

Call to order: A regular meeting of the Volunteer Core (General Education) Committee was held via online meeting software on January 31, 2024. The meeting was called to order by Chair Michelle Violanti when quorum was met at 9:00 am.

Members and Subcommittee Chairs present: Chair Michelle Violanti, Justin Arft, Sarah Colby, Mari Beth Coleman, Chuck Collins, Alison Connor, Michael Danquah, George Drinnon (by proxy Merrill Walker), Lars Dzikus, Megan Fields, Ozlem Kilic, Julie Longmire, Mike McFall, Robert Mindrup, Sean Morey, Barb Murphy (by proxy Alvaro Ayo), Lee Murphy, Shanna Pendergrast, Craig Ruff, Brittany Shelton, Carrie Stephens, Jason Strickling, Kelley Strohacker, Liem Tran, Erin Whitaker, and Nick Zhou

Others present: K'Cindra Cavin, Jamie Coble, Dawn Coleman, Jake Haramule, Jonathan Hughes, Margie Russell, and Molly Sullivan

Voting Items: Changes to Approved VolCore Courses:

4 courses were approved for Vol Core as noted.

Quantitative Reasoning (QR)

1. ESM 250 Applied Statistical Concepts for Decision Makers (new course code, number, and title, equivalent to ESM 350 which is being dropped)

Applied Oral Communication (AOC)

1. BUAD 307 Honors: Insight: Becoming Personally and Professionally Aware as a Leader (honors version of BUAD 300, which is already approved for AOC)
2. CSM 486 Construction Science Capstone (replaces CSAS 486)
3. NE 472 Nuclear System Design II (already approved for AOC, changing credit hours from 3 to 2)

Voting Items: Course Approvals:

95 courses were approved for Vol Core. For crosslisted courses, only the primary course has been included in this count. The exact breakdown per Vol Core category, including any secondary courses and/or equivalent courses, is listed below.

Applied Arts and Humanities (AAH)

1. CYAL 305 How to Write for Children and Teens

Note: MUTH 250 was on the agenda under AAH. There was no vote on this course because there was no revision to the application. Therefore MUTH 250 was not approved.

Applied Oral Communication (AOC)

1. ALEC 300 Careers and Professional Development
2. GEOL (EEPS) 444 Teach the Earth
3. HTM 410 Sensory Branding and Marketing in Hospitality and Tourism Management (title is changing to Strategic Planning in Hospitality and Tourism)
4. INSC 380 Information Management in Organizations
Arts and Humanities (AH)

1. ANSC 185 History of the Horse
2. ARTH 483/ARTM 483 History of Museums and Collections (ARTH is primary)
3. ENGL 150 Appalachia Now
4. ENGL 250 Popular Fiction
5. ENGL 346 The Gothic
6. HIST 397 Honors Studies in History
7. IARC/IARN 221 Theory of Color
8. IARC/IARN 222 Interior Perspectives on Art
9. WLC 300 Global Texts and Cultures (MFLL 300 is being dropped, replaced by WLC 300)
10. PHIL 200 Special Topics
11. PHIL 246 Ethics and Technology
12. PHIL 322 Medieval Philosophy
13. PHIL 346 Environmental Ethics (same as PHIL 348)
14. PHIL 348 Honors: Environmental Ethics (same as PHIL 346)
15. PHIL 350 Aesthetics
16. PHIL 353 Philosophy and Literature
17. PHIL 370/REST 370 Philosophy of Religion (PHIL 370 is primary)
18. PHIL 371 Epistemology
19. PHIL 372 Metaphysics
20. PHIL 373 Philosophy of Mind
21. PHIL 375 Philosophy of Action
22. PHIL 382/WGS 382 Philosophy of Feminism (PHIL 382 is primary)
23. PHIL 383 Philosophy of Disability
24. PHIL 392 Philosophy of Law
25. PHIL 441/GLBS 441 Global Justice and Human Rights (PHIL 441 is primary)
26. RUSS 341 Humor and the Absurd in Russian Literature and Culture
27. RUSS 352 Ukrainian-Russian Culture and Conflict

Engaged Inquiries (EI)

1. ANSC 480 Animal Behavior and Welfare
2. ARTH 483/ARTM 483 History of Museums and Collections (ARTH 483 is primary)
3. EPP 485 Advanced Forensic Entomology
4. GEOG 440 Global Perspectives on Urban Sustainability
5. HIST 309 Women in the Atlantic World, 1450-1850
6. JMED 175 Introduction to Journalism and Creative Media
7. PHIL 246 Ethics and Technology
8. PHIL 345 Bioethics
9. PHIL 346 Environmental Ethics (same as PHIL 348)
10. PHIL 348 Honors: Environmental Ethics (same as PHIL 346)
11. PHIL 383 Philosophy of Disability
12. PHIL 390 Philosophical Foundations of Democracy
13. PHIL 392 Philosophy of Law
14. PHIL 441/GLBS 441 Global Justice and Human Rights (PHIL 441 is primary)
15. PHIL 464/WGS 464 Feminist Philosophy of Science (PHIL 464 is primary)
16. PHYS 461 Modern Physics Laboratory
17. THEA 245 Introduction to Design and Production: Costumes and Scenery
18. THEA 265 Introduction to Design and Production: Lighting, Sound, and Media
19. WGS 383 Feminism and the Environment

Global Citizenship International (GCI)

1. ADPR 265 Communicating in a Diverse and Global Society
3. HIEU 303/CLAS 309 History of the Roman Republic (HIEU 303 is primary)
4. CLAS 362 Roman Law
5. PHIL 322/JST 322/MRST 322 Medieval Philosophy (PHIL 322 is primary)
6. PHIL 441/GLBS 441 Global Justice and Human Rights (PHIL 441 is primary)

Global Citizenship United States (GCUS)
1. ENGL 150 Appalachia Now
2. PHIL 390 Philosophical Foundations of Democracy
3. PHIL 463 Race, Science, and Medicine
4. WGS 383 Feminism and the Environment

Natural Sciences (NS)
1. EPP 135 (non-lab) Eaters of the Dead: Introduction to Forensic Entomology
2. FDSC 101 (lab) Science of Food Ingredients
4. GEOL 221 (EEPS) (non-lab) The Science and Cost of Energy

Oral Communication (OC)
1. AE 450 Introduction to Aerospace Design
2. ALEC 210 Oral Communication in Digital Environments
3. BME 450 Biomedical Engineering Design I
4. HIEU 344 History at Play – Critical Moments in Modern Europe
5. ME 450 Mechanical Engineering Design I

Social Sciences (SS)
1. HBS 101 Solving Public Problems
2. PHIL 365 Philosophy of Social Science
3. PHIL 390 Philosophical Foundations of Democracy
4. PHIL 441/GLBS 441 Global Justice and Human Rights (PHIL 441 is primary)
5. PHIL 463 Race, Science, and Medicine
6. PHIL 464/WGS 464 Feminist Philosophy of Science (PHIL 464 is primary)
7. POLS 372 Civil War and the International System: Rebellions, Resources, and Outside Intervention
8. POLS 473 Negotiation, Bargaining, and Diplomacy
9. REST 376 Buddhism

Written Communication (WC)
1. ENGL 260 Special Topics in Professional Writing
2. ENGL 268 Honors: Special Topics in Professional Writing
3. PHIL 322/JST 322/MRST 322 Medieval Philosophy (PHIL 322 is primary)
4. PHIL 348 Honors: Environmental Ethics
5. PHIL 350 Aesthetics
6. PHIL 353 Philosophy and Literature
7. PHIL 365 Philosophy of Social Science
8. PHIL 370/REST 370 Philosophy of Religion (PHIL 370 is primary)
9. PHIL 372 Metaphysics
10. PHIL 373 Philosophy of Mind
11. PHIL 375 Philosophy of Action
12. PHIL 392 Philosophy of Law
The University of Tennessee, Knoxville
Volunteer Core (General Education) Committee
Addendum to the Minutes of the Meeting on January 31, 2024
February 16, 2024

E-vote: An electronic vote of the Volunteer Core (General Education) Committee was held on February 13, 2024.

Members and Subcommittee Chairs present: Chair Michelle Violanti, Kristen Block, Mari Beth Coleman, George Drinnon, Megan Fields, Julie Longmire, Mike McFall, Sean Morey, Barb Murphy, Lee Murphy, Craig Ruff, Carrie Stephens, Jason Strickling, Kelley Strohacker, Erin Whitaker, and Hongping Zhang

Student Members present: Jenna Ciesla

Course Approvals:

Two courses were approved for Vol Core on February 15, 2024.

Global Citizenship United States (GCUS)

1. ARTH 472 History of 20th-Century American Art
2. ARTH 473 19th-Century American Art

Addendum to the Minutes Submitted by: Jake Haramule

Volunteer Core Meeting

Date: Wednesday, January 31, 2024 from 9:00 am to 10:00 am

Location: Zoom

Agenda

1. Update from the Chair
   - VolCore and Digital Learning
   - VolCore and Transfer Students (petition process)
   - Approval Calendar

2. Voting Item: Changes to Approved VolCore Courses
   - VolCore area: QR
**Current Course Code (ESM), Number, Title:** ESM 350 Applied Statistical Concepts for Educators Already approved for QR as recorded in UGC Minutes of 2/14/2023; changing course number, see ESM 250 below

**New Course code, Number, Title:** ESM 250 Applied Statistical Concepts for Decision Makers New course, not yet approved for QR but is equivalent to ESM 350 (already approved for QR); 350 is being dropped and replaced with the equivalent 250.

- **VolCore Area: AOC**

  Approve BUAD 307 (honors version of BUAD 300, which is already approved UGC minutes of 10/20/2020)

  [BUAD 307 - Honors: Insight: Becoming Personally and Professionally Aware as a Leader](#)

- **VolCore Area: AOC**

  Approve CSM 486 to replace CSAS 486, which was approved Spring 2023

- **VolCore Area: AOC**

  Nuclear System Design II

  NE 472 credit hour change from 3 to 2 Already approved for AOC 2/1/2021; only the number of hours is changing

3. **Course Approval: Applied Arts and Humanities.** Proposal Documentation for each of these is available online in the [shared folder.](#)

15. **Withdrawn Courses**: I am proposing that we send withdrawn notices to everyone who has an upload or revision date of 2019, 2020, 2021, and 2022. People who were working on proposals in 2023 may still elect to resubmit.

16. **Upcoming Discussion Item: Populating Committee and Subcommittees**

Unlike Undergraduate Council, Volunteer Core does not have a specific mechanism for populating its Chair positions and subcommittees. We need to create a mechanism and policy for making sure there is inclusive participation from across colleges. Possibilities might include representation based upon % of approved VolCore courses per college, % of VolCore FTEs from previous year per college, % of faculty per college, % of FTEs per college, set number from each college, representation based upon courses approved for a category, and anything you can think of. We need to make this decision so it can go into effect for the 2024-2025 academic year.

17. **Upcoming Discussion Item: Transfer Process**

While most of the transfer process is running smoothly, AAH, AOC, and EI were created to be distinctive at UTK and are posing transfer problems because of their uniqueness. There is a working group currently addressing potential barriers for transfer and degree completion students. We need to discuss what input the VolCore committee has for the working group. Additionally, there are Advanced Placement (AP), International Baccalaureate (IB), Cambridge, Statewide Dual Credit Examination Program, College Level Examination Program (CLEP), and Specific Industry Experience Certification Exam credit options. Should the decision about whether these count for VolCore credit reside with the units or VolCore? Should these be petitionable when UTK posts on the transfer website how they are going to count?

18. **Next Meeting: Wednesday, February 28th**

19. **Adjournment**
Purpose of Form:

This form can be used for changes to pages such as "Academic Policies and Procedures", "About the University", and "Admission to the University", as well as faculty names, addresses, phone numbers, and websites on other pages.

Type of Change Requested*  
- New Content to Be Added to the Catalog  
- Content to Be Revised in the Catalog

This request should be applied to:*  
Next year’s catalog
Page Information

Where will this NEW or REVISED content appear?*
- Existing Page
- New Page

If content is being added to an existing page, copy & paste the URL of the catalog page where it will go.

https://catalog.utk.edu/preview_entity.php?catoid=43&ent_oid=4895&returnto=8250

Indicate the location on the page(s) where this information will appear.

If an existing page should be removed entirely, copy & paste the URL here.

If content is being added to a new page, indicate what the name of that page should be:

Approval Information

Additional approval(s) required?*
- Yes
- No

If Yes is selected in the field above, please provide further information:
Directions to Propose Content Changes:

1. Copy and Paste the current content from the Catalog as it appears online into the field below. Do NOT make any edits to the text until step 4.

2. Click on Save (this will ensure that original content is saved).

3. After you have completed all required fields, Validate and Launch your proposal.

4. Apply and format the changes directly to the text. Be sure to format the content exactly as it will appear online.

5. After you have completed all edits to the text, be sure to approve your proposal in the decisions tab on the right.

Adotey, N., PhD – Louisiana State
Distinguished Lecturers

Sherfy, A.C., MS – Tennessee

Senior Lecturers

Smith, A., MS – Tennessee

Lecturers

Sain, D., MS – Tennessee

The Department of Biosystems Engineering and Soil Science offers three undergraduate degree programs – Bachelor of Science in Biosystems Engineering, Bachelor of Science in Construction Science and Management, and Bachelor of Science in Environmental and Soil Sciences. The Bachelor of Science in Biosystem Engineering (BSE) is accredited by the Engineering Accreditation Commission(s) of ABET, https://www.abet.org, under the General Criteria and the Biological Engineering Program Criteria. BSE emphasizes engineering applications to complex biological systems. Construction science and management is a four-year program for students interested in construction management. Environmental and soil sciences is a strong science-based program for students interested in environmental science or soil science. A minor in environmental and soil sciences is also available. More detailed descriptions of each program are included with the curricular material that follows.

Additional Notes

The text change associated with ABET accreditation (see quoted text below) should be made everywhere in the Catalog that there is reference to ABET accreditation of the BSE program. "The Bachelor of Science in Biosystem Engineering (BSE) is accredited by the Engineering Accreditation Commission(s) of ABET, https://www.abet.org, under the General Criteria and the Biological Engineering Program Criteria." This includes the following: BSE Major without concentration; https://catalog.utk.edu/preview_program.php?catoid=43&poid=25464&returnto=8250; BSE Major with Pre-Professional Concentration: https://catalog.utk.edu/preview_program.php?catoid=43&poid=25465&returnto=8250; the Herbert College description of programs: https://catalog.utk.edu/content.php?catoid=43&navoid=8250

Changes for Catalog

Change GRADE APPEALS to ACADEMIC APPEALS

ACADEMIC APPEALS

- Grade Appeals

{No change is being proposed}

- Retroactive Withdrawal Appeals

As detailed in the Academic Policies and Procedures section of the University Catalog, students are allowed considerable time to withdraw (W) from a course during a semester as well as the ability to withdraw from all courses (total term withdrawal) through the final regular day of classes. Students who appeal for retroactive withdrawal are appealing for the opportunity to withdraw from courses without having completed any of these withdrawal options. Since this represents a significant exception to the catalog, such requests must be reviewed by the Undergraduate Council Appeals Committee and certain documentation is required which demonstrates significant extenuating circumstances as well as an inability to withdraw from the course during traditional deadlines. For additional guidelines regarding this appeals process, please visit this page (https://studentsuccess.utk.edu/academicsuccess/academic-appeals/).

A Retroactive Withdrawal Appeal does not reverse an academic dismissal. Students who have been academically dismissed from UT and want to appeal to return to take classes without sitting out the required dismissal period must submit a dismissal appeal.

- Dismissal Appeals

Students who are academically dismissed are strongly encouraged to sit out for their dismissal period to ensure a successful return to UT. A dismissal appeal represents a significant exception request which, if granted, permits a student to seek immediate reinstatement to the university. Dismissal appeal requests are reviewed by the Undergraduate Council Appeals Committee and certain documentation is required. Please visit this page (https://studentsuccess.utk.edu/academicsuccess/academic-dismissal/) for further details.

New revised text change as of 01/29/2024 (refer to attachment for final version of revised text):

Change GRADE APPEALS to ACADEMIC APPEALS

ACADEMIC APPEALS

- Grade Appeals

{No change is being proposed}
As detailed in the section of this page regarding withdrawal, students are allowed considerable time to withdraw (W) from a course during a semester as well as the ability to withdraw from all courses (total term withdrawal) through the final regular day of classes. Students who appeal for retroactive withdrawal are appealing for the opportunity to withdraw from courses without having completed any of these withdrawal options. Since this represents a significant exception to the catalog, such requests must be reviewed by the Undergraduate Council Appeals Committee and certain documentation is required which demonstrates significant extenuating circumstances as well as an inability to withdraw from the course during traditional deadlines. For additional guidelines regarding this appeals process, please visit this page (https://studentsuccess.utk.edu/academicsuccess/academic-appeals/).

A Retroactive Withdrawal Appeal does not reverse an academic dismissal. Students who have been academically dismissed from UT and want to appeal to return to take classes without sitting out the required dismissal period must submit a dismissal appeal.

Dismissal Appeals

Students who are academically dismissed are strongly encouraged to sit out for their dismissal period to ensure a successful return to UT. A dismissal appeal represents a significant exception request which, if granted, permits a student to seek immediate reinstatement to the university. Dismissal appeal requests are reviewed by the Undergraduate Council Appeals Committee and certain documentation is required. Please visit this page (https://studentsuccess.utk.edu/academicsuccess/academic-dismissal/) for further details.

Additional Notes

Dr. Ozlem Kilic has requested that language be added to the catalog that acknowledges appeals besides grade appeals. It is interesting that grade appeals are outlined thoroughly, but there is no mention of retro withdrawal or dismissal appeals. In speaking with Melissa Irvin, she suggested that perhaps drafting a general blurb about their existence and then directing students to the Academic Success Center (ASC) details would be a good place to start.

### Course Description

This course examines the phenomena of love and sex from multi- and interdisciplinary perspectives in Chinese and Sinophone cultures. Topics may include traditional and modern theories of love and sex, sexual identity and orientation, reproductive policies, sex work, consent, violence, and justice. Students critically evaluate the personal and social significances of intimacy and analyze the ethical, political, and cultural dimensions of love and sex through a variety of media in the global context. The course is conducted in English.

**Comments**

**Equivalency Chart**

**Rationale**
This course doesn't require the knowledge of Chinese and may be of interest to a wider student body at UT. It may serve as a gateway class that inspires students to take more Chinese courses.

Will seek to count for WGS majors.

**Impact on Other Units**
None

**Financial Impact**
A new faculty member hired in WLC/Chinese in Fall 2023 will offer this class.

The College of Nursing at the University of Tennessee, Knoxville, was established in July 1971 in response to a long recognized and well-established need for nurses prepared at the collegiate level. The undergraduate program at The University of Tennessee partners with multiple health care agencies in a manner that enables both faculty and students to participate fully in all facets of the health care delivery system. The program is accredited by the Commission on Collegiate Nursing Education at One Dupont Circle, NW, Suite 530, Washington, DC 20036, phone (202) 887-6791. The program is also unconditionally approved by the Tennessee Board of Nursing.

The baccalaureate nursing program has as its central foci the person, health, environment, and nursing. General education courses, nursing courses, and electives are organized in a
manner designed to promote and develop creative thinking and other cognitive, affective, and psychomotor processes that are essential for effective nursing practice and for full and meaningful involvement as a contributing member of society. A broad base of general education, a thorough study of human behavior, an emphasis on health maintenance, health promotion, and health restoration, and a strong family and community orientation are essential components of baccalaureate education in nursing. By maintaining a high-quality, relevant program that is responsive to the increasing complexity of health care delivery, the ever changing health needs of society, and the changing and expanding role of the nurse, graduates of the program are able to assume beginning leadership positions in nursing in a variety of settings; work collaboratively with other health professionals; function as socially conscious and contributing citizens; and pursue advanced education on either a formal or an informal basis.

General Requirements

Students enrolled in the Traditional Bachelor of Science in Nursing (TBSN) program are required to successfully complete eight semesters of full-time study or the equivalent in part-time study, of prescribed coursework, for a total of 120 semester hours. The minimum number of credits required for graduation is 120 hours.

All upper-division courses are restricted to students who have been approved for progression. (See Progression Policies and Procedures.) Second degree students enrolled in the Accelerated BSN (ABSN) program are required to successfully complete 47 credit hours after completing all prerequisite requirements. The program also offers a completely on-line degree completion program for registered nurses (RNs) who hold an associate degree in nursing or who are graduates of diploma nursing programs. RN students starting upper division coursework will receive proficiency credit for select clinical nursing courses and then must complete 34 credit hours of coursework.

Readmission

Students enrolled in upper-division nursing courses who left in good standing may be readmitted to the nursing major. A Reinstatement form must be submitted to the College of Nursing Student Services Office by designated deadlines. Dismissed students may not continue in the nursing program. Policies and procedures regarding academic dismissal and readmission are found in the College of Nursing Undergraduate Student Handbook.

Students who were enrolled in lower-division nursing courses when they left the University in good standing will be eligible for readmission into the nursing major. Dismissed lower-division students may no longer pursue a major in the College of Nursing.

uTrack Requirements

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Progression Policies and Procedures

Current standards are available from the Director of Student Services, College of Nursing.
Grading and Continuation Policies

1. If a student is selected for progression but then fails to successfully complete all lower division requirements (except for arts and humanities and cultural civilizations electives) prior to the fall semester, the student will not progress and must submit another application the following year.

2. Prior to the start of upper division 300 level courses, students must successfully complete a criminal background check, drug screen, and specific health requirements.

3. Students in the RN to BSN Track must be licensed to practice in the state of residence and/or employment prior to enrollment in clinical courses.

1. The minimum acceptable grade for all courses in the curriculum is a C.

2. Satisfactory/No Credit grading option is not permitted to meet degree requirements in nursing unless that is the only way the course is offered.

3. No nursing course may be repeated more than once.

4. Any student who receives a grade of C–, D, F, or NC for more than one nursing course will be required to withdraw from the program even if the previous course for which C–, D or F was awarded has been repeated with a grade of C or better.

5. If a student receives an Incomplete (I) in a nursing course, the I must be removed prior to enrolling in any course for which the uncompleted course is a prerequisite.

6. For undergraduate nursing students, 75% is the passing average grade in all nursing courses. * If a student fails to achieve the minimum 75% average on course examinations, the final course grade will be either C– (70-74), D+ (68-69), D (62-67), D– (60-61), or F (59 and below). The following grading scale applies to all undergraduate nursing courses.

<table>

7. If a student’s clinical performance for any nursing course is found to be unsatisfactory, the student will fail the Clinical Immersion course regardless of grades earned. If the unsatisfactory clinical performance is characterized by unethical, unprofessional, or unsafe behavior, behavior that actually or potentially places the client in jeopardy, the student will be required to withdraw from the program.

8. Requirements for competence in cardio-pulmonary resuscitation are included in the Undergraduate Student Handbook.

9. At periodic intervals specified by the faculty, students must take comprehensive examinations designed to predict success on the NCLEX (licensure) examination.

* Grading for NURS 250 and 251 will be consistent with grading requirements established by the Department of Ecology and Evolutionary Biology and Anthropology; students are
The Bachelor of Science in Nursing program is designed to fulfill The University General Education Requirements. Please see the current catalog for courses acceptable in the arts and humanities and cultures and civilizations categories.

**College of Nursing Honors Program**

The Nursing Honors Program will complement the Chancellor’s Honors Program and provide for the 2+2 design of the university program. Students can continue in the Nursing Honors Program after their first two years in the Chancellor’s Honors Program. Students entering upper division who have not been in the Chancellor’s Honors Program can apply for acceptance into the Nursing Honors Program for their junior and senior years. In addition to continuing Chancellor’s Honors students, a maximum of 10% of the junior class may be admitted to the Nursing Honors Program through an application/acceptance process. Students will be able to take 10-11 credits in upper division nursing honors courses, depending on the courses they select. The difference in the total will allow for student options depending on the number of credits completed toward the 25 credits required for the Chancellor’s Honors Program during their first two years as freshmen and sophomores. For the Nursing Honors Program only, a student must complete a minimum of 11 credits in honors courses.

</table>

**Insurance Requirements**

Students must meet specific physical examination and immunization requirements as specified by state law and by the rules and regulations set forth by the various clinical agencies. All students must participate in the university’s group professional liability insurance program. Specific information concerning these requirements will be provided to the students at appropriate times by the nursing faculty and/or the Director of Student Services.

**Course Load**

The maximum credit hours per semester for which a nursing student may register without special permission is 19.

Catalog Information

Type of Change Requested*  
- New Content to be Added to the Catalog
- Content to be Revised in the Catalog
This request should be applied to: *
- Next year's catalog
- Current published catalog
- Other catalog(s)

Other Catalog(s)

Page Information

Where will this NEW or REVISED content appear? *
- Existing Page
- New Page

If content is being added to an existing page, copy & paste the URL of the catalog page where it will go.
https://catalog.utk.edu/content.php?catoid=43&navoid=8328#Grading_and_Continuation_Policies

Indicate the location on the page(s) where this information will appear.
https://catalog.utk.edu/content.php?catoid=43&navoid=8328#Grading_and_Continuation_Policies

If an existing page should be removed entirely, copy & paste the URL here.

If content is being added to a new page, indicate what the name of that page should be:

Approval Information

Additional approval(s) required? *
- Yes
- No

If Yes is selected in the field above, please provide further information:
Directions to Propose Content Changes:

1. Copy and Paste the current content from the Catalog as it appears online into the field below. Do NOT make any edits to the text until step 4.

2. Click on Save (this will ensure that original content is saved).

3. After you have completed all required fields, Validate and Launch your proposal.

4. Apply and format the changes directly to the text. Be sure to format the content exactly as it will appear online.

5. After you have completed all edits to the text, be sure to approve your proposal in the decisions tab on the right.
Grading and Continuation Policies

1. The minimum acceptable grade for all courses in the curriculum is a C.
2. Satisfactory/No Credit grading option is not permitted to meet degree requirements in nursing unless that is the only way the course is offered.
3. No nursing course may be repeated more than once.
4. Any student who receives a grade of C–, D, F, or NC for more than one nursing course will be required to withdraw from the program even if the previous course for which C–, D or F was awarded has been repeated with a grade of C or better.
5. If a student receives an Incomplete (I) in a nursing course, the I must be removed prior to enrolling in any course for which the uncompleted course is a prerequisite.
6. For undergraduate nursing students, 75% is the passing average grade in all nursing courses.* If a student fails to achieve the minimum 75% average on course examinations, the final course grade will be either C– (70-74), D+ (68-69), D (62-67), D– (60-61), or F (59 and below). The following grading scale applies to all undergraduate nursing courses.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>92-100</td>
</tr>
<tr>
<td>A–</td>
<td>90-91</td>
</tr>
<tr>
<td>B+</td>
<td>88-89</td>
</tr>
<tr>
<td>B</td>
<td>82-87</td>
</tr>
<tr>
<td>B–</td>
<td>80-81</td>
</tr>
<tr>
<td>C+</td>
<td>78-79</td>
</tr>
<tr>
<td>C</td>
<td>75-77</td>
</tr>
<tr>
<td>C–</td>
<td>70-74</td>
</tr>
<tr>
<td>D+</td>
<td>68-69</td>
</tr>
<tr>
<td>D</td>
<td>62-67</td>
</tr>
<tr>
<td>D–</td>
<td>60-61</td>
</tr>
<tr>
<td>F</td>
<td>59 and below</td>
</tr>
</tbody>
</table>

7. If a student's clinical performance for any nursing course is found to be unsatisfactory, the student will fail the Clinical Immersion course regardless of grades earned. If the unsatisfactory clinical performance is characterized by unethical, unprofessional, or unsafe behavior, behavior that actually or potentially places the client in jeopardy, the student will be required to withdraw from the program.
8. Requirements for competence in cardio-pulmonary resuscitation are included in the Undergraduate Student Handbook.
9. At periodic intervals specified by the faculty, students must take comprehensive examinations designed to predict success on the NCLEX (licensure) examination.

*Grading for Nursing 250 and 251 will be consistent with grading requirements established by the Department of Ecology & Evolutionary Biology and Anthropology; students are required to receive a “C” in the course.

The Bachelor of Science in Nursing program is designed to fulfill The University General Education Requirements. Please see the current catalog for courses acceptable in the arts and humanities and cultures and civilizations categories.
**Administrative Use Only**

**Impact Level**

### Course Description
Architectural design as a creative process based on visual thinking and ideas related to space, technology, and/or place. Scope and definition of the built environment in relation to contemporary society, building industry, and allied design professions. Orientation to courses and programs of the school.

### Will this course be crosslisted?
- **Yes**
- **No**

### If yes, what is the crosslisting relationship for this course?
- **Primary**
- **Secondary**

**List all courses in this crosslisting relationship and note whether primary or secondary**

### Statement about Vol Core:
If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.
Satisfies Volunteer Core Requirement:

Contact Hour Distribution (if more than one instructional method)

Grading Restriction

Repeatability

Credit Restriction Students may not receive credit for both ARCH 101 and ARCH 111*.

Registration Enforced (RE) Prerequisite(s)

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s)  Architecture major or interior architecture major.

Registration Permission

Equivalency

Rationale* For years, the course was “Introduction to Architecture” required for both first year architecture and interior design students. In 1998, the Interior Design Program moved into the College of Architecture and Design. The course name was changed to “Introduction to the Built Environment” as an effort to be more inclusive for the interior architecture students. In 2017, the School of Interior Architecture created what is now IARC 101, which is required for the interior architecture students. Thus, ARCH 101 now has only architecture students.

### Equivalency

**Rationale** *(Name change is consistent with ARCH 101 proposal)* Originally, this course was titled "Honors: Introduction to Architecture" but was modified to "Honors: Introduction to the Built Environment" to be inclusive of interior design (now interior architecture) when the program joined the college in 1998. In 2017, the interior architecture program created its own IARC 107 course. ARCH 107 now only instructs architecture students.

College of Architecture and Design - INDS - 321
2024-2025 UG Revise Course

General Catalog Information

College*  College of Architecture and Design

Department (Acalog Hierarchy)*  School of Design

Subject/Prefix (choose from list)*  INDS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)*  321

Course Title (max 100 characters)*  Digital Representation and Fabrication for Industrial Design

Variable Title?  Yes

Credit Hours*  3

Course Description  Exploration of basic computer-aided design programs in the representation of three dimensions. The use of digital fabrication machines such as 3D printer, and CNC computer numerical control mill.

Will this course be crosslisted?  Yes

If yes, what is the crosslisting relationship for this course?  Primary

List all courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

2024-2025 UG Add Course

General Catalog Information

College* College of Architecture and Design

Department (Acalog Hierarchy)* School of Design

Subject/Prefix (choose from list)* INDS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 330

Course Title (max 100 characters)* The Art of Form and Function

Experience Learning Designation

- N (Internship)
- R (Research)
- S (Service Learning)

Variable Title?*

- Yes
- No

Credit Hours* 3

Course Description

Students will understand the interconnected relationships between function, form, and appearance of a product relative to human needs. Emphasis will be placed on understanding the factors of cognitive, physical, and sensory experiences that inform human factors and ergonomics.

Will this course be crosslisted?*

- Yes
- No

If yes, what is the crosslisting relationship for this course?*

- Primary
- Secondary

List all courses in this crosslisting relationship and note whether primary or secondary.
Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

## Course Description

This course explores the changing identity of Nature across cultures and times in order to speculate about what the future of Nature might be in the 21st century. The course surveys a wide range of historical concepts of Nature globally as well as new ecological, cultural, scientific, and technological conditions that require new ways of thinking about what Nature has been and will become. Students will be introduced to examples of first, second, and third nature, urbanatural, and other productive hybrid conditions that have emerged in order to rethink preconceived notions of Nature and formulate new ways of thinking about the subject.

Variable Title?* Yes

Credit Hours* 3

Course Description

This course is intended to provide students with an awareness and appreciation for contemporary landscape architecture. While the primary focus of the course will be from 1950 to the present, we will periodically reach farther back into history in order to better understand key historical precedent projects and designers that were or are influential to contemporary designers and projects. This course situates current practices through a survey of precedents, events and spatial developments across cultures and scales. In order to understand the projective discipline of landscape architecture, we must study how it has been informed, influenced and shifted over its relatively short existence.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary
List all courses in this crosslisting relationship and note whether primary or secondary.

**Statement about Vol Core:**

**Course Description**

Surveys the evolving socio-ecological conditions resulting from urbanization, climate dynamics, evolving economies and technological innovation. Landscape architects around the world increasingly engage these complexities in the built environment to create new possibilities for the economic, social, and environmental performance of landscapes in public, private, and infrastructural territories. Will use contemporary projects as a basis for understanding multi-scalar design approaches, technical details, and maintenance regimes. Emphasis will be placed on built landscapes and living systems as integral parts of more dynamic, resilient, and sustainable approaches to landscape design, implementation, and management across scales from the site to the watershed.

Variable Title?* Yes

Credit Hours* 3

Course Description
This course explores the changing identity of Nature across cultures and times in order to speculate about what the future of Nature might be in the 21st century. The course surveys a wide range of historical concepts of Nature globally as well as new ecological, cultural, scientific, and technological conditions that require new ways of thinking about what Nature has been and will become. Students will be introduced to examples of first, second, and third nature, urbanatural, and other productive hybrid conditions that have emerged in order to rethink preconceived notions of Nature and formulate new ways of thinking about the subject.

### Course Description

This course surveys a wide range of strategies and tactics being deployed to increase the sustainability of life on earth in the 21st century. From geoengineering to guerrilla gardening, students will learn about ways that cultures and societies are attempting to adapt to, mitigate, and reverse the deleterious effects resulting primarily from development, industrialization, and anthropogenic climate change.

College of Architecture and Design - LARN - 286
2024-2025 UG Add Course

General Catalog Information

College* College of Architecture and Design

Department (Acalog Hierarchy)* School of Landscape Architecture

Subject/Prefix (choose from list)* LARN

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 286

Course Title (max 100 characters)* Contemporary Landscape Architecture

Experience Learning Designation
  N (Internship)
  R (Research)
  S (Service Learning)

Variable Title?* Yes

Credit Hours* 3

Course Description
This course is intended to provide students with an awareness and appreciation for contemporary landscape architecture. While the primary focus of the course will be from 1950 to the present, we will periodically reach farther back into history in order to better understand key historical precedent projects and designers that were or are influential to contemporary designers and projects. This course situates current practices through a survey of precedents, events and spatial developments across cultures and scales. In order to understand the projective discipline of landscape architecture, we must study how it has been informed, influenced and shifted over its relatively short existence.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary
List all courses in this crosslisting relationship and note whether primary or secondary.

Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

February 20, 2024
College of Architecture and Design - School of Design - Graphic Design Studies Minor
2024-2025 UG Revise Program

General Catalog Information

College* College of Architecture and Design

Department* School of Design

Program Name* Graphic Design Studies Minor

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Graphic Design Studies is open to students from any discipline across the University of Tennessee, Knoxville interested in enhancing their major field of study with an understanding of graphic design. Students will receive a broad introduction to concepts, processes, modes of visual communication, and the influence of design in today's world without the intensive, studio-driven experience of the major. The 3 required lecture-based core classes couple with a selection of classes from across several colleges that allow further focus within the minor.

Students must have a cumulative 2.5 GPA and be a declared major outside of the School of Design in order to undertake the minor. Application to the minor is available via the online minor form for the College of Architecture and Design.

Students must successfully complete the following requirements (15 hours).
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Requirements*

Minor Requirements:

GRDS 150 The Idea of Design
GRDS 330 The Art of Presentation Design
GRDS 331 The Art of Identity Design

Select Two Courses:

ADVT 250 Advertising Principles
ARTN 231 Non-Major Intro to Photography
ARTN 264 Non-Major Intro to Screen Printing
ARTN 291 Non-Major Intro to Book Arts and Papermaking
CMST 201 Introduction to Communication Studies
CMST 210 Public Speaking
ENGL 455 Persuasive Writing
ENGL 466 Writing, Layout, and Production of Technical Documents
ENT 350 Introduction to Entrepreneurship
ENT 375 Introduction to Name, Image, and Likeness
ENT 415 Start-Overs as Start-Ups
ENT 451 New Venture Planning
INSC 311 User-Centered Design
JREM 175 Introduction to Journalism and Creative Media
JREM 330 Communication for Media
LAR 423 Visual Communication for Non-Designers
PBRL 270 Public Relations Principles
PSYC 314 Cognitive Basis of Behavior
PSYC 360 Social Psychology
PSYC 410 Sensory Processes and Perception

*Meets Volunteer Core Requirements.
Rationale*  Adding (4) ENT courses as elective options to our minor. These classes compliment the focus of the minor.

Financial Impact*  None

Impact on Other Units*  Management & Entrepreneurship

Received approval from Shawn Carson, Entrepreneurship Curriculum Director, on September 28, 2023. Approval documentation attached.

Have you consulted with all programs/departments that will be impacted by this change?*

Yes  No

ADMINISTRATIVE USE ONLY

Impact Level  

- Low
- Mid
- High

ACALOG Program OID  31962

ACALOG Program Status  Active-Visible

If approved, will this need notification/approval from any agency outside of UTK?

Yes  No

Admin Checklist  

- Banner entries completed
- Reported to Provost/THEC (notification form)
- Reported to SACS
Industrial Design Studies is open to students from any discipline across the University of Tennessee, Knoxville interested in enhancing their major field of study with an understanding of industrial design. The core classes will provide students with a broad introduction to concepts, processes, human factors, and the influence of industrial design in today’s world. Electives offer options from across several colleges that allow further focus within the minor, including the option to take studio-intensive making classes from the School of Design.

Application to the minor is available via the online minor form for the College of Architecture and Design.

Students must successfully complete the following requirements (15 hours).

Description
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Requirements*

Minor Requirements:

- INDS 211 History of Industrial Design
- INDS 330 The Art of Form and Function
- INDS 331 From Process to Product

Select Two Courses:

- ARTB 241 Beginning Sculpture
- ARTB 245 Metal Fabrication
- IARC 480 Furniture Design
- ARTB 243 Mold-Making and Casting
- ARTN 241 Non-Major Intro to Sculpture
- DSGN 130 Basic Design Thinking and Innovation
- DSGN 103 Graphic Design Foundation Studio III
- DSGN 430 Basic Design Thinking and Innovation
- GRDS 331 The Art of Identity Design
- IARC 361 Lighting for Interior Architecture
- IE 304 Introduction to Human Factors Engineering
- INDS 320 Ideation Graphics Studio
- INDS 321 Digital Representation and Fabrication for Industrial Design
- INSC 311 User-Centered Design
- MSE 110 Materials Chemistry
- MSE 120 Impact of Materials on Society
- RMM 341 Consumers in the Global Marketplace
- THEA 245 Introduction to Design and Production: Costumes and Scenery

[After] * Meets Volunteer Core Requirements

Rationale*

The minor has been updated to align with the other minor in the School of Design; three online asynchronous core courses with two electives drawing from interdisciplinary options from across the university.

Financial Impact*

Primary impact will sit within the School of Design. Financial support to fulfill faculty hires has the approval of Dean Young, College of Architecture and Design.
Impact on Other Units*

(Please see attachment for Elective approval)

The respective units for each elective option have granted approval for courses that can accommodate the potential increase in interest as a result of their inclusion in this degree program.

School of Art
School of Interior Architecture
Theater Department
School of Information Sciences
Retail and Merchandising Management Department
Materials Science and Engineering Department
Industrial Engineering Department

The Minor in Landscape Architecture Studies is open to students from any discipline across the University of Tennessee, Knoxville interested in enhancing their major field of study with a greater understanding of the practices being used in contemporary landscape architecture and design. Students will receive a broad introduction to key concepts, processes, and techniques, as well as the evolving role of landscape architecture and landscape design as they seek to engage global issues of sustainability, environmental justice, anthropogenic climate change, and more. The 3 required lecture-based core classes are coupled with a selection of classes from across several colleges that complement the focus within the minor.

Students must have a cumulative 2.5 GPA and be a declared major outside of the School of Landscape Architecture to undertake the minor. Application to the minor is available via the online minor form for the College of Architecture and Design.

Students must successfully complete the following requirements (15 hours).
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UT System

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Minor Requirements

The minor requires the completion of a minimum of **15 credits**.

Complete three courses (9 credits):

- LAR 240 The Future of Nature
  - [Right] or
- LARN 240 The Future of Nature
  - [After]
  - LAR 286 Contemporary Landscape Architecture
    - [Right] or
- LARN 286 Contemporary Landscape Architecture
  - [After]
  - LAR 423 Visual Communication for Non-Designers
    - [Right] or
- LARN 423 Visual Communication for Non-Designers

Complete two courses (6 credits):

- ARTN 102 Non-Major Introduction to Art: Time
- ARTN 103 Non-Major Introduction to Art: Space
- ARTN 211 Non-Major Intro to Drawing
- ARTN 231 Non-Major Intro to Photography
  - [After]
- DSGN 130 Basic Design Thinking and Innovation
  - [Right] or
- DSGN 430 Design Thinking and Innovation
  - [After]
- GEOG 336 Political Ecology
- GEOG 341 Contemporary Urban Spaces

**Rationale**
Opportunity for greater exposure to landscape architecture and related topics for undergraduate students at UT.

**Financial Impact**
Costs associated with staffing new courses in landscape architecture. School has support of School of Landscape Architecture Director and Dean of the College of Architecture and Design to sustain these courses.

**Impact on Other Units**
All courses offered by units external to the school have provided approval for inclusion in the proposed minor. See attached memos.

## Course Description
What can we learn from Black women writers? How do Black women writers understand questions of gender, labor, and empire? What themes rise in Black women's writing? This course explores these questions and others by analyzing major works of fiction and non-fiction written by Black women from the Civil War through the present-day. Students will be introduced to important literary figures such as Frances E. Watkins Harper, Pauline Hopkins, Toni Morrison, and Edwidge Danticat.

#### Course Description

This course explores Black history in Tennessee, and allows students to engage with the Knoxville TN community partners preserving TN history. Students examine the rich cultural heritage, experiences, contributions and culture of Black people in the state. The course will explore a variety of topics related to the political, social, economic and spiritual history of Black people. As part of the course students spend time working in the Beck Cultural Exchange Center in the city of Knoxville. Students apply the academic knowledge, critical thinking skills, and primary source analysis to meet the needs of this nonprofit community center by helping to organize, document, and digitize materials donated to the archive. Through reflections, assessments, and hands on community archive experiences, students will learn the process and importance of historical preservation while meeting a community need.

### Course Description

Queer anthropology, a field that was established out of various older fields in the discipline – anthropology of gender, anthropology of sexuality, lesbian and gay anthropology – emerged as a response to calls in other disciplines to move beyond binaries and dichotomies, identities, categories, and assumptions of fixity in order to study gender and sexuality in ways that can establish new understandings of the relationship between the two concepts as well as their relation to wider fields – the political, the social, the cultural, and the economic. Within this response was an emergence of many queer ethnographies that detailed the worlds of queerness in multiple spaces, places, and locales. In this course, we will be reading and discussing queer ethnographic texts as well as samples from other genres and disciplines in order to think queerly about the world.

2024-2025 UG Revise Course

**General Catalog Information**

**College**

- College of Arts and Sciences

**Department (Acalog Hierarchy)**

- Anthropology

**Subject/Prefix (choose from list)**

- ANTH

**Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)**

- 449

**Course Title (max 100 characters)**

- Computational Social Science

**Variable Title?**

- Yes
- No

**Credit Hours**

- 3

**Course Description**

Computational research is now a major part of the social sciences, including anthropology. This course combines lectures with practical tutorials in computational approaches using digital data on cultural change, from ancient to contemporary social media. Students are encouraged to bring a laptop, but no programming experience is required.

**Will this course be crosslisted?**

- Yes
- No

**If yes, what is the crosslisting relationship for this course?**

- Primary
- Secondary

**List all courses in this crosslisting relationship and note whether primary or secondary**

Impact on Other Units*

Other than Anthropology, this course is listed as a non-essential elective in the following degrees:

- Data Science Major, BA, which was approved by Faculty Senate on October 16 (Cycle 1).
- Data Science Major, BS in Data Science, which was approved by UG Curriculum Committee on Oct 4.
- Interdisciplinary Graduate Minor in Computational Science

College of Arts and Sciences - ANTH - 494
2024-2025 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Anthropology

Subject/Prefix (choose from list)* ANTH

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 494

Course Title (max 100 characters)* Primate Behavior

Variable Title? Yes

Credit Hours* 3

Course Description Social organization and behavior of selected primates including group composition, size, and structure; patterns of mating; other social interactions; communication; and cultural behavior. Application of primate studies to human ethology.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary

List all courses in this crosslisting relationship and note whether primary or secondary

Effective Term

Cross-Listing

Student Information System ID
College of Arts and Sciences - ARTA - 330

2024-2025 UG Drop/Archive Course

**General Catalog Information**

- **College**: College of Arts and Sciences
- **Department (Acalog Hierarchy)**: School of Art
- **Subject/Prefix (choose from list)**: ARTA
- **Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)**: 330
- **Course Title (max 100 characters)**: Photography Portfolio Review
- **Credit Hours**: 0
- **Change course status from active to**: Dropped (Inactive-Hidden)
- **Course Description**: Review of prior work in photography.

**Statement about Crosslistings**

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

**Equivalency**

**Rationale**

The School of Art is removing these 0-credit hour courses from its curriculum. Students were required to sign-up for this portfolio review number in conjunction with a 200-level course. The portfolio is now incorporated into the 200-level course, so there is no longer a need to have a separate number.

College of Arts and Sciences - ARTA - 360
2024-2025 UG Drop/Archive Course

General Catalog Information

Subject/Prefix (choose from list)* ARTA

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 360

Course Title (max 100 characters)* Printmaking Portfolio Review

Credit Hours* 0

Change course status from active to:* Dropped (Inactive-Hidden)

Course Description
Review of prior work in printmaking.

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale* The School of Art is removing these 0-credit hour courses from its curriculum. Students were required to sign-up for this portfolio review number in conjunction with a 200-level course. The portfolio is now incorporated into the 200-level course, so there is no longer a need to have a separate number.

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale*
The School of Art is removing these 0-credit hour courses from its curriculum. Students were required to sign-up for this portfolio review number in conjunction with a 200-level course. The portfolio is now incorporated into the 200-level course, so there is no longer a need to have a separate number.

(RE) Prerequisite(s):

- ARTB 422 - Advanced Pottery
- ARTB 422R - Advanced Pottery
- ARTB 423 - Ceramics Research Project

Programs

- Art Major, BA
- Studio Art Major, BFA – Three-Dimensional Arts Concentration
- Studio Art Major, BFA – Time-Based Arts Concentration
- Studio Art Major, BFA – Two-Dimensional Arts Concentration

Financial Impact*

Net tuition dollars and total net program credit hours will not change. The reduction in the proposed course credit hours will be redistributed to other required courses in the program.

Have you consulted with all programs/departments that will be impacted by this change?*

- Yes
- No
- Minor changes only/Not Applicable

Arts and Sciences Only

Only proposals originating from the College of Arts and Sciences should answer these questions.

Which CAS Committee(s) will be involved in this proposal?

- Arts and Humanities
- Natural Sciences
- Social Sciences

Select the checkbox if this course should be considered a Writing Emphasis course.

- Writing-emphasis course.

Should this course be considered for Connections?

- Yes
- No
If yes, which Connections category?

- Ancient Mediterranean Studies
- Biodiversity and Humans
- Cultural and Artistic Achievement: Arts in the United States
- Cultures and Societies
- Emerging Asia
- Environment and Society
- Geographic Information Science for Our Changing World
- Global Social Justice
- Health and Biophysics
- Health Care Perspectives
- How to Live in the Premodern World
- Humans Living on a Dynamic Earth
- Inequalities: Race, Ethnicity, Class, and Gender
- Mobility and Migration
- New Geographies of the Global Economy
- Our World: Contemporary Arts and Culture
- Rise and Decline of Premodern Complex Societies
- Shifting Borders and Cultures in Europe
- Understanding Climate Change
- Visual Cultures and Media Studies

College of Arts and Sciences - ARTB - 340
2024-2025 UG Drop/Archive Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* School of Art

Subject/Prefix (choose from list)* ARTB

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 340

Course Title (max 100 characters)* Sculpture Portfolio Review

Credit Hours* 0

Change course status from active to:*

- Dropped (Inactive-Hidden)

- Archived

Course Description Review of prior work in sculpture and development of new work.

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale* The School of Art is removing these 0-credit hour courses from its curriculum. Students were required to sign-up for this portfolio review number in conjunction with a 200-level course. The portfolio is now incorporated into the 200-level course, so there is no longer a need to have a separate number.

College of Arts and Sciences - ARTC - 330
2024-2025 UG Drop/Archive Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* School of Art

Subject/Prefix (choose from list)* ARTC

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 330

Course Title (max 100 characters)* Time-Based Arts Portfolio Review

Credit Hours* 0

Change course status from active to:* Dropped (Inactive-Hidden) Accessed

Course Description Review of prior work in four-dimensional arts.

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale* The School of Art is removing these 0-credit hour courses from its curriculum. Students were required to sign-up for this portfolio review number in conjunction with a 200-level course. The portfolio is now incorporated into the 200-level course, so there is no longer a need to have a separate number.
**Arts and Sciences Only**

Only proposals originating from the College of Arts and Sciences should answer these questions.

### Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.
Contact Hour Distribution (if more than one instructional method)

- Studio Work.

Grading Restriction

Repeatability

- May be repeated. Maximum 6 hours.

Credit Restriction

Registration

- Enforced (RE): ARTC 233 or ARTC 236.

Corequisite(s)

- Department Enforced (DE)

Equivalency

Rationale*

- This change in credit hours is necessary to meet NASAD accreditation standards.

Impact on Other Units*

- The cross-listing is within the same unit (School of Art), so there will be no impact on other units.

Financial Impact*

- Net tuition dollars and total net program credit hours will not change. The reduction in the proposed course credit hours will be redistributed to other required courses in the program.
Have you consulted with all programs/departments that will be impacted by this change?*

- [ ] Yes
- [ ] No
- [ ] Minor changes only/Not Applicable

<td><strong>Course Description</strong></td>
<td>This course is an introductory survey of the visual and material culture of sports and games from antiquity through the present, and we will treat themes such as the body and the ideal athlete, the development of the stadium and spectacular sport, medieval knightly combat, the codification of sport in modernity, the revival of the Olympics, and the visual culture of contemporary football. Art historical methods have significant purchase on interpreting the athletic arts not only because of the vast corpus of visual and material culture related to play, but also because the very foundation of the concept of play itself is related to mimesis, the same principle that underlies artistic representation.</td>

# College of Arts and Sciences - ARTH - 356

**2024-2025 UG Add Course**

## General Catalog Information

### College*  
 **College of Arts and Sciences**

### Department (Acalog Hierarchy)*  
 **School of Art**

### Subject/Prefix (choose from list)*  
 **ARTH**

### Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)*  
 **356**

### Course Title (max 100 characters)*  
 **Video Game Art**

### Experience Learning Designation  
- N (Internship)
- R (Research)
- S (Service Learning)

### Variable Title?*  
**Yes**

### Variable Title?  
**No**

### Credit Hours*  
 **3**

### Course Description  
This course introduces undergraduates to the art form of video games and the subfield of game-studies. In order to provide appropriate context, the course situates video games in the history of the visual and material culture of games and examines the fundamental premises of the agonic and ludic stemming as far back as Plato and Aristotle.

### Will this course be crosslisted?  
**Yes**

### If yes, what is the crosslisting relationship for this course?  
- **Primary**
- **Secondary**

### List all courses in this crosslisting relationship and note whether primary or secondary.
Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

Equivalency

Rationale*
Beyond serving as a popular form of entertainment for global mass consumption, video games reflect the play element of culture as an artistic medium, narrative format, and social platform. As such, they play a significant role in student cultural awareness. Students will learn to use methodology from art history, film studies, and games studies to analyze video games not merely as texts, as they are often taught, but rather as interactive experiences seen though formal analysis, reception theory, and narrative structure.
**Arts and Sciences Only**

Only proposals originating from the College of Arts and Sciences should answer these questions.

**Which CAS Committee(s) will be involved in this proposal?**

- [x] Arts and Humanities
- [ ] Natural Sciences
- [ ] Social Sciences

**Select the checkbox if this course should be considered a Writing Emphasis course.**

- [ ] Writing-emphasis course.

**Should this course be considered for Connections?**

- [ ] Yes
- [ ] No
If yes, which Connections category?

- Ancient Mediterranean Studies
- Biodiversity and Humans
- Cultural and Artistic Achievement: Arts in the United States
- Cultures and Societies
- Emerging Asia
- Environment and Society
- Geographic Information Science for Our Changing World
- Global Social Justice
- Health and Biophysics
- Health Care Perspectives
- How to Live in the Premodern World
- Humans Living on a Dynamic Earth
- Inequalities: Race, Ethnicity, Class, and Gender
- Mobility and Migration
- New Geographies of the Global Economy
- Our World: Contemporary Arts and Culture
- Rise and Decline of Premodern Complex Societies
- Shifting Borders and Cultures in Europe
- Understanding Climate Change
- Visual Cultures and Media Studies

College of Arts and Sciences - ARTH - 406

2024-2025 UG Add Course

General Catalog Information

College* College of Arts and Sciences

Department (Acatalog Hierarchy)* School of Art

Subject/Prefix (choose from list)* ARTH

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 406

Course Title (max 100 characters)* History of Printmaking

Experience Learning Designation

- N (Internship)
- R (Research)
- S (Service Learning)

Variable Title?* Yes

- No

Credit Hours* 3

Course Description This course will introduce students to the history of prints and to the close relationship between prints and artists' drawings from the fifteenth century to the present day. The importance of such objects in circulating the visual ideas and styles of artists and the changing status of printmakers as makers will serve as guiding themes.

Will this course be crosslisted? Yes

- No

If yes, what is the crosslisting relationship for this course? Primary

- Secondary

List all courses in this crosslisting relationship and note whether primary or secondary.
Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

**Rationale**

History of Printmaking is a necessary addition to our curriculum. UTK’s printmaking program is one of the highest ranked public programs in the USA, and our undergraduate students would benefit tremendously from this course. Few technologies can claim the wide-ranging cultural impact that accompanied the development of printing in early modern Europe and its lasting impact to the present.

ASTR 217.
| **Rationale** | Add Astr 217 prerequisite. We have found that students who take 218 without having taken 217 struggle. Previously we let students take them out of order because we could only offer this sequence every other year, but now we are able to offer it every year. |
May make it harder for students, particularly non-majors, to take Astr 218, however, those students who do take it are likely to do better.

Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Minor Requirements

The following are required in the concentration which consists of 15 hours from the Africana studies curriculum. A maximum of 3 hours in AFST 492 and AFST 493 combined can be applied toward the minor.

Select one sequence:

AFST 201 Introduction to African American Studies
[Right] *
AFST 202 Introduction to African American Studies
[After] or
[Right] *
AFST 235 Introduction to African Studies
[Right] *
AFST 236 Introduction to African Studies
[Right] *

Select 9 hours:

AFST 311 Race in Horror, Sci-Fi, and Thriller
AFST 313 Social Context of African American Health
AFST 315 The African Diaspora
AFST 319 Caribbean Cultures and Societies
AFST 322 Race, Gender, and Medicine
AFST 323 Black Women Writers
AFST 325 Studies in Black Education
AFST 329 Black History in Tennessee 1796-1980
AFST 331 Race and Ethnicity in American Literature
[Right] *
AFST 333 Black American Literature and Aesthetics
[Right] *
AFST 335 African Literature
AFST 336 Caribbean Literature

AFST 343 Race and Ethnicity

AFST 353 Religion, Race, and Ethnicity in North America

AFST 354 Black Men in U.S. Society

AFST 359 African American Intellectual History

AFST 371 African History to 1880

AFST 372 African History Since 1880

AFST 373 African Religions

AFST 374 History of the Civil Rights Movement in the United States

AFST 376 The African American Experience from the Colonial Period to the Civil War

AFST 380 The African American Experience from the Civil War to the Present

AFST 381 History of South Africa

AFST 413 Music and the African Diaspora

AFST 415 Black American Politics

AFST 421 Comparative Studies in African and African American Societies

AFST 425 Black Feminist Theory

AFST 430 Black and Indigenous Literatures

AFST 442 Comparative Poverty and Development

AFST 443 Topics in Black Literature

AFST 444 Black Masculinities

AFST 450 Issues and Topics in African American Studies

AFST 452 The Politics of Sub-Saharan Africa

AFST 456 Race, Ethnicity, Crime, and Justice

AFST 460 Africana Research Methods

AFST 464 Art of Southern and Eastern Africa

AFST 465 Art and Archaeology of Ancient Africa

AFST 466 Arts of the African Diaspora

AFST 471 African-American Art

AFST 472 Civil Rights Movement

AFST 480 African American Communities in Urban America

AFST 484 African American Women in American Society

AFST 491 Foreign Study

AFST 492 Off-Campus Study

AFST 493 Independent Study

* Meets Volunteer Core Requirements.

# College of Arts and Sciences - Africana Studies - Moving AFST Courses to Africana Studies Department

**Other Form**

## General Catalog Information

| Hierarchy Owner* | University of Tennessee, Knoxville |

## Important Note about this Form:

Please contact the CCM team ([curriculum_help@utk.edu](mailto:curriculum_help@utk.edu)) before submitting this form so that an administrator can determine if there is a more suitable form for the proposal.

This form is for items that need to appear in an upcoming agenda but are not handled by any other form. Informational items (e.g., reactivating an archived course) can be handled through this form. For Committee Reports, please use the "Committee Reports" form.

| Name of Proposal* | College of Arts and Sciences - Africana Studies - Moving AFST Courses to Africana Studies Department |

| Level* | Undergraduate (UG) | Graduate (GR) |

- **Click here to add UG university workflow for curricular changes.** *(Yes/No)*

- **Click here to add GR university workflow for curricular changes.** *(Yes/No)*

| Does this submission require approval by the Council?* | Yes | No (informational only) |

| Which committee(s) must make a decision or be informed about this submission? | The Undergraduate and Graduate Curriculum Committees. The Undergraduate Curriculum Committee also reviewed and approved the addition of the Africana Studies Department as an academic unit in the Catalog. |
Information

Please move the following courses from the College of Arts and Sciences’ Interdisciplinary Programs Department to the Africana Studies Department.

- AFST 160 - Art of Africa, Oceania, and Pre-Columbian America
- AFST 201 - Introduction to African American Studies
- AFST 202 - Introduction to African American Studies
- AFST 225 - Introduction to African Literature
- AFST 226 - Introduction to Caribbean Literature
- AFST 230 - The Black Experience in Theatre Performance
- AFST 233 - Major Black Writers
- AFST 235 - Introduction to African Studies
- AFST 235S - Introduction to African Studies
- AFST 236 - Introduction to African Studies
- AFST 300 - The Rise and Fall of Slavery in the United States
- AFST 311 - Race in Horror, Sci-Fi, and Thriller
- AFST 313 - Social Context of African American Health
- AFST 314 - The Evolution of Gospel Music
- AFST 315 - The African Diaspora
- AFST 319 - Caribbean Cultures and Societies
- AFST 325 - Studies in Black Education
- AFST 331 - Race and Ethnicity in American Literature
- AFST 333 - Black American Literature and Aesthetics
- AFST 335 - African Literature
- AFST 336 - Caribbean Literature
- AFST 343 - Race and Ethnicity
- AFST 346 - African American Religious History
- AFST 352 - African American Religion in the United States
- AFST 353 - Religion, Race, and Ethnicity in North America
- AFST 354 - Black Men in U.S. Society
- AFST 356 - Rastafari and Afro-Caribbean Religions
- AFST 359 - African American Intellectual History
- AFST 371 - African History to 1880
- AFST 372 - African History Since 1880
- AFST 373 - African Religions
- AFST 374 - History of the Civil Rights Movement in the United States
- AFST 375 - African American Women’s History from Slavery to the Present
- AFST 376 - The African American Experience from the Colonial Period to the Civil War
- AFST 380 - The African American Experience from the Civil War to the Present
- AFST 381 - History of South Africa
- AFST 383 - Studies in African History
- AFST 413 - Music and the African Diaspora
- AFST 415 - Black American Politics
- AFST 421 - Comparative Studies in African and African American Societies
- AFST 425 - Black Feminist Theory
Undergraduate Council

- AFST 430 - Black and Indigenous Literatures

Admin Comments

These had been approved to move to the Africana Studies dept for 202240, so we moved them. Then they asked to move the courses back to INPG within CAS for 202340. Now these are moving back to Africana Studies dept. These have already been approved to move - therefore this is an informational item.
Continuing, returning, and transfer students must meet progression requirements before declaring a major in anthropology.

Progression into the anthropology major is based on performance in the three prerequisite courses – ANTH 110* or ANTH 117*, ANTH 120* or ANTH 127*, and ANTH 130* or ANTH 137*. Upon satisfactory completion of the prerequisites, the student may apply for progression into the anthropology major by completing a formal application for progression in the Anthropology Department and including with that application an academic history demonstrating satisfactory completion of the progression requirements. Progression applications are reviewed upon receipt. Upon progression to the major, a department advisor will be assigned in consultation with the student.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
College Requirements

Major Requirements

The anthropology major consists of 30 hours.

Select one course:

ANTH 357 Junior Honors in Anthropology
ANTH 450 Current Trends in Anthropology

Select one course:

Archaeological Method and Theory

ANTH 361 Historical Archaeology
ANTH 362 Principles of Archaeology
ANTH 369 Selected Topics in Archaeology Method and Theory
ANTH 431 Isotope Ecology
ANTH 435 Historical Archaeology Laboratory
ANTH 451 Hunter-Gatherers
ANTH 455 Archaeological Foodways
ANTH 460 Paleoethnobotany
ANTH 461 Archaeological Resource Management
ANTH 464 Principles of Zooarchaeology
ANTH 466 Archaeology of Southeastern United States

Select one course:

Archaeological Area

ANTH 360 The Archaeology of Indigenous North America
ANTH 364 African Archaeology
ANTH 364 African Archaeology
ANTH 406 Taphonomy
ANTH 452 Paleoindian Archaeology
ANTH 454 Archaeology of the African Diaspora
ANTH 462 Archaeology of Europe
ANTH 463 Rise of Complex Civilizations
ANTH 465 Archaeology of the Trojan War
ANTH 466 Archaeology of Southeastern United States
ANTH 469 Selected Topics in Archaeological Area

Select one course:

Cultural Area

ANTH 301 South Asian Cinema: Bollywood and Beyond
ANTH 311 Southeastern Indians
ANTH 313 Cultures of Mexico and Central America
ANTH 314 Latinos in the United States
ANTH 315 The African Diaspora
ANTH 319 Caribbean Cultures and Societies
ANTH 320 American Cultures
ANTH 321 Anthropology of South Asia
ANTH 322 Variable Topics in Ethnography
ANTH 323 Topics in Latin American Ethnography
ANTH 324 Topics in African Ethnography
ANTH 325 Migration and Transnationalism

Select one course:

Cultural Method and Theory

ANTH 312 Agri-Cultures and Eats
ANTH 325 Migration and Transnationalism
ANTH 349 Well-being, Livelihood, and Society
ANTH 370 Gender and Globalization
ANTH 410 Principles of Cultural Anthropology
ANTH 412 Ethnographies of Trauma
ANTH 413 Dynamics of Health and Illness
ANTH 414 Political Anthropology
ANTH 415 Environmental Anthropology
ANTH 416 Engaged Anthropology
ANTH 419 Anthropology of Human Rights
ANTH 420 Disasters
ANTH 421 Refugees and Displaced People
ANTH 422 Anthropology of Global Inequality
ANTH 423 Feminist Anthropology
[Right] *
ANTH 424 Queer Anthropology
ANTH 425 Humanitarianism
ANTH 426 Decolonization
ANTH 441 Topics in Cultural Method and Theory

Select one course:

**Biological Anthropology Method and Theory**

ANTH 303 Human Biology and Society
ANTH 305 Evolution and Society
[Right] *
ANTH 309 Advanced Principles of Biological Anthropology
[Right] *
ANTH 359 Selected Topics in Biological Anthropology Method and Theory
ANTH 470 Anthropology and the Genome
ANTH 472 Paleopathology
ANTH 483 Evolutionary Biology for Anthropologists
ANTH 489 Forensic Science and Human Rights
ANTH 490 Primate Evolution
ANTH 494 Primate Behavior
[Right] *
ANTH 495 Hominin Paleobiology

Select one course:

**Biological Anthropology Applied Area**

ANTH 306 Dental Anthropology
ANTH 459 Selected Topics in Biological Anthropology Applied Area
ANTH 472 Paleopathology
ANTH 474 DNA Lab Methods
ANTH 480 Human Osteology
ANTH 486 Introduction to Forensic Anthropology
ANTH 495 Hominin Paleobiology
ANTH 490 Primate Evolution
Select nine hours:

any upper-division ANTH courses

Note:

Students with senior standing are encouraged to substitute appropriate 500-level courses (with permission of the instructor of the course and approval of the department head) for any portion of the above requirements.

Honors Concentration – Anthropology

The Department of Anthropology offers introductory honors courses (ANTH 117*, ANTH 127*, ANTH 137*), an honors course for juniors (ANTH 357), and a Senior Honors Thesis (ANTH 457), leading to an honors concentration. The honors concentration consists of at least 12 hours of anthropology honors courses, generally distributed as follows: at least 2 of the 3 introductory honors courses should be taken (during the freshman and/or sophomore years), ANTH 357 (generally during the Fall semester of the junior year), and at least three hours of ANTH 457 (generally taken during the senior year). To provide access to the honors concentration for transfer students and for students who have already completed the basic prerequisite courses, at least six hours of anthropology Honors-by-Contract courses may be completed in addition to ANTH 357 and ANTH 457. To satisfy the remaining requirements for the major, 24 additional hours of upper-division coursework in anthropology must be completed as specified above.

Permission of the instructor is required to enroll in any of the introductory honors courses. To progress into ANTH 357, grades of B or better in the introductory honors courses are required or permission of instructor if the student did not complete the introductory honors sequence. A grade of B or better and a thesis proposal approved by the instructor of ANTH 357 and by the faculty member agreeing to direct the thesis are required in order to enroll in ANTH 457. The Senior Honors Thesis (ANTH 457) is expected to be either original research or an in-depth literature review of a relevant anthropological topic. To graduate with honors the student must pass ANTH 457 with a grade of B or better.

Upon completion of the above requirements, and the earning of a final cumulative university GPA of at least 3.25, the student will graduate with Honors in Anthropology.

* Meets Volunteer Core Requirements.

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 120

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.
Rationale* remove the intro course gpa requirement.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

College of Arts and Sciences - Anthropology - Anthropology Major, BA – Disasters, Displacement and Human Rights Concentration

2024-2025 UG Revise Program

General Catalog Information

College* College of Arts and Sciences

Department* Anthropology

Program Name* Anthropology Major, BA – Disasters, Displacement and Human Rights Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
Continuing, returning, and transfer students must meet progression requirements before declaring a major in anthropology.

Progression into the anthropology major is based on performance in the three prerequisite courses – ANTH 110* or ANTH 117*, ANTH 120* or ANTH 127*, and ANTH 130* or ANTH 137*. Upon satisfactory completion of the prerequisites, the student may apply for progression into the anthropology major by completing a formal application for progression in the Anthropology Department and including with that application an academic history demonstrating satisfactory completion of the progression requirements. Progression applications are reviewed upon receipt. Upon progression to the major, a department advisor will be assigned in consultation with the student.

The concentration in Disasters, Displacement and Human Rights (DDHR) is intended for current Anthropology majors wishing to develop specialized knowledge and research skills in the anthropological study of natural and unnatural disasters and humanitarian crises, forced migration, and human rights investigations, policies, practices, and norms. All prerequisites and requirements for the Anthropology major are required for the concentration. Credits earned toward the concentration may also count for departmental distribution requirements for the major.

Students pursuing a DDHR concentration must submit a form to the department and complete the following courses among the 30 required upper-division credits for the major. Special topics courses, and independent or foreign study courses, where appropriate, may be petitioned for the DDHR concentration.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
College Requirements

Arts and Sciences

Major Requirements

The major consists of 30 hours.

Concentration Requirements

Complete:

ANTH 419 Anthropology of Human Rights
ANTH 420 Disasters
ANTH 489 Forensic Science and Human Rights

Select one course:

ANTH 357 Junior Honors in Anthropology
ANTH 450 Current Trends in Anthropology

Select one course:

ANTH 311 Southeastern Indians
ANTH 312 Agri-Cultures and Eats
ANTH 314 Latinos in the United States
ANTH 315 The African Diaspora
ANTH 319 Caribbean Cultures and Societies
ANTH 325 Migration and Transnationalism
ANTH 413 Dynamics of Health and Illness
ANTH 414 Political Anthropology
ANTH 415 Environmental Anthropology
ANTH 421 Refugees and Displaced People
ANTH 422 Anthropology of Global Inequality
ANTH 425 Humanitarianism
ANTH 426 Decolonization
ANTH 432 Anthropology of Warfare, Violence, and Peace
ANTH 454 Archaeology of the African Diaspora
ANTH 486 Introduction to Forensic Anthropology

Select 15 additional hours:

Students must select at least one upper-division anthropology course from each of the following lists.

Archaeological Method and Theory

ANTH 361 Historical Archaeology
ANTH 362 Principles of Archaeology
ANTH 369 Selected Topics in Archaeology Method and Theory
ANTH 431 Isotope Ecology
ANTH 435 Historical Archaeology Laboratory
ANTH 446 Archaeological Statistics
ANTH 451 Hunter-Gatherers
ANTH 455 Archaeological Foodways
ANTH 460 Paleoethnobotany
ANTH 461 Archaeological Resource Management
ANTH 464 Principles of Zooarchaeology

Cultural Area

(If ANTH 311, ANTH 314, ANTH 315, ANTH 319, or ANTH 325 is selected above, students may substitute any upper-division anthropology course.):

ANTH 301 South Asian Cinema: Bollywood
ANTH 303 Human Biology and Society
ANTH 305 Evolution and Society
ANTH 309 Advanced Principles of Biological Anthropology
ANTH 359 Selected Topics in Biological Anthropology Method and Theory
ANTH 470 Anthropology and the Genome
ANTH 483 Evolutionary Biology for Anthropologists
ANTH 489 Forensic Science and Human Rights
ANTH 490 Primate Evolution
ANTH 494 Primate Behavior
ANTH 495 Hominin Paleobiology

ANTH 306 Dental Anthropology
ANTH 359 Selected Topics in Biological Anthropology Method and Theory
ANTH 459 Selected Topics in Biological Anthropology Applied Area
ANTH 472 Paleopathology
ANTH 474 DNA Lab Methods
ANTH 480 Human Osteology
ANTH 486 Introduction to Forensic Anthropology
ANTH 495 Hominin Paleobiology
Archaeological Area

(If ANTH 454 is selected above, students may substitute any upper-division anthropology course):

ANTH 360 The Archaeology of Indigenous North America
ANTH 364 African Archaeology
ANTH 406 Taphonomy
ANTH 452 Paleoindian Archaeology
ANTH 454 Archaeology of the African Diaspora
ANTH 462 Archaeology of Europe
ANTH 463 Rise of Complex Civilizations
ANTH 465 Archaeology of the Trojan War
ANTH 466 Archaeology of Southeastern United States
ANTH 469 Selected Topics in Archaeological Area

Note:

Students with senior standing are encouraged to substitute appropriate 500-level courses (with permission of the instructor of the course and approval of the department head) for any portion of the above requirements.

* Meets Volunteer Core Requirements.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.
If approved, will this need notification/approval from any agency outside of UTK?

- Yes
- No

### General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

### General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

- **Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI
- **Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
College Requirements

Arts and Sciences

Major Requirements:
The major consists of at least 30 hours.

Concentration Requirements

Complete:

ANTH 480 Human Osteology
ANTH 486 Introduction to Forensic Anthropology

Select one course:

ANTH 306 Dental Anthropology
ANTH 470 Anthropology and the Genome
ANTH 472 Paleopathology
ANTH 474 DNA Lab Methods
ANTH 483 Evolutionary Biology for Anthropologists
ANTH 490 Primate evolution
ANTH 494 Primate Behavior
ANTH 495 Hominin paleobiology

Complete 3 hours using a minimum of two different courses:

ANTH 329 Skeletal Collections and Curation
ANTH 339 Advanced Skeletal Processing
ANTH 339 Advanced Skeletal Processing
ANTH 409 Advanced Collections/Curation
ANTH 429 Anthropological Field Recovery
ANTH 439 Variable Topics in Forensic Center Experience and Research
ANTH 479 Variable Topics in Forensic Center methods and research

Select one course:

ANTH 357 Junior Honors in Anthropology
ANTH 450 Current Trends in Anthropology

Select at least one upper-division anthropology course from each of the following four lists.

Archaeology method and theory:

ANTH 361 Historical Archaeology
ANTH 362 Principles of Archaeology
ANTH 369 Selected Topics in Archaeology Method and Theory
ANTH 431 Isotope Ecology
ANTH 435 Historical Archaeology Laboratory
ANTH 446 Archaeological Statistics
ANTH 451 Hunter-Gatherers
ANTH 455 Archaeological Foodways
ANTH 460 Paleoethnobotany
ANTH 461 Archaeological Resource Management
ANTH 464 Principles of Zooarchaeology

Archaeology area

ANTH 360 The Archaeology of Indigenous North America
ANTH 364 African Archaeology
ANTH 406 Taphonomy
ANTH 452 Paleoindian Archaeology
ANTH 454 Archaeology of the African Diaspora
Diaspora
ANTH 462 Archaeology of Europe
ANTH 463 Rise of Complex Civilizations
ANTH 465 Archaeology of the Trojan War
ANTH 466 Archaeology of Southeastern United States
ANTH 469 Selected Topics in Archaeological Area

Cultural Area

ANTH 301 South Asian Cinema: Bollywood and Beyond
ANTH 314 Latinos in the United States
ANTH 311 Southeastern Indians
ANTH 313 Cultures of Mexico and Central America
ANTH 315 The African Diaspora
ANTH 319 Caribbean Cultures and Societies
ANTH 320 American Cultures
ANTH 322 Variable Topics in Ethnography
ANTH 324 Topics in African Ethnography
ANTH 325 Migration and Transnationalism

Cultural Method and Theory

ANTH 412 Ethnographies of Trauma
ANTH 413 Dynamics of Health and Illness
ANTH 414 Political Anthropology
ANTH 415 Environmental Anthropology
ANTH 416 Engaged Anthropology
ANTH 419 Anthropology of Human Rights
ANTH 421 Refugees and Displaced People
ANTH 422 Anthropology of Global Inequality
ANTH 423 Feminist Anthropology
ANTH 425 Humanitarianism
ANTH 426 Decolonization
ANTH 432 Anthropology of Warfare, Violence, and Peace

* Meets Volunteer Core Requirements.
Rationale* remove the minimum grade requirement to align with department preferences. this was removed two years ago and reappeared.

Add additional courses to the student selection option. all courses are within the department.

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

**Corequisite(s)**

**Department**
Enforced (DE)

**Corequisite(s)**

**Recommended Background**

**Comments**  Intended for biology majors in the biochemistry and cellular and molecular biology concentration, but also open to biology majors in other concentrations.

**Registration**
Restriction(s)

**Registration**
Permission

**Equivalency**

**Rationale**
The Title "Developmental Biology" is more representative of the contents presented in the course than the previous title "Mechanisms of Development". Additionally, this title is commonly found in similar courses taught in other institutions. Most biologists and instructors graduated with biology majors can recognize this title and can refer this course to students with more confidence.

**Course Description**

Current issues in biochemistry, cell biology, and molecular biology. Emphasis on current developments and their applications, societal and economic impacts, and moral and ethical implications. An oral presentation and a referenced library-research essay are required. A capstone course. With a writing focus, this course requires a student to complete at least 2,000 words of writing during the semester. This normally consists of at least one sustained formal essay or report of 1,000 or more words, plus additional writing assignments such as in-class essay exams, journals, book reviews, short-response papers, and the like.

**Rationale**
In our experience, students with a grade of B- or less struggle in the laboratory and typically perform poorly. We have been screening them for grades but with the addition of requiring a minimal grade of B in BCMB 415 instructor permission will no longer be needed.

Lecture Hours | Lab Hours | Other Hours |

Grading Restriction |

Repeatability |

Credit Restriction |
Adding a discussion class will foster needed critical thinking and research skills that are difficult to achieve in the current settings of the class which is 1 hour lecture and 2.5 hours laboratory. A Discussion class is necessary for students to delve deeper into their experimental data, facilitating the understanding of the underlying lab concepts. Students will learn how to effectively utilize specialized software tools and databases, and skills to efficiently process, analyze, and visualize complex experimental data. In the discussions, students will also analyze primary literature related to the biochemical techniques employed in the lab. Additionally, during discussion sections, instructors will provide feedback to students on data analyses, presentations, and lab reports.

This change may affect the EI designation, but an EI proposal will be immediately resubmitted and we expect the EI designation will be reinstated.
Only proposals originating from the College of Arts and Sciences should answer these questions.

## Course Description
An introduction to the cutting-edge tools and approaches biologists and clinicians use to extract information from the vast amounts of genomic and proteomic data becoming available. Students gain hands-on experience with computational biology tools such as data mining, protein structure manipulation and prediction, interaction network analysis, DNA sequence analysis, gene function analysis, R studio for statistics and data visualization, and dimensionality reduction for large datasets. Students apply these tools to biomedical research questions in course projects.

Department  
Enforced (DE)  
Prerequisite(s)

Registration  
Enforced (RE)  
Corequisite(s)

Department  
Enforced (DE)  
Corequisite(s)

Recommended  
Background  BIOL 240; BCMB 412

Comments  Helpful if students have taken or are taking BCMB 412 but not necessary.

Registration  
Restriction(s)  Minimum student level – junior.

Registration  
Permission  Consent of instructor.

Equivalency

Rationale*  Currently the contents of BCMB 422 do not require students to have taken 401. Contents in this course fall mostly under the sphere of genetics and Molecular Biology, and BIOL 240 and BCMB 412 are recommended. However, students that have not taken BIOL 240 and BCMB 412 should be equally successful and do not require permission from the instructor to register.

BCMB 401 prerequisite was not a problem before since most students taking BCMB 422 were from the BCMB Concentration. However students from EEB, and engineering are also registering, needing permission from the instructor. BCMB 422 is now also available to the new Global Health concentration, and these students most likely will not have BCMB 401.
Impact Report for BCMB 422

## Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.
Core Requirement: Contact Hour Distribution (if more than one instructional method)

Grading Restriction: ABC/N grading only.

Repeatability

Credit Restriction

Registration Enforced (RE) Prerequisite(s) CLAS 121 with a grade of C or better.

Department Enforced (DE) Prerequisite(s)

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s) Registration Permission

Equivalency

Rationale* Slight title/description changes.

Title changed from "Beginning Greek" to "Beginning Ancient Greek II" to reflect language is not modern Greek and is second in a sequence of two courses.

Course description was lacking and so one has been added.

### Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

### Equivalency

Undergraduate Council U 7999 February 20, 2024
Rationale* Initial proposal to drop CLAS 150 cancelled by request of registrar. CEHHS Curriculum Committee has already been notified of and has approved dropping CLAS 150.

CLAS 150 is an accelerated beginning Latin course for students who had taken Latin previously and wanted to move directly into the intermediate Latin sequence (CLAS 251-252) the following year. The accelerated pace of CLAS 150 -- essentially containing the beginning sequence of CLAS 111-112 (8 hours total) condensed into a 4-hour course - was regularly proving difficult for the ca. 10-15 students that would place into CLAS 150, many of whom needed more training via the beginning sequence of CLAS 111-112. The department is re-adjusting the scoring of its Latin placement exam to place students either into CLAS 111 or 251, with a provision to allow students into 112 on a case-by-case basis.

Impact on Other Units*

College of Arts and Sciences - CLAS - 256
2024-2025 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Classics

Subject/Prefix (choose from list)* CLAS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 256

Course Title (max 100 characters)* The Ancient World Reimagined

Variable Title? Yes

Credit Hours* 3

Course Description
Examination of the reception of texts, ideas, and myth from the ancient Graeco-Roman world in later sources (textual, visual, or audiovisual media). Focused on the study of original works in translation and then their adaptations in different forms at varying times or places and for differing audiences. Attention will be paid to the changes in the stories, texts, and representations for each audience and why these might have occurred. Utilizing modern scholarship and reception studies, students will learn how to analyze texts and films and consider the biases and agenda of ancient and modern creators.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary

List all courses in this crosslisting relationship and note whether primary or secondary

February 20, 2024
College of Arts and Sciences - CLAS - 442
2024-2025 UG Revise Course

General Catalog Information

College*  College of Arts and Sciences

Department (Acalog Hierarchy)*  Classics

Subject/Prefix (choose from list)*  CLAS

Course  442
Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)*

Course Title (max 100 characters)*  Archaeology of the Prehistoric Aegean

Variable Title?  Yes

No

Credit Hours*  3

Course Description  Survey of the archaeology and art of the Aegean from the earliest human presence to the end of the Mycenaean civilization (ca. 3000000 - 1050 BCE). Highlights include Early Cycladic civilization with its abstract, almost "modern" art, the rise and decline of Minoan and Mycenaean complex societies, the wall paintings of Thera (the "Pompeii" of the Bronze Age), and Troy. Emphasis on anthropological and art-historical approaches. This course requires some short writing exercises as well as a 5-8 page research paper.

Will this course be crosslisted?  Yes

No

If yes, what is the crosslisting relationship for this course?  Primary

Secondary

Registration Enforced (RE) Corequisite(s)

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s)

Registration Permission

Equivalency

Rationale* The College of Arts and Sciences is removing the writing-emphasis designation. This proposal updates the individual course with an additional line specifying a student's expectation for writing in this course.

Need to remove "Any OC course." as a Registration Enforced (RE) Prerequisite(s). The OC prerequisite was added in error in Fall 2022 when the course applied for AOC status. AOC courses no longer carry a prerequisite of an OC course, although they are strongly recommended.
**Financial Impact**

Department Enforced (DE) Corequisite(s)

Recommended Background

Comments

Registration Restriction(s)  Registration Permission

Equivalency

Rationale* Removing "Any OC course" as a Registration Enforced (RE) Prerequisite(s). The OC prerequisite was added erroneously in Fall 2022 when the course applied for AOC status. AOC courses do not require an OC prereq.

Slight change in course description necessitated by advances in the field: the oldest evidence for seafaring in the world now dates to c. 126,000 BCE.

**Course Description**
From the harnessing of fire, sun, wind, and water energy to the creation of the world's first computer, people of ancient Greece and Rome have developed a wide range of materials, machines, and constructions to make their lives easier, increase productivity or fulfill other needs in their increasingly complex societies. Many of their technological achievements have been influential in later times and are still admired today. This course focuses on the technological achievements of the ancient Greek and Roman world from the Stone Age to the Roman empire, and at times it will include the Near East and Egypt. This course requires some short writing exercises as well as a 5-8 page research paper.

</thead>
</table>

Removing "Any OC course" as a Registration Enforced (RE) Prerequisite(s). The OC prerequisite was added in error in Fall 2022 when the course applied for AOC status. AOC courses do not require an OC prereq.

</tbody>
</table>

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Minor Requirements

The minor consists of 18 hours.

Select 9 hours:

any Classics course numbered 200 or above (except CLAS 273)

Select 9 hours:

[Before]

any Classics course numbered 300 or above

ANTH 403 Archaeology and History of Mesopotamia
CLAS 251 Intermediate Latin I
CLAS 252 Intermediate Latin II
[Right] *
CLAS 261 Intermediate Greek: Grammar Review and Readings
CLAS 264 Intermediate Greek: Epic Poetry
[Right] *
HIME 382 Archaeology of Ancient Israel
HIME 400 Archaeology and History of Mesopotamia
HIME 486 Studies in the Ancient Near East
PHIL 320 Ancient Western Philosophy
[Right] *

REST 312 Early Judaism
[Right] *

[Right] *

[After] * Meets Volunteer Core Requirements.
Rationale

Changes to the Classical Civilizations Minor:

- Dropping the requirement of CLAS 201 (3 credit hours).
- Adding 3 credit hours to "any Classics course numbered 200 or above (except CLAS 273)" to keep minor at 18 hours.
- Updating the list of extra-departmental courses with courses that currently count for the Classical Civilizations Major (ANTH 403, HIME 486, REST 312, REST 321).

Students minoring in Classical Civilization are already required to take 200-level and higher courses that contain similar content to CLAS 201 (a basic introduction to Greek and Roman civilization), and shifting the 3 credit hours to any 200+ level course will enable greater depth and flexibility in satisfying minor requirements.

Financial Impact

None.

Impact on Other Units

Courses from Anthropology, History, and Religious Studies were added as optional courses. All affected units are in the same college that "owns" this program.

Have you consulted with all programs/departments that will be impacted by this change?

Yes ☐ No ☐

ADMINISTRATIVE USE ONLY

Impact Level

☐ Low
☐ Mid
☐ High

ACALOG Program OID 31525

ACALOG Program Status Active-Visible

If approved, will this need notification/approval from any agency outside of UTK?

Yes ☐ No ☐

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

## General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Requirements

College Requirements

Arts and Sciences

Major Requirements

The concentration in classical civilization consists of 30 hours.

Complete:

CLAS 299 Research Practicum in Classics

[Right] *

Select 12 hours:

any 200-level or above Classics courses (except CLAS 273)

Select 15 hours:

[Before] any Classics course numbered 300 or above

ANTH 403 Archaeology and History of Mesopotamia
CLAS 251 Intermediate Latin I
CLAS 252 Intermediate Latin II
[Right] *
CLAS 261 Intermediate Greek: Grammar Review and Readings
CLAS 264 Intermediate Greek: Epic Poetry
[Right] *
HIME 382 Archaeology of Ancient Israel
HIME 400 Archaeology and History of Mesopotamia
HIME 486 Studies in the Ancient Near East
Classical Civilization – Honors Concentration

The Honors Classical Civilization concentration consists of 30 hours. 12 hours may be from any courses in the Classics Department numbered 200 and above (excluding CLAS 273). In strict consultation with a departmental advisor, the student pursuing Honors in Classical Civilization will select an additional 15 hours from Classics CLAS 299* and courses numbered 300 or above, ANTH 403, HIME 382, HIME 400, HIME 486, PHIL 320*, REST 312, and REST 321 to design a program that will advance their understanding of a particular specialty within the field of Classical Civilization. To graduate with Honors, the student must maintain a minimum B+ average in Classics Department courses and a minimum cumulative B+ average at UT. In total, the student must take a minimum of 15 hours of Honors courses, not all of which need to be in the major subject area. These 15 hours include 3 thesis hours (CLAS 498). The student will present an Honors thesis (CLAS 498) which must receive a grade of B+ or better to permit graduation with Honors.

* Meets Volunteer Core Requirements.

Rationale

Changes entail:

- Removing requirement of CLAS 201 (3 credit hours)
- Adding 3 hours of any CLAS 200+ level course

CLAS 201 is a basic introduction to ancient Greek and Roman civilization; since CLAS 299 involves basic training in research in Classics and students obtain content covered in CLAS 201 also in their upper-division courses, the requirement for 201 specifically is being dropped to give students more flexibility in completing their major.

Financial Impact

None.

Impact on Other Units

None.

Program audit confirms no impact outside of home department.

### Description

## General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
**uTrack Requirements (College of Arts and Sciences)**

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

### Term 1

1. **Elective** 0-2 Credit Hours

Foreign Language (intermediate level) or beginning level chosen from Greek or Latin) **3-4 Credit Hours**

Classics (major, one must be 300 level or above) 3 Credit Hours

1 Elective 3 Credit Hours

Social Sciences Elective 3 Credit Hours *

[Before] Select one Applied Oral Communication Elective 3 Credit Hours *:

CLAS 442 Archaeology of the Prehistoric Aegean

CLAS 465 Archaeology of the Trojan War

Credit Hours 12
Term 7 Milestone Notes

Completion of at least 24 total upper-division (300-400) hours

Term 8

Classics (major, 300 level or above) 6 Credit Hours

Electives 6 Credit Hours

Engaged Inquiries Elective 3 Credit Hours * (Must have 3 hours of non-Classics coursework)

Credit Hours 15

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400) hours

Total Credit Hours 120

Footnotes
All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a **Volunteer Core** requirement as well as a requirement in the major. Students can choose to complete the **Volunteer Core** requirement using alternative courses.

**Note:** If a student elects to complete CLAS 251 - Intermediate Latin I or CLAS 252 - Intermediate Latin II* or CLAS 261 - Intermediate Greek: Grammar Review and Readings or CLAS 264 - Intermediate Greek: Epic Poetry*, an additional course at the 300-level or above will need to be completed.

* Meets **Volunteer Core Requirements**.

**Rationale**
Changes entail:

- Removing requirement of CLAS 201 (3 credit hours)
- Adding 3 hours of any CLAS 200+ level course

CLAS 201 is a basic introduction to ancient Greek and Roman civilization; since CLAS 299 involves basic training in research in Classics and students obtain content covered in CLAS 201 also in their upper-division courses, the requirement for 201 specifically is being dropped to give students more flexibility in completing their major.

</table>
Digital technologies and methodologies have transformed scholarly approaches to the humanities through what is called the "digital humanities." Often collaborative and interdisciplinary, digital humanities (DH) applies methodologies from computing and digital tools to the study of the humanities. These range from initiatives grounded in humanities computing (such as large-scale text digitization and analysis efforts and electronic archives and editions) to those concerned with larger theoretical and methodological questions regarding the purpose and nature of digital cultures and interpretations, including the ethics and effects of artificial intelligence.

Many of our peer and aspirational peer institutions offer an undergraduate introductory course to digital humanities. Our English faculty members have taught digital humanities courses before at the graduate level, and there are several graduate students in the DH certificate program who would be able to teach the class. DH 200 will form the centerpiece of UT’s proposed Digital Humanities minor and offers students the opportunity to study from an interdisciplinary perspective and enhance their skills in humanities, liberal arts, and social sciences by incorporating digital technology and interrogating the effects of digital technology on the humanities and society more broadly. This will allow students to gain a wide variety of methodological skills and perspectives that will prepare them for a growing number of careers in industry, nonprofit, and educational sectors that welcome digital skills alongside the communication and critical thinking abilities that have long been valued in humanities students.

Impact on Other Units* N/A because there is not an equivalent existing course

Financial Impact* None initially, though this will be a class that professors and especially graduate students and recent graduates of the DH certificate program will be able to teach.

Arts and Sciences Only

<tbody>
<tr>
<td>The biological sciences major offers concentrations in biochemistry and cellular and molecular biology; ecology and evolutionary biology; and microbiology. Continuing, returning, and transfer students must meet progression requirements before declaring a major in biological sciences. To declare biological sciences as a major, students must have an overall GPA of 2.0, be in good academic standing and have completed CHEM 122*-CHEM 123* and CHEM 132*-CHEM 133* and BIOL 150* or BIOL 113* with a minimum grade of C. Although the completion of either BIOL 113*-BIOL 114*-BIOL 115 or BIOL 150*-BIOL 160*-BIOL 159* are permissible as prerequisites to the major, the faculty encourage students to take BIOL 150*-BIOL 160*-BIOL 159*, particularly if they are pre-professional students.</td>

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The biological sciences major offers concentrations in biochemistry and cellular and molecular biology; ecology and evolutionary biology; and microbiology.

Continuing, returning, and transfer students must meet progression requirements before declaring a major in biological sciences.

To declare biological sciences as a major, students must have an overall GPA of 2.0, be in good academic standing and have completed CHEM 122*-CHEM 123* and CHEM 132* and CHEM 133*, and BIOL 150* or BIOL 113* with a minimum grade of C. Although completion of either BIOL 113*-BIOL 114*-BIOL 115 or BIOL 150*-BIOL 160*-BIOL 159* are permissible as prerequisites to the major, the faculty encourage students to take BIOL 150*-BIOL 160*-BIOL 159*, particularly if they anticipate a career in a health profession.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Course Description**

Have you ever wondered why we avoid sick others, if other animals practice social distancing to prevent the spread of pathogens, and how pathogens manipulate the behavior of their hosts? This course will introduce students to the many ways humans and non-human animals change their behaviors in response to infectious and non-infectious diseases. We will explore topics such as avoidance, exclusion from groups, self-isolation, social distancing, aid provided to sick others, and parasite manipulation of host behavior. For each of these behaviors we will explore the underlying evolutionary and ecological contexts and epidemiological implications.
Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

Statement about Crosslistings:

If course is to be crosslisted, then use the "Crosslistings" tab on menu to the right to bring in all applicable secondary courses.

Course Description

This course addresses the evolutionary and ecological aspects of interactions between plants and pollinators, with a focus on pollinating insects and community ecology. We will discuss primary scientific literature, learn about experimental design and methods in pollination ecology, and explore careers in ecology and plant-pollinator interactions. This course will include a primer in insect taxonomy, anatomy, and physiology, but we will spend more time on ecological concepts as they apply to the field. We will also spend time outdoors in the field learning methods in pollinator ecology, including observing plant-pollinator interactions, ground-nesting bees, and floral morphology.

Subject/Prefix (choose from list)* EEB

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 405

Course Title (max 100 characters)* Ecosystem Ecology Laboratory

Credit Hours* 2

Change course status from active to:* Dropped (Inactive-Hidden) Archived

Course Description

Examine how energy, carbon, nutrients flow through microbial, plant, and animal components of ecosystems. Students will generate hypotheses, design and perform experiments, and analyze and interpret results in field, greenhouse, and lab settings. Requires periodic field trips.

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale* This course has not been taught in 5+ years. We do not foresee near-term future interest in offering this course.

Rationale*  This course has not been offered in any form and will allow for hands-on experience while meeting internship credit hours. This course supports the Biology Program Learning Objective that students will demonstrate the appropriate application of a technique (e.g., research plant care skills). Students will gain skill sets related to greenhouse management, plant management, and insect and disease management. Students will understand how to assess greenhouse equipment issues and troubleshoot resolutions. This is a course that implements personalized self-instruction with hands-on training and learning. Students will be assessed on their active participation, engagement with collection and research projects, and a reflective essay about their learning experience. Satisfactory completion of these assessment activities demonstrates a student's success in this course, justifying the proposed S/NC grading system.

☑ Natural Sciences  
☐ Social Sciences

Select the checkbox if this course should be considered a Writing Emphasis course.  
☐ Writing-emphasis course.

Should this course be considered for Connections?  
□ Yes  
☑ No
## If yes, which Connections category?

- Ancient Mediterranean Studies
- Biodiversity and Humans
- Cultural and Artistic Achievement: Arts in the United States
- Cultures and Societies
- Emerging Asia
- Environment and Society
- Geographic Information Science for Our Changing World
- Global Social Justice
- Health and Biophysics
- Health Care Perspectives
- How to Live in the Premodern World
- Humans Living on a Dynamic Earth
- Inequalities: Race, Ethnicity, Class, and Gender
- Mobility and Migration
- New Geographies of the Global Economy
- Our World: Contemporary Arts and Culture
- Rise and Decline of Premodern Complex Societies
- Shifting Borders and Cultures in Europe
- Understanding Climate Change
- Visual Cultures and Media Studies

College of Arts and Sciences - EEPS - 101
2024-2025 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Earth and Planetary Sciences

Subject/Prefix (choose from list)* EEPS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 101

Course Title (max 100 characters)* The Dynamic Earth

Variable Title? Yes

Credit Hours* 4

Course Description
In this course, we will discover the physical processes that act within and on Earth, including the formation and destruction of minerals and rocks; the risks and occurrence of volcanoes and earthquakes; and how mountains are built and eroded. Plate tectonics will provide the context of our investigations. Human use of geological resources, and the consequences, will also be highlighted.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary

List all courses in this crosslisting relationship and note whether primary or secondary

# College of Arts and Sciences - EEPS - 102

## 2024-2025 UG Revise Course

### General Catalog Information

**College**
- College of Arts and Sciences

**Department (Acalog Hierarchy)**
- Earth and Planetary Sciences

**Subject/Prefix (choose from list)**
- EEPS

**Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)**
- 102

**Course Title (max 100 characters)**
- Earth, Life, and Time

**Variable Title?**
- Yes

**Credit Hours**
- 4

**Course Description**
In this course, we will look to the geologic past and discover how geologists use evidence gathered from the rock record to interpret geologic and biologic processes that have occurred over deep time. We will explore the history of the Earth, investigating some of the most important events that shaped the modern world such as oxygenation of Earth's atmosphere, the explosive radiation of life, and mass extinction events.

**Will this course be crosslisted?**
- Yes

**If yes, what is the crosslisting relationship for this course?**
- Primary

**List all courses in this crosslisting relationship and note whether primary or secondary**

### General Catalog Information

**College**: College of Arts and Sciences  

**Department (Acalog Hierarchy)**: Earth and Planetary Sciences  

**Subject/Prefix (choose from list)**: EEPS  

**Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)**: 103  

**Course Title (max 100 characters)**: The Earth's Environments  

**Variable Title?**: Yes  

**Credit Hours**: 4  

**Course Description**: In this course, we explore the relationships between Earth systems and human activities by investigating our most pressing environmental problems, and how people create and mitigate those problems. Topics include population growth, consumption, natural hazards (volcanoes, earthquakes, floods), resource depletion (energy, minerals, water, soil, food), air and water pollution, solid & hazardous waste disposal, and global climate change.

**Will this course be crosslisted?**: Yes  

**If yes, what is the crosslisting relationship for this course?**: Primary  

**List all courses in this crosslisting relationship and note whether primary or secondary**:

**Statement about Vol Core:**
If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

Satisfies Volunteer Core Requirement: (NS)

Contact Hour Distribution (if more than one instructional method)

3 hours lecture and one 2-hour lab or field period.

### Course Description

In this course, we will investigate the geological processes operating on and within planets, as well as satellites, asteroids, and comets. Topics include how planets form, composition of the planets, formation of moons, geologic processes like tectonics and volcanism that affect planetary surfaces, and the spacecraft missions that have provided data for geologic interpretation.

#### Course Title: Honors: The Dynamic Earth

- **Variable Title?** Yes
- **Credit Hours** 4

### Course Description

In this course, we will discover the physical processes that act within and on Earth, including the formation and destruction of minerals and rocks; the risks and occurrence of volcanoes and earthquakes; and how mountains are built and eroded. Plate tectonics will provide the context of our investigations. Human use of geological resources, and the consequences, will also be highlighted.

Students in this course will attend the lectures of EEPS 101 and complete all assignments for that class. In addition, the students will participate in laboratory and field exercises that emphasize understanding of physical processes, including the formation of rocks, plate tectonics, earthquakes, and landscapes.

- **Will this course be crosslisted?** Yes
- **If yes, what is the crosslisting relationship for this course?** Primary

List all courses in this crosslisting relationship and note whether primary or secondary: U 8172

Equivalency GEOL 207

Rationale* Update to course prefix. We are changing our department name and updating our course prefix from GEOL to EEPS.

Updated the course description and credit hour distribution to better reflect the actual content of the course. Previously, this required looking at the descriptions of both 205 and 207 to fully understand the content and requirements of the course.
Impact on Other Units*

College of Arts and Sciences - EEPS - 210

2024-2025 UG Revise Course

General Catalog Information

College*  College of Arts and Sciences

Department (Acalog Hierarchy)*  Earth and Planetary Sciences

Subject/Prefix (choose from list)*  EEPS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)*  210

Course Title (max 100 characters)*  Astrobiology: Life, the Universe, and Everything

Variable Title?  Yes

Credit Hours*  3

Course Description  An introduction to the origin, evolution, distribution, and destiny of life in the universe that blends basic principles of geology, biology, and physics to discover where, and under what conditions, life can arise and exist in the universe.

Will this course be crosslisted?  Yes

If yes, what is the crosslisting relationship for this course?  Primary

List all courses in this crosslisting relationship and note whether primary or secondary

**Course Description**: Students will investigate (1) the various sources of energy that society needs to function, (2) the money used to bring energy to consumers, and (3) the effects these have on our environment. Through analysis of real-world data, reporting, personal reflections, and in-class discussions, students will explore the systems of money and energy that have created the world today and technologies that enable us to care for our world tomorrow.

**Will this course be crosslisted?** Yes

- **Rationale**

  This new course introduces students to the science of geology as it exists at the intersection of society and finance. Critical decisions on the use of energy and environment - from the personal to intergovernmental - will shape the next 100 years of life on Earth. This class will enable students to make informed opinions and choices on these topics in the years to come. This is for students exploring the geology major or contemplating the geology minor in addition to their primary discipline.

**Course Description:**
Critical analysis of the preserved record of ancient life, with emphases on recognition of evolutionary patterns, processes, and extinctions. Interpretation of ancient environments and the integrated use of fossils and other geological features in solving problems of geologic correlation and age dating. Statistical and qualitative approaches applied to field and laboratory data.

Undergraduate Council U 8252 February 20, 2024
College of Arts and Sciences - EEPS - 340

2024-2025 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Earth and Planetary Sciences

Subject/Prefix (choose from list)* EEPS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 340

Course Title (max 100 characters)* Earth Sedimentary Processes

Variable Title? Yes

Credit Hours* 4

Course Description Earth surface processes applied to interpretation of the stratigraphic record ― weathering and soil formation, the hydrologic cycle, physical sediment transport, biological and chemical sedimentation, and sediment diagenesis.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary

List all courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

College of Arts and Sciences - EEPS - 370
2024-2025 UG Revise Course

General Catalog Information

College*  College of Arts and Sciences

Department (Acalog Hierarchy)*  Earth and Planetary Sciences

Subject/Prefix (choose from list)*  EEPS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)*  370

Course Title (max 100 characters)*  Earth Structure and Geophysics

Variable Title?  Yes

Credit Hours*  4

Course Description  Stress and strain. Mechanics and recognition of geologic structures — faults, joints, folds, foliations, lineations, microstructures. Introductory plate tectonics and introductory earthquake and reflection seismology. Laboratory — geologic map interpretation, cross-section construction, fabric diagrams, fault-plane solutions, strain analysis, and seismic interpretation. Field work includes field observation and measurement, recording data, and regional geology.

Will this course be crosslisted?  Yes

If yes, what is the crosslisting relationship for this course?  Primary

List all courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

## Course Description
A survey of the field of taphonomy, covering processes that affect and alter organismal remains in the postmortem interval. Topics will address taphonomic processes acting at varying temporal and geographic scales relevant to both anthropology and paleontology, exploring the interdisciplinary nature of the field.

Variable Title? Yes

Credit Hours* 3

Course Description
Petrogenetic modeling provides a framework for interpreting igneous processes that operate in the Earth and planets. End-member petrogenetic models make fundamentally different assumptions about the physics of partial melting, melt extraction and melt migration. In this course we will review and critically evaluate models for partial melting of planetary interiors. Students will build a suite of MATLAB programs to apply to data from real samples. Development of these codes will provide a foundation in the fundamentals of coding and data analysis in MATLAB. The course will culminate in a research project; the codes themselves will remain a valuable package of tools that each student can apply in real research.

Will this course be crosslisted? Yes

#### Course Description
This course is designed to provide an in-depth study of volcanic processes, both terrestrial and on other planets. Classes will focus on the basic geologic principles necessary to understand the location of volcanic features, varieties of magma compositions, and the effects these variations may have on eruptive styles and landforms. In addition, we will consider the risks people take by living near active volcanoes and what governments can do and are doing to mitigate those risks. By the end of this semester students should be able to discuss knowledgeably the formation and eruption mechanisms of volcanoes, understand how composition effects volcanic output, recognize risks, both volcanic and non-volcanic, to populations living in the vicinity of volcanoes, and discuss ways to monitor and mitigate those risks.

