FOREWORD

This 1984-85 Directory of Tennessee Municipal Officials is the 40th issue of the directory series. It is compiled from information submitted by the state's 334 municipal governments. Every effort has been made to make the entries current, complete, and correct. For cities that did not submit updated data, it was necessary to rely upon the latest information available in MTAS files.

To all city officials who contributed information, we are grateful. Without their cooperation, publication of the directory would not be possible.

Copies of the directory are available on a complimentary basis to officials of all Tennessee municipalities to agencies of Tennessee state government, and to public libraries. Others wishing to obtain the directory may do so on a prepaid basis. Changes in municipal officials are published in the Tennessee Town & City newspaper.

Comments and suggestions regarding the directory's use and improvement are welcomed.

C. L. Overman

GUIDE TO USE OF THIS DIRECTORY

After the name of each city, in parentheses, is the city's address and zip code, then the county in which the city is located. Next is a letter showing in which grand division of the state the city is located, East, Middle, or West. The figure following this letter is the population (see third paragraph, this page). The last entry on this line is the area code and telephone number of the city hall or office. If there is no city hall or office, the number is for an official's home or place of business. On the second line is the time and place of the meetings of the governing body and the date of the next city election. On the third line is any closing of city offices (other than the usual Sunday and holidays). This information was not obtainable for some cities, and some cities do not have a city office.

If the phone numbers for departments differ from the principal number, this information was requested and appears in the department listing. The numbers are as they were submitted by each city and have not been verified by MTAS.

Population data for municipalities are presented on the next four pages: first in alphabetical order then in descending order, according to population. These population figures are as of July 1, 1983, as certified by the Tennessee State Planning Office. The next five pages list cities by counties, under the three grand divisions of the state, followed by counties and their populations according to 1980 U. S. Census.

A key to the abbreviations used for position titles, grouped by functions:
