State Street Aid
Fund Expenditures
On the Road to Understanding

Updated by
Ron Darden
Municipal Management Consultant
The Municipal Technical Advisory Service (MTAS) was created in 1949 by the state legislature to enhance the quality of government in Tennessee municipalities. An agency of The University of Tennessee’s Institute for Public Service, MTAS works in cooperation with the Tennessee Municipal League and affiliated organizations to assist municipal officials.

By sharing information, responding to client requests, and anticipating the ever-changing municipal government environment, MTAS promotes better local government and helps cities develop and sustain effective management and leadership.

MTAS offers assistance in areas such as accounting and finance, administration and personnel, fire, public works, law, ordinance codification, communications, and wastewater management. MTAS houses a comprehensive library and publishes scores of documents annually.

All MTAS publications are free to Tennessee city, county, state, and federal officials. There is a charge for all private sector requests.

Photocopying of this publication in small quantities for educational purposes is encouraged. For permission to copy and distribute large quantities, please contact the MTAS Knoxville office at (865) 974-0411.

GASOLINE TAX

The Tennessee Legislature has authorized the state to distribute a portion of proceeds from the state gasoline and motor vehicle fuel tax to incorporated cities and towns to use for maintaining and improving municipal streets. The state gasoline tax is 20 cents per gallon plus a 1 cent per gallon special privilege tax. Cities receive:

- 14.3 percent of the first 9 cents per gallon;
- From the next 3 cents per gallon, 14.3 percent of the first 2 cents per gallon and 33.33 percent of the next 1 cent per gallon;
- From the next 4 cents per gallon, 33.33 percent of 1 cent per gallon;
- Also, 2.572 cents per gallon from the total 20 cents per gallon tax distributed on a per capita basis;
- An additional $619,833 per month on a per capita basis from the 1997 special privilege tax.

The state diesel tax is 17 cents per gallon. Cities receive 12.38 percent of 12 cents per gallon from this tax, which is 1.4856 cents.

The proceeds from these taxes are paid monthly to local governments on a per capita basis. The law requires that gasoline and motor vehicle fuel tax monies be used for street-related purposes. The law further requires that these funds be accounted for separately in a special revenue fund, commonly called the State Street Aid Fund or Gas Tax Fund. Cities may ask permission from the state comptroller’s office to account for these funds in the General Fund if certain requirements are met. Finally, the law also provides some very specific examples of how these funds can and cannot be spent.

Local officials now have almost 50 years of experience in using these funds for street improvements, and they have seen changes in the activities that can be funded by these taxes.

Tennessee Code Annotated (T.C.A.) 54-4-201 redefines “street” by adding public owned rights-of-way and deleting “but does not include state and federal highways.” “Street improvements” were redefined to include “cleaning, maintenance of rights-of-way, lease or lease/purchase of trucks, lighting, signage, and other traffic control devices and administrative and other expenses including labor and employee benefits, in connection with street improvements.” The requirement that state street aid funds are earmarked only for local governments that appropriate as much local revenue for streets for the coming fiscal year as the average they spent over the past five years (the old Maintenance of Effort form required by T.C.A. 67-3-601) has been repealed.
To help you understand the proper receipt and disbursement of this tax money, we have grouped together five topic areas and included a copy of the applicable sections of the *T.C.A*.

**General and Administrative**

**State street aid funds CAN pay:**
- Valid administration expenses connected with issuing street improvement bonds;
- Principal and interest on street improvement bonds issued after February 19, 1953;
- Street work supervision fees;
- Workers’ compensation insurance for employees engaged in street improvement activities;
- General and automotive liability insurance coverage for street improvement activities;
- Property insurance coverage for portions of buildings used to store and maintain street improvement equipment.

**State street aid CANNOT pay:**
- Auto expenses for the city recorder;
- Salary supplements to the street superintendent;
- Loans temporarily borrowed from the municipal state street aid fund;
- Audit fees;
- Recorder’s commission;
- Personal damages;
- Property damages;
- Office assistance;
- General administrative expenses.

**Be careful:**
- If a city pays the total cost of curb and gutter improvements from state street aid funds but has assessed the abutting property owners for two-thirds of the cost, the funds derived from the assessments must remain available for other qualified street projects;
- Interest received by a municipality from the investment of state street aid funds is subject to the same restrictions as the state street aid fund money.