College of Arts and Sciences - EEPS - 440
2024-2025 UG Revise Course

General Catalog Information

**College**
College of Arts and Sciences

**Department (Acalog Hierarchy)**
Earth and Planetary Sciences

**Subject/Prefix (choose from list)**
EEPS

**Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)**
440

**Course Title (max 100 characters)**
Field Geology

**Variable Title?**
Yes

**Credit Hours**
3-5

**Course Description**
Field training course in different locations for advanced undergraduate geology majors and first-year graduate students in geology. Portions are taught on- and off-campus. Off-campus work requires travel for one week and the full time of the student. The course provides a synthesis of the major aspects of the geological sciences in a societal context. Field techniques demonstrated, practiced, and applied to the solution of geologic problems.

**Will this course be crosslisted?**
Yes

**If yes, what is the crosslisting relationship for this course?**
Primary

Statement about Vol Core:
If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

### Satisfies Volunteer Core Requirement:

#### Contact Hour Distribution (if more than one instructional method)

#### Grading Restriction

**Repeatability** May be repeated when the field location is different. Maximum 3 times.

### Credit Restriction

#### Registration Enforced (RE)

#### Department Enforced (DE)

### Registration Enforced (RE)

### Department Enforced (DE)

### Recommended Background

At least 16 hours from EEPS 310, EEPS 320, EEPS 330, EEPS 340, EEPS 370.

### Comments

Students may take a multi-week summer field course from a different institution and transfer those hours to count toward EEPS 440.

#### Registration Restriction(s)

#### Equivalently

GEOL 440
Rationale*

1. Update to course prefix. We are changing our department name and updating our course prefix from GEOL to EEPS.

2. Earth and Planetary Sciences is revising its field training requirements to make the program more accessible and inclusive. Currently the degree requires taking a five- to six-week field course taken during the summer at another university and transferring the credits to UTK. This creates difficulties for students as these courses can be very expensive and students may not be able to leave for that amount of time due to work or family obligations. The new plan provides more options for students including taking a revised version of 440 which will be offered by EPS during mid-semester terms. This course will involve on campus work and a one-week field excursion to varying locations depending on the instructor. This change will provide students with the same training as before, but with more flexibility and lower cost.

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 443

Course Title (max 100 characters)* Sustainable Cities and Landscapes

Variable Title? Yes

Credit Hours* 3

Course Description
We examine the ecology of urban systems. Starting with an overview of basic ecological principles, we study how the emergence of cities has impacted natural systems and how this impact has accelerated. We focus on solutions, most notably the various ways that cities can be designed to reduce human impacts. The ultimate goal is to design cities to meet human needs while reducing the human footprint by increasing ecological functions.

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Earth and Planetary Sciences

Subject/Prefix (choose from list)* EEPS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 450

Course Title (max 100 characters)* Landscapes: Earth and Elsewhere

Variable Title? Yes

Credit Hours* 3

Course Description Integrative approach to understanding processes that shape the Earth's surface. Topics include processes and landforms produced by weathering, mass wasting, running water, wind, glaciers, and seas. Field and laboratory exercises include mapping, taking measurements, physical modeling, numerical calculations, and interpretation.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary

List all courses in this crosslisting relationship and note whether primary or secondary

Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.
Satisfies Volunteer Core Requirement:

Contact Hour Distribution (if more than one instructional method)

2 hours lecture and one 2-hour lab or field period.

College of Arts and Sciences - EEPS - 456

2024-2025 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Earth and Planetary Sciences

Subject/Prefix (choose from list)* EEPS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 456

Course Title (max 100 characters)* Global Climate Change

Variable Title? Yes

Credit Hours* 3

Course Description
Examines natural and anthropogenic changes in global climate systems. Topics include biogeochemical cycles of greenhouse gases and the water cycle, including water resources and pollutants and changes in the biosphere (extinctions) as both cause and effects of physical global changes. Historical (baseline) dynamics are compared to current changes in order to predict human impacts and suggest technical and policy solutions.

Course Title (max 100 characters)*  Environmental Aqueous Geochemistry

Variable Title?  Yes

Credit Hours*  3

Course Description  A survey of fundamental geochemical principles as applied to the fate and transport of inorganic and organic constituents in natural waters. Topics include thermodynamics, activity-concentration relations, mineral solubility and stability, chemical speciation and redox state of natural waters, and water-rock-biota interactions. Course will emphasize geochemical modeling to test hypotheses, explore assumptions, approximations, and equilibria in natural geochemical systems.

College of Arts and Sciences - EEPS - 483
2024-2025 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Earth and Planetary Sciences

Subject/Prefix (choose from list)* EEPS

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 483

Course Title (max 100 characters)* Radiogenic Isotope Geochemistry

Variable Title? Yes

Credit Hours* 3

Course Description
Radiogenic isotope geochemistry studies the natural variations in the relative isotope abundances of interested elements caused by radioactive decay. The course will provide an introduction of nuclear processes and their applications in the broad field of Earth and planetary sciences. We will discuss radiogenic isotopes as a tool for chronology, as well as a monitor of geological processes in the mantle and crust of the Earth and other rocky planets. We will also review laboratory measurements of radiogenic isotope variations. There are no formal prerequisites, but students should be prepared to learn (or relearn) physics, chemistry, and math.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary

List all courses in this crosslisting relationship and note whether primary or secondary

Grading Restriction

Repeatability  May be repeated. Maximum 6 hours.

Credit Restriction

Registration Enforced (RE) ENGL 102*, ENGL 112*, ENGL 132*, or ENGL 298*.
**Prerequisite(s):**
3.25 GPA or consent of instructor.

**Corequisite(s):**
Equivalent to ENGL 260, non-Honors version of this course.

**Rationale:**
English 268 will allow the department to offer a greater variety of general-education professional-writing courses beyond our current offerings of Business and Public writing. Students will eventually be able to study writing strategies, conventions, genres, and other aspects of writing in fields such as public health, medicine, law, environmental studies, among others.

**Impact on Other Units:**
None.

**Financial Impact:**
None.

---

**Arts and Sciences Only**

Only proposals originating from the College of Arts and Sciences should answer these questions.

**Which CAS Committee(s) will be involved in this proposal?**

### Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

### Equivalency

**Rationale**

Instead of two courses focused on Romanticism in its two generations, the department will now offer only one Romanticism course (414) covering all the Romantics.

**Impact on Other Units**

None.
Financial Impact*  
None.

Have you consulted with all programs/departments that will be impacted by this change?*

College of Arts and Sciences - Earth and Planetary Sciences - Geology and Environmental Studies Major, BS – Geology Concentration

2024-2025 UG Revise Program

General Catalog Information

College* 
College of Arts and Sciences

Department* 
Earth and Planetary Sciences

Program Name* 
Geology and Environmental Studies Major, BS – Geology Concentration

Degree Type* 
Bachelor of Science

Program Type* 
Concentration

Description 
The Geology concentration is designed to provide students with a detailed understanding of rock forming minerals; the physical, chemical, and biological processes involved in rock formation (igneous, sedimentary, and metamorphic); the biologic and tectonic evolution of the Earth; field recognition of geologic processes; and the composition and evolution of extraterrestrial planets. Students then select a suite of upper-level electives to enhance interests in specific geologic disciplines.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTOSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Rationale*

1) Earth and Planetary Sciences is revising its field training requirements to make the program more accessible and inclusive. Currently the degree requires taking a five- to six-week field course taken during the summer at another university and transferring the credits to UTK. This creates difficulties for students as these courses can be very expensive and students may not be able to leave for that amount of time due to work or family obligations. The new plan provides more options for students including taking a revised version of GEOL 440 which will be offered by EPS during mid-semester terms and an already existing course, GEOL 301, offered during regular semesters. This combination of courses will provide students with the same training as before, but with more flexibility and lower cost.

2) We are revising our honors degree requirements so that it is more focused on student research than coursework, allowing students to count more independent research hours (one-on-one research with faculty) toward their honors requirements. Our students with these experiences are more likely to be accepted into graduate programs and get hired in geoscience industries.

Financial Impact*

None

Impact on Other Units*

None of the changes being made to the program involve courses from other units. All changes only affect courses offered by Earth and Planetary Sciences.

Program audit confirms no impact to another unit.

Have you consulted with all programs/departments that will be impacted by this change?*

Yes ☐  No ☐

ADMINISTRATIVE USE ONLY

Impact Level

College of Arts and Sciences - Earth and Planetary Sciences - Geology and Environmental Studies Major, BS – Planetary Geoscience Concentration

2024-2025 UG Revise Program

General Catalog Information

College* College of Arts and Sciences

Department* Earth and Planetary Sciences

Program Name* Geology and Environmental Studies Major, BS – Planetary Geoscience Concentration

Degree Type* Bachelor of Science

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

A concentration in Planetary Geoscience is for undergraduate students who want to pursue a career in applying geoscience skills to extraterrestrial bodies. Students will gain a strong geoscience background with the flexibility to supplement with additional courses tailored to their specific interest in the planetary field (i.e., remote sensing, astrobiology, etc.). Students in this concentration will develop analytical, critical thinking, and problem-solving skills they can put to work in careers in scientific research, planetary mission development and support, teaching, and related fields.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

### General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
**Description**

The Geology and Environmental Studies major is designed for students who want a broad, general background in geosciences and wish to develop their leadership and communication skills to pursue careers in science, education, law, business, public policy and many other fields.

Program Learning Outcomes for the B.S. degree in Geology and Environmental Studies:

- Students will demonstrate knowledge and understanding of geosciences in one of the four concentrations.
- Students can apply geoscience techniques presented in the curriculum.
- Students will develop a depth of professional knowledge, the ability to problem solve, and critical thinking skills comparable to other professional geoscience programs.

Water Science encompasses a variety of important topics related to water issues and challenges experienced by humanity. Water Science is a core area of the geosciences that is focused on studying the distribution, movement, and storage of water on the surface, and in the soils and rocks of Earth’s crust and other rocky planetary bodies. Our undergraduate offerings in the Geology and Environmental Studies major focus on rock forming processes on Earth and other planetary bodies, the evolution of life, natural geological resources, geochemistry, environmental pollution, climate and human impact. Courses in the major not only provide the foundation for advanced education and research into urgent challenges in water quality, availability, and management, but also offer our students pathways into successful careers in science, education, industry and government.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description
The Certificate in Animal Behavior consists of 9 hours selected from the courses listed below. At least 3 of the credit hours used to satisfy the requirements of this certificate must be unique with respect to their minor, major, or another certificate program.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone

### Requirements**

#### Rationale*

We propose this certificate as a way for students to add a skill set specific to understanding animal behavior and how to investigate it. Critical thinking and core competency skills that are learned in a science discipline are highly desired in many future careers, as well as graduate and professional study. Student interest in behavior is also high given the important role that behavior plays in navigating/mitigating/resilience to a rapidly changing world.

#### Financial Impact*

Psychology, Animal Science

#### Impact on Other Units*

Psychology, Animal Science

Routed on 2023.10.05 for impact.

General Catalog Information

College* College of Arts and Sciences

Department* Ecology and Evolutionary Biology

Program Name* Behavior Minor

Learning Outcomes

Students will demonstrate fundamental knowledge of behavior principles

Students will be able to describe the types of techniques behavioral biologists and psychologists use to explore the natural world

Students will be able to apply the techniques behavioral biologists and psychologists use to explore the natural world

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The minor consists of approximately six courses (a minimum of 18 credit hours). Of these six, up to two courses may also be used toward meeting curricular requirements for the student's major or another minor requirement concurrently. Students can obtain a minor in Behavior and also a major in Psychology or Ecology & Evolutionary Biology.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone

---

**Requirements***

| **Rationale*** | We propose this minor as a way for students to add a skill set specific to understanding behavior in human and non-human animals. Specifically, the minor will include courses that entail: (i) mechanistic aspects (e.g., neurobiology of behavior, cognitive biology), (ii) eco-evolutionary outcomes of behaviors (e.g., behavioral ecology), as well as course materials on how to investigate behaviors, design experiments, and analyze data from behavioral experiments or observations. Critical thinking and core competency skills that are learned in a science discipline are highly desired in many future careers, as well as graduate and professional study. Student interest in behavior is also high given the important role that behavior plays in navigating/mitigating/resilience to a rapidly changing world. |

| **Financial Impact*** | Yes. Includes courses from another unit. |

| **Impact on Other Units*** | Includes courses from HCA. If these remain in the proposal, the impact will require custom routing to HCA. See attached impact audit. |

| **Have you consulted with all programs/departments that will be impacted by this change?*** | Yes |

---

**ADMINISTRATIVE USE ONLY**

| **Impact Level** | Low |
If approved, will this need notification/approval from any agency outside of UTK?

- Yes
- No

<td>Concentration</td>
</tr>
</tbody>
</table>

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
The Department of Economics offers an accelerated 5-year Bachelor’s/MA program for qualified students. With prior approval, students may take up to 9 credit hours of 400-level or 500-level courses that satisfy their senior undergraduate electives and have them count toward both their bachelor’s and master’s degrees at UT-Knoxville. Students first obtain a BA degree in Economics through the College of Arts and Sciences or a BSBA in Economics through the Haslam College of Business. Then, with an additional two semesters of coursework complete an MA in Economics. Students are typically considered for conditional admission to the accelerated program prior to their last year of undergraduate studies.

Important guidelines and admissions requirements are as follows:

- Applicants must have declared an economics major in either the College of Arts and Sciences or the Haslam College of Business.
- Students first apply to the department for conditional admission to the accelerated combined program after completing a minimum of 64 credit hours of required coursework towards the undergraduate major. Students are strongly encouraged to have taken one year of calculus, ECON 311, ECON 313, and ECON 381 prior to applying.
- Students must at least have conditional admission before taking courses that will count for both their bachelor’s and master’s degrees. These courses must be approved by the department and Graduate School. To obtain approval from the Graduate School, students must request permission from the Graduate School to take approved courses for graduate credit by submitting the Senior Requesting Graduate Credit form. This form must be completed and submitted to the Graduate School before each semester in which the undergraduate student enrolls in courses for graduate credit.
- Students must follow the normal procedure for admission to the master’s program by submitting the online admission application to the Graduate School during their last year of undergraduate studies. Students will be fully admitted to the MA program after they have been accepted by both the Graduate School and the Department.
- Students will not be eligible for graduate assistantships until they are enrolled as graduate-level students in the Graduate School.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI
Requirements*

Rationale* This program will greatly expand the career opportunities and earnings potential for graduates. Other major universities in Tennessee offer terminal master’s degrees that require 1.5 to 2 years to complete. This program provides an opportunity for our students to earn an advanced degree on an abbreviated timeline, which further increases the return on investment. Last, graduates of this program will have a much better chance of admission to a top PhD program, as there is a considerable gap between bachelor’s coursework and a PhD program in economics.

College of Arts and Sciences - English - Teaching English to Speakers of Other Languages (TESOL) Certificate

2024-2025 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* English

Program Name* Teaching English to Speakers of Other Languages (TESOL) Certificate

Learning Outcomes

- Understand and explain theories, research, and key concepts in first- and second-language learning and use.
- Understand and explain approaches to and methods in teaching English to speakers of other languages.
- Develop teaching and learning materials for future teaching contexts.
- Apply learned theories, key concepts, and teaching approaches and methods to real-world teaching contexts.

Degree Type* Undergraduate Certificate

Program Type* Undergraduate Certificate

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
Description

This Add-On certificate prepares students to teach English as a second or foreign language abroad or in non-public school contexts in the U.S. Students who complete this certificate will be prepared to teach learners of all ages and proficiency levels who are learning English at different instructional levels (e.g., primary, secondary, and post-secondary) in diverse geographical, institutional, and sociolinguistic contexts around the world. This certificate emphasizes pedagogical components of teaching, including how to develop teaching materials suitable for linguistically and culturally diverse learners of English. Students also gain actual experience in the classroom. This certificate program will benefit new graduates who want to teach English to students abroad, to English language learners in this country in non-public school contexts, to international students at universities or colleges where English is used as a medium of instruction, and to international workers. This undergraduate certificate program does NOT certify students to teach in public schools (K-12) in Tennessee or elsewhere in the United States.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Requirements*
Rationale

The certificate will take advantage of strengths of the Department of English's existing courses in teaching English as a Second Language (ESL) and will provide both academic and professional training for our undergraduate students and undergraduate students in other departments and programs who wish to teach English as an additional language abroad, where a certificate in teaching English is commonly required. Our training in teaching ESL, which covers English language instruction at different levels (e.g., primary, secondary, and post-secondary), has helped our students secure teaching positions in diverse institutional contexts, including Japan, China, South Korea, and Turkey. In our courses such as English/Linguistics 474 (Teaching English as a Second/Foreign Language) and English/Linguistics 477 (Pedagogical Grammar for ESL Teachers), students had opportunities to develop teaching and assessment materials to be used in their chosen teaching contexts, ranging from primary and secondary education to post-secondary education and intensive English programs. Students reported they were able to adapt what they completed in the courses to their current teaching contexts. Some students presented the teaching materials they developed to future employees, and they were offered a job based on their experience developing teaching materials.

The certificate in TESOL would specifically attract undergraduate students from English, World Languages and Cultures, and Education interested in teaching English abroad either as a career or for a short time after college. This includes those who plan to apply for a Fulbright English Teaching Assistant (ETA) award. Given the high number of Fulbright scholars UT produces—13 in 2023-2024 and 14 in 2022-2023—this certificate could contribute to keeping that number high and to encouraging more UT students to apply for Fulbright. Additionally, there is a global demand for English language teachers and English language instruction, and this certificate would make our students more competitive in that global job market. The certificate in TESOL might also appeal to undergraduate students interested in international business, international communication and journalism, and international politics.

Financial Impact

None. All the courses in the certificate are currently offered regularly as part of English faculty teaching schedules. The one-credit practicum will be offered via our department's usual Independent Study (ENGL 493) and will be supervised by one of our three ESL faculty members.

Impact on Other Units

None. The TESOL certificate does not compete with the Teacher Education program's ESL Education minor and the related Masters of Science because it does not certify students to teach ESL in American public schools. It is intended to satisfy employer demand for TESOL certificates for teaching abroad and in non-public school settings in the US.

| Rationale* | Updating description of course content to provide more information to students. Adding Recommended Background to make sure the students are prepared to take the course. Changing repeatability to allow interested students to take the course twice. The instructor has enough material to change the course each offering if students want to continue learning about human rights violations. She uses case studies as a teaching tool, and can offer any number of case studies. For example, in Fall 2022 the course looked at Armenia, Ukraine, Croatia, Nanking, Cambodia, and Bangladesh. In Fall 2023 the course is looking at Irish Potato Famine, Holocaust, Rohingya, Australia’s Indigenous peoples, and the Uyghurs. |

**Department Enforced (DE)**

**Prerequisite(s)**

**Registration Enforced (RE)**

**Corequisite(s)**

**Department Enforced (DE)**

**Corequisite(s)**

**Recommended Background**

One course in World Geography, Human Geography, or Cultural Geography.

**Comments**

**Registration Restriction(s)**

**Registration Permission**

**Equivalency**

**Rationale***

Updating description of course content to provide more information to students. Adding Recommended Background to make sure the students are prepared to take the course.

Changing repeatability to allow interested students to take the course twice. Instructor has enough data to teach each course differently if students want to continue learning about human rights violations. She use case studies as a teaching tool, and can offer any number of them. For example: in Spring 2023 the course examined the Belgian Congo and the Herero in Namibia. Within the Americas the course looked at the Indigenous Genocides in the United States, Canada, Patagonia, and Guatemala. The course then returned to Africa, to look at Ethiopia and African Child Soldiers. In Spring 2024 the course will examine the Zulu Wars and the Bantu tribes also in South Africa. In the Americas, the course will look at the Caribbean, Central America and Peruvian colonial genocides. Then back to Africa to look at Darfur, Yemen, and Rwanda.

### Course Description

Exploration of the unique natural landscapes and dynamics found in Latin America and the Caribbean, the environmental challenges the region faces, and potential responses to these challenges.
Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

Statement about Crosslistings:

If course is to be crosslisted, then use the "Crosslistings" tab on menu to the right to add all applicable secondary courses. You must start a crosslisting with the primary course, and all courses must be new before they can be crosslisted using this form. If any of the courses (primary or secondary) already exist, you must complete an Add Course form for the new course. Add the crosslisting with a Revise Course form after full approval of the new course.

### Registration Enforced (RE)

**Department Enforced (DE) Prerequisite(s):**

**Registration Enforced (RE) Corequisite(s):**

**Department Enforced (DE) Corequisite(s):**

#### Recommended Background

GEOG 131*; GEOG 132* or equivalent

### Comments

#### Registration Restriction(s)

#### Registration Permission

### Equivalency

#### Rationale*

This course would complement the GEOG 373 course -- currently titled Landscapes and Cultures of Latin America -- by providing a more detailed exploration of the natural and environmental setting of Latin America and the Caribbean. This course would focus on the unique environmental characteristics and challenges that this region faces. This new course will also complement future study abroad programs in the region.

#### Impact on Other Units*

No impact on other units.

#### Financial Impact*

No financial impacts.

Undergraduate Council

February 20, 2024
General Catalog Information

College*: College of Arts and Sciences

Department (Acatalog Hierarchy)*: Earth, Environmental, and Planetary Sciences

Subject/Prefix (choose from list)*: GEOL

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)*: 121

Course Title (max 100 characters)*: Money, Energy, and the Environment

Credit Hours*: 3

Change course status from active to*: Dropped (Inactive-Hidden)

Course Description: Students will investigate (1) the various sources of energy that society needs to function, (2) the money used to bring energy to consumers, and (3) the effects these have on our environment. Through analysis of real-world data, reporting, personal reflections, and in-class discussions, students will explore the systems of money and energy that have created the world today and technologies that enable us to care for our world tomorrow.

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale*: A new course at the 200 level is being proposed to cover this topic. The faculty member teaching the course determined the content would be too challenging for the 100-level.
Impact on Other Units*  N/A

Financial Impact*  None

Have you consulted with all programs/departments that will be impacted by this change?*  Yes  No

**Arts and Sciences Only**

Only proposals originating from the College of Arts and Sciences should answer these questions.

Which CAS Committee(s) will be involved in this proposal?

</tr>
</tbody>
</table>

**Course Description**

Introduction to the range of careers in geology and environmental studies, and how students can optimize their course of study to prepare for these careers, and build skills necessary for the job search or graduate school application process. This includes discussion of internships, minors, undergraduate research, and other activities that can enhance students’ CVs and better prepare them for their careers.

## Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

## Equivalency

Undergraduate Council: U 8550 - February 20, 2024
General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone

**Rationale**
Update the note for the minor to reflect the new GIST BS major. The language currently prohibits students earning a geography BA with concentration in urban studies, climate information science, or GIS.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
The Department of Geography and Sustainability at the University of Tennessee offers a Five-Year BS/MS program for highly motivated and academically outstanding students who are passionate about understanding and analyzing natural environment and human societies. This program offers students the opportunity to earn both a Bachelor of Science (BS) degree and a Master of Science (MS) degree in Geography within a five-year timeframe. The program is designed to provide students with the knowledge, skills, and advanced research experience required for a successful career in geographic information science research and services in a wide array of governmental, NGO, and private sectors. The core component of the program is that qualified students can apply up to 9 credit hours of graduate courses toward both their undergraduate and graduate degrees. This not only accelerates their academic journey but also enhances their research and analytical capabilities.

Program Components

Eligibility and Admission

Students must have a declared major in Geographic Information Science and Technology.

Students must have an overall GPA of 3.4 in required coursework for admission to the program.

Conditional admission may be granted after the completion of 60 hours of coursework fulfilling requirements for the BS in Geographic Information Science and Technology.

Full admission to the program may be granted after the completion of 90 hours of required coursework for the BS in Geographic Information Science and Technology with a minimum GPA of 3.4.

Admission Process

The admission process begins with application to the Undergraduate Program Director.

The admission decision will be based on coursework, letters of recommendation, and a personal interview with members of the Undergraduate and Graduate Committees in the Department of Geography and Sustainability to determine the level of maturity and academic achievement.

Upon approval from the Undergraduate Program Director, students can submit an official application to the Graduate School.

Coursework

Students, once conditionally admitted to the program, may take up to 9 credit hours of approved graduate-level Geography & Sustainability courses that count towards both their BS and MS degrees. All courses taken for graduate credit must be approved by the student’s academic advisor and the Director of Graduate Studies. Students must also request permission from the Graduate School to take approved courses for graduate credit and follow the regular admission process for the Geography and Sustainability graduate program.
Faculty Mentorship

Students are required to obtain a commitment from a faculty member in the Geography and Sustainability Department to serve as their major professor for the MS portion of the program. The major professor will act as a mentor and advisor.

Academic Advising

Students in the Five-Year BS-MS program will receive specialized academic advising to ensure a smooth transition between their undergraduate and graduate studies.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Rationale**

This Five-Year accelerated program is designed to provide an enriching and accelerated educational experience for exceptional students. We believe this program will empower students to excel in their geographic information science and technology studies, preparing them for diverse career paths in academia, governmental, business, and private sectors.

The accelerated program allows students to save time and money by earning both a BS and an MS in Geography within five years. Students will have access to a wide range of advanced courses and research opportunities. The program prepares students for a competitive job market and future academic pursuits. Successful completion of the program enhances students' critical thinking, research, and operational skills. We look forward to welcoming dedicated students into these programs and helping them achieve their academic and professional goals in the field of Geographic Information Science and Technology.

Students, once conditionally admitted to the program, may take up to 9 credit hours of approved graduate-level Geography & Sustainability courses that count towards both their BS and MS degrees. All courses taken for graduate credit must be approved by the student's academic advisor and the Director of Graduate Studies. Students must also request permission from the Graduate School to take approved courses for graduate credit and follow the regular admission process for the Geography and Sustainability graduate program.
Students are required to obtain a commitment from a faculty member in the Geography and Sustainability Department to serve as their major professor for the MS portion of the program. The major professor will act as a mentor and advisor.

Academic Advising

Students in the Five-Year BA-MS program will receive specialized academic advising to ensure a smooth transition between their undergraduate and graduate studies.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone

**Requirements**

| Rationale* | This Five-Year accelerated program is designed to provide an enriching and accelerated educational experience for exceptional students. We believe this program will empower students to excel in their geographic studies, preparing them for diverse career paths in academia, governmental, NGO, and private sectors. The accelerated program allows students to save time and money by earning both a BA and an MS in Geography within five years. Students will have access to a wide range of advanced courses and research opportunities. The program prepares students for a competitive job market and future academic pursuits. Successful completion of the program enhances students' critical thinking, research, and operational skills. We look forward to welcoming dedicated students into these programs and helping them achieve their academic and professional goals in the field of Geography. |

### General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
The Department of Geography and Sustainability at the University of Tennessee offers a Five-Year BA/MS program for highly motivated and academically outstanding students who are passionate about understanding and analyzing geographic issues. This program offers students the opportunity to earn both a Bachelor of Arts (BA) degree and a Master of Science (MS) degree in Geography within a five-year timeframe. The program is designed to provide students with the knowledge, skills, and advanced research experience required for a successful career in sustainability research and services in a wide array of governmental, NGO, and private sectors. The core component of the program is that qualified students can apply up to 9 credit hours of graduate courses toward both their undergraduate and graduate degrees. This not only accelerates their academic journey but also enhances their research and analytical capabilities.

Program Components

Eligibility and Admission

Students must have a declared major in Honors Landscapes and Environment concentration.

Students must have an overall GPA of 3.4 in required coursework for admission to the program.

Conditional admission may be granted after the completion of 60 hours of coursework fulfilling requirements for the BA in Geography.

Full admission to the program may be granted after the completion of 90 hours of required coursework for the BA in Geography with a minimum GPA of 3.4.

Admission Process

The admission process begins with application to the Undergraduate Program Director.

The admission decision will be based on coursework, letters of recommendation, and a personal interview with members of the Undergraduate and Graduate Committees in the Department of Geography and Sustainability to determine the level of maturity and academic achievement.

Upon approval from the Undergraduate Program Director, students can submit an official application to the Graduate School.

Coursework

Students, once conditionally admitted to the program, may take up to 9 credit hours of approved graduate-level Geography & Sustainability courses that count towards both their BS and MS degrees. All courses taken for graduate credit must be approved by the student’s academic advisor and the Director of Graduate Studies. Students must also request permission from the Graduate School to take approved courses for graduate credit and follow the regular admission process for the Geography and Sustainability graduate program.

2024-2025 UG Revise Program

General Catalog Information

College* College of Arts and Sciences

Department* Geography and Sustainability

Program Name* Geography Major, BA – Landscapes and Environment Concentration

Degree Type* Bachelor of Arts

Program Type* Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students who enter the major having completed a laboratory science sequence other than geography may petition the department to waive the GEOG 131*/GEOG 137* and GEOG 132*/GEOG 138* requirements. Students who enter the major with more than 60 hours credit may petition the department to waive the GEOG 101* or GEOG 121* requirement.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

College of Arts and Sciences - Geography and Sustainability - Sustainability Major, BA
2024-2025 UG Revise Program

General Catalog Information

College* College of Arts and Sciences

Department* Geography and Sustainability

Program Name* Sustainability Major, BA

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description
The sustainability major provides scientific, socioeconomic, and philosophical background for understanding and mitigating human impact on the natural environment.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Requirements*
**Rationale**
The revisions to the Sustainability major include the inclusion of natural lab science sequences. These are to guide students to an appropriate lab science that will aid them in upper-division courses listed under the Sustainability and Environment subsection. The addition of a statistics course and options for a data analysis course is due to the methodological needs of sustainability professionals. New courses were added to the subsections as were appropriate to provide students with options that will ensure the timely completion of the program and provide an interdisciplinary perspective on sustainability. Some formatting of the major was changed to align with the two concentrations associated with the Sustainability major BA.

**Financial Impact**
No Impact

**Impact on Other Units**
This proposal may increase enrollment in courses listed in the program. Those units have been notified and asked permission for new courses listed as major requirements.

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
Description

The Department of Geography and Sustainability at the University of Tennessee offers a Five-Year BA/MS program for highly motivated and academically outstanding students who are passionate about understanding and analyzing sustainability-related issues. This program offers students the opportunity to earn both a Bachelor of Arts (BA) degree and a Master of Science (MS) degree in Geography within a five-year timeframe. The program is designed to provide students with the knowledge, skills, and advanced research experience required for a successful career in sustainability research and services in a wide array of governmental, NGO, and private sectors. The core component of the program is that qualified students can apply up to 9 credit hours of graduate courses toward both their undergraduate and graduate degrees. This not only accelerates their academic journey but also enhances their research and analytical capabilities.

Program Components

Eligibility and Admission

Students must have a declared major in Sustainability.

Students must have an overall GPA of 3.4 in required coursework for admission to the program.

Conditional admission may be granted after the completion of 60 hours of coursework fulfilling requirements for the BA in Sustainability.

Full admission to the program may be granted after the completion of 90 hours of required coursework for the BA in Sustainability with a minimum GPA of 3.4.

Admission Process

The admission process begins with application to the Undergraduate Program Director.

The admission decision will be based on coursework, letters of recommendation, and a personal interview with members of the Undergraduate and Graduate Committees in the Department of Geography and Sustainability to determine the level of maturity and academic achievement.

Upon approval from the Undergraduate Program Director, students can submit an official application to the Graduate School.

Coursework

Students, once conditionally admitted to the program, may take up to 9 credit hours of approved graduate-level Geography & Sustainability courses that count towards both their BS and MS degrees. All courses taken for graduate credit must be approved by the student's academic advisor and the Director of Graduate Studies. Students must also request permission from the Graduate School to take approved courses for graduate credit and follow the regular admission process for the Geography and Sustainability graduate program.

Faculty Mentorship
Academic Advising

Students are required to obtain a commitment from a faculty member in the Geography and Sustainability Department to serve as their major professor for the MS portion of the program. The major professor will act as a mentor and advisor.

Academic Advising

Students in the Five-Year BA-MS program will receive specialized academic advising to ensure a smooth transition between their undergraduate and graduate studies.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

<tr>
<td>This Five-Year accelerated program is designed to provide an enriching and accelerated educational experience for exceptional students. We believe this program will empower students to excel in their sustainability studies, preparing them for diverse career paths in academia, governmental, NGO, and private sectors.</td>
</tr>
<tr>
<td>The accelerated program allows students to save time and money by earning both a BA and an MS in Geography within five years. Students will have access to a wide range of advanced courses and research opportunities. The program prepares students for a competitive job market and future academic pursuits. Successful completion of the program enhances students’ critical thinking, research, and operational skills. We look forward to welcoming dedicated students into these programs and helping them achieve their academic and professional goals in the field of Sustainability.</td>

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Requirements*
The changes were included to guide students to an appropriate lab science sequence that will aid them in upper division courses listed under the Sustainability and Environment subsection. The formatting of the concentration was changed to align with the Sustainability BA major and the new concentration in Supply Chain Management. This is to have congruity between the three programs and to aid in academic advising. Public policy courses were changed or updated due to changes in the new Baker School in which this concentration is a collaboration.

Financial Impact: No impact

Impact on Other Units: These changes may increase enrollment in the courses listed for the program. Units were consulted and asked permission for adding major courses.

Have you consulted with all programs/departments that will be impacted by this change? Yes

ADMINISTRATIVE USE ONLY

Impact Level: Low

ACALOG Program OID: 32096

**Rationale**

This class is being added at the request of several tenured faculty members; we currently have no British history classes in our upperdivision curriculum.

In addition to being taught on campus, the course will also be for the use of departmental faculty teaching in the CAS summer study abroad program at the University of Cambridge. The College took over this study abroad program from Chancellor's Honors earlier this month, and the arrangement is that it will be staffed in the future by faculty from History, English and Theater. The honors course number chosen for this new History course reflects the plan that the summer study abroad program will continue to serve honors students in its new form.

### Course Description

This course examines the lives and legacies of select monarchs in European history since Charlemagne’s crowning as emperor in Rome in 800. Queens and kings were taken to be human representatives of social order and hierarchies, and ideologies of “Divine Right” or constitutionalism were repeatedly built around them. Yet they were often beset with weaknesses, political challenges, crises of succession, and (inevitably) mortality. This upper-level course focuses on a series of notable monarchs and the particular ideologies used to support their rule. We will consider Queen Elizabeth I of England, France’s “Sun King” Louis XIV, Empress Catherine the Great, Empress Maria Theresa of Austria, King Frederick the Great of Prussia, the self-made conqueror Napoleon, the German Kaisers, the last Romanov Tsar Nicholas II, and others. Our course will end with a special focus on the House of Windsor in the United Kingdom today, as a constantly reinvented royal family.
List all courses in this crosslisting relationship and note whether primary or secondary.

