   - Second Monitoring Report: Required Response
     “Provide evidence of completed assessments of undergraduate programs in the humanities and all graduate programs on the UTK campus. All program assessments should include direct measures of student learning and evidence of using the results for program improvement.”

5. Three Minute Thesis Competition
Carolyn Hodges, Vice Provost and Dean of the Graduate School, reported the following:

- The Graduate school plans to organize for later in the fall a campus-wide doctoral student competition and is seeking assistance from among the graduate associate deans to organize it. The competition, referred to as the "Three-Minute Thesis," or 3MT, is a research competition developed by The University of Queensland which challenges students to present a compelling presentation of their dissertation research and its significance in just three minutes and with one slide in language appropriate to a non-specialist audience. There will probably be three to four prizes offered by the Graduate School for various categories, and the overall campus winner will receive support from the Graduate School to go to a regional competition in San Antonio in February to be held at the annual meeting of the Conference of Southern Graduate Schools. Dean Hodges will appoint a committee to begin work on the initiative.

- The orientation for new graduate students was held on August 13 in the University Center. The Graduate Student who worked with staff in the Graduate School included members of the Graduate Student Senate and graduate research assistants in the Graduate School. The students are to be commended for their hard work and success in organizing and launching the program, which was attended by nearly 600 students. We are in the process of analyzing the online survey (also designed by the students) to assess the impact and use as a basis for future orientations.

6. First Year of ADMIT: Reflections
Yvonne Kilpatrick, Director of Graduate Admissions, reported it was this time last year that Office of Graduate Admissions was anticipating launching the ADMIT program to process applications for Fall 2013. Overall, good feedback has been received from the academic programs about the functionality that is available to them. Office of Graduate Admissions staff engaged in the following activities that provided feedback, giving us direction in our efforts to continuously improve the process:

- Applicant survey—examples of recurring responses were that applicants would like to submit all materials in one location, and applicants were confused by inconsistencies in application instructions on the program website pages as compared to the Graduate Admissions website. As Office of Graduate Admissions staff approaches the next application cycle, we are very close to full participation by programs in adding their supplemental materials to the on-line application. We are also making efforts to work with departments to correct inconsistencies in application instructions.

- Feedback sessions with program faculty and staff—on June 4 Office of Graduate Admissions staff hosted four feedback sessions in which faculty and staff were able to share their impressions of the new system from their perspective. Colleagues from CollegeNet spent the day listening to the feedback. Some issues were resolved immediately by providing additional information to faculty and staff. Other issues were resolved by CollegeNet developers or within Graduate Admission staff working groups.

- A self-study was conducted by the Office of Graduate Admissions. Working groups met throughout the summer to modify practices that may not contribute to the efficiency of the process.
7. **New Applicant Service Features for Fall 2014**
   Greg Tipps, Associate Director of Graduate Admissions, reported that two new applicant services will be available for applicants applying for Fall 2014. These services are as follows: 1) The applicant checklist will be available to the applicant through the application portal. Currently, applicants must enter a different portal to check their status. The checklist will have the capability of listing both the Graduate School material requirements and the department material requirements. 2) Decision letters will also be available within the secure portal and will no longer be sent to the applicants by way of e-mail.

8. **Other**
   Sandra Leach, Associate Dean and Professor, Library, announced the Library will host an Open House for graduate students on August 23, at 1:00 on first floor of Hodges Library. Meeting librarians, learning about library express, and door prizes are some things that will be featured.

   The Graduate Deans’ Group SharePoint site will display the agenda, minutes, members and other information.