**Construction**

**State street aid funds CAN pay for:**
- Engineering fees for street improvements;
- Constructing sidewalks along city streets;
- Acquiring rights-of-way for city streets;
- Widening and/or draining a creek to prevent city street flooding where protecting other property will be an incidental benefit;
- The payment of up to one-third of the city’s rights-of-way acquisition costs for a state highway through the city.

**State street aid funds CANNOT pay for:**
- Extending municipal sewer lines, even if tunneling under city streets is necessary;
- Drainage improvements not associated with protecting a street.

**Be careful:**
- Funds may not exceed one-third of the total costs of rights-of-way for state and federal highways within the municipality.
Repair and Maintenance

State street aid funds CAN pay for:
• Purchasing machinery to repair and maintain municipal streets;
• Purchasing and maintaining equipment for mowing areas within street rights-of-way;
• Removing dead trees, tree limbs, leaves, and similar objects;
• Purchasing a boiler for an asphalt plant if it used to heat asphalt for street improvements;
• Purchasing street cleaning equipment.

State street aid funds CANNOT pay for:
• Maintaining county roads;
• Purchasing refuse collection equipment.

Be careful:
If the purchase of a piece of equipment is questionable, spend the money instead on purchasing equipment, supplies, or paving that is not questionable.

Street Signs and Street Lights

State street aid funds CAN pay for:
• Erecting street signs;
• Installing and maintaining traffic lights;
• Installing street lights and paying electric bills for street lights.

State street aid funds CANNOT pay for:
• City “Welcome” signs;
• Community event and general informational signs.

Other Facilities

State street aid funds CAN pay for:
• Purchasing, constructing, repairing, or leasing a facility to store street equipment, street lighting, signs, and other traffic control devices;
• Improvements to public-owned parking areas.

General

Municipalities receive allocations on a per capita basis according to population on the last federal census or the city’s special census as amended by State Planning Commission certification letters. Any increase in allocation as a result of a change in population takes effect on July 1 following the population certification.

Municipalities CANNOT:
• Combine state street aid funds with streets and transportation funds appropriated for distribution to municipalities on a per capita basis. However, cities may ask for permission to account for state street aid funds within the General Fund if certain conditions are met. Approval from the state comptroller’s office is required.
• Use public equipment to build roads, bridges, or conduct other work on private property.
FROM Tennessee Code Annotated

54-4-201. Definitions. As used in this part, unless the context otherwise requires:

(1) “Municipal street aid fund” means the funds provided for municipalities by §§ 67-3-617 and 67-3-812;

(2) “Municipality” means any incorporated city or incorporated town charged with the duty of constructing and maintaining streets within its corporate boundaries;

(3) “Street” includes streets, highways, avenues, boulevards, publicly owned rights-of-way, bridges, tunnels, public parking areas or other public ways dedicated to public use and maintained for general public travel lying within a municipality’s corporate boundaries; and

(4) “Street improvements” means construction, reconstruction, improvement and maintenance of streets, including paving, repaving, grading and drainage, repairs, cleaning, acquisition and maintenance of rights-of-way, extension and widening of existing streets, elimination of railroad grade crossings, acquisition or lease or lease/purchase of trucks or other equipment necessary in the construction and maintenance of streets, including the purchase, construction or leasing of facilities to store the equipment, street lighting, signage and other traffic control devices, and administrative and other necessary expenses, including labor and employee benefits, in connection with such street improvements. [1981 Pub.Acts, c. 366, § 9; 1981 Pub.Acts, c. 418, § 6; 1993 Pub.Acts, c. 178, § 1, eff. April 13, 1993.]

54-4-203. Distribution of funds—Basis—Special census.

(a) Funds in the municipal street aid fund shall be distributed to eligible municipalities within the state monthly by the commissioner of finance and administration, or such other official as now or may be hereafter charged with the duty of allocating or distributing state funds, in proportion as the population of each municipality bears to the aggregate population of all municipalities according to the 1950 federal census or any subsequent federal census; provided, that in the case of any area annexed to a municipality subsequent to the latest federal decennial census the municipality may have a special census within the annexed area taken by the federal bureau of the census or in a manner directed by and satisfactory to the state planning office, in which case the population of the municipality shall be revised and increased in accordance with the special census for purposes of distributing such funds, effective on the next July 1, following the certification of the census results to the commissioner; and provided further, that the aggregate population of all municipalities used as a base for calculating such distribution shall be adjusted in accordance with any such special census, effective the same date as aforementioned.