College of Arts and Sciences - HIME - 370
2024-2025 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* History

Subject/Prefix (choose from list)* HIME

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 370

Course Title (max 100 characters)* History of the Middle East in Global Context

Variable Title? ○ Yes ○ No

Credit Hours* 3

Course Description
This course surveys Middle Eastern history, spanning from the early modern era to the present day. Our geographic scope encompasses the Eastern Mediterranean to Iran. Key topics include colonialism, economic dynamics and crises, race, gender, religion, humanitarian efforts, environmental issues, and migration, all within the broader context of global history. By conducting in-depth analyses of primary and secondary sources, including films, graphic novels, and other forms of media, we will delve into historical forces that continue to shape the region to this day.

Will this course be crosslisted? ○ Yes ○ No

If yes, what is the crosslisting relationship for this course? ○ Primary ○ Secondary

List all courses in this crosslisting relationship and note whether primary or secondary

### Course Description

This course explores critical moments in world history through the lenses of Reacting to the Past (RTTP), an active-learning pedagogy of role-playing games designed for higher education. In this live-action class, you and your classmates will assume the identities of major, minor, and little-known figures from the past to debate key ideas and texts that have shaped our world.

### Will this course be crosslisted?

College of Arts and Sciences - HIST - 374
2024-2025 UG Add Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* History

Subject/Prefix (choose from list)* HIST

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 374

Course Title (max 100 characters)* Traveling the Globe in the Premodern World

Experience Learning Designation
- N (Internship)
- R (Research)
- S (Service Learning)

Variable Title?* Yes

Credit Hours* 3

Course Description
How connected were communities across the world before and during the "age of exploration"? Who traveled long distances in the premodern? Why and how did they make their journeys, and how did their impressions of the places and peoples they visited influence the imaginations of their home populations? What connected famous explorers like Marco Polo, Ibn Battuta, and Christopher Columbus to people who traveled the globe as part of their daily lives as merchants, captives, and pirates? This course will address these questions and more, covering long-distance travel from the late medieval through the colonial period.

Will this course be crosslisted? Yes

If yes, what is the crosslisting relationship for this course? Primary
List all courses in this crosslisting relationship and note whether primary or secondary.

#### Change course status from active to:
- Dropped (Inactive-Hidden)
- Archived

#### Course Description

#### Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

#### Equivalency

#### Rationale*
We have two tenured specialists in American religious history, and they have decided that they would like to drop the broader 300-level VolCore class in American religious history in order to offer a more specialized 400-level course that is specifically targeted at History Majors.
The Religious Studies department will now be the sole department offering this previously crosslisted class, offering it under REST 359.

**Rationale**

History is currently the primary department for this crosslisted class, but the faculty member who currently teaches the class is in Africana Studies.

In order to make scheduling the class easier for Africana Studies, we would like to move the class's primary home from History to Africana Studies.
Impact on Other Units

This change is intended to remove an administrative burden on Africana Studies which arises from History being the primary catalog home of this crosslisted course.

</table>
Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

**Rationale**

We have two tenured specialists in American religious history, and they decided that they wanted to drop our 300-level VolCore course on that topic in order to offer a more specialized course targeted at History majors. Adding this course also addresses the departmental need for more 400-level courses in US History.

The Volcore course, HIST 359, will continue to exist under its Religious Studies number, REST 359.
Impact on Other Units*

This change is associated with the petition to drop HIST 359, which will leave Religious Studies as the sole owner of the GCUS VolCore course REST/HIST 359, which will in future just be REST 359.

Since the new course will be different in intensity of focus and in pedagogical approach (400-level courses are more specialized and research-intensive in our department), we have not set up an equivalency with HIST/REST 359; we believe students with a particular interest in US religious history could benefit from taking both classes.

Financial Impact*

None - possible benefit to Religious Studies from sole ownership of GCUS course REST 359?

College of Arts and Sciences - History - African American History Minor

2024-2025 UG End Program

General Catalog Information

College* College of Arts and Sciences

Department* History

Program Name* African American History Minor

Instructions:

This form is intended to end (drop) the following programs: Major, Minor, Certificate, or Concentration.

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

Description The African American History Minor consists of 18 hours.

Requirements*
Rationale*  
In 2020-21, the department approved adding an African American History minor to our program offerings, in recognition of our clear strengths in this area. The minor went through the catalog change approval process and first appeared in this year’s undergraduate catalog (2022-23).

This past fall, when the Associate Head and core faculty in this area began talking about how we might promote the new minor, it became apparent that there were some serious concerns about program overlap between our new minor and the Africana Studies minor. After further consultation with Africana Studies and with History faculty whose courses were on the African American History Minor list, the Undergraduate Committee and then the full Department considered and approved a proposal to remove the minor from the catalog, in order to avoid competing too closely with the degree offered by our colleagues in Africana Studies.

This proposal in no way represents a step away from our department’s strong commitment to supporting a continued strength in African American history. It is motivated by a desire to avoid setting up unhelpful competition with an allied department that we consider an important collaborative partner. Since there is significant overlap in the courses on the approved lists for both minors, offering both degrees seemed duplicative.

Impact on Other Units*  
We are cutting this program because we wish to avoid duplicating minor offerings with Africana Studies.

Financial Impact*  
None

2024-2025 UG Revise Program

General Catalog Information

College*  College of Arts and Sciences

Department*  History

Program Name*  History Major, BA

Degree Type*  Bachelor of Arts

Program Type*  Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description  Majors in history should prepare their programs in consultation with a departmental advisor.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTASI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Requirements*
Rationale*  
This is not a substantive change; it is just a change in format that will allow new courses to be automatically counted toward the right major distribution category when we add new classes.

We are also updating the Pre-1750 list to add several new courses that were accidentally left off this list.

Financial Impact*  
None

Impact on Other Units*  
None

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The history major requires 33 hours. To complete the concentration in Science, Medicine, and Technology, students must complete at least 12 of those credit hours from courses on approved list (below). Those courses may simultaneously fulfill any corresponding History major distribution requirements for area and period.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Rationale*  We added a new course, HIST 419, to the list of approved courses for the major.

Financial Impact*  None

Impact on Other Units*  None

Description
The History Minor requires 15 hours.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Requirements*
**Rationale**
We have lowered the 200-level course requirements for our minor and also introduced greater student choice at the upperdivision level, on the assumption that all CAS History minors will still take a 200-level survey sequence as part of College requirements.

We hope that this change will make our minor more accessible to students in different Colleges who wish to minor in History.

**Financial Impact**
None

General Catalog Information

College*  College of Arts and Sciences
Department*  History
Program Name*  History of Science, Medicine, and Technology Minor
Degree Type*  Non-Degree  Program Type*  Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description  The history minor requires 15 hours.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTU

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Rationale* Given that this minor is targeted at science majors, we hope that the lower total hours count and added flexibility added to the 200-level requirements will make it easier for students to combine the minor with requirement-heavy science degrees.

We have also updated the course list to reflect a new class, HIST 419.

Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

Equivalency

Rationale*

The Department of World Languages and Cultures is dropping this course and its cross-listing of MRST 402. The Department confirmed that the course will be entirely new with a new timeframe and subject matter.

Impact on Other Units*

The Interdisciplinary Program of Medieval and Renaissance Studies is in agreement with this change and have removed it from their program listing.

Note: All impacted units are within the proposing/same college.

College of Arts and Sciences - ITAL - 413
2024-2025 UG Add Course

General Catalog Information

College*  College of Arts and Sciences

Department (Acalog Hierarchy)*  World Languages and Cultures

Subject/Prefix (choose from list)*  ITAL

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)*  413

Course Title (max 100 characters)*  A journey through Italian novels, poems, and short stories from the Middle Ages to the Present

Experience Learning Designation
- N (Internship)
- R (Research)
- S (Service Learning)

Variable Title?*  Yes

Credit Hours*  3

Course Description  This course explores the literary heritage that has shaped Italy’s cultural identity over centuries. It engages with masterpieces by renowned authors like San Francis of Assisi, Dante, Petrarch, Boccaccio, Leopardi, Calvino, Igiaba Scego and more. It analyzes the evolution of language, narrative styles, and cultural influences that have given rise to Italy’s diverse literary landscape. It gives Italian minors and majors the chance to become literate in the Italian canon and expands the possibility to study and apply Italian language concepts.

Will this course be crosslisted?  Yes

If yes, what is the crosslisting relationship for this course?  Primary

Undergraduate Council

Recommended Background

**Comments** Taught in Italian.

**Equivalency** New class.
**Rationale**

Adding the course "A journey through Italian novels, poems, and short stories from the Middle Ages to the Present" to the curriculum offers numerous educational and cultural benefits to students and the institution as a whole. Here are some reasons why this new course is important:

1. **Diverse Cultural Exploration:** Italian literature is rich and diverse, offering a unique perspective on historical, cultural, and societal evolution. The course exposes students to different eras, regions, and voices, contributing to a more inclusive and globally aware curriculum.

2. **Interdisciplinary Learning:** The course spans various literary forms (novels, poems, short stories) and historical periods, facilitating interdisciplinary learning that connects literature, history, language, and culture.

3. **Enhanced Language Skills:** Exploring literature across different time periods helps students develop a nuanced understanding of language evolution. This enhances their language skills and exposes them to linguistic nuances, which can be beneficial for language majors and enthusiasts.

**Impact on Other Units**

None.

**Financial Impact**

None.

RJ Hinde, Interim Executive Dean

Patrick Grzanka, Divisional Dean for Social Sciences

Kate Jones, Divisional Dean for Natural Sciences and Mathematics

Beauvais Lyon, Divisional Dean for Arts and Humanities
The College of Arts and Sciences is home to a wide array of academic disciplines and interdisciplinary programs. The departments, schools, and special programs housed within the college stretch across several broad divisions: the arts and humanities, the natural sciences, and the social sciences. Although the faculty of the college have disciplinary interests that range across many diverse academic fields, the college faculty are united by a commitment to the goals and values of liberal education: unfettered intellectual inquiry, a dedication to the quest for knowledge as a worthwhile goal in and of itself, the development of a responsible and creative mind, and the cultivation of intellectual tolerance.

The liberally educated individual is characterized not so much by specific subject matter knowledge as by the habits of mind that are cultivated during a liberal education. A liberally educated person is thus one who is able to reason and communicate effectively, who values lifelong learning, and who can confront the uncertainties of human experience. A liberal education provides a strong foundation for research, scholarship, and teaching in a student's chosen academic discipline. It also provides an invaluable educational background for a student who enters business, industry, the professions, or government or public service. A liberal education offers all individuals the opportunity to share in a rich intellectual heritage, to enjoy the adventures of the mind, and to live an engaged and fulfilling life.

The faculty of the college are committed to cultivating the habits of mind of liberal education in all of the students they teach: both those students who are pursuing concentrated study in a field within the college and those students who enroll in the academic courses offered by the college to complete University-wide general education requirements. General education serves as the underpinning of liberal education, both by providing students with opportunities to master basic learning skills and by acquainting students with the "ways of knowing" that characterize diverse academic disciplines. General education thus prepares students to become engaged lifelong learners.

Students who pursue focused studies in the College of Arts and Sciences will join a community of teacher-scholars dedicated to the generation, transmission, and preservation of knowledge in the many fields that constitute the college. The faculty of the college maintain robust agendas of research, scholarship, and creative activity in their chosen fields, and they encourage undergraduate students to join them as partners in research and creative activity. Through faculty-directed independent study and participation in faculty members' research projects and creative activity, students hone their abilities to think critically and communicate effectively and learn how the frontiers of human knowledge are extended.

The great universities of the world are so labeled because their faculties have earned the
The great universities of the world are so labeled because their faculties have earned the reputation of being renowned scholars. The University of Tennessee, Knoxville, has earned such a reputation because of the quality of the research and creative activity of its faculty. To study with such a talented faculty is to experience the best education possible.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Arts and Sciences Advising Services

Mission

The mission of Arts and Sciences Advising Services is to guide our diverse undergraduate population in developing and implementing sound educational plans that are consistent with their values and their academic and career goals. Our purpose is to encourage students to become self-directed learners and decision-makers. Further, we serve as a resource to faculty and support their work with undergraduate students within the college. Finally, our efforts support the University of Tennessee’s broader mission, specifically by encouraging student persistence towards graduation.

Academic Advising

Prior to enrolling for the first time at the university, all degree-seeking first-year students and transfer students are required to meet with an academic advisor. Readmitted students must also meet with an academic advisor prior to reenrolling. The following groups of students are required to meet with an advisor during each tracking semester (fall and spring):

- All students with fewer than 30 hours at UT Knoxville.
- Students following exploratory tracks.
- Students identified as "off track" by uTrack.
- Students on Academic Probation.

All other students are required to consult with an advisor for a substantial conference during a designated semester each year.

Programs of Study

The college offers students a wide variety of undergraduate degree programs. These programs have been designed both to help students achieve specific educational and vocational objectives and to provide students with a broad-based liberal education that will prepare them to be engaged global citizens. The college also offers a small number of three-year pre-professional curricula that prepare students for advanced study in a specific profession. Detailed information about these pre-professional curricula can be found by consulting the Pre-Professional Programs major description and by contacting Arts and Sciences Advising Services.
Students earning the Bachelor of Arts and Bachelor of Science degrees have achieved both broad knowledge of the arts and sciences and a comprehensive understanding of one or more focused areas of special interest.

Bachelor of Arts in College Scholars

The College Scholars program is a college-wide honors program that serves a limited number of especially qualified and motivated students. College Scholars have additional freedom to design an individualized undergraduate curriculum that meets particular academic interests and goals. Students must apply for admission to the College Scholars program. More information about the College Scholars program is available at https://scholars.utk.edu/.

VolsTeach Program

Students pursuing a major in selected programs in the College of Arts and Sciences are eligible to participate in the University’s VolsTeach program (http://volsteach.utk.edu/). This 4-year program permits students to complete a major in mathematics or science while also receiving secondary education teaching licensure through completion of a VolsTeach minor. For more information about VolsTeach, including advising associated with teaching licensure requirements, contact the Center for Enhancing Education in Mathematics and Science (101 Greve Hall).

Pre-Professional Programs

The college offers pre-professional undergraduate programs for students who wish to participate in the cooperative 3+1 curricula in the health sciences (medicine, dentistry, pharmacy, or veterinary medicine) and in pre-law. Students taking one of the health sciences or pre-law curricula proceed directly to specialized training in the chosen area after the third year of Arts and Sciences study. These students complete the first year of professional study in lieu of satisfying the requirements for a traditional major in the college.

Bachelor of Science in Chemistry

See Department of Chemistry.

Bachelor of Fine Arts

See School of Art.

Readmission

Information regarding readmission to the College of Arts and Sciences is available at http://admissions.utk.edu/other/readmission/. The official notification of readmission from the Office of Undergraduate Admissions will provide additional details regarding academic advising.
Requirements for Degrees

To earn a Bachelor of Arts or Bachelor of Science degree, these requirements must be completed.

All university degree requirements as described in the section Academic Policies and Procedures – General Requirements for a Bachelor's Degree.

A minimum of 120 credit hours.

At least 42 credit hours in courses numbered 300 or above.

Appropriate work to satisfy the Foundations, Perspectives, and Connections requirements. (These three requirements do not apply to students in the College Scholars Program.)

Completion of any required coursework designed to prepare students for their chosen major(s). This work may be described as "preparation for" or "prerequisites to" or "corequisites to" the major(s) chosen by a student.

Completion of at least one major consisting of 30 to 48 credit hours at 200-level or above. Courses used for the major may also be used to satisfy Foundations, Perspectives, and Connections requirements as described below.

Students may choose to complete one or more minors. A minor in the college consists of 15 or more hours at the 200-level or above.

Students may take up to 20 hours of courses graded Satisfactory/No Credit subject to the regulations described below.

Satisfactory/No Credit Courses

A few courses in the college are offered only on a Satisfactory/No Credit (S/NC) basis. Students may elect to take other courses on this basis, except where the S/NC option is specifically prohibited. Courses taken on the S/NC basis, if successfully completed, will count as hours for graduation although neither S nor NC grades will be calculated in a student's grade point average. Satisfactory is defined as C or better work on the traditional grading scale and No Credit is defined as less than C.

The option of taking courses on an S/NC basis is provided to encourage the curious and able student to explore subject matter in fields where the student's performance may be somewhat less outstanding than work in the student's primary field.
Note: Students planning to seek admission to graduate or professional schools (especially in the health sciences) should discuss with their advisors possible limitations on exercise of the S/NC option before registering for courses on this basis.

The following regulations apply to S/NC coursework:

Except for courses offered only on the S/NC basis, courses taken under the S/NC option may not be applied towards Foundations, Perspectives, or Connections requirements, towards major and minor requirements, or towards major or minor preparatory work, prerequisites, or corequisites unless specifically permitted by petition.

The maximum number of S/NC elective hours which may be counted toward graduation is 20, exclusive of courses that are offered only on the S/NC basis, physical education courses, and/or satisfactory hours earned by examination, military service, etc.

A transfer student with S/NC or equivalent credit earned prior to admission to the University of Tennessee, Knoxville, in a course which satisfies a Foundations, Perspectives, or Connections requirement may count it for that purpose. Transfer students who want to apply S/NC or equivalent credit to a major or minor requirement, or to major or minor preparatory work, prerequisites, or corequisites, must receive permission to do so by petition.

College-wide Requirements for B.A. and B.S. Students

To receive a B.A. or B.S. degree from the College of Arts and Sciences, students must satisfy the Foundations, Perspectives, Engaged Inquiries, and Connections requirements as well as the requirements for a major in the college. The requirements are described in detail below.

The following rules govern students' ability to apply courses to more than one College of Arts and Sciences degree requirement:

Except as otherwise noted, no course may be applied to both the Perspectives requirement and the Connections requirement.

No course may be used to satisfy two different components of the Perspectives requirement.

If a student satisfies the Connections requirement by completing a 9-credit Connections Package, one course that applies to the Connections Package may also be applied to the student's major requirements.

Foundations courses may be applied to Perspectives, Engaged
Inquiries, Connections, and the major.

College-wide Requirements: Foundations

All students who earn a degree in the College of Arts and Sciences must complete the Foundations requirement established by the college. Satisfying the Foundations requirement demonstrates that a student can communicate effectively in English, both orally and in writing, and that a student can use the tools of quantitative analysis. The Foundations coursework requirements consist of four parts: (1) first year English composition; (2) one additional course designated as a Volunteer Core Written Communication (WC) course; (3) one course designated as a Volunteer Core Oral Communication (OC) course; and (4) one course designated as a Volunteer Core Applied Oral Communication (AOC) course; and (5) two courses that provide foundational instruction in quantitative reasoning. The specific course requirements are as follows.

First Year English Composition

Completing the University's first year English composition requirement equips students with the skills needed to write persuasive, logical and coherent essays in English; teaches students to read critically and to evaluate and cite sources in research; and helps students understand how to write effectively for different audiences and purposes. Students may satisfy this requirement in one of two ways.

By completing 6 hours in English writing courses according to one of the following 3 sequences:

- ENGL 101* and ENGL 102*
- ENGL 101* and ENGL 298* (for 1794 Scholars Program, Chancellor’s Honors Program, Haslam Scholars Program, or Honors Leadership Program students)
- ENGL 131* and ENGL 132*. Placement in ENGL 131* or ENGL 132* will be determined by TOEFL (or equivalent standardized test) scores.

By earning credit for ENGL 101* through a College Board Advanced Placement Test and completing one additional course from the following:
ENGL 102*, ENGL 112*, or ENGL 298*. Eligibility for ENGL 112*, and ENGL 298* will be determined by a combination of AP and ACT or SAT scores.

First-Year English Placement Information

Eligibility for ENGL 112 - Advanced Writing and Research* will be determined by ACT or SAT scores. Placement in ENGL 131 - Composition for Non-Native Speakers of English I* will be determined by TOEFL (or equivalent standardized test) scores. All students enrolled in either ENGL 101* or ENGL 131* may simultaneously enroll in ENGL 103 - Writing Workshop I to receive additional instruction in writing.

A student must complete the first-year composition requirement prior to enrolling in English courses numbered 200 or higher.

Written Communication

To further develop the writing skills that are foundational to advanced work in the College of Arts and Sciences, all students pursuing a degree from the college must, after satisfying the first year English composition requirement, complete one additional course designated as a Volunteer Core Written Communication (WC) course. This additional course may also be applied to either the Perspectives or Connections requirement of the college and may be used to satisfy major requirements.

Oral Communication

The ability to communicate one's ideas orally is as important as the ability to express them in writing, and oral communication skills are foundational to advanced work in the College of Arts and Sciences. All students pursuing a degree from the college must therefore complete one course designated as a Volunteer Core Oral Communication (OC) course.

Applied Oral Communication

Effectively communicating ideas within a particular discipline or profession is
A fundamental skill that all students should acquire and demonstrate. Applied Oral Communication (AOC) courses will expand upon OC course skills to promote understanding of and engagement with targeted audiences and stakeholders in a variety of communication contexts, such as: interpersonal, small group, and team communication; nonverbal and cross-cultural communication; communication of discipline-specific or professional information both within and outside the discipline or profession; conversational communication in formal and informal settings; and active listening. All students pursuing a degree from the college must therefore complete one course designated as a Volunteer Core Applied Oral Communication (AOC) course. Students may satisfy the AOC requirement by completing any course from the approved AOC.

Quantitative Reasoning

All students pursuing a degree from the College of Arts and Sciences must demonstrate the ability to use quantitative, statistical, and logical methods to build arguments and support opinions and actions. Students may meet this college requirement either by completing two courses from the Volunteer Core Quantitative Reasoning list of mathematics, statistics, and data science courses, or by completing one course from the list of mathematics, statistics, and data sciences courses and one additional course designated as a Volunteer Core Quantitative Reasoning (QR) course. The QR course can be count towards the students major, other requirements, or be an elective.

College-wide Requirements: Perspectives

All students who earn a degree from the College of Arts and Sciences must complete the Perspectives requirement established by the college. The Perspectives requirement is designed to introduce students to the modes of inquiry and discourse that characterize various academic disciplines and to the ways in which hypotheses are constructed and evaluated. In completing the Perspectives requirement, students also gain an informed appreciation for the diverse natures of the world's cultures and societies, whether historical or present-day, and for the artistic and cultural milestones created by these cultures and societies. Perspectives courses thus prepare students to become broadly-educated, engaged, and responsible citizens.

Arts and Humanities

By studying the arts and humanities, and by participating as an informed and appreciative observer of artistic and cultural achievements in fields within the visual, spatial, musical, theatrical, or written arts, we gain new perspectives on the human experience and on humankind's creative impulse. Studying the arts and humanities also develops our critical thinking and analytical skills as we
consider historical and present-day answers to the enduring question "What common experiences, if any, make up the human experience?" The Arts and Humanities component of the Perspectives requirement serves to introduce students to the modes of inquiry that are employed in the fields that constitute the arts and humanities, to help students understand how aesthetic and moral judgments are arrived at and defended, and to acquaint students with the artistic and cultural achievements of both the past and the present.

Students may meet this requirement by completing two courses, from two different departments, chosen from the list below or complete one course from the list below and a second course from a different department from the approved Volunteer Core Arts and Humanities (AH) or Applied Arts and Humanities (AAH) list.

**Literature and Philosophical and Religious Thought**

**Natural Sciences**

Science and technology play an important role in many aspects of modern life, and as citizens we are increasingly asked to make decisions about public policy questions with scientific or technological aspects. Familiarity with scientific methods of inquiry and with the development and testing of scientific hypotheses provides us with the foundation to make these decisions in an informed and responsible way, and also helps us distinguish science from pseudoscience. The Natural Sciences component of the Perspectives requirement serves to introduce students both to the basic discoveries, foundational knowledge, and logical organization of a scientific discipline and to the experimental methods used in that discipline for scientific inquiry and for the testing of scientific hypotheses.

Students may satisfy this requirement by completing one of the 8-credit laboratory sequences listed below.

ASTR 151*-ASTR 153* and ASTR 152*-ASTR 154* (all four of these courses must be completed to fulfill the 8-credit requirement), ASTR 217*-ASTR 218*; BIOL 101*-BIOL 102*, BIOL 113*-BIOL 114*-BIOL 115.
BIOL 150*-BIOL 160*-BIOL 159* (all three of these courses must be completed to fulfill the 8-credit requirement), BIOL 158-BIOL 168*-BIOL 167* (all three of these courses must be completed to fulfill the 8-credit requirement); CHEM 102*-CHEM 103* and CHEM 112*-CHEM 113*; CHEM 122*-CHEM 123* and CHEM 132*-CHEM 133*, CHEM 128*-CHEM 138*; GEOG 131*-GEOG 132*, GEOG 137*-GEOG 132*; two courses chosen from GEOL 101*, GEOL 102*, GEOL 103*, GEOL 104*, GEOL 107*, GEOL 108*; PHYS 135*-PHYS 136*, PHYS 137*-PHYS 138*, PHYS 221*-PHYS 222*.

Social Sciences

The disciplines that make up the social sciences help us analyze the interactions that take place between individuals, between groups or societies, and between an individual and a group. Studying these interactions helps us understand the political and social dynamics that govern contemporary societies. Equipped with this understanding, we can participate more effectively, and as informed and engaged citizens, in social, political, and economic decision making. The Social Sciences (SS) component of the Perspectives requirement serves to introduce students both to the principal concerns of disciplines in the social sciences and to the methods by which social scientists collect and evaluate knowledge and test hypotheses.

Students may meet this requirement by completing two courses, from two different departments, chosen from the Volunteer Core Social Sciences (SS) list.

Foreign Language

Learning a foreign language helps prepare a student to become an engaged global citizen. Studying the vocabulary, grammatical structure, and literary milestones of a second language can help students understand the close relationship between language and culture, and can provide students with tools that can be used to both understand and bridge cultural differences. Study of a foreign language can also help us understand better the structure and nuances of our own native language. The Foreign Language component of the Perspectives requirement supports the broad goals of liberal education by promoting intellectual tolerance and flexibility, informing students’ understanding of cultural diversity, and introducing students to the literary achievements of authors writing in other languages.

Students may meet this college requirement in one of four ways. Completion of one of the following intermediate-level foreign language sequences: ARAB 221-ARAB 222*; ARAB 231-ARAB 232*; ASL 211*-ASL 212*; ASST 261-ASST 262; CHIN 231-CHIN
Completion of a six-hour intensive intermediate-level foreign language course. Any one of the following courses will satisfy the requirement: FREN 223*, GERM 223, SPAN 223*. Demonstration of intermediate competence on a departmental placement or proficiency examination or by AP or CLEP credit.

Students whose native language is not English may satisfy the requirement with ENGL 131* and ENGL 132* and any two of the following courses: AFST 225*, AFST 226*, AFST 233*; CLAS 253*; ENGL 201*, ENGL 202*, ENGL 206*, ENGL 207*, ENGL 208*, ENGL 209*, ENGL 221*, ENGL 222*, ENGL 225*, ENGL 226*, ENGL 231*, ENGL 232*, ENGL 233*, ENGL 237*, ENGL 238*, ENGL 247*, ENGL 248*, ENGL 251*, ENGL 252*, ENGL 253*, ENGL 254*, ENGL 258*; ITAL 401*, ITAL 402; JAPA 313, JAPA 314; JST 312*; LAC 315; MRST 261, MRST 262, MRST 401, MRST 402; MFLL 300; PORT 315; REST 312*; RUSS 221*, RUSS 222*.

Foreign Language Placement Information

All students who wish to enroll in a foreign language course, who have completed at least two years of this language in high school and who have not yet taken a college course in the language, must take a placement examination before enrolling. Placement in the appropriate course will be determined by the score on the examination. Examinations for most languages will be given online prior to orientation and at any time during the fall, spring, and summer. Students who place into 200-level courses will receive six hours of elementary language credit upon successful completion of a 200-level course in the same language at UTK, provided that they do not subsequently enroll and receive credit for any 100-level course in the same language. If they do, elementary placement credit is forfeited and removed from the student’s transcript.

Students who place into 300-level courses will receive six hours of intermediate language credit upon successful completion of a 300-level course in the same language at UTK, provided that they do not subsequently enroll and receive credit for any 200-level course in the same language. If they do, intermediate placement credit is forfeited and removed from the student’s transcript. Those students who place into 200- or 300-level courses and do not wish to continue in a language, but wish to receive six hours of 100- or 200-level credit, respectively, for their online exam, may do so by completing a proctored placement exam during the fall, spring, or summer and confirming the results of their online placement exam.
Placement test scores expire after one year. Students have one year from the date on which they take the placement exam to either register for the course for which they are eligible (as determined by their placement test score) or complete the proctored placement exam to confirm the results of the online exam. After the one-year period elapses, students will have to take the placement test again.

For placement information regarding ASL, contact the Deaf Studies program in the College of Education, Health and Human Sciences.

Non-U.S. History

Careful and thoughtful study of the past, and of the diversity of human societies and cultures found around the world, helps us understand the historical origins of contemporary society. By investigating change and continuity in human societies, and by asking how historical contexts shape people, events, and ideas, students can also further develop their analytical and critical thinking skills. The Non-U.S. History component of the Perspectives requirement serves to introduce students to the modes of inquiry that are employed in the study of human history, to help students understand how hypotheses about the historical past are formulated and tested, and to improve students’ understanding of how historical events have shaped present-day society.

Students may meet this requirement by completing one of the following pairs of courses. All courses listed here are writing-emphasis courses.

- AFST 235*-AFST 236*
- HIEU 241*-HIEU 242*
- HIEU 247*-HIEU 248*
- HILA 255*-HILA 256*
- HIST 261*-HIST 262*
- HIST 267*-HIST 268*
- LAC 251*-LAC 252*
- MRST 201*-MRST 202*

Global Citizenship – US Focus

Courses in the U.S. Focus area of the Global Citizenship (GCUS) category develop students’ appreciation of the variety and realities of the "American experience," taking into consideration categories of difference, such as social class, disability, ethnicity, gender, human geography, language, race, religion, and sexual orientation. Courses will help students develop an understanding of the transnational, historical, and contemporary forces that affect American society, in order to foster students’ awareness of their own identities and responsibilities in a deeply pluralistic nation and globally intertwined world. Students may satisfy the GCUS requirement by completing one course from the approved Volunteer Core Global Citizenship – US (GCUS) list.
College-Wide Requirements: Engaged Inquiries

Truly well-educated citizens should be ready to lead and solve problems, building on their chosen fields of study and personal interests and strengths. Students will benefit from experiences that broaden, extend, apply, and integrate prior learning and promote effective collaboration and self-awareness. In all Engaged Inquiries courses, students will produce an investigative, creative, or practical work relevant to the course topic. All students pursuing a degree from the college must therefore complete 9 credits in Volunteer Core Engaged Inquiries (EI) courses from at least two different departments. Students may satisfy the EI requirement by completing courses from the approved EI list.

College-wide Requirements: Connections

In completing the Connections requirement of the college, students undertake a focused educational experience that complements in-depth study in their chosen major field. Students may satisfy the Connections requirement in one of four ways.

- Completion of nine credit hours of study abroad coursework or six credit hours of study abroad coursework and completing one additional upper level course from the approved Global Citizenship-International (GCI) list. These nine hours of coursework may, if appropriate, be applied to non-Connections degree requirements. The nine hours of coursework do not need to be taken during a single academic term or at a single study abroad site. Students interested in pursuing study abroad are strongly encouraged to contact a study abroad advisor at the Center for Global Engagement.

- Completion of a minor, a second concentration, or a second major. The minor or second major may be in the College of Arts and Sciences or in another college. Courses used to satisfy the requirements of a minor or a second major may also be used to meet Perspectives requirements.

- Completion of nine credit hours drawn from one of the Connections Packages listed here. The nine credit hours must be drawn from at least two different departments. Three of the nine credit hours may be applied toward a student’s major requirements. Connections Packages are topically-oriented collections of upper-division courses that have been designed by faculty to focus students’ attention on questions that have
substantial multidisciplinary character. Completion of all Air Force or Army ROTC program requirements.

Connections Packages

Ancient Mediterranean Studies

The "Ancient Mediterranean Studies" Connections Package emphasizes the history and cultures of the people who lived around the Mediterranean Sea from prehistory through the end of late antiquity. Because of the conquests of Alexander the Great and the later unification of the region under the Roman Empire, the influence of the ancient Mediterranean has been far-reaching: from the philosophy of Plato and Aristotle to the art that inspired the Renaissance, from the literature we call the Classics to the medical tradition of the Hippocratic Oath, from Athenian democracy to the Roman Senate, and from the development of Judaism to the rise of Christianity. It is difficult to exaggerate the influence that the ancient Mediterranean has had on Western history and continues to have in our world today. This Connections Package includes courses from Art History, Classics, History, Philosophy, and Religious Studies, emphasizing the deeply interdisciplinary nature inherent in the study of the Ancient Mediterranean world.

Students who complete this Connections Package will be able to: (1) analyze the rich connectivity among the different micro-regions of the ancient Mediterranean; (2) recognize the influence of ancient Mediterranean cultures in our world today; and (3) communicate orally and in writing across traditional disciplinary boundaries.

Biodiversity and Humans

The loss of biodiversity resulting from growing human populations and
impacts on Earth is an issue of great global concern, given the importance of biodiversity for human welfare. The concept of biodiversity encompasses the number of species of plants, animals, fungi, and microorganisms in different areas and in the world as a whole, the genes in these species, and the different ecosystems in which the species are found. As humans we are a part of Earth's biodiversity, and we are shaped by and depend upon the biodiversity around us while also strongly influencing it. Human actions can promote local increases in biodiversity, but on a global scale we are responsible for huge and increasing losses in biodiversity, including species extinctions that have greatly altered the natural world and may threaten human survival. The multidisciplinary theme of this connections package is the interrelationships between biodiversity and humans, including how biodiversity is explored, documented, conceptualized, and exploited by humans; how biodiversity can be increased or decreased by human activity and environmental changes; how changes in biodiversity affect human society and the natural world; and patterns of human biodiversity and their causes.

Students who complete the Biodiversity and Humans connections package will be able to: (1) identify methods used to document and study biodiversity; (2) describe patterns in biodiversity across different wild or managed ecosystems; (3) explain the importance of biodiversity for humans; and (4) give examples of natural and anthropogenic forces that cause changes in biodiversity.

---

**Cultural and Artistic Achievement: Arts in the United States**

Artistic creation is one significant way that some members of a society respond to and try to represent the culture in which they live and work. This connections package will focus on the traditions of artistic achievement in the visual and fine arts, music, film, and literature produced by artists living and working in the United States.

