**Abstract:**

Based on true stories, this workshop will reshape what was previously believed to be impossible. The key of this workshop is to prove women have always owned the power to alter how they’ve been treated. “Women set the standards on how they want to be treated. She’s the gate and he pays a fee. Sometimes it’s free, discounted or full price. No matter what, it’s her choice” - Egypt.

Most women don’t want to change a bad boy into a good man, nor is this workshop aimed at doing so. We’re giving women tools to teach men how to handle a good thing. Even good men need a little tweaking, as well.

When we break down why many men are, “no good”, why the “good” men are ignored and how to curve the negative attributes or behaviors of the so-called, “Bad boy” we will leave this workshop with a scientific, biblical and psychologically factual base on how to truly... change a man. **Workshop for women but men are invited.**
