Conf. with Dr. Chas. Cleland, Ombudsman.

Present: Dr. Cleland and J. Phillips

Dr. Cleland's office has been in operat. since last Sept. It is directed primarily to matters of student concern, although on occasion he has dealt with faculty and non-faculty personnel concerning matters affecting student interests. Since being in operation, he has had 370 cases. A list of categories of cases for the spring quarter is attached. Also attached is the confidential info. sheet which he has every complainant fill out.

Dr. Cleland tries to work thru channels and to avoid appear. to be a threat to faculty or admin. If there is some other approp. office that the student has not consulted, Dr. C. will first refer tht student to that office.

He has insisted that the office remain indep. Therefore he has retained his faculty appt. (tho' he does not teach) and continues to do agric. research. He arranged with the Chancellor to have the office init. estab. only for 2 yrs., w/ a review at the end of that period to determ. Whether the office is effective and is doing its job, and whether it should be continued.

To date very few blacks have come thru his office - perhaps 6-8. Dr. C. is concerned about the law visibility of the office. He has made contacts with leading blacks on campus, such as Boston, Peek and Hawkins, and in some cases they have referred matters to him. He is a member of the H.R.C., and in some instances matters have been referred from the Council.

A curious phenomenon has been recurrent dress problems in the dept. of polit. sci. To date there have been three such cases -- all involving black students, concerning wearing black glasses or hats or both in class, and involving teaching assistants . . . a different one in each case and in one case a black T.A. The T.A.'s in all cases insist that they have the right to insist on dress codes, and the dept. is about equally divided regarding
whether this is a matter of acad. freedom. One of these cases has just recently occurred.

There was a poorly handled theft investigation in one of the dorms involving a black student and Safety-Security. The student was found not to be involved, but complained bitterly over the apparently discrim. lineup techniques used.

There appears to be discrim. treat. in the lower ranks of food services. Mr. Bennett's office has apparently been unable or unwilling to get to the root of the problem, and superiors in food services seem only concerned with an efficient operat. Dr. C. may become more deeply involved in the matter, tho' strictly it is not w/i the jurisd. of his office.