Any eligible municipality incorporated after the last federal decennial census may likewise have a special census taken, and shall share in the distribution of the municipal street aid fund beginning on the next July 1, following certification of the census results to the commissioner; the aggregate population shall likewise be adjusted in accordance with any such special census, effective the same date as aforementioned.
(b) Any municipality shall have the right to take not more than three (3) special censuses at its own expense at any time during the interim between the regular decennial federal census. Such right shall include the current decennium. Any such census shall be taken by the federal bureau of the census, or in a manner directed by and satisfactory to the state planning office. The population of the municipality shall be revised in accordance with the special census for purposes of distribution of such funds, effective on the next July 1, following the certification of the census results by the federal bureau of the census or the state planning office to the commissioner of finance and administration; the aggregate population shall likewise be adjusted in accordance with any such special census, effective the same date as aforementioned; provided, that any other such special census of the entire municipality taken in the same manner provided herein, under any other law, shall be used for the distribution of such funds, and in that case, no additional special census shall be taken under the provisions of this section.

(c) Notwithstanding the foregoing, a “premiere tourist resort city,” defined as a municipality having a population of one thousand one hundred (1,100) or more persons, according to the federal census of 1980 or any subsequent federal census, and in which at least forty percent (40%) of the assessed valuation (as shown by the tax assessment rolls or books of the municipality) of the real estate in the municipality consists of hotels, motels, tourist court accommodations or tourist shops and restaurants, shall be considered a city with a population of ten thousand nine hundred forty-five (10,945) for purposes of distribution of funds under this section.[1957 Pub.Acts, c. 362, § 1; 1974 Pub.Acts, c. 514, § 1; 1981 Pub.Acts, c. 366, § 6; 1984 Pub.Acts, c. 708, § 1; 1995 Pub.Acts, c. 135, § 1, eff. April 21, 1995.]

§ 67-3-2001. Gasoline Tax; distribution of receipts; expenses of administration; utility relocation loan program.

(a) The commissioner shall apportion for distribution all of the taxes collected pursuant to § 67-3-1301, and shall inform the department of finance and administration as to the proper amounts of all distributions to be made therefrom.

(b) Revenues from the tax imposed by § 67-3-1301 shall be apportioned for distribution in the following order:

(1) Amounts required to be paid to the state sinking fund pursuant to title 9, chapter 9;

(2) Of the amounts designated hereafter for distribution to the counties, cities and highway fund, one percent (1%) shall be subtracted from the amount designated for cities, one percent (1%) shall be subtracted from the amount designated for counties, and two percent (2%) shall be subtracted from the amount designated for the highway fund for distribution to the general fund for expenses of administration prior to the distribution of the funds to the cities, counties or highway fund;

(3) Twenty-eight and six-tenths percent (28.6%) of total taxes collected to the various counties of the state on the basis set out in § 54-4-103;

(4) Fourteen and three-tenths percent (14.3%) of total taxes collected to the various municipalities, as defined by § 54-4-201, on the basis set out at § 54-4-203; and
(5) Any funds remaining after the distributions set out above to the highway fund. There shall be accumulated and set apart within the fund such amounts as required, not to exceed one million five hundred thousand dollars ($1,500,000) during each of four (4) succeeding fiscal years, which shall be available for carrying out the utility relocation loan program, established in subsection (j).

(c) Revenues from the increases in taxes imposed by Acts 1985, ch. 419, and Acts 1985, ch. 454, effective 1985, shall be distributed in accordance with the following formula:

(1) Two cents (2¢) of such revenues shall be apportioned pursuant to subsection (b); and

(2) One cent (1¢) of such revenues shall be apportioned as follows:

(A) Of such amount designated hereafter for distribution to the counties and cities, one percent (1%) shall be subtracted from the amount designated for cities and one percent (1%) shall be subtracted from the amount designated for counties for distribution to the general fund for expenses of administration prior to the distribution of the funds to the cities or counties;

(B) Sixty-six and two-thirds percent (66 2/3%) of such revenues collected to the various counties of the state on the basis set out in § 54-4-103; and

(C) Thirty-three and one-third percent (33 1/3%) of such revenues collected to the various municipalities, as defined by § 54-4-201, on the basis set out in § 54-4-203.