Students who select this package will be able to: (1) recognize and analyze the aesthetic similarities and differences among various art forms produced in the United States; (2) describe the historical development of conventions and traditions in different art forms; and (3) recognize the relationships between art works and the cultures within which those works were created.

**AFST 323; ARTH 470, ARTH 472, ARTH 473*; ENGL 303*, ENGL 331*, ENGL 332*, ENGL 333*, ENGL 334*, ENGL 341*, ENGL 381*, ENGL 444; MUCO 411, MUCO 413; POLS 312*; REST 354*.**

---

**Cultures and Societies**
The connections package "Cultures and Societies" explores the interaction between different cultures and their impact on society. Pulling from a broad range of courses, students will see how these different perspectives help us understand ourselves and our situations. This connections package is especially for students in the Applied Studies Interdisciplinary Program in the Cultures and Societies Track. These courses support the focus of that program and sections of these courses will be offered online.

Students completing this package will: (1) learn about different cultures and their perspectives; and (2) explore how these different views given added insight into our current society and inform our actions in it.

Emerging Asia

The main goal of this connections package is to provide students with the background and analytical tools to understand the dynamics that have facilitated the rise of some of the fastest growing economies in the world across the past half century, and, to understand the impacts of these countries within the region and around the world. The catalysts for the recent economic development and increasing geopolitical power of countries such as China, India, and Japan are rooted in numerous (and interconnected) economic, geographical, historical, and political factors, some of which were influenced by outside actions (and actors).

Students completing this package will be able to: (1) understand the myriad historical factors that have catalyzed this explosive growth, and just as important, stifled development in other parts of Asia; (2) explore patterns of growth in terms of rising economic, industrial, and geopolitical power across the Asia-Pacific region; (3) recognize the cultural, economic, and political impacts of this growth not only on China, India, Japan, South Korea, and other countries across Asia, but also outside of the region; and (4) assess the local, regional, and global environmental impacts of this explosive growth.

Environment and Society

Environment and Society provides students with a strong social, biophysical and ecological foundation that can be used to identify and assess major socio-
environmental issues facing the Earth, the United States and Southern Appalachia. Courses in this cluster engage topics and methodologies related to biodiversity, industrialization and urbanization, pollution, climate change, population, technology, energy resources and environmental justice.

Students completing this package will be able to: (1) recognize the interconnectedness of self, society, and nature; (2) analyze policies, conflicts, and places and degrees of environmental danger; and (3) consider alternatives to current practices.

---

**Geographic Information Science for Our Changing World**

Recent developments in Geographic Information Science (GIS) and Technology are transforming our environment and society, changing our natural and societal behaviors/practices in different parts of the world. Understanding the technical and theoretical aspects of GIS is of critical importance to train a new generation of students in developing and applying GIS on various issues associated with environment, natural resources, and social imperatives, which in turn exert their impacts on our dynamic world.

Students completing this package will be able to: (1) understand the problem-solving values of GIS and its role on the information-based society and environment/natural resource management of the twenty-first century; (2) obtain a solid understanding of GIS to analyze environmental and social issues from a spatially integrated science perspective; and (3) gain hands-on experience with a variety of geospatial technologies, ranging from desktop-based to web-based mapping, spatial analysis, and remote sensing-based data processing, to address various environmental and societal issues.

---

**Global Social Justice**

This connections package explores the problems and promises of social justice in a global age. Courses illuminate the various visions of globalization and the multiple methods and theories through which to analyze the modern world. In order to better understand and address some of the world’s most
pressing social problems, students explore the social, economic, political, cultural, ideological, and historical processes that connect disparate parts of the world in highly unequal ways, examining the various factors that contribute to social injustice. Students completing this package will be able to: (1) recognize key processes and elements of globalization as they relate to injustice; (2) critically examine the differential effects of globalization on historically marginalized, oppressed, and vulnerable groups; and (3) consider fair, equitable, and beneficial policies and pathways for peoples engaged in struggles and contests for social justice.

**Health and Biophysics**

At the intersection of medical/biological sciences with the physical sciences, health physics and biophysics encompass a broad range of studies that help us understand biological systems and their response to light and ionizing radiation. From studying the physical structure of cells, to the mechanisms used to image the human body, as well as the underlying physics and chemistry, this package highlights the interdisciplinary nature of the health and biological sciences.

Students completing this package will be able to integrate fundamental biology, physics and engineering principles together to solve problems in health and biological sciences. Depending on courses chosen this may include: (1) discussing the advantages and health risks of using different types of radiation in medical diagnosis and therapy; (2) understanding the structure of biological matter and how it can be studied with nuclear magnetic resonance and X-ray crystallography; (3) characterizing how the structure of biomolecules drive their function, and how disruption of the structure leads to health conditions and diseases; (4) applying computational modeling to biological systems to understand experimental results and predict biological responses; and (5) examining reaction kinetics in biochemical systems.

**BCMB 333, BCMB 405, BCMB 420, BCMB 422*; NE 433, NE 490; PHYS 341, PHYS 421.**

**Health Care Perspectives**

As our population continues to grow and to age, the factors affecting health care and public health are becoming increasingly important. The breadth of courses compiled for Health Care Perspectives incorporates the complexity and challenges facing future patients and health care providers.
Students completing this package will be able to: (1) explain the impact of human aging on society, (2) describe the various facets of the science of medicine, (3) recognize the multiple levels of science communication in health care, and (4) discuss public health issues from both a local and a global perspective.

How to Live in the Premodern World

The connections package "How to Live in the Premodern World" explores how people in the period before ca. 1600 CE responded to the fundamental human problem of how one ought to live life. Students who complete this package will learn about various modes in which people in antiquity conceived of the question of proper living, including religion, philosophy, and social roles. Students will furthermore become familiar with representative examples of these things from various places and times before the modern era, with possibilities ranging from Chinese philosophy to Roman physical ideals and Middle Eastern religion. Finally, students who complete this package will also come to understand different ways scholars in the present examine attitudes and conceptions in antiquity, drawing not only upon texts but also through archaeological exploration and the study of material culture.

Students completing this package will: (1) learn about the ways in which people in premodern (before ca. 1600 CE) societies conceived of the question of a proper life; (2) become familiar with representative answers to that question that appeared in various times and places; and (3) understand methods used by modern scholars to study attitudes and concepts in the distant past.

Humans Living on a Dynamic Earth

The Earth's environment is constantly changing, but just how much and how fast the Earth has changed and is changing has evoked considerable debate.
The public often receives misinformation when all the public wants is answers to questions such as: "Is the Earth actually warming up?" "Why can't we predict hurricanes and earthquakes?" and "How long have humans been altering our environment?" Courses included in the Humans Living on a Dynamic Earth Connections package provide focused opportunities for our undergraduates to learn about our ever-changing Earth and how humans have and will continue to alter the Earth.

Students completing this package will be able to: (1) understand why our Earth's surface is constantly changing; (2) recognize the gradual (such as erosion by water, wind, and ice) and abrupt (earthquakes and volcanic eruptions) processes that altered and created the landscapes we live in today; and (3) assess and understand how humans have impacted our environment.

---

**Inequalities: Race, Ethnicity, Class, and Gender**

This connections package reflects an interdisciplinary approach to the study of race, ethnicity, class, and gender and how these social categories produce stratification, discrimination, and inequality. It focuses upon the ways in which categories of difference interact with one another to shape identities, opportunities, life experiences, and life chances by exploring what categories of difference mean and how they have been defined, constructed, and applied in various contexts.

Students completing this package will: (1) engage in a critical examination of the construction of race, ethnicity, class, and gender in a variety of social, cultural, historical, political, and economic contexts; (2) develop skills in critical thinking, comparative analysis, theory, research methods, and written expression as it relates to identity; and (3) explore strategies and policies necessary for a more informed understanding of difference.

---

**Mobility and Migration**
Modern transportation and communication technologies contribute to an increase in mobility and migration worldwide. This connections package explores identity issues related to mobility and migration, and the historical, socio-cultural, and political contexts within which mobility and migration take place. It also addresses policy issues and ethical questions related to mobility and migration, and the creation, maintenance, and policing of (inter)national borders. Students completing this package will be able to: (1) explain factors that contribute to contemporary forms of mobility and migration; (2) analyze historical, political, social, cultural, and ethical aspects of mobility and migration; and (3) place mobility and migration issues in a national and global context.

New Geographies of the Global Economy

International trade has increased rapidly in recent decades, encompassing movements in raw materials, manufactured goods, services, information, and labor. Given the current state of the global economy, the location-based aspects of economic activities become even more important to examine, especially in terms of the impacts of trade on people at various scales, ranging from the local to the global levels. Students completing this package will be able to: (1) recognize patterns of trade and economic development; (2) analyze the impacts of trade on economic development and labor; and (3) recognize and evaluate disparities in development, trade policies, wealth, and economic growth.

Our World: Contemporary Arts and Culture

Characterized by globalization, political crisis, and the entrance of technology into all facets of everyday life, the period from 1945 to the present arguably has seen some of the most drastic and accelerated changes of cultural life in human history. Focusing on how the humanities and social sciences analyze and contribute to these changes, this package offers students a rich and complex experience of the post-WWII era, teaching them skills and perspectives that they will need to enter today’s global environment. Courses in the package emphasize critical thinking, comparative analysis, and research methods. Coursework asks students to consider the thorny issues of non-negotiable cross cultural contact, how we formulate political and ethical values.
negotiable cross-cultural contact, now we formulate political and ethical values in today’s complex world, and the important role of the arts (movies, books, music, media) in constructing our reality.

Students completing this package will be able to: (1) recognize historical, cultural, and sociological movements important to post-1945 political environments; (2) analyze the relationships between art and culture that are important to contemporary life; (3) evaluate the importance of new, contemporary art forms in relation to previous arts theories, movements, and performances; and (4) articulate philosophical, ethical, political, and sociological positions concerning how new global exchanges reconfigure how we think about the world and our place within it.

Rise and Decline of Premodern Complex Societies

The connections package "Rise and Decline of Premodern Complex Societies" consists of courses that explore socio-political organization and change in Europe, the Middle East, Africa, the Far East and the New World predating the European Renaissance. One of the fundamental questions in premodern history and archaeology is how complex societies developed from the simple villages that were the earliest form of permanent settlement in human history. This question has bearing on basic issues of the human condition that are still very much in focus in the world today: human relationships, the ability to organize and incorporate ever larger population groups, the development of socio-political elites, and the wielding of power. Conversely, even though complex societies as a rule had a degree of built-in stability, all have come to an end. A continuing discourse in social archaeology and history is concerned with the question of how complex societies collapsed and reverted to a simpler level of socio-political organization. Students will explore these issues through written and/or archaeological evidence as well as by examining current scholarly approaches.

Students who complete this package will learn to (1) analyze different ways in which premodern societies in various parts of the world were organized; and (2) evaluate how these societies experienced – and dealt with – societal change.

Shifting Borders and Cultures in Europe

With the growing importance of the European Union, both the cultures of Europe and its very borders have become more dynamic and contested. This connections package offers students a multifaceted set of lenses through which to investigate broad themes and issues in European history from the medieval period up until the present day. The varied approaches of courses on political and economic history, literature and film, history of science and conceptions of gender, sexuality, and ethnic identity allows students to piece together a comprehensive overview of the changing physical, cultural, religious, and economic characteristics of Europe from the Middle Ages to today.

Students completing this package will be able to: (1) understand and analyze topics in European history, geography, culture, literature, and religion across regions and centuries; (2) engage with a variety of perspectives on shifting borders and cultures in Europe and develop skills to make synthetic and comparative arguments about them in their socio-cultural and historical context; and (3) cultivate basic research skills, develop analytical writing abilities, and practice writing to advance an argument.

ENGL 301*, ENGL 302*; GEOG 349, GEOG 371; GERM 323*, GERM 350, GERM 363*; HIEU 320, HIEU 332, HIEU 334, HIEU 434, HIEU 435; REST 385, REST 386; WLC 410.

Understanding Climate Change

Climate change is one of the most significant issues of our time, but few citizens have the background to understand the public debates it raises or to move beyond the focus on "Is climate changing?" to consider the effects of climate change on environments, ecosystems, and economies – and humankind’s options for the future. Courses included in the Understanding Climate Change connection package provide opportunities for focused inquiry into the nature of the climate system; how climate interacts with and affects weather, ocean processes, hazards, vegetation, wildlife, and human activity; the evidence for climate change in the past and present; and the longer-term context of natural climate change and variability.

Students who complete this connections package will be able to: (1) identify natural and anthropogenic causes of climate change; (2) describe sources of data on past climate; (3) give examples of how past changes in climate have affected Earth’s environments and ecosystems; (4) recognize how climate change affects human society; and (5) place current climate trends in their longer-term context.
Visual Cultures and Media Studies

In a globalized world, the study of cinema has acquired a new meaning. From the 1960s onward, many countries have witnessed escalating violence, social unrest and war. Many scholars have examined the cinematic representation of these events, however, the process of negotiation inside different countries' popular cinematic genre has just started to be mapped out. This connection package demonstrates that some of the most important documents of self-representation in the 20th century and of its cultural-political disorientation can be found in films. International references are ever-present in many national cinemas together with the recording of fluctuating national identities, as a consequence the study of cinematic products instead of displaying a direct reliance on Hollywood cultural formats, presents a multiplicity of discordant messages. Cinema after the 1960s occupies a liminal zone that traverses cultures, genres and tastes and challenges the notion of a national cinema that speaks only to its own people. The courses in this package all address aspects of visual culture in the media, be it in film, TV, print, digital media, or the arts. The prominence of the visual in today's world and its use and abuse for political and social agendas makes it pertinent that we learn how to critically read the visual image. This package also includes courses that offer critical tools for analyzing media in the digital age from cinematic, historical, socio-political and economic point of views.

Students completing this package will be able to: (1) critically analyze their own culture; (2) demonstrate knowledge of foreign cultures other than their own; (3) demonstrate insight into aspects of world geography, global economics, international politics, various religions, philosophies, histories, languages, literatures, or arts; (4) demonstrate intercultural communication concepts; (5) evaluate the impact of historical forces on the modern world; (6) explain the causes of domestic and global social problems; (7) identify and summarize concepts of interdependence; and (8) recognize global systems, processes, social constructs, trends, and issues.

**MAJORS**

Requirements for specific majors vary by program and are discussed under...

**Arts and Sciences**

- ARTH 356, ARTH 406, ARTH 476; ASST 301; ENGL 306, ENGL 334*; FREN 420; GEOG 423*; GERM 323*; ITAL 422*; JAPA 321, JAPA 315; KORE 330; PHIL 350; POLS 312; PORT 326*; SOCI 410; SPAN 434; WLC 482.
each department or program. A major consists of 30 to 48 credit hours in courses numbered 200 or above as specified by the department or program.

Courses taken to satisfy the college Foundations requirement may, when appropriate, be used in the major. Up to six credit hours used to satisfy major requirements may also be used to satisfy Perspectives requirements. A minimum grade of C must be earned in every course counted as part of the major. This grade requirement does not apply to preparatory coursework, prerequisites, or corequisites unless otherwise stated by the department.

All first-time, first-year UT Knoxville students who are admitted to an exploratory program must declare a major no later than the end of their fourth tracking semester. Transfer students with less than 45 hours of transferable work must declare a major no later than the end of their second full semester at UT. Transfer students with 45 hours or more of transferable work must be admitted directly into a major. Returning students may declare a major as soon as they have met required standards; however, they must officially declare a major by the time they have earned 75 credit hours.

The requirements for declaring a specific major are stated under the department or program listing. To declare a major, students should go to the academic department which houses the major. To declare an interdisciplinary major and for more information, contact Arts and Sciences Advising Services.

Students transferring from other institutions must complete at least nine credit hours at the University of Tennessee, Knoxville, in each major earned in the College of Arts and Sciences. Students may elect as many courses as desired in any department or program. Majors available for students pursuing a B.A. or B.S. degree include: anthropology, art, art history, biological sciences, chemistry, classics, economics, English, geography, geology and environmental studies, history, interdisciplinary programs, mathematics, modern foreign languages and literatures, music, philosophy, physics, political science, psychology, religious studies, sociology, statistics, and theatre.

Optional Multiple Majors

After a student has satisfied the general Foundations and Perspectives requirements, and the requirements of a major, additional majors may be recorded on the transcript without regard to course overlap among majors or among the additional majors and Foundations, Perspectives, or Connections requirements, provided a minimum of 18 distinct credit hours differentiates the primary major from the additional majors. Students developing multiple majors must declare this intent at the time of application for graduation. Once a student has graduated, the establishment of additional majors becomes subject to university second degree requirements.

Students who satisfy the requirements of a degree in a college other than Arts and Sciences may also major inside the College of Arts and Sciences with the approval of the degree-granting unit. These students need complete only the major requirements, not the Foundations, Perspectives, or Connections
requirements for Arts and Sciences degrees. The Arts and Sciences major may also be listed on the student's transcript.

Minors

Single or multiple minors may be recorded on the academic record without regard to course overlap among minors and major or among minors and Foundations and Perspectives requirements, provided at least nine hours differentiate a minor from a student's majors and from any other minors and the minor is not in the same concentration as any of the student's majors. Students who satisfy the requirements of a degree in a college other than Arts and Sciences may also minor inside the College of Arts and Sciences with the approval of the degree-granting unit. The minimum requirement for a minor is 15 credit hours in courses numbered 200 or above. Minors are available in most departments or programs in which majors are offered across the University. At least 6 of the 15 credit hours required for a minor must be completed at the University of Tennessee, Knoxville. Students should declare the minor at the earliest possible date, and in any case, prior to applying for graduation.

Elective Courses

Students completing a B.A. or B.S. degree in the college have the opportunity to select elective courses that supplement and support the work being done in the major and in the college-wide Foundations, Perspectives, and Connections requirements. This dimension of the student's experience at the university represents that freedom within which total education may be rounded out and enriched. Elective courses should be chosen with care so that they will truly enhance the student's total program and help in the achievement of well thought-out educational objectives.

Some of the choices which the student might make in selecting the elective courses are additional courses in the major field, a related minor, an area in the arts, or an off-campus semester.

Only the student's imagination and initiative and the willingness to conceive and develop a meaningful academic program limit the choices of supplementary elective courses.

Program for Prospective K-12 Teachers
Students planning careers in K-12 teaching must complete an Arts and Sciences major in a department, in one of the interdisciplinary programs, or, if eligible, in the College Scholars Program. Prospective secondary and middle school teachers must fulfill the requirements of appropriate content majors; prospective elementary teachers may choose any major in the College of Arts and Sciences.

To be licensed for teaching, students must also gain formal admission to the Teacher Education Program in the College of Education, Health, and Human Sciences. The process involves successful completion of a series of requirements including presentation of satisfactory scores on certain tests, completion of professional courses in the College of Education, Health, and Human Sciences, maintenance of a 2.7 or higher GPA, and completion of a fifth year program emphasizing practical application. For details, see the College of Education, Health, and Human Sciences section of this catalog and contact the Advising Center, 332 Bailey Education Complex.

**PEACE CORPS PREP PROGRAM**

The Peace Corps Prep program at the University of Tennessee is open to all undergraduate UT students regardless of major, provided they meet the admissions requirements for the program. Students in the program prepare for international experiences by completing a set of courses and activities designed to develop their professional and leadership skills. These courses may be used to satisfy requirements or electives in many UT majors and the International Agricultural and Natural Resources minor. The program is designed to prepare students to be strong candidates for the U. S. Peace Corps program following completion of their undergraduate degrees. The program includes training/experience for specific sectors: Education, Health, Environment, Agriculture, Youth in Development, and Community Economic Development. Students should apply for admission to the program as early as possible and no later than one year before they expect to complete their UT undergraduate degree. For more information, please visit the Peace Corps page of Center for Global Engagement website or contact the Peace Corps Prep Program Coordinator.

* Meets Volunteer Core Requirements.

**Rationale**

This proposal does three things: removes the writing-emphasis designation, adds courses to the College's general education requirements, and adds/deletes courses from the Connections Packages.

**Financial Impact**

None

**Impact on Other Units**

All of the courses that have been added to the General Education requirements or to the Connections Packages have been done so at the request of the respective departments. In the past, many of these courses are frequently petitioned to be included in the requirements for degree completion.

**Learning Outcomes**

Students in the Minor in Computational Social Sciences (CSS) will develop abilities to

- Use computational tools to analyze social science data
- Carry out statistical analyses
- Build and assess computational models
- Apply CSS methods toward real-world problems
- Develop the ability to visualize or map social science data
- Communicate CSS-based assessments for diverse audiences.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

**Description**

As an established element of the social sciences, computational social science comprises interdisciplinary skills for visualization and predictive modeling using social science data. This minor brings together approaches from different disciplines, including social sciences, geography, public policy, and information science. Examples of applications range from mapping and revealing sociodemographic factors across society, analysis of population-scale public health factors, exploration of innovation in science and public opinion, or topic analysis in communication and social media. The tools in the elective courses range from mapping and visualization to established statistics and regression analyses. Future additions may include machine learning and A.I.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UT SI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
**Introduction: Complete one course (3 credit hours)**

Choose one of these courses to start the minor. **15 credits are needed to complete the minor.** In the sections that follow this portion—Analysis, Mapping and Applying—students must take at least one course from each section, and then an additional course from at least one section, so that the total credits is at least 15.

- INSC 260 Programming for Information Applications
- ANTH 449 Big-data Social Sciences
- GEOG 111 Our Digital Earth

**Analysis: Complete one or two courses (3-6 credit hours)**

In the three sections that follow the Introduction—Analysis, Mapping and Applying—students must take at least one course from each section. To get to 15 credits, students must also take at least one additional course from one of those three sections.

- INSC 384 Database Design
- INSC 486 Data Analytics
- HBS 301 Thinking Analytically
- CLAS 446 Archaeological Statistics

**Mapping: Complete one or two courses (3-6 credit hours)**

In the three sections that follow the Introduction—Analysis, Mapping and Applying—students must take at least one course from each section. To get to 15 credits, students must also take at least one additional course from one of those three sections.

- GEOG 312 First Steps in GIS Programming
- GEOG 409 GIS for Environmental and Socio-Economic Applications
- GEOG 411 Intermediate Geographic Information Science
- GEOG 414 Spatial Data Management
- GEOG 415 Quantitative Methods in Geography
Applying: Complete one or two courses (3-6 credit hours)

In the three sections that follow the Introduction--Analysis, Mapping and Applying--students must take at least one course from each section. To get to 15 credits, students must also take at least one additional course from one of those three sections.

HBS 302 Visualizing and Communicating Policy Data
HBS 481 Policy Lab I
HBS 482 Policy Lab II
INSC 489 Information Visualization

Rationale*
This 15-credit minor aims to take advantage of a wealth of related courses already being offered at UTK that qualify as Computational Social Science. Computational Social Science is a rapidly-growing topic, with academic research and industry applications, ranging from public behavior to consumer behavior, public policy, government and social justice.

This CSS minor is timely, given UTK's new membership in the Atlanta Research Data Center, based in the Library, which contains a wealth of possible project/learning data for students (used with restrictions overseen by Digital Library staff).

This minor degree has been discussed with relevant faculty and leaders in College of Arts and Sciences, Baker School, School of Information Sciences and the Library.

Financial Impact*
No financial impact, as all courses are currently taught.

Impact on Other Units*
- CAS - ANTH 449
- SIS (CCI) - INSC 260, 305, 384, 486, 489
- HBS - HBS 301, 302, 481, 482
- CAS - GEOG 111, 312, 409, 411, 414, 415
- CAS - CLAS 446

Have you consulted with all programs/departments that will be impacted by this change?*

General Catalog Information

**College**  College of Arts and Sciences

**Department**  Interdisciplinary Programs

**Program Name**  Digital Humanities Minor

**Learning Outcomes**
- Students will gain expertise in a wide variety of digital humanities practices and technologies, which they will use to enhance their skills in humanities, liberal arts, and social sciences
- Students will apply interdisciplinary approaches to their primary area of study
- Students will analyze and critique digital projects and new media platforms
- Students will have the opportunity to design and manage a digital humanities project, as well as produce work related to their own discipline and career goals

**Degree Type**  Non-Degree

**Program Type**  Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
**Description**

The Digital Humanities (DH) minor offers students the opportunity to study from an interdisciplinary perspective and enhance their skills in humanities, liberal arts, and social sciences by incorporating digital technology. Students learn how to engage critically with digital media, and many courses introduce students to digital techniques for research, analysis, and publication. Courses enable students to create digital work, and some of them offer students the opportunity to plan and build digital projects independently and in project teams. The range of electives available for the digital humanities minor, combined with frequent special topics courses enables students to find thematic clusters that connect to their interests in literature, history, classics, graphic design, music, information sciences, text analysis, digital archives, and more. Graduates with a digital humanities minor are well prepared for a growing number of careers in industry, nonprofit, and educational sectors that welcome digital skills alongside the communication and critical thinking abilities that have long been valued in humanities students.

**General Instructions for Requirements**

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Minor Requirements

The minor requires the completion of a minimum of 15 credits.

Complete one course:

**Rationale**

The Digital Humanities are located at the intersection of digital technologies and the humanities, fostering collaboration that is interdisciplinary and methodologically diverse. An increasing number of UTK’s peer or aspirational peer universities offer a DH minor, including Michigan State University, George Mason University, U Nebraska – Lincoln, Pennsylvania State University, UCLA, University of Wisconsin, Tennessee Tech University, and University of Connecticut. By adding this program, UT will signal its pedagogical range, research competitiveness, and expertise in digital approaches to the humanities. The program builds on pre-existing strengths in the UT Humanities Center, UT Libraries, and the graduate certificate program in DH, as well as potential connections to STEM fields at UT and to ORNL through course offerings and collaborative research projects. The DH minor will offer internship opportunities through UT libraries, function alongside the new proposed STS minor, and prepare graduates for the growing number of careers in industry, nonprofit, and educational sectors that welcome digital skills alongside communication and critical thinking abilities.

**Financial Impact**

No financial impact, as all courses are currently taught.
Any potential impact to the units represented in the curriculum (AI, Anthropology, Classics, Cinema Studies, Computer Science, Data Science, Ecology and Evolutionary Biology, English, Geography, Graphic Design, History, Information Sciences, Music, Philosophy, Political Science, Religious Studies, Sociology, and World Languages and Cultures) would be a positive impact because their courses will be publicized within the new minor.

**General Instructions for Description**

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
Description
The Concentration in Cultures and Societies is specifically designed for transfer students or students who have completed 60 credit hours.

Admission Requirements

- **1** Completed at least 60 hours obtained from an accredited institution(s)
  - Returning veterans with at least 45 hours obtained from an accredited institution, and who meet the other requirements above, may apply.
  - Current or former UT students may transfer to the online program if they have completed at least 60 hours and meet other admissions requirements.
  - For prospective students with 50-59 transferable credits upon initial review (LD or better), we will request that these applications be forwarded to the College for additional review and consideration.
  - Prospective students with less than 50 transferable credits upon initial review be denied unless they are a returning veteran who meet all other criteria.

- 2.0 or higher GPA
- Completed at least 27 hours in the following categories
  - 6 hours of English Composition sequence (ENGL 101* and ENGL 102* or equivalent)
  - 3-6 or more hours of Math (courses TBD)
  - 4-8 hours of science with labs
  - 9 hours meeting specific Volunteer Core requirements for Social Science, Humanities, Oral Communication, etc.
  - (optional) replace 3 hours of Math with an additional 3 hours applicable to Vol Core
  - 2 years of language study and a sequence in non-US History (or plan on completing that as part of their 60 hours in this program.)

1 Students who earn a 2.0 GPA and have completed an AA, AS, AFA, or AST degree from a Tennessee Board of Regents (TBR) institutions will have automatic admission. If a student earns a degree through Tennessee Reverse Transfer, they are also eligible for automatic admission.

1 Students who earn a 2.0 GPA and have completed a bachelor's degree from a regionally accredited institution will have automatic admission.

1 Students must complete all college requirements including foreign language and non-US history. Transferable coursework will be evaluated by the registrar upon admission. All coursework may not be degree applicable.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UT-SI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
The major consists of 30 credit hours:

Primary Emphasis (9 credit hours)

Complete 2 courses (6 credit hours) from the following

- ANTH 309 Advanced Principles of Biological Anthropology
- CLAS 201 Introduction to Classical Civilization
- CLAS 253 Greek and Roman Literature in English Translation
- CLAS 273 Medical Terminology
- ENGL 251 Introduction to Poetry
- ENGL 252 Introduction to Drama
- ENGL 253 Introduction to Fiction
- HIEU 241 Development of Western Civilization
- HIEU 242 Development of Western Civilization
- PSYC 295 Introduction to Psychological Research Methods
- REST 225 Judaism, Christianity, Islam
- REST 233 Religion and Society in North America
- REST 280 Religions of Asia

Complete 1 course (3 credit hours) from the following
EEB 306 Ecology and Society  
EEB 425 Communicating the Science of Climate Change Biology  
ENGL 339 Children's/Young Adult Literature  
GEOG 345 People and Environment  
PHIL 345 Bioethics  
POLS 312 Popular Culture and American Politics  
POLS 330 Law in American Society  
PSYC 320 Motivation  
PSYC 482 Topics in Psychology  
PSYC 484 Sleep and Dreaming  
REST 202 Religion and Film  
REST 309 Religion and the Workplace  
REST 361 The American Jewish Experience  
REST 372 Contemporary Buddhism  
SOCI 321 Sociological Theory

Secondary Emphasis - Choose 4 courses from one of the following 5 options (12 credit hours).

All courses must be distinct from the courses used for the Primary Emphasis.

Option A - Political Issues & Society

EEB 305 Evolution and Society  
EEB 306 Ecology and Society  
PHIL 345 Bioethics  
PHYS 405 Science, Technology, and Public Policy  
PSYC 360 Social Psychology  
REST 233 Religion and Society in North America  
SOCI 341 Social Inequalities
Option B – Contemporary & Critical Issues

EEB 305 Evolution and Society [Right] *
EEB 306 Ecology and Society
EEB 423 Conservation Decision Making
EEB 425 Communicating the Science of Climate Change Biology [Right] *
EEPS 202 Earth as an Ecosystem: Modern Problems and Solutions [Right] *
PHIL 252 Contemporary Moral Problems [Right] *
PHIL 345 Bioethics [Right] *
PHYS 405 Science, Technology, and Public Policy
SOCI 341 Social Inequalities [Right] *
SOCI 375 Gender in Society [Right] *
WGS 469 Sexuality and Cinema

Option C - Professional Development

ENGL 255 Public Writing [Right] *
ENGL 295 Writing in the Workplace [Right] *
ENGL 360 Technical and Professional Writing [Right] *
PHIL 244 Professional Responsibility [Right] *
POLS 215 Tennessee Government and Politics
POLS 311 Contemporary Issues in American Public Policy [Right] *
POLS 330 Law in American Society
POLS 374 American Political Thought
PSYC 320 Motivation
PSYC 330 Abnormal Psychology
PSYC 360 Social Psychology
REST 309 Religion and the Workplace

Option D - Method & Theory

ENGL 360 Technical and Professional Writing
[Right] *
PSYC 300 Child Development
PSYC 360 Social Psychology
PSYC 475 Adolescent Development
SOCI 321 Sociological Theory
SOCI 331 Sociological Research
[Right] *
WGS 469 Sexuality and Cinema

Option E - Cultural Studies

ENGL 339 Children’s/Young Adult Literature
[Right] *
ENGL 480 Fairy Tale, Legend, and Myth: Folk Narrative
MATH 400 History of Mathematics
MUTH 305 Italian Musical Styles
[Right] *
POLS 312 Popular Culture and American Politics
[Right] *
REST 202 Religion and Film
[Right] *
REST 311 Hebrew Bible/Old Testament
[Right] *
REST 319 Gender, Sexuality, and Religion in Asia
REST 320 Gender, Sexuality, and Religion
[Right] *
REST 381 Judaism
[Right] *
SOCI 375 Gender in Society
[Right] *
SOCI 419 Sociology and Science Fiction
WGS 469 Sexuality and Cinema

Electives in Major (0 credit hours)
Choose up to 3 courses from a second Secondary Emphasis Area (must be distinct from the courses used for the Primary and Secondary Emphasis). Can replace up to 2 courses with up to 6 credit hours of INPG 492 - Off-Campus Study.

These are not part of the major but will be part of the 60-hour requirement and used to meet the Connections Requirement.

Choose 3 courses (9 credit hours). All must be distinct from hours used for the major.

- EEB 306 Ecology and Society
- EEB 425 Communicating the Science of Climate Change Biology
- ENGL 252 Introduction to Drama
- ENGL 339 Children's/Young Adult Literature
- ENGL 474 Teaching English as a Second or Foreign Language
- GEOG 345 People and Environment
- POLS 312 Popular Culture and American Politics
- POLS 330 Law in American Society
- PHIL 345 Bioethics
- PSYC 320 Motivation
- PSYC 484 Sleep and Dreaming
- REST 202 Religion and Film
- REST 309 Religion and the Workplace
- REST 361 The American Jewish Experience
- REST 372 Contemporary Buddhism
- SOCI 321 Sociological Theory

Additional Coursework: (21 credit hours to get to 120 credit hours overall)

Can include courses taken beyond those for the major used to
meet the Foreign language and non-US History requirement
Up to 6 additional hours of **INPG 492**
42 hours must be at the 300- or 400-level

* **Volunteer Core Requirements**

**Rationale**
The proposed changes reflect proposed changes to the CAS Catalog including: EEPS prefix and removal of Global Challenges course. The program requirements have also been updated. SPAN 331 has been removed since students do not have the prerequisites for the course.

**Financial Impact**
None

**Impact on Other Units**
There were few students registered in Spanish 331, so the Online Program will return the KPV seats to the department.

**Have you consulted with all programs/departments that will be impacted by this change?**
- Yes
- No

**ADMINISTRATIVE USE ONLY**

**Impact Level**
- Low
- Mid
- High

**ACALOG Program OID**
31999

**ACALOG Program Status**
Active-Visible

**If approved, will this need notification/approval from any agency outside of UTK?**
- Yes
- No

**Admin Checklist**
- Banner entries completed
- Reported to Provost/THEC (notification form)
- Reported to SACS
The concentration in Jewish studies offers a course of study that treats Judaism as a historically evolving and culturally specific enterprise. The concentration explores Jewish culture, religion and heritage through literature, philosophy and history. A multi-disciplinary combination of courses permits critical reflection about topics and issues in a world civilization and cross-cultural context.

