Skye van Duuren
2017
Instrumentation

Flute (doubling piccolo)
B♭ Clarinet (doubling bass clarinet)
Trumpet in C
Tenor trombone
Piano
Marimba
Violin
Cello

Total duration: approximately 17 minutes

Pitch adjustment graphs in Manifestations

This score has been prepared for perusal. Performers need not take note of the microtonal elements in *Manifestations*, as these elements are to be added after the performance in electronic post-production. For the purposes of this score, pitch adjustment graphs appear beneath each standard notation staff. This special staff is essentially a grand staff, with two sets of five lines. Each diatonic step, a line or a space, represents 5 cents; there are no intervals smaller than 5 cents. A black bar denotes the cents above or below the respective equal tempered note assigned to the instrument. For values exceeding ±50 as well as for a value of 0, leger lines appear before the black bars to assist in identification and analysis.

*Manifestations* may be performed live, in standard equal temperament, entirely independent of the microtonal elements. To request parts and/or a score without the pitch adjustment graphs, contact the composer at skyevanduuren@gmail.com.
