METHODS OF REGULATING ENROLLMENT FOR 1976-77

I. First Time Freshmen*

Sufficient number of first time freshmen applicants will be admitted to yield approximately the same number of enrollees in the Summer and Fall Quarters, 1976 as were enrolled for the Summer and Fall Quarters, 1975. Applicants will be admitted based on date of receipt by the Office of Admissions and Records of their completed application, fee, and initial high school credit sheet. The out-of-state student must have also submitted his/her ACT scores prior to admission.

A waiting list will be established by date of receipt of completed applications as described above. As vacancies occur, individuals from the freshman application waiting list will be admitted.

Out-of-state scholarship students and children of alumni of UT campuses will continue to be required to meet the same criteria for admission as in-state students. A sufficient number of positions will be reserved for holders of University merit or service scholarships.

II. Transfer Students*

A. Sufficient number of transfer students who have completed 12 to 44 quarter hours by the time their application is processed will be admitted to yield the approximately same number of enrollees for Summer and Fall Quarters, 1976 as enrolled in the Summer and Fall Quarters, 1975. Applicants will be admitted based on date of receipt of completed application, fee, and transcript of work at other institutions. Applicants exceeding the limit within this category will be placed on a waiting list. As vacancies occur, individuals from this waiting list will be admitted.

B. Sufficient number of transfer students who have completed 45 to 89 quarter hours by the time their application is processed will be admitted to yield the approximately same number of enrollees for Summer and Fall Quarters, 1976 as enrolled in the Summer and Fall Quarters, 1975. Applicants will be admitted based on date of receipt of completed application, fee, and transcript of work at other institutions. Applicants exceeding the limit within this category will be placed on a waiting list. As vacancies occur, individuals from this waiting list will be admitted.
C. No limit will be imposed upon admissions of applicants who will have completed 90 or more quarter hours by the quarter in which they desire to enroll (either Summer of Fall) except by properly approved, necessary limits by discipline.

D. In cases of requests to transfer into the School of Nursing or School of Architecture, if the enrollment limitation has been reached, applicants will be advised that they cannot enter the program but may apply to enroll in another program if they desire.

Any limitations on undergraduate enrollments in programs must be approved by the appropriate Dean and Vice Chancellor before being instituted.

E. In programs with limited enrollment, intra-institutional transfers will be considered and approved by the University Admissions Committee on the same basis as inter-institutional transfer students.

III. Graduate Students

No limit will be imposed on the admission of applicants to graduate programs except as necessary by program. Enrollment limitation in any program must be approved by the appropriate Dean and Vice Chancellors.

IV. Evening and Off-Campus

No limitations will be imposed on admission of applicants to these programs.

V. Reapplications

It will be recommended to the various readmissions committees that marginal students not be readmitted except in extremely unusual cases.

VI. Full-time Faculty and Staff Taking Courses

These limitations will not be applied to full-time faculty and staff taking courses as a fringe benefit of University employment provided by the Educational Assistance Personnel Policy dated May 9, 1975.

*The level of funding for Fiscal Year 1977 may necessitate some adjustments in number of freshmen and transfer students admitted.