The concentration consists of at least 30 hours, distributed as follows: Complete JST 381: Judaism. In addition to JST 381, up to 27 credit hours must be completed from the courses listed in part A or B. A maximum of 9 credit hours for the major may be from part B but the major may be completed without courses from part B. Up to 6 credit hours may be from the 200 level. At the discretion of the Director of Judaic Studies, other courses with sufficient Jewish content may be used to satisfy the major.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Requirements*

College Requirements

Arts and Sciences

Concentration Requirements

The concentration consists of at least **30 hours**, distributed as follows. Complete REST 381 - Judaism* / JST 381 - Judaism* and at least 18 credit hours must be from part A. Up to 9 credit hours for the major may be from part B. At the discretion of the Director of Jewish Studies, other courses with sufficient Jewish content may be used to satisfy the major. Up to 6 credit hours may be from the 200 level.

Complete:

JST 381 Judaism
[Right] *

Select at least 18 hours:

HEBR 200 Israeli Culture Through Media
HEBR 215 Food Cultures of Israel
HEBR 241 Intermediate Modern Hebrew I
HEBR 242 Intermediate Modern Hebrew II
[Right] *
HEBR 315 Introduction to Israeli Culture and Society
HEBR 320 Linguistic Landscapes of Israel
HEBR 321 The Israeli-Palestinian Conflict in Literature, Film, and Popular Culture
[Right] *
HEBR 341 Advanced Modern Hebrew I
[Right] *
HEBR 342 Advanced Modern Hebrew II
HIME 385 Studies in Jewish History
JST 311 Hebrew Bible/Old Testament
[Right] *
JST 312 Early Judaism
[Right] *
JST 350 The Afterlife of the Holocaust
JST 382 Archaeology of Ancient Israel
JST 383 Ancient Jewish History
JST 385 Contemporary Jewish Thinkers
JST 386 Voices of the Holocaust
JST 405 Modern Jewish Studies
JST 413 Seminar in Early Judaism
JST 484 Studies in Jewish History
REST 221 Intermediate Biblical Hebrew I
REST 222 Intermediate Biblical Hebrew II
REST 361 The American Jewish Experience
REST 481 Public Health in Holocaust Ghettos

Select up to 9 hours:

ARAB 320 Middle Eastern Film
HEBR 351 Languages of the Middle East and North Africa
JST 322 Medieval Philosophy
JST 369 History of the Middle East and the Islamic World, ca. 1050-1500
JST 370 Modern Middle East
JST 426 Early Christian and Byzantine Art to 1350
REST 225 Judaism, Christianity, Islam
REST 320 Gender, Sexuality, and Religion

Note:

Students should contact the program advisor early in planning a Jewish studies concentration.

* Meets Volunteer Core Requirements.

The Interdisciplinary Program in Medieval and Renaissance Studies offers students the opportunity to explore cultures and societies of western Europe, the Mediterranean, and the Middle East, from the collapse of the Roman Empire through the 17th century. The curriculum covers topics associated with these early periods and methodological approaches to them from the humanities, social sciences, languages, and arts. The concentration emphasizes the study of distinct and temporally remote cultures, including their material conditions, social and political institutions, values and ideals, and modes of perception and expression. It encourages students to encounter the past as “another country” and thus to understand in new ways the historical conditions that have shaped our increasingly interconnected contemporary world.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

REST 332 Introduction to Islam
[Right] *
REST 423 Seminar in Early Christianity
[Right] *
SPAN 334 Survey of Hispanic Literatures: Beginnings-1700
THEA 411 Theatre History I

Capstone (3 hours):

Students will consult with the IDP advisor on an appropriate capstone project.

Courses that can be used to meet this requirement include:

MRST 403 Seminar in Medieval and Renaissance Studies
[Right] *
MRST 491 Foreign Study
MRST 492 Off-Campus Study
MRST 493 Independent Study

Notes:

Foreign Language: In consultation with the IDP Chair and based on their interests, students will select an appropriate language to their program, and achieve an intermediate level of competence as specified by the College of Arts and Sciences' distribution requirements. For students interested in medieval studies, Latin is usually the most appropriate language. For students interested in Renaissance studies, other languages such as French, Italian, Spanish, or German may be appropriate.

Special topics courses, when on a medieval or renaissance topic, may be approved by the IDP Chair and petitioned toward the major concentration as an upper level elective or capstone course.

* Meets Volunteer Core Requirements.
**Rationale**

We need to remove the crosslisting of ITAL 402 - Petrarch and Boccaccio, the primary course, from the MRST curriculum (MRST 402). A proposal has been submitted from the Italian program (WLC) changing the topic and title of the course which will no longer have MRST bearings. This proposal updates the course description and course title according to guidelines from the College so as not to limit the study of a topic to a particular set of authors.

**Financial Impact**

None

**Impact on Other Units**

A proposal to change title and content from ITAL 402 - Petrarch and Boccaccio to ITAL 402 Gender and Sexuality in Italian Literature, Media, and Culture has been submitted.

**Have you consulted with all programs/departments that will be impacted by this change?**

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
Description

The Concentration in Public Policy and Administration is specifically designed for transfer students, or students who have completed 60 credit hours.

Admission Requirements

- Completed at least 60 hours obtained from an accredited institution(s)
  - Returning veterans with at least 45 hours obtained from an accredited institution, and who meet the other requirements above, may apply.
  - Current or former UT students may transfer to the online program if they have completed at least 60 hours and meet other admissions requirements.
  - For prospective students with 50-59 transferable credits upon initial review (LD or better), we will request that these applications be forwarded to the College for additional review and consideration.
  - Prospective students with less than 50 transferable credits upon initial review be denied unless they are a returning veteran who meet all other criteria.
- 2.0 or higher GPA
- Completed at least 27 hours in the following categories
  - 6 hours of English Composition sequence (ENGL 101* and ENGL 102* or equivalent)
  - 3-6 or more hours of Math (courses TBD)
  - 4-8 hours of science with labs
  - 9 hours meeting specific Volunteer Core requirements for Social Science, Humanities, Oral Communication, etc.
  - (optional) replace 3 hours of Math with an additional 3 hours applicable to Vol Core
  - 2 years of language study and a sequence in non-US History (or plan on completing that as part of their 60 hours in this program.)

1 Students who earn a 2.0 GPA and have completed an AA, AS, AFA, or AST degree from a Tennessee Board of Regents (TBR) institutions will have automatic admission. If a student earns a degree through Tennessee Reverse Transfer, they are also eligible for automatic admission.

1 Students who earn a 2.0 GPA and have completed a bachelor’s degree from a regionally accredited institution will have automatic admission.

1 Students must complete all college requirements including foreign language and non-US history. Transferable coursework will be evaluated by the registrar upon admission. All coursework may not be degree applicable.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Requirements*

The major consists of 30 credit hours:

Primary Emphasis (9 credit hours)

Complete 2 courses (6 credit hours) from the following

- POLS 200 Introduction to Political Philosophy
- POLS 240 Introduction to Public Administration and Public Policy
- POLS 249 Introduction to Comparative Politics
- POLS 265 Introduction to International Relations

REST 320 Gender, Sexuality, and Religion
REST 381 Judaism
SOCI 375 Gender in Society
SOCI 419 Sociology and Science Fiction
WGS 469 Sexuality and Cinema

Electives in Major (9 credit hours)

Choose up to 3 courses from a second Secondary Emphasis Area (must be distinct from the courses used for the Primary and Secondary Emphasis). Can replace up to 2 courses with up to 6 credit hours of INPG 492 - Off-Campus Study.

These are not part of the major but will be part of the 60-hour requirement and used to meet the Connections Requirement.

Connections: Choose 3 courses (9 credit hours). All must be distinct from hours used for the major.
ENGL 292 Introduction to Drama
ENGL 339 Children's/Young Adult Literature
[Right] *
ENGL 474 Teaching English as a Second or Foreign Language
POLS 301 Research Methods
POLS 311 Contemporary Issues in American Public Policy
[Right] *
POLS 312 Popular Culture and American Politics
[Right] *
POLS 330 Law in American Society
POLS 350 Sources of Political Change in the Global South: Coups, Climate, and Conflict
POLS 366 United States Foreign Policy Process
POLS 370 Contemporary International Problems
POLS 374 American Political Thought
POLS 453 Europe in Transition: The Political Transformation of a Continent
[Right] *
POLS 454 Politics in China and Japan: Culture, Power and Competition
POLS 455 Identity, Conflict and State Building in South Asian Countries
POLS 461 Comparative Public Policy: Ideas, Interests, and Institutions
[Right] *
POLS 470 International Law

Additional Courses: (21 credit hours to get to 120 credit hours overall)

Can include courses taken beyond those for the major used to meet the Foreign language and non-US History requirement
Up to 6 additional hours of INPG 492
42 hours must be at the 300- or 400-level

* Meets Volunteer Core Requirements.

Rationale* The proposed changes reflect proposed changes to the CAS Catalog including: EEPS prefix and removal of Global Challenges course. The program requirements have also been updated. SPAN 331 has been removed since students do not have the prerequisites for the course.
There were few students registered in Spanish 331, so the Online Program will return the KPV seats to the department.

Have you consulted with all programs/departments that will be impacted by this change?*

## General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Women, Gender, and Sexuality is a major dedicated to the study of how gender and sexuality shape the past, present, and future of human cultures and societies. Our interdisciplinary curriculum trains students in critical studies of the ways gender and sexuality intersect with race, ethnicity, nationality, dis/ability, and other dimensions of social inequality. Our courses provide students with a wide variety of methodological skills and perspectives with which to conduct their own research, creative activity, and activism. 
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

College of Arts and Sciences - Interdisciplinary Programs - Justice Studies Certificate

2024-2025 UG Add Program

**General Catalog Information**

**College**
College of Arts and Sciences

**Department**
Interdisciplinary Programs

**Program Name**
Justice Studies Certificate

**Learning Outcomes**

1. Develop a critical and intersectional understanding of justice: Engaging a practice of understanding differences based on factors such as ethnicity, race, socioeconomic status, age, gender, language, religion, sexual orientation, abilities/disabilities, community and geographical area, as well as differences of viewpoint, ideas, and life experiences.

2. Contextualize justice: situating need, harm, and conflict in broader institutional and structural contexts, including legal, moral, cultural, social, political, and economic factors.

3. Engage in participatory research: learn the principles of community-based participatory action and collaborative community research; reflect on and discuss relations and power differentials between researchers and communities; develop and deploy different formats and strategies of making research outcomes available to communities.

4. Engage in effective problem solving: Listening to and engaging with community members to identify needs, goals, and strategies and improve the quality of justice.

5. Collaborate effectively: Learn to give and receive criticism effectively; focus on a common goal; reassess work and strategy; engage in active listening; reflect upon how power and difference play out in collaborative knowledge production.

**Degree Type**
Undergraduate Certificate

**Program Type**
Undergraduate Certificate
The Undergraduate Certificate in Justice Studies (JUST) offers undergraduate students the opportunity to train in complex and collaborative sociolegal problem solving to address the diverse issues faced by marginalized rural and urban Appalachian communities, as articulated by those communities themselves. The certificate is offered through the newly established Justice Studies interdisciplinary program, home to the Appalachian Justice Research Center's undergraduate curriculum. Working with interdisciplinary UTK faculty and community members, undergraduate students will train in capstone, intern, and/or community lab courses, alongside law, graduate, and clinical students. Students will select their courses from a menu of curated courses from across campus, in consultation with the program director/advisor. In addition to the core JUST curriculum, students are required to choose courses from 1) a foundational set of sociolegal and justice studies courses and 2) a robust set of transdisciplinary methods and skill sets needed for an emergent and transforming justice workforce. Completion of the certificate requires an online exit survey for program assessment purposes.

Applicants to the JUST undergraduate certificate program must submit a letter of application and record of coursework to the director(s) of the Appalachian Justice Research Center, including any relevant courses and community experience. Students should tailor their letter to their major’s skill sets, their justice interests, and their community background. The JUST certificate is intended as additional study for undergraduate students who are concurrently enrolled in another discipline at the University of Tennessee.

The JUST Undergraduate Certificate consists of a minimum of 12 hours, completed at the upper division level (300 or above), in interdisciplinary coursework outlined as follows. A maximum of 6 credits can overlap between the JUST certificate and the student's home discipline, as approved by the program director. Courses for the certificate must be completed with a grade of "C" or better. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Requirements

Campus Code

Knoxville Campus

Undergraduate Certificate Type

Add-on

Credit Hours Required

The JUST Undergraduate Certificate consists of a minimum of 12 hours, completed at the upper division level (300 or above). A maximum of 6 credits can overlap between the JUST certificate and the student's home discipline, as approved by the program director. Courses for the certificate must be completed with a grade of "C" or better. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Admissions Standards/Procedures

Applicants to the JUST undergraduate certificate program must submit a letter of application to the director(s) of the Appalachian Justice Research Center, including any relevant courses and community experience. Students should tailor their letter to their major's skill sets, justice interests, and community background. The JUST certificate is intended as additional study for undergraduate students who are concurrently enrolled in another discipline at the University of Tennessee.

SOCI 433R Participatory Action Research
SOCI 492N Social Justice and Community Service – Internship

Non-Course Requirements

Completion of online assessment module (exit survey) upon completion of all other certificate requirements.

Rationale*
The Justice Studies Certificate and Justice Studies Interdisciplinary Program will serve as a space to house the undergraduate curriculum of the Appalachian Justice Research Center, an institutional home for transdisciplinary, community justice-focused teaching, research, and learning. The AJRC seeks to bring units, faculty, and students together in such a way that we are poised to provide coordinated research support to urgent, protracted, and historically under-addressed regional community issues.

Financial Impact* None.

Impact on Other Units* None.

ADMINISTRATIVE USE ONLY

College of Arts and Sciences - Interdisciplinary Programs - Science, Technology, Health, and Society Minor

2024-2025 UG Add Program

General Catalog Information

College* College of Arts and Sciences

Department* Interdisciplinary Programs

Program Name* Science, Technology, Health, and Society Minor

Learning Outcomes

Students should learn to:

- understand how scientific and technological developments affect society and the environment
- identify economic, historical, cultural, and/or societal impacts in realms such as sustainability, public health, and information technology
- demonstrate knowledge of how societies have been transformed by science and technology
- analyze the scientific debates and ethical concerns of such issues as climate change, biotechnology, healthcare, innovation, and economic competitiveness
- apply interdisciplinary understanding of the relationship between science, technology and health

Degree Type* Non-Degree

Program Type* Undergrad (Minor)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

Students will explore how science and technology relate to real-world societal challenges. Students will critically assess the impacts of science and technology on health and well-being in different segments of society, and understand the applications of science and technology in societal context.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Requirements*

Minor Requirements

The minor consists of 15 hours.

Complete

Gateway course:

STHS 200 Introduction to Science, Technology, Health, and Society

Group A: Arts & Humanities

Select 12 hours from Group A and Group B. At least one course must be selected in each group.

ENGL 339 Children’s/Young Adult Literature
ENGL 489 Special Topics in Film
ENGL 340 Science Fiction and Fantasy
ENGL 342 Literature and Medicine
ENGL 461 Global Communication for Science and Technology
ENGL 470 Special Topics in Rhetoric
ENGL 483 Special Topics in Literature
ENGL 484 Special Topics in Writing

SOCI 464 Political Economy of Natural Resources and the Environment
SOCI 465 Social Values and the Environment
STHS 350 Data and Society
Rationale* The Science, Technology, Health and Society (STHS) Minor is being developed by the College of Arts and Sciences in collaboration and conjunction with a Digital Humanities Minor (separate proposal). STHS offers a multidisciplinary exploration of how scientific progress and technological innovations shape and are shaped by their cultural, social, economic, and political contexts. It prepares students to critically analyze and engage with the complex challenges at the nexus of scientific inquiry and societal needs, fostering responsible citizenship in an era of rapid technological change.

Course Description
The Appalachian Justice Research Lab (AJRL) is an interdisciplinary laboratory space designed to conduct and disseminate research that supports the needs and priorities of marginalized communities in Appalachia. Working under the supervision of multidisciplinary faculty and in collaboration with community partners, students from multiple disciplines will conduct research and produce work products appropriate to projects housed within The University of Tennessee’s Appalachian Justice Research Center.

<tbody>
<tr>
<td>JUST 461R. JUST 461 is the base course.</td>
</tr>
</tbody>
</table>
Rationale

This is the inactive base course for JUST 461R.

Core course in new Justice Studies IDP which will house the undergraduate curriculum of the newly established Appalachian Justice Research Center at the University of Tennessee.

The Appalachian Justice Research Lab (AJRL) is made up of a Lecture and Lab which run as co-requisites and which we refer to together as the AJRL. There is a lecture component (1 credit) of the course, where all students and instructors in the course assemble for instruction. The lecture is led by the AJRC director(s) as instructor(s). An associated lab section (3-credit) is taught by variable faculty who will directly supervise students in research teams, projects, and curricula. Our Law/Grad AJRL course should by similar in numbering with our UG version, i.e., LAW 861/JUST 461. This will make the course much more intuitive and sensible to students and faculty. Also, we really need R and N designations for the courses where that is requested, given that this is indeed the Appalachian Justice Research Center.

College of Arts and Sciences - MATH - 222
2024-2025 UG Add Course

General Catalog Information

College*  College of Arts and Sciences

Department (Acalog Hierarchy)*  Mathematics

Subject/Prefix (choose from list)*  MATH

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)*  222

Course Title (max 100 characters)*  Financial Mathematics

Experience Learning Designation

- N (Internship)
- R (Research)
- S (Service Learning)

Variable Title?*  Yes

Credit Hours*  3

Course Description  This course provides the necessary mathematical background for the Financial Mathematics exam from the Society of Actuaries. Topics include: interest, time value of money, annuities, loans, bonds, general cash flows, portfolios, and asset liability management.

Will this course be crosslisted?  Yes

If yes, what is the crosslisting relationship for this course?  Primary

List all courses in this crosslisting relationship and note whether primary or secondary.
Statement about Vol Core:

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.

**Rationale**

The Math Department is proposing a new concentration in actuarial science, for which we are already seeing significant interest. This course, which covers the material from one of the actuarial exams, will be important for the concentration. Teaching the material from the first few actuarial exams is vital for preparing students for an actuarial career.

**Rationale**

The Math Department is proposing a new concentration in actuarial science, for which we are already seeing significant interest. This course will support students studying to take the actuarial exam in Financial Mathematics (Exam FM). Passing an actuarial exam is an important step in progressing towards an actuarial career. For instance, some companies only hire interns that have passed one exam, and other companies require two exam passes.

- **Credit Hours**: 3
- **Course Description**: Axiomatic probability, univariate and multivariate distributions, conditional distributions and expectations, moment generating functions, laws of large numbers and central limit theorem.
- **Will this course be crosslisted?**: Yes
- **If yes, what is the crosslisting relationship for this course?**: Primary

**Statement about Vol Core:**

If this course is seeking Vol Core approval, please be sure to submit a separate Vol Core approval form.
There is overlap between the material taught in Math 423 and Math 323. We can make Math 423 independent from Math 323 since all pertinent Math 323 material reappears with needed mathematical rigor in Math 423. Indeed, the Math 323 prerequisite has frequently been overridden in the past.

This change will shorten the pathway to courses such as Math 424 and Math 425, benefiting students with a deep interest in probability and its applications.

<table>
<thead>
<tr>
<th>Rationale*</th>
</tr>
</thead>
</table>

The Math Department is proposing a new concentration in actuarial science, for which we are already seeing significant interest. This course, which covers the material from one of the actuarial exams, will be important for the concentration. Teaching the material from the first few actuarial exams is vital for preparing students for an actuarial career.

# General Catalog Information

**College**: College of Arts and Sciences  
**Department (Acalog Hierarchy)**: Mathematics  
**Subject/Prefix (choose from list)**: MATH  
**Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)**: 497  
**Course Title (max 100 characters)**: Undergraduate Honors Seminar  
**Credit Hours**: 2

**Change course status from active to**:  
1. Dropped (Inactive-Hidden)  
2. Archived

**Course Description**: Forum for presentation of student theses and other undergraduate research projects.

## Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

## Equivalency

**Rationale**: In a separate proposal, we have requested to remove the Math 497 requirement from the Math Major (in particular, from the Honors Concentration, which is described within the Math Major). If this change is approved, we will no longer need the Math 497 course.

College of Arts and Sciences - Mathematics - Actuarial Sciences Certificate

2024-2025 UG Add Program

General Catalog Information

College*: College of Arts and Sciences

Department*: Mathematics

Program Name*: Actuarial Sciences Certificate

Learning Outcomes

Degree Type*: Undergraduate Certificate

Program Type*: Undergraduate Certificate

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The Actuarial Sciences Certificate consists of 10 hours in four courses.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Requirements*

Undergraduate Certificate Type

Add-On
Stand-Alone

Credit Hours Required

10 credit hours

Admission Standards/Procedures:

Students seeking admission to the Undergraduate Certificate must meet the admissions standards established by the Undergraduate Council.

Academic Standards:

No grades below C are acceptable for students wishing to receive this certificate.

Prerequisites:

MATH 141 or MATH 132, MATH 142, and MATH 241 (or honors equivalents)

Complete each of the following courses

MATH 222 Financial Mathematics
MATH 300 Introduction to Abstract Mathematics
MATH 423 Probability
Compete one of the following courses

- MATH 322 Actuarial Science Problems in Financial Math
- MATH 422 Actuarial Science Problems in Probability

Non-Course Requirements:

Students may pursue this Undergraduate Certificate on a full-time or part-time basis. They must earn all hours of this program at the University of Tennessee.

At least 3 of the credit hours used to satisfy the requirements of this certificate must be unique with respect to their minor, major, or another certificate program.

Rationale*

This certificate provides another option for students interested in actuarial science. Instead of pursuing a Mathematics Major with a concentration in Actuarial Science, some students interested in an actuarial career might prefer to pair a business major along with this certificate. With this certificate, students will learn the material for the first two actuarial exams.

Financial Impact*

General Catalog Information

College*  College of Arts and Sciences

Department*  Mathematics

Program Name*  Mathematics Major, BS

Degree Type*  Bachelor of Science

Program Type*  Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description  The undergraduate mathematics major is designed to provide a broad introduction to mathematics which serves as preparation for a wide variety of careers. The requirements below, which provide a solid introduction to four of the core components of mathematics, should be regarded as minimal preparation for careers in mathematics or closely related mathematical fields. Students with special interests and talents are encouraged to take as many other mathematics courses as their schedule permits. In order to graduate, majors must take MATH 495.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Requirements*  

College Requirements

Arts and Sciences

Prerequisites

Select one course:

COSC 102 Introduction to Computer Science
MATH 171 Computer Literacy for Mathematics

Select one sequence:

MATH 132 Calculus 1B Infused with Precalculus
[M] MATH 142 Calculus II
[M] MATH 147 Honors: Calculus I
[M] MATH 148 Honors: Calculus II

or.

MATH 141 Calculus I
[M] MATH 142 Calculus II

or..

MATH 141 Calculus I
[M] MATH 142 Calculus II
Major Requirements

The concentration consists of 41 hours in fourteen courses divided into five categories: (1) core courses, (2) courses for breadth, (3) courses for education breadth, (4) courses for depth and (5) additional courses (to reach 41 hours).

1. For the Core, complete all of the following (or honors equivalents):

MATH 231 Differential Equations I
MATH 241 Calculus III
MATH 251 Matrix Algebra I
MATH 295 Introduction to Mathematical Sciences
MATH 300 Introduction to Abstract Mathematics
MATH 495 Math Proficiency

2. For Breadth, select one course from each category:

Algebra

MATH 351 Introduction to Abstract Algebra
MATH 457 Honors: Abstract Algebra I
MATH 458 Honors: Abstract Algebra II

Analysis

MATH 341 Introduction to Analysis
MATH 447 Honors: Analysis I

Numerical Analysis
COSC 370 Introduction to Scientific Computing  
MATH 371 Numerical Algorithms  
MATH 471 Numerical Analysis  
MATH 472 Numerical Algebra  

Probability and Statistics  
MATH 323 Probability and Statistics  
MATH 423 Probability  
MATH 424 Stochastic Processes  
MATH 425 Statistics  

3. For Depth, select one of the following pairings:  

or (a)  
MATH 423 Probability  
MATH 425 Statistics  

or (b)  
MATH 421 Combinatorics  
MATH 423 Probability  

or (c)  
MATH 447 Honors: Analysis I  
MATH 448 Honors: Analysis II  

or (d)
<table>
<thead>
<tr>
<th>Option</th>
<th>Courses</th>
</tr>
</thead>
</table>
| (e)    | MATH 443 Complex Variables  
         MATH 447 Honors: Analysis I |
| (f)    | MATH 450 Number Theory  
         MATH 457 Honors: Abstract Algebra I |
| (g)    | MATH 471 Numerical Analysis  
         MATH 472 Numerical Algebra |
| (h)    | MATH 471 Numerical Analysis  
         MATH 475 Industrial Mathematics  
         [Right] * |
| (i)    | MATH 431 Differential Equations II  
         MATH 435 Partial Differential Equations |
| (j)    | MATH 431 Differential Equations II  
         MATH 453 Matrix Algebra II |
or (k)

MATH 462 Differential Geometry
MATH 467 Honors: Topology

or (l)

MATH 420 Graph Theory
MATH 421 Combinatorics

4. Select additional courses to reach a total of 41 hours:

- any 400 level mathematics courses (except MATH 490, MATH 498, and MATH 499)
- mathematics graduate courses with approval of the department

Honors Concentration – Mathematics Major, BS

The Mathematics Department Honors Program offers highly talented students an accelerated curricular path that permits them to enroll in graduate-level mathematics courses as early as the junior year, providing excellent preparation for graduate school or competitive careers in mathematics or related areas. In mathematics, unlike many other fields, graduate students are generally supported by graduate assistantships or fellowships that pay tuition plus an annual living stipend. In recent years, 100% of math honors graduates who have applied for a math graduate assistantship have received at least one offer to a very good graduate school. Other graduates have continued to graduate school in computer science, economics, education, finance, law, medicine, and statistics.

In addition to a more rapid curriculum, the honors program offers enhanced academic advising and opportunities for students to interact with their peers through the Honors Seminar (MATH 397), in which honors students prepare for graduate school in mathematics and related fields.

For purposes of the mathematics honors requirements, the upper-division mathematics GPA (MGPA) consists of the GPA for all courses numbered MATH
Mathematics GPA (MGPA) consists of the GPA for all courses numbered MATH 300-475, except MATH 309 and MATH 399, and all graduate courses numbered MATH 510 or higher. If the student has completed more than 8 such courses then the MGPA is calculated using the 8 highest grades for those courses.

The mathematics honors concentration is open to students who finish at or near the top of the MATH 300/MATH 307 class. The students are nominated by their MATH 300/MATH 307 teachers, then they are selected by the mathematics honors committee to join the mathematics honors concentration. The mathematics honors concentration must be declared prior to the last 60 hours of undergraduate enrollment (usually this means prior to the beginning of the junior year). The 60 hours requirement may be waived for students having a large number of transfer, AP, or other credits not earned at the University of Tennessee.

To continue as a mathematics major with honors concentration the student must:

- Maintain a 3.4 or higher cumulative MGPA. (Any mathematics honors student whose cumulative MGPA drops below 3.4 in a given semester may keep the honors concentration provided the cumulative MGPA returns to 3.4 after the subsequent semester and remains above 3.4 until graduation.)
- Attend at least three mathematics-related public lectures (such as the Mathematics Junior Colloquium or a departmental seminar) during each semester.
- Make adequate progress towards completing the mathematics honors thesis at least one full semester prior to graduation.

The requirements to graduate with honors in mathematics are the same as those for the mathematics major except the total requirement is 41 hours and includes:

- For Depth (3), complete 2 pairings, one of which must be an honors sequence (MATH 447-MATH 448, MATH 457-MATH 458), a pairing taken as honors through honors-by-contract, or a math graduate sequence.
- Graduate with an overall GPA of at least 3.25 and an MGPA of at least 3.4.
- Complete 3 hours of MATH 397.
- Complete MATH 398 every semester that you are a member of the Math Honors Program.
- Complete at least 3 hours of MATH 498 and submit a completed thesis at least 30 calendar days prior to the end of the final semester of enrollment.
- Complete a total of 24 hours of honors courses or mathematics graduate courses with approval of the department, which may include courses used to fulfill other requirements to graduate with a mathematics honors concentration.
Math 497 was intended as a forum for presentation of student theses and other undergraduate research projects. However, we have had challenges with running this course successfully. Further, the course Math 395 can now meet the goal of improving the students’ oral communication in mathematics.

any 400 level mathematics courses (except MATH 490, MATH 497, MATH 498, and MATH 499)
mathematics graduate courses with approval of the department

* Meets Volunteer Core Requirements.
Rationale*  
To meet the societal demand and to grow the enrollment and population of the math major, the Math Department proposes a concentration in actuarial sciences for the math major.

According to the Bureau of Labor Statistics, the demand for actuaries is increasing at a much faster rate than average, with an estimated increase of 21% between 2021 and 2031. The 2021 median annual salary was $105,900. (Source for both: [https://www.bls.gov/ooh/math/actuaries.htm](https://www.bls.gov/ooh/math/actuaries.htm).)

According to the USA Today, the job of an Actuary ranks #7 in Best Business Jobs, #11 in Best STEM Jobs, #20 in 100 Best Jobs, and #24 in Best Paying Jobs. (Source: [https://money.usnews.com/careers/best-jobs/actuary](https://money.usnews.com/careers/best-jobs/actuary).)

Further, all of our Aspirational Peer Institutions offer Bachelors degrees in Actuarial Sciences, with University of Wisconsin also offering Masters and Ph.D. degrees. Among our Comparative Peer Institutions, all but North Carolina State, University of Kentucky, and Virginia Tech offer Bachelors degrees, while University of Missouri and University of Nebraska-Lincoln also offer Masters degrees. (Source: [https://www.soa.org/institutions/](https://www.soa.org/institutions/).)

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Credit Hours 15

Term 8 Milestone Notes
Completion of at least 42 total upper-division (300-400 level) hours
Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses.

* Meets Volunteer Core Requirements.

Rationale*
This utrack proposal compliments the current "UG Add Program" proposal.

Satisfies Volunteer Core Requirement: (QR)
<table>
<thead>
<tr>
<th>Registration Restriction(s)</th>
<th>Registration Permission</th>
</tr>
</thead>
</table>

**Rationale**

Political Science has long offered 301 as the lone research methods course for undergraduates. It would take undergraduates from research design through regression in one semester. This is too much material to cover thoroughly in one course in one semester. For better pedagogy, we are now separating research design from regression. Research design will now be POLS 301 and regression will be POLS 302. Therefore, in addition to creating the new course of POLS 302, we revise the title and description of POLS 301.

<table>
<thead>
<tr>
<th>Rationale*</th>
</tr>
</thead>
</table>

Political Science used to only offer POLS 301 which introduced students to these topics at the end of a semester after also covering research design, the nature of data, and the logic of methods used in political science beforehand. This was too much material to cover thoroughly in one course in one semester. To provide students a better understanding of the methodologies political scientists use that are focused on statistics, we are separating this portion of the material into its own course.

Corequisite(s)

Recommended Background

Comments

Although not required, it is recommended that PSYC 295 and PSYC 294 (the accompanying lab) are taken in the same semester.

Registration Restriction(s)

Registration Permission

Equivalency

Rationale
Adding a comment to alert students that enrolling in PSYC 294 is recommended.

Impact on Other Units
None.

Financial Impact
None. Both 295 and 294 are already requirements of the major, so the comment should have no impact on enrollment numbers, only on enrollment timing.

Have you consulted with all programs/departments that will be

Yes ☐ No ☐ Minor changes only/Not Applicable
Arts and Sciences Only

**Department Enforced (DE)**

**Prerequisite(s)**

**Registration Enforced (RE)**

**Corequisite(s)**

**Department Enforced (DE)**

**Corequisite(s)**

### Recommended Background

### Comments

**Registration Restriction(s)**  
Honors concentration in psychology.

**Registration Permission**

### Equivalency

**Rationale**

Now that students are beginning to choose this honors capstone option, it is apparent that students need to have an existing relationship with a community agency in order to successfully complete the honors internship requirements in a single semester. Adding the PSYC 396(n) pre-requisite (Internship in psychology) will better communicate to students that need experience in a community setting prior to beginning the capstone project.

**Impact on Other Units**  
None

**Financial Impact**

College of Arts and Sciences - Philosophy - Philosophy Major, BA – Honors Legal and Political Philosophy Concentration

2024-2025 UG Revise Program

General Catalog Information

College*  College of Arts and Sciences

Department*  Philosophy

Program Name*  Philosophy Major, BA – Honors Legal and Political Philosophy Concentration

Degree Type*  Bachelor of Arts

Program Type*  Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Requirements*  

College Requirements  

Arts and Sciences  

Concentration Requirements  

The honors legal and political philosophy concentration requires a 3.25 overall GPA with a 3.5 GPA in philosophy coursework. It consists of 31 hours of courses numbered 200 or above. Four honors or honors-by-contract philosophy courses and additionally, one hour of PHIL 407 with a grade of B or better are required. Only 3 hours of philosophy electives may be taken at the 200-level. Apart from the one required hour of PHIL 407, at least 6 hours must be taken at the 400-level or above. Majors are required to discuss their programs with a member of the philosophy faculty.

I. Complete A, B, and C (including four honors courses or honors-by-contract courses):

A. Complete:

PHIL 235 Formal Logic
PHIL 391 Social and Political Philosophy
PHIL 392 Philosophy of Law

B. Select one course from each area:

1. Ancient Philosophy
2. Modern Philosophy

PHIL 324 17th- and 18th-Century Philosophy
PHIL 328 Honors: 17th- and 18th-Century Philosophy

3. Ethics

PHIL 340 Ethical Theory
PHIL 347 Honors: Ethical Theory

C. Select three courses, including one course from each area:

1. Epistemology, Metaphysics, Logic

PHIL 360 Philosophy of Science
PHIL 365 Philosophy of Social Science
PHIL 370 Philosophy of Religion
PHIL 371 Epistemology
PHIL 372 Metaphysics
PHIL 373 Philosophy of Mind
PHIL 375 Philosophy of Action
PHIL 435 Intermediate Formal Logic
PHIL 463 Race, Science, and Medicine
PHIL 464 Feminist Philosophy of Science

2. Value Foundations: Policy, Politics, Law

PHIL 345 Bioethics
II. Select one additional philosophy course:

See Concentration Requirements heading for restrictions.

III. Complete one hour with a grade of B or better (no more than 1 hour may be applied toward the major):

PHIL 407 Honors: Thesis

IV. Proficiencies

Students are required to complete a 0-credit course, typically at the end of the student's degree program.

PHIL 499 Philosophical Proficiency

* Meets Volunteer Core Requirement.

Rationale* Add PHIL382 (Philosophy of Feminism) to the list of courses from which students can choose in the "C.2. Value Foundations: Policy, Politics, Law" section. Doing so reflects the importance of feminist and other diverse perspectives in understanding and engaging with the moral foundations of policy, politics, and law.