(d) Notwithstanding any provision of the law to the contrary, a county shall be eligible to receive those revenues to be distributed directly to it from the tax increases imposed by Acts 1985, ch. 419, and Acts 1985, ch. 454, effective 1985, only if it appropriates and allocates funds for road purposes from local revenue sources in an amount not less than the average of the five (5) preceding fiscal years, except bond issues and federal revenue sharing proceeds shall be excluded from the five (5) year average computation. If a county fails, after July 1, 1985, to so appropriate and allocate at least such average amount for road purposes, then the amount of revenues which would otherwise be allocable to such county from the revenues derived by §§ 67-3-1703 and 67-3-1704 as those statutes existed on July 1, 1985, shall be reduced by the amount of the decrease below such average. The amount of such funds not allocated to such county because of such decrease shall be allocated to the state highway fund, to be used by the department of transportation for the improvement of state highways in such county, and such state funds shall be in addition to the funds otherwise allocated for improvements in such county in that fiscal year.

(e) Funds apportioned to counties under the provisions of Acts 1985, ch. 419, shall be used for resurfacing and upgrading county roads, including the paving of gravel roads. Any expenditure for equipment shall be approved by a two-thirds (2/3) vote of the county legislative body, prior to purchase.

(f) Revenues from the increases in taxes imposed by §§ 67-3-1703 and 67-3-1704 as those statutes existed on June 1, 1986, shall be distributed and allocated as follows:
(1) Revenue from the first three cents (3¢) per gallon of such increases in taxes shall be apportioned as follows:

(A) Amounts required to be paid to the state sinking fund pursuant to title 9, chapter 9;

(B) Three million dollars ($3,000,000) per annum, beginning on July 1, 1986, to the highway fund for the use and benefit of certain mass transit projects; and

(C) All other amounts to the highway fund to be used for accelerating the resurfacing of the state system of highways in order to establish a twelve-year cycle of resurfacing with implementation beginning in 1986 and being completed by 1998, and for new construction in the primary system of highways over the period from 1986 to 1999; and

(2) Revenue from one cent (1¢) of such increases in taxes shall be apportioned as follows:

(A) Of such amount designated hereafter for distribution to counties and cities, one percent (1%) shall be subtracted from the amount designated for counties, and one percent (1%) shall be subtracted from the amount designated for cities for distribution to the general fund for expenses of administration prior to the distribution of the funds to the counties or cities;

(B) Sixty-six and two-thirds percent (66 2/3%) of such revenues collected to the various counties of the state on the basis set out in § 54-4-103; and

(C) Thirty-three and one-third percent (33 1/3%) of such revenues collected to the various municipalities, as defined by § 54-4-201, on the basis set out in § 54-4-203.

(g) Prior to the apportionment set out in subsections (b), (c), (d) and (f), there shall be apportioned for distribution to the wildlife resources fund, for use exclusively in the administration of the Boating Safety Act of 1965, compiled in title 69, chapter 10, part 2, an amount equal to one thousand seventy-four ten thousandths of one percent (.1074%) of the taxes collected under § 67-3-1301, exclusive of tax revenues resulting from the three cents (3¢) per gallon gasoline tax increase imposed by Acts 1989, ch. 46.

(h) All revenues and investment income derived from the increase in the gasoline tax rate imposed by Acts 1989, ch. 46, shall be placed in the state highway fund, and shall not be subject to the apportionment and distribution provisions of subsection (b).

(i) Revenues from the one cent (1¢) increase in taxes (from nineteen cents (19¢) to twenty cents (20¢)) imposed by §§ 67-3-1703 and 67-3-1704, as those statutes existed under prior Tennessee law immediately after Acts 1989, ch. 241, became effective, shall be apportioned as provided in subdivision (f)(2).

