1) Make a Working Model of Your Building with Accessible Software
2) Consider Possible Modifications
3) Sketch Possible Modifications
4) Take a Trip to the Salvage Yard & Sketch Potential Use of Found Objects
5) Take Dimensions of Objects
6) Model Found Objects for Fit
7) Acquire a Pickup Truck & Return to Salvage Yard to Make Purchases
8) Borrow or Buy Tools for Assembly
9) Enlist the Help of Your Friends
10) Implement Modifications in Accordance with the Revised Design Guidelines for Knoxville’s Early Commercial Buildings