Financial Impact* None
Have you consulted with all programs/departments that will be impacted by this change?*

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTISI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Requirements

College Requirements

Arts and Sciences

Concentration Requirements

The philosophy major with concentration in legal and political philosophy consists of 30 hours of courses numbered 200 or above. Only 3 hours of philosophy electives may be taken at the 200-level. At least 6 hours must be taken at the 400-level or above; PHIL 407 may not be used to satisfy this 6-hour requirement. Majors are required to discuss their programs with a member of the philosophy faculty.

I. Complete:

PHIL 235 Formal Logic
PHIL 391 Social and Political Philosophy
PHIL 392 Philosophy of Law

II. Select one course from each area:

A. Ancient Philosophy

PHIL 320 Ancient Western Philosophy
PHIL 322 Medieval Philosophy
PHIL 327 Honors: Ancient Western Philosophy

B. Modern Philosophy
PHIL 324 17th- and 18th-Century Philosophy
PHIL 326 Topics in 19th- and 20th-Century Philosophy
PHIL 328 Honors: 17th- and 18th-Century Philosophy

C. Ethics

PHIL 340 Ethical Theory
PHIL 347 Honors: Ethical Theory

III. Select three courses, including one course from each area:

A. Epistemology, Metaphysics, Logic

PHIL 360 Philosophy of Science
PHIL 365 Philosophy of Social Science
PHIL 370 Philosophy of Religion
PHIL 371 Epistemology
PHIL 372 Metaphysics
PHIL 373 Philosophy of Mind
PHIL 375 Philosophy of Action
PHIL 435 Intermediate Formal Logic
PHIL 463 Race, Science, and Medicine
PHIL 464 Feminist Philosophy of Science

B. Value Foundations: Policy, Politics, Law

PHIL 345 Bioethics
PHIL 346 Environmental Ethics
PHIL 348 Honors: Environmental Ethics
PHIL 365 Philosophy of Social Science
PHIL 382 Philosophy of Feminism  
PHIL 383 Philosophy of Disability  
PHIL 390 Philosophical Foundations of Democracy  
PHIL 441 Global Justice and Human Rights  
PHIL 463 Race, Science, and Medicine  
PHIL 464 Feminist Philosophy of Science

IV. Select one additional philosophy course:

See Concentration Requirements heading for restrictions.

V. Proficiencies

Students are required to complete a 0-credit course, typically at the end of the student's degree program.

PHIL 499 Philosophical Proficiency  
[After]  
* Meets Volunteer Core Requirement.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Minor Requirements

The Philosophy of Science and Medicine consists of 18 hours of Philosophy courses 200 or above.

I. Select four courses:

PHIL 246 Ethics and Technology
PHIL 345 Bioethics
PHIL 360 Philosophy of Science
PHIL 365 Philosophy of Social Science
PHIL 383 Philosophy of Disability
PHIL 435 Intermediate Formal Logic
PHIL 460 Topics in Philosophy of Science
PHIL 463 Race, Science, and Medicine
PHIL 464 Feminist Philosophy of Science

II. Select two additional courses:

any Philosophy course 200-level and above

Rationale

Add the newly approved PHIL246 (Ethics and Technology) to the list of courses from which students can choose in Section I. Doing so reflects the central role that ethics and technology play in philosophical engagement with science and medicine.

Financial Impact

None

Impact on Other Units

None

General Catalog Information

College*  College of Arts and Sciences

Department*  Physics and Astronomy

Program Name*  Physics Major, BA

Degree Type*  Bachelor of Arts  Program Type*  Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description  The physics major consists of 30 hours. Students who wish to attend graduate school in Physics or Astronomy should consider the Physics BS programs.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone
Requirements*

**College Requirements:**

**Arts and Sciences**

**Physics Major – Prerequisites (18-24 hours):**

**Complete:**

- COSC 101 Introduction to Programming
- [Right] or
- COSC 102 Introduction to Computer Science
- [Right] or
- COSC 111 Computational Thinking and the Art of Programming
- [After]
- [Right] *
- MATH 132 Calculus 1B Infused with Precalculus
- [Right] *
- [Right] or
- MATH 141 Calculus I
- [Right] *
- [Right] or
- MATH 147 Honors: Calculus I
- [After]
- [Right] *
- MATH 142 Calculus II
- [Right] *
- [Right] or
- MATH 148 Honors: Calculus II
- [Right] *

**Complete A, B, C, or D below:**

A. **PHYS 135 - Introduction to Physics for Physical Science and Mathematics Majors** | 4 Credit Hours *

B. **PHYS 137 - Honors: Fundamentals of Physics for Physics Majors** | 5 Credit Hours *
C. **EF 151 - Physics for Engineers I** 4 Credit Hours * and **EF 152 - Physics for Engineers II** 4 Credit Hours *

D. **PHYS 221 - Elements of Physics I** 4 Credit Hours *

---

Complete A, B, C, or D below:

A. **PHYS 136 - Introduction to Physics for Physical Science and Mathematics Majors II** 4 Credit Hours *

B. **PHYS 138 - Honors: Fundamentals of Physics for Physics Majors II** 5 Credit Hours *

C. **PHYS 231 - Fundamentals of Physics: Electricity and Magnetism** 3 Credit Hours *

D. **PHYS 222 - Elements of Physics II** 4 Credit Hours *

---

Physics Major – Requirements (30 hours):

Complete:

- PHYS 211 Picture a Physicist: A seminar for new physics majors
- PHYS 251 Fundamentals of Physics: Waves, Optics, and the Breakdown of Classical Physics
- PHYS 252 Fundamentals of Physics: Quantum Physics and Applications
- Phys 495 Physics Proficiency

Complete at least 21 hours (at least 15 hours need to be PHYS or ASTRO courses) from:
PHYS 201 Multivariable Calculus and Vector Analysis for Physicists
[Right] or
MATH 241 Calculus III
[After]
PHYS 293 Introduction to Research and Independent Study
[After]
Any 300 or 400 level physics classes.

Any Astronomy classes at the 200 level or above.

• A maximum of 6 hours can come from the courses listed below from other departments:

CHEM 330 Foundations of Inorganic Chemistry
CHEM 370 Foundations of Physical Chemistry
CHEM 379 Foundations of Physical Chemistry Laboratory
CHEM 470 In-depth Physical Chemistry
DATA 301 Data Stewardship and Ethics
DATA 302 Analytical Methods of Data Science
DATA 499 Data Science Capstone
GEOL 456 Global Climate Change
GEOL 459 Introduction to Oceanography
GEOL 471 Applied Geophysics
GEOL 485 Principles of Hydrogeology
MATH 231 Differential Equations I
MATH 300 Introduction to Abstract Mathematics
MATH 323 Probability and Statistics
MATH 435 Partial Differential Equations
MATH 443 Complex Variables
MATH 462 Differential Geometry
MSE 405 X-ray Diffraction
MSE 408 Functional Nanoscale Materials: Processing, Properties, and Applications
MSE 410 Theory and Processing of Conventional and Nano-Structured Devices
MSE 466 Magnetism and Magnetic Materials
NE 406 Radiation Shielding
NE 433 Principles of Health Physics
NE 460 Introduction to Fusion Technology
NE 470 Nuclear Reactor Theory
NE 490 Radiation Biology
[After]

No more than 6 hours of PHYS 293, PHYS 393, PHYS 493, and PHYS 498 may be applied to the major.

Honors Concentration – Physics Major, BA

Students who complete all requirements for the physics major (BA) will be awarded a degree with honors if their cumulative GPA is at least 3.25, their GPA in 300- and 400-level mathematics and physics courses is at least 3.50, they complete a minimum of 12 hours in honors courses, and they complete a written senior thesis reporting results of research conducted under faculty supervision and defended before a committee of three physics faculty members as recorded by satisfactory completion of:

PHYS 498 - Honors Thesis in Physics

* Meets Volunteer Core Requirements.

Rationale* This class is required in our BS and is used to ensure that students take the exams which we use in our program assessment. It is a zero credit class.

Financial Impact* None

Impact on Other Units* None

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

- **Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

- **Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
**uTrack Requirements (College of Arts and Sciences)**

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the [Arts and Sciences requirements](#) listed in the Catalog, and consult an academic advisor.

1 Physics Elective 3 Credit Hours

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Hours 120-125
Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core Requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core Requirement using alternative courses; however, this could increase time to degree.

* Meets Volunteer Core Requirements.

Rationale* This u-track proposal corresponds with the revisions to the program.

Financial Impact* None

Impact on Other Units* None

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

Term 1

Social Sciences Elective 3 Credit Hours *

ENGL 101 English Composition I
[Right] *
[Right] (or equivalent)
[After]
[Before] Select one course:
MATH 132 Calculus 1B Infused with Precalculus
[Right] *
MATH 141 Calculus I
[Right] *
MATH 147 Honors: Calculus I
[Right] *
[After]
[Before] Select one course:
PHYS 135 Introduction to Physics for Physical Science and Mathematics Majors I
[Right] *
PHYS 137 Honors: Fundamentals of Physics for Physics Majors I
[Right] *

Credit Hours 13-15
Term 1 Milestone Notes

[Before] One from:
MATH 119 College Algebra
[After] Math Placement of level 3 or higher

Term 2

ENGL 102 English Composition II
[Right] *
[Right] (or equivalent)
PHYS 211 Picture a Physicist: A seminar for new physics majors
[After]
[Before] Select one course:
COSC 101 Introduction to Programming
COSC 102 Introduction to Computer Science
COSC 111 Computational Thinking and the Art of Programming
[Right] *
[After]
[Before] Select one course:
MATH 142 Calculus II
[Right] *
MATH 148 Honors: Calculus II
[Right] *
[After]
[Before] Select one course:
PHYS 136 Introduction to Physics for Physical Science and Mathematics Majors II
[Right] *
PHYS 138 Honors: Fundamentals of Physics for Physics Majors II
[Right] *

Credit Hours 15-17

Term 2 Milestone Notes

Credit Hours 18

Term 8 Milestone Notes

Completion of at least 42 total upper-division (300-400 level) hours

Total Credit Hours 126-130

Footnotes

All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The Connections requirement may be satisfied in one of three ways: (1) by completing 9 hours from one of the approved Connections packages, (2) by completing the requirements for a second major or minor, or (3) by completing 9 hours of study abroad coursework. All students must complete at least 42 upper-division (300-400 level) hours in order to receive a degree from the College of Arts and Sciences.

The courses indicated meet both a Volunteer Core requirement as well as a requirement in the major. Students can choose to complete the Volunteer Core requirement using alternative courses; however, this could increase time to degree.

* Meets Volunteer Core Requirements.

Rationale*  We offer Phys 201 in the Fall and Phys 301 in the Spring so we should have the tracking term match the semester we offer it.

### General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

**Description**

The Minor in Global Development will prepare students for global sustainable development fieldwork and fulfills the academic requirements of the UT Peace Corps Prep Program. Additional requirements to complete the UT Peace Corps Prep Program include hands-on experience in a US Peace Corps work sector, foreign language skills, and professional and leadership development.

The minor is available to all UT undergraduate students. More information on the minor and the UT Peace Corps Prep Program can be obtained on the Center for Global Engagement website or by contacting the UT Peace Corps Prep Coordinator, Adam Willcox (865-974-1557, awillcox@utk.edu). Students wishing to declare the minor must contact their assigned academic advisor. Students wishing to pursue their Peace Corps Prep Certificate in addition to the minor must contact the UT Peace Corps Prep Coordinator.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Requirements*

Minor Requirements

The minor consists of **18 hours**, and includes training both in a specific US Peace Corps Work Sector and in Intercultural Competence. Some of the classes listed may have prerequisites. **At least 9 credit hours must be completed at the 300 or 400 level.**

Category 1 - Training and Experience in a Specific Peace Corps Work Sector

Leveraging concrete knowledge and skills is central to on-the-ground international development work. Through the Global Development Minor, you will begin to build a professional specialty, which should serve your career well whether or not you become a US Peace Corps Volunteer. You need to complete at least nine credit hours that align with a specific Peace Corps work sector. To complete the UT Peace Corps Prep Program and receive the certificate from the US Peace Corps, you also must accumulate a minimum of 50 hours of volunteer or work experience in the same sector. The Peace Corps work sectors include: Agriculture, Community Economic Development, Education, Environment, Health, and Youth in Development ([https://www.peacecorps.gov/volunteer/what-volunteers-do](https://www.peacecorps.gov/volunteer/what-volunteers-do)). Note that Education is the US Peace Corps' largest and broadest work sector, providing math, science, and English teachers to local communities.

**You must first choose a work sector and then complete nine credit hours in that sector.**

**Agriculture:**

All courses with prefixes AGNR, ALEC, ANSC, AREC, BSE, CSM, EPP, ESS, FDSC, FORS, PLSC

**Community Economic Development:**

All courses with prefixes ACCT, AREC, BAS, BUAD, CMST, COSC, ECON, ENT, FINC, IB, INMT, GRDS, MARK, MEDU, MGT, RMM, SCM, SOCI

**Education:**

All courses with prefixes BCMB, BIOL, CBE, CE, CHEM, COSC, ECE, EDDE, EDPY, EEB, EF, EI, ELI, ELPS, ENED, ENGL, IE, INTE, MATH, ME, MEDU, MSE, MICR, NE, PHYS, REED, SCED, SPED, SSCE, WLEL
Environment:
All courses with prefixes EEB, ESS, FORS, FWF, GEOG, GEOL, WFS

Health:
All courses with prefixes BCMB, FDSC, KNS, MICR, NURS, NUTR, PSYC, PUBH

Youth in Development:
All courses with prefixes CFS, COUN, ELPS, PSYC, RSM, SOWK, WGS

Category 2 - Intercultural Competence
Engaging thoughtfully and fluidly across cultures begins with one’s own self-awareness. With this learning objective, you will deepen your cultural agility through courses in which you learn about others while reflecting upon your own self in relation to others. The goal is for you to build your capacity to shift perspective and behavior around relevant cultural differences. To complete this category, you must complete one of two core classes and six credit hours of directed electives.

Complete one core course:

AGNR 180 Global Dynamics: Food, Biodiversity, and the Environment
[Right] *
GLBS 250 Introduction to Global Studies
[Right] *
SOCI 250 Introduction to Global Studies
[Right] *

Complete six credit hours:

AFST 233 Major Black Writers
AFST 235 Introduction to African Studies
AFST 236 Introduction to African Studies
AFST 331 Race and Ethnicity in American Literature
AFST 333 Black American Literature and Aesthetics
AFST 335 African Literature
AFST 336 Caribbean Literature
AFST 371 African History to 1880
AFST 372 African History Since 1880
AFST 452 The Politics of Sub-Saharan Africa
ALEC 202 Leadership and Diversity in Organizations and Communities

[Right] *
PHIL 255 Sustainability Ethics
PHIL 256 Social Justice
PLSC 115 Plants That Changed the World
[Right] *
POLS 265 Introduction to International Relations
POLS 370 Contemporary International Problems
Rationale*

This proposal moves the program from CECS to CAS in agreement with the Conservation Science Group. Political Science has agreed to provide that academic home and the Peace Corps program is currently in year 6 of a ten-year commitment to the Peace Corps to provide a set curriculum at UT that the federal government has signaled meets their requirements to grant a Peace Corps Preparatory certificate to a student upon completion.

Financial Impact*

There should be no financial impact, as all courses are existing, but the College of Arts and Sciences and the Department of Political Science are in any case signalling they are prepared to take on this program.

Impact on Other Units*

The courses in this program are all existing. Most of the courses are offered through CAS, which has been offering this program already with Intercollegiate Programs.
which has been offering this program already with intercollegiate programs.
Have you consulted with all programs/departments that will be impacted by this change?*

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

The political science discipline is broad and diverse ranging from the study of campaigns and elections to analysis of political philosophy. Political science gives attention to the theory and practice of government at all levels from local to international, as well as to the complex relationships between social values and the formulation of public policy. As a blend of the theoretical and the practical, political science has much to offer as an undergraduate major and as an elective field for the non-major. It provides a broad liberal arts background for professional careers in law, government service, foreign service, business, journalism, and public-school teaching. It offers a good foundation for those wishing to pursue post-graduate study, especially in the fields of law, political science, and public administration. For those interested in specializing in fields outside of law and government, political science courses can contribute significantly to an awareness of public issues and an appreciation of the complexity of modern society.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone
Requirements

Admission Requirements

Completed at least 60 hours obtained from an accredited institution(s) (cannot submit with less than 60 hours unless a veteran, see below)

- Returning veterans with at least 45 hours obtained from an accredited institution(s) and who meet the other requirements above, may apply.
- Current or former UT students may transfer to the online program if they have completed at least 60 hours and meet other admission requirements.
- For prospective students with 50-59 transferable credits upon initial review (LD or better), we will request that these applications be forwarded to the College for additional review and consideration.
- Prospective students with less than 50 transferable credits upon initial review will be denied admission unless they are returning veterans who meet all other criteria.
- 2.0 or higher GPA (if lower, must provide letter of explanation).
- Completed at least 27 hours in the following categories:
  - 6 hours of English Composition sequence (ENGL 101 and ENGL 102 or equivalent)
  - 6 or more hours of math (courses TBD)
  - 6-8 hours of science with labs
  - 9 hours meeting specific Volunteer Core requirements for Social Science, Humanities, Oral Communication, etc.
  - (option) replace 3 hours of math with an additional 3 hours applicable to Vol Core
  - 2 years of language study and a sequence in non-US History (or plan on completing as part of their 60 hours in this program)

Current students who earn an AA, AS, AFA, or AST and 60 credit hours through the Tennessee Reverse Transfer process are eligible to apply as well.
Campus Code

Distance Education

College Requirements

Arts and Sciences

Prerequisites

Select one course:

- POLS 101 United States Government and Politics
  [Right] *
- POLS 107 Honors: United States Government and Politics
  [Right] *

Complete:

- POLS 102 Introduction to Political Science
  [Right] *

Major Requirements

The major consists of 31 hours in courses numbered 200 or above. At least 19 hours of credit in courses numbered 300 or above must be completed.
Select four courses – Foundations of Political Science:

- POLS 200 Introduction to Political Philosophy
- POLS 215 Tennessee Government and Politics
- POLS 240 Introduction to Public Administration and Public Policy
- POLS 249 Introduction to Comparative Politics
- POLS 265 Introduction to International Relations

Complete 18 hours:

Upper-division (300-400 level) political science credits (Note: POLS 480 - Capstone does not count toward this requirement.)

Complete:

- POLS 480 Capstone
  [After]
  [After] * Meets Volunteer Core Requirements.

**Rationale**
Expand online course offerings to meet the growing demand of Distance Education students and thereby support UTK’s land-grant mission.

**Financial Impact**
None initially, but if the number of Distance Education students in the program increases significantly, additional instructional resources will be need to offer more online sections of Political Science classes.

**Impact on Other Units**
None

### General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
The Department of Political Science offers a program in which qualified students may earn both a BA and MA in political science in five years. This is accomplished by applying 9 hours of approved graduate courses to both the BA and MA.

Interested students typically apply for conditional admission to the program during their third year of undergraduate study. A student will be conditionally admitted to the program only if they:

- are a declared Political Science major or minor;
- have completed at least 90 hours overall with a minimum GPA of 3.25; and
- have completed at least 15 hours in Political Science with a minimum GPA of 3.5.

Applicants must also provide three letters of recommendation and meet with the Director of Graduate Studies to discuss participation in the program. Applicants are encouraged, but not required, to have completed POLS 301 (Research Methods) and at least one 400-level Political Science course. The Department may consider other relevant factors, such as an applicant’s work experience and potential for academic success in deciding whether to conditionally admit students to the BA/MA program. Both the Department of Political Science and the Graduate School must approve all conditional admissions into the BA/MA program. The Department will inform applicants of its decisions by the beginning of their fourth and final year of undergraduate study.

Both the Department Head (or designee) and the Graduate School must approve any course taken for graduate credit before the student satisfies all requirements for the BA. A student conditionally admitted to the BA/MA program may complete up to 9 hours of graduate credit to count toward both the BA and MA requirements. Only graduate courses taken after conditional admission into the BA/MA program may be used to satisfy the requirements of both degrees.

Conditional admission to the BA/MA program does not guarantee acceptance into either the Graduate School or the MA program in Political Science. Students conditionally admitted into the BA/MA program at the start of their fourth year must apply that year for admission to both the MA program and the Graduate School. Such applicants must follow standard application procedures, excepting that the GRE is not required. If the student is accepted by both the MA program and the Graduate School, they will be fully admitted to the BA/MA program; they must then complete the standard curriculum for the MA program.
General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UT ISI

**Certificate Type** options should be entered from the following list: Add-On, Stand-Alone

Political Science Major, BA – Five-Year BA/MA Program

The Department of Political Science offers a program in which qualified students may earn both a BA and MA in political science in five years. This is accomplished by applying 9 hours of approved graduate courses to both the BA and MA.

Interested students typically apply for conditional admission to the program during their third year of undergraduate study. A student will be conditionally admitted to the program only if they:

- are a declared Political Science major or minor;
- have completed at least 90 hours overall with a minimum GPA of 3.25; and
- have completed at least 15 hours in Political Science with a minimum GPA of 3.5.

Applicants must also provide three letters of recommendation and meet with the Director of Graduate Studies to discuss participation in the program. Applicants are encouraged, but not required, to have completed POLS 301 (Research Methods) and at least one 400-level Political Science course. The Department may consider other relevant factors, such as an applicant’s work experience and potential for academic success in deciding whether to conditionally admit students to the BA/MA program. Both the Department of Political Science and the Graduate School must approve all conditional admissions into the BA/MA program. The Department will inform applicants of its decisions by the beginning of their fourth and final year of undergraduate study.

Both the Department Head (or designee) and the Graduate School must approve any course taken for graduate credit before the student satisfies all requirements for the BA. A student conditionally admitted to the BA/MA program may complete up to 9 hours of graduate credit to count toward both the BA and MA requirements. Only graduate courses taken after conditional admission into the BA/MA program may be used to satisfy the requirements of both degrees.

Conditional admission to the BA/MA program does not guarantee acceptance into either the Graduate School or the MA program in Political Science. Students conditionally admitted into the BA/MA program at the start of their fourth year must apply that year for admission to both the MA program and the Graduate School. Such applicants must follow standard application procedures, excepting that the GRE is not required. If the student is accepted by both the MA program and the Graduate School, they will be fully admitted to the BA/MA program; they must then complete the standard curriculum for the MA program.
Rationale*  As a large Department, with many hundreds of majors and minors, there is great potential for interest in a Five-Year BA/MA Program. There are two primary groups of students for whom such a program may be attractive. First, we have a great many students who are intent on going to graduate school on completion of their BA. Offering a Five-Year BA/MA program will afford those students the opportunity to gain experience of graduate school and graduate work, refine their ideas about the research they would like to undertake, and get close guidance and support in applying to PhD programs. There is also hope that faculty will be able to develop good working relationships with students in the program that ultimately leads to new recruits to our PhD program. The second group of students for whom this program may be attractive are those intent on going to work for the federal government. To enter the job market with both a BA and an MA has the potential to increase our students’ marketability for federal government positions.

Concentration

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

**Description**
This proposal is to add a honors version to Political Science's existing non-honors concentration of International Affairs. To enroll in the honors option, a student must: (a) completed the BA pre-requisites, (b) complete 301 (c) be a junior/senior, (d) meet the honors concentration GPA requirements, and (e) complete the application to enroll in POLS 487 and 488.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for **campus code** or **certificate type**, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

**Campus Code** options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

**Certificate Type** options should be entered from the following list: Add-On Stand-Alone
Requirements*

College Requirements

Arts and Sciences

Pre-requisites

1. Select one course:

   POLS 101 United States Government and Politics
   [Right] *

   POLS 107 Honors: United States Government and Politics
   [Right] *

2. Complete:

   POLS 102 Introduction to Political Science
   [Right] *

International Affairs Concentration Honors

Students majoring in political science who wish to emphasize transnational politics in their study may select the concentration in international affairs. The concentration consists of 40 hours of coursework in political science beyond the 100-level. To graduate with honors in the international affairs concentration of political science, the student must have a minimum GPA of 3.3 in political science and a minimum cumulative GPA of 3.25.

1. Complete:
POLS 200 Introduction to Political Philosophy
POLS 249 Introduction to Comparative Politics
POLS 265 Introduction to International Relations

2. Select 4 courses from the two lists below, including at least one course from each list:

a. List 1: International Relations

POLS 366 United States Foreign Policy Process
POLS 370 Contemporary International Problems
POLS 371 Terrorism and Political Violence
POLS 372 Civil War and the International System: Rebellions, Resources, and Outside Intervention
POLS 469 The Politics of Genocide and Ethnic Cleansing: Theory, Prevention, and Aftermath
POLS 470 International Law
POLS 471 International Political Economy
POLS 472 Conflict Processes
POLS 473 Negotiation, Bargaining, and Diplomacy
POLS 474 International Organization
POLS 479 Regional Analysis of International Politics
POLS 483 Arms Control and Nuclear Proliferation

b. List 2: Comparative Government and Politics

POLS 350 Sources of Political Change in the Global South: Coups, Climate, and Conflict
POLS 351 Democracy and Authoritarianism
POLS 352 Political Challenges of Globalization
POLS 453 Foundations of African Politics
POLS 452 Foundations of African Politics: Dictators, Democratization, and Development
POLS 453 Europe in Transition: The Political Transformation of a Continent
POLS 454 Politics in China and Japan: Culture, Power and Competition
POLS 455 Identity, Conflict and State Building in South Asian Countries
POLS 456 Development and Decay of Democracy in Latin America
POLS 461 Comparative Public Policy: Ideas, Interests, and Institutions
POLS 463 Politics and Power in the Middle East
POLS 464 Fear and Bias in Migration Politics
POLS 465 Nuclear Politics of the Middle East: Conflict, Energy, and the Environment

3. Complete 9 hours:

Upper-division (300-400 level) political science courses (Note: POLS 480 - Capstone does not count toward this requirement).

4. Complete:

POLS 301 Research Methods
POLS 480 Capstone
POLS 487 Senior Honors: Thesis and Seminar
POLS 488 Senior Honors: Thesis and Seminar

Rationale*
Political Science has four concentrations—Law and Courts, International Affairs, Public Administration, and Honors. Majors frequently select two concentrations. Advisors and students have noted, however, that given the current formatting of our concentrations, it is difficult for majors to add an honors concentration late in their academic careers or if they enter as transfer students because of some of its requirements. We want to meet our students’ demand to provide flexibility for late blooming students and transfer students to be able to pursue honors theses in our major if they meet the GPA, course, and writing requirements.

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.
Description

The college offers an accelerated B.S./J.D. program with the College of Law. For joint B.S./J.D. students, College of Law admissions requirements are higher than those normally expected for J.D. applicants. Desired College of Law qualifications include at a minimum a cumulative undergraduate GPA and a Law School Admissions Test (LSAT) score at or above the medians for the entering class.

Students pursuing this program complete their first three years of coursework in the College of Arts and Sciences, and their last three years of coursework in the College of Law. During their first three years, students will fulfill all University General Education requirements and all College of Arts and Sciences requirements for a B.S. degree, will complete a minor in the College of Arts and Sciences, will complete 13 hours of pre-law professional electives, and will complete a total of at least 90 hours of undergraduate coursework.

Students interested in pursuing the accelerated B.S./J.D. program are counseled initially in Arts and Sciences Advising Services (313 Ayres Hall) regarding both College of Law admissions standards and undergraduate degree requirements for the College of Arts and Sciences. If the student is a likely candidate for admission into the J.D. program, she or he should consult with the College of Law Admissions Office, take the LSAT, and submit an application to the College of Law. Upon admission to the joint B.S./J.D. program, a student will begin College of Law coursework in the fourth year and, upon successful completion of 30 hours of College of Law coursework, will be awarded a B.S. degree in Pre-Professional Programs with a concentration in Pre-Law at the end of that year. The student will receive the J.D. degree upon successful completion of the graduation requirements for that degree.

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Requirements*

Rationale*  The writing-emphasis designation was a procedural error. The new title removes the designation and clarifies the intent of the core.

uTrack Requirements (College of Arts and Sciences)

Universal Tracking (uTrack) is an academic monitoring system designed to help students stay on track for timely graduation. In order to remain on track, students must complete the minimum requirements for each tracking semester, known as milestones. Milestones include successful completion of specified courses and/or attainment of a minimum GPA. uTrack requirements only affect full-time, degree-seeking students.

Following the sample academic plan and its uTrack milestones will help students stay on track to graduate in four years. For specific course requirements, refer to the description of the major and the Arts and Sciences requirements listed in the Catalog, and consult an academic advisor.

</tbody>
</table>
| Experience Learning Designation | N (Internship)  
R (Research)  
S (Service Learning) |
| Variable Title?* | Yes  
No |
| Credit Hours* | 3 |
| Course Description | Examines the interplay between religions and the worlds of games. Explores how religious worlds influence gameworlds and how gameworlds can inform themes germane to the study of religion. Thematic examination of topics can include: heroes, magic, powerful agents, sacred space, and world building. |

<tr>
<td>Department Enforced (DE)</td>
<td>Prerequisite(s)</td>
</tr>
</tbody>
</table>

### Corequisite(s)

### Department Enforced (DE)

### Recommended Background

### Comments

### Registration Restriction(s) | Registration Permission

### Equivalency

#### Rationale*
The Department of History is dropping the broader 300-level VolCore Course in American Religious History in order to offer a more specialized 400-level course specifically for History Majors.

#### Impact on Other Units*
The Religious Studies department will now be the sole department offering this previously crosslisted class, offering it under REST 359.

#### Financial Impact*
None

<tr>
<td><strong>Change course status from active to:</strong></td>
<td>Dropped (Inactive-Hidden)</td>
</tr>
</tbody>
</table>

### Course Description

Explores the pivotal role in world literature of Anton Chekhov, Russia's master of the short story and history's second-most influential dramatist after Shakespeare. Examines the difference between the early "light" stories and the mature works as a sign of the author's intuitive awareness of changes taking place in the Russian empire at the turn of the 20th century. Taught in English. Modern Foreign Languages and Literatures – Russian Studies majors will do some readings in Russian.

### Statement about Crosslistings

Only the course under the Subject Code and Course Number listed above on this form will be dropped. If multiple courses in a crosslisting relationship are to be dropped, fill out a separate Drop Course form for each. If dropping a primary course, additional Drop Course OR Revise Course forms will be necessary for ALL secondary courses.

### Equivalency

### Rationale

Course no longer needed according to new program goals and moving forward.

College of Arts and Sciences - Religious Studies - Religious Studies Major, BA

2024-2025 UG Revise Program

General Catalog Information

College* College of Arts and Sciences

Department* Religious Studies

Program Name* Religious Studies Major, BA

Degree Type* Bachelor of Arts

Program Type* Undergrad (Major)

General Instructions for Description

This field is only for the introductory program text at the top of the page. All other program information and requirements must be entered into the "Requirements" field below.

Description

General Instructions for Requirements

All program requirements must be entered into the Requirements field below.

If you are adding cores for campus code or certificate type, enter all applicable cores in the order they are listed using the content exactly as it appears below. For additional information or examples, please see the Curricular Submission Guide.

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Requirements*
**Rationale**

This proposal adds newly proposed courses to the program Catalog page. It also adds an online version for the major.

We currently offer an online minor and have found that there is a demand for an online version of our major. The two required courses, REST 499 and REST 300, will be offered online in addition to in-class sections. We currently offer online classes in each of our four categories: A. Mediterranean and the Middle East, B. North America and Africa, C. South, Southeast, and East Asiaa, D. Methods and Issues in Religious Studies. We also offer a number of 200-level courses online courses each year.

**Financial Impact**

None

**Impact on Other Units**

None. The cross-listed courses that will be a part of this online major are currently offered online.

**Have you consulted with all programs/departments that will be impacted by this change?**

☐ Yes ☐ No

Campus Code options should be entered from the following list: Knoxville Campus, Distance Ed, Nashville Campus, UTSI

Certificate Type options should be entered from the following list: Add-On, Stand-Alone

Requirements*
Rationale*: This proposal adds newly proposed courses to the program options. It also adds an online version of this degree. We currently offer an online minor and have found that there is a demand for an online version of our Religion and Nonprofit Leadership Concentration. Three of the required courses, REST 499, REST 300, and 301 will be offered online in addition to in-class sections. The other required course, REST 494, is an internship. We currently offer online classes in each of our four categories: A. Mediterranean and the Middle East, B. North America and Africa, C. South, Southeast, and East Asiaa, D. Methods and Issues in Religious Studies. We also offer a number of 200-level courses online courses each year.

Financial Impact*: None

Impact on Other Units*: None. The cross-listed courses that will be a part of this online major are currently offered online.

| Which committee(s) must make a decision or be informed about this submission? | UG Curriculum Committee |
On the recommendation of the CAS Curriculum Committee, the Dean’s Cabinet decided to remove the writing-emphasis designation from the CAS Catalog as a procedural error. The designation does not preclude earning a degree since it is not a program or college-wide requirement. Instead, many students confuse it with the WC Vol-Core requirement, resulting in their disappointment and frustration when they complete a writing-emphasis course but do not receive WC credit. Thus, to simplify the College’s curriculum and to clarify its connection with University Vol Core requirements, the College will remove the designation from the Catalog page.

The attached file has the list of all Undergraduate Courses that will have the writing-emphasis designation removed. All departments and colleges with courses in the list have been notified, and any courses that CAS departments requested to have an additional line to replace the writing-emphasis designation have been processed as "UG Revise Course" proposals. Undergraduate courses also listed in the Graduate Catalog have been updated in "Grad Revise Course" proposals. The UG Curriculum Committee should review this proposal to accompany the revise course proposals that it will review in tandem for Cycle 4.

College of Arts and Sciences - SOCI - 492

2024-2025 UG Revise Course

General Catalog Information

College* College of Arts and Sciences

Department (Acalog Hierarchy)* Sociology

Subject/Prefix (choose from list)* SOCI

Course Number/Code (max 4 characters: 3 numerals and optional 1 letter: N, R, S)* 492

Course Title (max 100 characters)* Internship

Variable Title? Yes

Credit Hours* 3

Course Description

The course provides junior and senior sociology and global studies majors and minors with the opportunity to receive credit for an extended off-campus internship doing work related to their field of study or professional goals. According to the National Association of Colleges and Employers (NACE), an internship “is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths; and give employers the opportunity to guide and evaluate talent.” Through participation in class discussions, course assignments, and the internship, students will apply knowledge and skills learned in previous coursework to real-world issues; develop a professional practice consistent with their sociological imagination; and gain structured exposure to a meaningful work experience.

Will this course be crosslisted? Yes
