It has been accepted for inclusion in News and Opportunities by an authorized administrator of Trace: Tennessee Research and Creative Exchange. For more information, please contact trace@utk.edu.
Eric Drumm is the new head of the Department of Biosystems Engineering and Soil Science of Veterinary Medicine. Thompson's appointment is effective Oct. 1. He will be the fifth dean of the College in the College of Agricultural Sciences and Natural Resources. He began his duties on 1 August. Drumm comes to the post from a professorship in the Department of Civil and Environmental Engineering. He has been on the UT Knoxville faculty since 1983.

Drumm heads biosystems department

The Office of Information Technology is sponsoring a kickoff celebration for the MATLAB suite of applications on August 27 and 28 in the Shiloh Room at the University Center. UT Knoxville faculty, staff, and students will be able to download and use MATLAB, Simulink, and 54 companion products that allow for a variety of sophisticated computational and simulation activities. Cleve Moler, the author of the original MATLAB code and the founder of MathWorks, will keynote the celebration, and engineers from MathWorks will provide training sessions. More information: oit.utk.edu/matlab

Nanocenter user meeting features film festival

The Center for Nanophase Materials Sciences and the Shared Research Equipment User Facility will hold their 2008 annual user meetings jointly at Oak Ridge National Laboratory from noon, Sept. 24 through noon, Sept. 2. The user meeting includes oral presentations, poster sessions, tours, workshops, and tutorials that illuminate the scope of nanoscience research and acquaint researchers with the resources available for nanoscience and advanced electron microscopy through the two centers. The event will include the RidgeDance Nanoscience Film Festival, featuring video and still images produced during research on nanoscale projects. Deadline for registration: September 12, 2008

ONR mandates Grants.gov

Beginning immediately, the Office of Naval Research will accept responses to Broad Agency Announcements for fiscal year 2009 only through Grants.gov. ONR will not accept submissions of applications from any other source.

Tip on file submissions

Grants.gov guidelines typically specify what types of files can be used in sending a submission: Word, rich text, pdf, etc. However, at present Grants.gov and its PureEdge application package will not accept Word files generated in Microsoft Office 2008. These files should be saved as an earlier version of MS Word.

New dean named for College of Veterinary Medicine

The UT Institute of Agriculture has named James P. Thompson as dean of the UT College of Veterinary Medicine. Thompson’s appointment is effective Oct. 1. He will be the fifth dean of the college, which is one of only 28 such colleges in the United States.

Drumm leads biosystems department

Eric Drumm is the new head of the Department of Biosystems Engineering and Soil Science in the College of Agricultural Sciences and Natural Resources. He began his duties on 1 August. Drumm comes to the post from a professorship in the Department of Civil and Environmental Engineering. He has been on the UT Knoxville faculty since 1983.
**Research Grants from Pfeiffer**

The Gustavus and Louise Pfeiffer Research Foundation provides grants of up to $75,000 for researchers in medicine and pharmacy, including research in nutrition, blindness, deafness, and other disabilities. The University of Tennessee, as accredited, can submit no more than three letters of inquiry every six months. UT researchers must contact Bill Dockery at dockeryb@utk.edu if they intend to seek Pfeiffer Foundation funding.

**Deadline:** January 8, 2009

---

**DOE Clean Coal Power Initiative, Round 3**

The Department of Energy's National Energy Technology Laboratory has announced its final funding opportunity for the Clean Coal Power Initiative, Round 3. The solicitation specifically targets advanced coal-based systems and subsystems that capture and sequester, or put to beneficial use, carbon dioxide emissions.

**Deadline to UTOR:** January 8, 2009, 8 a.m.

**NSF Arctic Research Opportunities**

The National Science Foundation is soliciting proposals that will conduct research on topics in natural sciences, social sciences, system science, and observing networks in the Arctic.

**Deadline to UTOR:** November 11, 2008, 8 a.m.

**NSF Proactive Recruitment in Introductory Science and Mathematics (PRISM)**

The National Science Foundation is seeking to increase the numbers of well-prepared, successful U.S. undergraduate majors and minors in science and mathematics through its PRISM program, which will support innovative, potentially transformational partnerships between the mathematical sciences and other sciences or engineering disciplines. Proposals must include a principal investigator from a department of mathematical sciences and at least one co-PI from another science or engineering department.

**Deadline to UTOR:** February 9, 2009, 8 a.m.

**Philip B. Crosby Medal**

The American Society for Quality is seeking nominations for the Crosby Medal, which recognizes a distinguished book on the philosophy and applications of the principles, methods, or techniques of quality management. Internal coordination is required, and there are limits on what organizations can be nominators.

**Deadline:** October 1, 2008
