Erratum

ERRATUM

In the article "Distribution and habitat affinities of the blackmouth shiner (*Notropis melanostomus*) in Mississippi, including eight newly discovered localities in the Upper Pascagoula River Drainage" that appeared in *Southeastern Fishes Council Proceedings* 36 (March, 1998), the second sentence of the abstract incorrectly referred to the species as being "federally listed as threatened". The sentence should read as follows:

"Because of its limited distribution, the species is listed as imperilled by the Mississippi Natural Heritage Program and as threatened by the American Fisheries Society (Williams et al. 1989)."