(j) (1) From the amounts accumulated and set apart pursuant to the provisions of subdivision (b)(5), there is hereby established a “utility relocation loan program” for loan financing of all costs incurred by any county, town, city, metropolitan government, utility district, authority or not-for-profit business organizations empowered to provide utility services which provide utility services to customers related to relocating, moving or re-installing their utility facilities, without any additions thereto, when located
within rights-of-way of highways on the system of state highways and required because of highway construction projects administered by the department of transportation.

(2) The utility management review board shall review applications for utility relocation loans. Only applicants which meet all of the following criteria may be recommended to the state funding board for loans:

(A) Are obligated to relocate, move or re-install its utilities due to a state highway project;

(B) Have been otherwise unable to obtain financing for such relocation at a reasonable cost on reasonable terms;

(C) Have established fees and charges for services of the utility to be effective immediately or over time sufficient to provide assurance of financial stability, and to agree to adjust such fees and charges periodically to insure timely payment of loan payments and costs of operation of the system;

(D) Have covenanted to take such actions necessary to be able to pay when due all loan payments.

(3) As part of its recommendation, the utility management review board shall recommend an estimated amount of the loan and an interest rate for the loan, utilizing an economic index based upon factors which include, but are not limited to, per capita incomes and property values of the applicant. Applicants falling within the lower economic scale on the index shall be eligible for lower interest rates. Loans may be recommended at no interest for terms of five (5) years or less. In determining its recommendations, the board may use any index or regulations promulgated pursuant to § 68-221-1005(b).

(4) The state funding board is empowered to make and administer loans from the funds and may establish such terms as it determines to be appropriate to carry out the terms of this subsection, subject to the following:

(A) Loans shall be for a term of fifteen (15) years or less, not to exceed the useful life of the relocated utilities, with no prepayment penalties;

(B) Loans shall be subject to such other terms, not inconsistent with the foregoing, as the board determines to be appropriate; and

(C) Prior to the start of each fiscal year, the secretary of the state funding board shall certify to the commissioner of finance and administration and the commissioner of transportation, the uncommitted balance in the loan program as of the start of the next fiscal year. For the fiscal year beginning July 1, 1999, through the fiscal year beginning July 1, 2002, additional funding in an amount not to exceed one million dollars ($1,000,000) per year may be accumulated and set apart within the state highway fund as may be necessary to bring the uncommitted loan program into balance as of each July 1, as may be required when the loan program balance falls to one hundred thousand dollars ($100,000).

(5) The provisions of this subsection shall not be construed to be an appropriation of funds and no funds shall be obligated or expended pursuant to this subsection unless such funds
are specifically appropriated through the department of transportation or as a specific amendment by the general appropriations act.

(k) Notwithstanding the provisions of § 54-2-103 or any other law to the contrary, a percentage of funds collected and allocated to the state highway fund shall be deposited in the general fund as follows:

(1) If the statute allocating funds to the state highway fund earmarks two percent (2%) or more of the revenue collected for the general fund, no additional allocation to the general fund shall be made;

(2) If the statute allocating funds to the state highway fund earmarks less than two percent (2%) of the revenue collected for the general fund, an amount equal to the amount necessary when added to the statutory earmark, if any, equals two percent (2%) of the revenue collected shall be earmarked for the general fund;

(3) If the additional revenues earmarked for the general fund as provided in subdivision (k)(2) are less than seven million dollars ($7,000,000.00) in the fiscal year ending June 30, 2001, and in subsequent fiscal years, the earmark for the general fund from the gasoline tax imposed under the provisions of § 67-3-1301 shall be increased in an amount sufficient to provide that the total amount earmarked for the general fund as provided in subdivision (k)(2) and this subdivision shall be seven million dollars ($7,000,000.00) in the fiscal year ending June 30, 2001, and in subsequent fiscal years.

(4) The allocation of funds as provided in this subsection shall not have an impact on any scheduled or ongoing construction projects; and

(5) The department of transportation shall submit any proposal for apportionment of costs resulting from the general fund allocation in this subsection to the state building commission for approval prior to implementing such proposal, including, but not limited to, the programs and projects to be affected and the amount proposed to be allocated to each such program or project.

(6) Except as provided in subdivision (4), it is the legislative intent that the effect of this subsection be allocated on a pro rata basis to any affected program or project.

The University of Tennessee does not discriminate on the basis of race, sex, color, religion, national origin, age, disability, or veteran status in provision of educational programs and services or employment opportunities and benefits.
